If a quorum should not be present, the meeting may be adjourned from time to time until a quorum is obtained.

Broker Voting

Edgar Filing: TRIAD HOSPITALS INC - Form DEF 14A

Brokers holding shares of record for a customer have discretionary authority to vote on some matters if they do not receive timely instructions from the customer regarding how the customer wants the shares voted. There are also some matters with respect to which brokers do not have discretionary authority to vote if they do not receive timely instructions from the customer. If a broker does not receive timely voting instructions from the customer on a matter with respect to which it does not have discretionary authority to vote, a broker non-vote results. A broker non-vote is counted as present at the meeting for purposes of determining a quorum but is treated as not entitled to vote with respect to such matters. Accordingly, a broker non-vote is not counted in the number of votes cast for or against such matters and, therefore, will not affect the outcome of the vote.

PROPOSAL I

ELECTION OF DIRECTORS

The Company's Restated Certificate of Incorporation provides for a Board of Directors divided into three classes of directors as nearly equal in number as possible, with the term of office of one class expiring each year at the Company's Annual Meeting of Stockholders. Each class of directors is elected for a term of three years, except in the case of elections to fill vacancies or newly created directorships.

Based on the recommendation of the Nominating and Corporate Governance Committee, the Board of Directors has nominated Barbara A. Durand, Ed.D., Donald B. Halverstadt, M.D., Dale V. Kesler and Harriet R. Michel for election as Class I directors at the 2006 Annual Meeting, each to serve for a term of three years until the 2009 Annual Meeting of Stockholders or until his or her successor is duly elected and qualified. In addition, based on the recommendation of the Nominating and Corporate Governance Committee, the Board of Directors has nominated William J. Hibbitt for election as a Class III director at the 2006 Annual Meeting in order to fill a vacancy on the Board of Directors. If elected, Mr. Hibbitt will serve as a Class III director until the Company's 2008 Annual Meeting of Stockholders, the date on which the term of a Class III director expires, or until his successor is duly elected and qualified. Mr. Hibbitt was recommended to the Nominating and Corporate Governance Committee by the Company's Chief Executive Officer.

Stockholders may vote at the 2006 Annual Meeting only for the nominees named above. All duly submitted and unrevoked proxies will be voted for such nominees, except where authorization to so vote is withheld. If, for any reason, any of the nominees becomes unavailable for election, the holders of the proxies may exercise discretion to vote for substitutes proposed by the Board of Directors. Each of the nominees has indicated his or her willingness to serve as a member of the Board of Directors if elected.

Information concerning each of the nominees named for election as a director, along with information concerning the Class II and Class III directors, whose terms of office will continue after the 2006 Annual Meeting, is set forth below.

Required Vote

The affirmative vote of a plurality of the shares of Triad common stock represented at the 2006 Annual Meeting, in person or by proxy, and entitled to vote on such proposal is necessary for the election of directors. Votes may be cast in favor of or withheld with respect to each nominee. Votes that are withheld will be counted toward a quorum but will be excluded from the tabulation of votes cast for such proposal and, therefore, will not affect the outcome of the vote on such proposal.

The Board of Directors recommends a vote FOR the election of each of the nominees for Class I director and Class III director named below.

Compensation of Directors

Annual Retainer

Directors who are neither officers nor employees of the Company receive an annual retainer payable in cash for their membership on the Board of Directors. From January 1, 2005 through May 24, 2005, the annual retainer for membership on the Board of Directors was set at \$50,000. On May 24, 2005, based on the recommendation of an independent compensation consulting firm engaged by the Compensation Committee, the Board of Directors approved (i) an increase in the annual retainer for each outside director to \$55,000 and (ii) a \$5,000 annual stipend payable in cash to each outside director serving as a committee chairperson.

Outside directors have the option to elect to receive all or a portion (in 25% increments) of their annual retainer (excluding the annual stipend for the committee chairpersons) in deferred stock units (DSUs) that settle in shares of Triad common stock at the earlier of the fifth anniversary of the date of grant or the end of the director's service on the Board of Directors, at the director's election, pursuant to the terms of the Company's Outside Directors Stock and Incentive Compensation Plan. If such option is elected, the number of DSUs granted in payment of all or a portion of the annual retainer is calculated based on the closing price of a share of Triad common stock on the date of grant, which is the date of the Company's Annual Meeting of Stockholders. For the 2005 annual retainer, Messrs. Frist and Jhin elected to receive 100% of the annual retainer in DSUs (1,113 DSUs each); Mr. Kesler and Ms. Michel elected to receive 50% of the annual retainer in DSUs (556 DSUs each); Ms. DeParle elected to receive 25% of the annual retainer in DSUs (278 DSUs); and Messrs. Loeffler and Sayers and Drs. Durand, Halverstadt and Reinhardt did not elect to receive any portion of the annual retainer in DSUs. The DSUs were granted on May 24, 2005, based on the closing price of Triad common stock on that date of \$49.42.

Meeting Fees and Expenses

In addition to the annual retainer, outside directors receive a fee of \$2,500 payable in cash for attendance at each Board meeting. From January 1, 2005 through May 24, 2005, committee members also received a fee of \$500 payable in cash for attendance at each applicable committee meeting if the meeting was not held in conjunction with a Board meeting. On May 24, 2005, the Board of Directors increased attendance fees to \$1,500 payable in cash for a committee member's attendance at each applicable committee meeting, without regard to whether the meeting was held in conjunction with a Board meeting. Outside directors also are reimbursed for expenses incurred relating to attendance at meetings.

Equity Compensation

The Company's Outside Directors Stock and Incentive Compensation Plan provides for a grant of options upon initially joining the Board of Directors in an amount determined by the Board of Directors. The Board of Directors' practice has been to grant initial options covering 20,000 shares of Triad common stock. In addition to the initial options, the plan provides for an annual grant of options to acquire a number of shares of Triad common stock determined by the Board of Directors. Under the terms of the plan, initial options and annual options become exercisable as

Edgar Filing: TRIAD HOSPITALS INC - Form DEF 14A

to 25% of the shares covered thereby annually beginning on the first anniversary of the date of grant. All options granted under the plan have a maximum term of ten years, are exercisable at the fair market value of the Triad common stock on the date of the grant and become immediately exercisable upon a change of control of the Company. On May 24, 2005, in lieu of an annual stock option grant and as permitted by the Outside Directors Stock and Incentive Compensation Plan, the Board of Directors granted to each outside director a restricted stock award covering 2,000 shares of Triad common stock under the Company's Amended and Restated Long-Term Incentive Plan. Each grant will vest as of May 24, 2006 or, if earlier, upon death, disability or a change in control of the Company.

Supplemental Executive Retirement Plan

Effective as of September 1, 2005, the Board of Directors of the Company adopted a Supplemental Executive Retirement Plan (referred to in this Proxy Statement as the SERP) providing retirement benefits to the Company's Senior Vice Presidents, Executive Vice Presidents, Division Presidents and Chief Executive Officer upon eligible retirement from the Company. Annual retirement benefits under the SERP are computed as 20% of the participant's final average earnings (generally salary and bonus) during the last three completed calendar years prior to a participant's retirement. A participant's normal retirement date is the first day on which the participant has (i) attained age 60, (ii) completed 12 years of service with the Company and its affiliates, and (iii) completed 3 years of service with the Company and its affiliates following the effective date of the SERP. The SERP also provides for benefits under specified circumstances upon a participant's early retirement, death or disability.

Pension Plan Table

The following table shows the estimated maximum annual retirement benefits that would be payable upon normal retirement under the SERP (assuming normal retirement at age 60) at selected compensation levels after various years of service. Amounts are shown on a straight life annuity basis, without any reduction for social security benefits.

- (1) For purposes of the SERP, Final Average Earnings is computed with reference to the annual base salary and annual bonus compensation paid to the participant in the three completed calendar years prior to retirement. For the named executive officers, the Salary and Bonus columns of the Summary Compensation Table represent amounts earned as salary and bonus in respect of the applicable fiscal year. These amounts differ from the annual base salary and annual bonus compensation actually paid to the named executive officers during the applicable fiscal years, which form the basis of the Final Average Earnings calculation under the SERP. As of December 31, 2005, the Final Average Earnings for Messrs. Shelton, Parsons, Moen, Anderson and Marzocco would have been \$2,300,957, \$795,927, \$739,345, \$492,910 and \$524,045, respectively.
- (2) As of December 31, 2005, Messrs. Shelton, Parsons, Moen, Anderson and Marzocco had 11, 11, 4, 10 and 9 credited years of service with the Company and its affiliates, respectively, for purposes of the SERP.
- (3) The estimated annual benefits payable under the SERP are computed as 20% of the participant's Final Average Earnings. Assuming the satisfaction of the applicable vesting requirements under the SERP by a participant upon retirement, such participant will be entitled to a flat annual benefit based on the foregoing formula without regard to the participant's years of service. As a result, the estimated annual benefits payable under the SERP at varying levels of years of service are the same.

Employment Contracts and Termination of Employment and Change-in-Control Arrangements

With the exception of Mr. Shelton, the executive officers of the Company have not entered into employment contracts with the Company and are employed at will. The Company's broad-based severance policy, as well as the applicable provisions of (i) award agreements under the Company's Amended and Restated Long-Term Incentive Plan and (ii) the SERP, provide for certain compensatory arrangements in the event of termination of employment or a change in control of the Company. All executive officers and employees of the Company are covered by the Company's severance policy under which, in certain circumstances, an employee whose employment with the Company is involuntarily terminated may receive as a severance benefit up to 52 weeks of salary. In addition, upon the occurrence of a change in control of the Company, (i) all outstanding and unexercised stock options granted under the Company's Amended and Restated Long-Term Incentive Plan will become fully vested and exercisable and the transfer restrictions and forfeiture conditions on any restricted shares granted under such plan will immediately lapse and such shares will become fully vested, pursuant to the applicable award agreement and (ii) plan benefits under the SERP will become fully vested and will be paid once the participant reaches age 55, or if such participant has already reached age 55, immediately upon the occurrence of the change in control, with no reductions for payment before age 60.

The Company entered into an employment agreement with Mr. Shelton on September 1, 2003 for a period of three years. The contract will be automatically renewed on each anniversary thereafter and shall continue for additional one-year terms unless the Company or Mr. Shelton takes specific actions to terminate it. Pursuant to the terms of the agreement, the Company has agreed to employ Mr. Shelton as President and Chief Executive Officer and to use its best efforts to cause him to be a director and Chairman of the Board of Directors of the Company. The agreement provides for a minimum annual salary of \$975,000, subject to increase, as well as participation in all incentive compensation plans and programs maintained by the Company and applicable generally to senior executives, including the Company's Corporate Annual Incentive Plan and Amended and Restated Long-Term Incentive Plan and all savings and retirement plans and programs and welfare benefit plans and programs maintained by the Company and applicable generally to senior executives. The agreement also provides for reasonable use by Mr. Shelton of the Company's aircraft for personal trips when such aircraft are not otherwise needed for business purposes and certain other benefits, including compensation for financial and tax planning expenses incurred by Mr. Shelton and reimbursement of country club dues.

In the event of termination of Mr. Shelton's employment as a result of Disability (as defined in the agreement), Mr. Shelton, or his beneficiaries, will be entitled to receive an amount equal to three times Mr. Shelton's Aggregate Compensation (defined as base salary, incentive bonus and taxable benefits) for the

calendar year preceding the year in which the date of termination occurs, payable in bi-weekly installments over a period of three years, any incentive bonus and deferred compensation, and the continuation of medical benefits until Mr. Shelton attains the age of 65 or, if he should die prior to attaining the age of 65, for three years following the date of his death. In the event of termination of Mr. Shelton's employment as a result of his death, his beneficiaries will be entitled to receive an amount equal to two times Mr. Shelton's Aggregate Compensation for the calendar year preceding the year in which the date of his death occurs, payable in bi-weekly installments over a period of two years, any incentive bonus and deferred compensation, and the continuation of medical benefits for three years following the date of his death. In the event of termination of Mr. Shelton's employment (i) by the Company as a result of non-renewal of the term of his employment agreement, (ii) by the Company or Mr. Shelton within 18 months after a Change of Control (as defined in the agreement) (or termination by the Company prior to a Change of Control arising in connection with a Change of Control), or (iii) by Mr. Shelton at any time for Good Reason (as defined in the agreement), Mr. Shelton will be entitled to receive a lump sum payment equal to three times Mr. Shelton's Aggregate Compensation for the calendar year preceding the year in which the date of termination occurs, any deferred compensation and the continuation of medical benefits for three years following the date of termination. If Mr. Shelton's employment is terminated by the Company for Cause (as defined in the agreement) or by Mr. Shelton as a result of non-renewal of the term of his employment agreement, Mr. Shelton will be entitled to any unpaid base salary through the date of termination and any deferred compensation, as well as health insurance benefits for Mr. Shelton and his family at his expense as provided by law. If Mr. Shelton's employment is terminated by the Company for Cause or by Mr. Shelton as a result of non-renewal of the term of his employment agreement or if stockholder approval would otherwise be required in connection with the treatment of his options, Mr. Shelton's options will be exercisable as provided in the Company's Amended and Restated Long-Term Incentive Plan. If Mr. Shelton's employment is terminated for any other reason, Mr. Shelton's vested options will be exercisable for two years following the date of termination, subject to applicable regulatory requirements and provided that stockholder approval is not required. Mr. Shelton's employment agreement provides that, during the term of his employment and for three years following the date of his termination of employment for any reason, or, in the case of termination of employment by the Company (other than due to death), for three years following the date of receipt of the Company's notice of termination (the "Date of Termination"), Mr. Shelton may not, directly or indirectly, act as an executive, employee, consultant, agent or representative for any company that is engaged in any business conducted by the Company as of the Date of Termination in any geographic area in which the Company is then conducting such business. In addition to the termination of employment provisions in his employment agreement, any restricted shares of Triad common stock granted to Mr. Shelton under the Company's Amended and Restated Long-Term Incentive Plan that have not yet become vested will be forfeited if Mr. Shelton's employment is terminated for any reason other than a change in control of the Company or as a result of a death or disability, pursuant to the applicable award agreement.

COMPENSATION COMMITTEE REPORT ON EXECUTIVE COMPENSATION

The determination of the compensation of the Company's executive officers is made by the Compensation Committee of the Board of Directors, which is composed entirely of independent directors. As set forth in its charter, the Committee is responsible for, among other matters, (i) reviewing and approving compensation arrangements for the Chief Executive Officer and other executive officers and senior management of the Company, including incentive compensation, fringe benefit and retirement plans and other benefits and (ii) reviewing generally the Company's compensation policies and practices.

Compensation Philosophy

The Committee believes that performance and compensation should be evaluated on an ongoing basis to ensure that the Company remains externally competitive and internally equitable with its pay practices and maintains its ability to attract, retain and motivate highly qualified personnel. The Committee believes that the most effective compensation programs align the short and long-term interests of executives with those of stockholders and, therefore, ties the Company's strategic business goals to its executive compensation decisions. The Committee generally awards a balanced mix of cash and equity-based compensation. Base salary and annual incentives reward achievement of the Company's short term objectives, and long-term equity-based incentives encourage executives to focus on maximizing long-term shareholder value.

In order to attract and retain talented executives and key employees, base salaries for the Company's executives are targeted at the 60th percentile of the hospital industry. Target bonus payouts are established near the market median to motivate the Company's executives and key employees to achieve strong financial and operational performance. In addition, the Committee awards long-term incentive grants to achieve total compensation for the Company's officers and key employees that is between the median and 75th percentile of the market in return for superior Company performance.

Consistent with its past practice, the Company retained Mercer Human Resource Consulting (Mercer), a nationally recognized independent compensation consulting firm, to conduct an analysis of the Company's executive compensation practices based on a review of peer companies and published survey data prior to making any determinations with respect to 2005 executive compensation.

Base Salaries

The base salaries for 2005 of the named executive officers are listed above in the Summary Compensation Table under the main heading Executive Compensation. These salaries and the salaries of other executive officers are evaluated annually by the Committee. In determining appropriate salary levels and salary increases for 2005, the Committee considered individual performance, experience and level of responsibility, overall company performance, division performance (in the case of division executives) and pay practices at peer companies, as well as recommendations by the Chief Executive Officer for the other executive officers. In February 2005, the Committee determined to increase the 2005 base salaries of each executive officer (other than the Chief Executive Officer) by approximately 3%, to reflect market movement in peer companies. The Committee determined, following an evaluation of the factors described above, that existing base salaries for the Company's executive officers other than the Chief Executive Officer, as adjusted to reflect market movement in peer companies, were appropriate and competitive. The Committee further increased the salaries of three of the Company's executive officers to compensate for additions to or changes in each of such officer's duties during fiscal 2005. A discussion of the Chief Executive Officer's base salary for 2005 is set forth below under Chief Executive Officer Compensation.

Annual Incentive Compensation

The annual incentive compensation earned during 2005 by each of the named executive officers is listed above in the Summary Compensation Table under the main heading Executive Compensation. The annual

Table of Contents

incentive compensation for each of the Company's executive officers, including the named executive officers, was determined in accordance with terms of the Company's 2005 Corporate Annual Incentive Plan, which provides for the payment of formula-based annual cash incentives to eligible employees selected by the Committee, including all executive officers, based upon the achievement of objective business performance criteria. Annual incentive award opportunities at the Company are designed to focus management attention on key operational goals deemed important for the upcoming fiscal year and to support the Company's strategic goal for consistent growth by highlighting corporate and business unit earnings as the performance measures affecting incentive payments. Incentive compensation for corporate officers (including certain executive officers), payable only if the Company meets its targeted earnings per share (EPS), is composed of (i) a base incentive calculated using a predetermined percentage of the officer's salary (based on level of responsibility) and (ii) a supplemental incentive calculated using the amount by which the Company's actual EPS exceeds the targeted EPS, which is capped when the Company's actual EPS equals 120% of the targeted EPS. Incentive compensation for division officers (including certain executive officers), also payable only if the Company meets its targeted EPS, is similarly composed of a base incentive and a supplemental incentive, which is calculated based upon the amount by which the division's actual earnings before interest, taxes, depreciation and amortization (EBITDA) exceeds a specified EBITDA target, is subject to decrease if the division does not meet specified EBITDA, margin and cash accounts receivable targets, and will be capped at 150% of the participant's bonus target percentage. After the 2005 financial performance of the Company and its hospitals and other facilities was finalized, the Committee determined that the 2005 Annual Incentive Plan financial performance targets had been achieved, and the Committee authorized the payment of cash incentive compensation pursuant to the plan formulas, except with respect to certain division officers. At management's recommendation, the Committee approved modest exceptions to the plan calculations for certain division officers whose EBITDA targets were not met in order to recognize properly the contributions made by these employees to the overall success of the Company in meeting the EPS target.

Long-Term Incentive Compensation

The Committee believes that equity-based compensation is an appropriate component of compensation and an effective incentive for employees at varying levels of responsibility. In particular, the Committee believes that equity-based grants that vest over time provide an incentive that focuses the attention of the Company's executives and other key employees on managing the business of the Company from the perspective of an owner with an equity stake in the business and help ensure that operating decisions are based on long-term results that benefit the business and, ultimately, the Company's stockholders. The Committee granted stock option awards and one restricted stock award during fiscal 2005.

The Committee granted stock options to each of the Company's executive officers other than the Chief Executive Officer during 2005, which grants applicable to the named executive officers are listed above in the Option Grants in 2005 Fiscal Year Table under the main heading Executive Compensation. The Committee determined the number of options granted to these executive officers for 2005 based in part on the recommendations of the Chief Executive Officer and in consideration of the executive's level of responsibility, present and potential contributions to the success of the Company, level of compensation and competitive peer group data. Option grants provide the right to purchase shares of Triad common stock at an exercise price equal to the fair market value on the date of the grant, and thus provide compensation to the optionee only to the extent the market price of the stock increases from the date of grant until the date the option is exercised. Stock options granted to executive officers and other employees generally become vested and exercisable over a four-year period at a rate of 25% per year, based on continued employment, and have a term of exercise of ten years (subject to earlier termination upon termination of employment). All stock options granted to the Company's executive officers during 2005 were granted under the Company's 1999 Long-Term Incentive Plan. During 2005 the Committee granted a total of 1,990,250 options to purchase shares of Triad common stock to 253 employees of the Company. A discussion of the Chief Executive Officer's long-term incentive compensation for 2005 is set forth below under Chief Executive Officer Compensation.

Table of Contents

In addition to the Amended and Restated Long-Term Incentive Plan, the Company maintains an Amended and Restated Management Stock Purchase Plan to allow eligible employees, including the Company's executive officers, to elect to purchase restricted shares of Triad common stock through salary reductions up to a specified percentage of their base salary, subject to vesting requirements. These restricted shares are granted at a 25% discount from the six-month average market price of the Triad common stock on the grant date. The restrictions lapse on the first day of the month prior to the third anniversary of the date of grant, and subject to certain exceptions, an employee would forfeit the value of the discount and any appreciation in the stock if employment were terminated during the vesting period. Although the number of shares, if any, purchased by individual officers under the Management Stock Purchase Plan, as amended to date, is not subject to the discretion of management or the Committee, the Committee believes that it is an important component of its executive compensation program.

Deferred Compensation and Retirement Benefits

On an ongoing basis during 2004 and 2005, the Committee conducted a thorough evaluation of the Company's retirement benefit practices based on consultations with Mercer and reviews of peer companies. At the Committee's recommendation, the Board of Directors adopted the Triad Hospitals, Inc. Deferred Compensation Plan, effective January 1, 2005, to provide supplemental retirement benefits to select management and highly-compensated employees of the Company, including executive officers, beyond the financial limits of the Company's Retirement Savings Plan. In addition, at the Committee's recommendation, the Company's executive officers and senior management are eligible to participate in the Supplemental Executive Retirement Plan (the "SERP"), which was adopted by the Board of Directors effective September 2005. The Committee believes that the adoption of these two plans will advance the interests of the Company by adequately rewarding key executives, who are largely responsible for the long-term success and development of the Company, with a more competitive retirement benefit and encouraging such executives to continue their employment with the Company, as well as assist the Company in attracting such employees and stimulating their efforts on behalf of the Company.

Chief Executive Officer Compensation

For 2005, Mr. Shelton's base salary was \$1,508,558, and the Committee awarded Mr. Shelton cash incentive compensation of \$1,141,875 and granted a restricted stock award covering 100,000 shares of Triad common stock. Mr. Shelton is also entitled to certain other benefits pursuant to the terms of his employment agreement, which the Committee approved in 2003 and which is described in more detail above under "Employment Contracts, Termination of Employment Arrangements and Change in Control Arrangements." These additional benefits include reasonable use of Company aircraft for personal trips when such aircraft are not otherwise needed for Triad business purposes and reimbursement of country club dues and the cost of tax preparation services. The Committee established Mr. Shelton's compensation for 2005 by generally applying the principles outlined above for executive officers, taking into account the Chief Executive Officer's responsibility for the total enterprise, as well as Mr. Shelton's individual performance. In May 2005, following an evaluation of the Chief Executive Officer's performance, the Committee increased Mr. Shelton's base salary by 5%. This increase was determined based on an assessment of peer group data and an analysis of Mr. Shelton's and the Company's performance in the following areas: (i) overall financial performance of the Company over the past year, including the Company's total shareholder return, which outperformed both its competitors and the Standard and Poor's Midcap 400 Index; (ii) Mr. Shelton's critical role in executing the Company's strategic platform within the corporate organization and each operating unit, including maintaining clinical leadership groups that the Committee believes are critical to the Company's long-term success and supporting quality care at every level; (iii) Mr. Shelton's significant contributions to the Company's day-to-day business operations and effective human resource capital management in a growing company; (iv) Mr. Shelton's recognized leadership in the for-profit hospital industry and of the Board and the Company's management; and (v) the Company's high patient and physician satisfaction levels, which support the cornerstone of the Company's philosophy. Mr. Shelton's cash incentive compensation was determined pursuant to the formula described above under the

Company's 2005 Annual Incentive Plan. In determining the size of the restricted stock award granted to Mr. Shelton under the Amended and Restated Long-Term Incentive Plan, the Committee applied the principles outlined above with respect to options granted to executive officers in the same manner as they were applied to other executives. The restricted stock award vests in three equal annual installments beginning on the second anniversary of the date of grant. The shares of Triad common stock subject to the award are subject to forfeiture and restrictions on transfer prior to vesting.

The Committee believes that the use of restricted shares appropriately links the Chief Executive Officer's interests to strong long-term performance by the Company and the creation of stockholder value and enhances the retentive value of the Company's equity compensation awards. In addition, the Committee notes that, compared with granting stock options, restricted stock awards utilize fewer shares under the Company's Amended and Restated Long-Term Incentive Plan at a comparable cost to the Company. The Committee currently intends to increase its use of restricted stock awards in the future.

The Committee believes that Mr. Shelton's total compensation for fiscal 2005 is reasonable and consistent with the overall remuneration philosophy of the Committee, is appropriate as compared to his peers and reflects the Committee's subjective analysis of his performance as Chief Executive Officer.

Section 162(m) of the Internal Revenue Code of 1986

In general, Section 162(m) of the Internal Revenue Code (the Code) disallows a deduction to the Company for any compensation paid to its named executive officers in excess of \$1 million during a calendar year, subject to an exception for compensation that qualifies as performance-based compensation. The Committee has endeavored, to the extent it deems consistent with the best interests of the Company and its stockholders, to obtain maximum deductibility of compensation paid to executive officers. For example, awards of stock options under the Company's Amended and Restated Long-Term Incentive Plan satisfy the requirements for performance-based compensation under Section 162(m). However, the Committee also recognizes the need to retain flexibility to make compensation decisions that may not meet Section 162(m) standards when necessary to enable the Company to meet its overall objectives, even if the Company may not deduct all of the compensation. Accordingly, the Committee will award non-deductible compensation in appropriate circumstances, including restricted stock awards. During 2005, the Company paid certain compensation that was not tax-deductible due to the limitations of Section 162(m), but the effect on the Company's taxes was not material to the Company.

AUDIT COMMITTEE REPORT

Management is responsible for the Company's internal controls and the financial reporting process. The registered independent accounting firm is responsible for performing an independent audit of the Company's consolidated financial statements and of management's report on internal control, in accordance with generally accepted auditing standards, and for issuing a report thereon. The Audit Committee's responsibility is to monitor and review these controls and processes and the activities of the Company's registered independent accounting firm. The Audit Committee members are not acting as professional accountants or auditors, and their functions are not intended to duplicate or certify the activities of management and the registered independent accounting firm or to certify the independence of the registered independent accounting firm under applicable rules.

The Audit Committee has reviewed and discussed Triad's audited financial statements and management's report on internal control as of December 31, 2005 with management and Ernst & Young LLP, Triad's registered independent accounting firm.

The Audit Committee has discussed with Ernst & Young LLP the matters required to be discussed by Statement on Auditing Standards No. 61 (Codification of Statements on Auditing Standards, AU 380), as amended, as issued by the Auditing Standards Board of the American Institute of Certified Public Accountants.

The Audit Committee has received and reviewed the written disclosures and the letter from Ernst & Young LLP required by Independence Standard No. 1, as adopted by the Independence Standards Board, and has discussed with Ernst & Young LLP its independence. When considering Ernst & Young LLP's independence, the Audit Committee considered, among other matters, whether Ernst & Young LLP's provision of non-audit services to the Company is compatible with maintaining the independence of Ernst & Young LLP. Consistent with the requirements of the Sarbanes-Oxley Act of 2002, the Audit Committee has adopted additional policies to ensure the independence of the registered independent accounting firm, such as prior committee approval of non-audit services.

Based on the review and discussions referred to above, the Audit Committee has recommended to the Board of Directors that the audited financial statements and management's report on internal control as of December 31, 2005 be included in Triad's Annual Report on Form 10-K. The Audit Committee also selected Ernst & Young LLP as registered independent accounting firm of the Company for fiscal year 2006.

PROPOSAL II

RATIFICATION OF SELECTION OF REGISTERED INDEPENDENT ACCOUNTING FIRM

In accordance with its charter, the Audit Committee of the Board of Directors has selected Ernst & Young LLP as the Company's registered independent accounting firm to audit the Company's consolidated financial statements for fiscal 2006 and to render other services required of them. Ernst & Young LLP has served as the Company's registered independent accounting firm for the past six consecutive fiscal years. The Board of Directors is submitting the appointment of Ernst & Young LLP for ratification at the 2006 Annual Meeting.

Although the submission of this matter for ratification by stockholders is not legally required, the Board of Directors and its Audit Committee believe that such submission is consistent with best practices in corporate governance and is an opportunity for stockholders to provide direct feedback to the Board of Directors and its Audit Committee on an important issue of corporate governance. If the stockholders do not ratify the selection of Ernst & Young LLP at the meeting, the Audit Committee of the Board of Directors will reconsider its selection of such registered independent accounting firm; however, the Audit Committee of the Board of Directors may select Ernst & Young LLP notwithstanding the failure of the stockholders to ratify its selection.

The Audit Committee has direct authority and responsibility to retain, evaluate and, where appropriate, replace the independent accounting firm. Ratification by the stockholders of the appointment of Ernst & Young LLP does not limit the authority of the Audit Committee to direct the appointment of a new independent accounting firm at any time during the year.

A representative of Ernst & Young LLP is expected to be present at the meeting with the opportunity to make a statement if he or she so desires and to be available to respond to appropriate questions.

Required Vote

Ratification of the selection of Ernst & Young LLP as the Company's registered independent accounting firm for fiscal 2006 requires the affirmative vote of the holders of a majority of the votes of Triad common stock present or represented at the 2006 Annual Meeting and entitled to vote on such proposals. Abstentions may be specified on this proposal and will have the same effect as a vote against such proposal.

The Board of Directors recommends a vote FOR ratification of the selection of Ernst & Young LLP as the Company's registered independent accounting firm for fiscal 2006.
