Country assignments and aggregations are based generally on third party vendor classifications and information, and may be different from the assignments and aggregations under the policies set forth in the Fund's prospectus and/or statement of additional information relating to geographic classifications.

- 
- (a) 144A security Certain conditions for public sale may exist. Unless otherwise noted, these securities are deemed to be liquid.
- (b) Floating or Variable rate securities: The rates disclosed are as of September 30, 2018. For securities based on a published reference rate and spread, the reference rate and spread are indicated in the description in the Portfolio of Investments. Certain variable rate securities may not be based on a published reference rate and spread but are determined by the issuer or agent and are based on current market conditions. These securities do not indicate a reference rate and spread in their description in the Portfolio of Investments.
- (c) All or a portion of this security was on loan. The value of loaned securities and related collateral outstanding at September 30, 2018, were approximately \$8,063,000 and \$8,264,000, respectively. The Fund received cash collateral of approximately \$3,498,000, of which approximately \$3,266,000 was subsequently invested in a Repurchase Agreement and Morgan Stanley Institutional Liquidity Funds - Treasury Securities Portfolio - Institutional Class as reported in the Portfolio of Investments. At September 30, 2018, there was uninvested cash collateral of approximately \$232,000, which is not reflected in the Portfolio of Investments. The remaining collateral of approximately \$4,766,000 was received in the form of U.S. Government obligations, which the Fund cannot sell or re-pledge and accordingly are not reflected in the Portfolio of Investments. The Fund has the right under the securities lending agreement to recover the securities from the borrower on demand.
- (d) Multi-step Coupon rate changes in predetermined increments to maturity. Rate disclosed is as of September 30, 2018. Maturity date disclosed is the ultimate maturity date.
- (e) Perpetual One or more securities do not have a predetermined maturity date. Rates for these securities are fixed for a period of time, after which they revert to a floating rate. Interest rates in effect are as of September 30, 2018.
- (f) Issuer in bankruptcy.
- (g) Non-income producing security; bond in default.
- (h) Security has been deemed illiquid at September 30, 2018.
- (i) The Fund invests in the Institutional Class of the Morgan Stanley Institutional Liquidity Funds - Treasury Securities Portfolio - (the Liquidity Funds), an open-end management investment company managed by the Adviser, both directly and as a portion of the securities held as collateral on loaned securities. Advisory fees paid by the Fund are reduced by an amount equal to its pro-rata share of the advisory and administration fees paid by the Fund due to its investment in the Liquidity Funds. For the nine months ended September 30, 2018, advisory fees paid were reduced by approximately \$6,000 relating to the Fund's investment in the Liquidity Funds.
- (j) Securities are available for collateral in connection with an open foreign currency forward exchange contract.
- (k) The Fund is permitted to purchase and sell securities (cross-trade) from and to other Morgan Stanley Funds as well as other funds and client accounts for which the Adviser or an affiliate of the Adviser serves as investment adviser, pursuant to procedures approved by the Directors in compliance with Rule 17a-7 under the Act (the Rule). Each cross-trade is executed at the current market price in compliance with provisions of the Rule. For the nine months ended September 30, 2018, the Fund did not engage in any cross-trade transactions.
- (l) At September 30, 2018, the aggregate cost for federal income tax purposes approximates the aggregate cost for book purposes. The aggregate gross unrealized appreciation is approximately \$4,789,000 and the aggregate gross unrealized depreciation is approximately \$15,011,000, resulting in net unrealized depreciation of approximately \$10,222,000.
- BADLAR Buenos Aires Deposits of Large Amount Rate.
-

**Foreign Currency Forward Exchange Contracts:**

The Fund had the following foreign currency forward exchange contracts open at September 30, 2018:

Morgan Stanley Emerging Markets Debt Fund, Inc.

**Notes to the Portfolio of Investments • September 30, 2018 (unaudited)**

In August 2018, the Financial Accounting Standards Board ( FASB ) issued Accounting Standards Update 2018-13, Fair Value Measurement (Topic 820) - Disclosures Framework - Changes to Disclosure Requirements of Fair Value Measurement ( ASU 2018-13 ) which introduces new fair value disclosure requirements as well as eliminates and modifies certain existing fair value disclosure requirements. ASU 2018-13 would be effective for fiscal years beginning after December 15, 2019 and for interim periods within those fiscal years; however, management has elected to early adopt ASU 2018-13 effective with the current reporting period as permitted by the standard. The impact of the Fund's adoption was limited to changes in the Fund's financial statement disclosures regarding fair value, primarily those disclosures related to transfers between levels of the fair value hierarchy and disclosure of the range and weighted average used to develop significant unobservable inputs for Level 3 fair value measurements, when applicable.

**Security Valuation:** (1) Bonds and other fixed income securities may be valued according to the broadest and most representative market. In addition, bonds and other fixed income securities may be valued on the basis of prices provided by a pricing service/vendor. The pricing service/vendor may employ a pricing model that takes into account, among other things, bids, yield spreads, and/or other market data and specific security characteristics. Alternatively, if a valuation is not available from an outside pricing service/vendor, and the security trades on an exchange, the security may be valued at its latest reported sale price (or at the exchange official closing price if such exchange reports an official closing price), prior to the time when assets are valued. If there are no sales on a given day and if there is no official exchange closing price for that day, the security is valued at the mean between the last reported bid and asked prices if such bid and asked prices are available in the relevant exchanges; (2) an equity portfolio security listed or traded on an exchange is valued at its latest reported sales price (or at the exchange official closing price if such exchange reports an official closing price), and if there were no sales on a given day and if there is no official exchange closing price for that day, the security is valued at the mean between the last reported bid and asked prices if such bid and asked prices are available on the relevant exchanges. Listed equity securities not traded on the valuation date with no reported bid and asked prices available on the exchange are valued at the mean between the current bid and asked prices obtained from one or more reputable brokers or dealers. In cases where a security is traded on more than one exchange, the security is valued on the exchange designated as the primary market; (3) when market quotations are not readily available, including circumstances under which Morgan Stanley Investment Management Inc. (the Adviser ) determines that the closing price, last sale price or the mean between the last reported bid and asked prices are not reflective of a security's market value, portfolio securities are valued at their fair value as determined in good faith under procedures established by and under the general supervision of the Fund's Board of Directors (the Directors ). Occasionally, developments affecting the closing prices of securities and other assets may occur between the times at which valuations of such securities are determined (that is, close of the foreign market on which the securities trade) and the close of business of the New York Stock Exchange ( NYSE ). If developments occur during such periods that are expected to materially affect the value of such securities, such valuations may be adjusted to reflect the estimated fair value of such securities as of the close of the NYSE, as determined in good faith by the Directors or by the Adviser using a pricing service and/or procedures approved by the Directors; (4) quotations of foreign portfolio securities, other assets and liabilities and forward contracts stated in foreign currency are translated into U.S. dollar equivalents at the prevailing market rates prior to the close of the NYSE; and (5) investments in mutual funds, including the Morgan Stanley Institutional Liquidity Funds, are valued at the net asset value as of the close of each business day.

The Directors have responsibility for determining in good faith the fair value of the investments, and the Directors may appoint others, such as the Fund's Adviser or a valuation committee, to assist the Directors in determining fair value and to make the actual calculations pursuant to the fair valuation methodologies previously approved by the Directors. Under procedures approved by the Directors, the Fund's Adviser has formed a Valuation Committee whose members are approved by the Directors. The Valuation Committee provides administration and oversight of the Fund's valuation policies and procedures, which are reviewed at least annually by the Directors. These procedures allow the Fund to utilize independent pricing services, quotations from securities and financial instrument dealers, and other market sources to determine fair value.

---

**Fair Value Measurement:** FASB Accounting Standards Codification™ ( ASC ) 820, Fair Value Measurement ( ASC 820 ), defines fair value as the value that the Fund would receive to sell an investment or pay to transfer a liability in a timely transaction with an independent buyer in the principal market, or in the absence of a principal market, the most advantageous market for the investment or liability. ASC 820 establishes a three-tier hierarchy to distinguish between (1) inputs that reflect the assumptions market participants would use in valuing an asset or liability developed based on market data obtained from sources independent of the reporting entity (observable inputs) and (2) inputs that reflect the reporting entity's own assumptions about the assumptions market participants would use in valuing an asset or liability developed based on the best information available in the circumstances (unobservable inputs) and to establish classification of fair value measurements for disclosure purposes. Various inputs are used in determining the value of the Fund's investments. The inputs are summarized in the three broad levels listed below:

- Level 1 unadjusted quoted prices in active markets for identical investments
- Level 2 other significant observable inputs (including quoted prices for similar investments, interest rates, prepayment speeds, credit risk, etc.)
- Level 3 significant unobservable inputs including the Fund's own assumptions in determining the fair value of investments. Factors considered in making this determination may include, but are not limited to, information obtained by contacting the issuer, analysts, or the appropriate stock exchange (for exchange-traded securities), analysis of the issuer's financial statements or other available documents and, if necessary, available information concerning other securities in similar circumstances

The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities and the determination of the significance of a particular input to the fair value measurement in its entirety requires judgment and considers factors specific to each security.

The following is a summary of the inputs used to value the Fund's investments as of September 30, 2018:

Investment Type	Level 1 Unadjusted quoted prices (000)	Level 2 Other significant observable inputs (000)	Level 3 Significant unobservable inputs (000)	Total (000)
<b>Assets:</b>				
<b>Fixed Income Securities</b>				
Corporate Bonds	\$	\$ 19,351	\$	\$ 19,351
Sovereign		180,096		180,096
<b>Total Fixed Income Securities</b>		<b>199,447</b>		<b>199,447</b>
Warrants		164		164
<b>Short-Term Investments</b>				

Edgar Filing: MORGAN STANLEY EMERGING MARKETS DEBT FUND INC - Form N-Q

Investment Company	10,555		10,555
Repurchase Agreements		644	644
<b>Total Short-Term Investments</b>	<b>10,555</b>	<b>644</b>	<b>11,199</b>
<b>Foreign Currency Forward Exchange Contracts</b>		19	19
<b>Total Assets</b>	<b>10,555</b>	<b>200,274</b>	<b>210,829</b>
<b>Liabilities:</b>			
<b>Foreign Currency Forward Exchange Contract</b>		(4)	(4)
<b>Total</b>	<b>\$ 10,555</b>	<b>\$ 200,270</b>	<b>\$ 210,825</b>

Transfers between investment levels may occur as the markets fluctuate and/or the availability of data used in an investment's valuation changes.

**Item 2. Controls and Procedures.**

(a) The registrant's principal executive officer and principal financial officer have concluded that the registrant's disclosure controls and procedures are sufficient to ensure that information required to be disclosed by the registrant in this Form N-Q was recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms, based upon such officers' evaluation of these controls and procedures as of a date within 90 days of the filing date of the report.

(b) There were no changes in the registrant's internal control over financial reporting that occurred during the registrant's fiscal quarter that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting.

**Item 3. Exhibits.**

(a) A separate certification for each principal executive officer and principal financial officer of the registrant are attached hereto.
