Voting; Revocation Of Proxies

A form of proxy is enclosed for use at the Annual Meeting if a shareholder is unable to attend in person. Section 16(a) of the Securities Exchange Act of 1934 requires the Company's directors, executive officers and greater than ten percent beneficial owners to file with the Securities and Exchange Commission certain reports regarding such persons' ownership of the Company's securities. Directors, officers and greater than ten percent beneficial owners are required by applicable regulations to furnish Bel with copies of all Section 16(a) forms they file. Based solely upon a review of the copies of the forms or information furnished to Bel, the Company believes that during 2007 all filing requirements applicable to its directors, officers and greater than ten percent beneficial owners were satisfied on a timely basis, except that the Form 4's with respect to the May 2007 stock awards granted to each of our directors were filed late, the Form 3's related to our two new executive officers, Raymond Cheung and Andrew Wong, were filed late and John S. Johnson (a director) filed a late Form 4 with respect to the exercise of an option to purchase shares of

Class B Common Stock. These failures to file were inadvertent and the filings were made promptly after the failures to file were noted.

EXECUTIVE COMPENSATION

Compensation Discussion and Analysis

General

During 2006, the SEC substantially revised the disclosures that we are required to make with respect to executive compensation. As part of the SEC's revised executive compensation disclosure package, the SEC requires that issuers provide a Compensation Discussion and Analysis in which issuers explain the material elements of their compensation of executive officers by describing the following:

- the objectives of the issuer's compensation programs;
- the conduct that the compensation programs are designed to reward;
- the elements of the compensation program;
- the rationale for each of the elements of the compensation program;

how the issuer determines the amount (and, where applicable, the formula) for each element of the compensation program; and

how each element and the issuer's decisions regarding that element fit into the issuer's overall compensation objectives and affect decisions regarding other elements of the compensation program.

Overview

We are engaged in a very competitive industry worldwide, with relatively low barriers to competitive entry in the electronic products market. Just as stock prices in our industry tend to be volatile, our customers' demand for our products varies significantly from year to year. We have only limited visibility as to future customer requirements. For this reason, we have found it necessary to keep our overhead relatively low so that we can operate effectively even when demand for our products weakens. In the area of compensation, we seek to control salaries as best we can and focus our incentives on other elements that can vary from year to year with our performance. Our goal is to compensate our Named Officers at levels that will enable us to retain their services while retaining control over our overhead.

Our performance-based elements of compensation are salary, bonuses and long-term stock incentive compensation.

Other non-performance elements of compensation consist of retirement benefits, certain other plan benefits and certain perquisites. We compete in our industry on the basis of product performance, quality, reliability, depth of product line, customer service, technological innovation, design, delivery time and price. Our compensation structure is intended to reward and incentivize the types of performance which improve our ability to excel in these areas, as well as performance which enhances our overall financial stability and global presence.

Compensation Elements

Salary

We pay salaries to our Named Officers in order to fairly compensate them for their day-to-day responsibilities in managing our business. In terms of overall compensation, our Chief Executive Officer receives salary recommendations from our U.S. management team and our Far East management team. Our Chief Executive Officer then formulates his own recommendations which he presents to our Compensation Committee. Our Chief Executive Officer does not participate in the deliberations regarding his own salary, but does participate in discussions regarding salary levels for our other Named Officers. Salary levels are typically determined in December for the following year.

Adjustments for the following year are related to performance during the year being reviewed, overall company performance and cost-of-living considerations.

We do not rely upon consultants to set our salaries, to establish salary ranges or to provide advice regarding other compensation matters. We compare our salaries and other elements of compensation against the salaries and other compensation measures of other public companies in our industry by reviewing the proxy statements of such other companies. However, we do not prepare formal benchmarking studies.

9

Bonus

We do not have a bonus plan for any of our associates. Instead, at the same time that we establish salaries for the next succeeding year, we determine whether our corporate performance during the past year justified the payment of cash bonuses to our associates. If our corporate performance justifies the payment of bonuses, then the Compensation Committee receives recommendations from the Chief Executive Officer with respect to the payment of specific bonuses to specific individuals, based upon the individuals' respective contributions to our corporate performance.

In 2006, we sold our investment in Artesyn Technologies, Inc. and recognized a gain of approximately \$5.2 million, net of investment banker's advisory fees of \$850,000. With this profit, Bel's Board of Directors decided to accrue \$1.0 million from operating income for the payment of bonuses to our associates, including \$334,233 to our Named Officers, in January 2007.

In 2007, we sold 4.0 million shares of common stock of Toko, Inc. on the open market which resulted in a gain of approximately \$2.5 million, net of investment banker fees and other expenses in the amount of \$0.8 million. With this profit, Bel's Board of Directors decided to accrue \$0.5 million from operating income for the payment of bonuses to our associates, including \$122,500 to our Named Officers, in January 2008.

Long-Term Stock Incentive Compensation

Our 2002 Equity Compensation Program, as approved by our shareholders, permits us to issue four types of non-cash awards based on our common stock: restricted stock grants, incentive stock options, non-qualified stock options and stock appreciation rights. For years, we relied upon incentive stock options as our primary form of long-term stock incentive compensation. However, as the manner in which stock options are treated for accounting purposes was substantially modified as of January 1, 2006, we presently anticipate that to the extent that we grant long-term stock incentive compensation to our associates, that compensation will likely be in the form of restricted stock grants.

We did not grant any stock options or make any restricted stock awards to any of our Named Officers during 2007 or 2006. We granted restricted shares in 2005 to several of our associates, including each of our Named Officers. Those restricted shares do not vest until the second anniversary of the grant date, and then vest in 25% annual installments on the second, third, fourth and fifth anniversaries of the grant date. While our 2002 Equity Compensation Program does not preclude the grant of restricted shares on an annual basis, the Compensation Committee concluded that given the

structure and amount of the restricted stock awards made in 2005, there was no need to grant additional restricted stock awards to the Named Officers during 2006 or 2007.

Our experience has been to consider stock option grants and restricted stock awards at the director meetings held at the time of our annual meeting of shareholders, as opposed to granting options and stock awards throughout the year. By making our grant determinations at a single time each year, we avoid even an appearance of coordinating grants with release dates of material information not previously disclosed to the public.

Our 2002 Equity Compensation Program is designed to help attract and retain superior individuals for positions of substantial responsibility within our company and to provide these persons with an additional incentive to contribute to the success of our company, all of which we expect will result in increased shareholder value. Restricted stock grants are awards of actual shares of our common stock, without any initial cost to the associate, but subject to a vesting restriction. The shares cannot be sold or transferred until the restriction ends and the shares become vested. Shares not vested are forfeited back to us if it becomes impossible to meet the condition for ending the restriction. Restricted stock grants offer the opportunity to obtain shares of our common stock without payment to us, provided the condition to ending the restriction is met. We award restricted stock grants because we believe that they aid in retaining our key executives, who are positioned to benefit from an increase in share value.

Retirement Benefits

We have designed our Supplemental Executive Retirement Plan, or SERP, to provide a limited number of our key management and highly compensated associates with supplemental retirement and death benefits. Each of our Named Officers is a participant in the SERP. Participants of the SERP are selected by our Compensation Committee based upon recommendations from our Chief Executive Officer. We believe that this

10

benefit incentivizes key associates to remain with us on a career-long basis and engenders loyalty to our company. At its April 17, 2007 meeting, our board of directors approved amendments to the SERP to, among other things, conform its terms to applicable requirements of Section 409A (discussed below) and to modify the provisions regarding benefits payable in connection with a change in control of our company. The description of the SERP that follows reflects these amendments.

Benefits available under the SERP vary depending upon when and how a participant terminates employment with us. If a participant retires on his normal retirement date (65 years old, 20 years of service, and five years of participation in the SERP), his or her normal retirement benefit under the SERP would be annual payments equal to 40% of his or her average base compensation using compensation from the highest five consecutive calendar years of SERP participation payable in monthly installments for the remainder of his or her life. If a participant retires early (55 years old, 20 years of service, and 5 years of participation in the SERP), his or her early retirement benefit would be an amount (i) calculated as if his or her early retirement date were in fact such participant's normal retirement date, (ii) multiplied by a fraction, the numerator being the actual years of service the participant has with us and the denominator being the years of service the participant would have had if he or she had retired at his or her normal retirement date, and (iii) actuarially reduced to reflect the early retirement date. If a participant dies prior to receiving 120 monthly payments under the SERP, his or her beneficiary is entitled to continue receiving benefits for the shorter of (i) the time necessary to complete 120 monthly payments or (ii) 60 months. If a participant dies while employed by us, his or her beneficiary will receive, as a survivor benefit, an annual amount equal to (i) 100% of the participant's annual base salary at the date of death for one year, and (ii) 50% of the participant's annual base salary at the date of death for each of the following four years, each payable in monthly installments. Our SERP also provides for disability benefits, and a forfeiture of benefits if a participant terminates employment for reasons other than those contemplated under the SERP.

In the event of a change in control (as defined in the SERP), each participant who is employed by us at the time of the change in control will be entitled to a normal retirement benefit commencing immediately following termination of employment (or in the case of certain participants who are specified employees for purposes of Section 409A of the Code (discussed below), six months after termination of employment). The normal retirement benefit payable under these circumstances will be the actuarial equivalent of the benefit that would commence upon the date that the participant would have attained his or her normal retirement date if he or she had not terminated employment. Further, each participant's average base compensation will be deemed to be equal to his or her annual base compensation in effect prior to the change in control. If we have established a trust to accumulate assets from which to pay SERP benefits, then we will fully fund the trust in connection with a change in control in order to ensure that there will be sufficient assets set aside to pay all SERP benefits. A change in control for purposes of the SERP includes a merger or consolidation with another corporation whereby our shareholders do not own a majority of the surviving or successor entity, an acquisition of 50% or more of our voting securities by one person or a group of persons acting together, a sale of all or substantially all of our assets to any person, our dissolution or liquidation or if the members of our incumbent Board of Directors (or their successors, if approved by them) cease for any reason to constitute at least two-thirds of the members of our Board.

As of December 31, 2007, none of our Named Officers were eligible for normal retirement under the SERP. As of December 31, 2007, Mr. Meccariello was eligible for early retirement under the SERP. Had Mr. Meccariello retired on December 31, 2007, he would have been eligible for a monthly benefit under the SERP in the amount of \$3,924 payable for life. Had each of our Named Officers terminated employment on December 31, 2007 in connection with a change in control, they would have been entitled under the SERP to a monthly benefit for life as follows: Mr. Bernstein, \$6,067; Mr. Dunn, \$5,873; Mr. Meccariello, \$5,214; Mr. Ackerman, \$4,126; and Mr. Wong, \$5,011. The present value of those change in control benefits for the Named Officers, using the actuarial assumptions used for our financial reporting purposes, would be as follows: Mr. Bernstein, \$934,113; Mr. Dunn, \$796,271; Mr. Meccariello, \$762,369; Mr. Ackerman, \$692,537; and Mr. Wong, \$711,916.

11

Other Non-Performance Benefit Plans

Our Named Officers are eligible to participate, as are all our associates who meet service requirements under the several plans, in the following types of non-performance benefit plans:

Those of our associates, including our Named Officers, who satisfy certain waiting periods are entitled to participate in either our domestic 401(k) plan or our Far East Retirement Plan. Pursuant to our domestic 401(k) plan, we make matching contributions of pre-tax elective deferral contributions made by associates. We match individual plan contributions in our domestic 401(k) as follows (limited to the maximum amount of salary that can be taken into account under a tax-qualified plan, which was \$225,000 in 2007): we match 100% for the first \$200 of an associate's contribution, 50% for the next \$200 and 25% for the next \$200 of an associate's contribution. In addition, we have been adding 3% of an associate's base salary as an annual profit sharing contribution. This 3% is reviewed on an annual basis by the Board of Directors. Our matching contributions under the domestic 401(k) plan are currently made in shares of our Class B Common Stock. The Far East Retirement Plan is a defined contribution mandatory provident fund arrangement established pursuant to Hong Kong law. Subject to certain minimum and maximum levels under Hong Kong law, five percent of a participant's salary must be contributed to the Far East Retirement Plan. We match amounts contributed to the Far East Retirement Plan. Our current match equals 7% of an associate's base salary. Under the Far East Retirement Plan, our matching amounts are currently made partly in shares of our Class B Common Stock approximately 10% of our contribution and partly in cash approximately 90% of our contribution. Mr. Meccariello and Mr. Wong are the only Named Officers who participate in the Far East retirement Plan. We maintain medical and dental health insurance plans for our associates on a non-discriminatory basis. Associates contribute 20% of the cost of our medical and dental insurance plans. We also provide life insurance for all associates.

We believe that the insurance plans we offer are important components of our comprehensive benefit package, which should induce associates to remain with us. We believe that our domestic 401(k) plan and our Far East Retirement Plan induce our associates to save for future retirement needs, and we encourage this by matching individual plan contributions, as described above, by participating associates.

Perquisites

In 2007, we provided our Chief Executive Officer with a rental apartment for two months in San Diego, California.

Mr. Bernstein's presence in San Diego enables him to be more proximate to our largest customers, major design centers and our marketing and sales groups. We also provide him with an automobile in New Jersey that we maintain for his use throughout the year. Also in 2007, we provided our Vice President of Manufacturing with a rental apartment in Hong Kong for the full year as well as a monthly travel allowance. As Mr. Meccariello has lived in Hong Kong throughout the year in order to better oversee and manage the core of our manufacturing operations, we have subsidized his living and travel expenses accordingly. Other than these benefits, the perquisites to our Named Officers are nominal.

Severance

During 2007, our Board adopted a written severance pay plan that applies to all of our full-time, non-union associates.

The written plan formalizes an approach that we have been taking on an informal basis for the past seven years. The purposes of the plan are to reward the loyalty of our associates in the context of a Sale of the Business, a phrase that is defined in the severance pay plan, and to assure that we are capable of retaining our associates in the event that we pursue a Sale of the Business. Under the plan, a Sale of the Business is defined to mean the occurrence of any of the following events:

the acquisition of beneficial ownership of more than 50% of our voting stock or of all or substantially all of our assets;
or
the consummation of a merger, consolidation or other combination of our company with or into another entity, subject to certain exceptions; or

12

if the members of our incumbent Board of Directors (or their successors, if approved by them) cease for any reason to constitute at least two-thirds of the members of our Board.

Provided that certain disqualifying events do not occur, severance payments will be made under the plan if a participant is terminated involuntarily within 24 months after a Sale of the Business (provided that the participant does not accept employment with the acquirer in connection with such Sale of the Business), the participant resigns for reasons permitted under the plan within 24 months after a Sale of the Business or if the participant is not offered comparable employment (as defined) with the acquirer.

The severance pay plan contains a schedule by which payment levels are determined based on years of service with us. The schedule provides for three weeks of compensation for the first two years worked with us, two weeks of compensation for the next thirteen years of service, and three weeks of compensation for each additional year of service, with an upper limit of 52 weeks of compensation. If the plan were to be triggered as of April 30, 2008, our Named Officers would be entitled to receive the following severance payments:

Daniel Bernstein	\$ 225,000
Colin Dunn	\$ 127,885
Joseph Meccariello	\$ 180,000
Dennis Ackerman	\$ 168,269

Andrew Wong

\$ 165,000

Compliance with Sections 162(m) and 409A of the Internal Revenue Code

Section 162(m) of the Internal Revenue Code denies a deduction to any publicly held corporation for compensation paid to certain covered employees in a taxable year to the extent that compensation exceeds \$1,000,000 for a covered employee. Certain performance-based compensation that has been approved by our shareholders is not subject to this limitation. As a result, stock options granted under our 2002 Equity Compensation Program and our prior stock option plans are not subject to the limitations of Section 162(m). However, restricted stock awards granted under our 2002 Equity Compensation Program generally will not be treated as performance-based compensation. Restricted stock award grants made to date under the 2002 Equity Compensation Program have not been at levels that, together with other compensation, approached the \$1,000,000 limit. Also, since we retain discretion over any bonuses we may grant, those bonuses also will not qualify for the exemption for performance-based compensation. The Compensation Committee intends to provide executive compensation in a manner that will be fully deductible for federal income tax purposes, so long as that objective is consistent with overall business and compensation objectives. However, we reserve the right to use our judgment to authorize compensation payments that do not comply with the exemptions in Section 162(m) when we believe that such payments are appropriate and in the best interests of our shareholders, after taking into consideration changing business conditions or the executive officer's performance.

It is also our intention to maintain our executive compensation arrangements in conformity with the requirements of Section 409A of the Internal Revenue Code, which imposes certain restrictions on deferred compensation arrangements. We have been engaged in a process of reviewing our compensation arrangements since the enactment of Section 409A in 2004 in order to remain compliant with guidance issued by the Internal Revenue Service under Section 409A. As indicated above, we have amended our SERP to comply with Section 409A and we intend to continue to monitor IRS guidance to determine if further modifications to our plans and arrangements are needed to conform with final 409A regulations recently issued by the Internal Revenue Service.

Summary of Cash and Certain Other Compensation

The following table sets forth, for the years ended December 31, 2007 and 2006, a summary of the compensation earned by our Chief Executive Officer, Vice President of Finance and our three other most highly compensated executive officers for 2007. In this proxy statement, we refer to these executive officers as the Named Officers.

In the table above, all other compensation for 2007 consists of the following:

Stock Options and Stock Awards

We are authorized to grant stock options and stock awards under our 2002 Equity Compensation Program. Options granted under this program generally have terms of five years and terminate at or within a specified period of time

after the optionee's employment with us ends. Options are exercisable in installments determined at the date of grant. No such options were granted to the Named Officers in 2007. We are also permitted to grant restricted stock awards under our 2002 Equity Compensation Program. Participants have the right to vote (if applicable) and receive dividends on their restricted shares. Restrictions lapse in 25% increments commencing two years after the grant date. No restricted shares were awarded to the Named Officers in 2007.

None of the Named Officers exercised any stock options during 2007 and none of the Named Officers owned any of our stock options as of December 31, 2007. A total of 8,500 restricted stock awards previously granted to the Named Officers vested during 2007.

The following table sets forth, for each of the Named Officers, information regarding stock awards outstanding at December 31, 2007 for each of the Named Officers. Each of the stock awards referred to in the table below were granted pursuant to our 2002 Equity Compensation Program. The vesting dates applicable to each stock award are set forth in footnotes that follow the columnar explanations below the table.

Name (a)	Stock Awards Outstanding at December 31, 2007

In calculating market values in the table above, we have multiplied the closing market price of our Class A Common Stock or Class B Common Stock on the last trading day in 2007 (whichever is applicable) \$34.00 and \$29.27, respectively by the applicable number of shares of common stock underlying the Named Officers' stock awards.

None of the Named Officers have any stock options and beginning in 2005, the Company's policy is to grant stock awards in lieu of stock options going forward. The following table sets forth, for each of the Named Officers, information regarding stock awards that vested during 2007. The value realized on vesting represents the number of shares of Class B Common Stock set forth in column (d) multiplied by the market price of our Class B Common Stock on the date on which the Named Officer's stock award vested.

For Robert H. Simandl: fees paid to Mr. Simandl's law firm for services rendered and disbursements incurred on our behalf during 2007

In 2007, non-employee directors of the Company received an annual retainer of \$15,000, plus \$1,000 for each Board meeting they attended in person and \$750 for each non-audit committee meeting they attended in person. Audit Committee members received \$750 for the first in-person meeting of 2007 and \$1,250 for each subsequent in-person meeting in 2007. In 2007, directors who were executive officers of the Company did not receive directors' fees. In 2007, directors of the Company's foreign subsidiaries did not receive a retainer or meeting fees.

The Board of Directors; Committees of the Board

Since the adoption of the Sarbanes-Oxley Act in July 2002, there has been a growing public and regulatory focus on the independence of directors. Nasdaq has adopted amendments to its definition of independence. Additional requirements relating to independence are imposed by the Sarbanes-Oxley Act with respect to members of the Audit Committee. As noted below, the Board has determined that the members of the Audit Committee satisfy all such definitions of independence. The Board has also determined that the following members of the Board satisfy the Nasdaq definition of independence: Howard Bernstein, Peter

Gilbert, John S. Johnson, John F. Tweedy, Robert Simandl and Avi Eden. The Board concluded that while Mr. Simandl is compensated for certain legal services that he provides to the Company and Mr. Eden is compensated for certain business development consulting services that he provides to the Company, the fees paid to these individuals (\$60,000 to Mr. Eden and \$27,000 to Mr. Simandl) were not of a magnitude that such fees would impair Mr. Simandl or Mr. Eden's independence. In considering the independence of Mr. Simandl and Mr. Eden, the Board also took note of the willingness of these individuals to express their views without concern for economic repercussions.

The Company's Board of Directors holds a regular meeting immediately before the Annual Meeting of Shareholders and meets regularly throughout the year. During 2007, the Board held five meetings.

Bel's Board has an Executive Committee, a Compensation Committee, an Audit Committee and a Nominating Committee. The Executive Committee is composed of Daniel Bernstein, Robert H. Simandl and John F. Tweedy; the Compensation Committee is composed of Peter Gilbert and Robert H. Simandl; the Audit Committee is composed of Peter Gilbert, John S. Johnson and John F. Tweedy; and the Nominating Committee is composed of Howard Bernstein, Robert H. Simandl and John F. Tweedy.

The function of the Executive Committee is to act in the place of the Board when the Board cannot be convened.

The Compensation Committee is charged with the responsibility of administering the Company's employee benefit plans, reviews the compensation of Bel's executive officers and establishes general compensation policies.

The Audit Committee reviews significant audit and accounting principles, policies and practices, and meets with the Company's independent auditors. The Board of Directors has determined that John S. Johnson constitutes an audit committee financial expert, as such term is defined by the SEC. As noted above, Mr. Johnson as well as the other members of the Audit Committee has been determined to be independent within the meaning of SEC and Nasdaq regulations.

The Nominating Committee is responsible for nominating candidates for election to the Company's Board of Directors.

During 2007, the Executive Committee held no meetings, the Audit Committee held seven meetings, the Compensation Committee held one meeting and the Nominating Committee held one meeting.

For a description of services provided to the Company by Robert H. Simandl and Avi Eden during 2007, see Compensation Committee Interlocks and Insider Participation.

Nominating Committee Matters

Nominating Committee Charter. The Board has adopted a Nominating Committee charter to govern its Nominating Committee. A copy of the charter was set forth as *Appendix A* to the Company's 2007 proxy statement; the charter is not presently included on the Company's Web site.

Independence of Nominating Committee Members. All members of the Nominating Committee of the Board of Directors have been determined to be independent directors pursuant to the definition contained in Rule 4200(a)(15) of the National Association of Securities Dealers Marketplace rules.

Procedures for Considering Nominations Made by Shareholders. The Nominating Committee's charter describes procedures for nominations to be submitted by shareholders and other third-parties, other than candidates who have previously served on the Board or who are recommended by the Board. The charter states that a nomination must be delivered to the Secretary of the Company at the principal executive offices of the Company not later than the close of

business on the 90th day nor earlier than the close of business on the 120th day prior to the first anniversary of the preceding year's annual meeting; provided, however, that if the date of the annual meeting is more than 30 days before or more than 60 days after such anniversary date, notice to be timely must be so delivered not earlier than the close of business on the 120th day prior to such annual meeting and not later than the close of business on the later of the 90th day prior to such annual meeting or the close of business on the 10th day following the day on which public announcement of the date of such meeting is first made by the Company. The public announcement of an adjournment or postponement

19

of an annual meeting will not commence a new time period (or extend any time period) for the giving of a notice as described above. The charter requires a nomination notice to set forth as to each person whom the proponent proposes to nominate for election as a director: (a) all information relating to such person that is required to be disclosed in solicitations of proxies for election of directors in an election contest, or is otherwise required, in each case pursuant to Regulation 14A under the Securities Exchange Act of 1934, as amended (including such person's written consent to being named in the proxy statement as a nominee and to serving as a director if elected), and (b) information that will enable the Nominating Committee to determine whether the candidate or candidates satisfy the criteria established pursuant to the charter for director candidates.

Qualifications. The charter describes the minimum qualifications for nominees and the qualities or skills that are necessary for directors to possess. Each nominee:

- must satisfy any legal requirements applicable to members of the Board;
- must have business or professional experience that will enable such nominee to provide useful input to the Board in its deliberations;
- must have a reputation for honesty and ethical conduct;
- must have a working knowledge of the types of responsibilities expected of members of the board of directors of a public company; and
- must have experience, either as a member of the board of directors of another public or private company or in another capacity, that demonstrates the nominee's capacity to serve in a fiduciary position.

Identification and Evaluation of Candidates for the Board. Candidates to serve on the Board will be identified from all available sources, including recommendations made by shareholders. The Nominating Committee's charter provides that there will be no differences in the manner in which the Nominating Committee evaluates nominees recommended by shareholders and nominees recommended by the Committee or management, except that no specific process shall be mandated with respect to the nomination of any individuals who have previously served on the Board. The evaluation process for individuals other than existing Board members will include:

- a review of the information provided to the Nominating Committee by the proponent;
- a review of reference letters from at least two sources determined to be reputable by the Nominating Committee; and
- a personal interview of the candidate, together with a review of such other information as the Nominating Committee shall determine to be relevant.

Third Party Recommendations. In connection with the 2008 Annual Meeting, the Nominating Committee did not receive any nominations from any shareholder or group of shareholders which owned more than 5% of the Company's Class A Common Stock or Class B Common Stock for at least one year.

Other Compensation Committee Matters

Charter. Our Board of Directors has defined the duties of its Compensation Committee in a charter. A copy of the Compensation Committee's charter was attached to the Company's 2007 proxy statement as Appendix C; the charter is not presently included on the Company's Web site.

Authority, Processes and Procedures. Our Compensation Committee is responsible for administering our employee benefit plans, for establishing the compensation of our Chief Executive Officer and for determining

the compensation of our other executive officers. Our Compensation Committee also establishes policies and monitors compensation for our associates in general. While the Compensation Committee may, and does in fact, delegate authority with respect to the compensation of associates in general, the Compensation Committee retains overall supervisory responsibility for associate compensation. With respect to executive compensation, the Compensation Committee receives recommendations and information from our Chief Executive Officer regarding issues relevant to determinations made by the Compensation Committee. Our Chief Executive Officer participates in Compensation Committee deliberations regarding the compensation of other executive officers, but does not participate in deliberations regarding his own compensation.

Consultants. We typically do not involve consultants in establishing the compensation of our associates or directors, other than attorneys who assist us in the drafting of benefit plans and comparable arrangements.

Absent unusual circumstances, at the next regularly scheduled meeting of the Board held more than two days after such communication has been distributed, the Board will consider the substance of any such communication.

Board members are encouraged, but not required by any specific Board policy, to attend the Company's annual meeting of shareholders. All of the members of the Board attended the Company's 2007 annual meeting of shareholders.

PROPOSAL TWO

RATIFICATION OF THE DESIGNATION OF DELOITTE & TOUCHE LLP TO AUDIT BEL S BOOKS AND ACCOUNTS FOR 2008

The Audit Committee has selected Deloitte & Touche LLP to audit Bel s books and accounts for the year ending December 31, 2008 and will offer a resolution at the meeting for shareholders to ratify the designation. Although shareholder ratification is not required, the designation of Deloitte & Touche LLP is being submitted for ratification at the 2008 Annual Meeting of Shareholders because it is perceived to be a matter of good corporate governance practice to submit this issue for ratification by shareholders. Ultimately, the Audit Committee retains full discretion and will make all determinations with respect to the appointment of Bel s independent registered public accounting firm.

The Board of Directors recommends a vote FOR Proposal Two.

OTHER MATTERS

Relationship With Independent Public Accountants

Deloitte & Touche LLP, independent certified public accountants, has been selected by the Board of Directors to audit and report on Bel s financial statements for the year ending December 31, 2008.

Deloitte & Touche LLP began auditing Bel in 1983. A representative of Deloitte & Touche LLP is expected to be present at the Annual Meeting and will have an opportunity to make a statement if he so desires. The representative is expected to be available to respond to appropriate questions from shareholders.

Audit Fees and Related Matters

The Audit Committee is informed of each service actually rendered.

Audit Fees. Tax Fees. The Company was billed \$365,022 and \$229,582 by Deloitte Tax LLP (an affiliate of Deloitte & Touche LLP) for the years ended December 31, 2007 and 2006, respectively, for tax services, principally representing advice regarding the preparation of income tax returns.

All Other Fees. For the years ended December 31, 2007 and 2006, the Company was not billed by Deloitte & Touche LLP for services not covered in the three immediately preceding paragraphs.

Other Matters. The Audit Committee of the Board of Directors has considered whether the provision of Audit-Related Fees, Tax Fees and All Other Fees are compatible with maintaining the independence of the Company's principal accountant.

Applicable law and regulations provide an exemption that permits certain services to be provided by the Company's outside auditors even if they are not pre-approved. The Company has not relied on this exemption at any time since the Sarbanes-Oxley Act was enacted.
