**Results of Operations.**

On March 25, 2014, American Apparel, Inc. (the Company) updated its preliminary estimates of certain financial information as of and for the year ended December 31, 2013.

The Company has estimated the following unaudited financial results as of and for the year ended December 31, 2013:

<b>2013 Net Sales by Channel</b>	<b>2013 Net Sales by Region</b>	<b>2013 Retail Sales by Region</b>
Retail: 62%	U.S.: 63%	U.S.: 52%
Wholesale: 28%	Europe and U.K.: 19%	Europe and U.K.: 25%
Online: 10%	Canada: 10%	Canada: 11%
	Asia Pacific: 8%	Asia Pacific: 11%
	Latin America: 0%	Latin America: 1%

Gross profit for the year ended December 31, 2013 is estimated at \$321 million, or 51% of net sales, as compared to \$327 million, or 53% of net sales, for the year ended December 31, 2012. The decrease is attributable to higher distribution costs and promotions associated with the Company's retail operations and increased production costs associated with manufacturing operations, including the higher costs largely due to the transition to the new distribution center in La Mirada, CA.

Operating expenses for the year ended December 31, 2013 are estimated at \$350 million, or 55% of net sales, as compared to \$326 million, or 53% of net sales, for the year ended December 31, 2012. The increase was primarily attributable to incremental costs associated with the transition to the new distribution center and added costs associated with leased equipment and, to a lesser extent, increased costs associated with the increase in sales.

Loss from operations for the year ended December 31, 2013 is estimated at \$30 million as compared to income from operations of \$962,000 for the year ended December 31, 2012. The loss was primarily attributable to lower gross profit and an increase in operating expenses as discussed above, which offset the higher sales volume in 2013.

Net loss for the year ended December 31, 2013 is estimated at \$107 million (approximately \$0.97 per share) as compared with \$37 million (approximately \$0.35 per share) for the year ended December 31, 2012, primarily as a result of a loss on extinguishment of debt related to the Company's April 2013 refinancing, mark-to-market adjustments on outstanding warrants, and added costs associated with the new distribution center. As a result of the net loss for 2013, stockholders' deficit as of December 31, 2013 is estimated at \$78 million, as compared with stockholders' equity of \$22 million as of December 31, 2012.

Net cash used in operating activities for the year ended December 31, 2013 is estimated at \$16.8 million as compared with net cash provided by operating activities of \$23.6 million for the year ended December 31, 2012. The increase in cash used in operating activities in 2013 was a result of the net loss referred to above, offset by non-cash expenses and a decrease in working

capital requirements. Cash provided by financing activities for the year ended December 31, 2013 is estimated at \$35.7 million compared to \$4.2 million for the year ended December 31, 2012. The increase in cash provided by financing activities in 2013 consisted primarily of proceeds from the issuance of the senior secured notes and borrowings under the Capital One Credit Facility and the credit facility with the Bank of Montreal (the Bank of Montreal Credit Facility), which amounts were used to repay borrowings under and terminate prior credit agreements. Net decrease in available cash for the year ended December 31, 2013 is estimated at \$4.2 million.

As of December 31, 2013, the Company estimates that it had approximately \$8.7 million in cash and \$6.3 million of availability for additional borrowings under the Capital One Credit Facility and the Bank of Montreal Credit Facility. Additionally, the Company estimates that it had \$43.5 million outstanding on the \$50.0 million Capital One Credit Facility and \$443,000 outstanding on the C\$5.0 million (Canadian dollars) Bank of Montreal Credit Facility, which was reduced from C\$5.0 million (Canadian dollars) to C\$2.0 million (Canadian dollars) effective February 28, 2014. The Bank of Montreal Credit Facility will terminate on March 31, 2014.

As of February 28, 2014, the Company estimates that it had approximately \$4.9 million in cash, \$2.7 million of availability for additional borrowings under the Capital One Credit Facility, and \$583,000 of availability under the Bank of Montreal Credit Facility.

The Company has not yet finalized its financial information as of or for the year ended December 31, 2013. The above information is preliminary and subject to year-end and quarter-end accounting processes and external review and, with respect to the 2013 financial results, audit by the Company's independent registered public accounting firm, who have not yet audited, reviewed, compiled or performed any procedures on the preliminary information or issued their attestation report on management's assessment of the internal control over financial reporting.
