PHOTONIC PRODUCTS GROUP, INC AND SUBSIDIARIES
 NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
 (Unaudited)

NOTE 1 –SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The accompanying unaudited condensed consolidated financial statements include the accounts of Photonic Products Group, Inc. and its subsidiaries (collectively, the “Company”). All significant intercompany balances and transactions have been eliminated.

The consolidated financial statements have been prepared in accordance with U.S. generally accepted accounting principles (“U.S. GAAP”) for interim financial information and with the instructions to Form 10-Q and Rule 10-01 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by U.S. GAAP for complete financial statements. In the opinion of management, all adjustments of a normal recurring nature considered necessary for a fair presentation have been included. The results of operations of any interim period are not necessarily indicative of the results of operations to be expected for the full fiscal year. For further information, refer to the consolidated financial statements and accompanying footnotes included in the Company’s Annual Report on Form 10-K for the year ended December 31, 2010.

In preparing these consolidated financial statements, the Company has evaluated events and transactions for potential recognition or disclosure through the date the consolidated financial statements were issued.

Management Estimates

These unaudited condensed financial statements and related disclosures have been prepared in conformity with U.S. GAAP which requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses reported in those financial statements. Management evaluates its estimates and assumptions on an ongoing basis using historical experience and other factors, including the current economic environment, and makes adjustments when facts and circumstances dictate. As future events and their effects cannot be determined with precision, actual results could differ significantly from those estimates and assumptions. Significant changes, if any, in those estimates resulting from continuing changes in the economic environment will be reflected in the consolidated financial statements in future periods.

Inventories

Inventories are stated at the lower of cost (first-in-first-out basis) or market. The Company records a reserve for slow moving inventory as a charge against earnings for all products identified as surplus, slow-moving or discontinued. Excess work-in-process costs are charged against earnings whenever estimated costs-of-completion exceed unbilled revenues.

Inventories are comprised of the following and are shown net of inventory reserves:

	March 31, 2011	December 31, 2010
	(in thousands)	
Raw materials	\$ 1,125	\$ 1,103

Edgar Filing: PHOTONIC PRODUCTS GROUP INC - Form 10-Q

Work in process, including manufactured parts and components	946	806
Finished goods	536	482
	\$ 2,607	\$ 2,391

5

Income Taxes

The Company recognizes deferred tax liabilities and assets for the expected future tax consequences of events that have been recognized in the Company's financial statements or tax returns. Deferred tax liabilities and assets are determined based on the difference between the financial statements carrying amounts and the tax basis of assets and liabilities using enacted tax rates in effect in the years in which the differences are expected to reverse.

As of March 31, 2011, the Company has recognized a net deferred tax asset balance in the amount of \$408,000 which is the portion of the total net deferred tax balance of \$2,817,000 that the Company's management is reasonably assured will be fully utilized in future periods. In evaluating the Company's ability to recover deferred tax assets in future periods, management considers the available positive and negative factors, including the Company's recent operating results, the existence of cumulative losses and near term forecasts of future taxable income consistent with the plans and estimates that management uses to manage the underlying business. The Company's valuation allowance of \$2,409,000 as of March 31, 2011 will be maintained until management concludes that it is more likely than not that the remaining deferred tax assets will be realized. When sufficient positive evidence exists, the Company's income tax expense will be reduced by the decrease in its valuation allowance. An increase or reversal of the Company's valuation allowance could have a significant negative or positive impact on the Company's future earnings.

For the three months ended March 31, 2011, the Company did not record a current provision for income taxes due to the availability of net operating loss carryforwards to offset taxable income for both federal and state tax purposes.

For the three months ended March 31, 2010, the Company did not record a current provision for either state tax or federal alternative minimum tax due to the losses incurred for both income tax and financial reporting purposes.

Net Income (Loss) per Common Share

Basic income (loss) per common share is computed by dividing net income (loss) by the weighted average number of common shares outstanding during the period. Diluted income (loss) per common share is computed by dividing net income (loss) by the weighted average number of common shares and common stock equivalents outstanding, calculated on the treasury stock method for options, stock grants and warrants using the average market prices during the period, including potential common shares issuable upon conversion of outstanding convertible notes, except if the effect on the per share amounts is anti-dilutive.

A total of 237,476 common stock options, 17,000 stock grants, 2,500,000 common shares and 1,875,000 warrants issuable upon conversion of outstanding convertible notes and 825,000 common shares and 618,750 warrants issuable on conversion of accrued interest were excluded from the computation of diluted net income per common share for the three months ended March 31, 2011. For the three months ended March 31, 2010, all common stock equivalents outstanding were excluded from the computation of diluted net income per share because their effect is anti-dilutive.

A reconciliation of the shares used in the calculation of basic and diluted earnings per common share is as follows:

	Three Months Ended March 31, 2011			Three Months Ended March 31, 2010		
	Income(Loss) (Numerator)	Shares (Denominator)	Per Share Amount	Income(Loss) (Numerator)	Shares (Denominator)	Per Share Amount
Basic Income (Loss) Per Share:						
Net Income (Loss)	\$ 34,729	11,579,606	\$ 0.00)	\$ (274,469)	11,458,411	\$ (0.02)
Effect of dilutive securities:						
Convertible Debt	—	—		—	—	
Warrants	—	—		—	—	
Options and stock grants	—	100,384		—	—	
Diluted Income (Loss) Per Share:						
Net Income (Loss) Applicable to Common Shareholders	\$ 34,729	11,679,990	\$ 0.00	\$ (274,469)	11,458,411	\$ (0.02)

Stock-Based Compensation

Stock-based compensation expense is estimated at the grant date based on the fair value of the award. The Company estimates the fair value of stock options granted using the Black-Scholes option pricing model. The fair value of restricted stock units granted is based on the closing market price of the Company's common stock on the date of the grant. The fair value of these awards, adjusted for estimated forfeitures, is amortized over the requisite service period of the award, which is generally the vesting period.

Recently Adopted Accounting Standards

In January 2010, the FASB issued guidance to amend the disclosure requirements related to recurring and nonrecurring fair value measurements. The guidance requires new disclosures on the transfers of assets and liabilities between Level 1 (quoted prices in active market for identical assets or liabilities) and Level 2 (significant other observable inputs) of the fair value measurement hierarchy, including the reasons and timing of the transfers. Additionally, the guidance requires a roll forward of activities on purchases, sales, issuance and settlements of the assets and liabilities measured using Level 3 fair value measurements (significant observable inputs). This guidance is effective for the Company on or after January 1, 2010, except for the disclosure on the roll forward activities for Level 3 fair value measurements, which does not become effective until fiscal years beginning after December 15, 2010. Adoption of this new guidance is for disclosure purposes only and did not have a material effect on our consolidated financial position, results of operations or cash flows.

In April 2010, the Financial Accounting Standards Board (FASB) ratified a consensus of the FASB Emerging Issues Task Force that recognizes the milestone method as an acceptable revenue recognition method for substantive milestones in research or development arrangements. This consensus requires its provisions be met in order for an entity to recognize consideration that is contingent upon achievement of a substantive milestone as revenue in its entirety in the period in which the milestone is achieved. In addition, this consensus would require disclosure of certain information with respect to arrangements that contain milestones. This authoritative was adopted by the Company on July 1, 2010 but did not have a material impact on our consolidated financial statements.

NOTE 2- EQUITY COMPENSATION PROGRAM AND STOCK BASED COMPENSATION

a) Stock Option Expense

The Company's results for the three months ended March 31, 2011 and 2010 include stock-based compensation expense for stock option grants totaling \$28,623 and \$29,766, respectively. Such amounts have been included in the accompanying Consolidated Statements of Operations within cost of goods sold in the amount of \$10,542 for 2011 (\$10,830 for 2010), and selling, general and administrative expenses in the amount of \$18,081 for 2011 (\$18,936 for 2010).

As of March 31, 2011, there was \$371,184 of unrecognized compensation costs, net of estimated forfeitures, related to non-vested stock options, which are expected to be recognized over a weighted average period of approximately 3.0 years. As of March 31, 2010, there was \$279,391 of unrecognized compensation costs, net of estimated forfeitures, related to non-vested stock options, which are expected to be recognized over a weighted average period of approximately 2.75 years.

The fair value of option grants used to determine the stock option expense is estimated as of the grant date, using the Black-Scholes option pricing model. The Company follows guidance under FASB ASC Topic 505, "Share-Based Payment," when reviewing and updating its assumptions. Expected volatility is based upon the historical volatility of the Company's stock and other contributing factors. The risk-free interest rate is based on the U.S. Treasury yield curve in effect at the time of the grant.

The following range of weighted-average assumptions were used to determine the fair value of stock option grants during the three months ended March 31, 2011 and 2010, respectively:

	Three Months Ended March 31,			
	2011		2010	
Expected Dividend yield	0.00	%	0.00	%
Expected Volatility	99	%	236	%
Risk-free interest rate	3.4	%	3.7	%
Expected term	8 -10 years		8 -10 years	

b) Stock Option Activity

The following table represents stock options granted, exercised, and forfeited during the three month period ended March 31, 2011:

Stock Options	Number of Options	Weighted Average Exercise Price per Option	Weighted Average Remaining Contractual Term (years)	Aggregate Intrinsic Value
Outstanding at January 1, 2011	798,476	\$ 1.13	5.2	\$ 63,105
Granted	209,700	0.98		
Exercised	—	—		
Expired/Forfeited	(23,800)	4.17		
Outstanding at March 31, 2011	984,376	\$ 1.12	6.1	\$ 103,396

Exercisable at March 31, 2011	604,608	\$1.17	4.2	\$88,855
-------------------------------	---------	--------	-----	----------

8

The following table represents non-vested stock options granted, vested and forfeited for the three months ended March 31, 2011.

Non-vested Options	Options	Weighted-Average Grant-Date Fair Value
Non-vested - January 1, 2011	254,525	\$ 1.14
Granted	209,700	\$ 0.98
Vested	(83,657)	\$ 1.16
Forfeited	(800)	\$ 1.00
Non-vested – March 31, 2011	379,768	\$ 1.05

The total fair value of options vested during the three months ended March 31, 2011 and 2010 was \$97,105 and \$43,980, respectively.

c) **Restricted Stock Unit Awards**

There were 15,000 restricted stock units granted under the 2010 Equity Compensation Program during the three months ended March 31, 2011. These grants vest over a three year period contingent on continued employment or service during the vesting period.

There were no grants during the three months ended March 31, 2010.

The Company's results for the three months ended March 31, 2011 and 2010 include stock-based compensation expense of \$1,275 and \$8,940, respectively, for restricted stock unit grants under the Company's 2000 Performance Share Program. There was no expense for awards under the Company's 2010 Performance Share Program. Such amounts have been included in the accompanying Condensed Consolidated Statements of Operations within cost of goods sold in the amount of \$0 for 2011 (\$1,335 for 2010) and in selling, general and administrative expenses in the amount of \$1,275 for 2011 (\$7,605 for 2010).

A summary of the Company's non-vested restricted stock units at March 31, 2011 is presented below:

	Restricted Stock Units	Weighted-Average Grant-Date Fair Value - \$
Non-vested - January 1, 2011	6,998	3.59
Granted	15,000	0.97
Vested	(4,998)	4.00
Forfeited	—	—
Non-vested – March 31, 2011	17,000	1.16

NOTE 3- STOCKHOLDERS' EQUITY

During the three months ended March 31, 2011, the Company issued 124,669 common shares to the PPGI 401k plan as a match to employee contributions for 2010. In addition, the Company also issued 4,628 shares of common stock on the vesting of employee stock grants during the quarter.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Caution Regarding Forward Looking Statements

This Quarterly Report contains forward-looking statements as that term is defined in the federal securities laws. The Company wishes to insure that any forward-looking statements are accompanied by meaningful cautionary statements in order to comply with the terms of the safe harbor provided by the Private Securities Litigation Reform Act of 1995. The events described in the forward-looking statements contained in this Quarterly Report may not occur. Generally, these statements relate to business plans or strategies, projected or anticipated benefits or other consequences of the Company's plans or strategies, projected or anticipated benefits of acquisitions made by the Company, projections involving anticipated revenues, earnings, or other aspects of the Company's operating results. The words "may", "will", "expect", "believe", "anticipate", "project", "plan", "intend", "estimate", and "continue" and similar expressions are intended to identify forward-looking statements. The Company cautions you that these statements are not guarantees of future performance or events and are subject to a number of uncertainties, risks, and other influences, many of which are beyond the Company's control, that may influence the accuracy of the statements and the projections upon which the statements are based. Factors which may affect the Company's results include, but are not limited to, the risks and uncertainties discussed in Items 1A, 7 and 7A of the Company's most recent Annual Report on Form 10-K for the year ended December 31, 2010, as filed with the Securities and Exchange Commission on March 31, 2011. Any one or more of these uncertainties, risks, and other influences could materially affect the Company's results of operations and whether forward-looking statements made by the Company ultimately prove to be accurate. Readers are further cautioned that the Company's financial results can vary from quarter to quarter, and the financial results for any period may not necessarily be indicative of future results. The foregoing is not intended to be an exhaustive list of all factors that could cause actual results to differ materially from those expressed in forward-looking statements made by the Company. The Company's actual results, performance and achievements could differ materially from those expressed or implied in these forward-looking statements. The Company undertakes no obligation to publicly update or revise any forward looking statements, whether from new information, future events, or otherwise.

Critical Accounting Policies and Estimates

Our significant accounting policies are described in Note 1 of the accompanying consolidated financial statements and further discussed in our annual financial statements included in our annual report on Form 10-K for the year ended December 31, 2010. In preparing our condensed consolidated financial statements, we made estimates and judgments that affect the results of our operations and the value of assets and liabilities we report. These include estimates used in evaluating goodwill and intangibles for impairment such as market multiples used in determining the fair value of reporting units, discount rates applicable in determining net present values of future cash flows, projections of future sales, earnings and cash flow and capital expenditures. It also includes estimates about the amount and timing of future taxable income in determining the Company's valuation allowance for deferred income tax assets. Our actual results may differ from these estimates under different assumptions or conditions.

For additional information regarding our critical accounting policies and estimates, see the section entitled "Management's Discussion and Analysis of Financial Condition and Results of Operations" in our annual report filed with the Securities and Exchange Commission on Form 10-K for the year ended December 31, 2010.

Results of Operations

Photonic Products Group, Inc.'s business falls into two general product types: Optical Components which develops, manufactures and delivers high-end precision custom optics and thin film optical coating services, and Laser System Devices and Instrumentation which includes the growth and fabrication of crystalline materials with electro-optic, non-linear and optical properties for use in both standard and custom products and the manufacture of crystal based devices and associated instrumentation. The Optical Components product lines and services are brought to market through three brands: INRAD, Laser Optics and MRC Optics ("MRC"). The Laser Systems Devices and Instrumentation are manufactured and sold by INRAD. The Company operates manufacturing facilities in New Jersey and Florida.

Revenue

Sales for the three months ended March 31, 2011 were \$3,241,000, an increase of 15.4% compared with \$2,808,000 in the first quarter of 2010. This was mainly due to an increase in orders from new customers and growth from existing customers in the commercial markets we serve. Commercial sales increased with optical components up 18.3% and laser systems up 7%. This was partially offset by a decrease in defense sales which were down 15.6% from the first quarter of 2010.

Sales to major customers who represent more than 10% of period sales, decreased as a percentage of total sales to 38.4% in the first quarter of 2011 from 58.1% in the first quarter of 2010. Sales to the Company's top five customers also decreased in the first quarter of 2011 by approximately 5.6%, from the same period 2010. This was due to lower sales to three of our larger defense customers, as well as the positive impact of growth in sales to a number of new and smaller customers.

Orders for the first quarter were \$2.7 million, the same level as last year.

Order backlog was \$4.8 million at March 31, 2011 compared to a backlog of \$5.4 million at December 31, 2010 and \$4.2 million at March 31, 2010.

Cost of Goods Sold

For the three months ended March 31, 2011, cost of goods sold decreased as a percentage of sales to 73.1% of sales in 2011 compared with 80.8% of sales for the same period last year. However, in dollar terms, the cost of goods sold for the first quarter of 2011 increased to \$2,369,000 compared to \$2,268,000 for the same period last year.

In the first quarter of 2011, manufacturing wages and salaries and related fringe benefits increased by 4.6% principally due to the increase in fringe benefits costs compared with the same period in 2010. As a percentage of sales, these manufacturing labor costs actually decreased in first quarter of 2011 as compared with the same period last year.

Material costs increased for the first quarter of 2011 as compared with the same period in 2010 in both dollar terms and as a percentage of sales due to a shift in the mix of product sales which required a higher cost in the first quarter of 2011 compared to 2010.

Overall, gross margin in the first quarter of 2011 increased to \$872,000 or 26.9% of sales, compared with \$540,000 or 19.2% of sales in the comparable period of 2010, reflecting the factors discussed and the impact of higher sales levels this quarter on the Company's relatively fixed cost structure.

Selling, General and Administrative Expenses

Selling, general and administrative expenses (“SG&A” expenses) in the three months ended March 31, 2011 were \$809,000 or 25.0% of sales compared to \$780,000 or 27.8% of sales for the three months ended March 31, 2010. This represents a slight increase despite the increase sales and is comprised mainly of an increase in SG&A salaries and wages and personnel related costs.

Operating Income (Loss)

The Company had an operating income of \$63,000 in the three months ended March 31, 2011 compared with an operating loss of \$240,000 in the three months ended March 31, 2010 which was an improvement of \$303,000.

Other Income and Expense

For the three months ended March 31, 2011, net interest expense was \$32,000, a slight decrease from \$35,000 in the first quarter of last year.

Overall interest expense for the three months ended March 31, 2011 was \$41,000 which was unchanged from the comparable period for 2010. Offsetting interest expense was a slight increase in interest income of \$3,000 in first quarter of 2011 compared with the first quarter of 2010.

In the first quarter of 2011, the Company sold surplus equipment and recorded a gain of \$4,000 on the sale.

Income Taxes

The Company recognizes deferred tax liabilities and assets for the expected future tax consequences of events that have been recognized in the Company's financial statements or tax returns. Deferred tax liabilities and assets are determined based on the difference between the financial statements carrying amounts and the tax basis of assets and liabilities using enacted tax rates in effect in the years in which the differences are expected to reverse.

As of March 31, 2011, the Company has recognized a net deferred tax asset balance in the amount of \$408,000 which is the portion of the total net deferred tax balance of \$2,817,000 that the Company's management is reasonably assured will be fully utilized in future periods. In evaluating the Company's ability to recover deferred tax assets in future periods, management considers the available positive and negative factors, including the Company's recent operating results, the existence of cumulative losses and near term forecasts of future taxable income consistent with the plans and estimates that management uses to manage the underlying business. The Company's valuation allowance of \$2,409,000 as of March 31, 2011 will be maintained until management concludes that it is more likely than not that the remaining deferred tax assets will be realized. When sufficient positive evidence exists, the Company's income tax expense will be reduced by the decrease in its valuation allowance. An increase or reversal of the Company's valuation allowance could have a significant negative or positive impact on the Company's future earnings.

For the three months ended March 31, 2011, the Company did not record a current provision for income taxes due to the availability of net operating loss carryforwards to offset taxable income for both federal and state tax purposes.

For the three months ended March 31, 2010, the Company did not record a current provision for either state tax or federal alternative minimum tax due to the losses incurred for both income tax and financial reporting purposes.

Net Income (Loss)

The Company had net income of \$35,000 for the three months ended March 31, 2011 compared with a net loss of \$274,000 for the three months ended March 31, 2010. This improvement was primarily attributable to the positive effect of a 15.4% increase in sales volumes and an improvement in gross profit margins, as discussed above.

Liquidity and Capital Resources

The Company's primary source of cash has been from operating cash flows. Other sources of cash include proceeds received from the exercise of stock options and warrants in return for the issuance of common stock. The Company's major uses of cash in the past two years have been for repayment and servicing of outstanding debt and for capital expenditures. Based upon the current level of operations we believe our existing cash resources, as well as cash flows from future operating activities, will be adequate to meet our anticipated cash requirements for principal and interest payments on our outstanding indebtedness, working capital, new product development, capital expenditures, contractual obligations and other operating needs over next twelve months. During the first three months of 2011 and 2010, our primary source of capital was cash from operating activities.

The following table summarizes the net cash provided and used by operating, investing and financing activities for the nine months ended March 31, 2011 and 2010:

	Three Months Ended March 31,	
	2011	2010
	(In thousands)	
Net cash (used in) provided by operating activities	\$ (283)	\$ 480
Net cash (used in) investing activities	(16)	(33)
Net cash (used in) provided by financing activities	(3)	6
Net (decrease) increase in cash and cash equivalents	\$ (302)	\$ 453

Net cash flow used in operating activities was \$283,000 for the three months ended March 31, 2011, compared with a net cash flow provided by operating activities of \$480,000 in the same period last year. The decrease in operating cash flows was due to several factors, but primarily resulted from the increase of inventory and current assets, the accelerated payment of accrued interest, reductions in trade account payables levels and lower reductions in accounts receivable levels, offset by positive effect of the Company's net income of \$35,000 in 2011 compared to a net loss of \$274,000 in 2010.

Inventory levels increased by \$216,000 to \$2,607,000 at March 31, 2011 compared to a decrease of \$218,000 in the three month period ended March 31, 2010. The increase in inventory is primarily attributable to an increase in demand and timing of deliveries for orders.

In the three months ended March 31, 2011, accounts payable balances decreased which used \$61,000 of cash flow in 2011 compared to an increase in accounts payable balances in the comparable period in 2010 which provided \$38,000 of cash flow. The change in 2011 compared to 2010 primarily reflects the timing of purchasing materials related to the increase in inventory items.

In the first three months of 2011, reductions in accounts receivable provided \$99,000 of cash flow, a decrease from the comparable period in 2010 which provided \$142,000 from account receivable reductions. The decrease was principally attributable to the increased level of sales in the current period.

Customer advances decreased by \$131,000 to \$311,000 in the first three months of 2011. Customer advances vary with the timing of orders from customers. In the comparable period in 2010, customer advances decreased by \$142,000 to \$442,000.

On March 30, 2011, the Company paid accrued interest of \$180,000 and \$120,000 on the \$1,500,000 Related Party Convertible Note and the \$1,000,000 Related Party Convertible Note, respectively. In addition the Company also paid \$22,500 and \$15,000 of interest relating to the \$1.5 million Note and \$1 million Note, respectively, as the Company intends to stay current with interest payments for amounts that would accrue against these notes in 2011 and going forward. Therefore the Company expects to make a payment of \$37,500 each quarter in 2011 and through the maturity date to satisfy the amounts of accrued interest each quarter.

Capital expenditures for the three months ended March 31, 2011 were \$22,000 and were mainly unchanged from \$33,000 in the comparable period last year. Management continued its review program for planned capital expenditures to identify and defer expenditures, where practical, to minimize the impact on the Company's cash flows over the balance of the year.

In the three months ended March 31, 2011, the Company made a deposit payment for the fabrication of custom precious metal manufacturing tools in the amount of \$99,000. The tools were completed and received in the second quarter of 2011.

Net cash used in financing activities during the first three months of 2011 totaled \$3,000 compared to net cash provided by financing activities of \$6,000 during the comparable period in 2010 and consisted mainly of principal payments of \$3,000 on other long term notes. In the first three months of 2010, the net cash provided by financing activities consisted of \$9,000 from the proceeds from the exercise of stock options offset by \$3,000 for principal payments on other long term notes.

The Company had a net decrease in cash and cash equivalents of \$302,000 in the three months ended March 31, 2011 compared with an increase of \$453,000 in the corresponding period last year.

Cash and cash equivalents at March 31, 2011 were \$4,063,000. At December 31, 2010, the Company had \$4,365,000 in cash and cash equivalents.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

The Company believes that it has limited exposure to changes in interest rates from investments in certain money market accounts. The Company does not utilize derivative instruments or other market risk sensitive instruments to manage exposure to interest rate changes.

ITEM 4. CONTROLS AND PROCEDURES

a. Disclosure Controls and Procedures

Our Chief Executive Officer and Chief Financial Officer, after evaluating the effectiveness of our disclosure controls and procedures (as defined in Exchange Act Rule 13a-15(e)) as of March 31, 2011 (the "Evaluation Date"), have concluded that as of the Evaluation Date, our disclosure controls and procedures were effective in ensuring that information required to be disclosed by us in the reports we file or submit under the Exchange Act (1) is recorded, processed, summarized and reported, within the time periods specified in the Commission's rules and forms, and (2) is accumulated and communicated to our management, including the Chief Executive Officer and the Chief Financial Officer, as appropriate to allow for timely decisions regarding required disclosure.

b. Changes in Internal Controls Over Financial Reporting

There were no changes in our internal control over financial reporting during the quarter that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II. OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

None.

ITEM 1A. RISK FACTORS

Not applicable

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

None.

ITEM 3. DEFAULTS UNDER SENIOR SECURITIES

None.

ITEM 4. [Reserved]

ITEM 5. OTHER INFORMATION

None

ITEM 6. EXHIBITS

11. An exhibit showing the computation of per-share earnings is omitted because the computation can be clearly determined from the material contained in this Quarterly Report on Form 10-Q.
