8 TAXATION

Deferred income tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets against current tax liabilities and when the deferred income tax relate to the same fiscal authority.

(a) The amount of taxation charged to the consolidated income statement represents:

	For the year ended 31 December	
	2008 RMB million	2007 RMB million
Current taxation-enterprises income tax	2,077	8,730
Deferred taxation	(687)	(2,399)
Taxation charges	1,390	6,331

- (b) The reconciliation between the Group's effective tax rate and the statutory tax rate of 25% in the PRC (for the year ended 31 December 2007: 33%) is as follows:

	For the year ended 31 December	
	2008 <i>RMB million</i>	2007 <i>RMB million</i>

BASIS OF PREPARATION OF CONSOLIDATED FINANCIAL STATEMENTS

These consolidated financial statements have been prepared in accordance with Hong Kong Financial Reporting Standards (HKFRS), under the historical cost convention, as modified by the revaluation of available-for-sale financial assets and financial assets at fair value through income.

The Hong Kong Institute of Certified Public Accountants has issued some standards, amendments and interpretations which were effective for accounting periods beginning on or after 1 January 2008 (details are in Note 2 to the consolidated financial statements included in the 2008 annual report).

CHAIRMAN S STATEMENT

Dear Shareholders,

I am pleased to present to you the Group s operating results for the Reporting Period.

2008 has been an extraordinary year for China. During the first half of the year, the country was hit by the snow storm in Southern China at the beginning of the year, and then by the devastating earthquake in Sichuan on 12 May 2008. In the second half of the year, China felt the impact of the global financial crisis. Due to these external factors, the Company s operating and development environment has become very challenging. In response to this, the Company accurately assessed the macroeconomic and financial situation, the competition landscape and trends of the industry, and adopted proactive and prudent measures. As a result, the Company continued to be one of the strongest performers in the industry. The Company further enhanced its overall strength, leading position in the life insurance industry and social recognition during the year, making solid progress in the mode of development with its own characteristics.

For the Reporting Period, the Group s total revenues reached RMB166,811 million, net profit attributable to shareholders of the Company was RMB21,277 million, and the basic and diluted earnings per share was RMB0.75. The Board of Directors recommended the payment of a final dividend of RMB0.23 per share for the year ended 31 December 2008. This will come into effect after shareholders approval at the Annual General Meeting to be held on Monday, 25 May 2009.

The Company is the core member of China Life Insurance (Group) Company, which has been listed in Fortune Global 500 and the World Brand Lab s The World s 500 Most Influential Brands . In 2008, the Company received the Best Corporate Governance award by Finance Asia, and the Best Insurance Company in Asia 2008 and the Best Insurance Company in China 2008 awards by Euromoney. In January 2009, Standard & Poor Rating Services, Moody s Investors Service and Fitch Ratings assigned A+ , A1 and A+ to the Company respectively, with a stable rating outlook.

Substantial business growth and further enhancement in financial strength

During the year, the Company fully leveraged the resources of its local branches, sales force and bancassurance channels by adopting the proactive competition strategy, resulting in a rapid growth of its insurance business. During the Reporting Period, the Group's gross written premiums and policy fees reached RMB135,325 million, an increase of 20.9% from 2007.

According to the data released by China Insurance Regulatory Commission, under PRC Generally Accepted Accounting Principles (PRC GAAP), the Company's market share in 2008 was about 40.3%, up 0.5 percentage point from 2007, further enhancing the Company's leading position in the life insurance market of China¹.

As at the end of the Reporting Period, the Group's total assets reached RMB1,044,828 million, an increase of 11.9% from the end of 2007. The embedded value reached RMB240,087 million, and the solvency ratio was 310%. For the Reporting Period, value of one year's sales of the Company reached RMB13,924 million, an increase of 15.6% from 2007.

Meeting with market changes proactively and emphasizing sustainability of development

In 2008, in response to the increasingly acute competition in the insurance market, the Company continued to optimize its business structure and enhance long-term development sustainability. The Company focused on the development of traditional and participating products as well as moderate growth of investment-related products such as unit-linked insurance products and universal life insurance products, with a view to continually enhancing the profitability of its insurance products and business; emphasized on the development of long-term regular premium products to further optimize the business structure; and emphasized on the development of protection-oriented insurance products to continue to enhance the core competitiveness of its insurance products.

In 2008, the Group's first-year regular gross written premiums reached RMB30,280 million, an increase of 24.3% from 2007. First-year regular gross written premiums accounted for 93.4% of first-year gross written premiums of long-term traditional insurance contracts. Moreover, the Company's Policy Persistency Rate²(14 months and 26 months) reached 92.50% and 86.05% respectively. Surrender Rate³ fell to 4.38%, a 1.62 percentage point decrease from 2007.

¹ For the purpose of this announcement, refers to the People's Republic of China, excluding the Hong Kong Special Administrative Region, Macau Special Administrative Region, and Taiwan region

² The Persistency Rate for long-term individual policy is an important operating performance indicator for life insurance companies. It measures the ratio of in-force policies in a pool of policies after a certain period of time. It refers to the proportion of policies that are still effective during the designated month in the pool of policies whose issue date was 14 or 26 months ago.

³ According to PRC GAAP

Prudent investment strategy, further optimizing investment portfolio

The sharp fall in capital markets during 2008 due to global financial crisis resulted in substantial pressure on the Company's investment. The Company adopted the prudent investment strategy, optimized the investment portfolio according to the market situations by reducing the proportion of equity investment and increased the investment in fixed-income securities, and endeavored to increase the efficiency of investment. As at the end of the Reporting Period, the proportion of debt securities increased from 52.1% at the end of 2007 to 61.4%, the proportion of term deposits increased from 19.8% at the end of 2007 to 24.4%, and the proportion of equity securities decreased from 23.0% at the end of 2007 to 8.0%.

The Company correctly assessed the situation in the international financial markets, and effectively controlled its investment risk during the market turmoil. The Company did not invest in any foreign debts, stocks and derivatives directly related to the subprime crisis. Moreover, the Company's US\$ 260 million investment in the initial public offering of Visa International generated an investment return of close to 70%.

As at the end of the Reporting Period, the Group's investment assets reached RMB 937,403 million, an increase of 10.3% from the end of 2007. For the Reporting Period, the net investment yield⁴ was 4.96% and the gross investment yield⁵ was 3.40%.

Steady development of distribution channels and sales teams

In 2008, the exclusive individual agents channel continued to be the core distribution channel for the Company, supplemented by the group insurance and bancassurance channels. These three channels witnessed steady development in the year. While ensuring the Company's business growth, the exclusive agents channel focused on the sale of long-term regular premium products, the group insurance channel focused on developing the more profitable accident insurance business, and regular-premium business through the bancassurance channel also grew quite strongly.

As at the end of the Reporting Period, the Company had about 716,000 exclusive agents, an increase of 78,000 from the end of 2007. The proportion of exclusive agents holding valid licenses was 99.6%, an increase of 1.5 percentage points from the end of 2007. The Company optimized the structure of its direct sales team, which has over 12,600 representatives. The Company had nearly 94,000

⁴ The net investment yield = net investment income / ((investment assets at the beginning of the period - securities sold under agreements to repurchase at the beginning of the period + investment assets at the end of the period - securities sold under agreements to repurchase at the end of the period) / 2)

⁵ The gross investment yield = (net investment income + net realized gains/(losses) on financial assets + net fair value gains/(losses) on assets at fair value through income) / ((investment assets at the beginning of the period - securities sold under agreements to repurchase at the beginning of the period + investment assets at the end of the period - securities sold under agreements to repurchase at the end of the period) / 2)

intermediary bancassurance outlets, including commercial bank branches, postal savings outlets and cooperative savings institutions. In addition, the Company has over 26,000 client service managers for its bancassurance channel, an increase of 44% from the end of 2007, while the number of financial advisors in the bancassurance channel was over 11,000, an increase of 110% from the end of 2007.

Accelerating management reform and innovation and enhancing risk control capability

In 2008, the Company continued to deepen the reform on the modern enterprise management system. While optimizing the provincial centralization of business management, customer service, finance and information technology, the Company also initiated centralized management of the exclusive agents distribution channel at the provincial level. Five regional audit centers directly subordinate to the headquarter were established, and the internal audit system was rebuilt to strengthen the audit and supervision capabilities of the Company. In addition, the Company restructured the information technology function, and established its Beijing research and development centre and Shanghai database centre to form a professional research and development and operation support system.

In 2008, the Company further enhanced its internal risk control system. The Company established Sales Supervision Department and restructured its Internal Control and Compliance Department and Legal Affairs Department into Internal Control and Risk Management Department and Legal Affairs and Compliance Department through functional adjustment to clarify roles and responsibilities of risk management and properly allocate resources. The Company's risk control capability was further improved by strengthening its risk prospecting system, implementing special-purpose risk audits, stepping up efforts on investigation of improper sales cases, and implementing continuous auditing and effectiveness monitoring of the entire system.

Corporate governance

In 2008, the Company aimed at continually improving its corporate governance structure and system so that its shareholders' general meeting, Board of Directors, Supervisory Committee and senior management could fully perform their roles in decision-making, strategy execution, operating management and risk monitoring and control. During the year, the composition of the Board of Directors and its committees were readjusted with the election of new directors, namely, Mr. Miao Jianmin, Mr. Lin Dairen and Ms. Liu Yingqi. The Board of Directors believes that the three newly elected directors, with their rich experiences in the insurance industry, would make considerable contribution to the Company.

Corporate Social Responsibility

The Company has always been a caring member of the society and has proactively fulfilled its social responsibilities. In 2008, the Company, the Company's employees and exclusive agents, together with China Life Charity Foundation donated more than RMB 60 million after the snow storm in Southern China and the earthquake in Wenchuan, Sichuan. In addition, the Company donated accident insurance to 12 types of disaster relief personnel such as soldiers and policemen involved in these events. China Life Charity Foundation also announced to cover basic living expenses of earthquake orphans. For supporting the national aerospace development, the Company provided insurance for the astronauts and scientists of the Shenzhou VII spacecraft. The Company was also conferred with the Olympic Volunteers Advanced Organizational Units for the excellent performance of its Olympic Audience Call Center volunteer team. Further, the Company received the China Charity Award, the highest charity award from the government, for the Company's outstanding charitable contributions.

Outlook

2009 is expected to be a more difficult year full of uncertainties, both for international and domestic economies and financial markets. In accordance with the requirements of all-round, coordinated and sustainable development, the Company considers development as its top priority, and will strive to achieve stable growth of insurance business. Meanwhile, the Company will continue to enhance business profitability through significantly restructuring the mix of its insurance portfolio. It will also further carry on the reform on its modern operation and management system to drive the momentum for continuous growth. Moreover, the Company will continue to strengthen its risk management and control capabilities to ensure sound business development. The Company will strive to capture business opportunities as its own situation permits, while emphatically guarding against various risks. Net Premiums Earned and Policy Fees			

Net premiums earned and policy fees increased by 20.9% from 2007. This increase was primarily due to increases in net premiums earned from the individual life insurance and accident and health insurance businesses, and increase in policy fees from individual life insurance business.

Net premiums earned from participating products of long-term traditional insurance contracts were RMB60,305 million in 2008, an increase of 28.4% from RMB46,972 million in 2007. This increase was primarily due to our increased sales efforts for participating products. Of total net premiums earned in 2008, RMB2,134 million was attributable to single premium products and RMB106,425 million was attributable to regular premium products (including both first-year and renewal premiums).

Individual Life Insurance Business

Net premiums earned and policy fees from the individual life insurance business increased by 23.3% from 2007. This increase was primarily due to increases in the business volume of traditional and participating products of individual life insurance business.

Group Life Insurance Business

Net premiums earned and policy fees from the group life insurance business decreased by 44.7% from 2007. This decrease was primarily due to the significant impact on the supplemental corporate annuity market from the corporate annuity policy put forward by the government. Under such circumstance, the Company changed our business model and actively readjusted our annuity business strategy.

Accident and Health Insurance Business

Net premiums earned from the accident and health insurance business (both of which comprise short-term products) increased by 8.3% from 2007. This increase was primarily due to our increased sales efforts for accident and health insurance business.

Net Investment Income

Net investment income increased by 0.1% from 2007. This increase was primarily due to the increase of fixed-income investment, which offset in part the decrease in investment yield.

The net investment yield for 2008 was 4.96%, a 0.8 percentage point decrease from 2007. This decrease was primarily due to the decrease of dividends from equity investments.

Net Realized Gains on Financial Assets

Net realized gains on financial assets decreased by 142.4% from 2007. This decrease was primarily due to the sharp fall of capital market.

Net Fair Value Gains on Assets at Fair Value through Income (Held-for-Trading)

Net fair value gains on assets at fair value through income (held-for-trading) decreased by 138.7% from 2007.

In particular, net fair value gains on assets at fair value through income (held-for-trading) on debt securities decreased by 21.6% from 2007. Net fair value gains on assets at fair value through income (held-for-trading) on equity securities decreased by 141% from 2007.

This decrease was primarily due to the sharp fall of capital market.

Other Income

Other income increased by 11.8% from 2007. This increase was primarily due to the increase in the fee income from relevant agency business.

Insurance Benefits and Claims

Insurance benefits and claims, net of amounts ceded through reinsurance, increased by 17.7% from 2007. This increase was primarily due to the increase in business volume and the accumulation of liabilities. Life insurance death and other benefits increased by 2% to RMB17,777 million in 2008 from RMB17,430 million in 2007. This increase was primarily due to the increase in business volume and the accumulation of liabilities. Life insurance death and other benefits as a percentage of gross written premiums and policy fees were 13.1% and 15.6% in 2008 and 2007 respectively. Interest credited to long-term investment-type insurance contracts increased by 28.3% to RMB9,212 million in 2008 from RMB7,181 million in 2007. This increase primarily reflected an increase in the total policyholder account balance.

Insurance benefits and claims, net of amounts ceded through reinsurance, attributable to participating products increased by 25.2% to RMB47,531 million in 2008 from RMB37,962 million in 2007. Of these insurance benefits and claims attributable to participating products, life insurance death and other benefits decreased by 4.7% to RMB8,813 million in 2008 from RMB 9,248 million in 2007; the increase in liability of long-term traditional insurance contracts increased by 37.8% to RMB31,060 million in 2008 from RMB22,548 million in 2007; and the interest credited to long-term investment-type insurance contracts increased by 24.2% to RMB7,658 million in 2008 from RMB6,166 million in 2007.

Individual Life Insurance Business

Insurance benefits and claims for the individual life insurance business increased by 18.9% from 2007. This increase was primarily due to the increase in business volume and the accumulation of liabilities.

Of these insurance benefits and claims, life insurance death and other benefits increased by 2.7% to RMB16,915 million in 2008 from RMB16,463 million in 2007. This increase was primarily due to the increase in the number of policies in force, the accumulation of liabilities and the number of insurance policies reaching maturity. The increase in liability of long-term traditional insurance contracts increased by 23.3% to RMB55,957 million in 2008 from RMB45,370 million in 2007. The increase in liability of long-term traditional insurance contracts was primarily due to the increase in business volume and the accumulation of liabilities.

Group Life Insurance Business

Insurance benefits and claims for the group life insurance business decreased by 77.7% from 2007. This decrease was primarily due to a decrease in business volume of group life insurance business.

Of these insurance benefits and claims, life insurance death and other benefits decreased by 10.9% to RMB862 million in 2008 from RMB967 million in 2007 and the increment in long-term traditional insurance contracts liabilities decreased by RMB640 million to RMB(676) million in 2008 from RMB (36) million in 2007.

Accident and Health Insurance Business

Insurance benefits and claims for the accident and health insurance business (both of which comprise short-term products) increased by 19.1% from 2007. This increase was primarily due to an increase in business volume.

Interest Credited to Investment Contracts

Interest credited to investment contracts increased by 19.3% from 2007. This increase primarily reflected an increase in the total investment contracts account balance. Interest credited to participating investment contracts increased by 20.2% to RMB1,309 million in 2008 from RMB1,089 million in 2007.

Increase in Deferred Income

Increase in deferred income includes the deferred profit liability arising from long-term traditional insurance contracts and the unearned revenue liability arising from long-term investment-type insurance contracts and investment contracts. The increase in deferred income increased by 114.4% from 2007. This increase was primarily due to an increase in business volume.

Policyholder Dividends Resulting from Participation in Profits

Policyholder dividends resulting from participation in profits decreased by 91.5% from 2007. This decrease was primarily due to a decrease in investment yield for participating products.

Amortization of Deferred Policy Acquisition Costs

Amortization of deferred policy acquisition costs decreased by 12.5% from 2007. This decrease was primarily due to a decrease in investment yield.

Underwriting and Policy Acquisition Costs

Underwriting and policy acquisition costs primarily reflect the non-deferrable portion of underwriting and policy acquisition costs. Underwriting and policy acquisition costs increased by 24.6% from 2007. Underwriting and policy acquisition costs were approximately 2.5% of net premiums earned and policy fees both in 2008 and 2007.

Underwriting and policy acquisition costs in the individual life insurance business increased by 20.3% from 2007. This increase was primarily due to an increase of business volume and the more intense market competition. Underwriting and policy acquisition costs in the group life insurance business increased by 133.3% from 2007. This increase was primarily due to an increase of business volume and the more intense market competition. Underwriting and policy acquisition costs in the accident and health insurance business increased 36.3% from 2007. This increase was primarily due to an increase of business volume and the more intense market competition.

Administrative Expenses

Administrative expenses include the non-deferrable portion of policy acquisition costs, as well as employees remuneration and other administrative expenses. Administrative expenses increased by 2.6% from 2007. This increase was primarily due to an increase in business volume and stricter internal cost control.

Other Operating Expenses

Other operating expenses, which primarily consist of foreign exchange losses and expenses for non-core business, increased by 14.5% from 2007. This increase was primarily due to the increase in donation expense and interest for securities sold under agreements to repurchase.

Income Tax

We pay income tax according to applicable Chinese enterprise income tax regulations and rules. Income tax expense, including current and deferred taxations, decreased by 78.0% from 2007. This decrease was primarily due to a decrease of net profit before income tax. Our effective tax rate for 2008 was 6.1%, which decreased by 7.8 percentage points from an effective tax rate for 2007 of 13.9%. The decrease was due to a decrease in net profit before income tax.

DIFFERENCE IN ACCOUNTING STANDARDS

On 7 August 2008, the Ministry of Finance issued the No.2 Interpretation of Accounting Standard for Business Enterprises, which requires dual listed companies to recognise, measure and report the same items with same accounting policies and estimates, unless

exempted in the Interpretation. According to the Notification on the implementation of the No.2 Interpretation of Accounting Standard for Business Enterprises during 2008 Annual Report preparation, issued by the Ministry of Finance on 26 December 2008, and the No. 48 [2008] Announcement issued by China Securities Regulatory Commission on 28 December 2008, listed companies who issued both A shares and H shares were required to take steps to remove the differences under different Accounting Standards and make appropriate disclosures in their 2008 A Share Annual Report. China Insurance Regulatory Commission issued the Notification on the Implementation of the No.2 Interpretation of Accounting Standard for Business Enterprises in the Insurance Sector (No.1 [2009] of China Insurance Regulatory Commission). According to this notification, when insurance companies prepare their 2009 financial reports, the accounting policies that cause differences in A Share and H Share financial reports will be modified. The implementation standard will be issued later. The Group is waiting for the implementation standards to evaluate the effect of the No.2 Interpretation of Accounting Standard for Business Enterprises.

Notes:

(i) Deferred policy acquisition costs (DAC)

Under the PRC GAAP, commission, brokerage and operating expenses are recorded in the income statement when incurred. The actuarial reserving method employed under the PRC GAAP makes an implicit allowance for first year expenses in excess of policy loadings. Under HKFRS, The costs of acquiring new and renewal business which vary with and are primarily related to the production of new and renewal business are deferred. DAC for long-term traditional insurance contracts are amortized over the premium paying period as a constant percentage of expected premiums. DAC for long-term investment type insurance contracts and investment contracts are amortized over the expected life of the contracts as a constant percentage of the present value of estimated gross profits expected to be realized over the life of the contracts.

(ii) Premiums, benefits and reserves of insurance and investment contracts

Under the PRC GAAP, the long-term products comprise life insurance and long-term health insurance, whose premiums received and benefits paid are recognized in current period's income statement. Under HKFRS, the long-term products are classified into four categories: long-term traditional insurance contracts, long-term investment type insurance contracts,

investment contracts with DPF and investment contracts without DPF. For the last three categories, premiums and interests earned are accounted as deposits to the related policy accounts while benefits as well as policy fees, mortality and surrender charges are accounted as withdrawals from the related policy accounts. The reconciling item also includes an amount resulting from differences in actuarial reserving methodologies. Under the PRC GAAP, unearned premium reserve is provided for the future insurance obligations from insurance business with policy terms of no more than one year. In accordance with HKFRS 4 Insurance Contract, premiums from short-duration contracts ordinarily shall be recognized as revenue over the period of the contract in proportion to the amount of insurance protection provided.

(iii) Impact on associates incurred from difference in accounting standards

The difference between PRC GAAP and HKFRS exist in the Company's associate, China Life Property and Casualty Insurance Company Limited. The impact on the profit and shareholders' equity of China Life Property and Casualty Insurance Company Limited from above difference influence the Group through equity method.

(iv) Reversal of property, plant and equipment revaluation surplus and its related depreciation

Under PRC GAAP, the Group recognized capital surplus arising from assets revaluation (mainly property, plant and equipment). Under Hong Kong Accounting Standard 16 Property, Plant and Equipment, the Company has chosen the cost model as its accounting policy and does not recognize any revaluation relating to property, plant and equipment. The revaluation surplus and its related depreciation under the PRC GAAP are reversed under HKFRS.

CORPORATE GOVERNANCE

During the year 2008, the Company complied with all the code provisions under the Code on Corporate Governance Practices (the Code) published by The Stock Exchange of Hong Kong Limited (the Hong Kong Stock Exchange). The Company also adopted certain recommended best practices under appropriate circumstances.

Currently the Board of Directors consists of thirteen members. Six of them are independent non-executive directors and three of them are non-executive directors, which represents over half of the Board of Directors. This complies with the minimum requirements of the Rules Governing the Listing of Securities on the Hong Kong Stock Exchange relating to the appointment of at least three independent non-executive directors and also exceeds the recommended best practice under the Code that one third of the board be represented by independent non-executive directors.

In order to foster sound corporate governance and operate in a more efficient manner, the Articles of Association, Procedural Rules for Shareholders' General Meetings, Procedural Rules for Board of Directors Meetings and Procedural Rules for Supervisory Committee Meetings have been revised appropriately pursuant to the relevant newly enacted laws and regulations of the places where the Company is listed. The shareholders' general meetings, the board meetings and the supervisory committee meetings are functioning efficiently pursuant to the Articles of Association and their respective rules and procedures.

During 2008, in order to improve the corporate governance of the Company and continue with special-purpose activities for corporate governance, the Company took effective measures and conducted sustaining rectification tasks with a view to improving operation efficiency of the Board of Directors and enhancing the communication with investors. The Company also endeavored to continuously improve its information disclosure system and procedures, enhance initiative on information disclosure, increase transparency of the Company's operations, and ensure that investors, especially medium and small investors, have equal access to information about the Company. For more details, please refer to the Sustaining Rectification Report on Corporate Governance published on the Shanghai Stock Exchange on 30 July 2008.
