**Item 2.02. Results of Operations and Financial Condition.**

On October 15, 2009, Harley-Davidson, Inc. (the Company) issued a press release (the Press Release) announcing the Company's third quarter financial results for the financial period ended September 27, 2009. A copy of the Press Release is being furnished as Exhibit 99.1 to this Current Report.

**Item 2.05. Costs Associated with Exit or Disposal Activities.**

On October 15, 2009, the Company unveiled major elements of its go-forward business strategy to drive growth through a single-minded focus of efforts and resources on the unique strengths of the Harley-Davidson brand and to enhance productivity and profitability through continuous improvement. On October 14, 2009, the Company's Board of Directors approved and the Company committed to the discontinuation of its Buell product line as part of this strategy. The Company disclosed this action in the Press Release and will discuss the action during the Company's conference call relating to its results of operations for the quarter ended September 27, 2009.

The Company plans to discontinue production of Buell motorcycles at the end of October 2009. Remaining inventories of Buell motorcycles, accessories and apparel, while they last, will continue to be sold through authorized dealerships. Warranty coverage will continue as normal for Buell motorcycles and the Company will provide replacement parts and service through dealerships. The decision will result in a reduction over time of about 80 hourly production positions and about 100 non-production, primarily salaried positions. Employment will end for a majority of Buell employees December 18, 2009.

The Company expects to incur approximately \$125 million in one-time costs related to the discontinuation of the Buell product line, approximately 60% of which will involve cash expenditures. The Company expects to incur approximately \$115 million of that amount in 2009 and the remainder in 2010. The \$125 million is comprised of approximately \$70 million in costs associated with sales incentives, inventory write-downs and other incremental operating costs; approximately \$14 million of fixed-asset impairment charges; approximately \$9 million of one-time termination benefits; and approximately \$32 million of other costs including payments the Company expects to make to fulfill contractual obligations.
