plus, in the case of both clauses above, accrued and unpaid interest on the notes to be redeemed to the redemption date.

## Edgar Filing: 3M CO - Form 424B2

In addition, at any time on or after the Applicable Par Call Date, each of the 1.625% Notes due 2021, the 2.250% Notes due 2026 and the 3.125% Notes due 2046 will be redeemable, in whole but not in part at our option, at a redemption price equal to 100% of the principal amount of the notes plus accrued interest thereon to the date of redemption.

Applicable Par Call Date means (1) with respect to the 1.625% Notes due 2021, August 19, 2021 (one month prior to the maturity of the 1.625% Notes due 2021), (2) with respect to the 2.250% Notes due 2026, June 19, 2026 (three months prior to the maturity of the 2.250% Notes due 2026) and (3) with respect to the 3.125% Notes due 2046, March 19, 2046 (six months prior to the maturity of the 3.125% Notes due 2046).

Comparable treasury price means, with respect to any redemption date, (i) the average of at least three reference treasury dealer quotations for that redemption date, after excluding the highest and lowest of five or more reference treasury dealer quotations, or (ii) if the Trustee obtains fewer than five reference dealer quotations, the average of all reference treasury dealer quotations so obtained.

Quotation agent means the reference treasury dealer appointed by the Company.

## Edgar Filing: 3M CO - Form 424B2

Pierce, Fenner & Smith Incorporated and Morgan Stanley & Co. LLC and their respective successors; however, if any of the foregoing shall cease to be a primary U.S. Government securities dealer in New York City (a primary treasury dealer), the Company will substitute another primary treasury dealer; and (ii) any other primary treasury dealer(s) selected by the Company.

Reference treasury dealer quotations means, with respect to each reference treasury dealer and any redemption date, the average, as determined by the Company, of the bid and asked prices for the comparable treasury issue (expressed in each case as a percentage of its principal amount) quoted in writing to the Trustee by the reference treasury dealer at 5:00 p.m., New York City time, on the third business day preceding the redemption date.

Treasury rate means, with respect to any redemption date, the annual rate equal to the semi-annual equivalent yield to maturity of the comparable treasury issue, assuming a price of the comparable treasury issue (expressed as a percentage of its principal amount) equal to the comparable treasury price for that redemption date.

In the case of a partial redemption of the 1.625% Notes due 2021, the 2.250% Notes due 2026 or the 3.125% Notes due 2046, selection of the notes for redemption will be made pro rata, if commercially practicable in accordance with the procedures of DTC or the relevant depository, and if not, then by lot or such other method as required in accordance with the procedures of DTC or the relevant depository. The notes will be redeemed in denominations of \$2,000 and integral multiples of \$1,000 in excess thereof. Notice of any redemption will be mailed by first class mail at least 30 days but not more than 60 days before the redemption date to each holder of the notes to be redeemed at its registered address. If any notes are to be redeemed in part only, the notice of redemption that relates to such notes will state the portion of such notes to be redeemed. New notes in principal amounts of at least \$2,000 equal to the unredeemed portion of the notes will be issued in the name of the holder of the notes upon surrender for cancellation of the original notes. Unless the Company defaults in payment of the redemption price, on and after the redemption date, interest will cease to accrue on the notes or the portions of the notes called for redemption.
