UNITED STATES
SECURITIES AND EXCHANGE COMMISSION
Washington, D.C. 20549

FORM 10 - Q/A
(Amendment No. 1)

(Mark One)

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES
EXCHANGE ACT OF 1934
For the quarterly period ended June 30, 2003

OR

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES
EXCHANGE ACT OF 1934
For the transition period _____ to _____.

Commission File Number: 0-32615

Franklin Street Properties Corp.
(formerly known as Franklin Street Partners Limited Partnership)
(Exact name of registrant as specified in its charter)

Maryland
(State or other jurisdiction of
incorporation or organization)

04-3578653
(IRS Employer Identification Number)

401 Edgewater Place, Suite 200
Wakefield, MA 01880-6210
(Address of principal executive offices)

Registrant's telephone number: (781) 557-1300

Indicate by check mark whether the registrant: (1) has filed all reports
required to be filed by Section 13 or 15(d) of the Securities Exchange Act of
1934 during the preceding 12 months (or for such shorter period that the
registrant was required to file such reports), and (2) has been subject to such
filing requirements for the past ninety days.

YES NO

Indicate by check mark whether the registrant is an accelerated filer as defined
in Rule 12b-2 of the Securities Exchange Act of 1934, as amended.

YES NO

The number of shares of common stock outstanding as of August 10, 2003 was
49,630,338.

EXPLANATORY NOTE

The purpose of this Amendment No. 1 to the Form 10-Q for the quarterly period
ended June 30, 2003 is to amend Items 1 and 2 of Part 1, to correct transaction
fee income for the reasons set forth under the caption "Restatement" in Note 1
to the Notes to the Consolidated Financial Statements contained in Item 1 of
Part 1. The Company filed a 10-Q/A on May 6, 2004 for the quarterly period ended

Edgar Filing: FRANKLIN STREET PROPERTIES CORP /MA/ - Form 10-Q/A

March 31, 2003 to make a corresponding correction.

Notes to Consolidated Financial Statements
(Unaudited)

1. Organization, Properties, Basis of Presentation, and Recent Accounting Pronouncements

Organization

Franklin Street Properties Corp. (the "Company" or "FSP Corp.") was formed as a Massachusetts limited partnership (the "Partnership") on February 4, 1997. Through June 30, 2001 the Partnership owned a 99% interest in FSP Investments LLC ("FSP Investments") and a 99% interest in FSP Property Management LLC ("FSP Property Management"). Effective July 1, 2001, a wholly-owned subsidiary of the

Edgar Filing: FRANKLIN STREET PROPERTIES CORP /MA/ - Form 10-Q/A

Partnership purchased the remaining 1% ownership interest in FSP Investments and 1% ownership interest in FSP Property Management for an aggregate purchase price of approximately \$32,000.

In December 2001, the limited partners of the Partnership approved the conversion of the Partnership from a partnership into a corporation. The conversion was effective January 1, 2002, and was accomplished as a tax-free reorganization by merging the Partnership with and into a wholly owned subsidiary, Franklin Street Properties Corp., with the subsidiary as the surviving entity. In 2002, the Company elected to be taxed as a real estate investment trust ("REIT").

As a part of the conversion, all of the Partnership's outstanding units were converted on a one-for-one basis into 24,586,249 shares of common stock of the Company. The conversion was accounted for as a reorganization of affiliated entities, with assets and liabilities recorded at their historical costs.

On May 30, 2003, the shareholders of the Company approved the Company's acquisition by merger of 13 REITs (the "Target REITs"). The mergers were effective June 1, 2003 and, as a result, the Company issued approximately 25 million shares in a tax-free exchange for all the outstanding shares of the Target REITs. The mergers are being accounted for as a purchase and the acquired assets and liabilities are recorded at their fair value.

The Company operates in two business segments: rental operations and investment services. FSP Investments provides real estate investment and broker/dealer services. FSP Investments' services include: (i) the organization of REITs (the "Sponsored REITs") which are syndicated through private placements; (ii) the acquisition of real estate on behalf of the Sponsored REITs; and (iii) the sale in private placements of preferred stock in Sponsored REITs.

Restatement

In the first quarter of 2004, the Company determined that it had incorrectly applied an accounting principle regarding the recognition of transaction fee revenue related to loan fees charged to Sponsored REITs in cases in which a syndication had not been completed as of the end of a fiscal period. This error only affected results in the three months ended March 31, 2003 and the three months ended June 30, 2003. The Company is therefore restating its previously reported, unaudited consolidated financial statements for the three months ended June 30, 2003. As a result of the restatement, transaction fee income increased \$1,330,000 for the three months ended March 31, 2003 and decreased \$1,330,000 for the three months ended June 30, 2003. There was no effect on the six months ended June 30, 2003. The following table summarizes the impact to amounts previously reported for the three months ended June 30, 2003:

	Three months ended June 30, 2003		
	As Reported	Adjustments	As Amended
	(in thousands, except per share data)

Franklin Street Properties Corp.
Notes to Consolidated Financial Statements
(Unaudited)

1. Organization, Properties, Basis of Presentation, and Recent Accounting Pronouncements (continued)

Properties

The following table summarizes the Company's investment in real estate assets, excluding assets held for syndication:

	As of June 30,	
	2003	2002
	-----	-----
Residential real estate		
Number of properties	5	4
Number of apartments	996	642
Commercial real estate		
Number of properties	24	13
Square feet	3,049,357	1,433,200

Basis of Presentation

The unaudited consolidated financial statements of the Company include all the accounts of the Company and its wholly owned subsidiaries. All significant intercompany balances and transactions have been eliminated. These financial statements should be read in conjunction with the Company's financial statements and notes thereto contained in the Company's annual report on Form 10-K for its fiscal year ended December 31, 2002.

The accompanying interim financial statements are unaudited; however, the financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America for interim financial information and in conjunction with the rules and regulations of the Securities and Exchange Commission. Accordingly, they do not include all of the disclosures required by accounting principles generally accepted in the United States of America for complete financial statements. In the opinion of management, all adjustments (consisting solely of normal recurring matters) necessary for a fair presentation of the financial statements for these interim periods have been included. The results of operations for the interim periods presented in this quarterly report are not necessarily indicative of the results for other interim periods or for the full fiscal year.

Certain prior period balances have been reclassified in order to conform to the current-year presentation.

Edgar Filing: FRANKLIN STREET PROPERTIES CORP /MA/ - Form 10-Q/A

Recent Accounting Pronouncements

In January 2003, the FASB issued FASB Interpretation No. 46 ("FIN 46"), Consolidation of Variable Interest Entities. The objective of this interpretation is to provide guidance on how to identify a variable interest entity ("VIE") and determine when the assets, liabilities, noncontrolling interests, and results of operations of a VIE need to be included in a company's consolidated financial statements. A company that holds variable interests in an entity will need to consolidate the entity if the company's interest in the VIE is such that the company will absorb a majority of the VIE's expected losses and/or receive a majority of the entity's expected residual returns, if they occur. FIN 46 also requires additional disclosures by primary beneficiaries and other significant variable interest holders. The provisions of this interpretation became effective upon issuance. The Company believes the impact will not be material to its financial position, results of operations or cash flows.

2. Investment Services Activity

In March 2003, a Sponsored REIT, FSP Collins Crossing Corp. acquired one office building in Richardson, Texas. The Company sold on a best efforts basis, through private placements, approximately \$55.5 million in preferred stock in this Sponsored REIT, of which \$23.1 million and \$32.4 million in preferred stock was sold in the three months ending March 31, 2003 and June 30, 2003, respectively.

7

Franklin Street Properties Corp.
Notes to Consolidated Financial Statements
(Unaudited)

3. Related Party Transactions and Investments in Non-consolidated Entities

The Company typically retains a non-controlling common stock ownership interest in Sponsored REITs that it has organized. These ownership interests have virtually no economic benefit or risk. At June 30, 2003, December 31, 2002, and June 30, 2002 the Company had ownership interests in five, sixteen and fourteen Sponsored REITs, respectively. Neither the Company nor any other related entity has an obligation to acquire the non-owned interests in any Sponsored REIT.

Summarized financial information for the Sponsored REITs is as follows:

(unaudited)	June 30, 2003	December 31, 2002

=====				

The Company provided syndication and real estate acquisition advisory services for the Sponsored REITs in 2003 and 2002. For the three months ended June 30, 2003 and 2002, respectively, syndication fees were approximately \$2.2 million and \$4.0 million, and transaction fees were approximately \$2.2 million and \$3.9 million. For the six months ended June 30, 2003 and 2002, respectively, syndication fees were approximately \$5.4 million and \$5.7 million, and transaction fees were approximately \$5.4 million and \$5.3 million.

Franklin Street Properties Corp.
Notes to Consolidated Financial Statements
(Unaudited)

3. Related Party Transactions and Investments in Non-consolidated Entities
(continued)

Asset management fee income charged by the Company to the Sponsored REITs amounted to approximately \$146,000 and \$158,000 for the three months ended June 30, 2003 and 2002, respectively, and \$298,000 and \$217,000 for the six months ended June 30, 2003 and 2002, respectively, and is included in "Other revenue" in the Consolidated Statements of Income. Asset management fees range from 1% to 5% of collected rents and the applicable contracts are cancelable with 30 days' notice.

4. Bank note payable

Edgar Filing: FRANKLIN STREET PROPERTIES CORP /MA/ - Form 10-Q/A

On June 30, 2003, \$38.1 million was outstanding under the Company's \$50 million unsecured line of credit (the "Loan Agreement"). As a result of a delay until July 15, 2003 in closing on the purchase of a property for a Sponsored REIT, the proceeds of the loan are included in cash on the Company's balance sheet at June 30, 2003. Borrowings under the Loan Agreement bear interest at a rate of either the bank's base rate or a variable LIBOR rate, as defined, which was 4.25% per annum at June 30, 2003. There were no borrowings outstanding under the Loan Agreement at December 31, 2002. The Loan Agreement which originally matured on February 23, 2003, has been extended to August 23, 2003 with no other changes in terms and conditions.

5. Net Income Per Share

Basic net income per share is computed by dividing net income by the weighted average number of Company shares outstanding during the period. Diluted net income per share reflects the potential dilution that could occur if securities or other contracts to issue shares were exercised or converted into shares. There were no potential dilutive shares outstanding at or during the periods ended June 30, 2003 and 2002.

6. Business Segments

The Company operates in two business segments: rental operations and investment services (including real estate acquisition, financing and broker/dealer services). The Company has identified these segments because this discrete information is the basis upon which management makes decisions regarding resource allocation and performance assessment. The accounting policies of the reportable segments are the same as those described in the "Significant Accounting Policies" set forth in Note 2 to the Company's audited financial statements included in the Company's Annual Report on Form 10-K for the year ended December 31, 2002. The Company's segments are located in the United States of America.

The Company evaluates the performance of its reportable segments based on Cash Available for Distribution ("CAD") as management believes that CAD represents the most accurate measure of the reportable segment's activity and is the basis for distributions paid to equity holders. The Company defines CAD as: net income as computed in accordance with accounting principles generally accepted in the United States of America ("GAAP"); plus certain non-cash items included in the computation of net income (depreciation and amortization, certain non-cash compensation expenses, straight-line rent adjustments and gain or loss adjustments on the sale of real estate); plus investment services proceeds received from controlled partnerships; plus the net proceeds from the sale of surplus land; less purchases of property and equipment ("Capital Expenditures") and payments for deferred leasing commissions, plus proceeds from (payments to) cash reserves established at the acquisition date of the property. Depreciation and amortization, non-cash compensation, straight-line rents adjustments and the gain or loss adjustment on the sale of real estate are an adjustment to CAD as these are non-cash items included in net income. Proceeds from the sale of surplus land, Capital Expenditures, payments of deferred leasing commissions and the proceeds from (payments to) the funded reserve are an adjustment to CAD as they represent cash items not reflected in income. CAD should not be considered as an alternative to net income (determined in accordance with GAAP), as an indicator of the Company's financial performance, nor as an alternative to cash flows from operating activities (determined in accordance with GAAP), nor as a measure of the Company's liquidity, nor is it necessarily indicative of sufficient cash flow to fund all of the Company's needs. Other real estate companies may define CAD in a different manner. It is at the Company's discretion to retain a portion of CAD for operational needs.

The Company believes that in order to facilitate a clear understanding of the results of the Company, CAD should be examined in connection with net income and

Edgar Filing: FRANKLIN STREET PROPERTIES CORP /MA/ - Form 10-Q/A

cash flows from operating, investing and financing activities in the consolidated financial statements.

First Quarter of 2003	\$0.31	\$ 7,635
Second Quarter of 2003	\$0.31	7,636

		\$ 15,271
		=====

8. Income Taxes

The Company has elected to be taxed as a REIT under the Internal Revenue Code of 1986, as amended (the "Code"). As a REIT, the Company generally is entitled to a tax deduction for dividends paid to its shareholders, thereby effectively subjecting the distributed net income of the Company to taxation at the shareholder level only. The Company must comply with a variety of restrictions to maintain its status as a REIT. These restrictions include the type of income it can earn, the type of assets it can hold, the number of shareholders it can have and the concentration of their ownership, and the amount of the Company's income that must be distributed annually.

One such restriction is that the Company generally cannot own more than 10% of the voting power or value of the securities of any one issuer unless the issuer is itself a REIT or a "taxable REIT subsidiary" ("TRS"). In the case of TRSs, the Company's ownership of securities in all TRSs generally cannot exceed 20% of the value of all of the Company's assets and, when considered together with other non-real estate assets, cannot exceed 25% of the value of all of the Company's assets. Effective January 1, 2001, a subsidiary of the Company has elected to be treated as a TRS. As a result, it will be required to pay taxes on its net income like any other taxable corporation.

Income taxes are recorded based on the future tax effects of the difference between the tax and financial reporting bases of the Company's assets and liabilities. In estimating future tax consequences, potential future events are considered except for potential changes in income tax law or in rates.

Edgar Filing: FRANKLIN STREET PROPERTIES CORP /MA/ - Form 10-Q/A

Notes to Consolidated Financial Statements (Unaudited)

8. Income Taxes (continued)

The income tax expense reflected in the consolidated statement of income relates only to the taxable REIT subsidiary. The expense differs from the amounts computed by applying the Federal statutory rate of 35% to income before income taxes as follows:

(in thousands)	For the Six Months Ended June 30, 2003 -----	For the Six Months Ended June 30, 2002 -----
Federal income tax expense at statutory rate	\$ 362	\$ 282
Increase in taxes resulting from:		
State income taxes, net of federal impact	63	48
Other	--	(129)
	\$ 425	\$ 201
	\$ 425	\$ 201

Other consists primarily of the tax benefit on cash bonuses accrued in 2001 but paid in 2002. Due to the conversion from a partnership into a corporation the bonus is treated as a permanent tax difference.

No deferred income taxes were provided as there were no temporary differences between the financial reporting basis and the tax basis of the taxable REIT subsidiary.

9. Acquisitions

On June 1, 2003, the Company issued approximately 25 million shares of common stock, \$0.0001 par value per share in exchange for a 100% interest in the preferred stock of 13 Target REITs it acquired by merger. The results of operations for each of the Target REITs have been included in the Company's consolidated financial statements since that date.

The aggregate purchase price was approximately \$321.2 million. The value was determined based upon the fair value of the assets acquired. The following table summarizes the estimated fair value of the assets acquired at the date of acquisition:

	Value of Assets Acquired	
	(in thousands)	
Real estate assets	\$	298,831
Value of acquired real estate leases		9,277
Cash		23,524
Other assets		1,120
Liabilities assumed		(11,580)
Total	\$	321,172

10. Subsequent Events

The Company declared a dividend of \$0.10 per share on July 25, 2003 to shareholders of record as of July 25, 2003.

The Company had previously, on May 30, 2003, declared a dividend of \$0.21 per share to shareholders of record as of May 30, 2003.

Both of the above dividends were paid on July 29, 2003.

The following discussion should be read in conjunction with the financial statements and notes thereto appearing elsewhere in this report and in the Company's Annual Report on Form 10-K for the year ended December 31, 2002. Historical results and percentage relationships set forth in the Consolidated Statements of Operations contained in the financial statements, including trends which might appear, should not be taken as necessarily indicative of future operations. This discussion may also contain forward-looking statements within the meaning of Section 21E of the Securities Exchange Act of 1934, as amended, and Section 27A of the Securities Act of 1933, as amended. For purposes of these Acts, any statement that is not a statement of historical fact may be deemed a forward-looking statement. The forward-looking statements found in this Quarterly Report on Form 10-Q are based on current judgments and current knowledge of management, which are subject to certain risks, trends and uncertainties that could cause actual results to differ materially from those indicated in such forward-looking statements. Accordingly, readers are cautioned not to place undue reliance on forward-looking statements. Investors are cautioned that the Company's forward-looking statements involve risks and uncertainty, including without limitation, changes in economic conditions in the markets in which the Company owns properties, changes in the demand by investors for investment in Sponsored REITS, risks of a lessening of demand for the types of real estate owned by the Company, changes in government regulations, and expenditures that cannot be anticipated such as utility rate and usage increases, unanticipated repairs, additional staffing, insurance increases and real estate tax valuation reassessments. See the factors set forth below under the caption, "Certain factors that may affect future results". Although we believe the expectations reflected in the forward-looking statements are reasonable, we cannot guarantee future results, levels of activity, performance or achievements. We will not update any of the forward-looking statements after the date this quarterly report is filed to conform them to actual results or to changes in our expectations that occur after such date, other than as required by law.

Critical Accounting Policies

Basis of Presentation

The consolidated financial statements of the Company include the accounts of the Company and wholly and majority-owned subsidiaries. All significant intercompany accounts and transactions have been eliminated in consolidation.

Real Estate Investments

Real estate assets are stated at the lower of depreciated cost or fair value. The cost of each investment in real estate includes the purchase price of property, legal fees and other direct acquisition costs. Typical capital improvements include new roofs, site improvements, various exterior building improvements and major renovations. Funding for capital improvements typically is provided by cash reserves.

The acquisition cost of each investment in real estate is allocated between the value of leases acquired with the property and the real property components, such as land, buildings and improvements. Acquisition cost allocations are based upon management's estimates and are typically guided by information received by independent real estate appraisal firms. Inappropriate allocation of acquisition costs could result in depreciation and amortization expenses that do not appropriately reflect the allocation of capital expenditures over future periods.

The Company periodically reviews its properties to determine if the carrying amounts will be recovered from future operating cash flows. The evaluation of anticipated cash flows is highly subjective and is based in part on assumptions

regarding future occupancy, rental rates and capital requirements that could differ materially from actual results in future periods. Since cash flows on properties considered to be "long-lived assets to be held and used" as defined by FAS 144 are considered on an undiscounted basis to determine whether an asset has been impaired, the Company's established strategy of holding properties over the long term decreases the likelihood of recording an impairment loss. If the Company's strategy changes or market conditions otherwise dictate an earlier sale or disposal date, an impairment loss may be recognized. If the Company determines that impairment has occurred, the affected assets must be reduced to their fair value. No such impairment losses have been recognized to date.

The Company classifies a property as "held for sale" upon the execution of a purchase and sale agreement provided that there are no significant contingencies to the sale and management believes that the sale or disposition is probable within one year. The Company reports the results of operations of its properties classified as discontinued operations in its statements of income if no significant continuing involvement exists after the sale or disposition.

The Company typically retains a common stock ownership in a Sponsored REIT following a syndication, and earns an ongoing asset and/or property management fee; accordingly, transaction fee revenue and the results of operations are not classified as discontinued operations due to the Company's continuing involvement.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations (continued)

Revenue Recognition

Rental revenue is reported on a straight-line basis over the terms of the respective leases. Straight-line rent represents rental income earned in excess of rent payments received pursuant to the terms of the individual lease agreements.

The Company maintains an allowance against straight-line rent for future potential tenant credit losses. The credit assessment is based on the estimated straight-line rental income that is recoverable over the term of the lease. The computation of this allowance is based on the tenants' payment history and current credit status. If the Company's estimates of collectibility differ from the cash received, the timing and amount of its reported revenue would likely be impacted.

Investment banking services revenue (Syndication and Transaction fees) from the syndication of Sponsored REITs is recognized pursuant to the provisions of Statement of Financial Standards No. 66 "Accounting for Sales of Real Estate", and Statement of Position 92-1 "Accounting for Real Estate Syndication Income". Revenue is recognized provided the criteria for sale accounting in SFAS 66 are met.

Depreciation and amortization expense

The Company computes depreciation on its properties using the straight-line method based on an estimated useful life of 27.5 years for residential property and 39 years for non-residential property. The Company computes depreciation on building improvements on an estimated useful life of 15 to 39 years, and on furniture and fixtures on an estimated useful life of 5-7 years. The Company computes amortization expense on the value of leases acquired and deferred leasing costs based upon the remaining life of the related lease. The

Edgar Filing: FRANKLIN STREET PROPERTIES CORP /MA/ - Form 10-Q/A

determination of the asset's useful life are based on management's estimates.

Repairs and maintenance expenses

Routine replacements and ordinary maintenance and repairs are expensed as incurred. Typical expense items include residential interior painting, landscaping, minor carpet replacements and residential appliances. The determination to expense an item rather than to capitalize and subsequently depreciate the item is based upon management's judgment of whether the repair extends the useful life of the asset. Funding for routine replacements, repairs and maintenance items are typically provided by cash flows from operating activities.

Trends and Uncertainties

Rental Operations

Primarily due to the Company's acquisition of 13 REITs, average leased rate increased from 88% for the three months ended March 31, 2003 to 92% for the three months ended June 30, 2003. The Company does not anticipate a meaningful increase in rents or leasing activity in the Company's markets until there is new job growth in the economy. Because the Company's properties are diversified by property type and by geography, the impact of national and global trends is different for each of the properties and is difficult to predict.

There were no major lease expirations, terminations or new leases during the three months ended June 30, 2003 except at Blue Ravine in Folsom, California, where the sole lease terminated on June 30, 2003 and the building remains vacant. The Bollman property in Savage, Maryland, which was vacant throughout the second quarter, was leased in July and is now 100% leased to Maines Paper & Food Service, Inc.

Home Gold, a tenant occupying approximately 12% of the space in Piedmont Center in Greenville, South Carolina, filed for bankruptcy protection under Chapter 11 on April 7, 2003. Rent through and including April 2003 has been paid. No rent has been received for May 2003 through July 2003 and Home Gold has vacated the premises.

Investment Services

Unlike the Company's real estate business, which provides a rental revenue stream which is ongoing and recurring in nature, the Company's investment banking business is transactional in nature.

During the first half of 2003, the Company's acquisition executives continued to report large spreads between bid and ask prices for properties. Differing views of the strength and timing of a national economic recovery as well as low interest rate carrying costs on debt-financed properties are contributing to this situation. Without the ability to acquire properties at attractive prices on behalf of the Sponsored REITs, the Company's investment banking activities may suffer.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations (continued)

Trends and Uncertainties (continued)

Investment Services (continued)

Edgar Filing: FRANKLIN STREET PROPERTIES CORP /MA/ - Form 10-Q/A

The Company relies solely on its in-house investment executives to access interested investors who have capital they can afford to place in an illiquid investment in real estate for an indefinite period of time. Setbacks in the stock market or the general economy could have negative effects. Although terrorist activity has not significantly affected the Company's transactional business, further terrorist attacks, if they occur, may have a chilling effect on the willingness of investors to purchase interests in future Sponsored REITs.

The following table summarizes property wholly owned by the Company, excluding discontinued operations and real estate assets held for syndication as of the dates indicated:

	As of June 30,	
	2003	2002
	-----	-----
Residential real estate		
Number of properties	5	4
Number of apartments	996	642

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations (continued)

Comparison of the three months ended June 30, 2003 to the three months ended June 30, 2002:

The Company completed the syndication of one Sponsored REIT with total gross proceeds of \$55.5 million in the three months ended June 30, 2003, a decrease of \$5.1 million compared to total gross proceeds of \$60.6 million in the comparable period in 2002 from the syndication of two Sponsored REITs. Of the \$55.5 million, \$32.4 million was syndicated in the three months ended June 30, 2003 and \$23.1million was syndicated in the three months ended March 31, 2003.

On June 1, 2003 the Company completed the acquisition by merger of 13 Sponsored REITs. The results of operations for these 13 properties are included in the results for the period for one month. The Company operated 17 properties for the three months ended June 30, 2002 and for two months of the three month period ended June 30, 2003. The results of operations for one property that was sold in 2003 have been classified as discontinued operations for both periods.

Revenue

Total revenues increased \$0.4 million, or 2.8%, to \$15.0 million for the three

Edgar Filing: FRANKLIN STREET PROPERTIES CORP /MA/ - Form 10-Q/A

months ended June 30, 2003, as compared to \$14.6 million for the comparable period in 2002.

Income from rental operations was \$12.5 million for the three months ended June 30, 2003, an increase of \$2.3 million, or 22%, compared to the three months ended June 30, 2002. The increase is attributable to:

- o Rental revenue of \$3.9 million for the 13 properties acquired by the Company in June, 2003;
- o Routine rent increases of \$0.8 million in the aggregate; and
- o Sponsored REIT income of \$0.5 million as a result of the Company is owning a percentage of a Sponsored REIT for a greater period of time in 2003 than the comparable period of 2002.

These increases were offset by:

- o A decrease in rents of \$0.2 million due to a vacancy in 2003;
- o An adjustment for straight-line rent revenue of \$1.2 million, relating to new or renewed leases since June 30, 2002; and
- o A decrease in transaction fees of \$1.6 million relating to the decrease in the gross proceeds from the syndication of sponsored REITs as discussed above.

Investment banking services revenue was \$2.5 million for the three months ended June 30, 2003, a decrease of \$1.8 million, or 72%, compared to the three months ended June 30, 2002. This decrease is attributable to the decrease in gross proceeds from the syndication of Sponsored REITs as discussed above.

Expenses

Total expenses were \$8.1 million for the three months ended June 30, 2003, an increase of \$1.0 million, or 15%, compared to the three months ended June 30, 2002.

Expenses for rental operations were \$6.1 million for the three months ended June 30, 2003, a net increase of \$2.2 million, or 57%, compared to the three months ended June 30, 2002. The increase is attributable to:

- o Rental expenses of \$1.5 million for the 13 properties acquired by the Company in June, 2003;
- o An increase in real estate taxes and insurance of \$0.4 million, as a result of tax rate increases on the existing properties and increases in the price of obtaining insurance; and
- o An increase of \$0.3 million of Sponsored REIT expenses and as a result of the Company owning a percentage of a Sponsored REIT in 2003 for a greater period of time in 2003 than the comparable period in 2002.

Expenses for investment banking services were \$2.0 million for the three months ended June 30, 2003, a net decrease of \$1.2 million, or 36%, compared to the three months ended June 30, 2002. The decrease is primarily attributable to a decrease in commission expenses relating to the decrease in syndication fees discussed above.

Interest income and taxes on income for the three month period ended June 30, 2003 were consistent with the comparable period of 2002.

Edgar Filing: FRANKLIN STREET PROPERTIES CORP /MA/ - Form 10-Q/A

of Operations (continued)

Comparison of the six months ended June 30, 2003 to the six months ended June 30, 2002:

The Company completed the syndication of two Sponsored REITs with total gross proceeds of \$85.3 million in the six months ended June 30, 2003 a decrease of \$0.3 million compared to total gross proceeds of \$85.6 million in the comparable period in 2002 from the syndication of two Sponsored REITs.

On June 1, 2003 the Company completed the acquisition by merger of 13 Sponsored REITs. The results of operations for these 13 properties are included in the results for the period for one month. The Company operated 17 properties for the six months ended June 30, 2002 and for three months of the six month period ended June 30, 2003. The results of operations for one property that was sold in 2003 have been classified as discontinued operations for both periods.

Revenue

Total revenue increased \$3.7 million, or 15%, to \$28.0 million for the six months ended June 30, 2003, as compared to \$24.3 million for the comparable period in 2002.

Income from rental operations was \$22.1 million for the six months ended June 30, 2003, an increase of \$3.9 million, or 21%, compared to the six months ended June 30, 2002. The increase is attributable to:

- o Rental revenue of \$3.9 million for the 13 properties acquired by the Company in June, 2003.
- o An increase in Sponsored REIT income of \$0.9 million as a result of the Company is owning a percentage of a Sponsored REIT for a greater period of time in 2003 than the comparable period in 2002; and
- o An increase in other income of \$0.3 million primarily representing interest related to loans to the Sponsored REITs that were outstanding for a longer period of time in 2003 than the comparable period of 2002.

These increases were offset by:

- o A decrease in rents of \$0.3 million due to a vacancy in 2003; and
- o A net decrease in rental revenue of \$0.8 million comprised of an increase in rental revenue of \$0.8 million offset by a decrease in straight-line rent revenue of \$1.6 million, relating to new or renewed leases since June 30, 2002.

Investment banking services revenue was \$5.9 million for the six months ended June 30, 2003; a decrease of \$0.2 million, or 72%, compared to the six months ended June 30, 2002. This decrease is attributable to the decrease in gross syndication proceeds as discussed above.

Expenses

Total expenses were \$15.1 million for the six months ended June 30, 2003, an increase of \$2.2 million, or 17%, compared to the six months ended June 30, 2002.

Expenses for rental operations were \$10.1 million for the six months ended June 30, 2003, a net increase of \$2.7 million, or 36%, compared to the six months ended June 30, 2002. The increase is attributable to:

- o Rental expenses of \$1.5 million for the 13 properties acquired by the Company in June, 2003;

Edgar Filing: FRANKLIN STREET PROPERTIES CORP /MA/ - Form 10-Q/A

- o An increase in rental operating expenses of \$0.2 million is primarily attributable to a miscellaneous increase in maintenance costs over the comparable period in 2002;
- o An increase in real estate taxes and insurance of \$0.1 million, as a result of tax rate increases on the existing properties and increases in the price of obtaining insurance;
- o An increase of \$0.6 million of Sponsored REIT expenses as a result of the Company is owning a percentage of a Sponsored REIT in 2003 for a greater period of time in 2003 than the comparable period in 2002; and
- o An increase in interest expense of \$0.2 million for loans related to the to the Sponsored REITs that were outstanding for a longer period of time in 2003 than the comparable period in 2002.

21

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations (continued)

Expenses (continued)

Expenses for investment banking services were \$5.0 million for the six months ended June 30, 2003, a decrease of \$0.4 million, or 31%, compared to the six months ended June 30, 2002. The decrease is primarily attributable to a decrease in commission expenses relating to the decrease in syndication fees discussed above and overall cost management.

Interest income for the six-month period ended June 30, 2003 was consistent with the comparable period of 2002.

Taxes on income were \$0.4 million for the six months ended June 30, 2003, an increase of \$0.2 million compared to the six months ended June 30, 2002. The taxes for 2002 on the taxable REIT subsidiary included certain benefits that will not occur in the future. The Company expects a tax rate of approximately 41% for the taxable REIT subsidiary for 2003.

Liquidity and Capital Resources

Cash and cash equivalents were \$89.3 million and \$22.3 million at June 30, 2003 and December 31, 2002, respectively. This increase of \$67.0 million is attributable to \$15.2 million provided by operating activities; \$28.9 million provided by investing activities; and \$22.9 million provided by financing activities.

Operating Activities

The cash provided by the Company's operating activities of \$15.2 million is primarily attributable to net income of \$14.1 million plus the add-back of \$1.0 million from non-cash activity plus a \$0.3 million net change in operating assets and liabilities, less payments for deferred leasing costs of \$0.1 million.

Investing Activities

The Company's cash provided by investing activities of \$28.9 million is attributable to \$23.5 million in cash acquired as a result of the issuance of stock in the merger transaction, \$6.2 million proceeds from the sale of assets and \$0.8 million for a return of a deposit on real estate investments offset by \$1.7 million used for the purchase of real estate assets (including \$1.0 million of capitalized merger costs), office computers and furniture.

Financing Activities

The Company's cash provided by financing activities of \$22.9 million is attributable to \$38.1 million proceeds from a loan, offset by \$15.3 million distributions to the Company's shareholders as dividends.

Sources and Uses of Funds

Our principal demands for liquidity are cash for operations, dividends to equity holders, debt repayments and expenses associated with indebtedness. As of June 30, 2003 we had approximately \$59 million in liabilities. The Company has no permanent, long-term debt. In the near term, liquidity is generated from funds from ongoing real estate operations and transaction fees and commissions received in connection with the sale of shares in new Sponsored REITs.

The Company maintains an unsecured line of credit through Citizens Bank. The Company has entered into a Master Promissory Note and Loan Agreement ("loan agreement"), which provides for a revolving line of credit of up to \$50 million. The loan agreement originally expired February 23, 2003, but has been extended to August 23, 2003 with no changes in terms and conditions. The Company intends to renew the loan agreement prior to expiration. Borrowings under the loan bear interest at either the bank's base rate or a variable LIBOR rate. The Company typically uses the unsecured line of credit to provide each newly formed Sponsored REIT with the funds to purchase a property. The Company's loan agreement with the bank includes customary restrictions on property liens and requires compliance with various financial covenants. Financial covenants include maintaining minimum cash balances in operating accounts, tangible net worth of at least \$140 million and compliance with other various debt and income ratios. The Company was in compliance with all covenants as of June 30, 2003. The Company had \$38.1 million of borrowings under its revolving credit facility as of June 30, 2003.

Contingencies

The Company is subject to various legal proceedings and claims which arise in the ordinary course of its business. Although occasional adverse decisions (or settlements) may occur, the Company believes that the final disposition of such matters will not have a material adverse effect on the financial position or results of operations of the Company.

22

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations (continued)

Related Party Transactions

During the second quarter of 2003, the Company organized one Sponsored REIT and retained a non-controlling common stock interest in this Sponsored REIT with virtually no economic benefit. The Company did not enter into any other significant transactions with related parties during the quarter ended June 30, 2003. For a discussion of transactions between the Company and related parties during 2002, see "Related Party Transactions" under Item 7 - Management's Discussion and Analysis of Financial Condition and Results of Operations - of the Company's Annual Report on Form 10-K for the year ended December 31, 2002.

Economic Conditions

The Company generally pays the ordinary annual operating expenses of its

Edgar Filing: FRANKLIN STREET PROPERTIES CORP /MA/ - Form 10-Q/A

properties from the rental revenue generated by the properties. For the six months ended June 30, 2003, with the exception of the Bollman property in Savage, Maryland, which was vacant for the six months ended June 30, 2003, the rental income exceeded the expenses for each of the Company's real properties. The Company expects that Bollman will produce sufficient revenue to cover its expenses during the third and fourth quarters of 2003. In addition to rental income, the Company maintains cash reserves that may be used to fund unusual expenses or major capital improvements. The cash reserves included in cash and cash equivalents, which as of June 30, 2003 were approximately \$15 million, are in excess of the known needs for extraordinary expenses or capital improvements for the real properties within the next few years. There are no external restrictions on these reserves, and they may be used for any Company purpose.

Although there is no guarantee that we will be able to obtain the funds necessary for our future growth, we anticipate generating funds from continuing real estate operations and from fees and commissions from the sale of shares in newly-formed Sponsored REITs. The Company believes that it has adequate funds to cover unusual expenses and capital improvements, in addition to normal operating expenses. The Company's ability to maintain or increase its level of dividends to stockholders, however, depends upon the level of interest on the part of investors in purchasing shares of Sponsored REITs and the level of rental income from the Company's real properties.

CERTAIN FACTORS THAT MAY AFFECT FUTURE RESULTS

The following important factors, among others, could cause actual results to differ materially from those indicated by forward-looking statements made in this Quarterly Report on Form 10-Q and presented elsewhere by management from time to time.

As a result of its acquisition of 13 REITs, FSP Corp. may no longer qualify as a REIT.

As a result of the combination of FSP Corp. with the 13 REITs it acquired by merger in June 2003, FSP Corp. might no longer qualify as a real estate investment trust under Section 856 of the Internal Revenue Code of 1986, as amended. FSP Corp. could lose its ability to so qualify for a variety of reasons relating to the nature of the assets acquired from the acquired REITs, the identity of the shareholders of the acquired REITs who become shareholders of FSP Corp. or the failure of one or more of the acquired REITs to have previously qualified as a real estate investment trust.

FSP Corp. would incur adverse tax consequences if it failed to qualify as a REIT.

If in any taxable year FSP Corp. does not qualify as a real estate investment trust, it would be taxed as a corporation and distributions to its stockholders would not be deductible by FSP Corp. in computing its taxable income. In addition, if FSP Corp. were to fail to qualify as a real estate investment trust, FSP Corp. could be disqualified from treatment as a real estate investment trust in the year in which such failure occurred and for the next four taxable years and, consequently, would be taxed as a corporation during such years. Failure to qualify for even one taxable year could result in a significant reduction of FSP Corp.'s cash available for distributions to its stockholders or could require FSP Corp. to incur indebtedness or liquidate investments in order to generate sufficient funds to pay the resulting federal income tax liabilities. In addition, timing differences between the receipt of income and payment of expenses and the inclusion and deduction of such amounts in arriving at taxable income of FSP Corp. could make it necessary for FSP Corp. to borrow in order to make certain distributions to its stockholders in satisfaction of the 90% distribution requirement applicable to real estate investment trusts. The provisions of the Internal Revenue Code governing the

Edgar Filing: FRANKLIN STREET PROPERTIES CORP /MA/ - Form 10-Q/A

taxation of real estate investment trusts are very technical and complex, and although FSP Corp. expects that it will be organized and will operate in a manner that will enable it to meet such requirements, no assurance can be given that it will succeed in doing so during the entire life of FSP Corp. In addition, you should note that if one or more of the acquired REITs did not qualify as a real estate investment trust immediately prior to the consummation of the mergers, FSP Corp. would be disqualified as a REIT as a result of the mergers.

23

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations (continued)

The anticipated benefits of FSP Corp.'s acquisition of the 13 REITs may not be realized and FSP Corp.'s operating results may be adversely affected.

FSP Corp. acquired the 13 REITs in June 2003 with the expectation that the mergers would result in benefits, including:

- o FSP Corp.'s real estate portfolio would be substantially larger and more diverse both geographically and by tenant business than prior to the consummation of the mergers, reducing the dependence of an investment in FSP Corp. on the performance of a smaller group of assets.
- o FSP Corp.'s business would generate a greater percentage of its revenues from rentals from real properties and a lesser percentage from real estate investment banking/brokerage activities, constituting a more stable income stream than that received by FSP Corp. prior to the consummation of the mergers.
- o FSP Corp.'s larger portfolio of real estate would produce economies of scale, increase its purchasing power relating to goods and services and reduce the percentage that expenses constitute of gross revenue.
- o FSP Corp.'s increased asset base would give it the flexibility to increase its \$50,000,000 line of credit, enabling FSP Corp. to finance the acquisition of real property for itself or to provide larger loans to Sponsored REITs to finance their acquisition of real property.
- o FSP Corp.'s larger portfolio of real properties and larger equity capitalization might increase the likelihood that FSP Corp. may eventually be able to provide liquidity for its equity investors through the public markets.

Achieving the benefits of the mergers will depend in part on the sustainability of long-term tenants in the real properties owned by FSP Corp. and the ability of FSP Corp.'s key personnel to effectively manage the additional 13 properties. If the occupancy levels and creditworthiness of tenants are not maintained, FSP Corp. will not achieve the intended benefits of the mergers and the operating results of FSP Corp. may be adversely affected.

If FSP Corp. is not able to collect sufficient rents from each of its owned real properties, FSP Corp. may suffer significant operating losses.

A substantial portion of FSP Corp.'s revenues will be generated by the rental income of its real properties. If the additional properties acquired by FSP

Edgar Filing: FRANKLIN STREET PROPERTIES CORP /MA/ - Form 10-Q/A

Corp. in the mergers or the properties owned by FSP Corp. prior to the consummation of the mergers do not provide FSP Corp. a steady rental income, FSP Corp.'s revenues will decrease and may cause FSP Corp. to incur operating losses in the future.

The mergers may affect the level of dividends received by FSP Corp.'s stockholders.

The mergers may affect the level of dividends made to FSP Corp.'s stockholders. The level of dividends after the consummation of the mergers may be lower than the level of dividends FSP Corp.'s stockholders received with respect to their common stock prior to the consummation of the mergers due to the dilution of their percentage ownership incurred upon consummation of the mergers. Regardless of the initial level of FSP Corp.'s dividends immediately following consummation of the mergers, they could decline in the future to a level at which FSP Corp.'s stockholders could receive lower dividends than they received prior to the consummation of the mergers. Moreover, because FSP Corp.'s investment banking business is transactional in nature, there is no predictable recurring level of revenue for such activities. As a result of this, the amount of cash available for distribution may fluctuate, which may result in FSP Corp.'s not being able to maintain growth in dividend levels in the future.

The real properties held by FSP Corp. may significantly decrease in value.

FSP Corp. owns 29 properties following the consummation of the mergers. Some or all of these properties may decline in value. To the extent FSP Corp.'s real properties decline in value, its stockholders could lose some or all the value of their investments.

24

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations (continued)

If FSP Corp.'s line of credit is substantially increased, FSP Corp. may borrow more than it is capable of reasonably repaying.

One expected benefit from the mergers is that FSP Corp.'s increased asset base should give FSP Corp. the flexibility to increase its \$50,000,000 line of credit, enabling FSP Corp. to finance the acquisition of real property for itself or to provide larger loans to Sponsored REITs to finance their acquisition of real property. However, if FSP Corp. borrows heavily against any increased line of credit, FSP Corp. may experience difficulties repaying such line of credit, particularly if FSP Corp.'s cash flows are substantially reduced for any reason. An increased line of credit may create a greater likelihood that FSP Corp. will not be able to sustain its debt obligations under such line of credit and cause a default thereunder.

FSP Corp. faces risks in continuing to attract investors for Sponsored REITs.

FSP Corp.'s investment banking business continues to depend upon its ability to attract purchasers of equity interests in Sponsored REITs. FSP Corp.'s success in this area will depend on the propensity and ability of investors who have previously invested in Sponsored REITs to continue to invest in future Sponsored REITs and on FSP Corp.'s ability to expand the investor pool for the Sponsored REITs by identifying new potential investors. Moreover, FSP Corp.'s investment banking business may be impacted to the extent existing Sponsored REITs incur losses or have operating results that fail to meet investors' expectations. FSP Corp. expects that its investment banking business will account for a smaller percentage of its overall revenue on a going forward basis due to the expected

Edgar Filing: FRANKLIN STREET PROPERTIES CORP /MA/ - Form 10-Q/A

increase in the percentage of revenues derived from rents as a result of its acquisition of 13 REITs.

FSP Corp. faces risks in owning and operating real property.

An investment in FSP Corp. is subject to the risks incident to the ownership and operation of real estate-related assets. These risks include the fact that real estate investments are generally illiquid, which may impact FSP Corp.'s ability to vary its portfolio in response to changes in economic and other conditions, as well as the risks normally associated with:

- o changes in general and local economic conditions;
- o the supply or demand for particular types of properties in particular markets;
- o changes in market rental rates;
- o the impact of environmental protection laws; and
- o changes in tax, real estate and zoning laws.

Certain significant costs, such as real estate taxes, utilities, insurance and maintenance costs, generally are not reduced even when a property's rental income is reduced. In addition, environmental and tax laws, interest rate levels, the availability of financing and other factors may affect real estate values and property income. Furthermore, the supply of commercial and multi-family residential space fluctuates with market conditions.

FSP Corp. faces risks from tenant defaults or bankruptcies.

If any of FSP Corp.'s tenants defaults on its lease, FSP Corp. may experience delays in enforcing its rights as a landlord and may incur substantial costs in protecting its investment. In addition, at any time, a tenant of one of FSP Corp.'s properties may seek the protection of bankruptcy laws, which could result in the rejection and termination of such tenant's lease and thereby cause a reduction in cash available for distribution to FSP Corp.'s stockholders.

FSP Corp. may encounter significant delays in reletting vacant space, resulting in losses of income.

When leases expire, FSP Corp. will incur expenses and may not be able to re-lease the space on the same terms. Certain leases provide tenants the right to terminate early if they pay a fee. If FSP Corp. is unable to re-lease space promptly, if the terms are significantly less favorable than anticipated or if the costs are higher, FSP Corp. may have to reduce its distributions to its stockholders.

FSP Corp. faces risks from geographic concentration.

The properties in FSP Corp.'s portfolio are distributed among the major geographic segments by aggregate square footage to be owned by FSP Corp., as follows: Southwest - 28%; Northeast - 30%; Midwest - 19%; West - 15%; and Southeast - 8%. However, within certain of those segments, a large concentration exists within a particular city and its immediately surrounding area; specifically, Houston, Texas - 21% and Washington, DC - 13%. FSP Corp. is likely to face risks to the extent that any of these areas suffer deteriorating economic conditions.

Edgar Filing: FRANKLIN STREET PROPERTIES CORP /MA/ - Form 10-Q/A

FSP Corp. competes with national, regional and local real estate operators and developers, which could adversely affect FSP Corp.'s cash flow.

Competition exists in every market in which FSP Corp.'s properties are located and in every market in which FSP Corp.'s properties will be located. FSP Corp. competes with, among others, national, regional and numerous local real estate operators and developers. Such competition may adversely affect the percentage of leased space and the rental revenues of FSP Corp.'s properties, which could adversely affect FSP Corp.'s cash flow from operations and its ability to make expected distributions to its stockholders. Some of FSP Corp.'s competitors may have more resources than FSP Corp. or other competitive advantages. Competition may be accelerated by any increase in availability of funds for investment in real estate.

For example, decreases in interest rates tend to increase the availability of funds and therefore can increase competition. The extent to which FSP Corp. is affected by competition will depend in significant part on local market conditions.

There is limited potential for an increase in leased space gains in FSP Corp.'s properties.

FSP Corp. anticipates that future increases in revenue from its properties will be primarily the result of scheduled rental rate increases or rental rate increases as leases expire. Those properties with higher rates of vacancy are located in soft economic markets so that it may be difficult to realize increases in revenue when vacant space is re-leased. To the extent that the properties of FSP Corp. continue to operate profitably, this will likely stimulate new development of competing properties.

FSP Corp. will be subject to possible liability relating to environmental matters, and FSP Corp. cannot assure you that it has identified all possible liabilities.

Under various federal, state and local laws, ordinances and regulations, an owner or operator of real property may become liable for the costs of removal or remediation of certain hazardous substances released on or in its property. Such laws may impose liability without regard to whether the owner or operator knew of, or caused, the release of such hazardous substances. The presence of hazardous substances on a property may adversely affect the owner's ability to sell such property or to borrow using such property as collateral, and it may cause the owner of the property to incur substantial remediation costs. In addition to claims for cleanup costs, the presence of hazardous substances on a property could result in the owner incurring substantial liabilities as a result of a claim by a private party for personal injury or a claim by an adjacent property owner for property damage.

Each REIT acquired by FSP Corp. in June 2003 had previously obtained a Phase I environmental assessment for the property held by it at the time of the acquired REITs acquisition of such property. FSP Corp. (through its subsidiaries) has been involved in the operation of each such property since that acquisition, and is not aware of any material changes to the environmental conditions at any of the properties held by the acquired REITs since their acquisition. However, FSP Corp. cannot assure you that any environmental assessments of the acquired REITs' properties that have been provided to it have revealed all potential environmental liabilities, that any prior owner or operator of the properties did not create any material environmental condition not known to FSP Corp. or the acquired REIT, or that an environmental condition does not otherwise exist as to any one or more of the properties that could have a material adverse effect on FSP Corp.'s financial condition or results of operations.

In addition, FSP Corp. cannot assure you that:

- o future laws, ordinances or regulations will not impose any material environmental liability;
- o the current environmental conditions of FSP Corp.'s and the acquired REITs' respective properties will not be affected by the condition of properties in the vicinity of such properties (such as the presence of leaking underground storage tanks) or by third parties unrelated to FSP Corp. or the acquired REITs;
- o the current environmental conditions of the acquired REITs' properties will not be affected by mold or other environmental pollutants that could affect indoor air quality;
- o tenants will not violate their leases by introducing hazardous or toxic substances into FSP Corp.'s properties that could expose FSP Corp. to liability under federal or state environmental laws; or
- o environmental conditions, such as the growth of bacteria and toxic mold in heating and ventilation systems or on walls, will not occur at FSP Corp.'s properties and pose a threat to human health.

26

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations (continued)

FSP Corp. will be subject to compliance with the Americans With Disabilities Act and fire and safety regulations which could require FSP Corp. to make significant capital expenditures.

All of FSP Corps. properties are required to comply with the Americans With Disabilities Act, and the regulations, rules and orders that may be issued thereunder (the "ADA"). The ADA has separate compliance requirements for "public accommodations" and "commercial facilities," but generally requires that buildings be made accessible to persons with disabilities. Compliance with ADA requirements might require, among other things, removal of access barriers and noncompliance could result in the imposition of fines by the U.S. government, or an award of damages to private litigants.

In addition, FSP Corp. will be required to operate its properties in compliance with fire and safety regulations, building codes and other land use regulations, as they may be adopted by governmental agencies and bodies and become applicable to FSP Corp.'s properties. Compliance with such requirements may require FSP Corp. to make substantial capital expenditures, which expenditures would reduce cash otherwise available for distribution to its stockholders.

The property held by each acquired REIT was inspected for compliance with the ADA at the time of acquisition of such property and was found to be in material compliance. FSP Corp. (through its subsidiaries) has been involved in the operation of each such property since that acquisition, and is not aware of any alterations to the properties that were not made in compliance with the ADA.

There are significant conditions to FSP Corp.'s obligation to redeem shares of its common stock, and any such redemption will result in the stockholders tendering shares receiving less than their fair market value.

Under FSP Corp.'s redemption plan, it is only obligated to use its best efforts to redeem shares of its common stock from stockholders wishing to have them redeemed. There are significant conditions to FSP Corp.'s obligation to redeem shares of its common stock including:

- o FSP Corp. cannot be insolvent or be rendered insolvent by the redemption;

Edgar Filing: FRANKLIN STREET PROPERTIES CORP /MA/ - Form 10-Q/A

- o redemption cannot impair the capital or operations of FSP Corp.;
- o the redemption cannot contravene any provision of federal or state securities laws;
- o the redemption cannot result in FSP Corp.'s failing to qualify as a REIT; and
- o FSP Corp.'s management must determine that the redemption is in FSP Corp.'s best interests.

Any redemption effected by FSP Corp. under this plan would result in the stockholders tendering shares of FSP common stock receiving 90% of the fair market value, as determined by FSP Corp.'s Board of Directors in its sole and absolute discretion, of such shares and not their full fair market value.

FSP Corp. may lose capital investment or anticipated profits if an uninsured event occurs.

FSP Corp. carries or its tenants carry comprehensive liability, fire and extended coverage with respect to each of the properties owned by FSP Corp., with policy specification and insured limits customarily carried for similar properties. There are, however, certain types of losses, such as from wars, pollution or earthquakes, that may be either uninsurable or not economically insurable (although the properties located in California all have earthquake insurance). Should an uninsured material loss occur, FSP Corp. could lose both its capital invested in the property and anticipated profits.

FSP Corp.'s stockholders may experience greater risks relating to diversification of portfolios following the mergers.

The assets and liabilities of the acquired REITs and of FSP Corp. were combined as a result of the mergers. As a result of the mergers, the geographic diversity of the properties in which FSP Corp.'s stockholders own an interest changed. However, because the market for real estate may vary widely from one region of the country to another, the change in geographic diversity may expose FSP Corp. stockholders to different and greater risks than those to which they were previously exposed.

Provisions in FSP Corp.'s organizational documents may prevent changes in control.

FSP Corp.'s Articles of Incorporation (the "Articles") and Bylaws (the "Bylaws") contain provisions, described below, which may have the effect of discouraging a third party from making an acquisition proposal for FSP Corp. and may thereby inhibit a change of control of FSP Corp. under circumstances that could give the holders of FSP common stock the opportunity to realize a premium over the then-prevailing market prices.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations (continued)

Provisions in FSP Corp.'s organizational documents may prevent changes in control. (continued)

Ownership Limits. In order for FSP Corp. to maintain its qualification as a real estate investment trust, the holders of common stock will be limited to owning, either directly or under applicable attribution rules of the Internal Revenue Code, no more than 9.8% of the lesser of the value or the number of equity shares of FSP Corp., and no holder of common stock will be able to acquire or transfer shares that would result in FSP Corp. being beneficially owned by fewer

Edgar Filing: FRANKLIN STREET PROPERTIES CORP /MA/ - Form 10-Q/A

than 100 persons. Such ownership limit may have the effect of preventing an acquisition of control of FSP Corp. without the approval of FSP Corp.'s Board of Directors. Moreover, FSP Corp. will have the right to redeem any shares of its common stock that are acquired or transferred in violation of these provisions at the market price. In addition, the Articles give FSP Corp.'s Board of Directors the right to refuse to give effect to the acquisition or transfer of shares by a stockholder in violation of these provisions.

Staggered Board. FSP Corp.'s Board of Directors is divided into three classes. The terms of these classes will expire in 2004, 2005 and 2006, respectively. Directors of each class are elected for a three-year term upon the expiration of the initial term of each class. The staggered terms for directors may affect the stockholders' ability to effect a change in control of FSP Corp. even if a change in control were in the stockholders' best interests.

Preferred Stock. The Articles authorize FSP Corp.'s Board of Directors to issue up to 20,000,000 shares of preferred stock, par value \$.0001 per share (the "Preferred Stock"), and to establish the preferences and rights of any such shares issued. The issuance of Preferred Stock could have the effect of delaying or preventing a change in control of FSP Corp. even if a change in control were in the stockholders' best interest.

Increase of Authorized Stock. FSP Corp.'s Board of Directors, without any vote or consent of the stockholders, may increase the number of authorized shares of any class or series of stock or the aggregate number of authorized shares FSP Corp. has authority to issue. The ability to increase the number of authorized shares and issue such shares could have the effect of delaying or preventing a change in control of FSP Corp. even if a change in control were in the stockholders' best interest.

Amendment of Bylaws. FSP Corp.'s Board of Directors has the sole power to amend the Bylaws. This power could have the effect of delaying or preventing a change in control of FSP Corp. even if a change in control were in the stockholders' best interests.

Stockholder Meetings. The Bylaws require advance notice for stockholder proposals to be considered at annual meetings of stockholders and for stockholder nominations for election of directors at special meetings of stockholders. The Bylaws also provide that stockholders entitled to cast more than 50% of all the votes entitled to be cast at a meeting must join in a request by stockholders to call a special meeting of stockholders. These provisions could have the effect of delaying or preventing a change in control of FSP Corp. even if a change in control were in the best interests of the stockholders.

Supermajority Votes Required. The Articles require the affirmative vote of the holders of no less than 80% of the shares of capital stock outstanding and entitled to vote in order (i) to amend the provisions of the Articles relating to the classification of directors, removal of directors, limitation of liability of officers and directors or indemnification of officers and directors or (ii) to amend the Articles to impose cumulative voting in the election of directors. These provisions could have the effect of delaying or preventing a change in control of FSP Corp. even if a change in control were in the stockholders' best interest.

There is no public trading market for FSP Corp.'s securities.

There is no public trading market for FSP Corp.'s common stock. FSP Corp. cannot assure you that any market will develop or that there will be any liquidity in a market for its common stock.

Item 3. Quantitative and Qualitative Disclosures about Market Risk

The Company was not a party to any derivative financial instruments at or during the year ended December 31, 2002 or during the six months ended June 30, 2003.

The Company draws from time to time on its line of credit. These borrowings bear interest at a variable rate. The Company uses the funds it draws on its line of credit for the purpose of making interim mortgage loans to Sponsored REITs. These mortgage loans bear interest at the same variable rate payable by the Company under its line of credit. Therefore, the Company believes that it has mitigated its interest rate risk with respect to its borrowings.

Item 4. Controls and Procedures.

The Company's management, with the participation of the Company's President and Chief Executive Officer and the Company's Vice President and Chief Operating Officer (equivalent of Chief Financial Officer), evaluated the effectiveness of the Company's disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act) as of June 30, 2003. Based on this evaluation, the Company's President and Chief Executive Officer and the Company's Vice President and Chief Operating Officer (equivalent of Chief Financial Officer) concluded that, as of June 30, 2003, the Company's disclosure controls and procedures were (1) designed to ensure that material information relating to the Company, including the Company's consolidated subsidiaries, is made known to the Company's President and Chief Executive Officer and the Company's Vice President and Chief Operating Officer (equivalent of Chief Financial Officer) by others within these entities, particularly during the period in which this report was being prepared and (2) effective, in that they provide reasonable assurance that information required to be disclosed by the Company in the reports that it files or submits under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms.

No change to the Company's internal control over financial reporting (as defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) occurred during the fiscal quarter ended June 30, 2003 that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.

PART II - OTHER INFORMATION

Item 1. Legal Proceedings:

Not applicable.

Item 2. Changes in Securities and Use of Proceeds:

On June 1, 2003, the Registrant issued approximately 25,000,091 shares of common stock, \$0.0001 par value per share (the "Common Stock"), to the holders of preferred stock (the "Target Stock") of 13 real estate investment trusts (the "Target REITs") it acquired by merger (the "Mergers").

Upon consummation of the Mergers, each share of Target Stock in the Target REITs was converted into that number of shares of the

Edgar Filing: FRANKLIN STREET PROPERTIES CORP /MA/ - Form 10-Q/A

Registrant's Common Stock as set forth below opposite the name of the applicable Target REIT. The Registrant issued the shares of its Common Stock to the holders of Target Stock in private placements, exempt from registration under Section 4(2) of the Securities Act of 1933, as amended and Rule 506 of Regulation D promulgated thereunder. Fractional shares of Common Stock were issued by the Registrant.

Target REIT -----	Shares of Registrant Common Stock Issuable in Exchange for Each Share of Target Stock -----	Total Shares of Registrant Common Stock Issuable to Holders of Target Stock -----
Forest Park	7,299.59	569,368.02
The Gael	6,975.59	1,482,312.88
Goldentop	7,302.58	1,690,547.27
Centennial	6,905.56	1,091,078.48
Meadow Point	6,983.25	1,798,186.88
Timberlake	6,787.12	3,495,366.80
Federal Way	6,779.66	1,355,932.00
Fair Lakes	6,805.36	3,266,572.80
Northwest Point	6,779.66	2,525,423.35
Timberlake East	6,830.85	1,707,712.50
Merrywood	6,854.51	1,412,029.06
Plaza Ridge I	6,822.03	2,728,812.00
Park Ten	6,824.54	1,876,748.50

Total		25,000,090.54

Item 3. Defaults Upon Senior Securities:

Not applicable.

30

PART II - OTHER INFORMATION (continued)

Item 4. Submission of Matters to a Vote of Security Holders:

On May 30, 2003, the Registrant held a Special Meeting of Stockholders for the purpose of approving an Agreement and Plan of Merger, dated January 14, 2003, by and among the Registrant and 13 real estate investment trusts. The following table sets forth the number of votes cast for, withheld and abstained for the proposal.

For ---	Withheld -----	Abstain -----
20,687,933	79,648	24,431

On June 30, 2003, the Registrant held its 2003 Annual Meeting of Stockholders (the "2003 Annual Meeting"). The 2003 Annual Meeting was called for the following purposes: (1) to elect two Class II directors to serve until the 2006 annual meeting and (2) to transact such other business as may properly come before the meeting or any adjournment thereof.

The following table sets forth the names of the directors elected at the 2003 Annual Meeting for new three-year terms and the number of
