SIGNET REPORTS STRONG FIRST QUARTER RESULTS

Signet Group plc (LSE: SIG and Nasdaq NMS: SIGY), the world's largest speciality retail jeweller, today announces its first quarter results for the 13 week period 1 February to 1 May 2004.

Group

Group profit before tax was £28.1 million (Q1 2003/04: £24.1 million), up by 33.2% at constant exchange rates (see note 8 for reconciliation). On a reported basis the increase was 16.6% reflecting the weakening of the average US dollar rate to £1/\$1.84 from £1/\$1.59 in the comparable period last year. Like for like sales rose by 8.7%. Total sales at £344.6 million (Q1 2003/04: £342.9 million) advanced by 11.6% at constant exchange rates and by 0.5% on a reported basis. Operating profit at £30.2 million (Q1 2003/04: £27.2 million) increased by 27.4% at constant exchange rates and by 11.0% on a reported basis. Operating margin rose to 8.8% (Q1 2003/04: 7.9%), while the gross margin decreased slightly compared with the same quarter last year. The tax rate was 34.5% (Q1 2003/04: 35.5%). Earnings per share rose by 22.2% to 1.1p (Q1 2003/04: 0.9p), equivalent to \$0.58 per ADR (diluted).

United States (circa 69% of Group annual sales)

Operating profit at £28.7 million (Q1 2003/04: £26.2 million) was up by 26.4% at constant exchange rates and by 9.5% on a reported basis. The operating margin increased to 11.6% (Q1 2003/04: 10.5%), reflecting leverage from the increase in like for like sales.

Like for like sales rose by 9.5% reflecting consistent execution of the division's growth strategy and benefit from soft comparatives in the previous year. Total sales increased by 14.4% at constant exchange rates to £247.4 million (Q1 2003/04: £250.3 million) but fell by 1.2% on a reported basis. Gross margin eased reflecting anticipated mix changes and the increased cost of gold offset partially by a range of management initiatives including an increase in selling prices implemented in late February. The bad debt ratio fell slightly compared to the first quarter of last year.

United Kingdom (circa 31% of Group annual sales)

The UK business continued to perform strongly with like for like sales growth ahead of the general retail market. Operating profit rose to £3.0 million (Q1 2003/04: £2.4 million) on total sales up by 5.0% to £97.2 million (Q1 2003/04: £92.6 million). Like for like sales increased by 6.7%, with H.Samuel up 4.2% and Ernest Jones up 10.2%. The operating margin rose to 3.1% (Q1 2003/04: 2.6%) and the gross margin was also up. Both chains saw a further increase of diamonds in the sales mix. Central administrative functions are being relocated and consolidated to enhance efficiency which should result in future cost savings of about £0.6 million per annum. This is likely to result in a non-recurring charge of approximately £1.75 million in the second quarter.

Group Costs, Financial Items and Net Debt

Group costs were £1.5 million (Q1 2003/04: £1.4 million). Net interest payable was £2.1 million (Q1 2003/04: £3.1 million), after crediting £0.3 million in respect of FRS 17 (Q1 2003/04: £0.2 million credit). Net debt at 1 May 2004 was £68.2 million (3 May 2003: £137.7 million), reflecting the improved position at 31 January 2004 and the benefit of favourable exchange translation movements.

Comment

Terry Burman, Group Chief Executive, commented: The Group had an excellent first quarter with a 16.6% increase in reported profit before tax, equivalent to a rise of 33.2% at constant exchange rates. The quarter was marked by particularly strong trading during the Valentine's Day period.

The US business again outperformed its main competition. Operating profit rose by 26.4% at constant exchange rates primarily driven by 9.5% growth in like for like sales. Further enhancements in customer service and increased television advertising were important contributors to the excellent progress made in the quarter.

The UK division also had a strong first quarter with like for like sales up by 6.7% resulting in increased operating profit. The drive to grow diamond sales showed further success with upgrading of staff training and customer service contributing to the uplift. The modernisation programme continues with 22 stores completed during the first quarter and 85 in total planned for this year compared to 32 stores last year.

8. Impact of constant exchange rates

The Group has historically used constant exchange rates to compare period-to-period changes in certain financial data. This is referred to as constant exchange rates throughout this release. The Group considers this a useful measure for analysing and explaining changes and trends in the Group's results. The impact of the re-calculation of sales, operating profit, profit before tax and net debt at constant exchange rates, including a reconciliation to the Group's GAAP results, is analysed below.
