Notes to Unaudited Condensed Consolidated Financial Statements

Note 1 - Basis of Presentation

The accompanying condensed consolidated financial statements are unaudited but in the opinion of management contain all the adjustments (consisting of those of a normal recurring nature) considered necessary to present fairly the consolidated financial position and the consolidated results of operations and consolidated cash flows for the periods presented in conformity with generally accepted accounting principles for interim consolidated financial information and the instructions to Form 10-Q and Article 8 of Regulation S-X. Accordingly, they do not include all the information and footnotes required by accounting principles generally accepted in the United States of America for complete financial statements. Operating results for the three and six months ended June 30, 2008 are not necessarily indicative of the results that may be expected for the fiscal year ending December 31, 2008. For further information, refer to the consolidated financial statements and footnotes thereto included in the Company's annual report on Form 10-K for the fiscal year ended December 31, 2007.

Principles of consolidation and nature of operations:

The consolidated financial statements include the accounts of ("CTI-US") and its wholly-owned subsidiaries, CTI Balloons Limited, CTI Helium, Inc. and CTF International S.A. de C.V., as well as its majority-owned subsidiaries CTI Mexico S.A. de C.V., and Flexo Universal, S.A. de C.V. (the "Company"). All significant intercompany transactions and accounts have been eliminated in consolidation. The Company (i) designs, manufactures and distributes balloon products throughout the world and (ii) operates systems for the production, lamination, coating and printing of films used for food packaging and other commercial uses and for conversion of films to flexible packaging containers and other products.

Use of estimates:

In preparing financial statements in conformity with accounting principles generally accepted in the United States of America, management makes estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at the date of the financial statements and the reported amount of revenue and expenses during the reporting period in the financial statements and accompanying notes. Actual results may differ from those estimates. The Company's significant estimates include reserves for doubtful accounts, reserves for the lower of cost or market of inventory and recovery value of goodwill.

Earnings per share:

Basic earnings per share is computed by dividing the income available to common shareholders, net earnings, less redeemable preferred stock dividends and redeemable common stock accretion, by the weighted average number of shares of common stock outstanding during each period.

Diluted earnings per share is computed by dividing the net earnings by the weighted average number of shares of common stock equivalents (redeemable common stock, stock options and warrants), unless anti-dilutive, during each period.

As of June 30, 2008, shares to be issued upon the exercise of options and warrants aggregated 261,889 and 303,030, respectively. As of June 30, 2007, shares to be issued upon the exercise of options and warrants were 271,276 and 466,030, respectively.

New Accounting Pronouncements:

In September 2006, the Financial Accounting Standards Board, or FASB, issued Statement of Financial Accounting Standards No. 157, Fair Value Measurements, or SFAS No. 157. SFAS No. 157 clarifies the principle that fair value should be based on the assumptions that market participants would use when pricing an asset or liability and establishes a fair value hierarchy that prioritizes the information used to develop those assumptions. Under the standard, fair value measurements would be separately disclosed by level within the fair value hierarchy. SFAS No. 157 is effective for financial statements issued for fiscal years beginning after November 15, 2007, and interim periods within those fiscal years, with early adoption permitted. Subsequently, the FASB provided for a one-year deferral of the provisions of SFAS No. 157 for non-financial assets and liabilities that are recognized or disclosed at fair value in the consolidated financial statements on a non-recurring basis. We adopted with no impact on our financial statements all requirements of SFAS No. 157 on January 1, 2008, except as they relate to nonfinancial assets and liabilities, which will be adopted on January 1, 2009, as allowed under SFAS No. 157. We have not yet determined the impact, if any, on our financial statements for nonfinancial assets and liabilities.

In February 2007, the FASB issued Statement of Financial Accounting Standards No. 159, The Fair Value Option for Financial Assets and Financial Liabilities, or SFAS No. 159, which permits entities to elect to measure many financial instruments and certain other items at fair value. Upon adoption of SFAS No. 159, an entity may elect the fair value option for eligible items that exist at the adoption date. Subsequent to the initial adoption, the election of the fair value option should only be made at the initial recognition of the asset or liability or upon a re-measurement event that gives rise to the new-basis of accounting. All subsequent changes in fair value for that instrument are reported in earnings. SFAS No. 159 does not affect any existing accounting literature that requires certain assets and liabilities to be recorded at fair value nor does it eliminate disclosure requirements included in other accounting standards. SFAS No. 159 is effective as of the beginning of each reporting entity's first fiscal year that begins after November 15, 2007. We adopted SFAS No. 159 on January 1, 2008 and there was no impact on our financial statements.

In December 2007, the FASB issued Statement of Financial Accounting Standards No. 141 (revised 2007), Business Combinations, or SFAS No. 141(R). SFAS No. 141(R) changes the requirements for an acquirer's recognition and measurement of the assets acquired and the liabilities assumed in a business combination. SFAS No. 141(R) is effective for annual periods beginning after December 15, 2008 and should be applied prospectively for all business combinations entered into after the date of adoption.

In December 2007, the FASB issued Statement of Financial Accounting Standards No. 160, Non-controlling Interests in Consolidated Financial Statements — an amendment of ARB No. 51, or SFAS No. 160. SFAS No. 160 requires (i) that non-controlling (minority) interests be reported as a component of shareholders' equity, (ii) that net income attributable to the parent and to the non-controlling interest be separately identified in the consolidated statement of operations, (iii) that changes in a parent's ownership interest while the parent retains its controlling interest be accounted for as equity transactions, (iv) that any retained non-controlling equity investment upon the deconsolidation of a subsidiary be initially measured at fair value, and (v) that sufficient disclosures are provided that clearly identify and distinguish between the interests of the parent and the interests of the non-controlling owners. SFAS No. 160 is effective for annual periods beginning after December 15, 2008 and should be applied prospectively. The presentation and disclosure requirements of the statement shall be applied retrospectively for all periods presented. We will adopt SFAS No. 160 on January 1, 2009 and have not yet determined the impact, if any, on our financial statements.

In March 2008, the FASB issued Statement of Financial Accounting Standards No. 161, Disclosures about Derivative Instruments and Hedging Activities — an amendment of FASB Statement No. 133, or SFAS No. 161. SFAS No. 161 requires qualitative disclosures about objectives and strategies for using derivatives, quantitative data about the fair value of and gains and losses on derivative contracts, and details of credit-risk-related contingent features in hedged positions. The statement also requires enhanced disclosures regarding how and why entities use derivative instruments, how derivative instruments and related hedged items are accounted and how derivative instruments and related hedged items affect entities' financial position, financial performance, and cash flows. SFAS No. 161 is effective for fiscal years beginning after November 15, 2008. We will adopt SFAS No. 161 on January 1, 2009 and do not expect the adoption to have a material impact on our financial statements.

Note 2 - Stock-Based Compensation; Changes in Equity

We adopted Statement of Financial Accounting Standards No 123R, *Share-Based Payment*, effective January 1, 2006. This statement requires all share-based payments to employees, including grants of employee stock options, to be recognized in the financial statements based on their grant-date fair values.

The Black-Scholes model incorporates assumptions to value stock-based awards. The risk-free rate of interest is the related U.S. Treasury yield curve for periods within the expected term of the option at the time of grant. The dividend yield on our common stock is assumed to be zero as we have historically not paid dividends and have no current plans to do so in the future. The expected volatility is based on historical volatility of the Company's common stock.

The Company's net income for the three months ended June 30, 2008 and 2007 includes approximately \$15,000 and \$0, respectively of compensation costs related to share based payments. The Company's net income for the six months ended June 30, 2008 and 2007 includes approximately \$30,000 and \$0, respectively of compensation costs related to share based payments. As of June 30, 2008 there is \$121,000 of unrecognized compensation expense related to non-vested stock option grants. We expect approximately \$26,000 to be recognized over the remainder of 2008, approximately \$54,000 and \$41,000 to be recognized during the years ended 2009 and 2010, respectively.

As of June 30, 2008, the Company had five stock-based compensation plans pursuant to which stock options may be granted. The Plans provide for the award of options, which may either be incentive stock options (“ISOs”) within the meaning of Section 422A of the Internal Revenue Code of 1986, as amended (the “Code”) or non-qualified options (“NQOs”) which are not subject to special tax treatment under the Code.

On April 30, 2007, the Board of Directors approved for adoption, effective October 1, 2007, the 2007 Stock Option Plan (“Plan”). The Plan authorizes the grant of options to purchase up to an aggregate of 150,000 shares of the Company’s Common Stock. As of June 30, 2008, 74,000 options had been granted and 71,500 remain outstanding.

A summary of the Company’s stock option activity and related information is as follows:

In the action, Pliant claims that there is due from the Company to Pliant the sum of \$245,000 for goods sold and delivered by Pliant to the Company as well as interest on such amount. On February 21, 2007, the Company filed an answer to the complaint and counterclaim denying liability and asserting certain claims against Pliant for damages for the sale by Pliant to the Company of defective products. Management intends to defend the claims of Pliant in this action and to pursue its counterclaims and believes that the Company has established adequate reserves regarding the claim.

The Company is party to certain lawsuits arising in the normal course of business. The ultimate outcome of these matters is unknown but, in the opinion of management, the settlement of these matters is not expected to have a significant effect on the future financial position or results of operations of the Company.

Most of this increase was the result of an increase in sales to a principal balloon customer.

Sales to a limited number of customers continue to represent a large percentage of our net sales. The table below illustrates the impact on sales of our top three and ten customers for the three and six months ended June 30, 2008 and 2007.

	Three Months Ended		Six Months Ended	
	% of Net Sales		% of Net Sales	
	June 30, 2008	June 30, 2007	June 30, 2008	June 30, 2007
Top 3 Customers	58.9%	50.5%	52.0%	47.0%
Top 10 Customers	75.0%	65.8%	73.2%	64.2%

During the three months ended June 30, 2008, there were three customers whose purchases represented more than 10% of the Company's consolidated net sales. The sales to each of these customers for the three months ended June 30, 2008 were \$2,876,000 or 23.1%, \$2,640,000 or 21.2%, and \$1,821,000 or 14.6% of consolidated net sales, respectively. Sales to these customers in the same period of 2007 were \$1,799,000 or 19.4%, and \$1,715,000 or 18.5% of consolidated net sales, respectively. The third customer is new to the Company in 2008. As of June 30, 2008, the total amount owed by these customers was \$1,627,000 or 23.0%, \$1,719,000 or 24.3% and \$747,000, or 10.6%, of the Company's consolidated accounts receivables. The amounts owed at June 30, 2007 were \$847,000, or 15.0% and \$1,050,000, or 18.6% of the Company's consolidated net accounts receivables, respectively.

Cost of Sales. During the three months ended June 30, 2008, the cost of sales represented 76.6% of net sales compared to 70.4% for the three months ended June 30, 2007. For the six months ended June 30, 2008, the cost of sales represented 77.4% of net sales compared to 73.5% for the same period of 2007. The reduction in gross margin for both the quarter and six months ended June 30, 2008, compared to prior periods, is the result, principally, of increased cost of raw materials, not fully offset by increases in selling prices for finished goods during the period, including cost increases principally of polyester and polyethylene sheeting, resin and latex. Certain of our supply agreements include provisions for adjusting the selling price of finished goods based on changes in certain raw materials costs, generally determined on a quarterly basis. Margins are negatively affected when raw materials prices increase prior to the time an adjustment is made under these agreements. Further, we do not have such agreements with respect to our novelty balloon products and we are not able, in all instances, to raise the selling price of such products to compensate for the increase in raw materials costs.

General and Administrative. During the three months ended June 30, 2008, general and administrative expenses were \$1,456,000 or 11.7% of net sales, compared to \$1,297,000 or 14.0% of net sales for the same period in 2007. For the six months ended June 30, 2008, general and administrative expenses were \$2,615,000 or 11.3% of net sales, compared to \$2,509,000 or 14.3% of net sales for the same period in 2007. During the quarter and six months ended June 30, 2008, administrative expenses declined as a percentage of sales but increased on an absolute basis. The increase is attributable principally to the increase in total employee compensation.

Selling. During the three months ended June 30, 2008, selling expenses were \$277,000 or 2.2% of net sales, compared to \$225,000 or 2.4% of net sales for the same period in 2007. For the six months ended June 30, 2008, selling expenses were \$464,000 or 2.0% of net sales, compared to \$430,000 or 2.5% of net sales for the same period in 2007. During the quarter and six months ended June 30, 2008, selling expenses declined as a percentage of sales but increased on an absolute basis. This increase is attributable principally to salaries and traveling expenses related to selling.

Advertising and Marketing. During the three months ended June 30, 2008, advertising and marketing expenses were \$425,000 or 3.4% of net sales for the period, compared to \$396,000 or 4.3% of net sales for the same period of 2007. For the six months ended June 30, 2008, advertising and marketing expenses were \$772,000 or 3.3% of net sales for the period, compared to \$687,000 or 3.9% of net sales for the same period of 2007. During the quarter and six months ended June 30, 2008, advertising and marketing expenses declined as a percentage of sales but increased on an absolute basis. This increase is attributable principally to (i) salaries related to advertising and marketing, (ii) booth expenses for trade shows, and (ii) commissions related to our ZipVac™ product line.

Other Income (Expense). During the three months ended June 30, 2008, the Company incurred net interest expense of \$287,000, compared to net interest expense during the same period of 2007 in the amount of \$297,000. For the six months ended June 30, 2008, the Company incurred net interest expense of \$558,000, compared to net interest expense during the same period of 2007 in the amount of \$634,000. The decrease in interest expense is due to lower applicable interest rates on outstanding loan principal amounts.

During the three months ended June 30, 2008, the Company had other income of \$13,000 compared to other income of \$45,000 for the same period of 2007. For the six months ended June 30, 2008, the Company had other income of \$43,000 compared to other income of \$99,000 for the same period of 2007. Both amounts consisted principally of foreign currency transaction gains.

Income Taxes. For the three months ended June 30, 2008, the Company reported a consolidated income tax benefit of \$5,000, compared to an income tax expense of \$151,000 for the second quarter of 2007. For the second quarter 2008, this income tax provision was composed principally of a income tax benefit of \$5,000 related to the loss of Flexo Universal (our Mexico subsidiary). For the United States entity, there was no provision for income tax expense or benefit, by reason of the fact that the provision for income tax expense was offset by a reduction of the valuation allowance with respect to the deferred tax asset. For the second quarter of 2007, the income tax expense consisted of provisions for income tax on the income of CTI Balloons and Flexo Universal.

For the six months ended June 30, 2008, we recorded an income tax expense of \$116,000 compared to an income tax expense of \$115,000 for the six months ended June 30, 2007. For both of these periods, the amount of the income tax expense recorded related to net income of CTI Balloons and Flexo Universal. In these periods, there was no provision for income tax expense for the United States entity by reason of the fact that the income tax provision was offset by a reduction of the valuation allowance with respect to the deferred tax asset.

Net Income. For the three months ended June 30, 2008, the Company had net income of \$485,000 or \$0.17 per share (basic and diluted), compared to net income for the same period of 2007 of \$423,000 or \$0.18 per share basic and \$0.17 diluted. For the six months ended June 30, 2008, the Company had net income of \$764,000 or \$0.28 per share basic and \$0.26 diluted, compared to net income from operations of \$371,000 or \$0.17 per share basic and \$0.15 diluted for the same period of 2007. The difference in net income for the second quarter of 2008 compared to the same period of 2007 is attributable principally to increased sales and gross profits.

Financial Condition, Liquidity and Capital Resources

Cash Flow Items.

Operating Activities. During the six months ended June 30, 2008, net cash provided by operations was \$928,000, compared to net cash provided by operations during the six months ended June 30, 2007 of \$1,213,000.

Significant changes in working capital items during the six months ended June 30, 2008 consisted of (i) an increase in accounts receivable of \$1,106,000, (ii) depreciation and amortization in the amount of \$760,000, (iii) a decrease of \$184,000 in prepaid expenses and other assets and (iv) a decrease in accrued liabilities of \$440,000.

Investing Activity. During the six months ended June 30, 2008, cash used in investing activity was \$848,000, compared to \$785,000 in the same period of 2007. We do anticipate incurring additional capital expenditures during the balance of 2008 for improvements and for the acquisition or upgrade of production equipment.

Financing Activities. During the six months ended June 30, 2008, cash provided by financing activities was \$693,000 compared to cash used in financing activities for the same period of 2007 in the amount of \$289,000. During the six months ended June 30, 2008 financing activities included the receipt of \$433,000 from the increase in the balances on our revolving line of credit, the receipt of \$1,224,000 from the issuance of additional long term debt, and payment of long term debt obligations in the amount of \$564,000.

Liquidity and Capital Resources. At June 30, 2008, the Company had cash balances of \$1,260,000. At June 30, 2008, the Company had a working capital balance of \$3,518,000 compared to a working capital balance of \$1,318,000 at December 31, 2007.

The Company's current cash management strategy includes utilizing the Company's revolving line of credit for liquidity. Under our line of credit with RBS Citizens N.A. (formerly Charter One Bank), we are entitled to borrow an amount equal to 85% of eligible receivables and 60% of eligible inventory, up to a maximum of \$9,000,000. Foreign receivables and inventory held by our foreign subsidiaries are not eligible. In addition, in order to be permitted to make advances under the line of credit, we are required to meet various financial covenants. As of June 30, 2008, we had complied with all applicable financial covenants in the loan agreement. Based on our results to date for the year and our projected results of operations for the balance of this year, we believe we will be in compliance with all applicable financial covenants of the loan agreement for the balance of 2008. Further, we believe that with our present cash and working capital and the amounts available to us under our line of credit and through sales of common stock, we will have sufficient funds to enable us to meet our obligations through the next twelve months.

The loan agreement provides for interest at varying rates in excess of the Bank's prime rate, depending on the level of senior debt to EBITDA over time. As of June 30, 2008, the applicable premium being applied was 0.75%.

Also, under the loan agreement, we were required to purchase a swap agreement with respect to at least 60% of the mortgage and term loan portions of our loan. On April 5, 2006, we entered into a swap arrangement with RBS Citizens N.A. (formerly Charter One Bank) with respect to 60% of the principal amounts of the mortgage loan and the term loan, which had the effect of fixing the interest rate for such portions of the loans at 8.49% for the balance of the loan terms. On January 28, 2008 we entered into a swap arrangement with RBS Citizens for an additional \$3,000,000 on our revolving line of credit, which had the effect of fixing the interest rate at 6.17%. These swap arrangements are subject to some market variation due to market interest rate variability. Management believes that these variations will not materially affect the results of the Company. As of June 30, 2008, the net effect of these market adjustments were \$115,000, which has been recorded in the Company's consolidated financial statements. As the swap agreement has been designated as a hedge, the net effect for the six months ended June 30, 2008 was (\$8,000) which is recorded in our equity section.

On June 6, 2006, we entered into a Standby Equity Distribution Agreement with Cornell Capital pursuant to which we may, at our discretion, periodically sell to Cornell Capital shares of common stock for a total purchase price of up to \$5 million. For each share of common stock purchased under the Standby Equity Distribution Agreement, Cornell Capital will pay one hundred percent (100%) of the lowest volume weighted average price (as quoted by Bloomberg, LP) of our common stock on the NASDAQ Capital Market or other principal market on which our common stock is traded for the five (5) days immediately following the notice date. The number of shares purchased by Cornell Capital for each advance is determined by dividing the amount of each advance by the purchase price for the shares of common stock. Furthermore, Cornell Capital will receive five percent (5%) of each advance in cash under the Standby Equity Distribution Agreement as an underwriting discount. Cornell's obligation to purchase shares of our common stock under the Agreement is subject to certain conditions, including: (i) we have obtained an effective registration statement for the shares of common stock sold to Cornell under the Agreement and (ii) the amount of each advance requested by us under the Agreement shall not be more than \$100,000.

We are permitted to make draws on the Standby Equity Distribution Agreement only so long as Cornell Capital's beneficial ownership of our common stock remains lower than 9.9% and a possibility exists that Cornell Capital may own more than 9.9% of CTI's outstanding common stock at a time when we would otherwise plan to make an advance under the Standby Equity Distribution Agreement. We do not have any agreements with Cornell Capital regarding the distribution of such stock, although Cornell Capital has indicated that it intends promptly to sell any stock received under the Standby Equity Distribution Agreement.

We have registered 400,000 shares of common stock for the sale under the Standby Equity Distribution Agreement. The Company and Cornell have agreed that the Company will not sell to Cornell Capital in excess of 400,000 shares unless and until the Company shall have obtained shareholder approval for such sales.

On December 28, 2006, we filed a Registration Statement for the registration of 403,500 shares of our common stock. On January 26, 2007, the Registration Statement was declared effective. Since that time, we have sold an aggregate of 323,625 shares of common stock to Cornell under the SEDA and have received net proceeds from the sale of those shares in the amount of \$1,355,000. On July 24, 2008, we filed a Post Effective Amendment to the Registration Statement which became effective on August 1, 2008.

Seasonality

In recent years, sales in the metalized balloon product line have historically been seasonal with approximately 45% occurring in the period from December through March and 21% being generated in the period from July through October. The sale of latex balloons and laminated film products have not historically been seasonal.

Critical Accounting Policies

Please see our Annual Report on Form 10-K for the year ended December 31, 2007 presented on pages 38-40, for a description of policies that are critical to our business operations and the understanding of our results of operations. The impact and any associated risks related to these policies on our business operations is discussed throughout Management's Discussion and Analysis of Financial Condition and Results of Operations where such policies affect our reported and expected financial results. No material changes to such information have occurred during the six months ended June 30, 2008.

In September 2006, the Financial Accounting Standards Board, or FASB, issued Statement of Financial Accounting Standards No. 157, Fair Value Measurements, or SFAS No. 157. SFAS No. 157 clarifies the principle that fair value should be based on the assumptions that market participants would use when pricing an asset or liability and establishes a fair value hierarchy that prioritizes the information used to develop those assumptions. Under the standard, fair value measurements would be separately disclosed by level within the fair value hierarchy. SFAS No. 157 is effective for financial statements issued for fiscal years beginning after November 15, 2007, and interim periods within those fiscal years, with early adoption permitted. Subsequently, the FASB provided for a one-year deferral of the provisions of SFAS No. 157 for non-financial assets and liabilities that are recognized or disclosed at fair value in the consolidated financial statements on a non-recurring basis. We adopted with no impact on our financial statements all requirements of SFAS No. 157 on January 1, 2008, except as they relate to nonfinancial assets and liabilities, which will be adopted on January 1, 2009, as allowed under SFAS No. 157. We have not yet determined the impact, if any, on our financial statements for nonfinancial assets and liabilities.

In February 2007, the FASB issued Statement of Financial Accounting Standards No. 159, The Fair Value Option for Financial Assets and Financial Liabilities, or SFAS No. 159, which permits entities to elect to measure many financial instruments and certain other items at fair value. Upon adoption of SFAS No. 159, an entity may elect the fair value option for eligible items that exist at the adoption date. Subsequent to the initial adoption, the election of the fair value option should only be made at the initial recognition of the asset or liability or upon a re-measurement event that gives rise to the new-basis of accounting. All subsequent changes in fair value for that instrument are reported in earnings. SFAS No. 159 does not affect any existing accounting literature that requires certain assets and liabilities to be recorded at fair value nor does it eliminate disclosure requirements included in other accounting standards. SFAS No. 159 is effective as of the beginning of each reporting entity's first fiscal year that begins after November 15, 2007. We adopted SFAS No. 159 on January 1, 2008 and there was no impact on our financial statements.

In December 2007, the FASB issued Statement of Financial Accounting Standards No. 141 (revised 2007), Business Combinations, or SFAS No. 141(R). SFAS No. 141(R) changes the requirements for an acquirer's recognition and measurement of the assets acquired and the liabilities assumed in a business combination. SFAS No. 141(R) is effective for annual periods beginning after December 15, 2008 and should be applied prospectively for all business combinations entered into after the date of adoption.

In December 2007, the FASB issued Statement of Financial Accounting Standards No. 160, Non-controlling Interests in Consolidated Financial Statements — an amendment of ARB No. 51, or SFAS No. 160. SFAS No. 160 requires (i) that non-controlling (minority) interests be reported as a component of shareholders' equity, (ii) that net income attributable to the parent and to the non-controlling interest be separately identified in the consolidated statement of operations, (iii) that changes in a parent's ownership interest while the parent retains its controlling interest be accounted for as equity transactions, (iv) that any retained non-controlling equity investment upon the deconsolidation of a subsidiary be initially measured at fair value, and (v) that sufficient disclosures are provided that clearly identify and distinguish between the interests of the parent and the interests of the non-controlling owners. SFAS No. 160 is effective for annual periods beginning after December 15, 2008 and should be applied prospectively. The presentation and disclosure requirements of the statement shall be applied retrospectively for all periods presented. We will adopt SFAS No. 160 on January 1, 2009 and have not yet determined the impact, if any, on our financial statements.

In March 2008, the FASB issued Statement of Financial Accounting Standards No. 161, Disclosures about Derivative Instruments and Hedging Activities — an amendment of FASB Statement No. 133, or SFAS No. 161. SFAS No. 161 requires qualitative disclosures about objectives and strategies for using derivatives, quantitative data about the fair value of and gains and losses on derivative contracts, and details of credit-risk-related contingent features in hedged positions. The statement also requires enhanced disclosures regarding how and why entities use derivative instruments, how derivative instruments and related hedged items are accounted and how derivative instruments and related hedged items affect entities' financial position, financial performance, and cash flows. SFAS No. 161 is effective for fiscal years beginning after November 15, 2008. We will adopt SFAS No. 161 on January 1, 2009 and do not expect the adoption to have a material impact on our financial statements.

Item 4. Controls and Procedures

(a) Evaluation of disclosure controls and procedures: Our Principal Executive Officer and Principal Financial Officer have reviewed and evaluated the effectiveness of the Company's disclosure controls and procedures as of June 30, 2008. (b) Changes in internal controls: There were no significant changes in our internal controls or in other factors that could significantly affect the Company's disclosure controls and procedures subsequent to the date of their evaluation, nor were there any significant deficiencies or material weaknesses in the Company's internal controls. As a result, no corrective actions were required or undertaken.

In addition, the Company is party to certain lawsuits or claims arising in the normal course of business. Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

On April 10, 2008, the Company agreed to issue 50,000 shares of common stock to Babe Winkelman Productions, Inc. The shares are to be issued on a restricted basis, for investment and are to be earned over a two year period, and the sale was not registered in reliance upon an exemption from registration for non-public offerings.

In February 2003, the Company received \$1,630,000, in the aggregate, from John H. Schwan and Stephen M. Merrick in exchange for (a) two year 9% subordinated notes and (b) five year warrants to purchase an aggregate of 163,000 shares of common stock of the Company at the price of \$4.87 per share. On February 8, 2008, those individuals exercised the warrants in exchange for the shares, based upon the principal amount of \$794,000 of the subordinated notes. The notes, warrants and shares were issued on a restricted basis, for investment, and the sale of such notes, warrants and shares was not registered in reliance upon an exemption from registration for non-public offerings.
