Management's Discussion and Analysis of Financial Condition and Results of Operations

Special Note on Forward-Looking Statements

Section 21E of the Securities Exchange Act of 1934, as amended, and Section 27A of the Securities Act of 1933, as amended, provide a safe harbor for certain forward-looking statements. This quarterly report contains statements that are forward-looking. Forward looking statements include those which are not historical facts, including without limitation statements about management's expectations for any period beyond the fiscal quarter ended September 30, 2002. Words such as "expect", "anticipate", "believe", "intend" and "estimate" and similar expressions are examples of words which identify forward looking statements. While these statements reflect the Company's beliefs as of the date of this report, they are subject to assumptions, uncertainties and risks that could cause actual results to differ materially and adversely from the results contemplated, forecast or estimated in the forward-looking statements included in this report. These factors include, but are not necessarily limited to, the impact of competitive products, the acceptance of new products or product lines in the marketplace, the Company's ability to manage growth, the availability of an adequate workforce and changes in market conditions.

Results of Operations. For the three month period ending September 30, 2002 as compared with the three month period ending September 30, 2001.

Product sales decreased \$46,649 or 1%. Please refer to the Trends section for a detailed explanation.

Gross profit increased \$64,495. As a percentage of sales gross profit increased from 33% to 35%. The cost of materials went down as a percentage of sales due to a slightly more profitable mix of products being sold in the third quarter of 2002.

Selling and marketing increased \$48,755. This can be attributed to a combination of modest increases in several areas, consisting of increased staffing, higher outside broker commissions, higher trade show expense and increased reserve for inside sales commissions.

Net income increased by \$912 or less than 1% as explained by the above activities. As a percentage of sales, net operating income, which excludes Interest, Other Income and Income taxes, increased from 7% to 8%.

Results of Operations. For the nine month period ending September 30, 2002 as compared with the nine month period ending September 30, 2001.

Product sales decreased \$991,984 or 10%. Please refer to the Trends section for a detailed explanation.

Gross profit decreased \$1,407,931. As a percentage of sales gross profit decreased from 43% to 34%. Although the three month period showed an increase in gross profit the decrease for the nine month period is as was stated in the June 30, 2002 10-QSB due to three major factors. First, second quarter sales were heavily concentrated in deep discount retailers that require low selling prices and more costly packaging. Secondly, revenues from Kmart Corporation have not increased much since its January bankruptcy; therefore, predetermined promotional costs have had a negative impact on gross profit. Additionally, as a way to remain competitive in the marketplace, the Company has provided value

Edgar Filing: ORALABS HOLDING CORP - Form 10QSB

added products for lip balm while maintaining prices to its mass retail customers.

General and administrative expenses decreased approximately \$325,431. The Board granted a bonus to the President of the Company in the amount of \$350,000 in the second quarter of year 2001, and no bonus was granted in the second quarter of year 2002.

Interest and Other Income decreased \$785,542. This was almost entirely due to the one-time transaction in the first quarter of 2001 in which the Company sold its entire minority interest in a company.

Net income decreased by \$1,195,258 or 74 % as explained by the above activities. As a percentage of sales net operating income, which excludes Interest, Other Income and Income taxes, decreased from 15% to 5%.

9

Liquidity and Capital Resources. Balance Sheet as of September 30, 2002 compared to December 31, 2001.

At September 30, 2002, the Company had \$2,683,298 of cash and its current ratio was approximately 5 to 1. The Company believes its current capital resources are sufficient to fund operations for the next twelve months.

The Company generated \$644,948 of cash flows from operating activities for the nine months ended September 30, 2002 versus \$525,545 for the nine months ended September 30, 2001. Also investment in property and equipment was significantly less with \$231,344 for the nine months ended September 30, 2002 versus \$525,690 for the nine months ended September 30, 2001.

Accounts receivable decreased \$272,056. Reduced sales and write downs of aged receivables significantly contributed to the decrease in accounts receivable.

Accounts payable decreased \$329,032. This is substantially due to the timing of invoices and payments to high volume vendors, which had the effect of the Company holding larger balances at the end of 2001 as compared to the end of third quarter 2002 on its Trade payables.

Accrued liabilities increased \$83,457. This can be substantially attributed to payroll earned in the third quarter to be paid in the fourth quarter of 2002.

Income taxes payable decreased \$78,047. This decrease reflects tax payments made in excess of tax liabilities.

Retained earnings increased \$428,936 as a result of net income.

Trends. Lip balm revenues declined to \$8,195,118 in the first nine months of 2002 as compared to \$8,590,073 in the first nine months of 2001, or a 5% decrease. The Company believes that updated packaging and anticipated expanded distribution to existing customers will help the Company keep pace with the approximately \$3,200,000 in lip balm revenues of fourth quarter 2001 and possibly result in growth in this category in the fourth quarter of year 2002. Additionally, the Company anticipates gross profit should increase in the fourth quarter as it did in the third quarter with cost reduction efficiencies related to expected higher volumes and a more profitable product mix.

Edgar Filing: ORALABS HOLDING CORP - Form 10QSB

Sales of sour drops and breath fresheners were \$1,852,210 in the first nine months of 2002 as compared to \$2,052,468 in the first nine months of 2001, or a 15% decrease. Although the percentage decrease was less than the 37% decrease applicable to the first two quarters of 2002 compared to the same period in 2001, this category remains difficult to predict. There continues to be a significant amount of competitive pressure in the sour and breath products category. The popularity of our established brands is being challenged, making it difficult for the Company to estimate revenues for the remainder of this year.

The nutritional supplements, on a relatively smaller scale, showed decline in revenue. Revenues were \$434,632 in the first nine months of 2002 as compared to \$821,336 in the first nine months of 2001, or a 47% decrease. Cheat & Lean(R) and 5-HTP continue to produce steady revenue. As stated in the June 30, 2002 10-QSB, "The other brands, Glucosamine + MSM, MSM, and Breast Plus(TM), have not produced significant revenue and the future of these brands is uncertain. As is the case with our sour drops and breath fresheners, with additional pressure from competitors it is difficult for the Company to estimate revenues for the remainder of this year."

Impact of Inflation. The Company's financial condition has not been affected by the modest inflation of the recent past. The Company believes that revenues will not be materially affected by inflation. The Company's lip care and oral care products are primarily very low retail price points and impulse items. The nutritional supplements are a small part (approximately 4%) of revenues and could be negatively impacted by inflation.

10

Item 3. Controls and Procedures

Evaluation of Disclosure Controls and Procedures. The Company's Chief Executive Officer and its Chief Financial Officer, after evaluating the effectiveness of the Company's disclosure controls and procedures (as defined in the Securities Exchange Act of 1934 Rules 13a-14(c) and 15d-14(c) as of a date within 90 days of the filing date of this quarterly report on Form 10-QSB (the "Evaluation Date")), have concluded that as of the Evaluation Date, the Company's disclosure controls and procedures were adequate and effective to ensure that material information relating to the Company and its consolidated subsidiaries would be made known to them by others within those entities, particularly during the period in which this quarterly report on Form 10-QSB was being prepared.

Changes in Internal Controls. There were no significant changes in the Company's internal controls or in other factors that could significantly affect the Company's disclosure controls and procedures subsequent to the Evaluation Date, nor any significant deficiencies or material weaknesses in such disclosure controls and procedures requiring corrective actions. As a result, no corrective actions were taken.
