Introduction

Telecomunicações de São Paulo S/A (TELESP), a listed company, is subject to the Corporate Law and the regulation of the Comissão de Valores Mobiliários - CVM, in Brazil, as well as the laws of the United States of America for the filing and issuance of its shares in the New York Stock Exchange - NYSE. Besides being subject to the aforementioned laws and regulations, TELESP is committed to follow high standards of ethical and honest behavior within its activities.

Thus, aiming, above all, the valorization of the Company and its shares, as well as the protection of its investors, employees, shareholders and clients, it has adopted practices of corporate governance, basically involving the transparency of information of its operations, the reporting of the activities and the equality in the treatment to the shareholders.

The main objectives pursued are, among others: (i) that there is no omission or any untrue information about the relevant facts or acts in the public information, (ii) that the disclosure of information of the Company accurately reflect the reality of its financial condition and the results of its operations, and (iii) to set the role and specific functions of the Board of Directors as the supervisor of the direction and administration of the Company.

Thus, TELESP has implemented several internal guidelines to ensure that such objectives are reached. These guidelines regulate, among other aspects, the way in which the information must be disclosed to the market, as well as the internal procedure in order to achieve such disclosures. The aforementioned internal guidelines are:

Edgar Filing: TELESP PARTICIPACOES SA - Form 6-K

Besides the guidelines listed above, the Company has the following corporate guidelines for control, approved by Telefónica S.A. in Spain (Telefónica) and used by Telesp, which regulate relevant activities:

- (iv) Intra-Group Operations (NCC 06)
- (v) Travel Guidelines: Conditions for the Employees holding a position lower than Manager (NCC 07)
- (vi) Guidelines for Previous Approval of Services to be Rendered by the External Auditor

Following the directives established by Telefónica, the business lines of the Telefónica Group, including TELESP, have adopted corporate governance practices, so that the Group can present to the markets, in a united front, a commitment with the transparency of its operations, guaranteeing more security and tranquility to its investors. Therefore, the Board of Directors of TELESP, on its session held on June 20, 2005, approved the present Corporate Governance Report.

This Report is configured as an exercise of analysis and revision of the current situation of the Company, and as a starting point to consider possible short-term and medium-term improvement initiatives, keeping in mind the search for a corporate governance formula that better defends the interest of the shareholders and the better valuation of the Company.

Along this real time information and besides the regulatory requirements, TELESP is aware of the importance of the periodic financial information about the results. As a consequence, the Investor Relations Area carries on a special communication effort of the financial results through its mailing list and is constantly available for the financial community in order to solve any doubt or question that may arise.

Particularly, it is worth noting that the design and administration of a specific Web Site for the Investor Relations Area was established as one of the most relevant tools in achieving the objective of transparency in the distribution of updated information to the market, guaranteeing the simultaneous and non-discriminatory access. Currently, the Investor Relations Web Site has several sections that ease the access to all the financial, operational and strategic official information disclosed by the Company to the different regulatory bodies and the market in general (<http://www.telesp.com.br>).

This Code is applicable to all the people that have a greater and frequent contact with privileged information of the Company, including the high executives and the members of the Board of Directors, as well as employees that due to the execution of their functions may have a regular access to this kind of information.

This Code does not only cover the general prohibition to perform operations with the securities of the Company and the Group while on possession of privileged information, but goes beyond that, establishing wide temporary restrictions in those moments in which objectively exists privileged information within the Company, for example, the month the precedes the elaboration and approval of the annual accounts by the Board of Directors of the Company.
