Table of Contents

Consolidated Communications Holdings, Inc. and Subsidiaries

Notes to Unaudited Condensed Consolidated Financial Statements

1. Nature of Operations

The accompanying unaudited condensed consolidated financial statements include the accounts of Consolidated Communications Holdings, Inc. and its subsidiaries, which are collectively referred to as Consolidated, the Company, we, our or us, unless the context otherwise requires. All significant intercompany transactions have been eliminated in consolidation.

We have prepared the unaudited condensed consolidated financial statements included herein pursuant to the rules and regulations of the Securities and Exchange Commission. Certain information and footnote disclosures normally included in statements prepared in accordance with generally accepted accounting principles in the United States have been omitted pursuant to such rules and regulations, although we believe that the disclosures are adequate to make the information presented not misleading. These financial statements should be read in conjunction with the financial statements and notes thereto included in our Annual Report on Form 10-K for the year ended December 31, 2010.

The accompanying unaudited condensed consolidated financial statements presented herewith reflect all adjustments (consisting of only normal and recurring adjustments) which, in the opinion of management, are necessary for a fair presentation of the results of operations for the three and six month periods ended June 30, 2011 and 2010. The results of operations for interim periods are not necessarily indicative of results to be expected for an entire year.

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ materially from those estimates.

As of June 30, 2011, the Company's Summary of Critical Accounting Policies for the year ended December 31, 2010, which are detailed in the Company's Annual Report on Form 10-K, have not changed.

The Company has evaluated subsequent events and transactions for potential recognition or disclosure in the financial statements through the day the financial statements are issued.

2. Recent Accounting Pronouncements

Edgar Filing: Consolidated Communications Holdings, Inc. - Form 10-Q

In May 2011, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update No. 2011-04 (ASU 2011-04), *Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and International Financial Reporting Standards (IFRS)*. This pronouncement was issued to provide a consistent definition of fair value and ensure that the fair value measurement and disclosure requirements are similar between U.S. GAAP and IFRS. ASU 2011-04 changes certain fair value measurement principles and enhances the disclosure requirements particularly for Level 3 fair value measurements. This pronouncement is effective for reporting periods beginning on or after December 31, 2011. The adoption of ASU 2011-04 is not expected to have a significant impact to the Company's consolidated financial position or results of operations.

Table of Contents

In June 2011, the FASB issued Accounting Standards Update No. 2011-05 (ASU 2011-05), *Presentation of Income*. ASU 2011-05 eliminates the option to report other comprehensive income and its components in the statement of changes in stockholder's equity and requires an entity to present the total of comprehensive income, the components of net income and the components of other comprehensive income either in a single continuous statement or in two separate but consecutive statements. This pronouncement is effective for fiscal years, and interim periods within those years, beginning after December 15, 2011. The Company believes the adoption of ASU 2011-05 concerns presentation and disclosure only and will not have an impact on its consolidated financial position or results of operations.

3. Prepaid expense and other current assets

Prepaid and other current assets are as follows:

(In thousands)	June 30, 2011	December 31, 2010
Prepaid maintenance	\$ 1,885	\$ 2,242
Prepaid taxes	1,406	182
Deferred charges	1,205	961
Prepaid insurance	653	392
Prepaid expense - other	2,241	2,603
Current portion of swap assets	17	20
Other current assets	46	50
Total	\$ 7,453	\$ 6,450

4. Property, plant and equipment, net

Property, plant and equipment are as follows:

(In thousands)	June 30, 2011	December 31, 2010
Land and buildings	\$ 66,712	\$ 66,499
Network and outside plant facilities	878,013	869,565
Furniture, fixtures and equipment	80,221	81,920
Assets under capital lease	10,014	9,279
Less: accumulated depreciation	(703,017)	(675,390)
	331,943	351,873
Construction in progress	12,238	4,184
Totals	\$ 344,181	\$ 356,057

Depreciation expense totaled \$16.5 million and \$15.9 million for the three month periods ended June 30, 2011 and 2010, respectively and \$33.1 million and \$31.9 million for the six months ended June 30, 2011 and 2010, respectively.

5. Investments

We own 2.34% of GTE Mobilnet of South Texas Limited Partnership (the Mobilnet South Partnership). The principal activity of the Mobilnet South Partnership is providing cellular service in the Houston, Galveston, and Beaumont, Texas metropolitan areas. We also own 3.60% of Pittsburgh SMSA Limited Partnership (Pittsburgh SMSA), which provides cellular service in and around the Pittsburgh metropolitan area. Because of our limited influence over these partnerships, we use the cost

Edgar Filing: Consolidated Communications Holdings, Inc. - Form 10-Q

Table of Contents

method to account for both of these investments. For the three month periods ended June 30, 2011 and 2010, we received cash distributions from these partnerships totaling \$2.0 million and \$3.0 million, respectively. For the six months ended June 30, 2011 and 2010, we received cash distributions from these partnerships totaling \$5.0 million and \$6.0 million, respectively.

We also own 17.02% of GTE Mobilnet of Texas RSA #17 Limited Partnership (RSA #17), 16.6725% of Pennsylvania RSA 6(I) Limited Partnership (RSA 6(I)), and 23.67% of Pennsylvania RSA 6(II) Limited Partnership (RSA 6(II)). RSA #17 provides cellular service to a limited rural area in Texas. RSA 6(I) and RSA 6(II) provide cellular service in and around our Pennsylvania service territory. In addition, we have a 50% ownership interest in Boulevard Communications LLP, a competitive access provider in western Pennsylvania, of which we are currently in the process of dissolving. Because we have significant influence over the operating and financial policies of these four entities, we account for the investments using the equity method. For the three months ended June 30, 2011 and 2010, we received cash distributions from these partnerships totaling \$3.8 million and \$3.6 million, respectively. For the six months ended June 30, 2011 and 2010, we received cash distributions from these partnerships totaling \$7.7 million and \$7.5 million, respectively.

Our investments are as follows:

(In thousands)	June 30, 2011	December 31, 2010
Cash surrender value of life insurance policies	\$ 1,572	\$ 1,960
Cost method investments:		
GTE Mobilnet of South Texas Limited Partnership (2.34% interest)	21,450	21,450
Pittsburgh SMSA Limited Partnership (3.60% interest)	22,950	22,950
CoBank, ACB Stock	3,271	3,148
Other	25	25
Equity method investments:		
GTE Mobilnet of Texas RSA #17 Limited Partnership (17.02% interest)	19,427	19,253
Pennsylvania RSA 6(I) Limited Partnership (16.6725% interest)	7,046	7,191
Pennsylvania RSA 6(II) Limited Partnership (23.67% interest)	23,187	22,971
Boulevard Communications, LLP (50% interest)	157	157
Total	\$ 99,085	\$ 99,105

CoBank is a cooperative bank owned by its customers. Annually, CoBank distributes patronage in the form of cash and stock in the cooperative based on the Company's outstanding loan balance with CoBank, which has traditionally been a significant lender in the Company's credit facility. The investment in CoBank represents the accumulation of the equity patronage paid by CoBank to the Company.

Because the income from our investments in RSA #17 and RSA 6(II) each exceeded 10% of our pretax income for the first six months of 2011, below is a summary of unaudited summarized income statement information of both RSA #17 and RSA 6(II):

RSA #17 (In thousands)	Three months ended June 30,		Six months ended June 30,	
	2011	2010	2011	2010
Total revenues	\$ 25,830	\$ 20,978	\$ 49,473	\$ 40,868
Income from operations	8,782	6,963	17,517	13,553

Edgar Filing: Consolidated Communications Holdings, Inc. - Form 10-Q

Net income before taxes	8,799	7,149	17,547	13,929
Net income	8,699	7,024	17,347	13,679

Edgar Filing: Consolidated Communications Holdings, Inc. - Form 10-Q

Table of Contents

RSA 6(II) (In thousands)	Three months ended June 30,		Six months ended June 30,	
	2011	2010	2011	2010
Total revenues	\$ 33,830	\$ 29,764	\$ 64,891	\$ 58,737
Income from operations	7,473	8,393	15,326	16,265
Net income before taxes	7,479	8,478	15,341	16,523
Net income	7,479	8,478	15,341	16,523

6. Fair Value Measurements

The Company's derivative instruments related to interest rate swap agreements are required to be measured at fair value on a recurring basis. The fair values of the interest rate swaps are determined using an internal valuation model which relies on the expected LIBOR based yield curve and estimates of counterparty and Consolidated's non-performance risk as the most significant inputs. Because each of these inputs are directly observable or can be corroborated by observable market data, we have categorized these interest rate swaps as Level 2 within the fair value hierarchy.

The Company's swap assets and liabilities measured at fair value on a recurring basis subject to disclosure requirements at June 30, 2011 and December 31, 2010 were as follows:

(In thousands)	June 30, 2011	Fair Value Measurements at Reporting Date Using		
		Quoted Prices In Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Current interest rate swap assets	\$ 17		\$ 17	
Current interest rate swap liabilities	(2,240)		(2,240)	
Long-term interest rate swap liabilities	(20,209)		(20,209)	
Totals	\$ (22,432)	\$	\$ (22,432)	\$

(In thousands)	December 31, 2010	Fair Value Measurements at Reporting Date Using		
		Quoted Prices In Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Current interest rate swap assets	\$ 20		\$ 20	
Current interest rate swap liabilities	(6,374)		(6,374)	
Long-term interest rate swap liabilities	(21,751)		(21,751)	
Totals	\$ (28,105)	\$	\$ (28,105)	\$

The change in the fair value of the derivatives is primarily a result of a change in market expectations for future interest rates.

Edgar Filing: Consolidated Communications Holdings, Inc. - Form 10-Q

We have not elected the fair value option for any of our financial assets or liabilities. The carrying value of other financial instruments, including cash, accounts receivable, accounts payable and accrued liabilities approximate fair value due to their short maturities or variable-rate nature of the respective balances. The following table presents the other financial instruments that are not carried at fair value but which require fair value disclosure as of June 30, 2011 and December 31, 2010.

Table of Contents

(In thousands)	As of June 30, 2011		As of December 31, 2010	
	Carrying Value	Fair Value	Carrying Value	Fair Value
Investments, equity basis	\$ 49,817	n/a	\$ 49,572	n/a
Investments, at cost	\$ 47,696	n/a	\$ 47,573	n/a
Long-term debt	\$ 875,600	\$ 875,600	\$ 880,000	\$ 880,000

The Company's investments at June 30, 2011 and December 31, 2010 accounted for under both the equity and cost methods consist of minority positions in various cellular telephone limited partnerships. These investments are recorded using either the equity or cost methods.

Our long-term debt allows us to select a one month LIBOR repricing option, which we have elected. As such, the fair value of this debt approximates its carrying value.

7. Goodwill and Other Intangible Assets

In accordance with the applicable accounting guidance, goodwill and indefinite lived intangible assets are not amortized but are subject to impairment testing no less than annually or more frequently if circumstances indicate potential impairment.

The following table presents the carrying amount of goodwill by segment:

(In thousands)	June 30, 2011	December 31, 2010
Telephone Operations	\$ 519,528	\$ 519,528
Other Operations	1,034	1,034
Totals	\$ 520,562	\$ 520,562

Our most valuable tradename is the federally registered mark CONSOLIDATED, which is used in association with our telephone communication services and is a design of interlocking circles. The Company's corporate branding strategy leverages a CONSOLIDATED naming structure. All of the Company's business units and several of our products and services incorporate the CONSOLIDATED name. These tradenames are indefinitely renewable intangibles. The carrying value of the tradenames was \$12.3 million at both June 30, 2011 and December 31, 2010.

The Company's customer lists consist of an established base of customers that subscribe to its services. The carrying amount of customer lists is as follows:

	June 30, 2011	December 31, 2010	June 30, 2011	December 31, 2010
Gross carrying amount	\$ 193,124	\$ 193,124	\$ 4,405	\$ 4,405
Less: accumulated amortization	(124,905)	(114,055)	(3,744)	(3,524)
Net carrying amount	\$ 68,219	\$ 79,069	\$ 661	\$ 881

Amortization associated with customer lists totaled approximately \$5.6 million and \$11.1 million in each of the three and six month periods ended June 30, 2011 and 2010, respectively.

Table of Contents**8. Deferred Debt Issuance Costs, Net and Other Assets**

Deferred financing costs, net and other assets are as follows:

(In thousands)	June 30, 2011	December 31, 2010
Deferred debt issuance costs, net	\$ 5,509	\$ 5,171
Other assets	80	104
Total	\$ 5,589	\$ 5,275

During the second quarter of 2011, we capitalized additional debt issuance costs totaling \$1.0 million related to our credit agreement amendment completed on June 8, 2011 (see Note 10 for a more in depth description of this transaction). As a result of this transaction, deferred debt issuance costs are being amortized using the effective interest method over a period corresponding to each of the separate maturity dates.

9. Accrued Expenses

Accrued expenses are as follows:

(In thousands)	June 30, 2011	December 31, 2010
Salaries and employee benefits	\$ 8,342	\$ 9,438
Taxes payable	2,759	5,035
Accrued interest	165	104
Other accrued expenses	8,072	8,072
Total accrued expenses	\$ 19,338	\$ 22,649

10. Debt

Long-term debt consists of the following:

(In thousands)	June 30, 2011	December 31, 2010
Senior secured credit facility - term loan	\$ 880,000	\$ 880,000
Senior secured credit facility - revolving loan		

Edgar Filing: Consolidated Communications Holdings, Inc. - Form 10-Q

Obligations under capital lease	4,789	4,125
	884,789	884,125
Less: current portion of long-term debt	(4,400)	
Less: current portion of capital leases	(170)	(132)
Total long-term debt	\$ 880,219	\$ 883,993

Credit Agreement

The Company, through certain of its wholly owned subsidiaries, has outstanding a credit agreement with several financial institutions, which consists of a \$50 million revolving credit facility (including a \$10 million sub-limit for letters of credit) and an \$880 million term loan facility. Borrowings under the credit facility are secured by substantially all of the assets of the Company with the exception of Illinois Consolidated Telephone Company. The terms of the credit agreement were amended on June 8, 2011.

Table of Contents

As a result of the amendment to our credit agreement effective June 8, 2011, two separate tranches were established under the \$880 million term loan facility, resulting in different maturity dates and interest rate margins for each term loan tranche. The first term loan tranche consists of \$470.9 million aggregate principal amount, matures on December 31, 2014 and has an applicable margin (at our election) equal to either 2.50% for a LIBOR-based term loan or 1.50% for an alternative base rate loan. The second term loan tranche consists of \$409.1 million aggregate principal amount, matures on December 31, 2017 and has an applicable margin (at our election) equal to either 3.75% for a LIBOR-based term loan or 2.75% for an alternative base rate term loan. The applicable margins for each of the term loan tranches are fixed for the duration of the loans. The amended term loan facility also requires \$2.2 million in quarterly principal payments beginning March 31, 2012.

The June 8 credit agreement amendment also modified our \$50 million revolving credit facility. The amended secured revolving credit facility (including an additional subsequent amendment dated July 7, 2011 effective as of June 8, 2011) has a maturity date of June 8, 2016 and has an applicable margin (at our election) of between 2.75% and 3.50% for LIBOR-based borrowings and between 1.75% and 2.50% for alternative base rate borrowings, depending on our leverage ratio. Based on our leverage ratio of 4.64:1 at June 30, 2011, the borrowing margin for the next three month period ending September 30, 2011 will be at a weighted-average margin of 3.25% for a LIBOR-based loan or 2.25% for an alternative base rate loan. The applicable borrowing margin for the revolving credit facility is adjusted quarterly to reflect the leverage ratio from the prior quarter-end. There were no borrowings or letters of credit outstanding under the revolving credit facility as of June 30, 2011 or December 31, 2010, or at any time during the quarter ended June 30, 2011.

In connection with the credit agreement amendment, fees totaling \$2.5 million were recognized as expense and recorded in debt refinancing costs in the Condensed Consolidated Statements of Operations while \$1.0 million in fees were capitalized as deferred debt issuance costs in the Condensed Consolidated Balance Sheets.

The weighted-average interest rate incurred on our credit facilities during the three month periods ended June 30, 2011 and 2010, including amounts paid on our interest rate swap agreements and the applicable margin, was 5.45% and 5.61% per annum, respectively. The weighted-average interest rate incurred on our credit facilities during the six month periods ended June 30, 2011 and 2010, including amounts paid on our interest rate swap agreements and the applicable margin, was 5.30% and 5.59% per annum, respectively. Interest is payable at least quarterly.

The amended credit agreement contains various provisions and covenants, including, among other items, restrictions on the ability to pay dividends, incur additional indebtedness, issue capital stock, and commit to future capital expenditures. We have agreed to maintain certain financial ratios, including interest coverage, and total net leverage ratios, all as defined in the amended credit agreement. As of June 30, 2011, we were in compliance with the credit agreement covenants.

Capital Leases

The Company has four capital leases, all of which expire in 2021, for the lease of office, warehouse and tech center needs. As of June 30, 2011, the present value of the minimum remaining lease commitments was approximately \$4.8 million, of which \$0.2 million is due and payable within the next 12 months. The leases require total remaining rental payments of approximately \$9.0 million over the remaining term of the leases.

Table of Contents

11. Derivatives

In order to manage the risk associated with changes in interest rates, we have entered into interest rate swap agreements that effectively convert a portion of our floating-rate debt to a fixed-rate basis, thereby reducing the impact of interest rate changes on future cash interest payments. We account for these transactions as cash flow hedges under the FASB's ASC Topic 815 (ASC 815), *Derivatives and Hedging*. The swaps are designated as cash flow hedges of our expected future interest payments. In a cash flow hedge, the effective portion of the change in the fair value of the hedging derivative is recorded in accumulated other comprehensive income (loss) and is subsequently reclassified into earnings during the same period in which the hedged item affects earnings. The change in fair value of any ineffective portion of the hedging derivative is recognized immediately in earnings.

We currently have in place interest rate swap agreements whereby we receive 3-month LIBOR-based interest payments from the swap counterparties and pay a fixed rate. We also have interest rate swap agreements whereby we make 3-month LIBOR-based payments, less a fixed percentage to a counterparty and receive 1-month LIBOR. The combination effectively hedges the interest payments based on 1-month LIBOR resets on a portion of our credit facility. During the second quarter of 2011, the net effect of these swaps is that we paid a weighted-average fixed rate of 3.60% to our swap counterparties on \$430 million of notional amount and received 1-month LIBOR less a fixed percentage. The weighted-average fixed percentage received was 0.06% for the second quarter of 2011. We have outstanding \$430 million notional value of these swaps in place as of June 30, 2011.

We also have in place \$200 million notional amount of floating to fixed interest rate swap agreements. Under these swap agreements, we will make fixed payments to the swap counterparties at a weighted-average fixed rate of 1.83% and receive 1-month LIBOR. These swap agreements have a maturity date of March 31, 2013.

In addition, we also have entered into a \$100 million notional amount forward floating to fixed interest rate swap agreement that will become effective on September 30, 2011. For this swap agreement, we will make fixed payments to the swap counterparty at a weighted-average fixed rate of 1.65% and receive 1-month LIBOR. The September 2011 forward swap agreement has a maturity date of September 30, 2013.

Our amended credit agreement requires that no less than 50% of our term loan debt be fixed through the use of interest rate swaps. At both June 30, 2011 and December 31, 2010, the interest rate on approximately 71.59% of our outstanding debt was fixed through the use of interest rate swaps.

The counterparties to our various swaps are 5 major U.S. and European banks. None of the swap agreements provide for either us or the counterparties to post collateral nor do the agreements include any covenants related to the financial condition of Consolidated or the counterparties. The swaps of any counterparty that is a Lender as defined in our credit facility are secured along with the other creditors under the credit facility. Each of the swap agreements provides that in the event of a bankruptcy filing by either Consolidated or the counterparty, any amounts owed between the two parties would be offset in order to determine the net amount due between parties. This provision allows us to partially mitigate the risk of non-performance by a counterparty.

We report the gross fair value of our derivatives in either prepaid expenses and other current assets, current portion of derivative liability or other long-term liabilities on our consolidated balance sheets. The table below shows the balance sheet classification and fair value of our interest rate

swaps designated as hedging instruments under ASC 815:

Edgar Filing: Consolidated Communications Holdings, Inc. - Form 10-Q

Table of Contents

(In thousands)	Fair Value	
	June 30, 2011	December 31, 2010
Prepaid expenses and other current assets	\$ 17	\$ 20
Current portion of derivative liability	(2,240)	(6,374)
Other long-term liabilities	(20,209)	(21,751)

At June 30, 2011 and December 31, 2010, the pretax deferred losses related to our interest rate swap agreements included in other comprehensive income totaled \$22.3 million and \$28.0 million, respectively. The change in fair value of any ineffective portion of the hedging derivative is recognized immediately in earnings.

Information regarding our cash flow hedge transactions is as follows:

(In thousands)	For the three months ended June 30,		For the six months ended June 30,	
	2011	2010	2011	2010
Loss/(gain) recognized in accumulated other comprehensive income (loss) (AOCI) (pretax)	\$ (953)	\$ (1,975)	\$ (5,614)	\$ (1,831)
Loss/(gain) arising from ineffectiveness increasing/(reducing) interest expense	\$ (24)	\$ (107)	\$ (59)	\$ (78)
Deferred losses reclassified from AOCI to interest expense	\$ 402	\$ 1,334	\$ 885	\$ 2,916

Less: interest income	(37)	(22)	(74)	(38)
Interest expense, net of interest income	\$ 12,397	\$ 13,047	\$ 24,336	\$ 25,952

13. Retirement and Pension Plans

We have 401(k) plans covering substantially all of our employees. Contributions made under our defined contribution plans include a match, at the Company's discretion, of employee salaries contributed to the plans. We recognized expense with respect to these plans of \$0.6 million for each of the three month periods ended June 30, 2011 and 2010 and \$1.3 million for each of the six month periods ended June 30, 2011 and 2010.

Qualified Retirement Plan

We sponsor a defined-benefit pension plan (Retirement Plan) that is non-contributory covering substantially all of our hourly employees who fulfill minimum age and service requirements. Certain salaried employees are also covered by the Retirement Plan, although these benefits have previously been frozen.

The following table summarizes the components of net periodic pension cost for the qualified retirement plan for the periods indicated:

(In thousands)	For the three months ended		For the six months ended	
	2011	2010	2011	2010
Service cost	\$ 222	\$ 467	\$ 638	\$ 934
Interest cost	2,902	2,784	5,451	5,568

Edgar Filing: Consolidated Communications Holdings, Inc. - Form 10-Q

Expected return on plan assets	(2,952)	(2,546)	(5,446)	(5,092)
Net amortization loss (gain)	(495)	189	375	378
Prior service credit amortization	(32)	(11)	(83)	(22)
Net periodic pension cost	\$ (355)	\$ 883	\$ 935	\$ 1,766

Non-qualified Pension Plan

The Company also has non-qualified supplemental pension plans (Restoration Plans), which we acquired as part of our North Pittsburgh Systems, Inc. (North Pittsburgh) and TXU

Table of Contents

Communications Venture Company (TXUCV) acquisitions. The Restoration Plans cover certain former employees of our North Pittsburgh and TXUCV operations. The Restoration Plans restore benefits that were precluded under the Retirement Plan by Internal Revenue Service limits on compensation and benefits applicable to qualified pension plans, and by the exclusion of bonus compensation from the Retirement Plan's definition of earnings. The Restoration Plans are unfunded and have no assets, and benefits paid under the Restoration Plans come from the general operating funds of the Company.

The following table summarizes the components of net periodic pension cost for the Restoration Plans for the periods indicated:

(In thousands)	For the three months ended June 30,			For the six months ended June 30,		
	2011	2010		2011	2010	
Interest cost	\$ 15	\$ 15	\$	\$ 29	\$ 30	
Net amortization loss	5	8		17	16	
Net periodic pension cost	\$ 20	\$ 23	\$	\$ 46	\$ 46	

Other Non-qualified Deferred Compensation Agreements

We also are liable for deferred compensation agreements with former members of the board of directors and certain other former employees of a subsidiary of TXUCV, which was acquired in 2004. The benefits are payable for up to the life of the participant and may begin as early as age 65 or upon the death of the participant. Participants accrue no new benefits as these plans had previously been frozen by TXUCV's predecessor company prior to our acquisition of TXUCV. Payments related to the deferred compensation agreements totaled approximately \$0.1 million and \$0.2 million for the three month periods ended June 30, 2011 and 2010, respectively and \$0.3 million for both six month periods ended June 30, 2011 and 2010. The net present value of the remaining obligations was approximately \$2.6 million at June 30, 2011 and \$2.9 million at December 31, 2010, and is included in pension and postretirement benefit obligations in the accompanying balance sheets.

We also maintain 40 life insurance policies on certain of the participating former directors and employees. We did not recognize any proceeds in other income for the three or six month periods ended June 30, 2011 or 2010 due to the receipt of life insurance proceeds. The excess of the cash surrender value of the remaining life insurance policies over the notes payable balances related to these policies is determined by an independent consultant, and totaled \$1.6 million at June 30, 2011 and \$2.0 million at December 31, 2010. These amounts are included in investments in the accompanying balance sheets. Cash principal payments for the policies and any proceeds from the policies are classified as operating activities in the statements of cash flows.

14. Postretirement Benefit Obligation

We sponsor a healthcare plan and life insurance plan that provides postretirement medical benefits and life insurance to certain groups of retired employees. Retirees share in the cost of healthcare benefits, making contributions that are adjusted periodically either based upon collective bargaining agreements or because total costs of the program have changed. We generally pay the covered expenses for retiree health benefits as they are incurred. Postretirement life insurance benefits are fully insured. Our postretirement plan is unfunded and has no assets, and the benefits paid under the postretirement plan come from the general operating funds of the Company.

Table of Contents

The following table summarizes the components of the net periodic costs for postretirement benefits for the periods indicated:

(In thousands)	For the three months ended June 30,		For the six months ended June 30,	
	2011	2010	2011	2010
Service cost	\$ 223	\$ 206	\$ 446	\$ 412
Interest cost	398	530	796	1,060
Net prior service cost amortization	(47)	(112)	(94)	(224)
Net periodic postretirement benefit cost	\$ 574	\$ 624	\$ 1,148	\$ 1,248

15. Other Long-term Liabilities

Other long-term liabilities are as follows:

(In thousands)	June 30, 2011	December 31, 2010
Long-term derivative liabilities	\$ 20,209	\$ 21,751
Uncertain tax positions	1,475	1,475
Accrued interest on uncertain tax positions	80	56
Other long-term liabilities	511	555
Total	\$ 22,275	\$ 23,837

16. Stock-based Compensation Plans

Pretax stock-based compensation expense for the periods indicated was as follows:

(In thousands)	For the three months ended June 30,		For the six months ended June 30,	
	2011	2010	2011	2010
Restricted stock	\$ 342	\$ 339	\$ 691	\$ 677
Performance shares	237	277	399	442
Total	\$ 579	\$ 616	\$ 1,090	\$ 1,119

Stock-based compensation expense is included in selling, general and administrative expenses in the accompanying statements of operations.

Edgar Filing: Consolidated Communications Holdings, Inc. - Form 10-Q

As of June 30, 2011, we had not yet recognized compensation expense on the following non-vested awards.

(In thousands)	Non-recognized Compensation	Average Remaining Recognition Period (years)
Restricted stock	\$ 3,085	1.5
Performance shares	1,471	1.3
Total	\$ 4,556	1.4

The following table summarizes unvested restricted stock awards outstanding and changes during the six months ended June 30:

Edgar Filing: Consolidated Communications Holdings, Inc. - Form 10-Q

Table of Contents

		2011		2010	
		# of Shares	Price(1)	# of Shares	Price(1)
Non-vested restricted shares outstanding	January 1	101,435	\$ 17.40	82,375	\$ 12.08
Shares granted		127,377	17.92	115,949	18.65
Shares cancelled		(10,282)	18.48		
Shares vested				(3,000)	13.00
Non-vested restricted shares outstanding	June 30	218,530	\$ 17.65	195,324	\$ 15.97

(1) Represents the weighted average fair value on date of grant.

The following table summarizes unvested performance share-based restricted stock awards outstanding and changes during the six months ended June 30:

		2011		2010	
		# of Shares	Price(1)	# of Shares	Price(1)
Non-vested performance shares outstanding	January 1	68,880	\$ 15.74	46,578	\$ 11.72
Shares granted		50,440	17.92	98,002	9.05
Shares cancelled		(10,768)	16.95		
Non-vested performance shares outstanding	June 30	108,552	\$ 16.63	144,580	\$ 16.42

(1) Represents the weighted average fair value on date of grant.

17. Income Taxes

There have been no changes to the balance of our unrecognized tax benefits reported at December 31, 2010. As of June 30, 2011 and December 31, 2010, the amount of unrecognized tax benefits was \$1.5 million. The total amount of unrecognized benefits that, if recognized, would affect the effective tax rate is \$1.0 million. A decrease in unrecognized tax benefits of \$0.3 million and less than \$0.1 million of related accrued interest is expected in the third quarter of 2011 due to the expiration of a state statute of limitations. The tax benefit attributable to the \$0.3 million decrease in unrecognized tax benefits will not have a significant effect on the Company's effective tax rate.

Our practice is to recognize interest and penalties related to income tax matters in interest expense and general and administrative expense, respectively. At June 30, 2011, we had recorded \$80 thousand of interest and penalties relating to uncertain tax positions, of which \$12 thousand was recorded during the three months ended June 30, 2011.

The only periods subject to examination for our federal return are years 2007 through 2010. The periods subject to examination for our state returns are years 2005 through 2010. We are not currently under examination by federal taxing authorities. We are currently under examination

Edgar Filing: Consolidated Communications Holdings, Inc. - Form 10-Q

by state taxing authorities. We do not expect any settlement or payment that may result from the audit to have a material effect on our results of operations or cash flows.

In January 2011, Illinois Governor signed into law PA. 96-1496. Included as part of the law was an increase in the corporate income tax rate. This resulted in an increase to our net state deferred tax liabilities and a corresponding increase to our state tax provision of \$0.3 million which we recognized in the first quarter of 2011.

Table of Contents

Our effective tax rate was 35.8% and 33.7% for the three month periods ended June 30, 2011 and 2010, respectively and 37.1% and 36.2% for the six month periods ended June 30, 2011 and 2010, respectively. The effective tax rates differ from the federal and state statutory rates primarily due to non-deductible expenses and a change in the Illinois state income tax rate.

18. Accumulated Other Comprehensive Loss, Net

Accumulated other comprehensive loss, net is comprised of the following components:

(In thousands)	June 30, 2011	December 31, 2010
Fair value of cash flow hedges	\$ (22,349)	\$ (27,963)
Prior service credits and net losses on postretirement plans	(21,494)	(21,709)
	(43,843)	(49,672)
Deferred taxes	16,065	18,201
Totals	\$ (27,778)	\$ (31,471)

The following table summarizes total comprehensive income for the periods indicated:

(In thousands)	For the three months ended June 30,		For the six months ended June 30	
	2011	2010	2011	2010
Net income	\$ 5,513	\$ 7,173	\$ 13,010	\$ 14,225
Other comprehensive income:				
Prior service cost and net (loss) gain, net of tax	(357)	48	135	95
Change in fair value of cash flow hedges, net of tax	602	(1,253)	3,558	(1,163)
Total comprehensive income	5,758	5,968	16,703	13,157
Less: comprehensive income attributable to noncontrolling interest	162	124	294	255
Comprehensive income attributable to common stockholders	\$ 5,596	\$ 5,844	\$ 16,409	\$ 12,902

19. Environmental Remediation Liabilities

Environmental remediation liabilities were \$0.2 million at June 30, 2011 and \$0.3 million at December 31, 2010, and are included in other long-term liabilities. These liabilities relate to anticipated remediation and monitoring costs with respect to two small vacant sites and are undiscounted. The Company believes the amount accrued is adequate to cover the remaining anticipated costs of remediation.

20. Litigation and Contingencies

On April 15, 2008, Salsgiver Inc., a Pennsylvania-based telecommunications company, and certain of its affiliates filed a lawsuit against us and our subsidiaries North Pittsburgh Telephone Company and North Pittsburgh Systems Inc. in the Court of Common Pleas of Allegheny County, Pennsylvania alleging that we have prevented Salsgiver from connecting their fiber optic cables to our utility poles. Salsgiver seeks compensatory and punitive damages as the result of alleged lost projected profits, damage to its business reputation, and other costs. It claims to have sustained losses of approximately \$125 million, but does not request a specific dollar amount in damages. We believe that these claims are without merit and that the alleged losses are completely unfounded. We intend to defend against these claims vigorously. In the third quarter of 2008, we filed preliminary objections and responses to Salsgiver's complaint. However, the court ruled against our preliminary objections. On November 3, 2008, we responded to Salsgiver's amended complaint and filed a counter-claim for

Table of Contents

trespass, alleging that Salsgiver attached cables to our poles without an authorized agreement and in an unsafe manner. We are currently in the discovery and deposition stage. In addition, we have asked the FCC Enforcement Bureau to address Salsgiver's unauthorized pole attachments and safety violations on those attachments. We believe that these are violations of an FCC order regarding Salsgiver's complaint against us. We do not believe that these claims will have a material adverse impact on our financial results.

On November 5, 2010, the Staff at the Public Utility Commission of Texas (TPUC) initiated an administrative proceeding at the TPUC (TPUC Docket No. 38872) against Consolidated Communications of Texas Company (CCTX), a subsidiary of the Company, with respect to the disallowance of and refunding of CCTX's High Cost Assistance Fund (HCAF) payments. In addition, on March 11, 2011, the Staff of the TPUC also initiated an administrative proceeding at the TPUC (TPUC Docket No. 39250) against Consolidated Communications of Ft. Bend Company (CCFB), another subsidiary of the Company, with respect to the HCAF payments received by CCFB. The TPUC Staff claims in each of the proceedings that certain amendments to Section 56.025 of the Texas Public Utility Regulatory Act (PURA), effective as of September 1, 2007, lowered the eligibility threshold for receipt of HCAF payments to companies with fewer than 31,000 access lines. Because both CCTX and CCFB have exceeded that threshold since September 1, 2007, the proceedings seek a determination that the funding for CCTX and CCFB should be discontinued. The Company currently receives approximately \$1.4 million annually in payments from the HCAF for CCTX and CCFB combined. In addition, the TPUC Staff is asking the Company to refund the HCAF payments received plus interest since the amendment to PURA went into effect. The Company has received between approximately \$5.4 million from the HCAF since the PURA amendment went into effect. The Company intends to vigorously defend itself against the complaints filed by the TPUC. Moreover, the Company believes that it was grandfathered under the legislation and entitled to the assistance received from the HCAF. We do not believe that this dispute will have a material adverse impact on our financial results.

We are from time to time involved in various other legal proceedings and regulatory actions arising out of our operations. We do not believe that any of these, individually or in the aggregate, will have a material adverse effect upon our business, operating results or financial condition

21. Net Income per Common Share

The following illustrates the earnings allocation method as required by the FASB's authoritative guidance on the treatment of participating securities in the calculation of earnings per share which we utilize in the calculation of basic and diluted earnings per share.

Edgar Filing: Consolidated Communications Holdings, Inc. - Form 10-Q

Table of Contents

(In thousands, except per share amounts)	For the three months ended June 30,		For the six months ended June 30,	
	2011	2010	2011	2010
Basic and Diluted Earnings Per Share Using Two-class Method:				
Net income	\$ 5,513	\$ 7,173	\$ 13,010	\$ 14,225
Less: net income attributable to noncontrolling interest	162	124	294	255
Net income attributable to common shareholders before allocation of earnings to participating securities	5,351	7,049	12,716	13,970
Less: earnings allocated to participating securities	119	132	246	182
Net income attributable to common stockholders	\$ 5,232	\$ 6,917	\$ 12,470	\$ 13,788
Weighted-average number of common shares outstanding	29,593	29,483	29,593	29,483
Net income per common share attributable to common stockholders basic and diluted	\$ 0.18	\$ 0.24	\$ 0.42	\$ 0.47

We had additional potential dilutive securities including unvested restricted shares and performance shares outstanding representing 0.4 million and 0.2 million common shares that were not included in the computation of potentially dilutive securities at June 30, 2011 and 2010, respectively because they were anti-dilutive or the achievement of performance conditions had not been met at the end of the period.

22. Business Segments

The Company is viewed and managed as two separate, but highly integrated, reportable business segments: Telephone Operations and Other Operations. Telephone Operations consists of a wide range of telecommunications services, including local and long-distance service, high-speed broadband Internet access, standard and high-definition digital television, digital telephone service (VOIP), custom calling features, private line services, carrier access services, network capacity services over a regional fiber optic network, directory publishing and Competitive Local Exchange Carrier (CLEC) services. We also operate two non-core complementary businesses that comprise our Other Operations segment, including prison services and equipment sales. Management evaluates the performance of these business segments based upon net revenue, operating income, and income before extraordinary items.

Edgar Filing: Consolidated Communications Holdings, Inc. - Form 10-Q

Table of Contents

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

The following discussion of our consolidated operating results and financial condition for the three and six month periods ended June 30, 2011 and 2010 should be read in conjunction with the unaudited condensed consolidated financial statements and related notes contained elsewhere in this report.

Consolidated Communications or the Company refers to Consolidated Communications Holdings, Inc. alone or with its wholly owned subsidiaries as the context requires. When this report uses the words we, our, or us, they refer to the Company and its subsidiaries.

Forward-Looking Statements

Any statements contained in this Report that are not statements of historical fact, including statements about our beliefs and expectations, are forward-looking statements and should be evaluated as such. The words anticipates, believes, expects, intends, plans, estimates, targets, should, may, will and similar words and expressions are intended to identify forward-looking statements. These forward-looking statements are contained throughout this Report, including, but not limited to, statements found in this Part I Item 2 Management's Discussion and Analysis of Financial Condition and Results of Operations, Part I Item 3 Quantitative and Qualitative Disclosures about Market Risk and Part II Item 1 Legal Proceedings. Such forward-looking statements reflect, among other things, our current expectations, plans, strategies, and anticipated financial results and involve a number of known and unknown risks, uncertainties, and factors that may cause our actual results to differ materially from those expressed or implied by these forward-looking statements, including but not limited to:

- various risks to stockholders of not receiving dividends and risks to our ability to pursue growth opportunities if we continue to pay dividends according to our current dividend policy;
- the current volatility in economic conditions and the financial markets;
- adverse changes in the value of assets or obligations associated with our employee benefit plans;
- various risks to the price and volatility of our common stock;
- our substantial amount of debt and our ability to refinance it or to incur additional debt in the future;
- our need for a significant amount of cash to service our debt and to pay dividends on our common stock;
- restrictions contained in our debt agreements that limit the discretion of our management in operating our business;
- the ability to refinance our existing debt as necessary;
- rapid development and introduction of new technologies and intense competition in the telecommunications industry;
- risks associated with our possible pursuit of future acquisitions;

Edgar Filing: Consolidated Communications Holdings, Inc. - Form 10-Q

- the length and severity of weakened economic conditions in our service areas in Illinois, Texas and Pennsylvania;
- system failures;
- loss of large customers or government contracts;
- risks associated with the rights-of-way for our network;
- disruptions in our relationship with third party vendors;

Edgar Filing: Consolidated Communications Holdings, Inc. - Form 10-Q

Table of Contents

- loss of key management personnel and the inability to attract and retain highly qualified management and personnel in the future;
- changes in the extensive governmental legislation and regulations governing telecommunications providers, the provision of telecommunications services and access charges and subsidies, which are a material part of our revenues;
- telecommunications carriers disputing and/or avoiding their obligations to pay network access charges for use of our network;
- high costs of regulatory compliance;
- the competitive impact of legislation and regulatory changes in the telecommunications industry;
- liability and compliance costs regarding environmental regulations; and
- the additional risk factors outlined in Part I Item 1A Risk Factors in our Annual Report on Form 10-K for the fiscal year ended December 31, 2010, and the other documents that we file with the SEC from time to time that could cause our actual results to differ from our current expectations and from the forward-looking statements discussed in this Report.

Many of these risks are beyond our ability to control or predict. All forward-looking statements attributable to us or persons acting on our behalf are expressly qualified in their entirety by the cautionary statements contained throughout this Report. Because of these risks, uncertainties, and assumptions, you should not place undue reliance on these forward-looking statements. Furthermore, forward-looking statements speak only as of the date they are made. Except as required under the federal securities laws or the rules and regulations of the U.S. Securities and Exchange Commission, we do not undertake any obligation to update or review any forward-looking information, whether as a result of new information, future events or otherwise.

Overview

We are an established rural local exchange carrier that provides communications services to residential and business customers in Illinois, Texas and Pennsylvania. We offer a wide range of telecommunications services, including local and long-distance service, high-speed broadband Internet access (DSL), standard and high-definition digital television (IPTV), digital telephone service (VOIP), custom calling features, private line services, carrier access services, network capacity services over our regional fiber optic network, directory publishing and Competitive Local Exchange Carrier (CLEC) services. We also operate two non-core complementary businesses: prison services facilities and equipment sales.

Executive Summary

We generated net income attributable to common stockholders of \$5.4 million, or \$0.18 per diluted share, in the second quarter of 2011, as compared to net income attributable to common stockholders of \$7.0 million, or \$0.24 per diluted share, in the second quarter of 2010. The decrease in net income in the second quarter of 2011 resulted primarily from \$2.5 million in professional fees related to our credit agreement amendment. Net income in the second quarter of 2011 was also impacted by lower earnings from our wireless partnerships, settlements in the second quarter of 2011 in favor of customers related to access billing disputes, an accrual for an ongoing dispute with the Pennsylvania Department of Revenue, reduced subsidy payments, severance payments, higher depreciation expense and higher video programming costs.

Edgar Filing: Consolidated Communications Holdings, Inc. - Form 10-Q

Second quarter 2011 results benefited from lower interest expense, lower pension expense and other reductions in operating expenditures (excluding those associated with our operator services business) as a result of previous and ongoing

Table of Contents

cost reduction efforts which helped us to offset revenue declines associated with the loss of local access lines. Our cost structure continues to receive ongoing benefits from these cost reduction efforts.

Revenue in the second quarter of 2011 decreased to \$92.6 million as compared to \$95.7 million in the second quarter of 2010. Revenue declines in our traditional wireline business were offset partially by increases in DSL and IPTV subscriptions and increased revenue from our prison services business. Revenue in the second quarter of 2011 also declined approximately \$0.7 million related to settlements in favor of customers of access disputes and \$0.8 million due to the sale of our operator services business in the fourth quarter of 2010.

General

The following general factors should be considered in analyzing our results of operations:

Revenues

Our revenues are derived primarily from the sale of voice and data communication services to residential and business customers in our rural telephone companies' service areas. Because we operate primarily in rural service areas, we do not anticipate significant growth in revenues in either of our two operating segments except through acquisitions. However, we do expect to maintain relatively consistent cash flow from year to year as demand for our data and Internet services grows, and as we continue to gain efficiencies and take costs out of our business.

Local access lines and bundled services. An access line is the telephone line connecting a home or business to the public switched telephone network. The number of local access lines in service directly affects the monthly recurring revenue we generate from end users, the amount of traffic on our network, the access charges we receive from other carriers, the federal and state subsidies we receive, and most other revenue streams. We had 232,360, 237,141 and 242,282 local access lines in service as of June 30, 2011, December 31, 2010 and June 30, 2010, respectively.

Most wireline telephone companies have experienced a loss of local access lines due to increased competition from wireless providers, competitive local exchange carriers and, in some cases, cable television operators, along with challenging economic conditions. We have not been immune to these conditions. Cable competitors in all of our markets offer a competing voice product. We estimate that cable companies offer voice service to all of their addressable customers, covering 85% of our entire service territory.

In addition, we expect to continue to experience modest erosion in access lines both due to market forces and through our own competing VOIP product.

We have been able in some instances to offset the decline in local access lines with increased average revenue per access line by:

- Aggressively promoting DSL service, including selling DSL as a stand-alone offering;
- Value bundling services, such as DSL or IPTV, with a combination of local service and custom calling features;
- Maintaining excellent customer service standards; and
- Keeping a strong local presence in the communities we serve.

Table of Contents

We have implemented a number of initiatives to gain new local access lines and retain existing lines by making bundled service packages more attractive (for example, by adding unlimited long-distance) and by announcing special promotions, like discounted second lines.

We also market a triple play bundle, which includes local telephone service, DSL, and IPTV. As of June 30, 2011, IPTV was available to almost 210,000 homes in our markets. Our IPTV subscriber base continues to grow and totaled 31,218, 29,236 and 26,074 subscribers as of June 30, 2011, December 31, 2010 and June 30, 2010, respectively.

We also continue to experience growth in the number of DSL subscribers we serve. We had 108,581, 106,387 and 103,428 DSL lines in service as of June 30, 2011, December 31, 2010 and June 30, 2010, respectively. Currently, over 96% of our rural telephone companies' local access lines are DSL-capable.

In addition to our access line, DSL and video initiatives, we intend to continue to integrate best practices across our markets. We also continue to look for ways to enhance current products and introduce new services to ensure that we remain competitive and continue to meet our customers' needs. These initiatives have included:

- Hosted VOIP service in all of our markets to meet the needs of small- to medium-sized business customers that want robust functionality without having to purchase a traditional key or PBX phone system;
- VOIP service for residential customers, which is being offered to our customers as a growth opportunity and as an alternative to the traditional phone line for customers who are considering a switch to a cable competitor;
- DSL service even to users who do not have our access line which expands our customer base and creates additional revenue-generating opportunities;
- Metro-Ethernet services delivered over our copper infrastructure with speeds of 25 mega-bits per second (mbps) to 40 mbps;
- DSL product with speeds up to 20 mbps for those customers desiring greater Internet speed; and
- High definition video service and digital video recorders in all of our IPTV markets.

These efforts may mitigate the financial impact of any access line loss we experience.

Expenses

Our primary operating expenses consist of the cost of services; selling, general and administrative expenses; and depreciation and amortization expenses.

Cost of services and products. Our cost of services includes the following:

- Operating expenses relating to plant costs, including those related to the network and general support costs, central office switching and transmission costs, and cable and wire facilities;
- General plant costs, such as testing, provisioning, network, administration, power, and engineering;
- The cost of transport and termination of long-distance and private lines outside our rural telephone companies' service area; and
- Costs associated with our standard and high definition video products.

Table of Contents

We have agreements with various carriers to provide long-distance transport and termination services. We believe we will meet all of our commitments in these agreements and will be able to procure services for periods after our current agreements expire. We do not expect any material adverse effects from any changes in any new service contract.

Selling, general and administrative expenses. Selling, general and administrative expenses include expenses associated with customer care; billing and other operating support systems; and corporate expenses, such as professional service fees and non-cash, stock-based compensation.

Our operating support and back-office systems enter, schedule, provision, and track customer orders; test services and interface with trouble management; and operate inventory, billing, collections, and customer care service systems for the local access lines in our operations. We have migrated most key business processes onto a single company-wide system and platform. We hope to improve profitability by reducing individual company costs through centralizing, standardizing, and sharing best practices.

Depreciation and amortization expenses. The provision for depreciation on property and equipment is recorded using the straight-line method based upon the following useful lives:

Years	
Buildings	18 - 40
Network and outside plant facilities	3 - 50
Furniture, fixtures and equipment	3 - 15
Capital leases	11

Amortization expenses are recognized primarily for our intangible assets considered to have finite useful lives on a straight-line basis. In accordance with the applicable authoritative guidance, goodwill and intangible assets that have indefinite useful lives are not amortized but rather are tested at least annually for impairment. Because tradenames have been determined to have indefinite lives, they are not amortized. Customer relationships are amortized over their useful life. The net carrying value of customer lists at June 30, 2011 is being amortized at a weighted-average life of approximately 2.4 years.

Results of Operations

Segments

We have two reportable business segments, Telephone Operations and Other Operations. The discussion below covers our consolidated results and results by segment.

For the Three Months Ended June 30, 2011 Compared to June 30, 2010

The following summarizes our revenues and operating expenses on a consolidated basis for the three months ended June 30, 2011 and 2010:

Table of Contents

(In millions, except for percentages)	2011		2010	
	\$	%	\$	%
Revenue				
Telephone operations				
Local calling services	\$ 22.0	23.8	\$ 23.2	24.2
Network access services	19.3	20.8	20.9	21.8
Subsidies	11.1	12.0	11.8	12.3
Long-distance services	4.1	4.4	4.8	5.0
Data and Internet services	20.0	21.6	18.7	19.6
Other services	8.3	9.0	8.3	8.7
Total telephone operations	84.8	91.6	87.7	91.6
Other operations	7.8	8.4	8.0	8.4
Total operating revenue	92.6	100.0	95.7	100.0
Expenses				
Telephone operations	46.3	50.0	49.8	52.0
Other operations	7.1	7.7	7.2	7.5
Debt refinancing costs	2.5	2.7		
Depreciation and amortization	22.0	23.8	21.5	22.5
Total operating expense	77.9	84.2	78.5	82.0
Income from operations	14.7	15.8	17.2	18.0
Interest expense, net	12.4	13.4	13.0	13.6
Other income	6.3	6.8	6.5	6.8
Income tax expense	3.1	3.3	3.6	3.8
Net income	5.5	5.9	7.1	7.4
Net income attributable to noncontrolling interest	0.2	0.2	0.1	0.1
Net income attributable to common stockholders	\$ 5.3	5.7	\$ 7.0	7.3

Revenue

Revenue in the second quarter of 2011 declined by \$3.1 million, or 3.2%, to \$92.6 million from \$95.7 million in the second quarter 2010. Overall, the decline in revenue was principally the result of the decrease in the number of access lines, which reduced revenues for local calling services, network access services, subsidy draws and long-distance services. In addition, quarter over quarter revenue was negatively impacted by the sale in the fourth quarter of 2010 of our operator services business, which reduced revenue during the second quarter of 2011 by \$0.8 million as compared to the second quarter of 2010 and by \$0.7 million in settlements of access disputes in favor of customers. These revenue declines were partially offset by revenue gains in our data and internet services as a result of an increase in the number of broadband connections. VOIP, DSL and IPTV connections all increased quarter over quarter.

Access line loss continues to moderate and is being offset by growth in our number of broadband connections. VOIP, DSL and IPTV connections all increased during the second quarter of 2011 as compared to 2010. Connections by type are as follows:

Table of Contents

	2011	June 30, 2010
Residential access lines in service	138,538	143,283
Business access lines in service	93,822	98,999
Total local access lines in service	232,360	242,282
IPTV subscribers	31,218	26,074
ILEC DSL subscribers	108,581	103,428
Total broadband connections	139,799	129,502
VOIP subscribers	8,799	8,605
CLEC access line equivalents (1)	81,746	73,686
Total connections	462,704	454,075
Long-distance lines (2)	175,439	170,374

(1) CLEC access line equivalents represent a combination of voice services and data circuits. The calculations represent a conversion of data circuits to an access line basis. Equivalents are calculated by converting data circuits (basic rate interface, primary rate interface, DSL, DS-1, DS-3 and Ethernet) and SONET-based (optical) services (OC-3 and OC-48) to the equivalent of an access line.

(2) Reflects the inclusion of long-distance service provided as part of our VOIP offering while excluding CLEC long-distance subscribers.

Telephone Operations Revenue

Local calling services revenue decreased by \$1.2 million, or 5.2%, to \$22.0 million in the second quarter of 2011 compared to \$23.2 million in the second quarter of 2010. The decrease is primarily due to the decline in local access lines.

Network access services revenue decreased by \$1.6 million, or 7.7%, to \$19.3 million in the second quarter of 2011 compared to \$20.9 million in the second quarter of 2010. The decrease is primarily due to a decline in switched access minutes of use and \$0.7 million in settlement of access disputes in favor of customers. To a lesser extent, a decline in subscriber line charge revenue as a result of access line loss also contributed to the decline.

Subsidy revenue decreased by \$0.7 million, or 5.9%, to \$11.1 million in the second quarter of 2011 compared to \$11.8 million in the second quarter of 2010. The decline in subsidy revenue at both the federal and state level is partially a function of the loss of access lines. Subsidy revenue also decreased as a result of a decrease in interstate high cost fund support from the continuing decline in our regulated cost per loop compared to the National Average Cost Per Loop.

Long-distance services revenue decreased by \$0.7 million, or 14.6%, to \$4.1 million in the second quarter of 2011 as compared to \$4.8 million in the second quarter of 2010. The decrease is primarily due to a decline in billable minutes as a result of access line loss and customer shift to

unlimited long-distance plans.

Data and Internet revenue increased by \$1.3 million, or 7.0%, to \$20.0 million in the second quarter of 2011 as compared to \$18.7 million in the second quarter of 2010. The increase is primarily due to an increase in the number of DSL and IPTV subscribers.

Other services revenue was flat at \$8.3 million for both the second quarter of 2011 and 2010. Increases in transport revenues were offset by declines in directory revenue.

Table of Contents

Other Operations Revenue

Other Operations revenue decreased by \$0.2 million, or 2.5%, to \$7.8 million in the second quarter of 2011 as compared to \$8.0 million in the second quarter of 2010. Decreased revenue from the sale of our operator services business in the fourth quarter of 2010 was partially offset by an increase in revenue from our prison services business.

Operating Expenses

Operating expenses decreased in the second quarter of 2011 by \$3.6 million, or 6.3%, to \$53.4 million as compared to \$57.0 million in the second quarter of 2010. Operating expenses by segment are discussed below.

Telephone Operations Operating Expenses

Operating expenses for Telephone Operations decreased by \$3.5 million, or 7.0%, to \$46.3 million in the second quarter of 2011 as compared to \$49.8 million in the second quarter of 2010. The decrease in operating expense was principally driven by lower access costs and lower pension expense. Operating expense was also lower due to previous and ongoing cost reduction efforts, including current and previous headcount reductions along with lower benefit and occupancy costs. Operating expenses were negatively impacted during the second quarter of 2011 by an increase in severance costs, higher fees as a result of increased costs related to our video product (as a result of both increased subscribers and higher programming costs) and an accrual related to an ongoing dispute with the Pennsylvania Department of Revenue.

Other Operations Operating Expenses

Operating expenses for Other Operations decreased by \$0.1 million, or 1.4%, to \$7.1 million in the second quarter of 2011 as compared to \$7.2 million in the second quarter of 2010. Operating expenses in our other Operations Segment declined principally as a result of the elimination of costs totaling \$1.1 million related to the sale of our operator services business in the fourth quarter of 2010. This decrease in cost was partially offset by higher commission payments to the State of Illinois necessitated by an increase in revenue from our prison services business.

Debt refinancing costs

In connection with amending our credit agreement, fees totaling \$2.5 million were recognized as a non-recurring expense during the second quarter of 2011. In addition, approximately \$1.0 million in fees were capitalized as deferred debt issuance costs during the second quarter of 2011.

Depreciation and Amortization

Depreciation and amortization expense increased by \$0.5 million, or 2.3%, to \$22.0 million in the second quarter of 2011 as compared to \$21.5 million in the second quarter of 2010. The increase in depreciation expense was principally the result of increases in capitalized equipment related to the growth in video services.

Interest Expense, Net

Interest expense, net of interest income, declined by \$0.6 million, or 4.6%, to \$12.4 million for the second quarter of 2011 as compared to \$13.0 million for the second quarter of 2010. Interest

Table of Contents

expense in the second quarter of 2011 benefited from the expiration at December 31, 2010 of \$175 million notional amount of interest rates swaps that required fixed interest payments to our swap counterparties at a weighted-average fixed rate of 4.28%. These higher fixed rate swaps were replaced at December 31, 2010 with \$200 million notional amount of fixed interest rate swaps at a weighted-average rate of 1.83%. Interest expense in the second quarter of 2011 increased slightly as a result of our credit agreement amendment which increased the margin on \$409.1 million of debt from 2.50% to 3.75% for LIBOR-based loans.

Other Income (Expense)

Other income (expense) decreased by \$0.2 million to \$6.3 million in the second quarter of 2011 compared to \$6.5 million in the second quarter of 2010. The decrease was principally due to lower earnings from our wireless partnership interests. In the second quarter of 2010, other income (expense) was negatively affected by \$0.8 million in expense related to the disposal of assets.

Income Taxes

The provision for income taxes was \$3.1 million in the second quarter of 2011 compared to \$3.6 million in the second quarter of 2010. Our effective tax rate was 35.8% for the three months ended June 30, 2011 compared to 33.7% for the three months ended June 30, 2010. The effective tax rates differ from the federal and state statutory rates primarily due to non-deductible expenses.

Net Income Attributable to Noncontrolling Interest

The net income attributable to noncontrolling interest totaled \$0.2 million in the second quarters of 2011 versus \$0.1 million in the second quarter of 2010. The income for our East Texas Fiber Line, Inc. subsidiary (a joint venture owned 63% by the Company and 37% by Eastex Celco) was slightly better period over period.

For the Six Months Ended June 30, 2011 Compared to June 30, 2010

The following summarizes our revenues and operating expenses on a consolidated basis for the six months ended June 30, 2011 and 2010:

Edgar Filing: Consolidated Communications Holdings, Inc. - Form 10-Q

Revenue

Revenue in the first half of 2011 declined by \$5.9 million, or 3.0%, to \$188.1 million from \$194.0 million in the first half of 2010. Overall, the decline in revenue was principally due to the sales lull in the first quarter of 2010 of our telemarketing business and in the fourth quarter of 2010 of our operator services business. This lowered revenue in our Other Operations segment by approximately \$3.6 million year over year. In addition to the sale of these businesses, year over year revenue was negatively impacted by a decline in revenues related to our traditional wireline telephone business, which impacted revenue for local calling services, network access, subsidies, long-distance services and directory. Revenue was positively impacted in 2011 by continued growth in our data and Internet services (including DSL and IPTV), and by revenue growth in our prison services business.

Telephone Operations Revenue

Local calling services revenue decreased by \$3.0 million, or 6.4%, to \$44.0 million in the first half of 2011 compared to \$47.0 million in the first half of 2010. The decrease is primarily due to the decline in local access lines.

Network access services revenue decreased by \$1.4 million, or 3.3%, to \$40.7 million in the first half of 2011 compared to \$42.1 million in the first half of 2010. The decrease is primarily due to a

Table of Contents

decline in switched access minutes of use as well as a decline in subscriber line charge revenue, partially offset by a one-time increase in switched and special access revenues during the first quarter of 2011.

Subsidy revenue decreased by \$1.3 million, or 5.4%, to \$22.7 million in the first half of 2011 compared to \$24.0 million in the first half of 2010. The decline in subsidy revenue at both the federal and state level is partially a function of the loss of access lines. Subsidy revenue also decreased as a result of a decrease in interstate high cost fund support from the continuing decline in our regulated cost per loop compared to the National Average Cost Per Loop.

Long-distance services revenue decreased by \$1.0 million, or 10.6%, to \$8.4 million in the first half of 2011 as compared to \$9.4 million in the first half of 2010. The decrease is primarily due to a decline in billable minutes as a result of access line loss and customer shift to unlimited long-distance plans.

Data and Internet revenue increased by \$2.9 million, or 7.9%, to \$39.6 million in the first half of 2011 as compared to \$36.7 million in the first half of 2010. The increase is primarily due to an increase in the number of DSL and IPTV subscribers.

Other services revenue declined by \$0.5 million, or 2.9%, to \$16.8 million in the first half of 2011 as compared to \$17.3 million in the first half of 2010. Declines primarily in directory revenue were partially offset by an increase in transport revenues.

Other Operations Revenue

Other Operations revenue decreased by \$1.6 million, or 9.1%, to \$15.9 million in the first half of 2011 as compared to \$17.5 million in the first half of 2010. Declines in revenue from the sales of our telemarketing business and operator services business were partially offset by an increase in revenue from our prison services business.

Operating Expenses

Operating expenses decreased in the first half of 2011 by \$5.8 million, or 5.0%, to \$109.9 million as compared to \$115.7 million in the first half of 2010. Reductions in operating expenses by segment are discussed below.

Telephone Operations Operating Expenses

Edgar Filing: Consolidated Communications Holdings, Inc. - Form 10-Q

Operating expenses for Telephone Operations decreased by \$4.4 million, or 4.4%, to \$95.3 million in the first half of 2011 as compared to \$99.7 million in the first half of 2010. Operating expenses in 2011 benefited from lower access costs, lower pension expense and from previous and ongoing cost reduction efforts, including current and previous headcount reductions and lower benefit, supplies and occupancy costs. The benefit of these cost structure improvements were partially offset by higher severance costs, costs related to our video product (as a result of both increased subscribers and higher programming costs), an accrual for an ongoing dispute with the Pennsylvania Department of Revenue, along with higher advertising costs.

Other Operations Operating Expenses

Operating expenses for Other Operations decreased by \$1.4 million, or 8.8%, to \$14.6 million in the first half of 2011 as compared to \$16.0 million in the first half of 2010. Operating expenses in

Table of Contents

our other Operations Segment declined as a result of the elimination of costs totaling \$4.3 million related to the sale of our telemarketing and operator service businesses. This decrease in cost was partially offset by higher commission payments to the State of Illinois necessitated by an increase in revenue from our prison services business.

Debt refinancing costs

In connection with amending our credit agreement, fees totaling \$2.5 million were recognized as a non-recurring expense during the first half of 2011. In addition, approximately \$1.0 million in fees were capitalized as deferred debt issuance costs during the first half of 2011.

Depreciation and Amortization

Depreciation and amortization expense increased by \$1.1 million, or 2.6%, to \$44.1 million in the first half of 2011 as compared to \$43.0 million in the first half of 2010. The increase in depreciation expense was principally the result of increases in capitalized equipment related to the growth in video services.

Interest Expense, Net

Interest expense, net of interest income, declined by \$1.7 million, or 6.5%, to \$24.3 million for the first half of 2011 as compared to \$26.0 million for the first half of 2010. Interest expense in the first half of 2011 benefited from the expiration at December 31, 2010 of \$175 million notional amount of interest rates swaps that required fixed interest payments to our swap counterparties at a weighted-average fixed rate of 4.28%. These higher fixed rate swaps were replaced at December 31, 2010 with \$200 million notional amount of fixed interest rate swaps at a weighted-average rate of 1.83%. Interest expense also increased slightly from June 8, 2011 onward as a result of our credit agreement amendment which increased the margin on \$409.1 million of debt from 2.50% to 3.75%.

Other Income (Expense)

Other income (expense) increased \$0.4 million to \$13.4 million in the first half of 2011 compared to \$13.0 million in the first half of 2010. The increase was principally due to year over year improvements in earnings from our wireless partnerships which was partially offset by losses on the disposal of assets in 2010, including the sale of our telemarketing business unit.

Income Taxes

Edgar Filing: Consolidated Communications Holdings, Inc. - Form 10-Q

In January 2011, Illinois Governor signed into law PA. 96-1496. Included as part of the law was an increase in the corporate income tax rate. This resulted in an increase of our net state deferred tax liabilities and a corresponding increase to our state tax provision of \$0.3 million which we recognized in the first quarter of 2011. Exclusive of this adjustment, our effective tax rate for the six months ended June 30, 2011 would have been approximately 35.7%.

The provision for income taxes was \$7.7 million for the first six months of 2011 compared to \$8.1 million for the first six months of 2010. The effective tax rate was 37.1% for the six months ended June, 30, 2011 compared to 36.2% for the six months ended June 30, 2010. Our effective tax rate differs from the federal and state statutory rates primarily due to non-deductible expenses and a change in Illinois state income tax rates.

Table of Contents

Net Income Attributable to Noncontrolling Interest

The net income attributable to noncontrolling interest totaled \$0.3 million in the first half of 2011 as compared to \$0.2 million in the first half of 2010. The income for our East Texas Fiber Line, Inc. subsidiary (a joint venture owned 63% by the Company and 37% by Eastex Celco) was relatively stable period over period.

Other Trends and Factors that May Affect Future Operating Results

Reduction in Pennsylvania Intrastate Switched Access

The Pennsylvania Public Utility Commission has issued an Order requiring rural local telephone companies (RLEC) operating in Pennsylvania to lower their intrastate switched access rates to mirror their interstate rates. The Order also allows an RLEC to recoup their rate reductions by increasing their residential and business local access rates over a four-year implementation period. The Order is to be phased in over a four year period. The Company's Pennsylvania intrastate switched access and carrier common line rates currently exceed its interstate rates by a weighted-average \$0.0025 per minute and \$4.00, respectively. The Company expects the reduction of rates to reduce revenues by approximately \$1.5 million annually once fully implemented, which will be partially offset by a reduction in expense. While the Order also allows for the increase of local access rates, the Company believes that any significant increase to its local access rates may accelerate the rate of access line loss.

Texas High Cost Assistance Fund

The Staff at the Public Utility Commission of Texas (TPUC) has initiated administrative proceedings at the TPUC against two of our Texas subsidiaries, Consolidated Communications of Texas Company (CCTX) and Consolidated Communications of Ft. Bend (CCFB), seeking, among other things, the disallowance of High Cost Assistance Fund (HCAF) payments for these two entities. TPUC Staff claims in each of the proceedings that certain amendments to Section 56.025 of the Texas Public Utility Regulatory Act, effective as of September 1, 2007, lowered the eligibility threshold for receipt of HCAF payments to companies with fewer than 31,000 access lines. Because both CCTX and CCFB have exceeded that threshold since September 1, 2007, the proceedings seek a determination that, among other things, the funding for CCTX and CCFB should be discontinued. The Company currently receives approximately \$1.4 million annually in payments from the HCAF for CCTX and CCFB combined. While the Company believes that it was grandfathered under the legislation and intends to vigorously defend itself in front of the TPUC, the receipt of this revenue stream going forward could cease should the TPUC prevail in its complaint.

Liquidity and Capital Resources

Outlook and Overview

Edgar Filing: Consolidated Communications Holdings, Inc. - Form 10-Q

The following table sets forth selected information regarding our financial condition.

(In thousands, except for ratio)	June 30, 2011	December 31, 2010
Cash and cash equivalents	\$ 82,007	\$ 67,654
Working capital	71,079	60,658
Total debt and capital leases	884,789	884,125
Current ratio	1.97	1.80

Table of Contents

Our operating requirements have historically been funded from cash flows generated from our business and borrowings under our credit facilities. We expect that our future operating requirements will continue to be funded from cash flows generated from our business and, if needed, from borrowings under our revolving credit facility.

As a general matter, we expect that our liquidity needs for the remainder of 2011 will arise primarily from: (i) dividend payments of between \$22.0 million and \$23.0 million; (ii) interest payments on our indebtedness of between \$23.0 million and \$24.0 million; (iii) capital expenditures of between \$19.5 million and \$20.5 million; (iv) cash income tax payments; (v) pension, 401(k) and other post retirement obligations of between \$8.0 million and \$9.0 million; and (vi) certain other costs. In addition, we may use cash and incur additional debt to fund selective acquisitions. However, our ability to use cash may be limited by our other expected uses of cash, including our dividend policy, and our ability to incur additional debt will be limited by our existing and future debt agreements.

We believe that cash flows from operating activities, together with our existing cash and borrowings available under our revolving credit facility, will be sufficient for approximately the next twelve months to fund our current anticipated uses of cash. After that, our ability to fund these expected uses of cash and to comply with the financial covenants under our debt agreements will depend on the results of future operations, performance and cash flow. Our ability to do so will be subject to prevailing economic conditions and to financial, business, regulatory, legislative and other factors, many of which are beyond our control.

We may be unable to access the cash flows of our subsidiaries since certain of our subsidiaries are parties to credit or other borrowing agreements, or subject to statutory or regulatory restrictions, that restrict the payment of dividends or making intercompany loans and investments, and those subsidiaries are likely to continue to be subject to such restrictions and prohibitions for the foreseeable future. In addition, future agreements that our subsidiaries may enter into governing the terms of indebtedness may restrict our subsidiaries' ability to pay dividends or advance cash in any other manner to us.

To the extent that our business plans or projections change or prove to be inaccurate, we may require additional financing or require financing sooner than we currently anticipate. Sources of additional financing may include commercial bank borrowings, other strategic debt financing, sales of nonstrategic assets, vendor financing or the private or public sales of equity and debt securities. There can be no assurance that we will be able to generate sufficient cash flows from operations in the future, that anticipated revenue growth will be realized, or that future borrowings or equity issuances will be available in amounts sufficient to provide adequate sources of cash to fund our expected uses of cash. Failure to obtain adequate financing, if necessary, could require us to significantly reduce our operations or level of capital expenditures which could have a material adverse effect on our financial condition and the results of operations.

As discussed below, the margin for each tranche of our term loan is fixed for the duration of the loan and we have \$50 million available under our revolving credit facility. Based on our discussion with banks participating in the bank group, we expect that the funds will be available under the revolving credit facility if necessary.

Sources of Liquidity

Our current principal sources of liquidity are cash and cash equivalents, working capital, and cash available under our secured revolving credit facility.

Table of Contents

Cash and cash equivalents. For the first half of 2011, cash and cash equivalents increased by \$14.4 million as compared to an increase in cash and cash equivalents of \$10.8 million during the first half of 2010. The increase in cash and cash equivalents quarter over quarter reflects an improvement in cash provided by operations and a lower level of estimated tax payments, offset by fees paid as a result of our amended credit agreement.

Working capital (excluding cash and cash equivalents). Our net working capital position (excluding cash and cash equivalents) decreased by \$2.2 million at June 30, 2011 versus June 30, 2010. The decrease is the result of an amendment to our credit agreement on June 8, 2011 which requires principal reductions of \$2.2 million per quarter beginning March 31, 2012. As a result, we moved \$4.4 million of debt from long-term to current, which reduced our working capital position.

Cash available under our secured revolving credit facility. At June 30, 2011 and 2010, we had no borrowings outstanding under our secured revolving credit facility and \$50 million of availability.

Uses of Liquidity

Our principal uses of liquidity are dividend payments, interest expense and other payments on our debt, capital expenditures and payments made to fund our pension and other postretirement obligations.

Dividend payments. We used \$11.6 million of cash to make dividend payments to shareholders during the second quarter of 2011 and 2010. We used \$23.1 million of cash to make dividend payments to shareholders during the first half of 2011 and 2010. Our current quarterly dividend rate is \$0.38738 per share.

Interest and other payments related to outstanding debt and capital leases. During the second quarter of 2011, we used \$11.8 million of cash to make required interest payments on our outstanding debt and \$37 thousand of cash to reduce our capital lease obligations. During the second quarter of 2010, we used \$12.5 million of cash to make required interest payments on our outstanding debt and \$0.2 million to reduce our capital lease obligations.

For the first half of 2011, we used \$23.2 million of cash to make required interest payments on our outstanding debt and \$71 thousand of cash to reduce our capital lease obligations. For the first half of 2010, we used \$24.8 million of cash to make required interest payments on our outstanding debt and \$0.3 million of cash on our capital lease obligations.

Pension and postretirement obligations. In the second quarter of 2011, we used \$3.6 million of cash to fund pension, 401(k) and other postretirement obligations. In the second quarter of 2010, we used \$1.3 million of cash to fund pension, 401(k) and other postretirement obligations. The increase in pension and postretirement payments in the second quarter of 2011 versus 2010 primarily reflects a \$1.9 million payment to our qualified pension plan. We made no payments to our qualified pension plan during the second quarter of 2010.

Edgar Filing: Consolidated Communications Holdings, Inc. - Form 10-Q

In the first half of 2011, we used \$7.0 million of cash to fund pension, 401(k) and other postretirement obligations. In the first half of 2010, we used \$2.8 million of cash to fund pension, 401(k) and other postretirement obligations. For the first six months of 2011, increase in pension and postretirement payments primarily reflects \$3.8 million in payments to our qualified pension plan. We made no payments to our qualified pension plan during the first six months of 2010.

Edgar Filing: Consolidated Communications Holdings, Inc. - Form 10-Q

Table of Contents

Capital expenditures. During the second quarter of 2011, we spent approximately \$10.7 million on capital projects. During the second quarter of 2010, we spent approximately \$10.9 million on capital projects. For the first six months of 2011, we spent approximately \$20.7 million on capital projects. During the first six months of 2010, we spent approximately \$21.8 million on capital projects.

Debt

The following table summarizes our indebtedness as of June 30, 2011:

(In thousands)	Balance	Maturity Date	Rate (1)
Capital leases	\$ 4,789	May 31, 2021	13.7% (2)
\$50 million revolving credit facility		June 8, 2016	LIBOR plus 3.25%
Term loan tranche A	\$ 470,948	December 31, 2014	LIBOR plus 2.50%
Term loan tranche B	\$ 409,052	December 31, 2017	LIBOR plus 3.75%

(1) As of June 30, 2011, the 1-month LIBOR rate in effect on our borrowings was 0.19%.

(2) Weighted-average rate.

Credit Facilities

We amended our credit agreement effective June 8, 2011. Borrowings under our amended credit agreement are secured by substantially all of our assets (other than our Illinois Consolidated Telephone Company subsidiary, and certain future subsidiaries). The amended credit agreement contains customary affirmative covenants, which require us and our subsidiaries to furnish specified financial information to the lenders, comply with applicable laws, maintain our properties and assets and maintain insurance on our properties, among others, and contains customary negative covenants which restrict our and our subsidiaries' ability to incur additional debt and issue capital stock, create liens, repay other debt, sell assets, make investments, loans, guarantees or advances, pay dividends, repurchase equity interests or make other restricted payments, engage in affiliate transactions, make capital expenditures, engage in mergers, acquisitions or consolidations, enter into sale-leaseback transactions, amend specified documents, enter into agreements that restrict dividends from subsidiaries and change the business we conduct. In addition, the amended credit agreement requires us to comply with specified financial ratios that are summarized below under *Covenant Compliance*.

As a result of the amendment to our credit agreement, two separate tranches were established under the \$880 million term loan facility, resulting in different maturity dates and interest rate margins for each term loan tranche. The first term loan tranche consists of \$470.9 million aggregate principal amount, matures on December 31, 2014 and has an applicable margin (at our election) equal to either 2.50% for a LIBOR-based term loan or 1.50% for an alternative base rate loan. The second term loan tranche consists of \$409.1 million aggregate principal amount, matures on December 31, 2017 and has an applicable margin (at our election) equal to either 3.75% for a LIBOR-based loan or 2.75% for an alternative base rate loan. The applicable margins for each of the term loan tranches are fixed for the duration of the loans. The amended term loan facility also requires \$2.2 million in quarterly principal payments beginning March 31, 2012.

The June 8 credit agreement amendment also modified our \$50 million revolving credit facility. The amended \$50 million secured revolving credit facility (including an additional subsequent amendment dated July 7, 2011 effective as of June 8, 2011) has a maturity date of June 8, 2016 and has an applicable margin (at our election) of between 2.75% and 3.50% for LIBOR-based borrowings and between 1.75% and 2.50% for alternative base rate borrowings, depending on our leverage ratio. Based on our leverage ratio of 4.64:1 at June 30, 2011, the borrowing margin for the next three month period

Table of Contents

ending September 30, 2011 will be at a weighted-average margin of 3.25% for a LIBOR-based loan and 2.25% for an alternative base rate loan. The applicable borrowing margin for the revolving credit facility is adjusted quarterly to reflect the leverage ratio from the prior quarter-end. There were no borrowings or letters of credit outstanding under the revolving credit facility as of June 30, 2011 or December 31, 2010, or at any time during the quarter ended June 30, 2011.

For the quarter ended June 30, 2011, the weighted-average interest rate incurred on our credit facilities, including payments made under our interest rate swap agreement, was 5.45% per annum.

Derivative Instruments

At June 30, 2011, we had \$630 million notional amount of floating to fixed interest rate swap agreements outstanding and \$430 million notional amount of basis swaps outstanding. In addition, we also have entered into a \$100 million notional amount forward floating to fixed interest rate swap agreement that will become effective on September 30, 2011. The swaps are in place to hedge the change in overall cash flows related to our term loan, the driver of which is changes in the underlying variable interest rate.

We have \$430 million notional amount of floating to fixed swap agreements outstanding whereby we receive 3-month LIBOR-based interest payments from the swap counterparties and pay a fixed rate. The basis swap agreements are structured so that we pay 3-month LIBOR-based payments less a fixed percentage to the basis swap counterparties, and receive 1-month LIBOR. Concurrent with the execution of the basis swaps, we began electing 1-month LIBOR resets on our credit facility.

We also have in place \$200 million notional amount of floating to fixed interest rate swap agreements. Under these swap agreements, we make fixed payments to the swap counterparties at a weighted-average fixed rate of 1.83% and receive 1-month LIBOR. These swap agreements have a maturity date of March 31, 2013.

In addition, we also have entered into a \$100 million notional amount of forward floating to fixed interest rate swap agreement that will become effective on September 30, 2011. For this swap agreement, we will make fixed payments to the swap counterparty at a weighted-average fixed rate of 1.65% and receive 1-month LIBOR. The September 2011 forward swap agreement has a maturity date of September 30, 2013.

Covenant Compliance

In general, our amended credit agreement restricts our ability to pay dividends to the amount of our Available Cash accumulated after October 1, 2005, plus \$23.7 million and minus the aggregate amount of dividends paid after July 27, 2005. Available Cash for any period is defined in our credit facility as Consolidated EBITDA (a) minus, to the extent not deducted in the determination of Consolidated EBITDA, (i) non-cash dividend income for such period; (ii) consolidated interest expense for such period net of amortization of debt issuance costs incurred (A) in connection with or prior to the consummation of the acquisition of North Pittsburgh or (B) in connection with the redemption of our then outstanding senior notes; (iii) capital expenditures from internally generated funds; (iv) cash income taxes for such period; (v) scheduled principal payments of Indebtedness, if any; (vi) voluntary repayments of indebtedness, mandatory prepayments of term loans and net increases

Edgar Filing: Consolidated Communications Holdings, Inc. - Form 10-Q

in outstanding revolving loans during such period; (vii) the cash costs of any extraordinary or unusual losses or charges; and (viii) all cash payments made on account of losses or charges expensed prior to such period (b) plus, to the extent not included in Consolidated EBITDA, (i) cash interest income; (ii) the cash amount realized in respect of extraordinary or unusual gains; and (iii) net decreases in revolving

Edgar Filing: Consolidated Communications Holdings, Inc. - Form 10-Q

Table of Contents

loans. Based on the results of operations from October 1, 2005 through June 30, 2011, and after taking into consideration dividend payments (including the \$11.6 million dividend declared in March 2011 and paid on August 1, 2011), we continue to have \$160.3 million in dividend availability under the credit facility covenant.

Under our amended credit agreement, if our total net leverage ratio (as such term is defined in the amended credit agreement), as of the end of any fiscal quarter, is greater than 5.10:1.00, we will be required to suspend dividends on our common stock unless otherwise permitted by an exception for dividends that may be paid from the portion of proceeds of any sale of equity not used to make mandatory prepayments of loans and not used to fund acquisitions, capital expenditures or make other investments. During any dividend suspension period, we will be required to repay debt in an amount equal to 50.0% of any increase in available cash (as such term is defined in our credit agreement) during such dividend suspension period, among other things. In addition, we will not be permitted to pay dividends if an event of default under the amended credit agreement has occurred and is continuing. Among other things, it will be an event of default if our interest coverage ratio as of the end of any fiscal quarter is below 2.25:1.00. As of June 30, 2011, our total net leverage ratio was 4.64:1.00 and our interest coverage ratio was 3.77:1.00.

The descriptions of the covenants above and of our amended credit agreement generally in this Report are summaries only. They do not contain a full description, including definitions, of the provisions summarized. As such, these summaries are qualified in their entirety by these documents, which are filed as exhibits to our Annual Report on Form 10-K, Quarterly Reports on Form 10-Q and Current Reports on Form 8-K.

Dividends

The cash required to fund dividend payments is in addition to our other expected cash needs, which we expect to fund with cash flows from our operations. In addition, we expect we will have sufficient availability under our revolving credit facility to fund dividend payments in addition to any expected fluctuations in working capital and other cash needs, although we do not intend to borrow under this facility to pay dividends.

We believe that our dividend policy will limit, but not preclude, our ability to grow. If we continue paying dividends at the level currently anticipated under our dividend policy, we may not retain a sufficient amount of cash, and may need to seek refinancing, to fund a material expansion of our business, including any significant acquisitions or to pursue growth opportunities requiring capital expenditures significantly beyond our current expectations. In addition, because we expect a significant portion of cash available will be distributed to holders of common stock under our dividend policy, our ability to pursue any material expansion of our business will depend more than it otherwise would on our ability to obtain third-party financing.

Capital Leases

The Company has four capital leases, all of which expire in 2021, for the lease of office, warehouse and tech center space. As of June 30, 2011, the present value of the minimum remaining lease commitments was approximately \$4.8 million, of which \$0.2 million is due and payable within the next 12 months. The leases require total remaining rental payments of approximately \$9.0 million over the remaining term of the leases.

Table of Contents

Surety Bonds

In the ordinary course of business, we enter into surety, performance, and similar bonds. As of June 30, 2011, we had approximately \$2.0 million of these bonds outstanding.

Item 3. Quantitative and Qualitative Disclosures about Market Risk

We are exposed to market risk from changes in interest rates. Market risk is the potential loss arising from adverse changes in market interest rates on our variable rate obligations. We calculate the potential change in interest expense caused by changes in market interest rates by determining the effect of the hypothetical rate increase on the portion of our variable rate debt that is not hedged through the interest rate swap agreements.

During the first six months of 2011, the interest rate on approximately \$250.0 million of our floating rate debt was not fixed through the use of interest rate swaps, thereby subjecting this portion of our debt to potential changes in interest rates. If market interest rates changed by 1.0% from the average rates that prevailed during the first six months of this year, interest expense would have increased or decreased by approximately \$1.3 million for this six month period.

As of June 30, 2011, the fair value of our interest rate swap agreements amounted to a net liability of \$14.2 million, net of deferred taxes, which is recognized as a deferred loss within accumulated other comprehensive loss.

Item 4. Controls and Procedures

We maintain disclosure controls and procedures that are designed to ensure that information required to be disclosed by us in our reports that we file or submit under the Securities Exchange Act of 1934, as amended, is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms, and that such information is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosures. Our management, with the participation of our Chief Executive Officer and Chief Financial Officer, has evaluated the effectiveness of the design and operation of our disclosure controls and procedures as of June 30, 2011. Based upon that evaluation and subject to the foregoing, our Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures are effective. No change in our internal control over financial reporting (as defined in Rule 13a-15(f) under the Exchange Act) occurred during our fiscal quarter ended June 30, 2011 that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

Table of Contents

PART II. OTHER INFORMATION

Item 1. Legal Proceedings

On April 15, 2008, Salsgiver Inc., a Pennsylvania-based telecommunications company, and certain of its affiliates filed a lawsuit against us and our subsidiaries North Pittsburgh Telephone Company and North Pittsburgh Systems Inc. in the Court of Common Pleas of Allegheny County, Pennsylvania alleging that we have prevented Salsgiver from connecting their fiber optic cables to our utility poles. Salsgiver seeks compensatory and punitive damages as the result of alleged lost projected profits, damage to its business reputation, and other costs. It claims to have sustained losses of approximately \$125 million, but does not request a specific dollar amount in damages. We believe that these claims are without merit and that the alleged losses are completely unfounded. We intend to defend against these claims vigorously. In the third quarter of 2008, we filed preliminary objections and responses to Salsgiver's complaint. However, the court ruled against our preliminary objections. On November 3, 2008, we responded to Salsgiver's amended complaint and filed a counter-claim for trespass, alleging that Salsgiver attached cables to our poles without an authorized agreement and in an unsafe manner. We are currently in the discovery and deposition stage. In addition, we have asked the FCC Enforcement Bureau to address Salsgiver's unauthorized pole attachments and safety violations on those attachments. We believe that these are violations of an FCC order regarding Salsgiver's complaint against us. We do not believe that these claims will have a material adverse impact on our financial results.

On November 5, 2010, the Staff at the Public Utility Commission of Texas (TPUC) initiated an administrative proceeding at the TPUC (TPUC Docket No. 38872) against Consolidated Communications of Texas Company (CCTX), a subsidiary of the Company, with respect to the disallowance of and refunding of CCTX's High Cost Assistance Fund (HCAF) payments. In addition, on March 11, 2011, the TPUC also initiated an administrative proceeding at the TPUC (TPUC Docket No. 39250) against Consolidated Communications of Ft. Bend Company (CCFB), another subsidiary of the Company, with respect to the HCAF payments received by CCFB. The TPUC Staff claims in each of the proceedings that certain amendments to Section 56.025 of the Texas Public Utility Regulatory Act (PURA), effective as of September 1, 2007, lowered the eligibility threshold for receipt of HCAF payments to companies with fewer than 31,000 access lines. Because both CCTX and CCFB have exceeded that threshold since September 1, 2007, the proceedings seek a determination that the funding for CCTX and CCFB should be discontinued. The Company currently receives approximately \$1.4 million annually in payments from the HCAF for CCTX and CCFB combined. In addition, the TPUC Staff is asking the Company to refund the HCAF payments received plus interest since the amendment to PURA went into effect. The Company has received approximately \$5.4 million from the HCAF since the PURA amendment went into effect. The Company intends to vigorously defend itself against the complaints filed by the TPUC. Moreover, the Company believes that it was grandfathered under the legislation and entitled to the assistance received from the HCAF. We do not believe that this dispute will have a material adverse impact on our financial results.

We are from time to time involved in various other legal proceedings and regulatory actions arising out of our operations. We do not believe that any of these, individually or in the aggregate, will have a material adverse effect upon our business, operating results or financial condition.

Item 1A. Risk Factors

The Company included in its Annual Report on Form 10-K as of December 31, 2010 a description of certain risks and uncertainties that could affect the Company's business, future performance or financial condition (Risk Factors).
