Letter from the Advisers
September 30, 2012 (Unaudited)

Dear Stockholders:

After years of listening to music at less than safe volumes, I recently decided to test my hearing. One of the tests simply required listening for and responding to a sound when played. The trick being that the sound would be played against a varying amount of background noise. As the test progressed, the background noise would increase in volume making it progressively more difficult to hear the sound when played. Fast-forward to today and we are in a market environment eerily similar to this hearing test. This is an uncertain market environment and every day we are inundated with a dizzying array of new and often conflicting data points on everything from the European sovereign debt crisis to the US presidential election. Amongst all of this noise and uncertainty, it is easy for an investor to lose focus and become distracted by the latest bit of information in the news. In times such as these, we believe it is of utmost importance to step back, focus on one's core investment philosophy and filter out the background noise.

Our investment philosophy is simple: buy good businesses at attractive valuations. To accomplish this, we employ a disciplined, research driven, bottom-up investment process. We do not ignore macroeconomic trends and developments, but we do our best to prevent them from distracting us from the business specific reasons to invest in a company. In the end, we believe it is a much easier proposition to understand and value a business than predict the short-term path of the global economy.

Over the six month period ending September 30, 2012, we believe our commitment to this philosophy and process enabled us to take advantage of multiple attractive investment opportunities and helped drive strong performance for the First Opportunity Fund, Inc. (the "Fund"). For the period, the Fund generated a solid absolute return of 5.6% on net assets, which compares favorably to the Fund's benchmarks. Over the same period, the S&P 500 generated a 3.4% return, the Dow Jones Industrial Average ("DJIA") generated a 3.1% return and the NASDAQ Composite generated a 1.5% return. The Fund's strong absolute performance and outperformance relative to the S&P 500 and its other benchmarks for the six month period is highlighted in the below table.

	3 mos.	6 mos.	One Year	Three Years*	Five Years*	Ten Years*	Since June 2010**
FOFI (NAV)	7.3%	5.6%	18.5%	8.9%	-3.9%	6.4%	8.7%
FOFI (Market)	8.1%	8.5%	26.7%	6.3%	-6.2%	5.8%	9.1%
S&P 500 Index	6.4%	3.4%	30.2%	13.2%	1.1%	8.0%	15.1%
DJIA	5.0%	3.1%	26.5%	14.5%	2.2%	8.6%	15.9%
NASDAQ Composite	6.5%	1.5%	30.6%	14.9%	4.0%	11.2%	16.1%

* Annualized

** Annualized since June 1, 2010, when the current Advisers became investment advisers to the Fund.

Letter from the Advisers

First Opportunity Fund, Inc.
September 30, 2012 (Unaudited)

The performance data quoted represents past performance. Past performance is no guarantee of future results. Fund returns include reinvested dividends and distributions, but do not reflect the reduction of taxes that a stockholder would pay on Fund distributions or the sale of Fund shares and do not reflect brokerage commissions, if any. Returns of the S&P 500 Index, the Dow Jones Industrial Average (DJIA) and the NASDAQ Composite include reinvested dividends and distributions. The investment return and the principal value of an investment will fluctuate and shares, if sold, may be worth more or less than their original cost. Current performance may be lower or higher than the performance data quoted.

A key contributor to the Fund's performance on an absolute and relative basis for the 6 month period was the Fund's position in the hedge fund Wolf Creek Investors (Bermuda), L.P. (Wolf Creek). The large contribution from the Wolf Creek position was driven by its large weight as it accounted for roughly 16.6% of the total portfolio at period end as well as from its 4.25% return during the period. While Wolf Creek accounts for a large percentage of total holdings, we remain comfortable with the current position.

Another key contributor to performance on an absolute and relative basis was the Fund's combined position in the common shares and American Depository Receipts (ADRs) of Sanofi, which collectively accounted for roughly 3.5% of the Fund's total assets at period end. For the period, Sanofi's common shares and ADRs generated total returns of 13.6% and 19.9%, respectively. We would like to highlight that the Fund's position in Sanofi increased throughout the period as we opportunistically added to the position on a material pullback in the share's price. While Sanofi has been a solid performer for the Fund over the last several months, we continue to view the name favorably and are comfortable with the Fund's current position for a variety of reasons. In general, we believe Sanofi's shares remain attractively valued and do not fully reflect the company's strong free cash flow generation, operational improvements and potential growth from a solid product portfolio and pipeline.

Other key contributors for the period were the Fund's equity positions in JPMorgan Chase & Company, Cisco Systems, Inc. and Wells Fargo & Company. Similar to Sanofi, all of these positions were either added to or initiated in the Fund during the six month period ending September 30, 2012. In general, we believe all of these are high quality businesses that were purchased at attractive discounts to our estimates of their intrinsic values. While we expect each of these positions to be strong contributors to performance over the long-run, we were pleased with their early strong performances. For the period, JPMorgan Chase generated a total return 15.9%, Cisco Systems generated a 12.6% total return and Wells Fargo generated a 5.6% total return. By period end, each of these companies became core holdings for the Fund as JPMorgan Chase accounted for roughly 4.4% of the Fund's total assets, Cisco Systems accounted for roughly 4.3% and Wells Fargo accounted for roughly 4.0%.

On the other end of the spectrum, a key detractor to the Fund's performance on an absolute and relative basis was the Fund's hedge fund position in J. Caird Partners, L.P. (J. Caird). J. Caird accounted for roughly 6.1% of the total portfolio at period end and generated a negative 10.7% return for the period. For a variety of reasons including lackluster performance, we have since redeemed J.Caird and another hedge fund position, North River Investors (Bermuda), L.P. (North River).

Additional positions that detracted from performance were the Fund's positions in Pengrowth Energy Corporation and Alliance Bernstein Holding, LP, which generated returns of a negative 32.4% and a negative 22.3% for the period respectively. It is important to note that both of these positions, along with several other positions, were sold out of the Fund during the period. While there were many different reasons for selling out of these positions, the common thread was their less attractive

Letter from the Advisers
September 30, 2012 (Unaudited)

investment profile to us relative to other opportunities available in the market. As a result, the Fund used the proceeds from these sale transactions along with available cash to fund the purchase of investments we felt had more attractive return profiles, such as Sanofi, JPMorgan Chase, Wells Fargo and Cisco Systems.

Two other positions that detracted from the Fund's performance for the period were Republic Services, Inc. and Transocean, Ltd. For the period, Republic Services generated a total return of negative 8.5% and accounted for roughly .3% of the Fund's total assets at period end. Transocean generated a total return of negative 17.9% for the period and accounted for roughly .1% of the Fund's total assets at period end. While the poor performance over the period for each position is disappointing, we remain comfortable with both of the positions as we believe they continue to represent attractive investment opportunities.

In the end, we are pleased with the Fund's solid performance on both an absolute and relative basis for the six month period ending September 30, 2012. Despite an uncertain market environment, we were able to filter out the background noise, maintain our investment discipline and take advantage of what we believe to be attractive long-term investment opportunities. However, we recognize there is always room for improvement. Since joining Rocky Mountain Advisers, LLC (the Adviser) in February of this year, one of my priorities has been to find ways to better provide the Fund's stockholders with greater insight into the Adviser and the Fund. As a result, we will be implementing a couple of initiatives over the next several months aimed at accomplishing this goal. These initiatives will not be particularly ground breaking in nature as they include such things as website improvements and more insightful stockholder letters, but our hope is they will provide the Fund's current and future potential stockholders with a better understanding of our investment philosophy and process. As part of this, we would also encourage stockholders to let us know if there are any topics you would like us to address in future stockholder letters.

Finally, I would like to thank Nick Adams and his team at Wellington Management Company, LLP (Wellington) for all their hard work in managing the portion of the Fund's assets referred to as the legacy portfolio. As a refresher for our stockholders, the legacy portfolio accounts for approximately 20.5% of the Fund's assets and primarily consists of securities in banks and thrifts. It is managed by Wellington pursuant to a sub-advisory agreement that will expire on December 31, 2012. Upon expiration of the sub-advisory agreement, management of the legacy portfolio will be transitioned to the existing Advisers of Rocky Mountain Advisers, LLC and Stewart Investment Advisers, LLC. We hold Nick and his team in high regard and are grateful for their contributions to the Fund.

In the meantime, I would like to wish you a safe and happy holiday season and I look forward to writing you again soon.

Sincerely,

Brendon Fischer, CFA®

Portfolio Manager

Letter from the Advisers

First Opportunity Fund, Inc.
September 30, 2012 (Unaudited)

The views and opinions in the preceding commentary are as of the date of this letter and are subject to change at any time. This material represents an assessment of the market environment at a specific point in time, should not be relied upon as investment advice and is not intended to predict or depict performance of any investment.

Portfolio weightings and other figures in the foregoing commentary are provided as of period-end, unless otherwise stated.

Note to Stockholders on Investments in Hedge Funds. The Fund's investment advisers feel it is important that stockholders be aware that the Fund has highly concentrated positions in certain hedge funds and may take concentrated positions in other securities. Concentrating investments in a fewer number of securities (including investments in hedge funds) may involve a degree of risk that is greater than a fund which has less concentrated investments spread out over a greater number of securities. For example, the value of the Fund's net assets will fluctuate significantly based on the fluctuation in the value of the hedge funds in which it invests. In addition, investments in hedge funds can be highly volatile and may subject investors to heightened risk and higher operating expenses than another closed-end fund with a different investment focus.

Note to Stockholders on the Fund's Discount. As most stockholders are aware, the Fund's shares presently trade at a significant discount to net asset value. The Fund's board of directors is aware of this, monitors the discount and periodically reviews the options available to mitigate the discount. In addition, there are several factors affecting the Fund's discount over which the board and management have little control. In the end, the market sets the Fund's share price. For longterm stockholders of a closed-end fund, we believe the Fund's discount should only be one of many factors taken into consideration at the time of your investment decision.

Note to Stockholders on the Fund's Possible Use of Leverage. Fund management and the Fund's Board of Directors are considering leverage options for the Fund, including borrowing through a credit facility. The Fund may utilize leverage to seek to enhance the returns for its stockholders over the long term; however, this objective may not be achieved in all interest rate and investment environments. Leverage creates certain risks for stockholders, including the likelihood of greater volatility of the Fund's NAV and market price. In the event the Fund utilizes leverage there are other risks associated with borrowing through a line of credit, including, but not limited to risks associated with purchasing securities on margin. In addition, borrowing would increase costs to the Fund, subject the Fund to contractual restrictions on its operations and require the Fund to maintain certain asset coverage ratios on any outstanding indebtedness. Notwithstanding this, the Board may decide to keep the Fund unlevered if the Board determines that such leverage solutions would be inconsistent with the interests of the Fund's stockholders.

Consolidated Financial Highlights

Contained below is selected data for a share of common stock outstanding, total investment return, ratios to average net assets and other supplemental data for the period indicated. This information has been determined based upon information provided in the financial statements and market price data for the Fund's shares.

OPERATING PERFORMANCE:

Net asset value, beginning of period

INCOME/LOSS FROM INVESTMENT OPERATIONS:

Net investment income/(loss)

Net realized and unrealized gain/(loss) on investments

Total from Investment Operations

DISTRIBUTIONS:

Distributions paid from net investment income

Distributions paid from net realized capital gains

Total Distributions

Accretive/Dilutive Impact of Capital Share Transactions

Net asset value, end of period

Market price per share, end of period

Total Investment Return Based on Market Price^(b)

RATIOS AND SUPPLEMENTAL DATA:

Ratio of operating expenses to average net assets excluding waiver

Ratio of operating expenses to average net assets including waiver

Ratio of net investment income/(loss) to average net assets excluding waiver

Ratio of net investment income/(loss) to average net assets including waiver

Portfolio turnover rate

Net assets, end of period (in 000's)

Number of shares outstanding, end of period (in 000's)

(a) Based on average shares outstanding during the fiscal period.

(b) Total investment return is calculated assuming a purchase of common stock at the current market price on the first day and a sale at the current market price on the last day of each period reported. Dividends and distributions are assumed for purposes of calculation to be reinvested at prices obtained under the Fund's dividend reinvestment plan. The calculation does not reflect brokerage commissions. Past performance is not a guarantee of future results.

(c) Annualized.

Financial Statements

First Opportunity Fund, Inc.
September 30, 2012 (Unaudited)

NOTE 1. FUND ORGANIZATION

First Opportunity Fund, Inc. (the Fund) was incorporated in Maryland on March 3, 1986, as a closed-end, management investment company; registered under the Investment Company Act of 1940, as amended (the 1940 Act). On October 14, 2008, the Fund changed its name from First Financial Fund, Inc. to First Opportunity Fund, Inc. The Fund is non-diversified and its primary investment objective is total return. The Fund trades over the counter under the trading symbol FOFI.

In seeking to achieve its investment objective, the Fund invests a significant portion of its investments (the Hedge Fund Portfolio) in private investment partnerships and similar investment vehicles, typically referred to as hedge funds (Hedge Funds). In addition, a portion of the Fund's assets are invested primarily in equity securities issued by financial services companies (the Legacy Portfolio). Under the terms of a sub-advisory agreement, Wellington Management Company LLP (Wellington or the Sub-Adviser), currently serves as sub-adviser to the Fund and manages the Legacy Portfolio with a view toward holding and opportunistically liquidating the assets. As these assets are sold, the cash proceeds are available to Rocky Mountain Advisers, LLC (RMA) and Stewart Investment Advisers (SIA) (together, RMA and SIA are the Advisers) for investment in a wide range of securities which could include, among others, U.S. or foreign common stocks, debt instruments, preferred stocks, securities convertible into common stocks, cash, and cash equivalents (the Advisers Portfolio).

On October 3, 2011, the Fund effected a series of transactions; withdrawing from or transferring all of its interests in domestic Hedge Funds to offshore entities (the Hedge Fund Restructuring). As a result of these transactions, the Fund's investments in Hedge Funds became either: 1) direct investments in offshore Hedge Funds substantially similar to the domestic Hedge Fund from which the Fund withdrew, or 2) indirect investments in the same domestic Hedge Fund through wholly-owned subsidiaries of the Fund organized in the Cayman Islands. The Hedge Fund Restructuring was effected to ensure the Fund's continued compliance with Subchapter M of the Internal Revenue Code. Investments in offshore Hedge Funds and the use of offshore subsidiaries carry unique regulatory and tax risks that could exacerbate the risks already present in domestic Hedge Funds (see Note 2) and will subject the Fund to increased expenses and tax reporting obligations.

Stockholders should be aware that an investment in the Fund involves a high degree of risk, including the risk associated with investing in Hedge Funds. Please refer to additional discussion of these risks in Note 2.

As of September 30, 2012, the portion of the Fund under the direct management of the Advisers represented approximately 79.5% of the Fund's net assets, including 33.0% of the Fund's net assets in the Advisers Portfolio and 46.5% invested in Hedge Funds. The Legacy Portfolio, managed by the Sub-Adviser, represented approximately 20.5% of the net assets of the Fund.

NOTE 2. SIGNIFICANT ACCOUNTING POLICIES AND SECURITIES VALUATION

The following is a summary of significant accounting policies followed by the Fund in the preparation of its financial statements. The preparation of financial statements is in accordance with generally accepted accounting principles in the United States of America (GAAP), which requires management to make estimates and assumptions that affect the reported amounts and disclosures in the financial statements. The most critical estimates reflected in the financial statements relate to securities whose fair values have been estimated by management in the absence of readily determinable fair values. Actual results could differ from those estimates.

Table of Contents

Notes to Consolidated

First Opportunity Fund, Inc.

Financial Statements
September 30, 2012 (Unaudited)

Basis for Consolidation: The accompanying consolidated financial statements include the accounts of FOFI 1, Ltd. and FOFI 2, Ltd. (the Subsidiaries), each a wholly-owned subsidiary of the Fund organized under the laws of the Cayman Islands. FOFI 1, Ltd. invests in Bay Pond Partners, LP, and FOFI 2, Ltd. invests in J. Caird Partners, LP. The Fund may invest up to 25% of its total assets in the Subsidiaries. The aggregated net assets of the Subsidiaries at September 30, 2012 were \$64,154,249 or 22.7% of the Fund's consolidated total net assets. The Consolidated Portfolio of Investments includes positions of the Fund and of the Subsidiaries. The Subsidiaries price their portfolio investments pursuant to the same pricing and valuation methodologies used by the Fund.

Securities Valuation: Equity securities for which market quotations are readily available (including securities listed on national securities exchanges and those traded over-the-counter) are valued based on the last quoted sales price from the applicable exchange. If such equity securities were not traded on the valuation date, but market quotations are readily available, they are valued at the most recently quoted bid price provided by an independent pricing service or by principal market makers. Equity securities traded on NASDAQ are valued at the NASDAQ Official Closing Price (NOCP). Debt securities are valued at the mean between the closing bid and asked prices, or based on a matrix system which utilizes information (such as credit ratings, yields and maturities) from independent sources.

The Fund's board of directors (the Board) has delegated to the Pricing Committee the responsibility of determining the fair value of any security or financial instrument owned by the Fund for which market quotations are not readily available or where the pricing agent or market maker does not provide a valuation or methodology, or provides a valuation or methodology that, in the judgment of the Advisers or Sub-Adviser, does not represent fair value (Fair Value Securities). The Pricing Committee, which consists of at least one non-interested director and one senior officer of the Fund, in consultation with the Advisers or Sub-Adviser's Valuation Committee, as appropriate, uses various valuation techniques that utilize both observable and unobservable inputs including tangible book value, zero, adjusted NAV, NAV, comparable company approach, comparable company approach less a 10% discount, greater of modified Black Scholes less a 10% discount or Intrinsic Value less 10% discount, book value, last trade, worthless, target event, and discounted cash flow models. In such circumstances, the Valuation Committee of the Advisers and Sub-Adviser are responsible for (i) identifying Fair Value Securities, (ii) analyzing the Fair Value Security and developing, applying and documenting a methodology for valuing Fair Value Securities, and (iii) recommending to the Pricing Committee and memorializing valuations for Fair Value Securities, and (iv) periodically reviewing the appropriateness and accuracy of the methods used in valuing Fair Value Securities. The Pricing Committee reviews and makes a determination regarding each initial methodology recommendation and any subsequent methodology changes. All methodology recommendations and any changes are reviewed by the entire Board on a quarterly basis.

The Fund's investments in Hedge Funds are valued, as a practical expedient, at the most recent estimated net asset value periodically determined by the respective Hedge Fund managers according to such manager's policies and procedures based on valuation information reasonably available to the Hedge Fund manager at that time (adjusted for estimated expenses and fees accrued to the Fund since the last valuation date); provided, however, that the Pricing Committee may consider whether it is appropriate, in light of relevant circumstances, to adjust such valuation in accordance with the Fund's valuation procedures. If a Hedge Fund does not report a value to the Fund on a timely basis, the fair value of such Hedge Fund shall be based on the most recent value reported by the Hedge Fund, as well as any other relevant information available at the time the Fund values its portfolio. As a practical matter, Hedge Fund valuations generally can be obtained from Hedge Fund managers on a weekly basis, as of close of business Thursday, but the frequency

Table of Contents

Notes to Consolidated

Financial Statements

First Opportunity Fund, Inc.
September 30, 2012 (Unaudited)

and timing of receiving valuations for Hedge Fund investments is subject to change at any time, without notice to investors, at the discretion of the Hedge Fund manager or the Fund.

The consolidated financial statements include investments valued at \$157,580,123 (55.86% of total net assets) as of September 30, 2012 whose fair values have been estimated by management in the absence of readily determinable fair values. Due to the inherent uncertainty of the valuation of these investments, these values may differ from the values that would have been used had a ready market for these investments existed and the differences could be material.

Short-term securities which mature in more than 60 days are valued at current market quotations. Short-term securities which mature in 60 days or less are valued at amortized cost, which approximates fair value.

For valuation purposes, the last quoted prices of non-U.S. equity securities may be adjusted under the circumstances described below. If the Fund determines that developments between the close of a foreign market and the close of the New York Stock Exchange (the NYSE) will, in its judgment, materially affect the value of some or all of its portfolio securities, the Fund will adjust the previous closing prices to reflect what it believes to be the fair value of the securities as of the close of the NYSE. In deciding whether it is necessary to adjust closing prices to reflect fair value, the Fund reviews a variety of factors, including developments in foreign markets, the performance of U.S. securities markets, and the performance of instruments trading in U.S. markets that represent foreign securities and baskets of foreign securities. The Fund may also fair value securities in other situations, such as when a particular foreign market is closed but the U.S. market is open. The Fund uses outside pricing services to provide it with closing prices and information to evaluate and/or adjust those prices. The Fund cannot predict how often it will use closing prices and how often it will determine it necessary to adjust those prices to reflect fair value. If the Fund uses adjusted prices, the Fund will periodically compare closing prices, the next day's opening prices in the same markets and those adjusted prices as a means of evaluating its security valuation process.

Various inputs are used to determine the value of the Fund's investments. Observable inputs are inputs that reflect the assumptions market participants would use based on market data obtained from sources independent of the reporting entity. Unobservable inputs are inputs that reflect the reporting entity's own assumptions based on the best information available in the circumstances.

These inputs are summarized in the three broad levels listed below.

- Level 1 Unadjusted quoted prices in active markets for identical investments
- Level 2 Significant observable inputs (including quoted prices for similar investments, interest rates, prepayment speeds, credit risk, etc.)
- Level 3 Significant unobservable inputs (including the Fund's own assumptions in determining the fair value of investments)

Foreign Limited Partnerships			66,754,472	66,754,472
Domestic Preferred Stocks			1,705,201	1,705,201
Domestic Rights and Warrants		255,599		255,599
Short Term Investments	12,227,356			12,227,356
TOTAL	\$ 118,273,482	\$ 6,442,640	\$ 157,324,524	\$ 282,040,646

The Fund evaluates transfers into or out of Level 1, 2 and 3 as of the end of the reporting period. Financial assets were transferred from Level 1 to Level 2 since certain equity prices used a bid price from a data provider at the end of the period and a last quoted sales price from a data provider at the beginning of the period. Other financial assets were moved from Level 3 to Level 2 as observable inputs are available for purposes of valuing those assets.

Table of Contents

Notes to Consolidated

Level 3 securities consist of the Fund's investments in Domestic and Foreign Limited Partnerships, Domestic Preferred Stocks, Domestic Rights and Warrants, and Domestic and Foreign Common Stocks in the following industries: Banks & Thrifts, Diversified Financial Services, Insurance, National Stock Exchange, Mortgages & REITS, and Savings & Loans.

The significant unobservable inputs used in fair value measurement of the Fund's investments in Banks & Thrifts are price to tangible book value multiple, tangible book value, and discount for lack of marketability. A change to the inputs of the formula may result in a change to the valuation.

The significant unobservable inputs used in fair value measurement of the Fund's investments in Diversified Financial Services are book value, price to tangible book value multiple, tangible book value, discount for lack of marketability and capital balance. A change to the inputs of the formula may result in a change to the valuation.

The significant unobservable inputs used in fair value measurement of the Fund's investments in Insurance are price to tangible book value multiple, book value, and discount for lack of marketability. A change to the inputs of the formula may result in a change to the valuation.

September 30, 2012 (Unaudited)

The significant unobservable inputs used in fair value measurement of the Fund's investments in Mortgages & REITS are book value and merger consideration. A change to the inputs of the formula may result in a change to the valuation.

The significant unobservable inputs used in fair value measurement of the Fund's investments in Savings & Loans are price to tangible book value multiple, tangible book value and discount for lack of marketability. A change to the inputs of the formula may result in a change to the valuation.

The significant unobservable inputs used in fair value measurement of the Fund's investments in National Stock Exchanges are price to earnings multiple, earnings, and discount for lack of marketability. A change to the inputs of the formula may result in a change to the valuation.

The significant unobservable input used in fair value measurement of the Fund's investments in Domestic and Foreign Limited Partnerships is capital balance. A change to the inputs of the formula may result in a change to the valuation.

The significant unobservable inputs used in fair value measurement of the Fund's investments in Domestic Preferred Stocks are yield and discount for lack of marketability. A change to the inputs of the formula may result in a change to the valuation.

The significant unobservable input used in fair value measurement of the Fund's investments in Domestic Rights and Warrants is bankruptcy. A change to the inputs of the formula may result in a change to the valuation.

Securities Transactions and Investment Income: Securities transactions are recorded as of the trade date. Realized gains and losses from securities sold are recorded on the identified cost basis. Dividend income is recorded as of the ex-dividend date, or for certain foreign securities, when the information becomes available to the Fund. Interest income including amortization of premium and accretion of discount on debt securities, as required, is recorded on the accrual basis, using the interest method.

Foreign Currency Translations: The Fund may invest a portion of its assets in foreign securities. In the event that the Fund executes a foreign security transaction, the Fund will generally enter into a forward foreign currency contract to settle the foreign security transaction. Foreign securities may carry more risk than U.S. securities, such as political, market and currency risks. See Foreign Issuer Risk below.

The books and records of the Fund are maintained in U.S. dollars. Foreign currencies, investments and other assets and liabilities denominated in foreign currencies are translated into U.S. dollars at the exchange rate prevailing at the end of the period, and purchases and sales of investment securities, income and expenses transacted in foreign currencies are translated at the exchange rate on the dates of such transactions. Foreign currency gains and losses result from fluctuations in exchange rates between trade date and settlement date on securities transactions, foreign currency transactions and the difference between amounts of foreign interest and dividends recorded on the books of the Fund and the amounts actually received.

The portion of realized and unrealized gains or losses on investments due to fluctuations in foreign currency exchange rates is not separately disclosed and is included in realized and unrealized gains or losses on investments, when applicable.

September 30, 2012 (Unaudited)

Foreign Issuer Risk: Investment in non-U.S. issuers may involve unique risks compared to investing in securities of U.S. issuers. These risks may include, but are not limited to: (i) less information about non-U.S. issuers or markets may be available due to less rigorous disclosure, accounting standards or regulatory practices; (ii) many non-U.S. markets are smaller, less liquid and more volatile thus, in a changing market, the Advisers may not be able to sell the Fund's portfolio securities at times, in amounts and at prices they consider reasonable; (iii) currency exchange rates or controls may adversely affect the value of the Fund's investments; (iv) the economies of non-U.S. countries may grow at slower rates than expected or may experience downturns or recessions; and, (v) withholdings and other non-U.S. taxes may decrease the Fund's return.

Concentration Risk: The Fund has highly concentrated positions in certain Hedge Funds and may take concentrated positions in other securities. Concentrating investments in a fewer number of securities (including investments in Hedge Funds) may involve a degree of risk that is greater than a fund which has less concentrated investments spread out over a greater number of securities. For example, the value of the Fund's net assets will fluctuate significantly based on the fluctuation in the value of the Hedge Funds in which it invests. In addition, investments in Hedge Funds can be highly volatile and may subject investors to heightened risk and higher operating expenses than another closed-end fund with a different investment focus.

Hedge Fund Risk: The Fund invests a significant portion of its assets in Hedge Funds. The Fund's investments in Hedge Funds are private entities that are not registered under the 1940 Act and have limited regulatory oversight and disclosure obligations. In addition, the Hedge Funds invest in and actively trade securities and other financial instruments using different strategies and investment techniques, which involve significant risks. These strategies and techniques may include, among others, leverage, employing various types of derivatives, short selling, securities lending, and commodities trading. These Hedge Funds may invest a high percentage of their assets in specific sectors of the market in order to achieve a potentially greater investment return. As a result, the Hedge Funds may be more susceptible to economic, political, and regulatory developments in a particular sector of the market, positive or negative, and may experience increased volatility. These and other risks associated with Hedge Funds may cause the Fund's net asset value to be more volatile and more susceptible to the risk of loss than that of other funds with a different investment strategy.

Changes In Investment Policies: On May 3, 2010, stockholders approved eliminating the Fund's fundamental concentration policy which previously required that the Fund invest at least 65% of its assets in financial services companies. As a result, the Fund may not invest more than 25% of its assets in any industry or group of industries (including financial services related industries). While the Advisers and the Sub-Adviser do not intend to invest more than 25% of the Fund's assets in a single industry, the Fund does not look through its investments in the Hedge Funds, some of which have significant exposure to industries within the financial sector, to determine whether the Fund exceeds the 25% limit. As a result, the Fund may be indirectly concentrated in an industry or group of industries by virtue of the Fund's investments in Hedge Funds.

Credit Default Swaps: The Fund may enter into credit default swap contracts for hedging purposes, to gain market exposure or to add leverage to its portfolio. When used for hedging purposes, the Fund would be the buyer of a credit default swap contract. In that case, the Fund would be entitled to receive the par (or other agreed-upon) value of a referenced debt obligation, index or other investment from the counterparty to the contract in the event of a default by a third party, such as a U.S. or foreign issuer, on the referenced debt obligation. In return, the Fund

Table of Contents

Notes to Consolidated

First Opportunity Fund, Inc.

Financial Statements
September 30, 2012 (Unaudited)

would pay to the counterparty a periodic stream of payments over the term of the contract provided that no event of default has occurred. If no default occurs, the Fund would have spent the stream of payments and received no benefit from the contract. When the Fund is the seller of a credit default swap contract, it receives the stream of payments but is obligated to pay upon default of the referenced debt obligation. As the seller, the Fund would effectively add leverage to its portfolio because, in addition to its total assets, the Fund would be subject to investment exposure on the notional amount of the swap.

In addition to the risks applicable to derivatives generally, credit default swaps involve special risks because they may be difficult to value, may be susceptible to liquidity and credit risk, and generally pay a return to the party that has paid the premium only in the event of an actual default by the issuer of the underlying obligation, as opposed to a credit downgrade or other indication of financial difficulty. Credit default swaps are marked to market periodically using quotations from pricing services. A realized gain or loss is recorded upon payment or receipt of a periodic payment or termination of the swap agreement.

Counterparty Risk: Changes in the credit quality of the companies that serve as the Fund's counterparties with respect to derivatives, swaps or other transactions supported by another party's credit will affect the value of those instruments. By using derivatives, swaps or other transactions, the Fund assumes the risk that its counterparties could experience such changes in credit quality.

The Fund did not transact in credit default swaps during the six months ended September 30, 2012, nor were any outstanding as of September 30, 2012.

Derivative Risk: The Fund, as well as the Hedge Funds in which the Fund invests, may employ derivative instruments as a strategy to hedge its portfolio or enhance return. Derivatives are financial instruments that derive their performance, at least in part, from the performance of an underlying asset, index or interest rate. Derivatives can be volatile and involve various types and degrees of risk.

Federal Income Taxes: For federal income tax purposes, the Fund currently qualifies, and intends to remain qualified, as a regulated investment company under the provisions of subchapter M of the Internal Revenue Code by distributing substantially all of its earnings to its stockholders. Accordingly, no provision for federal income or excise taxes has been made.

Income and capital gain distributions are determined and characterized in accordance with income tax regulations, which may differ from U.S. GAAP. These differences are primarily due to differing treatments of income and gains on various investment securities held by the Fund, timing differences and differing characterization of distributions made by the Fund as a whole.

Management has concluded there are no uncertain tax positions that require recognition of a tax liability. The Fund files income tax returns in the U.S. federal jurisdiction and Colorado. The statute of limitations on the Fund's federal and state tax filings remains open for the fiscal years ended March 31, 2009, through March 31, 2012.

On December 22, 2010, the Regulated Investment Company Modernization Act of 2010 (the "Modernization Act") was signed into law and is effective for the Fund's current fiscal year. The Modernization Act is the first major piece of legislation affecting regulated investment companies

Table of Contents

Notes to Consolidated

Financial Statements

First Opportunity Fund, Inc.
September 30, 2012 (Unaudited)

(RICs) since 1986 and it modernizes several of the federal income and excise tax provisions related to RICs. Some highlights of the enacted provisions are as follows:

New capital losses may now be carried forward indefinitely, and retain the character of the original loss. Under pre-enactment law, capital losses could be carried forward for eight years, and carried forward as short-term capital losses, irrespective of the character of the original loss.

The Modernization Act contains simplification provisions, which are aimed at preventing disqualification of a RIC for inadvertent failures of the asset diversification and/or qualifying income tests. Additionally, the Modernization Act exempts RICs from the preferential dividend rule, and repealed the 60-day designation requirement for certain types of paythrough income and gains.

Finally, the Modernization Act contains several provisions aimed at preserving the character of distributions made by a RIC during the portion of its taxable year ending after October 31 or December 31, thereby reducing the circumstances under which a RIC might be required to file amended Forms 1099 to restate previously reported distributions.

NOTE 3. AGREEMENTS

RMA and SIA serve as co-advisers to the Fund, and make investment decisions on behalf of the Fund. Wellington serves as sub-adviser to the Fund.

According to the Advisory Agreements, RMA and SIA are paid an advisory fee, payable monthly, at an annual rate equal to 1.25% of the Fund's average monthly total net assets plus leverage, if any (Managed Assets) (the Advisory Fee). However, RMA and SIA have agreed to waive their fees in an amount equal to up to 1.00% of the Fund's assets invested in Wellington-affiliated Hedge Funds to offset any asset based fees (but not any performance-based fees) paid to Wellington with respect to the Hedge Fund investments. Additionally, effective December 1, 2011, RMA and SIA agreed to waive 0.10% of the Advisory Fee applied to the Advisers' Portfolio such that the Advisory Fee will be calculated at the annual rate of 1.15% of Managed Assets in the Advisers' Portfolio. The fee waiver agreement has a one-year term and is renewable annually. The waiver does not apply to the Hedge Fund Portfolio or to the Legacy Portfolio.

RMA is owned by the Susan L. Ciciora Trust (the SLC Trust), which is also a member of Evergreen Atlantic LLC, a Colorado limited liability company (EALLC), and is a stockholder of the Fund. SIA is owned by the Stewart West Indies Trust, which is also a member of EALLC. RMA and SIA are considered affiliated persons, as that term is defined the 1940 Act, of the Fund and Fund Administrative Services, LLC (FAS). SIA receives a fee equal to 75% of the fees earned by the Advisers, and RMA receives 25% of the fees earned by the Advisers.

According to the Sub-Advisory Agreement, Wellington earns a sub-advisory fee, payable monthly by RMA and SIA, at an annual rate equal to 1.125% of the Fund's month-end value of the Legacy Portfolio. Effective April 1, 2011, Wellington agreed to voluntarily waive its sub-advisory fees in excess of 0.625%, per annum. Under the terms of the Wellington fee waiver agreement, it is a condition to the waiver that the Advisers and the Fund expressly acknowledge that Wellington may unilaterally terminate the agreement if the Advisers do not pass through the economic benefit of this waiver to the Fund. Accordingly, the Advisers have voluntarily agreed to waive any

Table of Contents

Notes to Consolidated

First Opportunity Fund, Inc.

Financial Statements
September 30, 2012 (Unaudited)

additional fees relating to the Legacy Portfolio to which the Advisers would otherwise be entitled by virtue of Wellington's waiver.

The term of Wellington's role as sub-adviser was for an initial two year period and is limited to managing, and if appropriate, opportunistically liquidating a portion of the Fund's legacy holdings. On April 27, 2012, the Board renewed the Sub-Advisory Agreement for a term set to expire on December 31, 2012. Upon expiration of the Sub-Advisory Agreement on December 31, 2012, the Advisers expect to assume direct management of the Legacy Portfolio. As of January 1, 2013, the Advisers will receive an advisory fee equal to 1.15%, an increase on the Legacy Portfolio of 0.40% over that previously paid. As a result of the change in the advisory structure, Fund expenses are expected to increase.

FAS serves as the Fund's co-administrator. Under the Administration Agreement, FAS provides certain administrative and executive management services to the Fund. The Fund pays FAS a monthly fee, calculated at an annual rate of 0.20% of Managed Assets up to \$100 million and 0.15% of the Fund's Managed Assets over \$100 million. The equity owners of FAS are EALLC and the Lola Brown Trust No. 1B (the Lola Trust). The Lola Trust is a stockholder of the Fund, and the Lola Trust and EALLC are considered to be affiliated persons of the Fund and the Advisers, as that term is defined in the 1940 Act.

ALPS Fund Services, Inc. (ALPS) serves as the Fund's co-administrator. As compensation for its services, ALPS receives certain out-of-pocket expenses and asset-based fees, which are accrued daily and paid monthly (the Co-Administration Fee). Fees paid to ALPS are calculated based on combined assets of the Fund and the following affiliates of the Fund: Boulder Total Return Fund, Inc., Boulder Growth & Income Fund, Inc., and The Denali Fund Inc. (the Fund Group). ALPS receives the greater of the following, based on combined average assets of the Fund Group: an annual minimum of \$460,000, or an annualized fee of 0.045% on assets up to \$1 billion, an annualized fee of 0.03% on assets between \$1 and \$3 billion, and an annualized fee of 0.02% on assets above \$3 billion. In connection with the Hedge Fund Restructuring, the Fund and the Fund's wholly-owned Cayman Island subsidiaries entered into an additional Administration Agreement with ALPS to provide certain administrative services to the Cayman Island subsidiaries. Pursuant to the new Administration Agreement, the Fund pays ALPS through its subsidiaries a fee in addition to the Co-Administration Fee at the annual rate of \$45,000, payable monthly.

The Fund pays each member of the Board (a Director) who is not a director, officer, employee, or affiliate of the Advisers or FAS a fee of \$8,000 per annum, plus \$4,000 for each in-person meeting of the Board and \$500 for each telephone meeting. In addition, the Chairman of the Board and the Chairman of the Audit Committee receive \$1,000 per meeting and each member of the Audit Committee receives \$500 per meeting. Each member of the Nominating Committee receives \$500 per meeting. The Fund will also reimburse all non-interested Directors for travel and out-of-pocket expenses incurred in connection with such meetings.

Bank of New York Mellon (BNY Mellon) serves as the Fund's custodian. As compensation for BNY Mellon's services, the Fund pays BNY Mellon a monthly fee plus certain out-of-pocket expenses.

Computershare Trust Company, N.A. (Computershare) serves as the Fund's Transfer Agent, dividend-paying agent, and registrar. As compensation for Computershare's services, the Fund pays Computershare a monthly fee plus certain out-of-pocket expenses.

NOTE 4. SECURITIES TRANSACTIONS

Cost of purchases and proceeds from sale of securities for the six months ended September 30, 2012, excluding short-term investments, aggregated \$42,895,009 and \$22,694,028, respectively.

NOTE 5. CAPITAL

As of September 30, 2012, 50,000,000 shares of \$0.001 par value common stock (the Common Stock) were authorized and 28,739,389 shares were issued and outstanding.

Transactions in Common Stock were as follows:

	For the Six	
	Months Ended	
	September 30, 2012	Year Ended March 31, 2012
Common Stock outstanding - beginning of period	28,739,389	28,739,389
Common Stock outstanding - end of period	28,739,389	28,739,389

NOTE 6. SHARE REPURCHASE PROGRAM

In accordance with Section 23(c) of the 1940 Act, the Fund may from time to time repurchase shares of the Fund in the open market at the option of the Board and upon such terms as the Board shall determine. For the six months ended September 30, 2012 and year ended March 31, 2012, the Fund did not repurchase any of its own shares.

NOTE 7. SIGNIFICANT STOCKHOLDERS

As of September 30, 2012, the Lola Trust and other entities affiliated with Stewart R. Horejsi and the Horejsi family owned 11,342,841 shares of Common Stock of the Fund, representing 39.5% of the total Common Stock outstanding.

NOTE 8. DISTRIBUTIONS AND TAX INFORMATION

The Fund paid no distributions during the six months ended September 30, 2012 and during the year ended March 31, 2012.

Edgar Filing: FIRST OPPORTUNITY FUND INC - Form N-CSRS

As of March 31, 2012, the components of distributable earnings on a tax basis were as follows:

Undistributed Ordinary Income	\$ 0
Accumulated Capital Gains / (Losses)	(47,368,387)
Unrealized Appreciation / (Depreciation)	(22,298,969)
Other Cumulative Effect of Timing Differences	(536,396)
TOTAL	\$ (70,203,752)

As of March 31, 2012, the Fund had unused capital loss carryovers of \$5,215,767 expiring March 31, 2017 and \$35,618,163 expiring March 31, 2018.

The Fund utilized capital loss carryovers in the prior fiscal year of \$11,432,649.

Table of Contents

Notes to Consolidated

First Opportunity Fund, Inc.

Financial Statements
September 30, 2012 (Unaudited)

The Fund has post October capital losses of \$6,534,457 which it has elected to defer until the next fiscal year.

Investment income/(loss) and net realized gain/(loss) may differ for financial statement and tax purposes. The character of dividends and distributions made during the fiscal year from net investment income and or realized gains may differ from their ultimate characterization for federal income tax purposes. The Fund has decreased over distributed net investment income by \$171,722, increased accumulated capital gains by \$2,424,514 and decreased paid-in-capital by \$2,252,792 as of March 31, 2012. Included in the amounts reclassified was a net operating loss of \$959,073. The reclassifications had no impact on net asset value.

On September 30, 2012, based on cost of \$284,367,201 for federal income tax purposes, aggregate gross unrealized appreciation for all securities in which there is an excess of value over tax cost was \$43,279,317 and aggregate gross unrealized depreciation for all securities in which there is an excess of tax cost over value was \$45,605,872. This resulted in net unrealized depreciation of \$2,326,555.

NOTE 9. TRANSACTIONS WITH AFFILIATED COMPANIES

Transactions during the period with companies in which the Fund owned at least 5% of the voting securities were as follows:

Name of Affiliate	Beginning Share Balance as of 4/1/12	Purchases	Sales	Ending Share Balance as of 9/30/12	Dividend Income	Realized Gains (Losses)	Value as of 9/30/12
Broadway Financial Corp.	96,980		4,600	92,380	\$	\$ (12,294)	\$ 217,093

NOTE 10. RESTRICTED SECURITIES

As of September 30, 2012, investments in securities included issues that are considered restricted. Restricted securities are often purchased in private placement transactions, are not registered under the Securities Act of 1933, may have contractual restrictions on resale, and may be valued under methods approved by the Board as reflecting fair value.

Restricted securities as of September 30, 2012 were as follows:

Description	Acquisition Date	Cost	Value	Value as Percentage of Net Assets
Affinity Financial Corp.	3/24/05	\$ 1,000,000	\$	0.0%

NOTE 11. INVESTMENTS IN LIMITED PARTNERSHIPS

As of September 30, 2012, the Fund held investments in limited partnerships. The Fund's investments in the limited partnerships are reported on the Consolidated Portfolio of Investments under the sections titled Domestic Limited Partnerships and Foreign Limited Partnerships.

Since the investments in limited partnerships are not publicly traded, the Fund's ability to make withdrawals from its investments in the limited partnerships is subject to certain restrictions which vary for each respective limited partnership. These restrictions include notice requirements for withdrawals and additional restrictions or charges for withdrawals within a certain time period following initial investment. In addition, there could be circumstances in which such restrictions can include the suspension or delay in withdrawals from the respective limited partnership, or limited withdrawals allowable only during specified times during the year. In certain circumstances a limited partner may not make withdrawals that occur less than one year following the date of admission to the partnership. The following table summarizes the Fund's investments in limited partnerships as of September 30, 2012.

Description	% of Net Assets as of 9/30/12	Value as of 9/30/12	Net Unrealized Gain/(Loss) as of 9/30/12	Mgmt fees	Incentive fees	Redemption Period/ Frequency

The Fund did not have any outstanding unfunded commitments as of September 30, 2012.

NOTE 12. SUBSEQUENT EVENTS

Advisory Fee Waiver. Effective December 1, 2012, RMA and SIA agreed to waive 0.10% of the Advisory Fee applied to the Advisers' Portfolio such that the Advisory Fee will be calculated at the annual rate of 1.15% of Managed Assets in the Advisers' Portfolio. The fee waiver agreement has a one-year term and is renewable annually. The waiver does not apply to the Hedge Fund Portfolio or to the Legacy Portfolio, as long as Wellington serves as Sub-Adviser.

Additional Information
September 30, 2012 (Unaudited)

Portfolio Information. The Fund files its complete schedule of portfolio holdings with the Securities and Exchange Commission (the SEC) for the first and third quarters of each fiscal year on Form N-Q. The Fund's Form N-Q is available (1) on the Fund's website located at <http://www.firstopportunityfund.com>; (2) on the SEC's website at <http://www.sec.gov>; or (3) for review and copying at the SEC's Public Reference Room (PRR) in Washington, DC. Information regarding the operation of the PRR may be obtained by calling 1-800-SEC-0330.

Proxy Voting Information. The policies and procedures used to determine how to vote proxies relating to securities held by the Fund are available on the Fund's website located at <http://www.firstopportunityfund.com>, on the SEC's website at www.sec.gov, or by calling 303-449-0426. Information regarding how the Fund voted proxies relating to portfolio securities during the most recent twelve-month period ended June 30 is available at <http://www.sec.gov>.

Senior Officer Code of Ethics. The Fund files a copy of its code of ethics that applies to the registrant's principal executive officer, principal financial officer or controller, or persons performing similar functions (the Senior Officer Code of Ethics), with the SEC as an exhibit to its annual report on Form N-CSR. The Fund's Senior Officer Code of Ethics is available on the Fund's website located at <http://www.firstopportunityfund.com>.

Privacy Statement. Pursuant to SEC Regulation S-P (Privacy of Consumer Financial Information) the Board established the following policy regarding information about the Fund's stockholders. We consider all stockholder data to be private and confidential, and we hold ourselves to the highest standards in its safekeeping and use.

General Statement. The Fund may collect nonpublic information (e.g., your name, address, email address, Social Security Number, Fund holdings (collectively, Personal Information)) about stockholders from transactions in Fund shares. The Fund will not release Personal Information about current or former stockholders (except as permitted by law) unless one of the following conditions is met: (i) we receive your prior written consent; (ii) we believe the recipient to be you or your authorized representative; (iii) to service or support the business functions of the Fund (as explained in more detail below), or (iv) we are required by law to release Personal Information to the recipient. The Fund has not and will not in the future give or sell Personal Information about its current or former stockholders to any company, individual, or group (except as permitted by law) and as otherwise provided in this policy.

In the future, the Fund may make certain electronic services available to its stockholders and may solicit your email address and contact you by email, telephone or U.S. mail regarding the availability of such services. The Fund may also contact stockholders by email, telephone or U.S. mail in connection with these services, such as to confirm enrollment in electronic stockholder communications or to update your Personal Information. In no event will the Fund transmit your Personal Information via email without your consent.

Use of Personal Information. The Fund will only use Personal Information (i) as necessary to service or maintain stockholder accounts in the ordinary course of business and (ii) to support business functions of the Fund and its affiliated businesses. This means that the Fund may share certain Personal Information, only as permitted by law, with affiliated businesses of the Fund, and

that such information may be used for non-Fund-related solicitation. When Personal Information is shared with the Fund's business affiliates, the Fund may do so without providing you the option of preventing these types of disclosures as permitted by law.

Safeguards Regarding Personal Information. Internally, we also restrict access to Personal Information to those who have a specific need for the records. We maintain physical, electronic, and procedural safeguards that comply with Federal standards to guard Personal Information. Any doubts about the confidentiality of Personal Information, as required by law, are resolved in favor of confidentiality.

Summary of Dividend

First Opportunity Fund, Inc.

Reinvestment Plan
September 30, 2012 (Unaudited)

Stockholders may elect to have all distributions of dividends and capital gains automatically reinvested in Fund shares (the "shares") pursuant to the Fund's Dividend Reinvestment Plan (the "Plan"). Stockholders who do not participate in the Plan will normally receive all distributions in cash paid by check in United States dollars mailed directly to the stockholders of record (or if the shares are held in street name or other nominee name, then to the nominee) by the custodian, as dividend disbursing agent, unless the Fund declares a distribution payable in shares, absent a stockholder's specific election to receive cash.

Computershare Trust Company, N.A. (the "Plan Agent") serves as agent for the stockholders in administering the Plan. After the Fund declares a dividend or a capital gains distribution, if (1) the market price is lower than net asset value, the participants in the Plan will receive the equivalent in shares valued at the market price determined as of the time of purchase (generally, following the payment date of a dividend or distribution); or if (2) the market price of shares on the payment date of the dividend or distribution is equal to or exceeds their net asset value, participants will be issued shares at the higher of net asset value or 95% of the market price. If the Fund declares a dividend or other distributions payable only in cash and the net asset value exceeds the market price of shares on the valuation date, the Plan Agent will, as agent for the participants, receive the cash payment and use it to buy shares on the open market. If, before the Plan Agent has completed its purchases, the market price exceeds the net asset value per share, the Plan Agent will halt open-market purchases of the Fund's shares for this purpose, and will request that the Fund pay the remainder, if any, in the form of newly issued shares. The Fund will not issue shares under the Plan below net asset value.

There is no charge to participants for reinvesting dividends or capital gain distributions, except for certain brokerage commissions, as described below. The Plan Agent's fees for the handling of the reinvestment of dividends will be paid by the Fund. There will be no brokerage commissions charged with respect to shares issued directly by the Fund. However, each participant will pay a pro rata share of brokerage commissions incurred with respect to the Plan Agent's open market purchase in connection with the reinvestment of dividends and distributions. The automatic reinvestment of dividends and distributions will not relieve participants of any federal income tax that may be payable on such dividends or distributions. The Fund reserves the right to amend or terminate the Plan upon 90 Days' written notice to stockholders of the Fund. Participants in the Plan may withdraw from the Plan upon written notice to the Plan Agent or by telephone in accordance with specific procedures and will receive certificates for whole shares and cash for fractional shares.

All correspondence concerning the Plan should be directed to the Plan Agent, Computershare Trust Company, N.A., P.O. Box 43011, Providence, RI 02940-3011.

Board of Directors Approval of the

Investment Sub-Advisory Agreement

First Opportunity Fund, Inc.
September 30, 2012 (Unaudited)

The Sub-Adviser has entered into a Sub-Advisory Agreement with the Fund (the Sub-Advisory Agreement) pursuant to which the Sub-Adviser is responsible for managing a portion of the Fund's assets that are invested primarily in equity securities issued by financial services companies (the Legacy Portfolio) in accordance with its investment objectives, policies and limitations. The 1940 Act requires that the Board, including a majority of the Directors who are not interested persons of the Fund within the meaning of Section 2(a)(19) of 1940 Act (the Independent Directors), annually approve the terms of the Sub-Advisory Agreement. At a regularly scheduled meeting held on April 27, 2012, the Board, by a unanimous vote the Directors (including a separate vote of the Independent Directors), approved the renewal of the Sub-Advisory Agreement through December 31, 2012.

Factors Considered

Generally, the Board considered a number of factors in renewing the Sub-Advisory Agreement including, among other things, (i) the nature, extent and quality of services to be furnished by the Sub-Adviser to the Fund; (ii) the investment performance of the Legacy Portfolio compared to relevant market indices and the performance of peer groups of closed-end investment companies pursuing similar strategies (the Peer Group); (iii) the advisory fees and other expenses paid by the Sub-Adviser compared to those of similar funds managed by other investment advisers; (iv) the profitability to the Sub-Adviser of their investment advisory relationship with the Fund; (v) the extent to which economies of scale would be realized if the Legacy Portfolio grows and whether fee levels reflect any economies of scale; (vi) support of the Sub-Adviser by the Fund's principal stockholders; and (vii) the historical relationship between the Fund and the Sub-Adviser. The Board also reviewed the ability of the Sub-Adviser to provide investment management and supervision services to the Fund, including the background, education and experience of the key portfolio management and operational personnel, the investment philosophy and decision-making process of those professionals, and the ethical standards maintained by the Sub-Adviser.

Deliberative Process

To assist the Board in its evaluation of the quality of the Sub-Adviser's services and the reasonableness of the Sub-Adviser's fees under the Sub-Advisory Agreement, the Board received a memorandum from independent legal counsel to the Independent Directors discussing the factors generally regarded as appropriate to consider in evaluating investment advisory arrangements and the duties of directors in approving such arrangements. In connection with its evaluation, the Board also requested, and received, various materials relating to the Sub-Adviser's investment services under the Sub-Advisory Agreement. These materials included reports and presentations from the Sub-Adviser that described, among other things, the Sub-Adviser's organizational structure, financial condition, internal controls, policies and procedures on brokerage practices, soft-dollar commissions and trade allocation, comparative investment performance results, comparative advisory fees, and compliance policies and procedures. The Board also considered information received from the Sub-Adviser throughout the year, including investment performance and returns as well as stock price, net asset value and expense ratio reports for the Fund.

In advance of the April 27, 2012 Board meeting, the Independent Directors held a special telephonic meeting with counsel to the Fund and to the Independent Directors. The principal purpose of the meetings was to discuss the renewal of the Sub-Advisory Agreement and to review the materials provided to the Board by the Sub-Adviser in connection with the annual review process. The Board held additional discussions at the April 27, 2012 Board meeting, which included

Table of Contents

	Board of Directors Approval of the
First Opportunity Fund, Inc.	Investment Sub-Advisory Agreement <i>September 30, 2012 (Unaudited)</i>

a private session among the Independent Directors and their independent legal counsel at which no employees or representatives of the Sub-Adviser were present.

The information below summarizes the Board's considerations in connection with its approval of the Sub-Advisory Agreement. In deciding to approve the Sub-Advisory Agreement, the Board did not identify a single factor as controlling and this summary does not describe all of the matters considered. However, the Board concluded that each of the various factors referred to below favored such approval.

Nature, Extent and Quality of the Services Provided; Ability to Provide Services

The Board received and considered various data and information regarding the nature, extent and quality of services provided to the Fund by the Sub-Adviser under the Sub-Advisory Agreement. The Sub-Adviser's most recent investment adviser registration form on the SEC's Form ADV was provided to the Board, as were the responses of the Sub-Adviser to information requests submitted to the Sub-Adviser by the Independent Directors through their independent legal counsel. The Board reviewed and analyzed the materials, which included information about the background, education and experience of the Sub-Adviser's key portfolio management and operational personnel and the amount of attention devoted to the Legacy Portfolio by the Sub-Adviser's portfolio management personnel. The Board was satisfied that the Sub-Adviser's investment personnel would devote an adequate portion of their time and attention to the success of the Legacy Portfolio and its investment strategy. Based on the above factors, the Board concluded that it was generally satisfied with the nature, extent and quality of the investment advisory services provided to the Fund by the Sub-Adviser, and that the Sub-Adviser possessed the ability to continue to provide these services to the Fund in the future.

Investment Performance

The Board considered the investment performance of the Legacy Portfolio since the Sub-Adviser was engaged by the Fund on June 1, 2010, as compared to both relevant indices and the performance of the Peer Group. The Board noted that based on its net asset value performance as of March 31, 2012, the Legacy Portfolio outperformed the Standard & Poor's 500 Index, the Fund's primary relevant benchmark, and the SNL All Daily Thrift Index and MSCI Finance ex Real Estate Index since June 1, 2010. The Board noted that the Legacy Portfolio outperformed its Peer Group average for the period June 1, 2010 to March 31, 2012. The Board was satisfied that the Sub-Adviser was appropriately focused on the investment performance of the Legacy Portfolio.

Costs of Services Provided and Profits Realized by the Advisers

In evaluating the costs of the services provided to the Fund by the Sub-Adviser, the Board received statistical and other information regarding the Fund's total expense ratio and its various components, including the advisory and sub-advisory fees and investment-related expenses. The Board noted that the sub-advisory fee is in the range of advisory fees for funds in the Peer Group and is comparable to the fees earned by the Sub-Adviser on other portfolios managed by the Sub-Adviser. The Board also noted that, commencing April 1, 2011, the Sub-Adviser had voluntarily agreed to waive its advisory fees in excess of 0.625% per annum of the average net assets in the Legacy Portfolio, and that these waivers had been passed through directly to Fund stockholders.

Table of Contents

Board of Directors Approval of the

Investment Sub-Advisory Agreement

First Opportunity Fund, Inc.
September 30, 2012 (Unaudited)

The Board also obtained detailed information regarding the overall profitability of the Sub-Adviser. The combined profitability information was obtained to assist the Board in determining the overall benefits to the Sub-Adviser from its relationship to the Fund. In particular, the Board reviewed the costs incurred by the Sub-Adviser in providing services to the Fund. Based on its analysis of this information, the Board determined that the overall level of profits earned by the Sub-Adviser does not appear to be unreasonable based on the profitability of other investment management firms and the quality of the services rendered by the Sub-Adviser.

Economies of Scale

The Board considered whether there have been economies of scale with respect to the management of the Legacy Portfolio, whether the Fund has appropriately benefited from any economies of scale, and whether the fee is reasonable in relation to the Fund's assets and any economies of scale that may exist. The Board noted that one of the principal objectives of the Sub-Adviser is to liquidate the Legacy Portfolio and generally not make new investments. Accordingly, the Board concluded that economies of scale in managing the Legacy Portfolio were unlikely and that it was not necessary to include breakpoints in the advisory fee schedule.

Stockholder Support and Historical Relationship with the Fund

The Board also weighed the views of the Fund's largest stockholders, which are affiliated with the family of Mr. Stewart R. Horejsi. As of March 31, 2012, the Lola Trust and other entities affiliated with the Horejsi family held approximately 39.3% of the Fund's outstanding shares of Common Stock. The Board understood from Mr. Horejsi that these stockholders were supportive of the Sub-Adviser and the renewal of the Sub-Advisory Agreement.

Approval

The Board based its decision to approve the renewal of the Sub-Advisory Agreement on a careful analysis, in consultation with independent counsel, of the above factors as well as other factors. In approving the Sub-Advisory Agreement, the Board concluded that the terms of the Fund's investment advisory agreements are reasonable and fair and that renewal of the Sub-Advisory Agreement is in the best interests of the Fund and its stockholders.
