PRESS RELEASE

Amsterdam, 9 January 2014

ING reaches agreement in principle to make Defined Benefits Pension Fund financially independent

ING to be released from future financial obligations under Dutch DB pension plan

Accounting and equity volatility for ING Bank and ING Insurance will be largely removed

Agreement marks important step in preparation for base case IPO of ING Insurance

ING to make one-off contribution of EUR 549 million to ING Pension Fund with an expected after-tax P&L impact EUR 412 million in 1Q14

In addition, write-off of Pension Asset estimated to result in EUR 0.8 billion after-tax P&L charge in 1Q14

Limited impact on ING Bank's fully-loaded CT 1 ratio and ING Insurance's IGD ratio
ING announced today that it has reached an agreement in principle with the trade unions (CNV Dienstbond, FNV Finance and De Unie), the ING Pension Fund, the Central Works Council and the Association of Retired ING Employees (VSI) to transfer all future funding and indexation obligations under ING's current closed Defined Benefit (DB) Pension Plan in the Netherlands to the ING Pension Fund. The ING Pension Fund manages approximately EUR 18 billion of assets for approximately 70,000 current and former employees of ING Bank and ING Insurance.

On 3 July 2012, ING announced the adoption of two new Defined Contribution (DC) pension plans for employees in the Netherlands as of 1 January 2014: one for employees of ING Bank and one for employees of ING Insurance. ING also announced that the current DB Plan of ING employees in the Netherlands would stop accruing new pension benefits as of 1 January 2014, when the two new schemes would come into effect. Today's agreement is the final step in the move towards a modern, market-conforming pension plan and follows changes in international accounting standards. The agreement makes the ING Pension Fund financially independent and will reduce the equity volatility for both ING Bank and ING Insurance stemming from the requirements under the revised accounting regulation IAS 19.

This agreement represents a significant milestone in the separation of Bank and Insurance as we prepare for the base case IPO of ING Insurance planned for this year. The agreement will greatly reduce the current volatility in our equity and will further simplify the Group. It also provides for a solid financial future for our employees and pensioners as the ING Pension Fund will be well-funded. I would like to thank the many stakeholders who were involved in this complicated exercise," said Ralph Hamers, CEO ING Group.

The key elements of the agreement in principle are:

Responsibility for future indexation and funding thereof will be transferred to the ING Pension Fund;

ING's obligation to restore the coverage ratio of the ING Pension Fund will cease;

The cross guarantees between ING Bank and ING Insurance to jointly and severally fund the obligations of the ING Pension Fund will be terminated;

ING will pay EUR 549 million on a pre-tax basis to the ING Pension Fund for the removal of these obligations;

ING will reduce the employees' own contribution to the pension premium under the new DC Plan by approximately EUR 80 million over a 6 year period.

As part of the agreement, ING Bank and ING Insurance will be released from all financial obligations arising out of the Dutch DB Plan. Accordingly, under IFRS (IAS 19R), this plan will no longer be accounted for as a Defined Benefit Plan. Consequently, the Dutch DB Plan will be removed from ING Group's balance sheet. For ING Group, the removal of these financial obligations and the aforementioned cross guarantee between ING Bank and ING Insurance is an important step towards the base case IPO of ING Insurance.

Under the revised IAS 19 accounting rules, unrecognized actuarial gains and losses on defined benefit pension plans are recognised immediately in equity, which increases volatility driven by movements in financial markets. The transfer of the obligations connected to the current Dutch DB Plan removes this source of volatility for both Bank and Insurance. It also removes the potential direct negative impact on capital in the event of a net pension liability. Furthermore, the switch to the DC Plan will take away the volatility in the pension expenses, that while at a higher level are now fixed.

FINANCIAL IMPACT

As of 31 December 2013 the estimated Dutch DB Net Pension Asset amounted to EUR 1.1 billion (which includes the impact of the forthcoming payment of EUR 330 million indexation in respect of 2014). As per 30 September 2013, the Net Pension Asset amounted to approximately EUR 3.3 billion. The EUR 2.2 billion difference is primarily due to changes in the fourth quarter in the market value of the investments of the Pension Fund, the discount rate and indexation and will be reflected in the fourth quarter Shareholders Equity.

The removal of the Pension Asset on ING's balance sheet of EUR 0.8 billion after tax and the payment to the ING Pension Fund of approximately EUR 0.5 billion (EUR 0.4 billion after-tax) for the removal of the aforementioned pension obligations will result in an after-tax P&L charge of approximately EUR 1.2 billion to be booked as a special item in the first quarter of 2014. Of this impact, EUR 0.8 billion will be attributed to ING Bank and EUR 0.4 billion to ING Insurance. The valuation of the Pension Asset and consequently the final impact on the P&L are subject to change depending on market developments until finalisation of the agreement.

The pro-forma expected negative impact of this agreement on ING Bank's core Tier 1 ratio is approximately 100 basis points. This impact is a reflection of ING Bank's share in the payment to the ING Pension Fund and the removal of the Pension Asset. However, the expected negative impact on the Bank's pro-forma fully loaded core Tier 1 ratio is approximately 20 basis points as the Pension Asset and the so called corridor are already deducted from capital under CRR/CRD IV.

The agreement is expected to have a negative impact of approximately 3%-points on the IGD ratio of ING Insurance on a pro forma basis, reflecting ING Insurance's share in the payment to the ING Pension Fund.

The agreement is subject to the condition that going forward ING will be fully released from all future financial obligations arising out of the Dutch DB Plan as well as regulatory and other approvals. ING expects to be able to announce a final agreement early March 2014.
