REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

Motorola, Inc.

401(k) Plan Committee

Schaumburg, Illinois

We have audited the accompanying statements of net assets available for benefits of the Motorola 401(k) Plan (the Plan) as of December 31, 2009 and 2008, and the related statement of changes in net assets available for benefits for the year ended December 31, 2009. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2009 and 2008, and the changes in net assets available for benefits for the year ended December 31, 2009 in conformity with U.S. generally accepted accounting principles.

Our audit was conducted for the purpose of expressing an opinion on the basic financial statements taken as a whole. The Supplemental Schedule H, Line 4i Schedule of Assets (Held at End of Year) is presented for the purpose of additional analysis and is not a required part of the basic financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The supplemental schedule is the responsibility of the Plan's management. The supplemental schedule has been subjected to the auditing procedures applied in the audit of the basic 2009 financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic 2009 financial statements taken as a whole.

MOTOROLA 401(k) PLAN

Notes to Financial Statements

December 31, 2009 and 2008

(1) Description of Plan

The following description of the Motorola 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

(a) General

The Plan is a defined contribution benefit plan sponsored by Motorola, Inc. and certain subsidiaries (the Company) covering substantially all domestic employees. Employees become eligible to contribute to the Plan immediately upon employment.

The non-leveraged employee stock ownership plan (the ESOP) portion of the Plan is designed to invest primarily in shares of the Company's common stock. The ESOP portion of the Plan is participant directed. Each participant is entitled to exercise voting rights attributable to the shares allocated to their account and is notified by the Trustee prior to the time that such rights are to be exercised. Dividends paid on the Company's common stock are allocated to the participant's account and reinvested in Company common stock or paid directly to the participant at the election of the participant. Since the Company did not declare dividends in 2009, there were no pass-through dividends in the Plan in 2009.

(b) Contributions

Participants may elect to contribute up to 30% of their pre-tax compensation, up to the annual deferral limit set by the Internal Revenue Code (IRC). The annual deferral limit as set by the IRC was \$16,500 in 2009. The Plan also allows for participants age 50 and older to contribute additional tax-deferred contributions. These catch-up contributions were subject to IRS limits of \$5,500 in 2009.

Effective January 1, 2009, Company contributions to the Plan were suspended until a future decision is made by Motorola to provide for such contributions.

(c) Participant Accounts

Each participant's account is credited with the participant's elective deferrals, allocations of Company matching contributions and plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances as defined in the Plan document. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Table of Contents

MOTOROLA 401(k) PLAN

Notes to Financial Statements

December 31, 2009 and 2008

(1) Description of Plan (Continued)

(d) Vesting

Participants are fully vested in their elective deferrals and related earnings at all times. A participant will be 100% vested in employer contributions and earnings thereon after they have completed an anniversary year. However, the participant becomes 100% vested in their account balances upon reaching normal retirement age, total and permanent disability, death, or Plan termination.

Participants who terminated employment prior to July 1, 2000, but chose to leave their account balances in the Plan are subject to forfeiture of the unvested portion of employer contributions upon the earlier of their withdrawal from the Plan, or the five-year anniversary of their employment termination. Terminated employees who have left their account balances in the Plan and are rehired by the Plan Sponsor within five years are not subject to forfeiture of their unvested employer contributions. The portion of employer contributions not vested upon termination of employment is forfeited and is used to offset Company contributions. As of December 31, 2009, forfeitures available for use were \$165,324. All unused amounts may be used to offset future Company contributions or pay Plan expenses.

(e) Benefits

At the option of the participant, distributions from the Plan may be made in the form of: (a) a lump-sum distribution with the option of receiving shares of Motorola stock or cash, (b) annual distributions from the Plan (available only to retiring participants), or (c) combinations thereof. Participants hired after January 1, 1996 may not elect the Annuity or Annual Distribution options. Partial distributions (with a minimum of \$5,000) are made available to participants, with no more than one distribution in any three-month period. Participants are not required to cash out their entire benefits at age 70 (although this requirement applies to beneficiaries).

Additionally, in-service withdrawals are extended to participants who have attained age 59-1/2 for pretax, post-tax, and rollover contributions. Hardship withdrawal of rollover contributions is permitted. Participants who terminate employment with the Company for any reason and have a vested account balance of \$1,000 or less will have their account balance distributed in the form of a lump-sum distribution.

Participants who have attained the age of 70-1/2 and who are an employee of the Company may withdraw all or any portion of his/her account subject to IRS minimum distribution requirements. A participant may not take more than one withdrawal in any six-month period, and the minimum withdrawal shall be \$200.

Participants who are employees of the Company and who have made a rollover transfer into the Plan may withdraw all or any portion of their rollover transfer amounts at any time. A participant may not take more than one withdrawal in any six-month period, and the minimum withdrawal shall be \$200.

Table of Contents

MOTOROLA 401(k) PLAN

Notes to Financial Statements

December 31, 2009 and 2008

(1) Description of Plan (Continued)

Effective January 1, 2009, the Plan was amended to comply with the provisions of the Heroes Assistance and Relief Tax Act of 2008 and to suspend required minimum distributions for the 2009 Plan Year as permitted under The Worker, Retiree and Employer Recovery Act of 2008.

(f) Participant Loans

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 less their highest outstanding loan balance in the last 12 months or 50% of their vested account balance. Loan transactions are treated as a transfer to/from the investment fund to the Participant Loan Fund. Loan terms range from 1-5 years or up to 10 years for the purchase of a primary residence. The loans are secured by the balance in the participant's account and bear interest at a reasonable interest rate commensurate with local prevailing rates as determined quarterly by the plan administrator. Interest rates are based on the prime rate (published in the Wall Street Journal) plus 0.5% unless the plan administrator determines the interest rate is not reasonable. Prior to July 16, 2003, interest rates included a 0.3% loan insurance fee. Principal and interest is paid ratably through payroll deductions. A \$50 processing fee is charged for loans.

(g) Plan Termination

Although the Company has not expressed any intent to do so, it may terminate the Plan at any time. It has the right under the Plan to discontinue contributions at any time and terminate the Plan subject to the provisions of ERISA.

(2) Summary of Significant Accounting Policies

(a) Basis of Presentation

The accompanying financial statements have been prepared on the accrual basis of accounting in conformity with accounting principles generally accepted in the United States of America.

(b) Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Table of Contents

MOTOROLA 401(k) PLAN

Notes to Financial Statements

December 31, 2009 and 2008

(2) Summary of Significant Accounting Policies (Continued)

(c) *Adoption of New Accounting Standards*

Fair Value Measurements and Disclosures: In April 2009, the FASB issued guidance that emphasizes that the objective of a fair value measurement does not change even when the market activity for the asset or liability has decreased significantly. Fair value is the price that would be received for an asset sold or paid to transfer a liability in an orderly transaction (that is, not a forced liquidation or distressed sale) between market participants at the measurement date under current market conditions. When observable transactions or quoted prices are not considered orderly, then little, if any, weight should be assigned to the indication of the asset or liability's fair value. Adjustments to those transactions or prices should be applied to determine the appropriate fair value. The standard also requires increased disclosures. The guidance was applied prospectively in 2009, and the impact of adoption of this standard was not material to the Plan's net assets available for benefits.

In September 2009, the FASB issued guidance which provides a practical expedient for measuring the fair values of Plan investments in a limited number of entities that calculate a net asset value per share (such as hedge funds, private equity funds, funds of funds, and certain collective trusts, common trusts and pooled separate accounts). This guidance also provides enhanced disclosure requirements, and it became effective for Plan reporting periods ending after December 15, 2009. Early application is permitted in financial statements that have not yet been issued. The Plan's adoption of this standard in 2009 had no material effect upon the Plan's net assets available for benefits.

(d) *Investment Valuation and Income Recognition*

The Plan's investments are reported at fair value. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

(e) *Administrative and Other Expenses*

The expenses necessary to administer the Plan are paid out of Plan assets. Certain Plan related expenses may be paid by the Company at its discretion.

(f) Payment of Benefits

Benefits are recorded when paid.

Table of Contents

MOTOROLA 401(k) PLAN

Notes to Financial Statements

December 31, 2009 and 2008

(2) Summary of Significant Accounting Policies (Continued)

(g) Risk and Uncertainties

The Plan invests in various investment securities. These investment securities are exposed to various risks, such as interest rate, market, liquidity and credit risks. Due to the level of risk associated with certain investment securities and the sensitivity of certain fair value estimates to changes in valuation assumptions, it is at least reasonably possible that changes in the value of investment securities will occur in the near term and that such changes could materially affect the participants' account balances and the amounts reported in the statement of net assets available for benefits.

(3) Fair Value Measurements

Fair value is defined as the price that would be received by the Plan for an asset or paid by the Plan to transfer a liability (an exit price) in an orderly transaction between market participants on the measurement date in the Plan's principal or most advantageous market for the asset or liability. Fair value measurements are determined by maximizing the use of observable inputs and minimizing the use of unobservable inputs. The hierarchy places the highest priority on unadjusted quoted market prices in active markets for identical assets or liabilities (Level 1 measurements) and gives the lowest priority to unobservable inputs (Level 3 measurements). The three levels of inputs within the fair value hierarchy are defined as follows:

Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the Plan has the ability to access as of the measurement date.

Level 2: Significant other observable inputs such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.

Level 3: Significant unobservable inputs that reflect the Plan's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

In some cases, a valuation technique used to measure fair value includes inputs from multiple levels of the fair value hierarchy. The lowest level of significant input determines the placement of the entire fair value measurement in the hierarchy.

Table of Contents

MOTOROLA 401(k) PLAN

Notes to Financial Statements

December 31, 2009 and 2008

(3) Fair Value Measurements (Continued)

The following are descriptions of the valuation methods and assumptions used for investments of the Plan, including securities loaned and collateral for securities loaned.

The fair values of publicly traded common stocks are determined by obtaining quoted prices on nationally recognized securities exchanges (Level 1 inputs).

Fair values of U.S. Treasury, agency, mortgage backed and inflation indexed securities are determined based on recent bid prices (Level 2 inputs).

Corporate bonds are valued based on yields currently available on comparable securities of issuers with similar credit ratings (Level 2 inputs). When quoted prices are not available for identical or similar bonds, the bond is valued using matrix pricing, a mathematical technique widely used in the industry to value debt securities without relying exclusively on quoted prices for the specific securities but rather by relying on the securities' relationship to other benchmark quoted securities (Level 2 inputs). Certain corporate bonds are valued using extrapolated data, proprietary models, and indicative quotes (Level 3 inputs).

The fair values of investments in collective trusts are valued as determined by the custodian based on their net asset values and by the unit prices of actual purchase and sale transactions occurring as of or close to the financial statement date (Level 2 inputs). The investment objectives and underlying investments of the collective trusts vary, with some holding high-grade money market instruments with short maturities designed to provide for cash reserves while offering a competitive rate of return with principal preservation as a primary objective, some holding fixed income securities and designed to approximate the performance of the Barclays Capital Aggregate Bond Index, some holding diversified portfolios of large-cap domestic stocks designed to approximate the performance of the S&P 500 Index, some holding diversified portfolios of mid-cap domestic stocks designed to approximate the performance of the S&P 400 Mid Cap Index, some holding diversified portfolios of small-cap domestic stocks designed to approximate the performance of the Russell 2000 Index, and others holding a blend of various international stocks designed to approximate the performance of the Europe, Australasia, and Far East (EAFE) Index. Each collective trust provides for daily redemptions by the Plan at reported net asset values per share, with no advance notice requirement.

Fair values of foreign government and agency securities and foreign municipal bonds are determined based on recent bid prices (Level 2 inputs). Certain foreign government securities are valued using extrapolated data, proprietary models, and indicative quotes (Level 3 inputs).

Edgar Filing: MOTOROLA INC - Form 11-K

Fair values of asset backed securities, commercial mortgage backed securities, guaranteed fixed income, non-government backed commercial mortgage obligations, and other fixed income securities are determined based on recent bid prices (Level 2 investments). Certain asset backed securities are valued using extrapolated data, proprietary models, and indicative quotes (Level 3 inputs).

Table of Contents

MOTOROLA 401(k) PLAN

Notes to Financial Statements

December 31, 2009 and 2008

(3) Fair Value Measurements (Continued)

Fair values of certificates of deposit are estimated to approximate deposit account balances, payable on demand, as no discounts for credit quality or liquidity were determined to be applicable (Level 2 inputs).

Fair values of securities lending collateral pools have been determined to approximate the reported redemption values of \$1.00 per unit, based upon recent transaction prices (Level 2 inputs). While the collateral pools are managed to seek a constant \$1.00 per share net asset value, net asset values per unit can fluctuate over time, and guarantees of principal are not provided. The collateral pools invest primarily in short-term and medium-term debt instruments of high credit quality.

Participant loans are reported at amortized cost. The fair value of participant loans is not practical to estimate due to restrictions placed on the transferability of the loans.

(4) Party-in-Interest Transactions

Certain Plan assets are invested in participant loans or investments managed by The Northern Trust Company, the custodian and trustee of the Plan. Therefore, these transactions qualify as party-in-interest transactions. These transactions are not, however, considered prohibited transactions under section 408(b) of the ERISA regulations. The Plan paid certain administrative fees to the trustee, third-party administrator, and various investment managers which qualify as party-in-interest transactions.

At December 31, 2009 and 2008, the Plan had \$249,765,602 and \$147,748,093, respectively, invested in Company stock through a unitized investment fund managed by the trustee. The Plan held 32,186,289 and 33,351,714 shares of Company stock as of December 31, 2009 and 2008, respectively.

Table of Contents

MOTOROLA 401(k) PLAN

Notes to Financial Statements

December 31, 2009 and 2008

(5) Investments

At December 31, 2009, the fair value of individual investments which are 5% or more of net assets available for benefits are as follows (in thousands):

Northern Trust Collective Funds:		
S&P 500 Equity Index Fund	\$	1,545,171
S&P Midcap 400 Equity Index Fund		557,019
EAFE Index Fund		732,174
Collective Daily Aggregate Bond Fund		938,367
Short Term Investment Fund		433,197
Corporate Common Stock:		
Motorola Inc		249,766

At December 31, 2008, the fair value of individual investments which are 5% or more of net assets available for benefits are as follows (in thousands):

Northern Trust Collective Funds:		
S&P 500 Equity Index Fund	\$	1,287,177
S&P Midcap 400 Equity Index Fund		384,907
EAFE Index Fund		566,283
Collective Daily Aggregate Bond Fund		883,359
Short Term Investment Fund		522,724

During 2009, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated (depreciated) in value as follows (in thousands):

U.S. Government and agencies securities	\$	(899)
Corporate and other bonds and debentures		6,998
Motorola, Inc. common stock		106,759
Investments in collective trusts		768,063
Other investments		730
Net appreciation in fair value of investments	\$	881,651

Table of Contents

MOTOROLA 401(k) PLAN

Notes to Financial Statements

December 31, 2009 and 2008

(6) Securities Lending

The Plan has entered into securities lending transactions with broker/dealers for which fees are paid to the Plan. The securities are required to be 100% collateralized by cash, U.S. Government securities, or irrevocable bank letters of credit. The transferee may sell or re-pledge the securities loaned. Fees earned on securities lending activity are included in interest income. Either party may terminate the lending agreement at any time and the collateral shall be used for any failure to deliver borrowed securities.

Fair value of securities loaned by type of investment and corresponding collateral that pertain to the Plan's assets at December 31, 2009 were as follows (in thousands):

	Securities under lending agreements	Cash	Collateralized by Northern Trust Commingled Investment Pool
U.S. Government and agency securities	\$ 21,672	\$	\$ 22,289
U.S. Equities	37		38
Corporate bonds and debentures	19,512		20,065
Total securities lending in Plan	\$ 41,221	\$	\$ 42,392

Fair value of securities loaned by type of investment and corresponding collateral that pertain to the Plan's assets at December 31, 2008 were as follows (in thousands):

	Securities under lending agreements	Cash	Collateralized by Northern Trust Commingled Investment Pool
U.S. Government and agency securities	\$ 63,042	\$	\$ 64,337
U.S. Equities	13,666		13,766
Corporate bonds and debentures	12,551		12,797
Total securities lending in Plan	\$ 89,259	\$	\$ 90,900

Table of Contents

MOTOROLA 401(k) PLAN

Notes to Financial Statements

December 31, 2009 and 2008

(6) Securities Lending (Continued)

Effective September 19, 2008, Northern Trust declared a collateral deficiency under its Securities Lending Authorization Agreement ("Lending Agreements") with respect to five of its commingled cash collateral investment pools. As a consequence of the collateral deficiency and because participating clients of the collateral pool hold the risk of loss on the collateral, Northern Trust has allocated a portion of the collateral deficiency to each participating client, including the Plan, with the Plan's allocation being \$1,153,592.

On September 29, 2008, Northern Trust made a cash payment to the collateral pool to partially reduce the Plan's allocated portion of the collateral deficiency. In November 2009, Northern Trust approved a reduction to the collateral deficiency in the amount of \$746,411.

The deficiency as of December 31, 2009 and 2008 was \$222,954 and \$1,149,762, respectively. This is a liability of the Plan since the Plan has the obligation to repay the amount of the original collateral. The total collateral obligation which is recorded as a liability on the Plan's financial statements, including the deficiency, is \$42,615,215 as of December 31, 2009.

In March of 2010 Northern Trust reversed the remaining collateral deficiency which left the Plan with no collateral deficiency liability as of that date.

(7) Federal Income Taxes

The Plan has received a favorable determination letter dated November 21, 2002 from the Internal Revenue Service regarding the Plan's Federal income tax status. The Plan qualifies under the provisions of Section 401(a) of the Internal Revenue Code (IRC) of 1986, as amended. The trust is exempt from Federal income taxes pursuant to the provisions of Section 501(a) of the Code. The Plan has been amended since receiving the determination letter. However, the plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

The Plan has filed an application with the Internal Revenue Service requesting an updated determination letter.

MOTOROLA 401(k) PLAN

Notes to Financial Statements

December 31, 2009 and 2008

(8) Transfer of Assets Relating to Acquisitions and Separations

The following net assets were transferred out of the Plan during the plan year ended December 31, 2009 as a result of the divestiture of a business previously owned by the Company (in thousands):

Effective date	Separation	Amount Transferred (out)
June 1, 2009	Biometrics	\$ (2,059)

(9) Legal Matters

In the ordinary course of business, Motorola is a defendant on behalf of the Plan in various lawsuits, including actions filed by former participants. The Plan Sponsor believes these legal proceedings will not have a material adverse effect on the Plan or the financial results of the Plan.

(10) Subsequent Events

On February 11, 2010, the Company announced that it is targeting the first quarter of 2011 for the completion of its planned separation into two independent, publicly traded companies. The Company currently expects that, upon separation, one public company will be comprised of the Company's Mobile Devices and Home businesses and the other public company will be comprised of the Company's Enterprise Mobility Solutions and Networks businesses.

After-tax contributions were added to the Plan effective April 1, 2010. Participants will be able to contribute in whole percentage amounts up to 20% of their compensation for the year, and these contributions and earnings thereon will be 100% vested and non-forfeitable at all times.

Matching contributions will be reinstated to the Plan beginning July 1, 2010. Participants will receive one dollar for each dollar they contribute in pretax contributions to the Plan, up to a maximum of 4 percent of eligible compensation. The maximum amount of matching contributions

for 2010 will be prorated due to the mid-year reinstatement and may not exceed 2 percent of eligible compensation for the entire year.
