Portfolio Manager Commentary

Current Unstable Market Environment

The Greater China stock markets in 2Q 2011 saw their worst quarterly declines since the markets were first shocked by the European debt crisis in late April 2010. Although the capital flight out of the Greater China region that took place again in 2Q this year was believed to be related to this same European debt problem, the more important background for the poor stock market performance in the last quarter was the 'internal' issue - fear of a hard-landing by the Chinese economy (i.e. a sharp economic slowdown as a result of a prolonged monetary tightening in response to high inflation).

There is a debate in the market currently, between the pessimistic investors who believe that China's economy is facing an economic hard-landing and the optimistic investors who expect a policy reversal or relaxation. The debate may continue for many more months, as economic statistics that are to be released in the near future are likely to be mixed, and therefore not indicating any clear trend to justify either further tightening or an immediate policy loosening.

Under such circumstances, we believe 3Q will see a volatile and largely range-bound stock market, which is trendless and basically sideways moving.

Portfolio Strategy Response

A portfolio strategy that focuses on stocks rather than industries, make more sense to us as most cyclical industries offer low visibility given the complicated economic environment and policy uncertainty. However, many individual stocks with strong and more predictable fundamentals tend to have a good chance of outperforming the market.

From a risk management perspective, we prefer an emphasis on value stocks rather than growth stocks, which can run a relatively higher risk of not being able to meet earnings expectations given the slowing economy and economic uncertainty. On the other hand, we would also pay attention to investment opportunities in companies with good long-term competitiveness, but which have had their share prices substantially reduced for various reasons ranging from short-term negative earnings disappointment and unfavorable government industry policies, to a market liquidity crunch and small cap liquidity premium problem.

SHELTON GREATER CHINA FUND

Notes to Financial Statements / June 30, 2011 (Expressed in U.S. Dollars) (Unaudited)

Note 1 — Summary of Fund Organization

The Shelton Greater China Fund (the “Fund” or the “Trust”), formerly the Taiwan Greater China Fund, is a Massachusetts business trust formed in July 1988 and registered with the U.S. Securities and Exchange Commission (the “SEC”) as a diversified, closed-end management investment company under the Investment Company Act of 1940, as amended.

The Trust commenced operations in May 1989 as the R.O.C. Taiwan Fund. It was formed in connection with the reorganization (the “Reorganization”) of The Taiwan (R.O.C.) Fund which commenced operations in October 1983 and was liquidated in 2004 after the assets held were transferred to the direct account of the Trust. The R.O.C. Taiwan Fund changed its name to the Taiwan Greater China Fund on December 29, 2003 and the change became effective on the New York Stock Exchange on January 2, 2004.

At the Annual Meeting of Shareholders held on June 21, 2005, shareholders approved the adoption by the Trust of an interval fund structure. Since then, the Trust has been making semi-annual repurchase offers with respect to its shares (see Note 9B).

As required by the Trust’s Declaration of Trust, if the Trust’s shares trade on the market at an average discount to net asset value per share (“NAV”) of more than 10% in any consecutive 12-week period, the Trust must submit to the shareholders for a vote at its next annual meeting a binding resolution that the Trust be converted from a closed-end to an open-end investment company. The affirmative vote of a majority of the Trust’s outstanding shares is required to approve such a conversion. Because the Trust’s shares traded at an average discount to NAV of more than 10% for the 12-week period ended December 4, 2009, the Trust’s shareholders were asked to consider the conversion of the Trust to an open-end investment company at the Trust’s 2010 Annual Meeting of Shareholders (the “2010 Annual Meeting”).

On May 27, 2011, shareholders of the Taiwan Greater China Fund voted to approve Shelton Capital Management LLC (Shelton Capital or the “Adviser”), an institutional investment management firm based in San Francisco and Nikko Asset Management Co., Ltd. (“Nikko AM”), a leading Asian investment management company headquartered in Tokyo, as the Trust’s investment adviser and sub adviser, respectively. Shareholders also voted to approve the Fund’s conversion from a closed-end investment company to an open-end investment company, which is expected to occur in September 2011. Shelton Capital became the Fund’s investment adviser on June 12, 2011. Shareholders also voted to approve an amendment to the investment objective and an investment policy of the Trust to expand the primary geographic scope of the Trust’s investments from the Republic of China to the Greater China region. As a result, the Taiwan Greater China Fund changed its name to the Shelton Greater China Fund, effective as of June 13, 2011.

Note 2 — Summary of Significant Accounting Policies

A — Basis of presentation — The accompanying financial statements of the Trust have been prepared in accordance with U.S. generally accepted accounting principles (“GAAP”).

B — Valuation of investments — Common stocks represent securities that are traded on the Taiwan Stock Exchange or the Taiwan over-the-counter market or Hong Kong Stock Exchange. Securities traded on a principal securities exchange are valued at the closing price on such exchange. Short-term investments are valued at NAV or at amortized cost, which approximates fair value. Securities for which market quotations are not readily available are, or if a development/event occurs that may significantly impact the value of a security may be, fair-valued in good faith pursuant to procedures established by the Board of Trustees.

C — Lending of Portfolio Securities —The Trust may lend portfolio securities up to 33 1/3% of the market value of the Fund’s total assets to qualified broker-dealers or financial institutions. All loans of portfolio securities are required to be secured by cash, U.S. government or government agency securities, or bank letters of credit, in each case in an amount equal, at the inception of the loan and continuing throughout the life of loan, to 105% of the market value of securities lent, which are marked-to-market daily. The Trust receives compensation for securities lending activities from interest earned on the invested cash collateral net of fee rebates paid to the borrower. The Trust did not have any lending agency agreement nor any securities on loan during the six months ended June 30, 2011.

D — Security transactions and investment income —Security transactions are recorded on the date the transactions are entered into (the trade date). Dividend income is recorded on the ex-dividend date, and interest income is recorded on an accrual basis as it is earned.

E — Realized gains and losses — For U.S. federal income tax purposes and financial reporting purposes, realized gains and losses on securities transactions are determined using the first-in, first-out method. For the fiscal year ended December 31, 2010, the Trust had \$14,818,263 of capital loss carryover expire with a total loss carryover of \$26,343,455 remaining. This capital loss carryforward may be used to offset any future capital gains generated by the Trust.

The capital loss carryforwards and related expiration dates, as of June 30, 2011, are as follows:

	Expiration Date			
2011	2013	2017		Total
\$11,721,463	\$3,691,414	\$10,930,578		\$26,343,455

In accordance with federal income tax regulations, the Trust expects to elect to defer currency losses of \$1,238,013, realized on investment transactions from November 1, 2010 through December 31, 2010 and treat them as arising during the fiscal year ending December 31, 2011 for U.S. federal income tax purposes.

(continued)

The Regulated Investment Company Modernization Act of 2010 (the “Act”) was enacted on December 22, 2010. The Act makes changes to several rules impacting the Fund. In general, the provisions of the Act will be effective for the Fund’s fiscal year ending December 31, 2011. Although the Act provides several benefits, including the unlimited carryover of future capital losses, there may be a greater likelihood that all or a portion of the Fund’s pre-enactment capital loss carryovers may expire without being utilized due to the fact that post-enactment capital losses are required to be utilized before pre-enactment capital loss carryovers. Relevant information regarding the impact of the Act on the Fund will be contained within this section of the Fund’s fiscal year ending December 31, 2011 financial statements.

F — Foreign currency translation — Substantially all of the Trust’s income is earned, and its expenses are partially paid, in New Taiwan Dollars (“NT\$”) and Hong Kong Dollars (“HKD”). The cost and market value of securities, currency holdings, and other assets and liabilities that are denominated in NT\$ and HKD are reported in the accompanying financial statements after translation into United States Dollars (“USD”) based on the closing market rate for the United States Dollar in Taiwan at the end of the year. At June 30, 2011, the exchange rates to USD1.00 were NT\$28.7545 and HKD7.7733. Investment income and expenses are translated at the average exchange rate for the period. Currency translation gains or losses are reported as a separate component of changes in net assets resulting from operations.

The Trust does not separately record that portion of the results of operations resulting from changes in foreign exchange rates on investments from the fluctuations arising from changes in market prices of securities held. Such fluctuations are included with the net realized and unrealized gain or loss from investments.

G — Distributions to shareholders — It is the Trust’s policy to distribute all ordinary income and net realized capital gains calculated in accordance with U.S. federal income tax regulations. Such calculations may differ from those based on GAAP. Permanent book to tax differences primarily relate to the treatment of the Trust’s gains from the disposition of passive foreign investment company shares, expiring capital loss carryforward, as well as the nondeductibility of net operating losses for U.S. federal income tax purposes. Temporary book to tax differences are primarily due to differing treatments for certain foreign currency losses.

H — Taxes — The Trust intends to continue to elect and to continue to qualify as a regulated investment company under the Internal Revenue Code of 1986, as amended (the “Code”). If the Trust complies with all of the applicable requirements of the Code, it will not be subject to U.S. federal income and excise taxes provided that it distributes all of its investment company taxable income and net capital gains to its shareholders.

Management has analyzed the Trust’s tax positions taken on federal income tax returns for all open tax years and has concluded that, as of December 31, 2010, no provision for income tax would be required in the Trust’s financial statements. The Trust’s federal and state income and federal excise tax returns for tax years for which the applicable statutes of limitations have not expired are subject to examination by the Internal Revenue Service and state departments of revenue.

The Republic of China levies a tax at the rate of 20% on cash dividends and interest received by the Trust on investments in the Republic of China securities. In addition, a 20% tax is levied based on par value of stock dividends (except those which have resulted from capitalization of capital surplus) received by the Trust. The Trust did not receive any stock dividends for the six months ended June 30, 2011.

Realized gains on securities transactions are not subject to income tax in the Republic of China; instead, a securities transaction tax of 0.3% of the fair value of stocks sold or transferred is levied. Proceeds from sales of investments are net of securities transaction tax of \$218,513 paid for the six months ended June 30, 2011.

I — Use of estimates — The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the amounts reported in the financial statements, financial highlights and accompanying notes. Actual results could differ from those estimates.

J — Accounting for Uncertainty in Income Taxes — ASC 740 provides guidance for how uncertain tax positions should be recognized, measured, presented and disclosed in the financial statements. ASC 740 requires the evaluation of tax positions taken or expected to be taken in the course of preparing the Trust's tax returns to determine whether the tax positions are "more-likely-than-not" of being sustained by the applicable tax authority. Tax positions not deemed to meet the more-likely-than-not threshold would be recorded as a tax benefit or expense in the current year. As required, the Trust implemented ASC740 on January 1, 2007. Based on management's evaluation, ASC 740 did not have a material impact on the Trust's financial statements.

K —Fair Value Measurements and Disclosures — In May 2011, the Financial Accounting Standards Board issued Accounting Standards Update ("ASU") No. 2011-04 "Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and International Financial Reporting Standards ("IFRS)". ASU 2011-04 includes common requirements for measurement of and disclosure about fair value between U.S. GAAP and IFRS. ASU 2011-04 will require reporting entities to disclose the following information for fair value measurements categorized within Level 3 of the fair value hierarchy; quantitative information about the unobservable inputs used in the fair value measurement, the valuation processes used by the reporting entity, and a narrative description of the sensitivity of the fair value measurement to changes in unobservable inputs and the interrelationships between those unobservable inputs. In addition, ASU 2011-04 will require reporting entities to make disclosures about amounts and reasons for all

SHELTON GREATER CHINA FUND

Notes to Financial Statements / June 30, 2011 (Expressed in U.S. Dollars) (Unaudited)

transfers in and out of Level 1 and Level 2 fair value measurements. The new and revised disclosures are effective for interim and annual reporting periods beginning after December 15, 2011. At this time, management is evaluating the implications of ASU 2011-04 and its impact on the financial statements.

The Fund utilizes various methods to measure the fair value of most of its investments on a recurring basis. U.S. GAAP establishes a hierarchy that prioritizes inputs to valuation methods. The three levels of inputs are:

Level 1 - Unadjusted quoted prices in active markets for identical assets or liabilities that the company has the ability to access.

Level 2 - Observable inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. These inputs may include quoted prices for the identical instrument on an inactive market, prices for similar instruments, interest rates, prepayment speeds, credit risk, yield curves, default rates and similar data.

Level 3- Unobservable inputs for the asset or liability, to the extent relevant observable inputs are not available, representing the Fund's own assumptions about the assumptions a market participant would use in valuing the asset or liability, and would be based on the best information available.

The availability of observable inputs can vary from security to security and is affected by a wide variety of factors, including, for example, the type of security, whether the security is new and not yet established in the marketplace, the liquidity of markets, and other characteristics particular to the security. To the extent that valuation is based on models or inputs that are less observable or unobservable in the market, the determination of fair value requires more judgment. Accordingly, the degree of judgment exercised in determining fair value is greatest for instruments categorized in Level 3.

The inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, for disclosure purposes, the level in the fair value hierarchy within which the fair value measurement falls in its entirety, is determined based on the lowest level input that is significant to the fair value measurement in its entirety.

The following table summarizes the valuation of the Trust's securities at June 30, 2011 using the fair value hierarchy:

At June 30, 2011	Level 1(a)	Level 2(a)	Level 3(a)	Total
Investments, in securities				
Common Stocks(b)	\$76,642,779	\$-	\$-	\$76,642,779
Short term securities	987,861	-	-	987,861
Total investments in securities	\$77,630,640	\$-	\$-	\$77,630,640

(a) There were no transfers in or out of Level 1, Level 2 and Level 3 during the period ended June 30, 2011.

(b) For a detailed breakout of common stocks by major industry classification, please refer to the Schedule of Investments.

Note 3 — Investment Considerations

Because the Trust concentrates its investments in publicly traded equities issued by corporations located in China, Hong Kong, Singapore or Taiwan, its portfolio involves considerations not typically associated with investing in U.S. securities. In addition, the Trust is more susceptible to factors adversely affecting the economies of those countries than a fund not concentrated in these issuers to the same extent. Since the Trust's investment securities are primarily denominated in NT\$ and HKD, changes in the relationships of the NT\$ and the HKD to the USD may also significantly affect the value of the investments and the earnings of the Trust.

Note 4 — Investment Management

The Trust entered into an advisory agreement with Nanking Road Capital Management, LLC ("NRC") on October 1, 2007, which was replaced by Shelton Capital on June 12, 2011. Pursuant to its advisory agreement with the Trust, Shelton Capital is responsible for supervising investments of the Trust, and make available all services needed for the management, administration and operation of the Trust. The Trust pays Shelton Capital (and paid NRC) a fee at the per annum rate of 1.25% of the NAV of the Trust's assets.

Shelton Capital entered into a sub-advisory agreement with Nikko AM on June 12, 2011.

Note 5 — Custodian

BBH serves as custodian of the assets of the Trust. The Trust pays BBH a monthly fee for securities in the Taiwan market at an annual rate of 0.15% of the Trust's market value of Taiwan holdings up to \$200 million, 0.13% of such Taiwan holdings equal to or in excess of \$200 million and for securities in the Hong Kong market at an annual rate of 0.10% of the Trust's market value of Hong Kong holdings. The total payment to BBH for administrative and custodial services is subject to a minimum annual fee of \$200,000 and \$100,000 in the case of a termination only of the Administrative and Fund Accounting Agency Agreement.

Note 6 — Administrative Management

Brown Brothers Harriman & Co. ("BBH") provides administrative and accounting services for the Trust, including maintaining certain books and records of the Trust, and preparing certain reports and other documents required by U.S. federal and/or state laws and regulations. The Trust pays BBH a monthly fee for these services at an annual rate of 0.06% of the NAV of the Trust's assets and 0.04% of such NAV equal to or in excess of \$400 million. The total payment to BBH for administrative and custodial services is subject to a minimum annual fee of \$200,000. Out-of-pocket expenses will be billed at the actual amount incurred at the time the goods or service is purchased.

Note 7 — Consulting

The Trust paid \$225,000 in consulting fees in relation to the change in investment adviser.

SHELTON GREATER CHINA FUND

Notes to Financial Statements / June 30, 2011 (Expressed in U.S. Dollars) (Unaudited)

Note 8 — Investments in Securities

Purchases and proceeds from sales of securities, excluding short-term investments, for the six months ended June 30, 2011, included \$50,400,684 for stock purchases and \$58,083,229 for stock sales, respectively.

At June 30, 2011, the cost of investments, excluding short-term investments, for U.S. federal income tax purposes was equal to the cost of such investments for financial reporting purposes. At June 30, 2011, the unrealized appreciation of \$8,514,212 for U.S. federal income tax purposes consisted of \$9,470,948 of gross unrealized appreciation and \$956,736 of gross unrealized depreciation.

Note 9 — Shares of Beneficial Interest

A — The Trust's Declaration of Trust permits the Trustees to issue an unlimited number of shares of beneficial interest or additional classes of other securities. The shares have a par value of \$0.01, and no other classes of securities are outstanding at present. The Trust has a repurchase program which allows for the repurchase of up to 10% of the outstanding shares. The share repurchase program commenced on November 1, 2004.

In connection with the share repurchase program referred to above, the Board of Trustees authorized management to repurchase Trust shares in one or more block transactions provided that no block exceeds 500,000 shares on any day, no more than 1,000,000 shares in total are repurchased in block transactions, and such share repurchases are made on the NYSE and in compliance with the safe harbor provided by Rule 10b-18 under the Securities Exchange Act of 1934, as amended. This does not increase the overall repurchase authorization and the Trust will continue to make non-block share repurchases under its share repurchase program.

During the six months ended June 30, 2011, the Trust did not repurchase any shares under this program.

B — The Trust has adopted an interval fund structure pursuant to which it makes semi-annual repurchase offers of its shares of beneficial interest. The percentage of outstanding shares of beneficial interest that the Trust can offer to repurchase in each repurchase offer will be established by the Trust's Board of Trustees (the "Board") shortly before the commencement of each offer, and will be between 5% and 25% of the Trust's outstanding shares of beneficial interest. If the repurchase offer is oversubscribed, the Trust may, but is not required to, repurchase up to an additional 2% of shares outstanding.

In June 2010, the Trust accepted 589,448 shares for payment at a price of \$6.34 per share in accordance with its semi-annual repurchase offer. Pursuant to the semi-annual repurchase offer, the purchase price was equal to 100% of the Trust's NAV at the close of regular trading on the Taiwan Stock Exchange on June 21, 2010, to which a 2% repurchase fee was applied. The purchased shares constituted approximately 5% of the Trust's previously outstanding shares.

In December 2010, the Trust accepted 559,976 shares for payment at a price of \$7.72 per share in accordance with its semi-annual repurchase offer. Pursuant to the semi-annual repurchase offer, the purchase price was equal to 100% of the Trust's NAV at the close of regular trading on the Taiwan Stock Exchange on December 16, 2010, to which a 2% repurchase fee was applied. The purchased shares constituted approximately 5% of the Trust's previously outstanding shares.

In June 2011, the Trust accepted 531,977 shares for payment at a price of \$7.61 per share in accordance with its semi-annual repurchase offer. Pursuant to the semi-annual repurchase offer, the purchase price was equal to 100% of

the Trust's NAV at the close of regular trading on the Taiwan Stock Exchange on June 17, 2011, to which a 2% repurchase fee was applied. The purchased shares constituted approximately 5% of the Trust's previously outstanding shares. Once the Trust becomes open-ended, it will no longer conduct semi-annual repurchase offers.

At June 30, 2011, 10,107,567 shares were outstanding.

Note 10 — Other Announcements

Effective January 12, 2011, Mr. Pedro-Pablo Kuczynski resigned from his position as Trustee and Chairman of the Board. The Board subsequently elected Mr. Fredrick C. Copeland, Jr. as Chairman of the Board and formally reduced the size of the Board to five members. In connection with the election of directors at the 2010 Annual Meeting, the size of the Board was increased to six as of May 27, 2011. Effective as of June 10, 2011, Mr. Stephen C. Rogers replaced Mr. Copeland as the Chairman of the Board, and the size of the Board was increased to seven members.

The Trust's engagement with KPMG LLP terminated on June 15, 2011. Effective as of June 20, 2011, the Trust engaged Tait Weller & Baker LLP to perform audit, tax and non-audit related services for the Fund going forward.

The audit reports of KPMG LLP on the Fund's financial statements as of and for the years ended December 31, 2010 and 2009 did not contain an adverse opinion or disclaimer of opinion, nor were they qualified or modified as to uncertainty, audit scope, or accounting principles.

In connection with the audits of the two fiscal years ended December 31, 2010 and 2009 and the subsequent interim period through June 15, 2011, there were no reportable events or disagreements with KPMG LLP on any matter of accounting principles or practices, financial statement disclosure, or auditing scope or procedures, which disagreements if not resolved to the satisfaction of KPMG LLP would have caused them to make reference in connection with their opinion to the subject matter of the disagreements.

Note 11 — Subsequent Events

As a result of the shareholders approval to convert the Fund from a closed-end investment company to an open-end investment company, on August 8, 2011, the Trust filed a Registration Statement on Form N-1A in connection with registering its shares for a continuous offering as an open-end fund.

Board Approval of Investment Advisory Agreement

At a meeting held in person on April 6, 2011 and prior to the 2010 Annual Meeting, the Board, which was comprised entirely of Trustees who were not “interested persons,” as defined in the Investment Company Act of 1940, as amended (the “1940 Act”), approved for an initial two year period an investment advisory agreement (the “Advisory Agreement”) between the Trust and CCM Partners, L.P., dba Shelton Capital Management. The Board also approved the Advisory Agreement for inclusion in the Trust’s 2010 Annual Proxy Statement for shareholder vote at the 2010 Annual Meeting.

No single factor reviewed by the Board was identified by the Board as the principal factor in determining whether to approve the Advisory Agreement. In their consideration of the Advisory Agreement, the Board considered factors described below. The Board evaluated information concerning the Advisory Agreement provided to the Board during this April 6, 2011 meeting and during prior meetings.

2010 ANNUAL MEETING OF SHAREHOLDERS (Continued) (unaudited)

Nature, Extent and Quality of the Services provided by the Adviser. The Board reviewed and considered the nature and extent of the investment advisory services to be provided by the Adviser under the Advisory Agreement. The Board also reviewed and considered the nature and extent of the non-investment advisory, administrative services to be provided by the Adviser under the Advisory Agreement. The Board determined that the Adviser appeared to be capable of providing the Trust with investment advisory and administrative services of appropriate quality.

Performance, Fees and Expenses of the Trust. The Board noted that the Adviser had not yet begun providing services to the Trust and, therefore, there were limitations on the Board's ability to evaluate the Adviser's performance. Based, however, on the experience of the Adviser, the Board concluded that there was reason to believe that the Adviser could provide the appropriate level of investment advisory and administrative services to the Trust. The Board also considered that advisory fee rates under the Advisory Agreement would be the same as the base fee rate under the then current advisory agreement with NRC. The Board also noted that other expenses of the Trust were not expected to increase as a result of the retention of the Adviser.

Economies of Scale. The Board considered the benefits that the Trust's shareholders would be afforded as a result of anticipated economies of scale. One such consideration was that the Advisory Agreement did not contain breakpoints, which would serve to reduce the advisory fee paid to CCM if the Trust's assets grow beyond a certain point; however, the inclusion of breakpoints may be revisited by the Board at a later date.

Other Benefits of the Relationship. The Board considered whether there were other benefits that CCM and its affiliates may derive from their relationship with the Trust and concluded that the only material benefit would be received by RFS Partners (the "Distributor" (an affiliate of CCM)), as it would be retained as the distributor of the Trust. However, the Board noted that any decision to retain CCM was due, in part, to the desire to obtain the distribution/marketing services offered by the Distributor.

Resources of the Investment Adviser. The Board considered whether the Adviser is financially sound and has the resources necessary to perform its obligations under the Advisory Agreement, and after discussion, noted that the Adviser appeared to have the financial resources necessary to fulfill its obligations under the Advisory Agreement.

Distribution and Administrative Assistance. The Board considered the distribution services that were available to the Trust from affiliates of the Adviser, specifically the network of relationships with open-end fund sellers that such affiliates had. Additionally, the Board reviewed and considered the administrative services that the Adviser could offer.

General Conclusions. After considering and weighing all of the above factors, the Board concluded that it would be in the best interest of the Trust and its shareholders to approve the Advisory Agreement and retain the Adviser on the basis of the distribution and investment advisory services offered by the Distributor and the Adviser, respectively. In reaching this conclusion, the Board did not give particular weight to any single factor referenced above.

Board Approval of Investment Sub-Advisory Agreement

At a meeting held in person on April 6, 2011 and prior to the 2010 Annual Meeting, the Board, approved for an initial two year period an investment sub-advisory (the "Sub-Advisory Agreement") between CCM Partners, L.P., dba Shelton Capital Management and Nikko AM.

No single factor reviewed by the Board was identified by the Board as the principal factor in determining whether to approve the Sub-Advisory Agreement. At the 2010 Annual Meeting, held on May 27, 2011, the Trust's shareholders approved the Sub-Advisory Agreement. In their consideration of the Sub-Advisory Agreement, the Board considered factors described below. The Board evaluated information concerning the Sub-Advisory Agreement provided to the Board during this April 6, 2011 meeting and during prior meetings including the terms and conditions of the Sub-Advisory Agreement and the nature, scope and quality of services that Nikko AM is expected to provide to the Trust. The Board reviewed Nikko AM's considerable experience in managing portfolios of equity securities of companies in the China region and its commitment of dedicating a research analyst and experience portfolio manager to the Trust. The Board noted that Nikko AM's proposed sub-advisory fees compared favorably with fees charged by sub-advisers of other U.S. registered closed-end funds that invest in the China region. After further discussion, the Board also discussed the following considerations, among others, and noted that no particular consideration that was all important or controlling, each Trustee attributing different weights to the various factors.

Nature, Extent and Quality of the Services provided by the Proposed Sub-Adviser. The Board reviewed and considered the nature and extent of the investment advisory services to be provided by Nikko AM under the Sub-Advisory Agreement. The Board determined that Nikko AM appeared to be capable of providing the Trust with investment advisory services of appropriate quality.

2010 ANNUAL MEETING OF SHAREHOLDERS (Continued) (unaudited)

Performance, Fees and Expenses of the Trust. The Board noted that Nikko AM had not yet begun providing services to the Trust and, therefore, there were limitations on the Board's ability to evaluate Nikko AM's performance. Based, however, on the experience of Nikko AM, the Board concluded that there was reason to believe that Nikko AM could achieve adequate performance over the long term in advising the Trust, based on Nikko AM's considerable experience in managing portfolios of equity securities in the China region. The Board also noted that other expenses of the Trust were not expected to increase as a result of the retention of Nikko AM.

Economies of Scale. The Board considered the benefits that Shareholders would be afforded as a result of anticipated economies of scale.

Other Benefits of the Relationship. The Board considered whether there were other benefits that Nikko AM and its affiliates may derive from their relationship with the Trust and concluded that such benefits were likely to be minimal.

Resources of the Investment Sub-Adviser. The Board considered whether Nikko AM is financially sound and has the resources necessary to perform its obligations under the Sub-Advisory Agreement, and after discussion, noted that Nikko AM appeared to have the financial resources necessary to fulfill its obligations under the Sub-Advisory Agreement.

General Conclusions. After considering and weighing all of the above factors, the Board concluded that it would be in the best interest of the Trust and its shareholders to approve the Sub-Advisory Agreement and retain Nikko AM. In reaching this conclusion, the Board did not give particular weight to any single factor referenced above.

Potential Conflicts

Individual portfolio managers may manage multiple funds. CCM Partners, L.P. (the “Adviser”) and the Sub-Adviser manage potential conflicts between fund through allocation policies and procedures, internal review processes, including, but not limited to reports and oversight by management. The Adviser and the Sub-Adviser have developed trade allocation systems and controls to help ensure that no one fund, regardless of type, is intentionally favored at the expense of another. Allocation policies are designed to address potential conflicts in situations where two or more funds participate in investment decisions involving the same securities.

Portfolio Manager Securities Ownership

As of August 31, 2011, no individuals affiliated with the Adviser or Sub-Adviser held interests in the Fund.

(3) Compensation of Portfolio Manager

The compensation of the registrant’s Portfolio Manager, currently Mr. Fung Kwok On includes a base salary, cash bonus, and a package of employee benefits that are generally available to all salaried employees. Compensation is structured to emphasize the performance of each individual to increase corporate value in order to fulfill the expectations of stockholders of the Sub-Adviser. The Sub-Adviser does not have any “incentive compensation” or “deferred compensation” programs specifically designed for the Portfolio Manager. Compensation is not linked to the distribution of Fund shares or to the performance of any specific account or Fund. The Portfolio Manager may also participate in equity ownership of the Sub-Adviser. Each element of compensation is detailed below:

Base Salary. The Portfolio Manager is paid a fixed base salary that is intended to be competitive in light of the Portfolio Manager's experience and responsibilities.

Bonus. Bonus payments are based on a number of factors including the profitability of the firm and the employee’s long-term contributions, Bonuses are not linked to the volume of assets managed or to measurements of relative or absolute investment returns.

Employee Benefit Program. The Portfolio Manager participates in benefit plans and programs available generally to all employees, which includes various insurance coverage and retirement programs, including a defined contribution pension plan.

The above information regarding compensation of the Portfolio Manager is current as of August 31, 2011.
