Table of Contents**3. Consolidated Financial Forecast for the year ending March 31, 2009 (From April 1, 2008 to March 31, 2009)**

	Yen (millions)	
	For the year ending March 31, 2009	
		%
Net sales	303,000	(11.6)
Operating income	54,000	(19.4)
Income before income taxes	50,200	(23.7)
Net income	36,200	(21.4)
	Yen	
Net income per share	257.16	

Note: The consolidated financial forecast for the year ending March 31, 2009 has been revised.

For details, refer to [Qualitative Information and Financial Statements] section 3 Qualitative information on consolidated financial forecast on page 4.

The above forecast is based on the assumption of exchange rates of 95 yen to the U.S. dollar and 120 yen to the euro for the second half of the fiscal year.

The above forecast is also based on information as available at the present time, and includes potential risks and uncertainties. As a consequence of the factors above and other, actual results may vary from the forecast provided above.

4. Other

(1) Changes in important subsidiaries during the period (Changes in specific subsidiaries accompanied by changes in scope of consolidation): None

(2) Adoption of simplified accounting methods and accounting methods that are specific to the preparation of quarterly consolidated financial statements:

Note: Refer to [Qualitative Information and Financial Statements] section 4 Other on page 4.

(3) Changes in principles, procedures and disclosures of the accounting policies concerning quarterly consolidated financial statements preparation:

Note: Refer to [Qualitative Information and Financial Statements] section 4 Other on page 4.

(4) Number of shares outstanding (common stock)

1. Number of shares issued (including treasury stock):	As of September 30, 2008:	144,008,760
	As of March 31, 2008:	144,008,760
2. Number of treasury stock:	As of September 30, 2008:	3,241,663
	As of March 31, 2008:	235,135
3. Average number of shares outstanding:	As of September 30, 2008:	141,521,162
	As of September 30, 2007:	143,725,286

Explanation regarding proper use of business forecasts, and other significant matters

1. The consolidated financial forecast for the year ending March 31, 2009 has been revised. Regarding the assumptions for the forecasts and other matters, refer to [Qualitative Information and Financial Statements] section 3 Qualitative information on consolidated financial forecast on page 4.

The financial forecasts given above are based on information as available at the present time, and include potential risks and uncertainties. As a consequence of the factors above and other, actual results may vary from

the forecasts provided above.

2. Makita's basic policy on the distribution of profits is to maintain a consolidated dividend payout ratio of 30% or greater, with a lower limit on annual cash dividends of 18 yen per share. However, in the event special circumstances arise, computation of the amount of dividends will be based on consolidated net income after certain adjustments.

The Board of Directors plans to meet in April 2009 for a report on earnings for the year ending March 31, 2009. At the time, in accordance with the basic policy regarding profit distribution mentioned above, the Board of Directors plans to propose a dividend equivalent to at least 30% of net income. The Board of Directors will submit this proposal to the General Meeting of Shareholders scheduled for June 2009.

The consolidated dividend payout ratio is calculated as annual dividends per share divided by consolidated net income per share (after adjustments for special circumstances) and multiplied by 100.

2

Table of Contents**[Qualitative Information and Financial Statements]****1. Qualitative Information on Consolidated Operating Results**

For the six months (the period) ended September 30, 2008, the world s economy has been characterized by financial instability caused in part by the sub-prime loan problems in the United States and by a steep rise in raw material prices, those have spilled over into the global economy, and the business climate is rapidly decelerating.

What is more, the decrease in demand in the housing market is affecting Japan and the United States and also Western European countries, adding to the intensity of the market downturn.

In such conditions, the Makita Group has expanded our product lines through the development of power tools such as hammer drills that are equipped with the low-vibration mechanisms which have an established reputation in technology, rechargeable tools that utilize lithium-ion batteries, and gardening equipment outfitted with mini 4-cycle engines.

In production, we are moving forward with the expansion of the Romanian plant in Eastern Europe and construction of the second plant in Brazil in South America in order to reinforce global capacity and balance.

In sales, we are also improving and developing sales and after-service networks by establishing and operating local subsidiaries in India and Colombia.

In our consolidated financial results for the period, sales declined in the United States and Japan, but increased 3.6% over the same period of the previous year, to 175,558 million yen, because demand in emerging countries in Eastern Europe, Russia, Southeast Asia, Central and South America, and the Middle East remained strong.

For the period, sales have risen continuously to a new record for the fourth consecutive period and sales have increased for eight consecutive period.

In terms of earnings, operating income rose 6.3% compared to the same period of the previous year, to 36,047 million yen (ratio of operating income to net sales; 20.5%), income before income taxes amounted to 34,453 million yen, a 0.04% decline from the same period of the previous year (ratio of income before income taxes to net sales; 19.6%), and net income for the period amounted to 24,851 million yen (ratio of net income to net sales; 14.2%), up 5.3% from the same period of the previous year.

Net sales by geographic area were as follows:

In Japan, despite a recovery in the number of housing starts, the market environment continues to remain bleak, contributing to a decrease in sales to 24,378 million yen, down 5.0% from the same period of the previous year.

In Europe, although sales in Western Europe fell into a downward trend, sales in Eastern Europe and Russia continued to expand, marking a 5.4% increase over the same period of the previous year to 83,131 million yen.

In North America, sales via the home improvement channel remained steady in persistent stagnation in the U.S. housing market, thanks to having established a partnership with Home Depot U.S.A., Inc., the largest home improvement retailer in the United States, in March 2008. However, sales declined to 25,836 million yen, for a 10.7% decrease, due to a significantly weaker dollar versus the yen in foreign exchange markets for the same period of the previous year.

In Asia, sales remained robust at 13,163 million yen in Southeast Asia, a 19.4% increase over the same period of the previous year.

In other regions such as those in Central and South America which are growth countries with abundant resources, sales amounted to 10,579 million yen, a 30.1% increase compared to the same period of the previous year; while sales in the Middle East and Africa rose 15.2% to 9,964 million yen, and sales in Oceania climbed 2.8%, to 8,507 million yen.

As a result above, the foreign sales ratio in the period ended September 30, 2008, rose to 86.1%, up 1.2 points from 84.9% in the same period of the previous year.

2. Qualitative Information on Consolidated Financial Position

Compared to the end of the previous fiscal year, total assets at the end of this second quarter declined in value by 4,467 million yen to 382,000 million yen. The principal factor was because marketable securities were sold off, in order to acquire company s own stock.

Compared to the end of the previous fiscal year, liabilities declined in value by 4,363 million yen to 63,090 million yen. The key factor was a decrease in income taxes payable.

Compared to the end of the previous fiscal year, shareholders' equity increased in value by 21 million yen to 316,519 million yen.

English translation of KESSAN TANSHIN originally issued in Japanese language

Table of Contents**3. Qualitative Information on Consolidated Financial Forecast**

The forecast for the third quarter and for the fiscal year ending March 31, 2009 is based on the assumption that the financial instability caused by the sub-prime loan problem in the United States will stay not only in developed countries, but in the new emerging countries that have enjoyed steady growth, with the entire global economy is facing a period of contraction.

The forecast is assumed on basis of continuing rise of raw materials price and in a continued strengthening of the yen.

In the condition above, the previous forecast has been revised as follows.

Revised Forecast for consolidated performance during the fiscal 2009 (from April 1, 2008 to March 31, 2009)

	(Million yen)				Net income per share
	Net sales	Operating income	Income before income taxes	Net income	(yen)
Outlook announced previously (A)	343,000	64,000	63,000	42,000	292.13
Revised forecast (B)	303,000	54,000	50,200	36,200	257.16
Change (B-A)	(40,000)	(10,000)	(12,800)	(5,800)	
Percentage revision	(11.7)%	(15.6)%	(20.3)%	(13.8)%	
Actual results for the previous year ended March 31, 2008	342,577	67,031	65,771	46,043	320.30

The above forecast is based on the assumption of exchange rates of 95 yen to the U.S. dollar and 120 yen to the euro for the second half of the fiscal year.

The above forecast is based on information as available at the present time, and includes potential risks and uncertainties. As a consequence of the factors above and other, actual results may vary from the forecast provided above.

4. Other

- (1) Changes in important subsidiaries during the period (Changes in specific subsidiaries accompanied by changes in scope of consolidation): None
- (2) Adoption of simplified accounting methods and accounting methods that are specific to the preparation of quarterly consolidated financial statements:

With regard to the income tax expenses, the Company computes interim income tax expense (benefit) by multiplying reasonably estimated annual effective tax rate, which includes the effects of deferred taxes, by year-to-date income before income taxes for the reporting period.

- (3) Changes in principles, procedures and disclosures of the accounting policies concerning quarterly consolidated financial statements preparation:

Starting with this fiscal year, the Company has adopted the Fair Value Measurements pursuant to the Statement of Financial Accounting Standards No. 157. This Statement defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The adoption did not give rise to any material effect on the Company's consolidated financial position or results of operations.
