(1)	Senior floating-rate interests (Senior Loans) often require prepayments from excess cash flows or permit the borrowers to repay at their election. The degree to which borrowers repay, whether as a contractual requirement or at their election, cannot be predicted with accuracy. As a result, the actual remaining maturity may be substantially less than the stated maturities shown. However, Senior Loans will have an expected average life of approximately two to four years. The stated interest rate represents the weighted average interest rate of all contracts within the senior loan facility and includes commitment fees on unfunded loan commitments, if any. Senior Loans typically have rates of interest which are redetermined either daily, monthly, quarterly or semi-annually by reference to a base lending rate, plus a premium. These base lending rates are primarily the London Interbank Offered Rate (LIBOR) and secondarily, the prime rate offered by one or more major United States banks (the Prime Rate) and the certificate of deposit (CD) rate or other base lending rates used by commercial lenders.
(2)	This Senior Loan will settle after March 31, 2012, at which time the interest rate will be determined.
(3)	Amount is less than 0.05%.
(4)	Unfunded or partially unfunded loan commitments. The Trust may enter into certain credit agreements all or a portion of which may be unfunded. The Trust is obligated to fund these commitments at the borrower s discretion.
(5)	For fair value measurement disclosure purposes, security is categorized as Level 3.
(6)	Currently the issuer is in default with respect to interest payments. For a variable rate security, interest rate has been adjusted to reflect non-accrual status.
(7)	Represents a payment-in-kind security which may pay all or a portion of interest in additional par.
(8)	Security exempt from registration pursuant to Rule 144A under the Securities Act of 1933. These securities may be sold in certain transactions (normally to qualified institutional buyers) and remain exempt from registration. At March 31, 2012, the aggregate value of these securities is \$16,810,258 or 6.3% of the Trust s net assets applicable to common shares.
(9)	Variable rate security. The stated interest rate represents the rate in effect at March 31, 2012.
(10)	Security was acquired in connection with a restructuring of a Senior Loan and may be subject to restrictions on resale.
(11)	Non-income producing security.
(12)	Restricted security.
(13)	Affiliated investment company available to Eaton Vance portfolios and funds which invests in high quality, U.S. dollar denominated money market instruments. The rate shown is the annualized seven-day yield as of March 31, 2012. Net income allocated from the investment in Eaton Vance Cash Reserves Fund, LLC for the fiscal year to date ended March 31, 2012 was \$7,343.

At March 31, 2012, the Trust had sufficient cash and/or securities to cover commitments under these contracts.

The Trust is subject to foreign exchange risk in the normal course of pursuing its investment objective. Because the Trust holds foreign currency denominated investments, the value of these investments and related receivables and payables may change due to future changes in foreign currency exchange rates. To hedge against this risk, the Trust enters into forward foreign currency exchange contracts. The Trust also enters into such contracts to hedge the currency risk of investments it anticipates purchasing.

At March 31, 2012, the aggregate fair value of open derivative instruments (not considered to be hedging instruments for accounting disclosure purposes) in an asset position and in a liability position and whose primary underlying risk exposure is interest rate risk was \$16,249 and \$159,304, respectively.

The cost and unrealized appreciation (depreciation) of investments of the Trust at March 31, 2012, as determined on a federal income tax basis, were as follows:

Aggregate cost	\$ 424,200,854
Gross unrealized appreciation	\$ 7,884,731
Gross unrealized depreciation	(7,624,412)
Net unrealized appreciation	\$ 260,319

Restricted Securities

At March 31, 2012, the Trust owned the following securities (representing 0.2% of net assets applicable to common shares) which were restricted as to public resale and not registered under the Securities Act of 1933 (excluding Rule 144A securities). The Trust has various registration rights (exercisable under a variety of circumstances) with respect to these securities. The value of these securities is determined based on valuations provided by brokers when available, or if not available, they are valued at fair value using methods determined in good faith by or at the direction of the Trustees.

Under generally accepted accounting principles for fair value measurements, a three-tier hierarchy to prioritize the assumptions, referred to as inputs, is used in valuation techniques to measure fair value. The three-tier hierarchy of inputs is summarized in the three broad levels listed below.

Level 1 quoted prices in active markets for identical investments

Level 2 other significant observable inputs (including quoted prices for similar investments, interest rates, prepayment speeds, credit risk, etc.)

Level 3 significant unobservable inputs (including a fund s own assumptions in determining the fair value of investments)

In cases where the inputs used to measure fair value fall in different levels of the fair value hierarchy, the level disclosed is determined based on the lowest level input that is significant to the fair value measurement in its entirety. The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities.

At March 31, 2012, the hierarchy of inputs used in valuing the Trust s investments and open derivative instruments, which are carried at value, were as follows:

Asset Description		Level 1		Level 2		Level 3	Total		
Senior Floating-Rate Interests (Less									
Unfunded Loan Commitments)	\$		\$	379,994,416	\$	367,471	\$	380,361,887

Forward Foreign Currency Exchange				
Contracts	\$ \$	(159,304)	\$ \$	(159,304)
Total	\$ \$	(159,304)	\$ \$	(159,304)

The following is a reconciliation of Level 3 assets for which significant unobservable inputs were used to determine fair value:

	Investments in Senior Floating-Rate Interests		Investments in Corporate Bonds & Notes		Investments in Common Stocks, Warrants and Miscellaneous		Total

Balance as of March 31, 2012	\$	367,471	\$	58,955	\$	3,422,389	\$ 3,848,815
Change in net unrealized appreciation (depreciation) on investments still held as of March 31, 2012	\$	13,391	\$	845	\$	159,484	\$ 173,720

(1) Cost of purchases may include securities received in corporate actions; proceeds from sales may include securities delivered in corporate actions.

None of the unobservable inputs for Level 3 assets, individually or collectively, had a material impact on the Trust.

At March 31, 2012, there were no investments transferred between Level 1 and Level 2 during the three months then ended.

For information on the Trust s policy regarding the valuation of investments and other significant accounting policies, please refer to the Trust s most recent financial statements included in its semiannual or annual report to shareholders.

^{*} Transfers are reflected at the value of the securities at the beginning of the period. Transfers from Level 2 to Level 3 were due to a reduction in the availability of significant observable inputs in determining the fair value of these investments.
