Letter to Shareholders

Dear Shareholders:

I wish there were more positive highlights to report for the funds of the WisdomTree Trust for the fiscal year that ended March 31, 2009. Unfortunately, the last 12 months represented one of the worst one-year periods for equity returns since the Great Depression.

U.S. stocks, as measured by the Russell 3000 Index, declined 38.20% through March 31, 2009. Stocks in developed and developing foreign markets, as measured by the MSCI EAFE Index and the MSCI Emerging Markets Index, respectively, fell by approximately 47% over the same period. Value stocks underperformed growth stocks in the U.S. and international markets. Financial stocks represented the worst performing sector in the U.S and in the developed world.

These factors impacted the returns of many of WisdomTree's funds, both on an absolute and relative basis to comparable cap-weighted indexes. 17 of WisdomTree's 40 equity funds with at least one-year track records outperformed their comparable capitalization-weighted benchmark in the fiscal year ended March 31, 2009. Yet, despite this past year's formidable headwinds, 24 of WisdomTree's 42 equity ETFs have outperformed their comparable benchmarks since inception. WisdomTree's strongest relative showing occurred within the developing world. The WisdomTree Emerging Markets Equity Income Fund (Ticker Symbol: DEM) and the WisdomTree Emerging Markets SmallCap Dividend Fund (Ticker Symbol: DGS) outperformed their comparable cap-weighted benchmarks by 10.86 percentage points and 9.18 percentage points, respectively. WisdomTree's weakest relative performance for the period was exhibited by the WisdomTree SmallCap Dividend Fund (Ticker Symbol: DES), which underperformed the Russell 2000 Index by 7.77 percentage points.

WisdomTree also launched two innovative equity products in the past fiscal year. In July, WisdomTree introduced the WisdomTree Middle East Dividend Fund (Ticker Symbol: GULF), which gives investors exposure to eight equity markets in the Persian Gulf region. In December, WisdomTree launched the WisdomTree LargeCap Growth Fund (Ticker Symbol: ROI), the industry's first fundamentally weighted growth ETF. WisdomTree believes these funds give investors new ways to apply the fundamentally weighted concept across the full spectrum of equity investing, both domestically and internationally.

Though the challenging market environment has extended into 2009, the recent financial crisis has highlighted the potential benefits of ETFs. We believe that investors are placing ever more importance on the transparency, liquidity and tax efficiency that ETFs provide.

Thank you for your continued support.

Best regards,

Jonathan Steinberg

The Russell 3000 Index measures the performance of the 3000 largest stocks in the U.S. market by market. The MSCI Emerging Markets Index is a market cap weighted index that is designed to measure equity market performance consisting of 25 emerging market country indexes. The MSCI EAFE Index is a market capitalization-weighted index composed of companies representative of the developed market structure of 21 developed countries in Europe, Australasia and Japan. The Russell 2000 Index measures the performance of the smallest 2,000 companies in the Russell 3000 Index. You cannot directly invest in an index.

The six WisdomTree Trust domestic dividend ETFs give investors access to all major market capitalization segments of the U.S. equity market. The WisdomTree dividend-based ETFs are designed to offer investors alternatives to market capitalization-weighted index funds by tracking proprietary indexes that are weighted based on the dividends companies pay.

U.S. Market Overview

The U.S. equity market, measured by the Russell 3000 Index, S&P 500 Index, and Dow Jones Industrial Average, all popular benchmarks for U.S. equity markets, declined between 36% to 38% in the 12 months that ended March 31, 2009 (the period .) The fourth quarter of 2008 marked the largest quarterly retrenchment in U.S. equity prices since the fourth quarter of 1987. The market, as measured by Russell 3000 Index, then continued to slide a further 11% in the first quarter of 2009. Stocks retracted on continued tight credit, earnings concerns within a tepid operating environment, and from broader evidence of the U.S. economy's continued faltering.

The equity markets' significant retraction was caused by various factors including the credit crisis that was sparked by the bankruptcy of the investment bank, Lehman Brothers in September 2008. Banks became afraid to lend to each other, as fears spiraled that their money was not safe at any financial institution. As a result, borrowing rates on loans rose significantly, increasing the cost of doing business for companies all across the economy. Companies reacted by decreasing spending on investments and they began trimming their workforces in response to their higher cost of capital. Consumers, in turn, became more fearful of losing their jobs. Nervous employees started saving more and spending less, creating a downward spiral and even weaker economic environment. The unemployment rate rose to 8.1% in March of 2009, its highest level since 1983. Jobless claims spiked above 670,000, marking the breadth of the U.S. recession.

Summary of Fund Performance versus Capitalization-Weighted Benchmarks for Year ended March 31, 2009

TICKER	WISDOMTREE FUND	1 YEAR	CAPITALIZATION-WEIGHTED BENCHMARK INDEX	1 YEAR	1 YEAR FUND vs INDEX

DHS	WT Equity Income Fund	(49.06)%	Russell 1000 Value Index	(42.42)%	(6.64)%

Under WisdomTree's fundamentally weighted methodology, the financial sector had an above average weight in its proprietary indexes as compared to market-capitalization weighted indexes. This is because the financial sector historically has paid above average dividends. Because of the credit crises and resulting economic downturn, the financial sector was the worst-performing sector in the period, as banks took large write-downs to their balance sheets, and many were forced to cut their dividends to preserve capital. This created greater downward pressure on their stock prices as dividends no longer enticed investors to own the stocks.

Within the WisdomTree domestic dividend fund family, the funds that had the greatest exposure to financial stocks, the WisdomTree Equity Income Fund and the WisdomTree SmallCap Dividend Fund, had the worst performance in the period.

The WisdomTree Total Dividend Fund seeks investment results that closely correspond to the price and yield performance, before fees and expenses, of the WisdomTree Dividend Index.

The WisdomTree Total Dividend Fund (Ticker Symbol: DTD) returned (41.29)% at net asset value (NAV) for the fiscal year ended March 31, 2009 (for more complete performance information, please see below). Financials detracted the most from returns, with an average weight of 26.54% of the Fund and returns of (62.19)% over the period. The Fund's decline was least affected by Telecommunication Services which returned (23.86)%, with an average weight of 5.77% of the Fund over the period.

The following performance chart is provided for comparative purposes and represents the period noted. The Fund's per share NAV is the value of one share of the Fund and is calculated by dividing the value of total assets less total liabilities by the number of shares outstanding. The NAV return is based on the NAV of the Fund and the market return is based on the market price per share of the Fund. The price used to calculate market price returns is the mid-point of the highest bid and lowest offer for Fund shares as of the close of trading on the exchange where Fund shares are listed. NAV and market returns assume that dividends and capital gain distributions have been reinvested in the Fund at NAV and market price, respectively. As with other ETFs, NAV returns and market price returns may differ because of factors such as the supply and demand for Fund shares and investors assessments of the underlying value of a Fund's portfolio securities.

An index is a statistical measure of a specified financial market or sector. An index does not actually hold a portfolio of securities, incur expenses or pay any transaction costs. The price used to calculate market price returns is the mid-point of the highest bid and lowest offer for Fund shares as of the close of trading on the exchange where Fund shares are listed. NAV and market returns assume that dividends and capital gain distributions have been reinvested in the Fund at NAV and market price, respectively. As with other ETFs, NAV returns and market price returns may differ because of factors such as the supply and demand for Fund shares and investors assessments of the underlying value of a Fund's portfolio securities.

An index is a statistical measure of a specified financial market or sector. An index does not actually hold a portfolio of securities, incur expenses or pay any transaction costs. Therefore index returns do not reflect deductions for fees or expenses and are not available for direct investment. In comparison, the Fund's performance is negatively impacted by these deductions. Fund returns do not reflect brokerage commissions or taxes on transactions in Fund shares or that a shareholder would pay on Fund distributions. **The annual expense ratio of the Fund is 0.38%.**

The WisdomTree SmallCap Dividend Fund seeks investment results that closely correspond to the price and yield performance, before fees and expenses, of the WisdomTree SmallCap Dividend Index.

The WisdomTree SmallCap Dividend Fund (Ticker Symbol: DES) returned (45.27)% at net asset value (NAV) for the fiscal year ended March 31, 2009 (for more complete performance information, please see below). Financials detracted the most from returns, with an average weight of 54.27% of the Fund and returns of (51.53)% over the period. The Fund's decline was least affected by Health Care which returned (6.95)%, with an average weight of 1.26% of the Fund over the period.

The following performance chart is provided for comparative purposes and represents the period noted. The Fund's per share NAV is the value of one share of the Fund and is calculated by dividing the value of total assets less total liabilities by the number of shares outstanding. The NAV return is based on the NAV of the Fund and the market return is based on the market price per share of the Fund. The price used to calculate market price returns is the mid-point of the highest bid and lowest offer for Fund shares as of the close of trading on the exchange where Fund shares are listed. NAV and market returns assume that dividends and capital gain distributions have been reinvested in the Fund at NAV and market price, respectively. As with other ETFs, NAV returns and market price returns may differ because of factors such as the supply and demand for Fund shares and investors assessments of the underlying value of a Fund's portfolio securities.

Shareholder Expense Examples (unaudited)

As a shareholder of a WisdomTree Fund, you incur two types of costs: (1) transaction costs, including brokerage commissions on purchases and sales of your Fund shares and (2) ongoing costs, including management fees and other Fund expenses. The following example is intended to help you understand your ongoing costs (in dollars and cents) of investing in a Fund and to compare these costs with the ongoing costs of investing in other funds.

The example is based on an investment of \$1,000 invested at the beginning of the period and held for the entire period from October 1, 2008 to March 31, 2009.

Actual expenses

The first line under each Fund in the table on the next page provides information about actual account values and actual expenses. You may use the information in this line, together with the amount you invested, to estimate the expenses that you paid over the period. Simply divide your account value by \$1,000 (for example, an \$8,600 account value divided by \$1,000 = 8.6), then multiply the result by the number in the first line for your Fund under the heading entitled *Expenses Paid During Period 10/01/08 to 3/31/09* to estimate the expenses you paid on your account during this period.

Hypothetical example for comparison purposes

The second line under each Fund in the table on the next page provides information about hypothetical account values and hypothetical expenses based on each Fund's actual expense ratio and an assumed rate of return of 5% per year before expenses, which is not the Fund's actual return. The hypothetical account values and expenses may not be used to estimate the actual ending account balance or expenses you paid for the period. You may use this information to compare the ongoing costs of investing in your Fund and other funds. To do so, compare this 5% hypothetical example with the 5% hypothetical examples that appear in the shareholder reports of the other funds.

Please note that the expenses shown in the table are meant to highlight your ongoing costs only and do not reflect any transactional costs, such as brokerage commissions paid on purchases and sales of Fund shares. Therefore, the second line under each Fund in the table is useful in comparing ongoing Fund costs only and will not help you determine the relative total costs of owning different funds. In addition, if these transactional costs were included, your costs would have been higher.

- ² Based on average shares outstanding.
- ³ Total return is calculated assuming an initial investment made at the net asset value at the beginning of the period, reinvestment of all dividends and distributions at net asset value during the period and redemption on the last day of the period. Total return calculated for a period of less than one year is not annualized. The total return would have been lower if certain expenses had not been reimbursed/waived by the investment adviser (Note 2).
- ⁴ Annualized.
- ⁵ Portfolio turnover rate is not annualized and excludes the value of portfolio securities received or delivered as a result of in-kind creations or redemptions of the Fund's capital shares.

Notes to Financial Statements

1. ORGANIZATION

WisdomTree Trust (the Trust) is registered under the Investment Company Act of 1940, as amended (the 1940 Act), as an open-end management investment company. The Trust was established as a Delaware statutory trust pursuant to a Trust Instrument dated December 15, 2005. As of March 31, 2009, the Trust offered 50 investment funds (each a Fund, collectively, the Funds). The Funds, described herein, commenced operations on June 16, 2006.

These financial statements relate only to the WisdomTree Total Dividend Fund (Total Dividend Fund), WisdomTree Equity Income Fund, formerly the WisdomTree High-Yielding Equity Fund (Equity Income Fund), WisdomTree LargeCap Dividend Fund (LargeCap Dividend Fund), WisdomTree Dividend ex-Financials Fund, formerly known as the WisdomTree Dividend Top 100 Fund (Dividend ex-Financials Fund), WisdomTree MidCap Dividend Fund (MidCap Dividend Fund) and WisdomTree SmallCap Dividend Fund (SmallCap Dividend Fund), together the Domestic Dividend Funds.

Each Fund seeks investment returns that closely correspond to the price and yield performance, before fees and expenses, of a particular index (Index) developed by WisdomTree Investments, Inc. (Wisdom Tree Investments). Each Fund described herein is considered to be non-diversified.

2. SIGNIFICANT ACCOUNTING POLICIES

Guarantees In the normal course of business the Funds may enter into contracts that contain a variety of representations or that provide indemnification for certain liabilities. The Funds' maximum exposure under these arrangements is unknown, as this would involve future claims that may be made against the Funds that have not yet occurred. However, the Funds have not had prior claims or losses pursuant to these contracts and expect the risk of loss to be remote.

Use of Estimates The preparation of financial statements in conformity with U.S. Generally Accepted Accounting Principles (U.S. GAAP) requires management to make certain estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of increases and decreases in the net assets from operations during the reporting period. Actual results could differ from those estimates.

Investment Valuation The Net Asset Value (NAV) of each Fund's shares is calculated each day the national securities exchanges are open for trading as of the close of regular trading on the New York Stock Exchange, generally 4:00 p.m. New York time. NAV per share is calculated by dividing a Fund's net assets by the number of Fund shares outstanding. Securities traded on any recognized U.S. or non-U.S. exchange are valued at the last sale price or official closing price on the exchange or system on which they are principally traded. Unlisted equity securities are valued at the last quoted sale price or, if no sale price is available, at the mean between the highest bid and lowest ask prices. Securities for which market quotations are not readily available are valued at fair value as determined by management and in accordance with procedures approved by the Board of Trustees. Short-term securities with 60 days or less remaining to maturity are valued using the amortized cost method, which approximates fair value.

Fair Value Measurement Effective April 1, 2008, the Funds adopted Financial Accounting Standards Board (FASB) Statement of Financial Accounting Standards No. 157, *Fair Value Measurements* (FAS 157). This standard defines fair value, establishes a framework for measuring fair value in accordance with U.S. GAAP and expands disclosure about fair value measurements. Various inputs are used in determining the value of the Funds' investments. These inputs are summarized in the three broad levels listed below.

Level 1 quoted prices in active markets for identical securities

Level 2 other significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risk, etc.)

Level 3 significant unobservable inputs (including each Fund's assumptions in determining the fair value of investments)

Investments that use Level 2 or Level 3 inputs may include, but are not limited to: (i) an unlisted security related to corporate actions; (ii) a restricted security (e.g., one that may not be publicly sold without registration under the Securities Act of 1933, as amended); (iii) a security

Edgar Filing: WisdomTree Trust - Form N-CSR

whose trading has been suspended or which has been de-listed from its primary trading exchange; (iv) a security that is thinly traded; (v) a security in default or bankruptcy proceedings for which there is no current market quotation; (vi) a security affected by currency controls or restrictions; and (vii) a security affected by a significant event (*e.g.*, an event that occurs after the close of the markets on which the security is traded but before the time as of which a Fund's net asset value is computed and that may materially affect the value of the Fund's investments). Examples of events that may be significant events are government actions, natural disasters, armed conflict and acts of terrorism.

The inputs or methodology used for valuation are not necessarily an indication of the risk associated with investing in those investments.

MidCap Dividend Fund	64,766,741	4,817,862		69,584,603
SmallCap Dividend Fund	71,936,760	4,733,245		76,670,005

Investment Transactions Investment transactions are recorded as of the date that the securities are purchased or sold (trade date). Realized gains and losses on sales of portfolio securities are calculated using the identified-cost method.

Investment Income Dividend income is recognized on the ex-dividend date. Interest income is accrued daily. The value of additional securities received as dividend payments is recorded as income and as an increase to the cost basis of such securities.

Expenses/Reimbursements WisdomTree Asset Management (WTAM) has agreed to pay all expenses of the Funds, except for: (i) brokerage expenses and other expenses (such as stamp taxes) connected with the execution of portfolio transactions or in connection with creation and redemption transactions; (ii) legal fees or expenses in connection with any arbitration, litigation or pending or threatened arbitration or litigation, including any settlements in connection therewith; (iii) compensation and expenses of each Independent Trustee; (iv) compensation and expenses of counsel to the Independent Trustees; (v) compensation and expenses of the Trust's chief compliance officer; (vi) extraordinary expenses; (vii) distribution fees and expenses paid by the Trust under any distribution plan adopted pursuant to Rule 12b-1 under the 1940 Act; and (viii) the advisory fee payable to WTAM.

Pursuant to a separate contractual arrangement, WTAM has arranged for the provision of chief compliance officer (CCO) services to the Funds and is liable and responsible for, and administers, payments to the CCO, the Independent Trustees and counsel to the Independent Trustees, in exchange for a service fee paid by each Fund of up to 0.0044% of each Fund's average daily net assets. Trustees fees, which are included in Service Fees on the Statements of Operations, of \$397,376 have been paid on behalf of the Funds of the Trust to the Independent Trustees for the fiscal year ended March 31, 2009. Expenses in excess of 0.0044% were paid by WTAM.

Security Lending Each Fund may lend portfolio securities to certain creditworthy borrowers, including the Funds' securities lending agent. The loans are collateralized at all times by cash and/or high grade debt obligations in an amount at least equal to 102% of the market value of domestic securities loaned (105% in the case of foreign securities loaned), as determined at the close of business on the preceding business day. Each Fund receives compensation for lending its securities from interest or dividends earned on the cash or U.S. government securities held as collateral, net of fee rebates paid to the borrower plus reasonable administrative and custody fees. The dividend and interest income earned on the securities loaned is accounted for in the same manner as other dividend and interest income. The borrower pays to the Funds an amount equal to any dividends or interest received on loaned securities. The Funds retain all or a portion of the interest received on investment of cash collateral or receives a fee from the borrower. Lending portfolio securities could result in a loss or delay in recovering each Fund's securities if the borrower defaults.

The securities lending income earned by the Funds is disclosed on the Statements of Operations.

Short-Term Investments Each Fund may invest a portion of its assets in high-quality money market instruments on an ongoing basis to provide liquidity or for other reasons. The instruments in which a Fund may invest include short-term obligations issued by the U.S. Government, negotiable certificates of deposit (CDs), fixed time deposits and bankers' acceptances of U.S. and foreign banks and similar institutions, commercial papers, repurchase agreements and money market funds. CDs are short-term negotiable obligations of commercial banks. Time deposits are non-negotiable deposits maintained in banking institutions for specified periods of time at stated interest rates. Bankers' acceptances are time drafts drawn on commercial banks by borrowers, usually in connection with international transactions.

Edgar Filing: WisdomTree Trust - Form N-CSR

Tax Information and Dividends and Distributions to Shareholders It is each Fund's policy to comply with all requirements of the Internal Revenue Code of 1986, as amended (the Code). Each Fund intends to qualify for and to elect treatment as a separate Regulated Investment Company (RIC) under Subchapter M of the Code. It is the policy of each Fund to pay out dividends, if any, to investors at least annually. Taxable net realized gains from investment transactions, reduced by capital loss carryforwards, if any, are declared and distributed to shareholders at least annually. The capital loss carryforward amount, if any, is available to offset future net capital gains. The Funds may occasionally be required to make supplemental distributions at some other time during the year. The Trust reserves the right to declare special distributions if, in its reasonable discretion, such action is necessary or advisable to preserve the status of each Fund as a RIC or to avoid imposition of income or excise taxes on undistributed income. Dividends and distributions to shareholders are recorded on the ex-dividend date. The amount of dividends and distributions from net investment income and net realized capital gains are determined in accordance with Federal income tax regulations which may differ from U.S. GAAP. These book/tax differences are either considered temporary or permanent in nature. To the extent these differences are

WisdomTree Domestic Dividend Funds 51

Table of Contents**Notes to Financial Statements** (continued)

permanent in nature, such amounts are reclassified within the components of net assets based on their Federal tax basis treatment; temporary differences do not require reclassification. Dividends and distributions, which exceed earnings and profit for tax purposes, are reported as a tax return of capital.

Financial Accounting Standards Board (FASB) Interpretation No. 48, *Accounting for Uncertainty in Income Taxes* (FIN 48) prescribes a minimum threshold for financial statement recognition of the benefit of a tax position taken or expected to be taken in a tax return. Foreign taxes are provided for based on each Fund's understanding of the tax rules and rates that exist in the foreign markets in which it invests. Taxes are accrued and applied to net investment income, net realized capital gains and net unrealized appreciation, as applicable, as the income is earned or capital gains are recorded. As of and during the year ended March 31, 2009, the Funds did not have any liabilities for unrecognized tax benefits. If applicable, the Funds will recognize interest accrued related to unrecognized tax benefits in interest expense and penalties in Other expenses on the Statements of Operations. The Portfolios file tax returns with the U.S. Internal Revenue Service, New York, and various states. Generally, each of the tax years in the three year period ended March 31, 2009, remains subject to examination by taxing authorities.

3. ADVISER FEES

Adviser Fees As investment adviser, WTAM has overall responsibility for the general management and administration of the Trust. WTAM provides an investment program for each Fund. WTAM also arranges for sub-advisory, transfer agency, custody, fund administration, and all other non-distribution related services necessary for the Funds to operate. Under the Investment Advisory Agreement for each Fund, WTAM agrees to pay all expenses of the Trust, except compensation and expenses of the Independent Trustees, counsel to the Independent Trustees and the Trust's Chief Compliance Officer, interest expenses and taxes, brokerage expenses, and other expenses connected with the execution of portfolio transactions, any distribution fees or expenses, legal fees or expenses and extraordinary expenses. Pursuant to a separate contractual arrangement, WTAM arranges for the provision of CCO services with respect to each Fund and is liable and responsible for, and administers, payments to the CCO, the Independent Trustees and counsel to the Independent Trustees in exchange for a fee of up to 0.0044%. The fees paid to WTAM for providing advisory services are listed below.

Fund	Fee Rate
Total Dividend Fund	0.28%
Equity Income Fund	0.38%
LargeCap Dividend Fund	0.28%
Dividend ex-Financials Fund	0.38%
MidCap Dividend Fund	0.38%
SmallCap Dividend Fund	0.38%

Each Fund may purchase shares of an affiliated exchange traded fund(s) in secondary market transactions. For the fiscal year ended March 31, 2009, there were no transactions in affiliated ETFs.

4. CAPITAL SHARE TRANSACTIONS

As of March 31, 2009, there were an unlimited number of \$0.001 par value shares of beneficial interest authorized by the Trust. Shares are issued and redeemed by each Fund only in Creation Units or multiples thereof. Except when aggregated in Creation Units, shares of each Fund are not redeemable. Transactions in shares for each Fund are disclosed in detail in the Statements of Changes in Net Assets. The consideration for the purchase of Creation Units of a Fund generally consists of the in-kind contribution of a designated portfolio of equity securities constituting a portfolio sampling representation of the securities included in the relevant Fund's underlying index and an amount of cash. Investors purchasing and redeeming Creation Units may be charged a purchase transaction fee and a redemption transaction fee to offset transfer and other transaction costs associated with the issuance and redemption of Creation Units.

5. INVESTMENT PORTFOLIO TRANSACTIONS

Purchases and sales of investments (excluding in-kind purchases and redemptions and short-term investments) for the fiscal year ended March 31, 2009 were as follows:

Capital losses incurred after October 31 (post-October capital losses) and within the taxable year are deemed to arise on the first business day of each Fund's next taxable year.

During the year ended March 31, 2009, the following Funds incurred and will elect to defer net post-October losses as follows:

Fund	Post-October Capital Losses
Total Dividend Fund	\$ 10,272,186
Equity Income Fund	36,177,120
LargeCap Dividend Fund	33,223,859
Dividend ex-Financials Fund	40,138,458
MidCap Dividend Fund	15,664,681
SmallCap Dividend Fund	28,691,297

At March 31, 2009, the effect of permanent book/tax reclassifications resulted in increases (decreases) to the components of net assets as follows:

Fund	Undistributed Net Investment Income/(Loss)	Accumulated Net Realized Gain/(Loss)	Paid-in Capital
Total Dividend Fund	\$ (704)	\$ (99,009)	\$ 99,713
Equity Income Fund	(2,135)	1,209,937	(1,207,802)
LargeCap Dividend Fund	5,572	2,428,768	(2,434,340)
Dividend ex-Financials Fund		2,957,324	(2,957,324)
MidCap Dividend Fund		823,493	(823,493)
SmallCap Dividend Fund	(13,192)	11,332	1,860

These differences are primarily due to redemptions-in-kind and the tax treatment of income earned from investments in partnerships.

7. NEW ACCOUNTING PRONOUNCEMENT

On March 19, 2008, the FASB released Statement of Financial Accounting Standards No. 161, *Disclosures about Derivative Instruments and Hedging Activities* (FAS 161). FAS 161 requires qualitative disclosures about objectives and strategies for using derivatives, quantitative disclosures about fair value amounts of gains and losses on derivative instruments, and disclosures about credit-risk-related contingent features in derivative agreements. The application of FAS 161 is required for fiscal years beginning after November 15, 2008 and interim periods within those fiscal years. At this time, management is evaluating the implications of FAS 161 and its impact on the financial statements.

Report of Independent Registered Public Accounting Firm

The Board of Trustees and Shareholders of WisdomTree Trust:

We have audited the accompanying statements of assets and liabilities, including the schedules of investments, of WisdomTree Total Dividend Fund, WisdomTree Equity Income Fund, WisdomTree LargeCap Dividend Fund, WisdomTree Dividend ex-Financials Fund, WisdomTree MidCap Dividend Fund and WisdomTree SmallCap Dividend Fund (six of the investment funds constituting the WisdomTree Trust (the "Trust")) as of March 31, 2009, and the related statements of operations for the year then ended, the statements of changes in net assets for each of the two years in the period then ended, and the financial highlights for each of the periods indicated therein. These financial statements and financial highlights are the responsibility of the Trust's management. Our responsibility is to express an opinion on these financial statements and financial highlights based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements and financial highlights are free of material misstatement. We were not engaged to perform an audit of the Trust's internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Trust's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements and financial highlights, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. Our procedures included confirmation of securities owned as of March 31, 2009, by correspondence with the custodian and brokers or by other appropriate auditing procedures where replies from brokers were not received. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements and financial highlights referred to above present fairly, in all material respects, the

financial position of WisdomTree Total Dividend Fund, WisdomTree Equity Income Fund, WisdomTree LargeCap Dividend Fund, WisdomTree Dividend ex-Financials Fund, WisdomTree MidCap Dividend Fund and WisdomTree SmallCap Dividend Fund of WisdomTree Trust at March 31, 2009, the results of their operations for the year then ended, the changes in their net assets for each of the two years in the period then ended, and the financial highlights for each of the indicated periods, in conformity with U.S. generally accepted accounting principles.

Approval of Investment Advisory and Sub-Advisory Agreement (unaudited)

The Board of Trustees of the Trust, including a majority of the Independent Trustees, has the responsibility under the 1940 Act to approve each Fund's Investment Advisory Agreement and Sub-Advisory Agreement (collectively, the Investment Advisory Agreements). In addition, the Trust's Board of Trustees will receive, review and evaluate information concerning the services and personnel of WTAM (the Investment Adviser) and Mellon Capital Management Corporation (the Sub-Adviser) at each quarterly meeting of the Board of Trustees. While particular emphasis will be placed on information concerning profitability, comparability of fees and total expenses, and the Trust's investment performance at any future meeting at which a renewal of the Investment Advisory Agreements is considered, the process of evaluating the Investment Adviser and the Sub-Adviser and the Trust's investment arrangements is an ongoing one. In this regard, the Board's consideration of the nature, extent and quality of the services to be provided by the Investment Adviser and the Sub-Adviser under the Investment Advisory Agreements will include deliberations at future quarterly meetings.

Approval of Investment Advisory Agreement. The Trust and the Investment Adviser have entered into an Investment Advisory Agreement covering each Fund discussed herein. At a meeting held on March 2, 2009, the Board of Trustees reapproved the Investment Advisory Agreement for the Funds. The Board reviewed and analyzed the factors it deemed relevant, including: (i) the nature, quality and extent of the services to be provided to the Funds by WTAM; (ii) the investment performance of the Funds; (iii) the costs of services to be provided and the profits to be realized by WTAM from its relationship with the Funds; (iv) the extent to which economies of scale would be realized as the Funds grow; (v) whether the fee levels reflect these economies of scale for the benefit of investors; and (vi) the fees charged by the Investment Adviser for non-registered funds.

The Board also considered the nature and quality of the services to be provided by WTAM to the Funds, recognizing WTAM's operational capabilities and resources. The Board also noted the extensive responsibilities that WTAM has as investment adviser to the Funds, including the selection of the Funds' Sub-Adviser and oversight of the Sub-Advisers' compliance with Fund policies and objectives, oversight of general Fund compliance with federal and state laws, and the implementation of Board directives as they relate to the Funds.

The Board gave substantial consideration to the fees payable under the Advisory Agreement. In this connection, the Board evaluated WTAM's anticipated costs and profitability in serving as investment adviser to the Funds, including the costs associated with the personnel, systems and equipment necessary to manage the Funds and the costs associated with compensating the Sub-Adviser. The Board also examined the fees to be paid by each Fund in light of fees paid to other investment managers by comparable funds and the method of computing each Fund's fee. After comparing the fees with those of comparable funds and in light of the quality and extent of services to be provided and the costs anticipated to be incurred by WTAM, the Board concluded that the level of the fees paid to WTAM with respect to each Fund is fair and reasonable.

The Board also approved the Sub-Advisory Agreement with the Sub-Adviser to the Funds, Mellon Capital Management Corporation (MCM), using essentially the same criteria it used for WTAM. The Board considered MCM's operational capabilities and resources and MCM's experience in serving as an adviser to ETFs, noting that MCM currently provides investment advisory and management services to other ETFs. The Board considered the investment performance of the Funds, and the expertise and performance of the MCM personnel. The Board also noted that Bank of New York Mellon Corporation (BNYM), an affiliate of MCM, serves as the Funds' administrator, accountant, custodian and transfer agent and receives compensation for acting in these capacities and is responsible for, among other things, coordinating the Funds' audits, financial statements and tax returns, managing expenses and budgeting for the Funds, processing trades on behalf of each Fund and custodying Fund assets. As such, the Board concluded that the benefits accruing to MCM and its affiliates by virtue of their relationship to the Trust are reasonable and fair in comparison with the anticipated costs of providing the relevant services.

Based on these considerations and the overall high quality of the personnel, operations, financial condition, investment advisory capabilities, methodologies, and performance of WTAM and MCM, the Board determined that the approval of the Advisory Agreement and the Sub-Advisory Agreement was in the best interests of each Fund. After full consideration of these and other factors, the Board, including a majority of the Independent Trustees, with the assistance of independent counsel, approved the Advisory Agreement and Sub-Advisory Agreement.

Frequency Distribution of Discounts & Premiums (unaudited)

The chart below presents information about differences between the per share net asset value (NAV) of each Fund and the market trading price of shares of each Fund. For these purposes, the market price is the mid-point of the highest bid and lowest offer for Fund shares as of the close of trading on the exchange where Fund shares are listed. The term premium is sometimes used to describe a market price in excess of NAV and the term discount is sometimes used to describe a market price below NAV. The chart presents information about the size and frequency of premiums or discounts. As with other exchange traded funds, the market price of Fund shares is typically slightly higher or lower than the Fund s per share NAV. Factors that contribute to the differences between market price and NAV include the supply and demand for Fund shares and investors assessments of the underlying value of a Fund s portfolio securities.

Indexes are unmanaged and you can not invest directly in an index.

There are risks associated with investing including possible loss of principal. In addition to the normal risks of investing, foreign investing involves special risks, such as risk of loss from currency fluctuation or political or economic uncertainty. Investments in real estate involve additional special risks, such as credit risk, interest rate fluctuations and the effect of varied economic conditions. Funds that focus their investments in one country increase the impact of events and developments associated with the region which can adversely affect performance. Funds focusing on a single country, sector and/or smaller companies generally experience greater price volatility. Investments in emerging frontier markets are generally less liquid and less efficient than developed markets. Investments in currency involve additional special risks, such as credit risk, interest rate fluctuations, derivative investment risk and the effect of varied economic conditions. Derivatives can be volatile and may be less liquid than other securities. As these Funds can have a high concentration in some issuers the Funds can be adversely impacted by changes affecting issuers. Unlike typical exchange-traded funds, there are no indexes that the currency funds attempt to track or replicate. Thus, the ability of the currency Funds to achieve their objectives will depend on the effectiveness of the portfolio manager. Please read the Funds' prospectus for specific details regarding each Fund's risk profile. Transactions in Fund shares will result in brokerage commissions and will generate tax consequences. Shares may be sold through brokerage accounts, but may be redeemed from the Funds only in large amounts of 50,000 shares or more.

Letter to Shareholders

Dear Shareholders:

I wish there were more positive highlights to report for the funds of the WisdomTree Trust for the fiscal year that ended March 31, 2009. Unfortunately, the last 12 months represented one of the worst one-year periods for equity returns since the Great Depression.

U.S. stocks, as measured by the Russell 3000 Index, declined 38.20% through March 31, 2009. Stocks in developed and developing foreign markets, as measured by the MSCI EAFE Index and the MSCI Emerging Markets Index, respectively, fell by approximately 47% over the same period. Value stocks underperformed growth stocks in the U.S. and international markets. Financial stocks represented the worst performing sector in the U.S and in the developed world.

These factors impacted the returns of many of WisdomTree's funds, both on an absolute and relative basis to comparable cap-weighted indexes. 17 of WisdomTree's 40 equity funds with at least one-year track records outperformed their comparable capitalization-weighted benchmark in the fiscal year ended March 31, 2009. Yet, despite this past year's formidable headwinds, 24 of WisdomTree's 42 equity ETFs have outperformed their comparable benchmarks since inception. WisdomTree's strongest relative showing occurred within the developing world. The WisdomTree Emerging Markets Equity Income Fund (Ticker Symbol: DEM) and the WisdomTree Emerging Markets SmallCap Dividend Fund (Ticker Symbol: DGS) outperformed their comparable cap-weighted benchmarks by 10.86 percentage points and 9.18 percentage points, respectively. WisdomTree's weakest relative performance for the period was exhibited by the WisdomTree SmallCap Dividend Fund (Ticker Symbol: DES), which underperformed the Russell 2000 Index by 7.77 percentage points.

WisdomTree also launched two innovative equity products in the past fiscal year. In July, WisdomTree introduced the WisdomTree Middle East Dividend Fund (Ticker Symbol: GULF), which gives investors exposure to eight equity markets in the Persian Gulf region. In December, WisdomTree launched the WisdomTree LargeCap Growth Fund (Ticker Symbol: ROI), the industry's first fundamentally weighted growth ETF. WisdomTree believes these funds give investors new ways to apply the fundamentally weighted concept across the full spectrum of equity investing, both domestically and internationally.

Though the challenging market environment has extended into 2009, the recent financial crisis has highlighted the potential benefits of ETFs. We believe that investors are placing ever more importance on the transparency, liquidity and tax efficiency that ETFs provide.

Thank you for your continued support.

Best regards,

Jonathan Steinberg

The Russell 3000 Index measures the performance of the 3000 largest stocks in the U.S. market by market value. The MSCI Emerging Markets Index is a market cap weighted index that is designed to measure equity market performance consisting of 25 emerging market country indexes. The MSCI EAFE Index is a market capitalization-weighted index composed of companies representative of the developed market structure of 21 developed countries in Europe, Australasia and Japan. The Russell 2000 Index measures the performance of the smallest 2,000 companies in the Russell 3000 Index. You cannot invest directly in an index.

Table of Contents**Management's Discussion of Funds Performance**

The WisdomTree Trust earnings-based ETFs give investors access to all major market capitalization segments of the U.S. equity market and access to India. The WisdomTree earnings-based ETFs are designed to offer investors alternatives to market capitalization-weighted index funds by tracking proprietary indexes that are weighted based on the earnings companies generate.

The U.S. equity market, measured by the Russell 3000 Index, S&P 500 Index, and Dow Jones Industrial Average, all popular benchmarks for U.S. equity markets, declined between 36% to 38% in the 12 months that ended March 31, 2009 (the period). The fourth quarter of 2008 marked the largest quarterly retrenchment in U.S. equity prices since the fourth quarter of 1987. The market, as measured by the Russell 3000 Index, then continued to slide a further 11%, in the first quarter of 2009. Stocks retracted on continued tight credit, earnings concerns within a tepid operating environment, and from broader evidence of the U.S. economy's continued faltering.

The equity market's significant retraction was caused by various factors including the credit crisis that was sparked by the bankruptcy of the investment bank, Lehman Brothers in September 2008. Banks became afraid to lend to each other, as fears spiraled that their money was not safe at any financial institution. As a result, borrowing rates on loans rose significantly, increasing the cost of doing business for companies all across the economy. Companies reacted by pulling back spending on investments and they began trimming their workforces in response to their higher cost of capital. Consumers, in turn, became more fearful of losing their jobs. Nervous employees started saving more and spending less, creating a downward spiral and even weaker economic environment. The unemployment rate rose to 8.1% in March of 2009, its highest level since 1983. Jobless claims spiked above 670,000, marking the breadth of the U.S. recession.

* Information is not presented for the WisdomTree LargeCap Growth Fund as this Fund commenced operations on December 4, 2008 and therefore does not have a full reporting year's worth of performance.

Within the domestic earnings funds, the two funds that declined the most were the WisdomTree Low P/E Fund and the WisdomTree Earnings Top 100 Fund. The WisdomTree Low P/E Fund had the greatest exposure to the financial sector. Historically, the financial sector had low P/E ratios and high profits and therefore under WisdomTree's earnings-weighted methodology, financial company stocks had an above average weight. Because of the credit crises and resulting economic downturn, the financial sector was the worst-performing sector in the period.

The two funds that declined the least were the WisdomTree MidCap Earnings Fund and the WisdomTree Earnings 500 Fund. The WisdomTree Earnings 500 Fund was aided by

having exposure to the Energy sector, which performed well in the period due to record profits at some of the largest Energy companies. The WisdomTree MidCap Earnings Fund was helped by relatively less exposure to the financial sector.

Internationally, the only region of the world where WisdomTree sets portfolio weights based on earnings is in India. In February of 2008, the Trust launched the WisdomTree India Earnings Fund which was the first ETF to offer investor access to India. Because of its fundamentally weighted methodology, the WisdomTree India Earnings Fund outperformed the MSCI India Index by 1.39 percentage points during the period.

Fund performance assumes reinvestment of dividends and capital gain distributions. An index is a statistical measure of a specified financial market or sector. An index does not actually hold a portfolio of securities, incur expenses or pay any transaction costs. Therefore index returns do not reflect deductions for fees or expenses. In comparison, the Funds' performance is negatively impacted by these deductions. Fund returns do not reflect brokerage commissions or taxes on transactions in Fund shares that a shareholder would pay on Fund distributions. Past performance is no guarantee of future results. For the most recent month end performance information visit www.wisdomtree.com.

The Russell 3000 Index measures the performance of the 3,000 largest stocks in the U.S. market by market value; the Russell 2000 Index measures the performance of the smallest 2,000 companies in the Russell 3000 Index; the Russell 2000 Growth Index is a capitalization weighted index that measures the small-cap growth segment of the U.S. equity universe, selecting from the Russell 2000 Index.; the Russell 1000 Value Index measures the performance of Russell 1000 companies with lower price to book ratios and lower forecasted growth values; the S&P 500 Index is the Standard & Poor's composite index of 500 stocks; the S&P MidCap 400 Index is a group of 400 domestic stocks chosen for market size, liquidity and industry group representation; the MSCI India Index is a free float-adjusted market capitalization index that is designed to measure the performance of stocks in India. Index performance information assumes the reinvestment of gross dividends and excludes management fees, transaction costs and expenses. Performance information for the MSCI India Index assumes reinvestment of net dividends and excludes management fees, transaction costs and expenses. You cannot directly invest in an index.

The WisdomTree Total Earnings Fund (Ticker Symbol: EXT) returned (37.86)% at net asset value (NAV) for the fiscal year ending March 31, 2009 (for more complete performance information, please see below). Financials detracted the most from returns, with an average weight of 19.98% of the Fund and returns of (56.46)% over the period. The Fund's decline was least affected by Telecommunication Services which returned (23.85)%, with an average weight of 2.39% of the Fund.

The following performance chart is provided for comparative purposes and represents the period noted. The Fund's per share NAV is the value of one share of the Fund and is calculated by dividing the value of total assets less total liabilities by the number of shares outstanding. The NAV return is based on the NAV of the Fund and the market return is based on the market price per share of the Fund. The price used to calculate market price returns is the mid-point of the highest bid and lowest offer for Fund shares as of the close of trading on the exchange where Fund shares are listed. NAV and market returns assume that dividends and capital gain distributions have been reinvested in the Fund at NAV and market price, respectively. As with other ETFs, NAV returns and market price returns may differ because of factors such as the supply and demand for Fund shares and investors assessments of the underlying value of a Fund's portfolio securities.

Shareholder Expense Examples (unaudited)

As a shareholder of a WisdomTree Fund, you incur two types of costs: (1) transaction costs, including brokerage commissions on purchases and sales of your Fund shares and (2) ongoing costs, including management fees and other Fund expenses. The following example is intended to help you understand your ongoing costs (in dollars and cents) of investing in a Fund and to compare these costs with the ongoing costs of investing in other funds.

The example is based on an investment of \$1,000 invested at the beginning of the period and held for the entire period from October 1, 2008 to March 31, 2009 for all Funds except the WisdomTree LargeCap Growth Fund whose period was December 4, 2008 (commencement of investment operations) through March 31, 2009.

Actual expenses

The first line under each Fund in the table on the next page provides information about actual account values and actual expenses. You may use the information in this line, together with the amount you invested, to estimate the expenses that you paid over the period. Simply divide your account value by \$1,000 (for example, an \$8,600 account value divided by \$1,000 = 8.6), then multiply the result by the number in the first line for your Fund under the heading entitled *Expenses Paid During Period 10/01/08 to 3/31/09* to estimate the expenses you paid on your account during this period.

Hypothetical example for comparison purposes

The second line under each Fund in the table on the next page provides information about hypothetical account values and hypothetical expenses based on each Fund's actual expense ratio and an assumed rate of return of 5% per year before expenses, which is not the Fund's actual return. The hypothetical account values and expenses may not be used to estimate the actual ending account balance or expenses you paid for the period. You may use this information to compare the ongoing costs of investing in your Fund and other funds. To do so, compare this 5% hypothetical example with the 5% hypothetical examples that appear in the shareholder reports of the other funds.

Please note that the expenses shown in the table are meant to highlight your ongoing costs only and do not reflect any transactional costs, such as brokerage commissions paid on purchases and sales of Fund shares. Therefore, the second line under each Fund in the table is useful in comparing ongoing Fund costs only and will not help you determine the relative total costs of owning different funds. In addition, if these transactional costs were included, your costs would have been higher.
