PROXY STATEMENT

This Proxy Statement is furnished in connection with the solicitation of proxies by the Board of Directors of The Cato Corporation (the Company) for use at the Annual Meeting of Shareholders of the Company (the meeting) to be held on May 20, 2009, and at any adjournment or adjournments thereof. This Proxy Statement and the accompanying proxy card are first being mailed to shareholders on or about April 20, 2009.

Only shareholders of record at the close of business on March 24, 2009 are entitled to notice of and to vote at the meeting. As of March 24, 2009, the Company had outstanding and entitled to vote 27,647,892 shares of Class A Common Stock (Class A Stock) held by approximately 4,772 holders of record and 1,743,525 shares of Class B Common Stock (Class B Stock) held by 2 holders of record. The Company's transfer agent estimates that there are approximately 6,130 beneficial owners in total. Holders of Class A Stock are entitled to one vote per share and holders of Class B Stock are entitled to ten votes per share. Holders of Class A Stock holders of Class B Stock vote as a single class.

All proxies properly executed and received prior to the meeting will be voted at the meeting. If a shareholder specifies how the proxy is to be voted on any of the business to come before the meeting, the proxy will be voted in accordance with such specification. If no specification is made, the proxy will be voted **FOR** the election of nominees John P. D. Cato, Bailey W. Patrick and Thomas E. Meckley, **FOR** the ratification of PricewaterhouseCoopers LLP as the Company's independent registered public accounting firm for the year ending January 30, 2010, and in the discretion of the proxy holders on any other business properly brought before the meeting. A proxy may be revoked at any time prior to its exercise by written notice to the Secretary of the Company at the Corporate Office of the Company, by executing and delivering a proxy with a later date, or by voting in person at the meeting.

If you plan to attend and vote at the meeting and your shares are held in the name of a broker or other nominee, please bring with you a proxy or letter from the broker or nominee to confirm your ownership of shares.

In accordance with applicable Delaware law and the Company's Bylaws, the holders of a majority of the combined voting power of Class A Stock and Class B Stock present in person or represented by proxy at the meeting will constitute a quorum. Abstentions are counted for purposes of determining the presence or absence of a quorum. With regard to the election of directors, votes may either be cast in favor of or withheld, and, assuming the presence of a quorum, directors will be elected by a plurality of the votes cast. Votes that are withheld will be excluded entirely from the vote and will have no effect on the outcome of the election. The ratification of PricewaterhouseCoopers LLP as the Company's independent registered public accounting firm requires the affirmative vote of a majority of the combined voting power of the Class A Stock and Class B Stock present in person or represented by proxy at the meeting and entitled to vote. On any proposal other than the election of directors, an abstention will have the same effect as a negative vote but, because shares held by brokers will not be considered entitled to vote on matters which the brokers withhold authority, a broker non-vote will have no effect on the vote on any such proposal.

The Company will bear the cost of this solicitation including the expense of preparing, printing, and mailing these proxy materials to shareholders. The Company will reimburse brokers, dealers, banks, and other custodians, nominees, and fiduciaries for their reasonable expenses in forwarding proxy solicitation materials to beneficial owners of the Company's Class A Stock and Class B Stock and securing their voting instructions.

Edgar Filing: CATO CORP - Form DEF 14A

The independent election inspector(s) appointed for the Annual Meeting will determine whether or not a quorum is present and will tabulate votes cast by proxy or in person at the Annual Meeting.

These proxy materials are available in PDF and HTML format at www.catofashions.com/investors/proxy.cfm and will remain posted until the conclusion of the meeting.

Grigg, James H. Shaw, and D. Harding Stowe are the members of the Corporate Governance and Nominating Committee.

CORPORATE GOVERNANCE MATTERS

Corporate Governance Guidelines and Committee Charters

In furtherance of its longstanding goal of providing effective governance of the Company s business and affairs for the benefit of shareholders, the Board of Directors has approved Corporate Governance Guidelines for the Company. The Guidelines are available on the Company s website at www.catofashions.com/investors.cfm, as are the committee charters for the Company s Audit Committee, Compensation Committee and Corporate Governance and Nominating Committee. Print copies of these documents are available to any shareholder that requests a copy by writing to Corporate Governance and Nominating Committee, c/o Office of the Corporate Secretary, 8100 Denmark Road, Charlotte, North Carolina 28273.

Director Independence

The Board of Directors made a determination as to the independence of each of its members. The Board of Directors determined that each of the following Board members is independent: Mr. Robert W. Bradshaw, Jr., Mr. George S. Currin, Mr. William H. Grigg, Mr. Grant L. Hamrick, Mr. James H. Shaw, Mr. A.F. (Pete) Sloan, and Mr. D. Harding Stowe. The Board has also determined that Bailey W. Patrick and Thomas E. Meckley, nominees for election to the Board, are also independent. The Board determined that Mr. John P. D. Cato, an employee of the Company, is not independent. The Board made these determinations based upon the definition of an independent director set forth in the NYSE listing standards (the "NYSE Independence Tests"), as supplemented by the Company's Corporate Governance Guidelines, which are available on the Company's website at www.catofashions.com/investors.cfm. A director will be independent only if the director has no material relationship with the Company. For purposes of such determination, the Board must affirmatively determine whether a material

5

relationship exists between the director and the Company. This determination is in addition to the analysis under the NYSE Independence Tests and SEC Rule 10A-3 and must be based on the overall facts and circumstances specific to that director.

In order to assist the Board in making determinations of independence, any relationship described below will be presumed material:

- (1) The director is, or has been within the last three years, an employee of the Company, or an immediate family member is, or has been within the last three years, an executive officer, of the Company.
- (2) The director has received, or an immediate family member has received, during any twelve-month period within the last three years, more than \$120,000 in direct compensation from the Company, other than director and committee fees and pension or other forms of deferred compensation for prior service (provided such compensation is not contingent in any way on continued service).
- (3) The director or an immediate family member is a current partner of a firm that is the Company's internal or external auditor; the director is a current employee of such a firm; the director has an immediate family member who is a current employee of such a firm and personally works on the Company's audit; or the director or an immediate family member was within the last three years (but is no longer) a partner or employee of such a firm and personally worked on the Company's audit within that time.
- (4) The director or an immediate family member is, or has been within the last three years, employed as an executive officer of another company where any of the Company's present executive officers at the same time serves or served on that company's compensation committee.
- (5) The director is a current employee, or an immediate family member is a current executive officer, of a company that has made payments to, or received payments from, the Company for property or services in an amount which, in any of the last three fiscal years, exceeds the greater of \$1 million, or 2% of such other company's consolidated gross revenues.

The Board specifically considered Mr. George S. Currin's ownership interest in entities with which the Company had lease agreements in fiscal 2008 and determined these transactions were not material. The Board also specifically considered Mr. Robert W. Bradshaw's position as Of Counsel with the firm of Robinson, Bradshaw & Hinson, P.A., a law firm to which the Company paid fees in fiscal 2008, and determined such transactions are not material (*see Related Person Transactions* *below*).

Executive Sessions of Non-Management Directors

Non-management Board members meet without management at regularly scheduled executive sessions. In addition, to the extent that the group of non-management directors includes directors that are not independent, at least once a year there will be scheduled an executive session including only independent directors. The Chair of the Corporate Governance and Nominating Committee will preside over meetings of the non-management or independent directors.

Compensation Committee Interlocks and Insider Participation

The Compensation Committee consists of Messrs. D. Harding Stowe, George S. Currin, James H. Shaw and A.F. (Pete) Sloan. Since the beginning of the Company's last fiscal year, none of the members of the Compensation Committee is or has been an officer or employee of the

Edgar Filing: CATO CORP - Form DEF 14A

Company and no executive officer of the Company served on the compensation committee or board of any company that employed any member of the Company's Compensation Committee or the Board.

6

associates, officers, and directors of the Company. The Code of Ethics and Code of Conduct are available on the Company's website at www.catofashions.com/investors.cfm, under the "Corporate Governance" caption and print copies are available to any shareholder that requests a copy by writing to Corporate Governance and Nominating Committee, c/o Office of the Corporate Secretary, 8100 Denmark Road, Charlotte, North Carolina 28273. Any amendments to the Code of Ethics or Code of Conduct, or any waivers of the Code of Ethics, or any waiver of the Code of Conduct for directors or executive officers, will be disclosed on the Company's website promptly following the date of such amendment or waiver. Information on the Company's website, however, does not form a part of this Proxy Statement.

Director Nomination Criteria and Process

Directors may be nominated by the Board of Directors in accordance with the Company's Bylaws or by shareholders in accordance with the procedures specified in Article II, Section 3 of the Company's Bylaws. The Company's Corporate Governance and Nominating Committee will consider all nominees, including any submitted by shareholders, for the Board of Directors. The assessment of a nominee's qualifications will include a review of Board of Director qualifications as described in the Company's Corporate Governance Guidelines.

As specified in Article II, Section 3 of the Company's Bylaws, notice of a shareholder nomination for a director nominee to be considered at an Annual Meeting must be in writing and received by the Secretary of the Company at the Company's principal executive offices, 8100 Denmark Road, Charlotte, North Carolina 28273-5975 no later than 90 days prior to the anniversary of the preceding year's Annual Meeting (in the case of the Company's 2010 Annual Meeting of shareholders, no later than February 20, 2010). The shareholder's notice must also set forth, with respect to any director nominee, his or her name, age, business and residential address, principal occupation, the class and number of shares of the Company owned by the nominee, the nominee's consent to being named in the proxy statement and serving if elected, and any other information required by the proxy rules of the Securities and Exchange Commission pursuant Regulation 14A of the Exchange Act. The notice must also include the name and address of the nominating shareholder as it appears on the Company's stock transfer records and the class and number of shares of the Company beneficially owned by the nominating shareholder.

The Corporate Governance and Nominating Committee will select qualified nominees and review its recommendations with the full Board of Directors. The Board of Directors will decide whether to invite the nominee to join the Board. Nominees for director will be selected on the

basis of outstanding achievement in their professional careers, broad experience, wisdom, integrity, ability to make independent, analytical inquiries, understanding of the business environment, diversity, and willingness to devote adequate time to Board duties. The Board believes

that each director should have a basic understanding of (i) the principal operational and financial objectives and plans and strategies of the Company, (ii) the results of operations and financial condition of the Company and of any significant subsidiaries or business segments, and (iii) the relative standing of the Company and its business segments in relation to its competitors.

The Board will have a majority of directors who meet the criteria for independence required by the NYSE. The Corporate Governance and Nominating Committee is responsible for reviewing with the Board, on an annual basis, the requisite skills and characteristics that the Board seeks in Board members as well as the composition of the Board as a whole. On an annual basis, the Board will evaluate whether members qualify as independent under applicable standards. During the course of a year, directors are expected to inform the Board of any material changes in their circumstances or relationships that may impact their designation by the Board as independent.

2008 EXECUTIVE COMPENSATION

Compensation Discussion and Analysis

Overview of Compensation Program for Named Executive Officers

Pay for performance, both at the corporate and individual levels, is the overriding philosophy behind the design of the compensation program for Named Executive Officers (NEOs see Summary Compensation Table) at The Cato Corporation. The Compensation Committee (Committee) has established this philosophy to motivate superior individual and team performance among the executives. The elements of the compensation program are designed to reward higher levels of performance, which the Committee believes will attract and retain qualified and high-performing executives and, in turn, result in increased productivity and more effective execution of strategic decisions, leading ultimately to maintaining a competitive edge within the retail industry.

NEOs receive a base salary that recognizes the value of executive talent within the retail marketplace, and these salaries generally increase annually based upon individual and Company performance. The Company also provides NEOs with an annual cash incentive opportunity designed to reward achievement of annual business objectives, which the Committee believes will translate into long-term shareholder value.

In 2006, the Company began granting annual equity incentive awards that allow NEOs the opportunity to accumulate long-term capital in the form of Company stock, which aligns NEOs with shareholder interests and encourages retention through five-year vesting schedules. The Committee's intent is to continue including annual equity incentive awards as an element of NEO compensation. In 2006, the Committee also instituted stock ownership requirements for equity incentive awards which provide that all long-term incentive (LTI) eligible associates, including NEOs, must maintain a multiple of their base salaries in Company stock before they can sell vested restricted stock.

The Company provides its NEOs with core benefits that are offered to all full-time salaried associates. NEOs do not have formal written employment or change of control agreements (see Executive Agreements and Potential Payments on Termination or Change of Control).

External Benchmarking for Named Executive Officers

In reviewing the NEOs' compensation structure, the Committee relies on multiple external benchmarking sources, including (1) a customized peer group of competitors and other retail companies within a reasonable revenue range, and (2) appropriate compensation survey data from the retail industry.

Peer Group

In 2007, the Committee used a peer group of fourteen women's apparel retailers for purposes of compensation benchmarking. These apparel retailers, consisting of primarily women's specialty retailers, were selected based on input from management and Hay Group, the Committee's outside compensation consultant, because it was determined that they were the most comparable to the Company based on several factors, including, for example, revenue, market capitalization, number of stores, number of employees and shareholders' equity. The members of the 2007 peer group were:

Aeropostale Inc.	Charming Shoppes Inc.	Pacific Sunwear of California Inc.
Ann Taylor Stores Corp.	Chicos Fas Inc.	Shoe Carnival Inc.
Buckle Inc.	Christopher & Banks Corp.	Stage Stores Inc.
Cache Inc.	Dress Barn Inc.	United Retail Group Inc.
Charlotte Russe Holding Inc.	Gymboree Corp.	

9

In 2008, the Committee added four companies to the peer group and removed two, thereby increasing the peer group to 16. Ann Taylor Stores Corp. was removed from the peer group to better align the median sales of the peer group with Cato's projected 2008 revenue. United Retail Group Inc. was removed after it was acquired during 2007. The members of the 2008 peer group are:

Aeropostale Inc.	Chicos Fas Inc.	Pacific Sunwear of California Inc.
Bebe Stores, Inc.	Christopher & Banks Corp.	Shoe Carnival Inc.
Buckle Inc.	Coldwater Creek Inc.	Stage Stores Inc.
Cache Inc.	Dress Barn Inc.	Wet Seal Inc.
Charlotte Russe Holding Inc.	Gymboree Corp.	
Charming Shoppes Inc.	New York & Company Inc.	

The four new companies — Bebe Stores Inc., Coldwater Creek Inc., New York & Company Inc., and Wet Seal Inc. — are all specialty retailers of women's fashion.

In 2009, the Committee did not make any changes to the peer group.

Competitive Positioning of Named Executive Officers

Target total direct compensation is defined as base salary plus target annual cash incentive opportunity plus target annual equity opportunity. The Committee's upper range of target total direct compensation acknowledges the absence of nonqualified retirement plans (either defined benefit or defined contribution) at Cato. For 2008, total direct compensation of NEOs was between the 50th and 75th percentiles of the appropriate market. In 2009, the Committee also established target total direct compensation of NEOs between the 50th and 75th percentiles of the appropriate market.

Unlike many other retail and non-retail companies that utilize full-value awards (e.g., restricted stock), Cato's LTI equity awards granted in 2006 and 2007 were performance-based and not guaranteed. The Committee did grant LTI awards that are not performance-based but do retain a time-based vesting component in order to enhance the long-term retention priority of LTI awards (see Long-Term Equity Incentives and Ownership Requirements) in 2008 and 2009, and expects to continue to do so in the future. The change from performance-based and time-based vesting to solely time-based vesting of LTI awards was designed to provide a better balance of performance and retention incentives in the NEOs overall compensation package.

Total direct compensation for any particular NEO may fall above or below the percentiles discussed above, depending upon the Company's financial performance and the NEO's individual performance, experience in the function and/or tenure with the Company. The CEO is compared to the industry peer group based on compatible title match, while the other NEOs are compared to retail survey matches based upon job content. The Committee believes annual equity awards allow it to employ a leveraged pay strategy for NEOs. The CEO's base salary in 2008 comprised approximately 39% of his target total direct compensation, while the other NEOs' base salaries ranged from 56% to 64% of their target total direct compensation. The CEO's base salary in 2009 will comprise approximately 30% of his target total direct compensation, while the other NEOs' base salaries will comprise approximately 50% of their target total direct compensation.

Annual Base Salary

The Committee believes that annual base salaries should be competitive within the retail industry for jobs of similar size and scope in order to attract and retain talented NEOs. Base salaries serve as the foundation for annual cash incentives (discussed below), which express incentive opportunity as a percentage of annual base salary. NEO base salary levels and potential increases are linked to individual performance. Furthermore, Company financial performance is a consideration when determining salary budgets, which determine annual salary increases for the NEOs and other members of management.

The Committee uses a formal job evaluation methodology to evaluate both the internal and external equity of the NEOs' base salary levels. Internal equity is considered in order to ensure that NEOs are compensated at an appropriate level relative to other members of executive management, while external equity is a measure of how NEO compensation compares to compensation for comparable jobs at similar companies. The Committee, with

the assistance of its outside consultant, intends to periodically review the Company's NEO positions to assess the relative size of each position, specifically evaluating scope of responsibilities, complexity of the role, and its impact on the success of the business. Once the jobs are valued independently, the next step is to compare them to determine relative relationships. The final step then relates the job evaluation data to market-based pay opportunities. In addition, the Company's retail peer group proxy data is reviewed annually as another method of evaluating the CEO's base salary competitiveness.

Based upon individual performance, in 2008 the NEOs received merit increases to their base salaries from 2007. The CEO received an increase of \$25,000, while merit increases for the other NEOs ranged from \$7,000 to \$12,500. Base salary represented 39% of the CEO's total compensation for 2008 (as reported in the Summary Compensation Table), and ranged from 56% to 64% for the four other NEOs.

Annual Cash Incentive Program

Pursuant to the Company's 2004 Amended and Restated Incentive Compensation Plan (the "Plan"), which allows for a variety of cash and equity-based incentive awards, the Company provides NEOs with annual cash incentive opportunities conditioned upon achievement of consolidated net income relative to a pre-established target. NEOs' annual cash incentives are determined based upon two factors: (1) the degree to which the overall Company's net income performance target is achieved, and (2) the NEO's individual performance. The Committee believes establishing annual consolidated net income targets focuses NEOs on achieving profitability through top-line revenue growth coupled with expense management.

NEOs have the opportunity to earn from 0% to a maximum percentage of their base salaries, with the CEO's 2008 maximum potential set at 150% and other NEOs set at 60% to 75%. However, NEOs may receive less than their maximum potential (as would normally be calculated solely based upon Company financial performance) if their individual performance does not meet objective goals and expectations during the fiscal year. The Committee believes these maximum bonus opportunities provide sufficient motivation for the NEOs to strive to increase consolidated net income.

For fiscal 2007, the Committee established a consolidated net income growth target of 8% (over 2006 results) whereby NEOs could earn their maximum annual cash incentive opportunity.^{1,3} The Company did not achieve the target and the level of net income growth the Company achieved for fiscal 2007 resulted in annual cash incentives of 0% of the maximum potential.

For fiscal 2008, the Committee established a consolidated net income growth target of 12.6% (over 2007 results) whereby NEOs could earn their maximum annual cash incentive opportunity.² The Company did not achieve the target, but 2008 net income was sufficient enough to result in annual cash incentives of 59.5% of the maximum potential.

For fiscal 2009, the Committee has established a consolidated net income target higher than actual fiscal 2008 net income as the performance metric for the cash incentive.

Long-Term Equity Incentives and Ownership Requirements

In early 2006, the Company engaged an outside compensation consultant to perform a competitive analysis of its executive compensation program. The compensation consultant found that the Company had made no broad-based LTI awards since 1999 except for infrequent individual awards associated with new hires and promotions. The absence of LTI awards between 2000 and 2005 meant that NEOs did not, through annual equity awards, fully participate in the stock price appreciation during this period (i.e., over 200% since the last broad-based award).³ This resulted in NEO total direct compensation below the median of comparable positions within the survey; in

¹ The 8% growth target for 2007 reflected that 2006 contained 53 weeks compared to 52 weeks in 2007.

² The Company historically has established net income annual growth targets of 10% per year.

³ Within the 2006 peer group, the Company's five-year annualized total shareholder return from 2001 through 2005 was between the median and 75th percentile.

some cases, it fell below the 25th percentile. However, the CEO was above the proxy peer group median total direct compensation value primarily due to the larger than normal performance-based annual incentive payout resulting from superior financial performance in 2005.

Based upon this analysis, the Committee reevaluated its LTI strategy and decided to initiate annual LTI equity awards in May 2006. The Committee decided to use restricted stock with both a performance-vesting requirement and a five-year time-based vesting requirement, with 33%, 33% and 34% of the grant vesting on the third, fourth and fifth anniversaries of the grant date, respectively. If an NEO terminates employment for any reason, the LTI award is forfeited to the extent it is not vested. Discretionary exceptions to forfeiture may be approved by the Committee (e.g., upon normal retirement).

To encourage management ownership of Company stock and thus further align their interests with the shareholders, the Committee also established stock ownership requirements for LTI awards (i.e., a recipient cannot sell vested restricted stock unless his/her ownership requirement is achieved and maintained). NEOs (as well as other LTI eligible associates) can satisfy these requirements through ownership of stock acquired with personal funds (including the exercise of stock options and stock held in the Employee Stock Purchase Plan) or by retaining vested restricted stock.

The Company's current restricted stock ownership requirements vary depending upon position. The CEO must hold Company stock with a fair market value equal to at least 600% of his then base salary and the other NEOs must hold Company stock with a fair market value equal to at least 300% of their then base salary. The single exception to this ownership requirement is that up to 45% of vested restricted stock may be sold to meet tax liabilities associated with vesting. In setting these ownership requirements, the Committee relied upon prevalent data from its outside compensation consultant's 2005 Executive Compensation Report of the general market. While the Committee chose to set the CEO's ownership requirement higher than what was most prevalent for the general market, the other NEOs' ownership requirements were established based upon the most prevalent multiples in the survey. The CEO already has achieved the ownership requirements.

LTI award targets in 2006 were expressed as a percent of base salary—140% for the CEO, and ranging from 50% to 70% for the remaining four NEOs. In 2007 and future years, LTI target opportunities for the NEOs were reduced by one-half. The reduction should lower the expense associated with full-value awards, reduce dilution, and conserve the share usage of the Plan.

Under the Plan, in the future the number of restricted shares granted to NEOs and other eligible associates will be determined using the rolling average 90-day price set within the 30 days prior to the Compensation Committee meeting where the broad-based annual LTI award is approved. This methodology smoothes fluctuations in stock price, which could otherwise significantly impact the share calculation. Individual performance, based upon input from the CEO and/or Compensation Committee, can adjust final award payouts up or down.

The Committee believes that LTI equity awards offer balance among the following goals of the Company's LTI strategy:

- Promote retention through the five-year vesting schedule and full-value nature of the equity award;

- Promote ownership and long-term capital accumulation with full-value stock awards;

- Incent financial performance to promote share price appreciation; and

- Facilitate improved market-competitive total direct compensation by adding an equity component to the NEO target total cash compensation.

In 2006, the Committee established a performance-contingent grant with a consolidated net income target that would determine the size (as a percent of salary) of the May 2007 LTI awards. Performance-contingent granting preserves the tax deductibility of the awards under Section 162(m) of the Internal Revenue Code and eliminates the potential need to reverse expenses that are associated with performance-based vesting in the event a non-market based performance goal is not achieved. The Committee established a 10% growth target of consolidated net income in 2006. For each 20% reduction in 2006 net income growth (relative to the 2006 goal), the 2007 LTI award would have been reduced by 20% of target opportunity. The Company did achieve its 2006 net income goal for the 2007 LTI awards.

The Committee established a 2007 net income goal at its March 2007 meeting of net income at or above an adjusted 2006 net income⁴ of \$48.4 million so that NEOs would be eligible for performance-based LTI awards in May 2008. The Committee established an 8% growth target of consolidated net income in 2007. For each 20% reduction in 2007 net income growth (relative to the 2007 goal), the May 2008 LTI award would have been reduced by 20% of target opportunity. However, the Company did not achieve its 2007 net income goal and no LTI awards were granted.

In order to preserve the priority of the retention component of the Company's LTI awards, the Committee decided that LTI awards of restricted stock for NEOs and non-NEOs granted in 2008 and going forward would be non-performance based but would be subject to the same five-year time-based vesting schedule as all previous grants. The Committee believes that relying on only time-based vesting (when coupled with the annual cash incentive) continues the financial performance incentive of increasing stock appreciation through higher net income, continues to promote ownership and long-term capital accumulation and enhances the long-term retention of key associates by increasing the value of shares subject to the time-based vesting requirements.

At its April 2008 meeting, the Committee granted LTI awards based on one-half of the LTI award targets to all NEOs and non-NEOs that are subject only to five-year time-based vesting and previously described ownership requirements.

The Committee again reviewed the structure of the LTI program at its March 2009 meeting and determined that LTI awards for Mr. Cato should be subject to a performance goal to tie all components of his incentive compensation to financial performance. The Committee established a target of 2009 consolidated net income of at least 50% of 2008 consolidated net income so that Mr. Cato would be eligible for performance-based LTI awards based on one-half of his LTI award target in May 2009. All dividends declared and payable on the stock award prior to certification that the performance goal has been met (certification will occur at the Committee's March 2010 meeting) are subject to forfeiture and will not be paid to Mr. Cato but instead be accrued and held by the Company until certification occurs. If the performance goal is met, the dividends shall be paid within 30 days after certification of the achievement of the performance goal. If the performance goal is not met, the dividends would be reversed and not paid.

The Committee also established a performance-contingent grant for Mr. Cato with a target of 2009 consolidated net income of at least 50% of 2008 consolidated net income for the May 2010 LTI awards based on one-half of his LTI award targets.

At its March 2009 meeting, the Committee also granted LTI awards based on one-half of the LTI award targets to NEOs besides Mr. Cato and non-NEOs that are subject only to five-year time-based vesting and previously described ownership requirements.

Stock option grants under the Plan cannot have exercise prices set at less than 100% of fair market value of the Company's stock on grant date. The Plan defines "fair market value" as the average of the high and low share price on the grant date. The grant date for all broad-based LTI awards occurs on a pre-established future date set by the Committee. However, within guidelines established by the Committee, the CEO may make LTI awards in the case of new hires and promotions not involving NEOs, and the Committee shall ratify such awards provided they are consistent with established guidelines.

Benefits and Perquisites

The Company provides NEOs with core benefits offered to its other full-time associates (e.g., medical, dental, vision care, prescription drugs, basic life insurance, short-term disability, long-term disability, 401(k), profit sharing, employee stock ownership plan, and employee stock purchase plan). In addition, NEOs and all salaried associates receive relocation assistance. Through 2006, NEOs and selected members of management were reimbursed for tax preparation fees. The Company does not provide any other perquisites, including, for example, country club

⁴ For LTI purposes, 2006 net income was adjusted for the impact of the 53rd week and several unusual one-time items in 2006.

memberships, airplane usage or car allowances, nor does it provide nonqualified deferred compensation benefits (e.g., supplemental executive retirement plans).

Edgar Filing: CATO CORP - Form DEF 14A

The Committee's overall benefits philosophy for NEOs focuses on providing basic core benefits, with NEOs using their own cash compensation to obtain such other services as they individually determine appropriate. Nonqualified retirement plans have not been established because the Committee believes NEOs have the opportunity to accumulate capital through annual equity awards.

Benefits and perquisites provided to the NEOs are summarized in the Summary Compensation Table. The CEO did not receive perquisites in 2008 with a total value equal to or greater than \$10,000.

Executive Agreements and Potential Payments on Termination or Change of Control

The Company does not have formal individual employment agreements with NEOs, and the Committee does not intend to commence this practice in 2009. No NEO has specific change of control benefits or protection different from any other salaried associate, except Mr. B. Allen Weinstein has severance benefits as outlined in his offer letter (*see* Potential Payments Upon Termination or Change in Control *below*). Change of control treatment for NEOs will follow standard Company policies as outlined in LTI award agreements and the Plan.

Tax and Accounting Implications

Section 162(m) of the Internal Revenue Code generally does not allow a tax deduction to public companies for compensation in excess of \$1 million paid to any NEO. Certain compensation is specifically exempt from the deduction limit to the extent that it does not exceed \$1 million during any fiscal year or is performance based as defined in Section 162(m). For 2008, approximately \$16,000 of compensation paid to Mr. John Cato was non-deductible under Section 162(m). The Committee included a performance-based vesting requirement in the 2007 LTI awards, which qualified the awards and the related dividend distributions as performance-based compensation under Section 162(m). The LTI awards made by the Committee at its 2008 meeting to all NEOs including Mr. Cato and 2009 meeting to all NEOs except Mr. Cato and the related dividend distributions do not qualify as performance-based compensation under Section 162(m). The Committee believes that this will have a minimal tax effect on the Company and is appropriate for the reasons provided above.

In addition to Section 162(m), the Committee, with the assistance of management, considered other tax and accounting provisions in developing the pay programs for our NEOs, including the CEO. These include the accounting treatment of various types of equity-based compensation under Statement of Financial Accounting Standard No.123(R), as well as the overall income tax rules applicable to various forms of compensation. Nevertheless, the focus in the design of the NEO compensation program was to retain and motivate NEOs, not to achieve tax or regulatory advantages.

Engagement and Use of Independent Compensation Consultants

The Compensation Committee's charter provides the Committee with the authority to engage compensation consultants (and other advisors) as it deems appropriate to assist with the performance of its duties.

The Committee has used Hay Group, a global human resource and compensation consulting firm, as an independent advisor concerning executive compensation since 2006 and intends to use an independent advisor periodically in the future. Additionally, with approval of the Committee, the consultant has interacted in the past directly with senior members of the executive team on job analysis, provision of market data, and program design. The consultant's primary contact with management is the Senior Vice President, Human Resources, who serves as the liaison with other members of management, as needed. Interaction with management occurs mainly to provide the consultant with Company data and better understanding of the Company's pay policies and practices, which will assist them with its consulting engagements. In 2008, no fees were paid to Hay Group for services other than compensation consulting.

Role of Executives in Establishing Compensation

Members of management are essential in providing input to the Compensation Committee throughout the year concerning the effectiveness of the executive compensation program, selection of performance criteria, financial

performance of the Company, and performance of individual executives. The Chief Executive Officer, Chief Financial Officer and Senior Vice President, Human Resources are the key members of management who advise the Committee and supply needed and accurate information. The Committee regularly invites them to attend Committee meetings, participate in the presentation of materials, and facilitate discussions concerning management's perceptions of the executive compensation programs and general views concerning a variety of compensation issues.

Edgar Filing: CATO CORP - Form DEF 14A

Additional senior members of management participate in meetings as requested by the Committee. However, the Committee makes final decisions concerning all aspects of NEO compensation, including the design, structure and levels of NEO compensation, including salary increases, performance measures and targets, variable pay targets as a percent of base salaries, determination of annual incentive bonus payouts based upon individual and Company performance, and determination of LTI awards.

Compensation Committee Report

The Compensation Committee of the Board of Directors of the Company has reviewed and discussed the Compensation Discussion and Analysis required by Item 402(b) of Regulation S-K with the management of the Company and, based on such review and discussion, the Compensation Committee recommended to the Board of Directors that the Compensation Discussion and Analysis be included in this Proxy Statement and, through incorporation by reference from this Proxy Statement, the Company's Annual Report on Form 10-K for the year ended January 31, 2009.
