This Report and our other communications and statements may contain forward-looking statements, including statements about our beliefs, plans, objectives, goals, expectations, estimates, projections and intentions. These statements are subject to significant risks and uncertainties and are subject to change based on various factors, many of which are beyond our control. The words may, could, should, would, believe, anticipate, estimate, expect, intend, plan, target, goal, and similar expressions are intended to identify forward-looking statements. All forward-looking statements, by their nature, are subject to risks and uncertainties. Our actual future results may differ materially from those set forth in our forward-looking statements. For information concerning these factors and related matters, see Item 2, Management's Discussion and Analysis of Financial Position and Results of Operations, in this Report, and the following sections of our Annual Report on Form 10-K for the year ended September 30, 2006: (a) Risk Factors in Part I, Item 1A and (b) Management's Discussion and Analysis of Financial Position and Results of Operations in Part II, Item 7. However, other factors besides those referenced could adversely affect our results, and you should not consider any such list of factors to be a complete set of all potential risks or uncertainties. Any forward-looking statements made by us herein speak as of the date of this Report. We do not undertake to update any forward-looking statement, except as required by law.

**Table of Contents****GENCOR INDUSTRIES, INC.****Notes to Condensed Consolidated Financial Statements***All amounts in thousands, except per share amounts***Note 1 Basis of Presentation**

The accompanying condensed consolidated financial statements have been prepared in accordance with generally accepted accounting principles for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by generally accepted accounting principles for complete financial statements. In the opinion of management, all material adjustments (consisting of normal recurring adjustments) considered necessary for a fair presentation have been included. Operating results for the three-months and nine-months ended June 30, 2007 are not necessarily indicative of the results that may be expected for the year ended September 30, 2007.

The balance sheet at September 30, 2006 has been derived from the audited financial statements at that date but does not include all of the information and footnotes required by generally accepted accounting principles for complete financial statements.

For further information, refer to the consolidated financial statements and footnotes thereto included in the Gencor Industries, Inc. Annual Report on Form 10-K for the year ended September 30, 2006.

**Note 2 Marketable Securities**

Marketable securities are categorized as trading securities and stated at market value. Market value is determined using the quoted closing or latest bid prices. Realized gains and losses on investment transactions are determined by specific identification and are recognized as incurred in the statement of income. Net unrealized gains and losses are reported in the statement of income and represent the change in the market value of investment holdings during the period. At June 30, 2007, Marketable securities consisted of \$27.7 in municipal bonds, \$7.2 in money market funds, and \$18.4 in equity stocks.

**Note 3 Inventories**

The components of inventory consist of the following:

	<b>June 30, 2007</b>	<b>September 30, 2006</b>
Raw materials	\$ 17,089	\$ 11,731
Work in process	4,324	4,258
Finished goods	6,229	5,918
Used equipment	2,071	1,053
	<b>\$ 29,713</b>	<b>\$ 22,960</b>

**Table of Contents****Note 4 Earnings Per Share Data**

The following table sets forth the computation of basic and diluted earnings per share for the periods indicated.

	Three-Months Ended June 30,		Nine-Months Ended June 30,	
	2007	2006	2007	2006
Net income	\$ 5,663	\$ 120	\$ 17,637	\$ 11,863
Denominator (shares in thousands):				
Weighted average shares outstanding	9,610	9,935	9,741	9,910
Effect of dilutive stock options			3	23
Denominator for diluted EPS computation	9,610	9,935	9,744	9,933
Per common share:				
Basic:				
Net income	\$ 0.59	\$ 0.01	\$ 1.81	\$ 1.20
Diluted:				
Net income	\$ 0.59	\$ 0.01	\$ 1.81	\$ 1.20

**Note 5 Comprehensive Income (Loss)**

The total comprehensive income for the three-months and nine-months ended June 30, 2007 was \$5,655 and \$17,637, respectively. The total comprehensive income for the three-months and nine-months ended June 30, 2006 was \$145 and \$11,880, respectively. Total comprehensive income differs from net income due to gains and losses resulting from foreign currency translation, which are reflected separately in the shareholders' equity section of the balance sheet under the caption Accumulated other comprehensive loss. Gains and losses resulting from foreign currency transactions are included in income.

**Note 6 Income From Investees**

The Company owns a 45% interest in Carbontronics LLC and a 25% interest in Carbontronics Fuels LLC and Carbontronics II, LLC. These interests were earned as part of value of risk on contracts to build four synthetic fuel production plants during 1998. The Company has no basis in these equity investments or requirement to provide future funding. The operations of Carbontronics LLC consist of the receipt of contingent payments from the sales of the plants and the distribution thereof to its members. Carbontronics LLC has no other significant operations or assets. The operations of Carbontronics II, LLC consist of the receipt of royalty payments from the plants and the distribution thereof to its members. Carbontronics II, LLC has no other significant operations or assets. Any income arising from these investments is dependent upon tax credits (adjusted for operating losses at the fuel plants) being generated as a result of synthetic fuel production, which will be recorded as received. The Company received \$4,765 of distributions in the quarter ended June 30, 2007 and a total of \$19,937 for the nine months ended June 30, 2007. The Company received no distributions in the quarter ended June 30, 2006. The Company received distributions of \$15,547 for the nine months ended June 30, 2006 less an accrual of \$1,000 for certain expenses associated with efforts by the Company as plaintiff in a matter against its synthetic fuels partners. These distributions are subject to state and Federal income taxes.

**Table of Contents**

Future distributions from these entities depend upon the production of these operations continuing to qualify for tax credits under Section 29 of the Internal Revenue Code and the ability to economically produce and market synthetic fuel produced by the plants. One of the contingencies related to future benefits from these entities is based on the average price of crude oil. Per a provision of Section 29, if the average price of crude oil reaches a certain level, the tax credits will terminate. The existing tax credit legislation is scheduled to expire at the end of calendar year 2007. Any one of the above eventualities may interrupt, reduce, or terminate further distributions.

---

**Table of Contents**

**Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations**

*Results of Operations*

Net sales for the quarters ended June 30, 2007 and 2006 were \$21.2 million and \$18.9 million, respectively. Domestic sales during the third quarter of fiscal 2007 increased \$2.1 million from year ago levels. Domestic sales were higher than the prior year's quarter due to the general improvement in the construction industry, partially due to the passage of the Federal highway bill in the summer of 2005. Foreign sales increased \$.2 million from the prior year.

Net sales for the nine-months ended June 30, 2007 and 2006 were \$60.0 million and \$52.5 million, respectively. Domestic sales during the first nine-months of fiscal 2007 increased \$6.6 million from year ago levels. Domestic sales were higher than the prior year's due to the general improvement in the construction industry, partially due to the passage of the Federal highway bill in the summer of 2005. Foreign sales increased \$.9 million from the prior year.

Our revenues are concentrated in the asphalt-related business and are subject to a seasonal slow-down during the third and fourth quarters of the calendar year.

Gross margin as a percent of net sales was 26.4 % for the quarter ended June 30, 2007, compared to 27.1% in the prior year. Gross margin as a percent of net sales was 27.2% for the nine-months ended June 30, 2007, and 26.3% for the nine-months ended June 30, 2006. Margin improvement for the nine months is due to the higher volumes being manufactured at our two domestic operations.

Selling and administrative expenses decreased \$428 for the quarter ended June 30, 2007 to \$3,208 and \$847 for the nine-months ended June 30, 2007 to \$10,087 due to reduced legal costs and depreciation for fiscal 2007.

The Company owns a 45% interest in Carbontronics LLC and a 25% interest in Carbontronics Fuels LLC and Carbontronics II, LLC. These interests were earned as part of value of risk on contracts to build four synthetic fuel production plants during 1998. The Company has no basis in these equity investments or requirement to provide future funding. Any income arising from these investments is dependent upon tax credits (adjusted for operating losses at the fuel plants) being generated as a result of synthetic fuel production, which will be recorded as received. The Company received distributions of \$4,765 in the quarter ended June 30 2007. The Company received no distributions in the quarter ended June 30, 2006. For the nine months ended June 30, 2007, the Company received distributions of \$19,937. For the nine months ended June 30, 2006, the Company received distributions of \$15,457 less an accrual of \$1,000 for certain expenses associated with efforts by the Company as plaintiff in a matter against its synthetic fuels partners. These distributions are subject to state and Federal income taxes.

Future distributions from these entities depend upon the production of these operations continuing to qualify for tax credits under Section 29 of the Internal Revenue Code and the ability to economically produce and market synthetic fuel produced by the plants. One of the contingencies related to future benefits from these entities is based on the average price of crude oil. Per a provision of Section 29, if the average price of crude oil reaches a certain level, the tax credits will terminate. The existing tax credit legislation is scheduled to expire at the end of calendar year 2007. Any one of the above eventualities may interrupt, reduce, or terminate further distributions.

The increase in value of marketable securities is a result of investing the net cash generated during the period and the net realized and unrealized gains during the period.

## **Table of Contents**

### *Liquidity and Capital Resources*

On August 1, 2006, we entered into a Revolving Credit and Security Agreement with PNC Bank, N.A. The Agreement established a three year revolving \$20 million credit facility and was renewed through July 31, 2009. The facility provides for advances based on accounts receivable, inventory and real estate. The facility includes a \$2 million limit on letters of credit. At June 30, 2007, we had \$.7 million of letters of credit outstanding. The interest rate at June 30, 2007, is at LIBOR plus 2.00% and subject to change based upon the Fixed Charge Coverage Ratio. We are required to maintain a Fixed Charge Coverage Ratio of 1.1:1. There are no required repayments as long as there are no defaults and there is adequate eligible collateral. Substantially all of our assets are pledged as security under the Agreement. We had no long term debt outstanding at June 30, 2007 or 2006.

As of June 30, 2007, we had \$7.4 million in cash and cash equivalents, and \$53.3 million in marketable securities. The marketable securities are invested in stocks, bonds, and money market funds through a professional investment advisor. Investment securities are exposed to various risks such as interest rate, market and credit. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of securities, it is possible that changes in these risk factors could have an adverse material impact on the our results of operations. The securities may be liquidated at any time into cash and cash equivalents.

Inventory increased due to increases in our orders as the backlog increased to \$13.8 million from \$7.5 million the prior year. Income taxes payable increased due to the increase in taxable income.

### *Seasonality*

Our business is concentrated in the asphalt-related business and is subject to a seasonal slow-down during the third and fourth quarters of the calendar year. Traditionally, our customers do not purchase new equipment for shipment during the summer and fall months to avoid disrupting their peak season for highway construction and repair work. This slow-down often results in lower reported sales and earnings and or losses during the first and fourth quarters of our fiscal year ended September 30.

### *Forward-Looking Information*

This Form 10-Q contains certain forward-looking statements within the meaning of Section 21E of the Securities Exchange Act of 1934, as amended (the Exchange Act), which represent our expectations and beliefs, including, but not limited to, statements concerning gross margins, sales of our products and future financing plans. These statements by their nature involve substantial risks and uncertainties, certain of which are beyond our control. Actual results may differ materially depending on a variety of important factors, including the financial condition of our customers, changes in the economic and competitive environments and demand for our products.

### **Item 3. Quantitative and Qualitative Disclosures About Market Risk**

We operate manufacturing facilities and sales offices principally located in the United States and the United Kingdom. We are subject to business risks inherent in non-U.S. activities, including political and economic uncertainty, import and export limitations, and market risk related to changes in interest rates and foreign currency exchange rates. Our principal currency exposure against the U.S. dollar is the British pound. Periodically, we will use derivative financial instruments consisting primarily of interest rate hedge agreements to manage exposures to interest rate changes. Our objective in managing its exposure to changes in interest rates on its variable rate debt is to limit their impact on earnings and cash flow and reduce its overall borrowing costs.

**Table of Contents**

At June 30, 2007, we had no debt outstanding. Under the Revolving Credit and Security Agreement, substantially all of our borrowings will bear interest at variable rates based upon the prime rate or a Eurodollar rate.

Marketable securities are invested in stocks, bonds, and money market funds through a professional investment advisor. Investment securities are exposed to various risks such as interest rate, market and credit. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of securities, it is possible that changes in these risk factors could have an adverse material impact on our results of operations or equity.

Our sensitivity analysis for interest rate risk excludes accounts receivable, accounts payable and accrued liabilities because of the short-term maturity of such instruments. The analysis does not consider the effect on other variables such as changes in sales volumes or management's actions with respect to levels of capital expenditures, future acquisitions or planned divestures, all of which could be significantly influenced by changes in interest rates.

**Item 4. Controls and Procedures**

The Company's Chief Executive Officer and Chief Financial Officer evaluated our disclosure controls and procedures as of the end of the period covered by this report. Based upon this evaluation, our Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures are effective in ensuring that material information required to be disclosed is included in the reports that it files with the Securities and Exchange Commission.

There were no significant changes in our internal controls or, to the knowledge of the management of the Company, in other factors that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting during the period covered by this report.
