Beazer Homes USA, Inc.

We will exchange all original notes that are validly tendered and not withdrawn before the end of the exchange offer for an equal principal amount of new notes that we have registered under the Securities Act of 1933.

This exchange offer expires at 5:00 p.m., New York City time, on February 25, 2014, unless extended.

No public market exists for the original notes or the new notes. We do not intend to list the new notes on any securities exchange or to seek approval for quotation through any automated quotation system.

See Risk Factors beginning on page 8 for a discussion of the risks that holders should consider prior to making a decision to exchange original notes for new notes.

The notes will be our unsecured senior obligations and will rank equally with all of our other unsecured senior indebtedness. The notes will be fully and unconditionally guaranteed jointly and severally on an unsecured senior basis by each of our existing and future material restricted subsidiaries, subject to customary release provisions. The notes and the guarantees will be effectively junior to our secured senior obligations. Upon the occurrence of certain specified changes of control, the holders of the notes will have the right to require us to purchase all or a part of their notes at a repurchase price equal to 101% of the principal amount of the notes, plus accrued and unpaid interest, if any, to the repurchase date.

Neither the Securities and Exchange Commission nor any state securities commission has approved or disapproved of these securities or passed upon adequacy or accuracy of this prospectus. Any representation to the contrary is a criminal offense.

Each broker-dealer that receives new notes for its own account pursuant to the exchange offer must acknowledge that it will deliver a prospectus in connection with any resale of such new notes. A broker-dealer who acquired original notes as a result of market-making or other trading activities may use this prospectus, as supplemented or amended from time to time, in connection with any resales of the new notes.

The date of this prospectus is January 27, 2014

The Exchange Offer

The Exchange Offer

We are offering to exchange up to \$200,000,000 aggregate principal amount of our new 7.500% Senior Notes due 2021 (the new notes) for up to \$200,000,000 aggregate principal amount of our original 7.500% Senior Notes due 2021 (the original notes), which are currently outstanding. Original notes may only be exchanged in a minimum principal amount of \$2,000 and \$1,000 principal increments above such minimum. In order to be exchanged, an original note must be properly tendered and accepted. All original notes that are validly tendered and not validly withdrawn prior to the expiration of the exchange offer will be exchanged.

Resales Without Further Registration

Based on interpretations by the staff of the Securities and Exchange Commission (the SEC) in several no action letters issued to third parties, we believe that the new notes issued pursuant to the exchange offer may be offered for resale, resold or otherwise transferred by you without compliance with the registration and prospectus delivery provisions of

the Securities Act of 1933, as amended (the "Securities Act"), *provided* that:

you are acquiring the new notes issued in the exchange offer in the ordinary course of your business;

you have not engaged in, do not intend to engage in, and have no arrangement or understanding with any person to participate in,

the distribution of the new notes issued to you in the exchange offer in violation of the provisions of the Securities Act; and

you are not our affiliate, as defined under Rule 405 of the Securities Act.

Each broker-dealer that receives new notes for its own account in exchange for original notes, where such original notes were acquired by such broker-dealer as a result of market-making activities or other trading activities, must acknowledge that it will deliver a prospectus in connection with any resale of such new notes.

The letter of transmittal states that, by so acknowledging that it will deliver and by delivering a prospectus, a broker-dealer will not be deemed to admit that it is an underwriter within the meaning of the Securities Act. This prospectus, as it may be amended or supplemented from time to time, may be used by a broker-dealer in connection with resales of new notes received in exchange for original notes where such original notes were acquired by such broker-dealer as a result of market-making activities or other trading activities. We have agreed to use our reasonable best efforts to make this prospectus, as amended or supplemented, available to any broker-dealer for a period of 210 days after the date of this prospectus for use in connection with any such resale. See Plan of Distribution.

Accrued Interest on the New Notes and Original Notes	The new notes will bear interest from September 30, 2013 or the last interest payment date on which interest was paid on the original notes surrendered in exchange therefor. Summary of Terms of New Notes

The exchange offer constitutes an offer to exchange up to \$200,000,000 aggregate principal amount of the new notes for up to an equal aggregate principal amount of the original notes. The new notes will be obligations of Beazer Homes evidencing the same indebtedness as the original notes, and will be entitled to the benefit of the same indenture. The form and terms of the new notes are substantially the same as the form and terms of the original notes except that the new notes have been registered under the Securities Act. See Description of the Notes.

Freely Transferable

The new notes will be freely transferable under the Securities Act by holders who are not restricted holders. Restricted holders are restricted from transferring the new notes without compliance with the registration and prospectus delivery requirements of the Securities Act. The new notes will be identical in all material respects (including interest rate, maturity and restrictive covenants) to the original notes, with the exception that the new notes will be registered under the Securities Act. See The Exchange Offer Terms of the Exchange Offer.

Registration Rights

The holders of the original notes currently are entitled to certain registration rights pursuant to the registration rights agreement entered into on the issue date of the original notes by and among Beazer Homes, the subsidiary guarantors named therein and the initial purchaser named therein, including the right to cause Beazer Homes to register the original notes for resale under the Securities Act if the exchange offer is not consummated prior to the exchange offer termination date. However, pursuant to the registration rights agreement, such registration rights will expire upon consummation of the exchange offer. Accordingly, holders of original notes who do not exchange their original notes for new notes in the exchange offer will not be able to reoffer, resell or otherwise dispose of their original notes unless such original notes are subsequently registered under the Securities Act or unless an exemption from the registration requirements of the Securities Act is available.

Table of Contents

Ranking

The new notes and the guarantees will be our and the guarantors' senior unsecured obligations. The indebtedness evidenced by the new notes and the guarantees will:

rank senior in right of payment to any of our and the guarantors' existing and future subordinated indebtedness;

rank equally in right of payment with all of our and the guarantors' existing and future senior indebtedness;

be effectively subordinated in right of payment to our existing and future secured indebtedness and the secured indebtedness of the guarantors, including under our 6.625% senior secured notes due 2018 and our revolving credit facility due 2015, to the extent of the value of the collateral; and

be structurally subordinated to all existing and future indebtedness and other liabilities of our non-guarantor subsidiaries (other than indebtedness and liabilities owed to us or one of our guarantor subsidiaries, subject to any senior claims of the creditors of those non-guarantor subsidiaries).

As of September 30, 2013, Beazer and the subsidiary guarantors had approximately \$1.5 billion of indebtedness outstanding, net of unamortized discount of \$5.2 million and unamortized accretion of \$47.1 million, of which (1) \$341.7 million was secured indebtedness and (2) \$53.7 million, net of accretion, will be subordinate to the new notes and the guarantees. In addition, as of September 30, 2013, our non-guarantor subsidiaries had outstanding indebtedness and other liabilities (excluding intercompany obligations) of approximately \$1.2 million.

Optional Redemption

Prior to September 15, 2016, we may redeem the notes, in whole or in part, at a price equal to 100% of the principal amount thereof, together with accrued and unpaid interest, if any, to the redemption date, plus the make-whole premium described under [Description of the Notes](#) - Optional Redemption.

We may also redeem any of the notes at any time on or after September 15, 2016, in whole or in part, at the redemption prices described under [Description of the Notes](#) - Optional Redemption, plus

accrued and unpaid interest, if any, to the date of redemption.

In addition, on or prior to September 15, 2016, we may redeem up to 35% of the aggregate principal amount of the notes issued under the indenture at a redemption price of 107.500% plus accrued and unpaid interest with the net proceeds of certain equity offerings, provided at least 65% of the aggregate principal amount of the notes originally issued remain outstanding immediately after such redemption. See Description of the Notes Optional Redemption.

Change of Control

Upon a change of control, we will be required to make an offer to purchase each holder's notes at a price of 101% of the principal

Table of Contents

amount thereof, plus accrued and unpaid interest, if any, to the date of purchase. See [Description of the Notes](#) [Mandatory Offers to Purchase the Notes](#) and [Description of the Notes](#) [Certain Covenants](#) [Change of Control](#).

Certain Covenants

The indenture governing the notes contains covenants that will, among other things, limit our ability and the ability of our restricted subsidiaries to:

incur additional indebtedness or issue certain preferred shares;

create liens on assets to secure indebtedness;

pay dividends or make other equity distributions;

purchase or redeem capital stock; and

make certain investments.

These limitations will be subject to a number of important qualifications and exceptions. See [Description of the Notes](#) [Certain Covenants](#).

Absence of a Public Market

The new notes will be a new issue for which there will not initially be a market. Accordingly, we cannot assure you as to the development or liquidity of any market for the new notes.

Risk Factors

You should carefully consider the information under [Risk Factors](#) beginning on page 8 of this prospectus and all other information included or incorporated by reference in this prospectus prior to making a decision to exchange original notes for new notes.

For additional information regarding the notes, see the [Description of the Notes](#) section of this prospectus.

- (1) Statement of operations data is from continuing operations. Gross profit includes inventory impairments and lot options abandonments of \$32.5 million, \$12.2 million and \$2.6 million for the fiscal years ended September 30, 2011, 2012 and 2013, respectively. The aforementioned charges were primarily related to the deterioration of the homebuilding environment over the applicable years. Gross profit also includes warranty recoveries of \$1.4 million and \$11.0 million for the fiscal years ended September 30, 2011 and 2012, respectively. Loss from continuing operations includes a loss on extinguishment of debt of \$2.9 million, \$45.1 million and \$4.6 million for the fiscal years ended September 30, 2011, 2012 and 2013, respectively.
- (2) A home is included in backlog after a sales contract is executed and prior to the transfer of title to the purchaser. Because the closings of pending sales contracts are subject to contingencies, it is possible that homes in backlog

will not result in closings.

- (3) A home is included in closings when title is transferred to the buyer. Revenue and cost of sales for a house are generally recognized at the date of closing.
- (4) Interest incurred is expensed or, if qualified, capitalized to inventory and subsequently amortized to cost of sales as homes sales are closed.
- (5) Earnings consist of (i) income (loss) before income taxes, (ii) amortization of previously capitalized interest and (iii) fixed charges, exclusive of capitalized interest cost. Fixed charges consist of (i) interest incurred, (ii) amortization of deferred loan costs and debt discount and (iii) that portion of operating lease rental expense (33%) deemed to be representative of interest. Earnings for the fiscal years ended September 30, 2011 and 2012 were insufficient to cover fixed charges by \$71 million and \$41 million, respectively. Earnings for the fiscal year ended September 30, 2013 were sufficient to cover fixed charges by \$67 million, resulting in a ratio of earnings to fixed charges of 0.6x.

RISK FACTORS

*An investment in the new notes offered hereby involves a high degree of risk. You should carefully consider the following risk factors before you decide whether to invest in the new notes. We urge you to carefully read this prospectus and the documents incorporated by reference herein. You should review all of the risks attendant to being an investor in the new notes prior to making an investment decision. The following is not intended as, and should not be construed as, an exhaustive list of relevant risk factors. There may be other risks that a prospective investor should consider that are relevant to its own particular circumstances or generally. You should also consider the risks, uncertainties and assumptions discussed under the caption **Risk Factors** included in our most recent Annual Report on Form 10-K, which is incorporated by reference in this prospectus, as updated by our subsequent filings under the Securities Exchange Act of 1934, as amended (the **Exchange Act**).*

Risks Related to the Notes and the Exchange Offer

Certain of our existing debt instruments, including the indenture governing the notes, impose significant restrictions and obligations on us that could adversely affect our liquidity, limit our growth and make it more difficult for us to satisfy our debt obligations.

Certain of our secured and unsecured indebtedness and revolving credit and letter of credit facilities, including the indenture governing the notes, impose certain restrictions and obligations on us. Under certain of these instruments, we must comply with defined covenants which limit our ability to, among other things, incur additional indebtedness, engage in certain asset sales, make certain types of restricted payments, engage in transactions with affiliates and create liens on our assets. Failure to comply with certain of these covenants could result in an event of default under the applicable instrument. Any such event of default could negatively impact other covenants or lead to cross defaults under certain of our other debt. There can be no assurance that we will be able to obtain any waivers or amendments that may become necessary in the event of a future default situation without significant additional cost or at all.

As of September 30, 2013, we had total outstanding indebtedness of approximately \$1.5 billion, net of unamortized discount of approximately \$5.2 million and unamortized accretion of \$47.1 million. Our substantial indebtedness could have important consequences to us and the holders of our securities, including, among other things:

causing us to be unable to satisfy our obligations under our debt agreements;

making us more vulnerable to adverse general economic and industry conditions;

making it difficult to fund future working capital, land purchases, acquisitions, share repurchases, general corporate purposes or other purposes; and

causing us to be limited in our flexibility in planning for, or reacting to, changes in our business.

In addition, subject to restrictions in our existing debt instruments and the indenture governing the notes, we may incur additional indebtedness. If new debt is added to our current debt levels, the related risks that we now face could intensify. Our growth plans and our ability to make payments of principal or interest on, or to refinance, our indebtedness, will depend on our future operating performance and our ability to enter into additional debt and/or

equity financings. If we are unable to generate sufficient cash flows in the future to service our debt, we may be required to refinance all or a portion of our existing debt, to sell assets or to obtain additional financing. We may not be able to do any of the foregoing on terms acceptable to us, if at all.

Despite our substantial indebtedness, we may still be able to incur significantly more debt. This could intensify the risks described herein.

We and our subsidiaries may be able to incur substantial indebtedness in the future. Although the terms of certain of the agreements governing our indebtedness contain restrictions on our ability to incur additional

Table of Contents

indebtedness, these restrictions are subject to a number of important qualifications and exceptions, and the indebtedness incurred in compliance with these restrictions could be substantial. If new debt is added to our current debt levels, the related risks that we now face could intensify.

We may not be able to generate sufficient cash to service all of our indebtedness, and may be forced to take other actions to satisfy our obligations under our indebtedness that may not be successful.

Our ability to satisfy our debt obligations will depend upon, among other things, our future financial and operating performance, which will be affected by prevailing economic conditions and financial, business, regulatory and other factors, many of which are beyond our control. In addition, as of September 30, 2013, \$1.0 billion of our existing senior notes had a maturity date (or put right) earlier than the maturity date of the notes offered hereby, and we will be required to repay or refinance such indebtedness prior to the time when the notes offered hereby come due.

We cannot assure you that our business will generate cash flow from operations in an amount sufficient to fund our liquidity needs. If our cash flows and capital resources are insufficient to service our indebtedness, we may be forced to reduce or delay capital expenditures, sell assets, seek additional capital or restructure or refinance our indebtedness, including the notes. These alternative measures may not be successful and may not permit us to meet our scheduled debt service obligations. Our ability to restructure or refinance our debt will depend on the condition of the capital markets and our financial condition at such time. Any refinancing of our debt could be at higher interest rates and may require us to comply with more onerous covenants, which could further restrict our business operations. In addition, the terms of existing or future debt agreements may restrict us from adopting some of these alternatives. In the absence of such operating results and resources, we could face substantial liquidity problems and might be required to dispose of material assets or operations to meet our debt service and other obligations. We may not be able to consummate those dispositions for fair market value or at all. Furthermore, any proceeds that we could realize from any such dispositions may not be adequate to meet our debt service obligations then due.

Repayment of our debt, including required principal and interest payments on the notes, is dependent in part on cash flow generated by our subsidiaries.

Our subsidiaries own a significant portion of our assets and conduct a significant portion of our operations. Accordingly, repayment of our indebtedness, including the notes, is dependent, to a significant extent, on the generation of cash flow by our subsidiaries and their ability to make such cash available to us, by dividend, debt repayment or otherwise. Our subsidiaries may not be able to, or may not be permitted to, make distributions to enable us to make payments in respect of our indebtedness, including the notes. Each subsidiary is a distinct legal entity with no obligation to provide us with funds for our repayment obligations, and, under certain circumstances, legal and contractual restrictions may limit our ability to obtain cash from our subsidiaries. While the indenture governing the notes limits the ability of our subsidiaries to incur consensual restrictions on their ability to pay dividends or make other intercompany payments to us, these limitations are subject to certain qualifications and exceptions. In the event that we do not receive distributions from our subsidiaries, we may be unable to make required principal and interest payments on our indebtedness, including the notes.

If we default on our obligations to pay our other indebtedness, we may not be able to make payments on the notes.

Any default under the agreements governing our indebtedness that is not waived by the required lenders, and the remedies sought by the holders of such indebtedness, could leave us unable to pay principal, premium, if any, or interest on the notes and could substantially decrease the market value of the notes. If we are unable to generate sufficient cash flow and are otherwise unable to obtain funds necessary to meet required payments of principal,

premium, if any, or interest on our indebtedness, or if we otherwise fail to comply with the various covenants, including financial and operating covenants, in the instruments governing our indebtedness, we could

Table of Contents

be in default under the terms of the agreements governing such indebtedness. In the event of such default, the holders of such indebtedness could elect to declare all the funds borrowed thereunder to be due and payable, together with accrued and unpaid interest, the lenders under our revolving credit facility could elect to terminate their commitments, cease making further letters of credit or loans available and institute foreclosure proceedings against our assets, and we could be forced into bankruptcy or liquidation.

If our operating performance declines, we may in the future need to seek waivers from the required lenders under our revolving credit facility to avoid being in default. If we breach our covenants under the revolving credit facility and seek a waiver, we may not be able to obtain a waiver from the required lenders. If this occurs, we would be in default under our revolving credit facility, the lenders could exercise their rights as described above, and we could be forced into bankruptcy or liquidation.

The notes are structurally subordinated to all liabilities of our subsidiaries that are not guarantors.

The notes are structurally subordinated to indebtedness and other liabilities of our non-guarantor subsidiaries and joint ventures, and the claims of creditors of these subsidiaries and joint ventures, including trade creditors, have priority as to the assets of these subsidiaries and joint ventures. In the event of a bankruptcy, liquidation, reorganization or similar proceeding of any non-guarantor subsidiaries and joint ventures, these entities will pay the holders of their debts, holders of preferred equity interests and their trade creditors before they will be able to distribute any of their assets to us. As of September 30, 2013, our non-guarantor subsidiaries had liabilities (excluding intercompany liabilities) of \$1.2 million. In addition, the indenture governing the notes permits, subject to certain limitations, these subsidiaries and joint ventures to incur additional indebtedness and does not contain any limitation on the amount of other liabilities, such as trade payables, that may be incurred by these entities. See note 15 to the audited consolidated financial statements for the fiscal year ended September 30, 2013, incorporated by reference in this prospectus, for financial information regarding our non-guarantor subsidiaries.

The indenture governing the notes, our revolving credit facility and the indentures governing our other outstanding notes contain significant operating and financial restrictions which may limit our and our subsidiary guarantors' ability to operate our and their businesses.

The indenture governing the notes, our revolving credit facility and the indentures governing our other outstanding notes contain significant operating and financial restrictions on us and our subsidiaries. These restrictions limit our and our subsidiaries' ability to, among other things (not all restrictions are included in each indenture, including the indenture governing the notes):

incur additional indebtedness or issue certain preferred shares;

create liens on certain assets to secure debt;

pay dividends or make other equity distributions;

purchase or redeem capital stock;

make certain investments; and

consolidate or merge.

These restrictions could limit our and our subsidiaries' ability to finance our and their future operations or capital needs, make acquisitions or pursue available business opportunities. In addition, our revolving credit facility requires us to maintain specified financial ratios and to satisfy certain financial covenants. We may be required to take action to reduce our debt or act in a manner contrary to our business objectives to meet these ratios and satisfy these covenants. Events beyond our control, including changes in economic and business conditions in the markets in which we operate, may affect our ability to do so. We may not be able to meet these ratios or satisfy these covenants and we cannot assure you that the lender under our revolving credit facility will

Table of Contents

waive any failure to do so. A breach of any of the covenants in, or our inability to maintain the required financial ratios under, our debt could result in a default under such debt, which could lead to that debt becoming immediately due and payable and, if such debt is secured, foreclosure on our assets that secure that obligation. A default under a debt instrument could, in turn, result in default under other obligations and result in other creditors accelerating the payment of other obligations and foreclosing on assets securing such debt, if any. Any such defaults could materially impair our financial conditions and liquidity.

The notes and the guarantees are not secured by any of our assets and therefore are effectively subordinated to our existing and future secured indebtedness.

The notes and any guarantees thereof are general unsecured obligations ranking effectively junior in right of payment to our and the guarantors' existing and future secured indebtedness to the extent of the collateral securing such indebtedness. As of September 30, 2013, we and the guarantors had approximately \$341.7 million of secured indebtedness. The indenture governing the notes permits the incurrence of additional indebtedness, some of which may be secured. See Description of the Notes. In the event that we or a guarantor are declared bankrupt, become insolvent or are liquidated or reorganized, creditors whose indebtedness is secured by our assets or assets of the applicable guarantor will be entitled to the remedies available to secured holders under applicable laws, including the foreclosure of the collateral securing such indebtedness, before any payment may be made with respect to the notes or the affected guarantees. As a result, there may be insufficient assets to pay amounts due on the notes and holders of the notes may receive less, ratably, than holders of secured indebtedness.

Federal and state statutes allow courts, under specific circumstances, to void a guarantor's guarantee and require note holders to return payments received in respect thereof.

If any guarantor becomes a debtor in a case under the U.S. Bankruptcy Code or encounters other financial difficulty, under federal or state fraudulent transfer law, a court may void, subordinate or otherwise decline to enforce such guarantor's guarantee. A court might do so if it found that when such guarantor issued the guarantee, or in some states when payments became due under the guarantee, the guarantors received less than reasonably equivalent value or fair consideration and:

was insolvent or rendered insolvent by reason of such incurrence;

was left with inadequate capital to conduct its business; or

believed or reasonably should have believed that it would incur debts beyond its ability to pay.

The court might also void a guarantee, without regard to the above factors, if the court found that the applicable guarantor made its guarantee with actual intent to hinder, delay or defraud its creditors.

A court would likely find that a guarantor did not receive reasonably equivalent value or fair consideration for its guarantee, if such guarantor did not substantially benefit directly or indirectly from the issuance of the notes. If a court were to void the issuance of the notes or any guarantee, you may no longer have any claim directly against the applicable guarantor. Sufficient funds to repay the notes may not be available from other sources, including the remaining obligors, if any. In addition, the court might direct you to repay any amounts that you already received from a guarantor.

The measures of insolvency for purposes of these fraudulent transfer laws will vary depending upon the law applied in any proceeding to determine whether a fraudulent transfer has occurred and upon the valuation assumptions and methodology applied by the court. Generally, however, a guarantor would be considered insolvent if:

the sum of its debts, including contingent liabilities, was greater than the fair saleable value of all of its assets;

Table of Contents

if the present fair saleable value of its assets was less than the amount that would be required to pay its probable liability on its existing debts, including contingent liabilities, as they become absolute and mature; or

it could not pay its debts as they become due.

On the basis of historical financial information, recent operating history and other factors, we believe that each guarantor, after giving effect to its guarantee and rights of contribution it has against other guarantors, will not be insolvent, will not have unreasonably small capital for the business in which it is engaged and will not have incurred debts beyond its ability to pay such debts as they mature. We cannot assure you, however, as to what standard a court would apply in making these determinations or that a court would agree with our conclusions in this regard. The guarantees could be subject to the claim that, since the guarantees were incurred for our benefit, and only indirectly for the benefit of the other guarantors, the obligations of the guarantors thereunder were incurred for less than reasonably equivalent value or fair consideration.

Certain of our subsidiaries are not subject to the restrictive covenants in the indenture governing the notes.

Certain of our subsidiaries are not subject to the restrictive covenants in the indenture governing the notes. This means that these entities are able to engage in many of the activities that we and our restricted subsidiaries are prohibited from doing, such as incurring substantial additional debt, securing assets in priority to the claims of the holders of the notes, paying dividends, making investments, selling substantial assets and entering into mergers or other business combinations. These actions could be detrimental to our ability to make payments of principal and interest when due and to comply with our other obligations under the notes, and could reduce the amount of our assets that would be available to satisfy your claims should we default on the notes. In addition, the initiation of bankruptcy or insolvency proceedings or the entering of a judgment against these subsidiaries, or their default under their other credit arrangements, will not result in a cross-default on the notes.

We may not be able to repurchase the notes upon a change of control.

Upon the occurrence of certain specific kinds of change of control events, we will be required to offer to repurchase all outstanding notes at 101% of the principal amount thereof plus, without duplication, accrued and unpaid interest and additional interest, if any, to the date of repurchase. However, it is possible that we will not have sufficient funds at the time of the change of control to make the required repurchase of all notes delivered by holders seeking to exercise their repurchase rights, particularly as that change of control may trigger a similar repurchase requirement for, or result in an event of default under or the acceleration of, other indebtedness, or that restrictions in our revolving credit facility will not allow such repurchases. Any failure by us to repurchase the notes upon a change of control would result in an event of default under the indenture and may also constitute a cross-default on other indebtedness existing at that time. In addition, certain important corporate events, such as leveraged recapitalizations that would increase the level of our indebtedness, would not constitute a Change of Control under the indenture. See Description of the Notes Certain Covenants Change of Control.

The market value of the notes may be exposed to substantial volatility.

A number of factors, including factors specific to us and our business, financial condition and liquidity, the price of our common stock, economic and financial market conditions, interest rates, unavailability of capital and financing sources, volatility levels and other factors could lead to a decline in the value of the notes and a lack of liquidity in any market for the notes. As previously disclosed, in an effort to accelerate our path to profitability, we may seek to expand our business through acquisitions, which may be funded through additional debt. Our existing senior notes are

thinly traded, and because the notes offered hereby similarly may be thinly traded, it may be difficult to sell or accurately value the notes. Moreover, if one or more of the rating agencies rates the notes and assigns a rating that is below the expectations of investors, or lowers its or their rating(s) of the notes, the price of the notes would likely decline.

Table of Contents

An active trading market may not develop for the new notes.

There is no established public trading market for the notes, and an active trading market may not develop. We do not intend to apply for the notes to be listed on any securities exchange. As a result, there may be limited liquidity of any trading market that does develop for the notes. In addition, the liquidity of the trading market in the notes and the market prices quoted for the notes may be adversely affected by changes in the overall market for this type of security and by changes in our financial performance or prospects or in the prospects for companies in our industry generally. As a consequence, an active trading market may not develop for the notes, holders of notes may not be able to sell their notes, or, even if they can sell their notes, they may not be able to sell them at an acceptable price.

The liquidity of any trading market that develops for the notes may be adversely affected by future repurchases by us of notes through exchange offers, open market repurchases, privately negotiated transactions or otherwise.

We have in the past repurchased our securities and may in the future repurchase the notes, through exchange offers, open market repurchase, privately negotiated transactions or otherwise. If a significant percentage of the notes were repurchased or exchanged in any such transaction, the liquidity of the trading market for the notes, if any, may be substantially reduced. Any notes repurchased or exchanged will reduce the amount of notes outstanding. As a result, the notes may trade at a discount to the price at which they would trade if the applicable transaction was not consummated, subject to prevailing interest rates, the market for similar securities and other factors. A smaller outstanding amount of the notes may also make the trading prices of the notes more volatile. If a portion of the notes were repurchased or exchanged in the future, there might not be an active market in the notes and the absence of an active market could adversely affect your ability to trade the notes and the prices at which the notes may be traded.

If you fail to exchange your original notes, you will face restrictions that will make the sale or transfer of your original notes more difficult.

If you do not exchange your original notes for new notes in the exchange offer, you will continue to be subject to the restrictions on transfer of your original notes described in the legend on your original notes. In general, you may only offer or sell the original notes if they are registered under the Securities Act and applicable state securities laws, or offered and sold under an exemption from those requirements. To the extent other original notes are tendered and accepted in the exchange offer and you elect not to exchange your original notes, the trading market, if any, for your original notes would be adversely affected because your original notes will be less liquid than the new notes. See The Exchange Offer Consequences of Failure to Exchange.

Some holders that exchange their original notes may be required to comply with registration and prospectus delivery requirements in connection with the sale or transfer of their new notes.

If you exchange your original notes in the exchange offer for the purpose of participating in a distribution of the new notes, you may be deemed to have received restricted securities and, if so, will be required to comply with the registration and prospectus delivery requirements of the Securities Act in connection with any resale transaction. If you are required to comply with the registration and prospectus delivery requirements, then you may face additional burdens on the transfer of your notes and could incur liability for failure to comply with applicable requirements.

Such factors may include:

THE EXCHANGE OFFER

Terms of the Exchange Offer

Purpose of the Exchange Offer

We sold \$200,000,000 in principal amount of the original notes on September 30, 2013, in a transaction exempt from the registration requirements of the Securities Act. The initial purchaser of the original notes subsequently resold the original notes in reliance on Rule 144A and Regulation S under the Securities Act.

In connection with the sale of original notes to the initial purchaser pursuant to a purchase agreement, dated September 25, 2013, among us and the initial purchaser named therein, the holders of the original notes became entitled to the benefits of a registration rights agreement dated September 30, 2013, among us, the guarantors named therein and the initial purchaser named therein.

The registration rights agreement provides that, unless the exchange offer would violate applicable law or any applicable interpretation of the staff of the SEC, we:

will file an exchange offer registration statement for the notes with the SEC;

will use our commercially reasonable efforts to cause the SEC to declare the exchange offer registration statement effective under the Securities Act;

will use our commercially reasonable efforts to, on or prior to 180 days after September 30, 2013, complete the exchange of the new notes for all original notes tendered prior thereto in the exchange offer; and

will keep the registered exchange offer open for not less than 20 business days (or longer if required by applicable law or otherwise extended by us, at our option) after the date notice of the registered exchange offer is mailed to the holders of the original notes.

The exchange offer being made by this prospectus, if consummated within the required time periods, will satisfy our obligations under the registration rights agreement.

Upon the terms and subject to the conditions set forth in this prospectus and in the accompanying letter of transmittal, we will accept all original notes properly tendered and not withdrawn prior to the expiration date. We will issue \$1,000 principal amount of new notes in exchange for each \$1,000 principal amount of outstanding original notes accepted in the exchange offer. Holders may tender some or all of their original notes pursuant to the exchange offer in denominations of \$2,000 and multiples of \$1,000 in excess thereof.

Based on no-action letters issued by the staff of the SEC to third parties we believe that holders of the new notes issued in exchange for original notes may offer for resale, resell and otherwise transfer the new notes, other than any holder that is an affiliate of ours within the meaning of Rule 405 under the Securities Act, without compliance with the registration and prospectus delivery provisions of the Securities Act. This is true as long as (i) the new notes are acquired in the ordinary course of the holder's business, (ii) the holder is not engaging in or intending to engage in a

distribution of the new notes, and (iii) the holder has no arrangement or understanding with any person to participate in the distribution of the new notes. A broker-dealer that acquired original notes directly from us cannot exchange the original notes in the exchange offer. Any holder who tenders in the exchange offer for the purpose of participating in a distribution of the new notes cannot rely on the no-action letters of the staff of the SEC and must comply with the registration and prospectus delivery requirements of the Securities Act in connection with any resale transaction.

Each broker-dealer that receives new notes for its own account in exchange for original notes, where such original notes were acquired by such broker-dealer as a result of market-making or other trading activities, must acknowledge that it will deliver a prospectus in connection with any resale of such new notes. See Plan of Distribution for additional information.

Table of Contents

We will accept validly tendered original notes promptly following the expiration of the exchange offer by giving written notice of the acceptance of such notes to the exchange agent. The exchange agent will act as agent for the tendering holders of original notes for the purposes of receiving the new notes from the issuer and delivering new notes to such holders.

If any tendered original notes are not accepted for exchange because of an invalid tender or the occurrence of the conditions set forth under *The Exchange Offer Conditions* without waiver by us, certificates for any such unaccepted original notes will be returned, without expense, to the tendering holder of any such original notes promptly after the expiration date or the termination of the exchange offer, as applicable.

Holders of original notes who tender in the exchange offer will not be required to pay brokerage commissions or fees or, subject to the instructions in the letter of transmittal, transfer taxes with respect to the exchange of original notes, pursuant to the exchange offer. We will pay all charges and expenses, other than certain applicable taxes in connection with the exchange offer. See *The Exchange Offer Fees and Expenses*.

Shelf Registration Statement

Pursuant to the registration rights agreement, we have agreed to file a shelf registration statement if:

we are not permitted to file the exchange offer registration statement or consummate the exchange offer because the exchange offer is not permitted by applicable law or SEC policy;

the exchange offer is not consummated within 180 days after the issue date of the original notes; or

any holder (other than the initial purchaser) is prohibited by law or the applicable interpretations of the SEC from participating in the exchange offer.

A holder that sells original notes pursuant to the shelf registration statement generally must be named as a selling securityholder in the related prospectus and must deliver a prospectus to purchasers, because a seller will be subject to civil liability provisions under the Securities Act in connection with these sales. A seller of the original notes also will be bound by applicable provisions of the applicable registration rights agreement, including indemnification obligations. In addition, each holder of original notes must deliver information to be used in connection with the shelf registration statement and provide comments on the shelf registration statement in order to have its original notes included in the shelf registration statement and benefit from the provisions regarding any liquidated damages in the registration rights agreement.

We have agreed to file a shelf registration statement with the SEC as promptly as practicable, but in any event within 45 days after being so required, and thereafter use our commercially reasonable efforts to cause a shelf registration statement to be declared effective by the SEC within 90 days after being so required (*provided* that in no event shall such effectiveness be required prior to 180 days following the issue date of the original notes). In addition, we agreed to use our commercially reasonable efforts to keep that shelf registration statement continually effective, supplemented and amended for a period of two years following the date the shelf registration statement is declared effective (or for a period of one year from the date the shelf registration statement is declared effective and such shelf registration statement is filed at the request of the initial purchaser), or such shorter period which terminates when all notes covered by that shelf registration statement have been sold under it.

Additional Interest in Certain Circumstances

If any of the following, each a registration default, occurs:

the exchange offer is not completed on or before the 180th calendar day following the issue date of the original notes or, if that day is not a business day, then the next succeeding day that is a business day; or

Table of Contents

the shelf registration statement is required to be filed but is not filed or declared effective within the time periods required by the registration rights agreement or is declared effective but thereafter ceases to be effective or usable (subject to certain exceptions),

the interest rate borne by the notes as to which the registration default has occurred will be increased by 0.25% per annum upon the occurrence of a registration default. This rate will continue to increase by 0.25% each 90-day period that the liquidated damages (as defined below) continue to accrue under any such circumstance. However, the maximum total increase in the interest rate will in no event exceed one percent (1.0%) per annum. We refer to this increase in the interest rate on the notes as liquidated damages. Such interest is payable in addition to any other interest payable from time to time with respect to the notes in cash on each interest payment date to the holders of record for such interest payment date. After the cure of registration defaults, the accrual of liquidated damages will stop and the interest rate will revert to the original rate.

Under certain circumstances, we may delay the filing or the effectiveness of the exchange offer or the shelf registration and shall not be required to maintain its effectiveness or amend or supplement it for a period of up to 60 days during any 12-month period. Any delay period will not alter our obligation to pay liquidated damages with respect to a registration default.

The sole remedy available to the holders of the original notes will be the immediate increase in the interest rate on the original notes as described above. Any amounts of additional interest due as described above will be payable in cash on the same interest payment dates as the original notes.

Expiration Date; Extensions; Amendment

We will keep the exchange offer open for not less than 20 business days, or longer if required by applicable law, after the date on which notice of the exchange offer is mailed to the holders of the original notes. The term expiration date means the expiration date set forth on the cover page of this prospectus, unless we extend the exchange offer, in which case the term expiration date means the latest date to which the exchange offer is extended.

In order to extend the expiration date, we will notify the exchange agent of any extension by written notice and will issue a public announcement of the extension, each prior to 9:00 a.m., New York City time, on the next business day after the previously scheduled expiration date. Any such announcement will include the number and principal amount of original notes tendered for exchange as of such date.

We reserve the right:

to delay accepting any original notes and to extend the exchange offer or to terminate the exchange offer and not accept original notes not previously accepted if any of the conditions set forth under Conditions shall have occurred and shall not have been waived by us, if permitted to be waived by us, by giving written notice of such delay, extension or termination to the exchange agent; or

to amend the terms of the exchange offer in any manner deemed by us to be advantageous to the holders of the original notes. (We are required to extend the offering period for certain types of changes in the terms of the exchange offer, for example, a change in the consideration offered or percentage of original notes sought for tender.)

All conditions set forth under The Exchange Offer Conditions must be satisfied or waived prior to the expiration date.

Any delay in acceptance, extension, termination or amendment will be followed as promptly as practicable by written notice. If the exchange offer is amended in a manner determined by us to constitute a material change, we will promptly disclose such amendment in a manner reasonably calculated to inform the holders of the

Table of Contents

original notes of such amendment. In the event of a material change in the exchange offer, including the waiver of a material condition by us, we will extend the exchange offer, if necessary, so that at least five business days remain prior to the expiration date following the notice of the material change.

Without limiting the manner in which we may choose to make a public announcement of any extension, amendment or termination of the exchange offer, we will not be obligated to publish, advertise, or otherwise communicate any such announcement, other than by making a timely release to an appropriate news agency.

Exchange Offer Procedures

To tender in the exchange offer, a holder must complete, sign and date the letter of transmittal, or a facsimile thereof, have the signatures on the letter of transmittal guaranteed if required by instruction 2 of the letter of transmittal, and mail or otherwise deliver the letter of transmittal or such facsimile or an agent's message in connection with a book entry transfer, together with the original notes and any other required documents. To be validly tendered, such documents must reach the exchange agent before 5:00 p.m., New York City time, on the expiration date. Delivery of the original notes may be made by book-entry transfer in accordance with the procedures described below. Confirmation of such book-entry transfer must be received by the exchange agent prior to the expiration date.

The term "agent's message" means a message, transmitted by a book-entry transfer facility to, and received by, the exchange agent, forming a part of a confirmation of a book-entry transfer, which states that such book-entry transfer facility has received an express acknowledgment from the participant in such book-entry transfer facility tendering the original notes that such participant has received and agrees to be bound by the terms of the letter of transmittal and that we may enforce such agreement against such participant.

The tender by a holder of original notes will constitute an agreement between such holder and us in accordance with the terms and subject to the conditions set forth in this prospectus and in the letter of transmittal.

Delivery of all documents must be made to the exchange agent at its address set forth below. Holders may also request their respective brokers, dealers, commercial banks, trust companies or nominees to effect such tender for such holders.

Each broker-dealer that receives new notes for its own account in exchange for original notes, where such original notes were acquired by such broker-dealer as a result of market-making activities or other trading activities, must acknowledge that it will deliver a prospectus in connection with any resale of such new notes. See "Plan of Distribution."

The method of delivery of original notes and the letter of transmittal and all other required documents to the exchange agent is at the election and risk of the holders. Instead of delivery by mail, it is recommended that holders use an overnight or hand delivery service. In all cases, sufficient time should be allowed to assure timely delivery to the exchange agent before 5:00 p.m., New York City time, on the expiration date. No letter of transmittal or original notes should be sent to us.

Only a holder of original notes may tender original notes in the exchange offer. The term "holder" with respect to the exchange offer means any person in whose name original notes are registered or any other person who has obtained a properly completed bond power from the registered holder.

Any beneficial holder whose original notes are registered in the name of its broker, dealer, commercial bank, trust company or other nominee and who wishes to tender should contact such registered holder promptly and instruct such

registered holder to tender on its behalf. If such beneficial holder wishes to tender on its own behalf, such registered holder must, prior to completing and executing the letter of transmittal and delivering its original notes, either make appropriate arrangements to register ownership of the original notes in such holder's name or obtain a properly completed bond power from the registered holder. The transfer of record ownership may take considerable time.

Table of Contents

Signatures on a letter of transmittal or a notice of withdrawal, must be guaranteed by an eligible guarantor institution within the meaning of Rule 17Ad-15 under the Exchange Act unless the original notes are tendered:

by a registered holder who has not completed the box entitled Special Issuance Instructions or Special Delivery Instructions on the letter of transmittal; or

for the account of an eligible guarantor institution.

In the event that signatures on a letter of transmittal or a notice of withdrawal are required to be guaranteed, such guarantee must be by an eligible guarantor institution.

If a letter of transmittal is signed by a person other than the registered holder of any original notes listed therein, such original notes must be endorsed or accompanied by appropriate bond powers and a proxy which authorizes such person to tender the original notes on behalf of the registered holder, in each case signed as the name of the registered holder or holders appears on the original notes.

If a letter of transmittal or any original notes or bond powers are signed by trustees, executors, administrators, guardians, attorneys-in-fact, officers of corporations or others acting in a fiduciary or representative capacity, such persons should so indicate when signing, and unless waived by us, evidence satisfactory to us of their authority so to act must be submitted with such letter of transmittal.

All questions as to the validity, form, eligibility, including time of receipt, and withdrawal of the tendered original notes will be determined by us in our reasonable discretion, which determination will be final and binding, *provided, however*, that such determination may be challenged in a court of competent jurisdiction. We reserve the absolute right to reject any and all original notes not properly tendered or any original notes our acceptance of which, in the opinion of our counsel, would be unlawful. We also reserve the absolute right to waive any irregularities or defects as to the original notes. If we waive any condition of the notes for any note holder, we will waive such condition for all note holders. Our interpretation of the terms and conditions of the exchange offer, including the instructions in the letter of transmittal, will be final and binding on all parties, *provided, however*, that such determination may be challenged in a court of competent jurisdiction. Unless waived, any defects or irregularities in connection with tenders of original notes must be cured within such time as we shall determine. None of us, the exchange agent or any other person shall be under any duty to give notification of defects or irregularities with respect to tenders of original notes, nor shall any of them incur any liability for failure to give such notification. Tenders of original notes will not be deemed to have been made until such irregularities have been cured or waived. Any original notes received by the exchange agent that are not properly tendered and as to which the defects or irregularities have not been cured or waived will be returned by the exchange agent to the tendering holders of original notes without cost to such holder, unless otherwise provided in the relevant letter of transmittal, promptly following the expiration date.

In addition, we reserve the absolute right in our sole discretion to:

purchase or make offers for any original notes that remain outstanding subsequent to the expiration date or, as set forth under The Exchange Offer Conditions, to terminate the exchange offer in accordance with the terms of the registration rights agreement; and

to the extent permitted by applicable law, purchase original notes in the open market, in privately negotiated transactions or otherwise.

The terms of any such purchases or offers may differ from the terms of the exchange offer.

By tendering, each holder will represent to us that, among other things:

such holder or other person is not our affiliate, as defined under Rule 405 of the Securities Act, or, if such holder or other person is such an affiliate, will comply with the registration and prospectus delivery requirements of the Securities Act to the extent applicable;

Table of Contents

the new notes acquired pursuant to the exchange offer are being obtained in the ordinary course of business of such holder or other person;

neither such holder or other person has any arrangement or understanding with any person to participate in the distribution of such new notes in violation of the Securities Act; and

neither such holder nor such other person is engaged in or intends to engage in a distribution of the new notes.

We understand that the exchange agent will make a request promptly after the date of this prospectus to establish accounts with respect to the original notes at The Depository Trust Company ("DTC") for the purpose of facilitating the exchange offer, and subject to the establishment of such accounts, any financial institution that is a participant in DTC's system may make book-entry delivery of original notes by causing DTC to transfer such original notes into the exchange agent's account with respect to the original notes in accordance with DTC's procedures for such transfer. Although delivery of the original notes may be effected through book-entry transfer into the exchange agent's account at DTC, a letter of transmittal properly completed and duly executed with any required signature guarantee, or an agent's message in lieu of a letter of transmittal, and all other required documents must in each case be transmitted to and received or confirmed by the exchange agent at its address set forth below on or prior to the expiration date, or, if the guaranteed delivery procedures described below are complied with, within the time period provided under such procedures. Delivery of documents to DTC does not constitute delivery to the exchange agent.

Guaranteed Delivery Procedures

Holders who wish to tender their original notes and:

whose original notes are not immediately available; or

who cannot deliver their original notes, the letter of transmittal or any other required documents to the exchange agent prior to 5:00 p.m., New York City time, on the expiration date of the exchange offer; or

who cannot complete the procedures for delivery by book-entry transfer prior to 5:00 p.m., New York City time, on the expiration date of the exchange offer, may effect a tender if:

the tender is made by or through an eligible guarantor institution ;

prior to 5:00 p.m., New York City time, on the expiration date of the exchange offer, the exchange agent receives from such eligible guarantor institution a properly completed and duly executed Notice of Guaranteed Delivery, by facsimile transmission, mail or hand delivery, setting forth the name and address of the holder of the original notes, the certificate number or numbers of such original notes and the principal

amount of original notes tendered, stating that the tender is being made thereby, and guaranteeing that, within three business days after the expiration date, a letter of transmittal, or facsimile thereof or agent's message in lieu of such letter of transmittal, together with the certificate(s) representing the original notes to be tendered in proper form for transfer and any other documents required by the letter of transmittal will be deposited by the eligible guarantor institution with the exchange agent; and

a properly completed and duly executed letter of transmittal (or facsimile thereof) together with the certificate(s) representing all tendered original notes in proper form for transfer or an agent's message in the case of delivery by book-entry transfer and all other documents required by the letter of transmittal are received by the exchange agent within three business days after the expiration date.

Withdrawal of Tenders

Except as otherwise provided in this prospectus, tenders of original notes may be withdrawn at any time prior to 5:00 p.m., New York City time, on the expiration date.

Table of Contents

To withdraw a tender of original notes in the exchange offer, a written or facsimile transmission notice of withdrawal must be received by the exchange agent at its address set forth in this prospectus prior to 5:00 p.m., New York City time, on the expiration date. Any such notice of withdrawal must:

specify the name of the depositor, who is the person having deposited the original notes to be withdrawn;

identify the original notes to be withdrawn, including the certificate number or numbers and principal amount of such original notes or, in the case of original notes transferred by book-entry transfer, the name and number of the account at DTC to be credited;

be signed by the depositor in the same manner as the original signature on the letter of transmittal by which such original notes were tendered, including any required signature guarantees, or be accompanied by documents of transfer sufficient to have the trustee with respect to the original notes register the transfer of such original notes into the name of the depositor withdrawing the tender; and

specify the name in which any such original notes are to be registered, if different from that of the depositor. All questions as to the validity, form and eligibility, including time of receipt, of such withdrawal notices will be determined by us in our reasonable discretion, and our determination shall be final and binding on all parties, *provided, however*, that such determination may be challenged in a court of competent jurisdiction. Any original notes so withdrawn will be deemed not to have been validly tendered for purposes of the exchange offer and no new notes will be issued with respect to the original notes withdrawn unless the original notes so withdrawn are validly retendered. Any original notes which have been tendered but which are not accepted for exchange will be returned to its holder without cost to such holder promptly after withdrawal, rejection of tender or termination of the exchange offer. Properly withdrawn original notes may be retendered by following one of the procedures described above under The Exchange Offer Exchange Offer Procedures at any time prior to the expiration date.

Conditions

Notwithstanding any other term of the exchange offer, we will not be required to accept for exchange, or exchange, any new notes for any original notes, and may terminate or amend the exchange offer before the expiration date, if:

in the opinion of our counsel, the exchange offer or any part thereof contemplated herein violates any applicable law or interpretation of the staff of the SEC;

any action or proceeding shall have been instituted in any court or by any governmental agency which might materially impair our ability to proceed with the exchange offer or any material adverse development shall have occurred in any such action or proceeding with respect to us;

any governmental approval has not been obtained, which approval we shall deem necessary for the consummation of the exchange offer as contemplated hereby;

any cessation of trading on any securities exchange, or any banking moratorium, shall have occurred, as a result of which we are unable to proceed with the exchange offer; or

a stop order shall have been issued by the SEC or any state securities authority suspending the effectiveness of the registration statement or proceedings shall have been initiated for that purpose.

If any of the foregoing conditions exist, we may, in our reasonable discretion:

refuse to accept any original notes and return all tendered original notes to the tendering holders promptly following the expiration date or the termination of the exchange offer, as applicable;

Table of Contents

extend the exchange offer and retain all original notes tendered prior to the expiration of the exchange offer, subject, however, to the rights of holders who tendered such original notes to withdraw their tendered original notes; or

waive such condition, if permissible, with respect to the exchange offer and accept all properly tendered original notes which have not been withdrawn. If such waiver constitutes a material change to the exchange offer, we will promptly disclose such waiver by means of a prospectus supplement that will be distributed to the holders, and we will extend the exchange offer, if necessary, so that at least five business days remain prior to the expiration date following the date of such prospectus supplement.

U.S. Bank National Association is the trustee under the indenture governing the original notes and the new notes.

Fees and Expenses

We will pay the expenses of soliciting original notes for exchange. The principal solicitation is being made by mail by U.S. Bank National Association as exchange agent. However, additional solicitations may be made by telephone,

facsimile or in person by our officers and regular employees and our affiliates and by persons so engaged by the exchange agent.

We will pay U.S. Bank National Association as exchange agent reasonable and customary fees for its services and will reimburse it for its reasonable out-of-pocket expenses in connection therewith and pay other registration expenses, including fees and expenses of the trustee under the indenture, filing fees, blue sky fees and printing and distribution expenses.

We will pay all transfer taxes, if any, applicable to the exchange of the original notes in connection with the exchange offer. If, however, certificates representing the new notes or the original notes for principal amounts not tendered or accepted for exchange are to be delivered to, or are to be issued in the name of, any person other

than the registered holder of the original notes tendered, or if tendered original notes are registered in the name of any person other than the person signing the letter of transmittal, or if a transfer tax is imposed for any reason other than the exchange of the original notes in this exchange offer, then the amount of any such transfer taxes, whether imposed on the registered holder or any other person, will be payable by the tendering holder.

Accounting Treatment

The new notes will be recorded at the same carrying value as the original notes as reflected in our accounting records on the date of exchange. Accordingly, no gain or loss for accounting purposes will be recognized by us.

Consequences of Failure to Exchange

Holders of original notes who are eligible to participate in the exchange offer but who do not tender their original notes will not have any further registration rights, and their original notes will continue to be subject to restrictions on transfer of the original notes as described in the legend on the original notes as a consequence of the issuance of the original notes under exemptions from, or in transactions not subject to, the registration requirements of the Securities Act and applicable state securities laws. In general, the original notes may not be offered or sold, unless registered under the Securities Act, except under an exemption from, or in a transaction not subject to, the Securities Act and applicable state securities laws.

Regulatory Approvals

We do not believe that the receipt of any material federal or state regulatory approval will be necessary in connection with the exchange offer, other than the effectiveness of the exchange offer registration statement under the Securities Act.

Other

Participation in the exchange offer is voluntary and holders of original notes should carefully consider whether to accept the terms and conditions of this exchange offer. Holders of the original notes are urged to consult their financial and tax advisors in making their own decisions on what action to take with respect to the exchange offer.

Neither our affiliates nor the affiliates of the guarantors have any interest, direct or indirect, in the exchange offer.

USE OF PROCEEDS

This exchange offer is intended to satisfy our obligations to register an exchange offer of the new notes for the original notes required by the registration rights agreement entered into in connection with the offering of the original notes. We will not receive any cash proceeds from the issuance of the new notes. In consideration for issuing the new notes, we will receive the outstanding original notes in like principal amount, the terms of which are identical in all material respects to the terms of the new notes, except as otherwise described herein. The original notes surrendered in exchange for the new notes will be retired and cancelled and cannot be reissued.

Table of Contents**RATIO OF EARNINGS TO FIXED CHARGES**

The following table sets forth information regarding our ratio of earnings to fixed charges for each of the periods shown. For purposes of calculating this ratio, (i) earnings consist of income (loss) from continuing operations before provision (benefit) for income taxes and fixed charges and (ii) fixed charges consist of interest expense and imputed interest on our lease obligations.

Ratio of Earnings to Fixed Charges(a)					0.6x

Earnings for the fiscal year ended September 30, 2013 were sufficient to cover fixed charges by \$67 million, resulting in a ratio of earnings to fixed charges of 0.6x.

DESCRIPTION OF OTHER INDEBTEDNESS

Secured Revolving Credit Facility In September 2012, we amended and expanded our Secured Revolving Credit Facility from \$22 million to \$150 million. The amended three-year Secured Revolving Credit Facility provides for future working capital and letter of credit needs collateralized by substantially all of the Company's personal property (excluding cash and cash equivalents) and real property. This facility is subject to various financial, collateral-based and negative covenants with which we are required to comply. As of September 30, 2013, we were in compliance with all such covenants and had \$150 million of available borrowings under the Secured Revolving Credit Facility. We have elected to cash collateralize all letters of credit; however, as of September 30, 2013, we have pledged approximately \$1.0 billion of inventory assets to our Secured Revolving Credit Facility to collateralize potential future borrowings or letters of credit. The Secured Revolving Credit Facility contains certain covenants, including negative covenants and financial maintenance covenants, with which we are required to comply. Subject to our option to cash collateralize our obligations under the Secured Revolving Credit Facility upon certain conditions, our obligations under the Secured Revolving Credit Facility are secured by liens on substantially all of our personal property and a significant portion of our owned real properties. There were no outstanding borrowings under the Secured Revolving Credit Facility as of September 30, 2013 or September 30, 2012.

We have entered into stand-alone, cash-secured letter of credit agreements with banks to maintain our pre-existing letters of credit and to provide for the issuance of new letters of credit. The letter of credit arrangements combined with our Secured Revolving Credit Facility provide a total letter of credit capacity of approximately \$194.8 million. As of September 30, 2013 and September 30, 2012, we have letters of credit outstanding of \$25.2 million and \$24.7 million, respectively, which are secured by cash collateral in restricted accounts. The Company may enter into additional arrangements to provide additional letter of credit capacity.

Senior Notes The majority of our Senior Notes are unsecured or secured obligations ranking pari passu with all other existing and future senior indebtedness. Substantially all of our significant subsidiaries are full and unconditional guarantors of the Senior Notes and are jointly and severally liable for obligations under the Senior Notes and the Secured Revolving Credit Facility. Each guarantor subsidiary is a 100% owned subsidiary of Beazer Homes.

The Company's Senior Notes are subject to indentures containing certain restrictive covenants which, among other things, restrict our ability to pay dividends, repurchase our common stock, incur additional indebtedness and to make certain investments. Specifically, all of our Senior Notes contain covenants that restrict our ability to incur additional indebtedness unless it is refinancing indebtedness or non-recourse indebtedness. The incurrence of refinancing indebtedness and non-recourse indebtedness, as defined in the applicable indentures, are exempted from the covenant test. As of September 30, 2013, we were not able to incur additional indebtedness, except refinancing or non-recourse indebtedness. Compliance with our Senior Note covenants does not significantly impact our operations. We were in compliance with the covenants contained in all of our Senior Notes as of September 30, 2013.

Our Senior Notes due 2016 (the "2016 Notes") contain the most restrictive covenants, including the consolidated tangible net worth covenant, which states that should consolidated tangible net worth fall below \$85 million for two consecutive quarters, the Company is required to make an offer to purchase 10% of the 2016 Notes at par. If triggered and fully subscribed, this could result in our having to purchase \$27.5 million of the 2016 Notes, which may be reduced by certain 2016 Note repurchases (potentially at less than par) made in the open market after the triggering date. As of September 30, 2013, our consolidated tangible net worth was \$213.7 million, well in excess of the minimum covenant requirement.

In February 2013, we issued and sold \$200 million aggregate principal amount of 7.250% Senior Notes due 2023 (the "2023 Notes") at par (before underwriting and other issuance costs) through a private placement to qualified institutional

buyers. Interest on the 2023 Notes is payable semi-annually in cash in arrears, beginning August 1, 2013. The 2023 Notes will mature on February 1, 2023.

Table of Contents

The 2023 Notes were issued under an Indenture, dated as February 1, 2013 (the "2013 Indenture") that contains covenants which, subject to certain exceptions, limit the ability of the Company and its restricted subsidiaries (as defined in the 2013 Indenture) to, among other things, incur additional indebtedness, including secured indebtedness, and make certain types of restricted payments. The 2013 Indenture contains customary events of default. Upon the occurrence of an event of default, payments on the 2023 Notes may be accelerated and become immediately due and payable. Upon a change of control (as defined in the 2013 Indenture), the 2013 Indenture requires us to make an offer to repurchase the 2023 Notes at 101% of their principal amount, plus accrued and unpaid interest.

We may redeem the 2023 Notes at any time prior to February 1, 2018, in whole or in part, at a redemption price equal to 100% of the principal amount, plus a customary make-whole premium, plus accrued and unpaid interest to the redemption date. In addition, at any time on or prior to February 1, 2016, we may redeem up to 35% of the aggregate principal amount of 2023 Notes with the proceeds of certain equity offerings at a redemption price equal to 107.250% of the principal amount of the 2023 Notes plus accrued and unpaid interest, if any, to the date fixed for redemption; provided, that at least 65% of the aggregate principal amount of the 2023 Notes originally issued under the Indenture remain outstanding after such redemption. On or after February 1, 2018, we may redeem some or all of the 2023 Notes at redemption prices set forth in the 2013 Indenture. These percentages range from 100.000% to 103.625%. In August 2013, we exchanged 100% of the 2023 Notes for notes that are freely transferable and registered under the Securities Act of 1933.

The 2023 Notes rank equally in right of payment with all of our existing and future senior unsecured obligations, senior to all of the Company's existing and future subordinated indebtedness and effectively subordinated to the Company's existing and future secured indebtedness, including indebtedness under our revolving credit facility and our 6.625% Senior Secured Notes due 2018, to the extent of the value of the assets securing such indebtedness. The 2023 Notes and related guarantees are structurally subordinated to all indebtedness and other liabilities of all of the Company's subsidiaries that do not guarantee the 2023 Notes. The 2023 Notes are fully and unconditionally guaranteed jointly and severally on a senior basis by the Company's wholly-owned subsidiaries party to the 2013 Indenture.

During the fiscal year ended September 30, 2013, we used a portion of the net cash proceeds from the 2023 Notes offering to redeem all of our outstanding 6.875% Senior Notes due 2015 (the "2015 Notes"). The 2015 Notes were redeemed at 101.146% of the principal amount, plus accrued and unpaid interest. During fiscal 2013, we also repurchased \$2 million of outstanding 9.125% Senior Notes due 2018 in open market transactions. These transactions resulted in a loss on debt extinguishment of \$3.6 million, net of unamortized discounts and debt issuance costs. All Senior Notes redeemed/repurchased by the Company were canceled.

In July 2012, we issued and sold \$300 million aggregate principal amount of our 6.625% Senior Secured Notes due 2018 ("Senior Secured Notes") through a private placement to qualified institutional buyers. The Senior Secured Notes were issued at par (before underwriting and other issuance costs). Interest on the Senior Secured Notes is payable semi-annually in cash in arrears, beginning October 15, 2012. The Senior Secured Notes will mature on April 15, 2018. The Senior Secured Notes were issued under an Indenture, dated as of July 18, 2012 (the "2012 Indenture") that contains covenants which, subject to certain exceptions, limit the ability of the Company and its restricted subsidiaries to, among other things, incur additional indebtedness, engage in certain asset sales, make certain types of restricted payments and create liens on assets of the Company or the guarantors. The 2012 Indenture contains customary events of default.

Upon a change of control (as defined in the Indenture), the Indenture requires the Company to make an offer to repurchase the Senior Secured Notes at 101% of their principal amount, plus accrued and unpaid interest. If we sell certain assets and do not reinvest the net proceeds in compliance with the Indenture, then we must use the net

proceeds to offer to repurchase the Senior Notes at 100% of their principal amount, plus accrued and unpaid interest. We may redeem the Senior Notes at any time prior to July 15, 2015, in whole or in part, at a redemption price equal to 100% of the principal amount, plus a customary make-whole premium, plus accrued and unpaid interest to the redemption date. In addition, at any time on or prior to July 15, 2015, we may redeem up to 35% of the aggregate principal amount of Senior Secured Notes with the proceeds of certain equity offerings at a redemption price equal to

Table of Contents

106.625% of the principal amount of the Senior Secured Notes plus accrued and unpaid interest, if any, to the date fixed for redemption; provided, that at least 65% of the aggregate principal amount of the Senior Secured Notes originally issued under the Indenture remain outstanding after such redemption. Thereafter, we may redeem some or all of the Senior Secured Notes at redemption prices set forth in the 2012 Indenture. These percentages range from 100.000% to 103.313%.

Concurrently with the Senior Secured Notes offering, we called for redemption of all \$250 million outstanding of our 12% senior secured notes due 2017. Cash used for this redemption, including payment of accrued interest and the contractual call premium was approximately \$280 million. We recorded a \$42.4 million pre-tax loss on debt extinguishment (including write-off of unamortized discount and debt issuance costs) related to the redemption of the 12% senior secured notes due 2017 in fiscal 2012.

In November 2010, we issued \$250 million aggregate principal amount of 9 1/8% Senior Notes due May 15, 2019 in a private placement. Interest on these notes is payable semi-annually in cash in arrears, commencing on May 15, 2011. These notes are unsecured and rank equally with our unsecured indebtedness. We may, at our option, redeem the 9 1/8% Senior Notes in whole or in part at any time at specified redemption prices which include a make whole provision through May 15, 2014. During fiscal year 2011, we exchanged substantially all of the \$250 million 9 1/8% Senior Notes due 2019 for notes that were publicly traded and registered under the Securities Act of 1933.

During fiscal 2012, we redeemed or repurchased in open market transactions \$15.0 million of our 9 1/8% Senior Notes due 2019 for an aggregate purchase price of \$14.6 million, plus accrued and unpaid interest. These transactions resulted in a gain on debt extinguishment of \$30,000, net of unamortized discounts and debt issuance costs. During fiscal 2011, we redeemed or repurchased in open market transactions, \$209.5 million principal amount of our Senior Notes (\$164.5 million of 6 1/2% Senior Notes due 2013, \$37.0 million of 6 7/8% Senior Notes due 2015 and \$8.0 million of 8 1/8% Senior Notes due 2016). The aggregate purchase price was \$210.0 million in 2011, plus accrued and unpaid interest as of the purchase date. The redemption/repurchase of the notes resulted in a \$2.9 million pre-tax loss on extinguishment of debt, net of unamortized discounts and debt issuance costs related to these notes. All Senior Notes redeemed/repurchased by the Company were canceled.

Senior Notes: Tangible Equity Units In July 2012, we issued 4.6 million 7.5% TEUs (the 2012 TEUs), which were comprised of prepaid stock purchase contracts (PSPs) and senior amortizing notes. As the two components of the TEUs are legally separate and detachable, we have accounted for the two components as separate items for financial reporting purposes and valued them based on their relative fair value at the date of issuance. The amortizing notes are unsecured senior obligations and rank equally with all of our other unsecured indebtedness. Outstanding notes pay quarterly installments of principal and interest through maturity. The PSPs were originally accounted for as equity (additional paid in capital) at the initial fair value of these contracts based on the relative fair value method. The PSPs related to these 2012 TEUs are scheduled to be settled in Beazer Homes common stock on July 15, 2015. If on that date, our common stock price is (1) at or below \$14.50 per share, the PSPs will convert to 1.72414 shares per unit, (2) at or above \$17.75 per share, the PSPs will convert to 1.40746 shares per unit or (3) between \$14.50 and \$17.75 per share, the PSPs will convert to a number of shares of our common stock equal to \$25.00 divided by the applicable market value of our common stock.

During May 2010, we issued 3.0 million 7.25% TEUs (the 2010 TEUs). In March 2012, we exchanged 2.8 million shares of our common stock for 2.8 million 2010 TEUs (comprised of PSPs and \$7.2 million of senior amortizing notes). Since our offer to convert the 2010 TEUs included a premium share component and was not pursuant to the instrument s original conversion terms, we accounted for the exchange as an induced conversion of the 2010 TEUs. We compared the fair value of the common stock issued to the fair value of the 2010 TEU instruments at the date of acceptance in order to determine the premium of the consideration. This premium was then allocated between the debt

and equity components of the 2010 TEUs based on each components relative fair value. The difference between the implied fair value of the amortizing notes (including the premium allocation) and the carrying value of the amortizing notes was recognized as a loss on extinguishment of debt and totaled approximately \$0.7 million. The remaining related PSPs issued in May 2010 were settled in Beazer Homes common stock on August 15, 2013 in accordance with the 2010 TEU provisions.

Table of Contents

Mandatory Convertible Subordinated Notes On January 12, 2010, we issued \$57.5 million aggregate principal amount of 7 1/2% Mandatory Convertible Subordinated Notes due 2013 (the "Mandatory Convertible Subordinated Notes").

During fiscal 2012, we exchanged 2.2 million shares of our common stock for \$48.1 million of our Mandatory Convertible Subordinated Notes. Since our offer to convert these notes included a premium share component, we accounted for the exchange as an induced conversion of these notes. We recognized a \$2.0 million inducement expense equal to the fair value of the premium shares issued based on our common stock price as of the date of acceptance. This expense is included in loss on extinguishment of debt for the fiscal year ended September 30, 2012.

On January 15, 2013, the remaining \$9.4 million of outstanding Mandatory Convertible Subordinated Notes converted into 0.4 million shares of the Company's common stock in accordance with the notes' conversion provisions.

Junior Subordinated Notes \$103.1 million of unsecured junior subordinated notes mature on July 30, 2036, are redeemable at par and pay a fixed rate of 7.987% for the first ten years ending July 30, 2016. Thereafter, the securities have a floating interest as defined in the junior subordinated notes agreement. The obligations relating to these notes and the related securities are subordinated to the Secured Revolving Credit Facility and Senior Notes. In January 2010, we modified the terms of \$75 million of these notes and recorded these notes at their estimated fair value. As of September 30, 2013, the unamortized accretion was \$47.1 million and will be amortized over the remaining life of the notes.

Cash Secured Loans We have entered into two separate loan facilities, totaling \$22.4 million as of September 30, 2013. Borrowing under the cash secured loan facilities will replenish cash used to repay or repurchase the Company's debt and would be considered "refinancing indebtedness" under certain of the Company's existing indentures and debt covenants. However, because the loans are fully collateralized by cash equal to the loan amount, the loans do not provide liquidity to the Company.

The loans mature in November 2017, however, the lenders of these facilities may put the outstanding loan balances to the Company at the two or four year anniversaries of the loan. Borrowings under the facilities are fully secured by cash held by the lender or its affiliates. This secured cash is reflected as restricted cash on our consolidated balance sheet as of September 30, 2013. We borrowed \$32.6 million at inception of the loans. As previously indicated and in order to protect financing capacity available under our covenant refinancing basket related to previous or future debt repayments, we borrowed an additional \$214.8 million under the cash secured loan facilities in May 2011. The cash secured loan has an interest rate equivalent to LIBOR plus 0.4% per annum which is paid every three months following the effective date of each borrowing.

During the fiscal year ended September 30, 2012, we repaid \$20 million of the cash secured term loans. Further, during the fiscal year ended September 30, 2013, we repaid \$205 million of the outstanding cash secured term loans and recognized a \$1 million loss on debt extinguishment, primarily related to the unamortized discounts and debt issuances costs related to these loans.

Other Secured Notes Payable We periodically acquire land through the issuance of notes payable. As of September 30, 2013 and September 30, 2012, we had outstanding notes payable of \$19.3 million and \$8.8 million respectively, primarily related to land acquisitions. These notes payable have varying expiration dates between 2012 and 2019 and have a weighted average fixed rate of 4.00% at September 30, 2013. These notes are secured by the real estate to which they relate.

The agreements governing these secured notes payable contain various affirmative and negative covenants. There can be no assurance that we will be able to obtain any future waivers or amendments that may become necessary without significant additional cost or at all. In each instance, however, a covenant default can be cured by repayment of the indebtedness.

References in this **Description of the Notes** to the **Company** refer to Beazer Homes USA, Inc. only and not to any of its subsidiaries unless the context otherwise requires, and references to the **Notes** in this section are references to the outstanding 7.500% Senior Notes due 2021 and the exchange 7.500% Senior Notes due 2021 offered hereby, collectively.

The Notes are issued as a series of securities under an Indenture dated as of September 30, 2013 (the **Indenture**), among the Company, the Subsidiary Guarantors, and U.S. Bank National Association, as trustee (the **Trustee**). The following summaries of certain provisions of the Indenture do not purport to be complete and are subject to, and are qualified in their entirety by reference to, all the provisions of the Indenture, including the definitions of certain terms therein. General

The Notes are senior unsecured obligations of the Company. The maximum aggregate principal amount of the Notes now outstanding is \$200.0 million. The Company may issue additional Notes (**Additional Notes**) from time to time subject to the limitations set forth under **Certain Covenants** **Limitations on Additional Indebtedness**. The Notes and any Additional Notes subsequently issued under the Indenture will be treated as a single class for all purposes under the Indenture. Unless the context requires otherwise, references to **Notes** for all purposes of the Indenture and this **Description of the Notes** include any Additional Notes that are actually issued. The Notes are guaranteed by each of the Subsidiary Guarantors pursuant to the guarantees (the **Subsidiary Guarantees**) described below.

The Notes bear interest at the rate of 7.500% per annum from the Issue Date or, if interest has already been paid, from the date it was most recently paid, payable on March 15 and September 15 of each year, commencing on March 15, 2014, to holders of record (the **Holders**) at the close of business on March 1 or September 1, as the case may be, immediately preceding the respective interest payment date. The Notes will mature on September 15, 2021. Interest is computed on the basis of a 360-day year of twelve 30-day months.

Principal, premium, if any, and interest on the Notes is payable, and the Notes may be presented for registration of transfer or exchange, at the offices of the Trustee. At the option of the Company, payment of interest may be made by check mailed to the Holders of the Notes at their respective addresses set forth in the register of Holders; *provided* that all payments of principal, premium, if any, and interest with respect to Notes represented by one or more permanent global notes registered in the name of or held by DTC or its nominee will be made by wire transfer of immediately available funds to the accounts specified by the Holder or Holders thereof. The Company may require payment of a sum sufficient to cover any transfer tax or other governmental charge payable in connection with certain transfers or exchanges of the Notes. Initially, the Trustee will act as the Paying Agent and the Registrar under the Indenture. The Company may subsequently act as the Paying Agent and/or the Registrar and the Company may change any Paying Agent and/or any Registrar without prior notice to the Holders.

Ranking

The Notes are senior unsecured obligations of the Company and rank (i) senior in right of payment to all existing and future Indebtedness of the Company that is, by its terms, expressly subordinated in right of payment to the Notes (or to all senior indebtedness), (ii) *pari passu* in right of payment with all existing and future Indebtedness of the Company that is not so subordinated and (iii) effectively subordinate to all Secured Indebtedness and Non-Recourse

The Subsidiary Guarantees are senior unsecured obligations of the Subsidiary Guarantors and rank (i) senior in right of payment to all existing and future Indebtedness of the Subsidiary Guarantors that is, by its terms, expressly subordinated in right of payment to the Subsidiary Guarantees (or to all senior indebtedness), (ii) *pari passu* in right of payment with all existing and future Indebtedness of the Subsidiary Guarantors that is not so subordinated and (iii) effectively subordinate to all Secured Indebtedness and Non-Recourse Indebtedness of the Subsidiary Guarantors to the extent of the value of the assets securing such obligations.

As of September 30, 2013, the Company and the Subsidiary Guarantors had approximately \$300 million of Secured Indebtedness outstanding and approximately \$42 million of Non-Recourse Indebtedness outstanding.

In addition, the Notes and the Subsidiary Guarantees are structurally subordinated to all existing and future liabilities of the Company's Subsidiaries that do not guarantee the Notes. As of September 30, 2013, the Company's non-guarantor Subsidiaries had approximately \$1.2 million of liabilities (excluding intercompany obligations) in the aggregate.

Optional Redemption

The Company may redeem all or any portion of the Notes at any time and from time to time on or after September 15, 2016 and prior to maturity at the following redemption prices (expressed in percentages of the principal amount thereof) together, in each case, with accrued and unpaid interest to the date fixed for redemption (subject to the rights of Holders of notes on the relevant record date to receive interest on the relevant interest payment date), if redeemed during the 12-month period beginning on September 15 of each year indicated below:

Year	Percentage
2016	105.625%
2017	103.750%
2018	101.875%
2019 and thereafter	100.000%

In addition, on or prior to September 15, 2016, the Company may, at its option, redeem up to 35% of the aggregate principal amount of Notes issued under the Indenture with the net proceeds of an Equity Offering at 107.500% of the principal amount thereof plus accrued and unpaid interest, if any, to the date fixed for redemption (subject to the rights of Holders of notes on the relevant record date to receive interest on the relevant interest payment date); *provided* that at least 65% of the aggregate principal amount of the Notes originally issued under the Indenture remain outstanding after such redemption. Notice of any such redemption must be given within 60 days after the date of the closing of the relevant Equity Offering.

Prior to September 15, 2016, the Company may at its option redeem the Notes, in whole or in part, at a redemption price equal to 100% of the principal amount of the Notes to be redeemed plus the Applicable Premium as of, and accrued and unpaid interest to, the redemption date (subject to the right of Holders on the relevant record date to receive interest due on the relevant interest payment date). Notice of such redemption must be sent to each Holder not less than 30 nor more than 60 days prior to the redemption date.

Applicable Premium means, with respect to a Note at any redemption date, the greater of (i) 1.00% of the principal amount of such Note and (ii) the excess of (A) the present value at such redemption date of (1) the redemption price of such Note on September 15, 2016 (such redemption price being described in the first paragraph of this Optional Redemption section exclusive of any accrued interest) plus (2) all required remaining scheduled interest payments due

on such Note through September 15, 2016 (but excluding accrued and unpaid interest to the redemption date), computed using a discount rate equal to the Treasury Rate plus 0.50% per annum, over (B) the principal amount of such Note on such redemption date.

Table of Contents

Treasury Rate means, as of any redemption date, the yield to maturity as of such redemption date of United States Treasury securities with a constant maturity (as compiled and published in the most recent Federal Reserve Statistical Release H.15 (519) that has become publicly available at least two Business Days prior to the redemption date (or, if such Statistical Release is no longer published, any publicly available source of similar market data)) most nearly equal to the period from the redemption date to September 15, 2016; *provided, however*, that if the period from the redemption date to September 15, 2016 is less than one year, the weekly average yield on actually traded United States Treasury securities adjusted to a constant maturity of one year will be used.

In the event less than all of the Notes are to be redeemed at any time, selection of the Notes to be redeemed will be made by the Trustee from among the outstanding Notes on a pro rata basis, by lot or by any other method permitted by the Indenture, unless otherwise required by law or regulatory requirements. Notice of redemption will be sent at least 30 days but not more than 60 days before the redemption date to each Holder whose Notes are to be redeemed. On and after the redemption date, interest will cease to accrue on the Notes or portions thereof called for redemption.

Mandatory Offers to Purchase the Notes

The Indenture requires the Company to offer to purchase all of the outstanding Notes upon a Change of Control of the Company. See Certain Covenants Change of Control. The provisions relating to an offer to purchase upon a Change of Control is not waivable by the Board of Directors of the Company. If an offer to purchase upon a Change of Control were to be required, there can be no assurance that the Company would have sufficient funds to pay the purchase price for all Notes that the Company is required to purchase. In addition, the Company's ability to finance the purchase of Notes may be limited by the terms of its then existing borrowing agreements. Failure by the Company to purchase the Notes when required will result in an Event of Default with respect to the Notes.

If an offer is made to purchase Notes as a result of a Change of Control, the Company will comply with applicable law, including, without limitation, Section 14(e) under the Securities Exchange Act of 1934, as amended (the Exchange Act) and Rule 14e-1 thereunder, if applicable.

The Change of Control feature of the Notes may in certain circumstances make more difficult or discourage a takeover of the Company and, thus, the removal of incumbent management. The Change of Control feature, however, is not the result of management's knowledge of any specific effort to obtain control of the Company by means of a merger, tender offer, solicitation or otherwise, or part of a plan by management to adopt a series of anti-takeover provisions.

The Subsidiary Guarantees

Each of the Subsidiary Guarantors shall (so long as it remains a Subsidiary of the Company) fully and unconditionally guarantee, subject to customary release provisions, on a joint and several basis, all of the Company's obligations under the Notes, including its obligations to pay principal, premium, if any, and interest with respect to the Notes. Each of the Subsidiary Guarantees are senior unsecured obligations of the applicable Subsidiary Guarantor. The Indenture provides that the obligations of each Subsidiary Guarantor are limited to the maximum amount which, after giving effect to all other contingent and fixed liabilities of such Subsidiary Guarantor and after giving effect to any collections from or payments made by or on behalf of any other Subsidiary Guarantor in respect of the obligations of such other Subsidiary Guarantor under its Subsidiary Guarantee or pursuant to its contribution obligations under the Indenture, will result in the obligations of such Subsidiary Guarantor under its Subsidiary Guarantee not constituting a fraudulent conveyance or fraudulent transfer or obligation under federal or state law. However, there can be no assurance that this provision will be effective to ensure that any Subsidiary Guarantee does not constitute a fraudulent conveyance or fraudulent transfer obligation under applicable law. Each Subsidiary Guarantor that makes a payment or distribution under a

Table of Contents

Subsidiary Guarantee shall be entitled to a contribution from each other Subsidiary Guarantor in an amount *pro rata*, based on the net assets of each Subsidiary Guarantor, determined in accordance with GAAP. Except as provided in

Certain Covenants below, the Company is not restricted from selling or otherwise disposing of any of the Subsidiary Guarantors.

The Indenture provides that each existing and future Restricted Subsidiary (other than, in the Company's discretion, any Restricted Subsidiary the assets of which have a Book Value of not more than \$5.0 million) be a Subsidiary Guarantor and, at the Company's discretion, any Unrestricted Subsidiary may be a Subsidiary Guarantor.

The Indenture provides that if all or substantially all of the assets of any Subsidiary Guarantor, or all (or a portion sufficient to cause such Subsidiary Guarantor to no longer be a Subsidiary of the Company) of the Capital Stock of any Subsidiary Guarantor, is sold (including by consolidation, merger, issuance or otherwise) or disposed of (including by liquidation, dissolution or otherwise) by the Company or any of its Subsidiaries, or, unless the Company elects otherwise, if any Subsidiary Guarantor is designated an Unrestricted Subsidiary in accordance with the terms of the Indenture, then such Subsidiary Guarantor (in the event of a sale or other disposition of all of the Capital Stock of such Subsidiary Guarantor or a designation as an Unrestricted Subsidiary) or the Person acquiring such assets (in the event of a sale or other disposition of all or substantially all of the assets of such Subsidiary Guarantor) shall be deemed automatically and unconditionally released and discharged from any of its obligations under the Indenture without any further action on the part of the Trustee or any Holder of the Notes, subject in each case to compliance with the covenants set forth below under Certain Covenants Limitations on Mergers and Consolidations .

For purposes of determining compliance with this Limitations on Additional Indebtedness covenant, in the event an item of Indebtedness meets the criteria of more than one of the types of Indebtedness described in the above clauses of this covenant, the Company, in its sole discretion, shall classify such item of Indebtedness in any manner that complies with this covenant and may from time to time reclassify such item of Indebtedness in any manner in which such item could be Incurred at the time of such reclassification.

Change of Control

The Indenture provides that, following the occurrence of any Change of Control, the Company will so notify the Trustee in writing by delivery of an Officers Certificate and will offer to purchase (a **Change of Control Offer**) from all Holders, and will purchase from Holders accepting such Change of Control Offer on the date fixed for the closing of such Change of Control Offer (the **Change of Control Payment Date**), the outstanding principal amount of Notes at an offer price (the **Change of Control Price**) in cash in an amount equal to 101% of the aggregate principal amount thereof plus accrued and unpaid interest, if any, to the Change of Control Payment Date in accordance with the procedures set forth in the Change of Control covenant of the Indenture.

In addition, the Indenture provides that, within 30 days after the date on which a Change of Control occurs, the Company (with Notice to the Trustee) or the Trustee at the Company's request (and at the expense of the Company) will send or cause to be sent to all Persons who were Holders on the date of the Change of Control at their respective

addresses appearing in the Security Register, a notice of such occurrence and of such Holder's rights arising as a result thereof. Such notice shall specify, among other items, the Change of Control Payment Date, which shall be no earlier than 45 days nor later than 60 days from the date such notice is sent.

The Indenture also provides that:

(a) In the event of a Change of Control Offer, the Company will only be required to accept Notes in minimum denominations of \$2,000 and integral multiples of \$1,000 in excess thereof.

Table of Contents

(b) Not later than one Business Day after the Change of Control Payment Date in connection with which the Change of Control Offer is being made, the Company will (i) accept for payment Notes or portions thereof tendered pursuant to the Change of Control Offer, (ii) deposit with the Paying Agent money sufficient, in immediately available funds, to pay the purchase price of all Notes or portions thereof so accepted and (iii) deliver to the Paying Agent an Officers Certificate identifying the Notes or portions thereof accepted for payment by the Company. The Paying Agent will promptly mail or deliver to Holders of Notes so accepted payment in an amount equal to the Change of Control Price of the Notes purchased from each such Holder, and the Company will execute and, upon receipt of an Officers Certificate of the Company, the Trustee will promptly authenticate and mail or deliver to such Holder a new Note equal in principal amount to any unpurchased portion of the Note surrendered. Any Notes not so accepted will be promptly mailed or delivered by the Paying Agent at the Company's expense to the Holder thereof. The Company will publicly announce the results of the Change of Control Offer promptly after the Change of Control Payment Date.

(c) Any Change of Control Offer will be conducted by the Company in compliance with applicable law, including, without limitation, Section 14(e) of the Exchange Act and Rule 14e-1 thereunder.

The Company may enter into other arrangements or incur other indebtedness with similar change of control obligations. There can be no assurance that sufficient funds will be available at the time of a Change of Control to make any required repurchases. The Company's failure to make any required repurchases in the event of a Change of Control Offer will create an Event of Default under the Indenture.

No quantitative or other established meaning has been given to the phrase "all or substantially all" (which appears in the definition of Change of Control) by courts which have interpreted this phrase in various contexts.

In interpreting this phrase, courts make a subjective determination as to the portion of assets conveyed, considering such factors as the value of the assets conveyed and the proportion of an entity's income derived from the assets conveyed. Accordingly, there may be uncertainty as to whether a Holder of Notes can determine whether a Change of Control has occurred and exercise any remedies such Holder may have upon a Change of Control. In addition, in a recent decision, the Chancery Court of Delaware raised the possibility that a change of control as a result of a failure to have continuing directors comprising a majority of the Board of Directors may be unenforceable on public policy grounds.

Limitations on Secured Indebtedness

The Indenture provides that, notwithstanding any indebtedness that may be incurred as described above under "Certain Covenants - Limitations on Additional Indebtedness," the Company will not, and will not permit any of its Restricted Subsidiaries to, create, incur, assume or guarantee any Secured Indebtedness unless the Notes are equally and ratably secured with (or on a senior basis to, if the Secured Indebtedness is subordinated indebtedness) the Secured Indebtedness. This restriction does not prohibit the creation, incurrence, assumption or guarantee of Secured Indebtedness which is secured by:

(i) Liens on model homes, homes held for sale, homes that are under contract for sale, or any option, contract or other agreement to sell an asset;

(ii) Liens on property acquired by the Company or a Restricted Subsidiary and Liens on property of a Person existing at the time such Person is merged with or into or consolidated with the Company or any Restricted Subsidiary or becomes a Restricted Subsidiary; provided that in each case such Liens (a) were in existence prior to the contemplation of such acquisition, merger or consolidation and (b) do not extend to any asset other than those of the Person merged with or into or consolidated with the Company or the Restricted Subsidiary or the property acquired by

the Company or the Restricted Subsidiary;

(iii) Liens arising out of conditional sale, title retention, consignment or similar arrangements for the sale of goods entered into by the Company or any of its Subsidiaries in the ordinary course of business (as determined in good faith by the Company);

Table of Contents

(iv) purchase money mortgages (including, without limitation, Capitalized Lease Obligations and purchase money security interests); or

(v) Liens on property or assets of any Restricted Subsidiary securing Indebtedness of such Restricted Subsidiary owing to the Company or one or more Restricted Subsidiaries.

Any Lien created for the benefit of the Holders of the Notes pursuant to the preceding paragraph shall provide by its terms that such Lien shall be automatically and unconditionally released and discharged upon the release and discharge of the Lien securing such other obligations.

Additionally, such permitted Secured Indebtedness includes any amendment, restatement, supplement, renewal, replacement, extension or refunding in whole or in part of Secured Indebtedness permitted at the time of the original incurrence thereof.

In addition, the Company and its Restricted Subsidiaries may create, incur, assume or guarantee Secured Indebtedness, without equally or ratably securing the Notes, if immediately thereafter the aggregate principal amount of all Secured Indebtedness outstanding (excluding (a) Secured Indebtedness permitted under clauses (i) through (v) above and (b) any Secured Indebtedness in relation to which the Notes have been equally and ratably secured) as of the date of determination would not exceed the greater of (i) \$700.0 million and (ii) 40% of Consolidated Tangible Assets.

The provisions described above with respect to limitations on Secured Indebtedness are not applicable to Non-Recourse Indebtedness by virtue of the definition of Secured Indebtedness and will not restrict the Company's or any Restricted Subsidiaries' ability to create, incur, assume or guarantee any unsecured Indebtedness, if such Indebtedness is permitted as described above under Certain Covenants Limitations on Additional Indebtedness.

Limitations on Mergers and Consolidations

The Indenture provides that neither the Company nor any Subsidiary Guarantor will consolidate or merge with or into, or sell, lease, convey or otherwise dispose of all or substantially all of its assets (including, without limitation, by way of liquidation or dissolution), or assign any of its obligations under the Notes, the Guarantees or the Indenture (as an entirety or substantially in one transaction or series of related transactions), to any Person (in each case other than with the Company or another Wholly Owned Restricted Subsidiary) unless:

(i) the Person formed by or surviving such consolidation or merger (if other than the Company or such Subsidiary Guarantor, as the case may be), or to which such sale, lease, conveyance or other disposition or assignment will be made (collectively, the **Successor**), is a solvent corporation or other legal entity organized and existing under the laws of the United States or any state thereof or the District of Columbia, and the Successor assumes by supplemental indenture in a form reasonably satisfactory to the Trustee all of the obligations of the Company or such Subsidiary Guarantor, as the case may be, under the Notes or such Subsidiary Guarantor's Subsidiary Guarantee, as the case may be, and the Indenture; and

(ii) immediately after giving effect to such transaction, no Default or Event of Default has occurred and is continuing.

The foregoing provisions shall not apply to a transaction involving the consolidation or merger of a Subsidiary Guarantor with or into another Person, or the sale, lease, conveyance or other disposition of all or substantially all of the assets of such Subsidiary Guarantor, that results in such Subsidiary Guarantor being released from its Subsidiary Guarantee as provided under The Subsidiary Guarantees above.

No quantitative or other established meaning has been given to the phrase "all or substantially all" by courts which have interpreted this phrase in various contexts. In interpreting this phrase, courts make a subjective determination as to the portion of assets conveyed, considering such factors as the value of the assets conveyed

Table of Contents

and the proportion of an entity's income derived from the assets conveyed. Accordingly, there may be uncertainty as to whether a Holder of Notes can determine whether the Company has sold, leased, conveyed or otherwise disposed of all or substantially all of its assets and exercise any remedies such Holder may have upon the occurrence of any such transaction.

Events of Default

The following are Events of Default under the Indenture:

- (i) the failure by the Company to pay interest on any Note when the same becomes due and payable and the continuance of any such failure for a period of 30 days;
- (ii) the failure by the Company to pay the principal or premium of any Note when the same becomes due and payable at maturity, upon acceleration or otherwise (including the failure to make payment pursuant to a Change of Control Offer);
- (iii) the failure by the Company or any of its Subsidiaries to comply with any of its agreements or covenants in, or provisions of, the Notes, the Subsidiary Guarantees or the Indenture and such failure continues for the period and after the notice specified below;
- (iv) the acceleration of any Indebtedness (other than Non-Recourse Indebtedness) of the Company or any of its Subsidiaries that has an outstanding principal amount of \$25.0 million or more in the aggregate;
- (v) the failure by the Company or any of its Subsidiaries to make any principal or interest payment in respect of Indebtedness (other than Non-Recourse Indebtedness) of the Company or any of its Subsidiaries with an outstanding aggregate amount of \$25.0 million or more within five days of such principal or interest payment becoming due and payable (after giving effect to any applicable grace period set forth in the documents governing such Indebtedness); *provided that if such failure to pay shall be remedied, waived or extended, then the Event of Default hereunder shall be deemed likewise to be remedied, waived or extended without further action by the Company;*
- (vi) a final judgment or judgments that exceed \$25.0 million or more in the aggregate, for the payment of money, having been entered by a court or courts of competent jurisdiction against the Company or any of its Subsidiaries and such judgment or judgments is not satisfied, stayed, annulled or rescinded within 60 days of being entered;
- (vii) the Company or any Material Subsidiary pursuant to or within the meaning of any Bankruptcy Law:
 - (a) commences a voluntary case;
 - (b) consents to the entry of an order for relief against it in an involuntary case;
 - (c) consents to the appointment of a Custodian of it or for all or substantially all of its property; or
 - (d) makes a general assignment for the benefit of its creditors;
- (viii) a court of competent jurisdiction enters an order or decree under any Bankruptcy Law that:
 - (a) is for relief against the Company or any Material Subsidiary as debtor in an involuntary case;

(b) appoints a Custodian of the Company or any Material Subsidiary or a Custodian for all or substantially all of the property of the Company or any Material Subsidiary; or

(c) orders the liquidation of the Company or any Material Subsidiary and the order or decree remains unstayed and in effect for 60 days; or

(ix) any Subsidiary Guarantee ceases to be in full force and effect (other than in accordance with the terms of such Subsidiary Guarantee and the Indenture) or is declared null and void and unenforceable or found to be invalid or any Subsidiary Guarantor denies its liability under its Subsidiary Guarantee (other than by reason of release of a Subsidiary Guarantor from its Subsidiary Guarantee in accordance with the terms of the Indenture and the Subsidiary Guarantee).

Table of Contents

A Default as described in sub-clause (iii) above will not be deemed an Event of Default until the Trustee notifies the Company, or the Holders of at least 25% in principal amount of the then outstanding Notes notify the Company and the Trustee, of the Default and the Company does not cure the Default within 60 days after receipt of the notice. The notice must specify the Default, demand that it be remedied and state that the notice is a Notice of Default. If such a Default is cured within such time period, it ceases.

If an Event of Default (other than an Event of Default specified in sub-clauses (vii) and (viii) above) shall have occurred and be continuing under the Indenture, the Trustee by notice to the Company, or the Holders of at least 25% in principal amount of the Notes then outstanding by notice to the Company and the Trustee, may declare all Notes to be due and payable immediately. Upon such declaration of acceleration, the amounts due and payable on the Notes, as determined pursuant to the provisions of the Acceleration section of the Indenture, will be due and payable immediately. If an Event of Default with respect to the Company specified in sub-clauses (vii) and (viii) above occurs, such an amount will ipso facto become and be immediately due and payable without any declaration, notice or other act on the part of the Trustee and the Company or any Holder. The Holders of a majority in principal amount of the Notes then outstanding by written notice to the Trustee and the Company may waive such Default or Event of Default (other than any Default or Event of Default in payment of principal or interest) on the Notes under the Indenture. Holders of a majority in principal amount of the then outstanding Notes may rescind an acceleration and its consequence (except an acceleration due to nonpayment of principal or interest on the Notes) if the rescission would not conflict with any judgment or decree and if all existing Events of Default have been cured or waived.

The Holders may not enforce the provisions of the Indenture, the Notes or the Subsidiary Guarantees except as provided in the Indenture. Subject to certain limitations, Holders of a majority in principal amount of the Notes then outstanding may direct the Trustee in its exercise of any trust or power; *provided, however*, that such direction does not conflict with the terms of the Indenture. The Trustee may withhold from the Holders notice of any continuing Default or Event of Default (except any Default or Event of Default in payment of principal or interest on the Notes or that resulted from the failure to comply with the covenant entitled Change of Control) if the Trustee determines that withholding such notice is in the Holders' interest.

The Company is required to deliver to the Trustee a quarterly statement regarding compliance with the Indenture, and include in such statement, if any Officer of the Company is aware of any Default or Event of Default, a statement specifying such Default or Event of Default and what action the Company is taking or proposes to take with respect thereto. In addition, the Company is required to deliver to the Trustee prompt written notice of the occurrence of any Default or Event of Default and any other development, financial or otherwise, which might materially affect its business, properties or affairs or the ability of the Company to perform its obligations under the Indenture.

Reports

The Indenture provides that, as long as any of the Notes are outstanding, the Company will deliver to the Trustee and mail to each Holder within 15 days after the filing of the same with the SEC copies of the quarterly and annual reports and of the information, documents and other reports with respect to the Company and the Subsidiary Guarantors, if any, which the Company and the Subsidiary Guarantors may be required to file with the SEC pursuant to Section 13 or 15(d) of the Exchange Act. The Indenture will further provide that, notwithstanding that neither the Company nor any of the Subsidiary Guarantors may be required to remain subject to the reporting requirements of Section 13 or 15(d) of the Exchange Act, the Company will continue to file with the SEC and provide the Trustee and Holders with such annual and quarterly reports and such information, documents and other reports with respect to the Company and the Subsidiary Guarantors as are required under Sections 13 and 15(d) of the Exchange Act. If filing of documents by the Company with the SEC as aforementioned in this paragraph is not permitted under the Exchange Act, the Company shall promptly upon written notice supply copies of such documents to any prospective Holder. The

Company and each Subsidiary Guarantor will also comply with the other provisions of Section 314(a) of the Trust Indenture Act. For the avoidance of doubt, this covenant shall not require

Table of Contents

the Company to file any such reports, information or documents with the SEC within any specified time period and the obligation to deliver such reports, information or documents to the Trustee and Holders shall only arise after (and only to the extent) such reports, information or documents are filed with the SEC.

Discharge and Defeasance of Indenture

The Company and the Subsidiary Guarantors may discharge their obligations under the Notes, the Subsidiary Guarantees and the Indenture by irrevocably depositing in trust with the Trustee money or U.S. Government Obligations sufficient to pay principal of, premium and interest on the Notes to maturity or redemption and the Notes mature or are to be called for redemption within one year, subject to meeting certain other conditions.

The Indenture permits the Company and the Subsidiary Guarantors to terminate all of their respective obligations under the Indenture with respect to the Notes and the Subsidiary Guarantees, other than the obligation to pay interest on and the principal of the Notes and certain other obligations (**legal defeasance**), at any time by:

(i) depositing in trust with the Trustee, under an irrevocable trust agreement, cash or U.S. Government Obligations in an amount sufficient to pay principal of, premium and interest on the Notes to their maturity or redemption, as the case may be, and

(ii) complying with certain other conditions, including delivery to the Trustee of an opinion of counsel or a ruling received from the Internal Revenue Service, to the effect that Holders will not recognize income, gain or loss for federal income tax purposes as a result of the Company's exercise of such right and will be subject to federal income tax on the same amount and in the same manner and at the same times as would have been the case otherwise, which opinion of counsel is based upon a change in the applicable federal tax law since the Issue Date.

In addition, the Indenture permits the Company and the Subsidiary Guarantors to terminate all of their obligations under the Indenture with respect to certain covenants and Events of Default specified in the Indenture, and the Subsidiary Guarantees will be released (**covenant defeasance**), at any time by:

(i) depositing in trust with the Trustee, under an irrevocable trust agreement, cash or U.S. Government Obligations in an amount sufficient to pay principal of, premium and interest on the Notes to their maturity or redemption, as the case may be, and

(ii) complying with certain other conditions, including delivery to the Trustee of an opinion of counsel or a ruling received from the Internal Revenue Service, to the effect that Holders will not recognize income, gain or loss for federal income tax purposes as a result of the Company's exercise of such right and will be subject to federal income tax on the same amount and in the same manner and at the same times as would have been the case otherwise.

Notwithstanding the foregoing, no discharge, legal defeasance or covenant defeasance described above will affect the following obligations to, or rights of, the Holders of the Notes:

rights of registration of transfer and exchange of Notes;

rights of substitution of mutilated, defaced, destroyed, lost or stolen Notes;

rights of Holders of the Notes to receive payments of principal thereof, premium, if any, and interest thereon, upon the original due dates therefor, but not upon acceleration;

rights, obligations, duties and immunities of the Trustee;

rights of Holders of Notes that are beneficiaries with respect to property so deposited with the Trustee payable to all or any of them; and

obligations of the Company to maintain an office or agency in respect of the Notes.

Table of Contents

The Company or the Subsidiary Guarantors may exercise the legal defeasance option with respect to the Notes notwithstanding the prior exercise of the covenant defeasance option with respect to the Notes. If the Company or the Subsidiary Guarantors exercise the legal defeasance option with respect to the Notes, payment of the Notes may not be accelerated due to an Event of Default with respect to the Notes. If the Company or the Subsidiary Guarantors exercise the covenant defeasance option with respect to the Notes, payment of the Notes may not be accelerated due to an Event of Default with respect to the covenants to which such covenant defeasance is applicable. However, if acceleration were to occur by reason of another Event of Default, the realizable value at the acceleration date of the cash and U.S. Government Obligations in the defeasance trust could be less than the principal of, premium, if any, and interest then due on the Notes, in that the required deposit in the defeasance trust is based upon scheduled cash flow rather than market value, which will vary depending upon interest rates and other factors.

Transfer and Exchange

A Holder will be able to transfer or exchange Notes only in accordance with the provisions of the Indenture. The Registrar may require a Holder, among other things, to furnish appropriate endorsements and transfer documents, and to pay any taxes and fees required by law or permitted by the Indenture.

Amendment, Supplement and Waiver

Subject to certain exceptions, the Indenture or the Notes may be amended or supplemented with the consent (which may include consents obtained in connection with a tender offer or exchange offer for Notes) of the Holders of at least a majority in principal amount of the Notes then outstanding, and any existing Default or Event of Default (other than any continuing Default or Event of Default in the payment of interest on or the principal of the Notes) under, or compliance with any provision of, the Indenture may be waived with the consent (which may include consents obtained in connection with a tender offer or exchange offer for Notes) of the Holders of a majority in principal amount of the Notes then outstanding. Without the consent of any Holder, the Company, the Subsidiary Guarantors and the Trustee may amend the Indenture or the Notes or waive any provision thereof to cure any ambiguity, defect or inconsistency; to comply with the Limitations on Mergers and Consolidations section set forth in the Indenture; to provide for uncertificated Notes in addition to or in place of certificated Notes; to provide for any Subsidiary Guarantee of the Notes; to add security to or for the benefit of the Notes and/or to confirm and evidence the release, termination or discharge of any Subsidiary Guarantee of the Notes when such release, termination or discharge is permitted by the Indenture; to add covenants or new events of default for the protection of the Holders of the Notes; to make any change that does not adversely affect the legal rights under the Indenture of any Holder; or to comply with or qualify the Indenture under the Trust Indenture Act.

Without the consent of each Holder affected, the Company may not:

- (i) reduce the amount of Notes whose Holders must consent to an amendment, supplement or waiver;
- (ii) reduce the rate of or change the time for payment of interest, including default interest, on any Note;
- (iii) reduce the principal of or change the fixed maturity of any Note or alter the provisions with respect to redemption under the Optional Redemption section set forth in the Indenture;
- (iv) make any Note payable in money other than that stated in the Note;
- (v) make any change in the Waiver of Past Defaults and Compliance with Indenture Provisions, Rights of Holders to Receive Payment or, in part, the With Consent of Holders sections set forth in the Indenture;

(vi) modify the ranking or priority of the Notes or any Subsidiary Guarantee;

(vii) modify any of the provisions with respect to mandatory offers to repurchase Notes pursuant to the Change of Control covenant set forth in the Indenture after the obligation to make such mandatory offer to repurchase has arisen;

Table of Contents

(viii) release any Subsidiary Guarantor from any of its obligations under its Subsidiary Guarantee or the Indenture otherwise than in accordance with the terms of the Indenture; or

(ix) waive a continuing Default or Event of Default in the payment of principal of or interest on the Notes.

The right of any Holder to participate in any consent required or sought pursuant to any provision of the Indenture (and the obligation of the Company to obtain any such consent otherwise required from such Holder) may be subject to the requirement that such Holder shall have been the Holder of record of any Notes with respect to which such consent is required or sought as of a date identified by the Trustee in a notice furnished to Holders in accordance with the terms of the Indenture.

No Personal Liability of Incorporators, Shareholders, Officers, Directors or Employees

The Indenture provides that no recourse for the payment of the principal of, premium, if any, or interest on any of the Notes, or for any claim based thereon or otherwise in respect thereof, and no recourse under or upon any obligation, covenant or agreement of the Company or any Subsidiary Guarantor in the Indenture or in any of the Notes or because of the creation of any Indebtedness represented thereby, shall be had against any incorporator, shareholder, officer, director, employee or controlling person of the Company, any Subsidiary Guarantor or any successor Person thereof. Each Holder, by accepting such Notes, waives and releases all such liability.

Concerning the Trustee

The Indenture contains certain limitations on the rights of the Trustee, should it become a creditor of the Company, to obtain payment of claims in certain cases, or to realize on certain property received in respect of any such claim as security or otherwise. The Trustee will be permitted to engage in other transactions; however, if it acquires any conflicting interest (as defined in the Indenture), it must eliminate such conflict within 90 days, apply to the SEC for permission to continue as trustee (if the Indenture has been qualified under the TIA) or resign.

Holders of a majority in principal amount of the then outstanding Notes have the right to direct the time, method and place of conducting any proceeding for exercising any remedy available to the Trustee, subject to certain exceptions. The Indenture provides that in case an Event of Default occurs and is not cured, the Trustee will be required, in the exercise of its power, to use the degree of care of a prudent person in similar circumstances in the conduct of his own affairs. Subject to such provisions, the Trustee will be under no obligation to exercise any of its rights or powers under the Indenture at the request of any Holder, unless such Holder shall have offered to the Trustee security and indemnity satisfactory to the Trustee.

Governing Law

The Indenture, the Notes and the Subsidiary Guarantees will be governed by the laws of the State of New York.

Table of Contents

BOOK-ENTRY SETTLEMENT AND CLEARANCE

Except as set forth below or in the Description of the Notes, the new notes will be issued in registered, global form (the Global Notes) in minimum denominations of \$2,000 and integral multiples of \$1,000 in excess of \$2,000. Notes will be issued at the closing of this exchange offer.

Except as set forth below, the Global Notes may be transferred, in whole and not in part, only to another nominee of DTC or to a successor of DTC or its nominee. Beneficial interests in the Global Notes may not be exchanged for definitive notes in registered certificated form (Certificated Notes) except in the limited circumstances described below. See Exchange of Global Notes for Certificated Notes. Except in the limited circumstances described below, owners of beneficial interests in the Global Notes will not be entitled to receive physical delivery of notes in certificated form.

Transfers of beneficial interests in the Global Notes will be subject to the applicable rules and procedures of DTC and its direct or indirect participants (including, if applicable, those of Euroclear and Clearstream, Luxembourg), which may change from time to time.

The notes may be presented for registration of transfer and exchange at the corporate trust office of the notes trustee.

Depository Procedures

The following description of the operations and procedures of DTC, Euroclear and Clearstream, Luxembourg is provided solely as a matter of convenience. These operations and procedures are solely within the control of the respective settlement systems and are subject to changes by them. Neither we, the trustee, nor the paying agent take any responsibility for these operations and procedures and urge investors to contact the system or their participants directly to discuss these matters.

DTC has advised us that DTC is a limited-purpose trust company organized under the laws of the State of New York, a banking organization within the meaning of the New York Banking Law, a member of the Federal Reserve System, a clearing corporation within the meaning of the New York Uniform Commercial Code and a clearing agency registered pursuant to the provisions of Section 17A of the Exchange Act. DTC was created to hold securities for its participating organizations (collectively, the Participants) and to facilitate the clearance and settlement of transactions in those securities between the Participants through electronic book entry changes in accounts of its Participants. The Participants include securities brokers and dealers (including the initial purchaser), banks, trust companies, clearing corporations and certain other organizations. Access to DTC's system is also available to other entities such as banks, brokers, dealers and trust companies that clear through or maintain a custodial relationship with a Participant, either directly or indirectly (collectively, the Indirect Participants). Persons who are not Participants may beneficially own securities held by or on behalf of DTC only through the Participants or the Indirect Participants. The ownership interests in, and transfers of ownership interests in, each security held by or on behalf of DTC are recorded on the records of the Participants and Indirect Participants.

DTC has also advised us that, pursuant to procedures established by it:

upon deposit of the Global Notes, DTC will credit the accounts of the Participants designated by the initial purchaser with portions of the principal amount of the Global Notes; and

ownership of these interests in the Global Notes will be shown on, and the transfer of ownership of these interests will be effected only through, records maintained by DTC (with respect to the Participants) or by the Participants and the Indirect Participants (with respect to other owners of beneficial interests in the Global Notes).

Table of Contents

Investors in the Global Notes who are Participants may hold their interests therein directly through DTC. Investors in the Global Notes who are not Participants may hold their interests therein indirectly through organizations (including Euroclear and Clearstream, Luxembourg) that are Participants. All interests in a Global Note, including those held through Euroclear or Clearstream, Luxembourg, may be subject to the procedures and requirements of DTC. Those interests held through Euroclear or Clearstream, Luxembourg may also be subject to the procedures and requirements of such systems. The laws of some states require that certain persons take physical delivery in definitive form of securities that they own. Consequently, the ability to transfer beneficial interests in a Global Note to such persons will be limited to that extent. Because DTC can act only on behalf of Participants, which in turn act on behalf of Indirect Participants and certain banks, the ability of a person having beneficial interests in a Global Note to pledge such interests to persons that do not participate in the DTC system, or otherwise take actions in respect of such interests, may be affected by the lack of a physical certificate evidencing such interests.

Except as described below, owners of interests in the Global Notes will not have notes registered in their names, will not receive physical delivery of notes in certificated form and will not be considered the registered owners or holders thereof under the indenture for any purpose.

Payments in respect of the principal of, and interest and premium, if any, and additional interest, if any, on a Global Note registered in the name of DTC or its nominee will be payable to DTC in its capacity as the registered holder under the indenture. Under the terms of the indenture, we and the trustee will treat the persons in whose names the notes, including the Global Notes, are registered as the owners of the notes for the purpose of receiving payments and for all other purposes. Consequently, neither we, the trustee, the paying agent, nor any agent of ours or the trustee has or will have any responsibility or liability for:

any aspect of DTC's records or any Participant's or Indirect Participant's records relating to, or payments made on account of, beneficial ownership interests in the Global Notes or for maintaining, supervising or reviewing any of DTC's records or any Participant's or Indirect Participant's records relating to the beneficial ownership interests in the Global Notes; or

any other matter relating to the actions and practices of DTC or any of its Participants or Indirect Participants.

DTC has advised us that its current practice, upon receipt of any payment in respect of securities such as the notes (including principal and interest), is to credit the accounts of the relevant Participants with the payment on the payment date unless DTC has reason to believe that it will not receive payment on such payment date. Each relevant Participant is credited with an amount proportionate to its beneficial ownership of an interest in the principal amount of the relevant security as shown on the records of DTC. Payments by the Participants and the Indirect Participants to the beneficial owners of notes will be governed by standing instructions and customary practices and will be the responsibility of the Participants or the Indirect Participants and will not be our responsibility or the responsibility of DTC or the trustee. Neither we nor the trustee will be liable for any delay by DTC or any of the Participants or the Indirect Participants in identifying the beneficial owners of the notes, and we and the trustee may conclusively rely on and will be protected in relying on instructions from DTC or its nominee for all purposes.

Except for trades involving only participants in Euroclear and Clearstream, Luxembourg, interests in the Global Notes will trade in DTC's Same-Day Funds Settlement System and secondary market trading activity in such interests will therefore settle in immediately available funds, subject in all cases to the rules and procedures of DTC and its participants.

Transfers between the Participants will be effected in accordance with DTC's procedures and will be settled in same-day funds, and transfers between participants in Euroclear and Clearstream, Luxembourg will be effected in the ordinary way in accordance with their respective rules and operating procedures.

Table of Contents

Cross-market transfers between the Participants, on the one hand, and Euroclear or Clearstream, Luxembourg participants, on the other hand, will be effected through DTC in accordance with DTC's rules on behalf of Euroclear or Clearstream, Luxembourg, as the case may be, by its respective depository. However, such cross-market transactions will require delivery of instructions to Euroclear or Clearstream, Luxembourg, as the case may be, by the counterparty in such system in accordance with the rules and procedures and within the established deadlines (Brussels time) of such system. Euroclear or Clearstream, Luxembourg, as the case may be, will, if the transaction meets its settlement requirements, deliver instructions to its respective depository to take action to effect final settlement on its behalf by delivering or receiving interests in the relevant Global Note from DTC, and making or receiving payment in accordance with normal procedures for same-day funds settlement applicable to DTC. Euroclear participants and Clearstream, Luxembourg participants may not deliver instructions directly to the depositories for Euroclear or Clearstream, Luxembourg.

DTC has advised us that it will take any action permitted to be taken by a holder of notes only at the direction of one or more Participants to whose account DTC has credited the interests in the Global Notes and only in respect of such portion of the aggregate principal amount of the notes as to which such Participant or Participants has or have given such direction. However, if there is an event of default under the notes, DTC reserves the right to exchange the Global Notes for notes in certificated form and to distribute such notes to its Participants.

Although DTC, Euroclear and Clearstream, Luxembourg have agreed to the foregoing procedures to facilitate transfers of interests in the Global Notes among participants in DTC, Euroclear and Clearstream, Luxembourg, they are under no obligation to perform or to continue to perform such procedures, and may discontinue such procedures at any time. Neither we nor the trustee nor any paying agent nor the initial purchaser nor any of our or their agents will have any responsibility for the performance by DTC, Euroclear or Clearstream, Luxembourg or their respective participants or indirect participants of their respective obligations under the rules and procedures governing their operations.

Exchange of Global Notes for Certificated Notes

A Global Note is exchangeable for Certificated Notes in registered form if:

DTC (1) notifies us that it is unwilling or unable to continue as depository for the Global Notes or (2) has ceased to be a clearing agency registered under the Exchange Act and, in either case, we fail to appoint a successor depository; or

we, at our option, notify the trustee in writing that we elect to cause the issuance of the notes in certificated form (provided that under current industry practices, DTC would notify Participants of our determination, but would only withdraw beneficial interests from a Global Note at the request of Participants); or

there has occurred and is continuing a default or an event of default with respect to the notes.

In addition, beneficial interests in a Global Note may be exchanged for Certificated Notes upon prior written notice given to the trustee by or on behalf of DTC in accordance with the indenture. In all cases, Certificated Notes delivered in exchange for any Global Note or beneficial interests in Global Notes will be registered in the names, and issued in any approved denominations, requested by or on behalf of the depository (in accordance with its customary procedures).

Same Day Settlement and Payment

We will make payments in respect of the new notes represented by the Global Notes (including principal, premium, if any, interest and Additional Interest, if any) by wire transfer of immediately available funds to the accounts specified by DTC or its nominee. We will make all payments of principal, interest and premium, if any,

and additional interest, if any, with respect to Certificated Notes by wire transfer of immediately available funds to the accounts specified by the holders of the Certificated Notes or, if no such account is specified, by mailing a check to each such holder's registered address. The new notes represented by the Global Notes are expected to be eligible to trade in DTC's Same-Day Funds Settlement System, and any permitted secondary market trading activity in such notes will, therefore, be required by DTC to be settled in immediately available funds. We expect that secondary trading in any Certificated Notes will also be settled in immediately available funds.

Because of time-zone differences, credits of interests in the Global Notes received in Clearstream, Luxembourg or Euroclear as a result of a transaction with a DTC Participant will be made during subsequent securities settlement processing and dated the business day following the DTC settlement date. Such credits or any transactions involving interests in such Global Notes settled during such processing will be reported to the relevant Clearstream, Luxembourg or Euroclear participants on such business day. Cash received in Clearstream, Luxembourg or Euroclear as a result of sales of interests in the Global Notes by or through a Clearstream, Luxembourg participant or a Euroclear Participant to a DTC Participant will be received with value on the DTC settlement date but will be available in the relevant Clearstream, Luxembourg or Euroclear cash account only as of the business day following settlement in DTC.

MATERIAL U.S. FEDERAL INCOME TAX CONSEQUENCES OF THE EXCHANGE OFFER

The following discussion is a summary of material U.S. Federal income tax consequences of the exchange offer to holders of original notes. The summary below is based upon the Internal Revenue Code of 1986, as amended (the Code), regulations of the Treasury Department, administrative rulings and pronouncements of the Internal Revenue Service and judicial decisions as of the date hereof, all of which are subject to change, possibly with retroactive effect. This summary does not address all of the U.S. Federal income tax consequences that may be applicable to particular holders, including, among others, dealers in securities, financial institutions, insurance companies and tax-exempt organizations. In addition, this summary does not consider the effect of any foreign, state, local, gift, estate or other tax laws that may be applicable to a particular holder. This summary applies only to a holder that acquired original notes at original issue for cash and holds such original notes as a capital asset within the meaning of Section 1221 of the Code.

The exchange of original notes for new notes in the exchange offer will not constitute a taxable event to holders for U.S. Federal income tax purposes. Consequently, no gain or loss will be recognized by a holder upon receipt of a new note, the holder's holding period for the new note will include the holder's holding period for the original note exchanged therefor, and the holder's basis in the new note will be the same as the holder's basis in the original note immediately before the exchange.

Persons considering the exchange of original notes for new notes should consult their own tax advisors concerning the U.S. Federal income tax consequences to them in light of their particular situations as well as any consequences arising under the laws of any other taxing jurisdiction.

PLAN OF DISTRIBUTION

If you wish to exchange your original notes in the exchange offer, you will be required to make representations to us as described in The Exchange Offer Exchange Offer Procedures in this prospectus and in the letter of transmittal. In addition, each broker-dealer that receives new notes for its own account pursuant to the exchange offer must acknowledge that it will deliver a prospectus in connection with any resale of such new notes. This prospectus, as it may be amended or supplemented from time to time, may be used by a broker-dealer in connection with resales of new notes received in exchange for original notes where such original notes were acquired as a result of market-making activities or other trading activities. We have agreed to use our reasonable best efforts to make this prospectus, as amended or supplemented, available to any broker-dealer for a period of 210 days after the date of this prospectus for use in connection with any such resale.

We will not receive any proceeds from any sale of new notes by broker-dealers. New notes received by broker-dealers for their own account pursuant to the exchange offer may be sold from time to time in one or more transactions in the over-the-counter market, in negotiated transactions, through the writing of options on the new notes or a combination of such methods of resale, at market prices prevailing at the time of resale, at prices related to such prevailing market prices or negotiated prices. Any such resale may be made directly to purchasers or to or through brokers or dealers who may receive compensation in the form of commissions or concessions from any such broker-dealer or the purchasers of any such new notes. Any broker-dealer that resells new notes that were received by it for its own account pursuant to the exchange offer and any broker or dealer that participates in a distribution of such new notes may be deemed to be an underwriter within the meaning of the Securities Act and any profit on any such resale of new notes and any commission or concessions received by any such persons may be deemed to be underwriting compensation under the Securities Act. Further, any broker-dealer who holds original notes acquired for its own account as a result of market-making activities or other trading activities, and who receives new notes in the exchange offer, may also be an underwriter within the meaning of the Securities Act and is required to deliver a prospectus in connection with any resale of the new notes. The letter of transmittal states that, by acknowledging that it will deliver and by delivering a prospectus, a broker-dealer will not be deemed to admit that it is an underwriter within the meaning of the Securities Act.

A broker-dealer that acquired original notes directly from us cannot exchange the original notes in the exchange offer. Any holder who tenders in the exchange offer for the purpose of participating in a distribution of the new notes cannot rely on the no-action letters of the staff of the SEC and must comply with the registration and prospectus delivery requirements of the Securities Act in connection with any resale transaction.

For a period of 210 days after the date of this prospectus, we will promptly send additional copies of this prospectus and any amendment or supplement to this prospectus to any broker-dealer that requests such documents in the letter of transmittal. We have agreed to pay all expenses incident to the exchange offer, including the expenses of one counsel for the holders of the original notes, other than commissions or concessions of any brokers or dealers, and will indemnify the holders of the original notes, including any broker-dealers, against certain liabilities, including liabilities under the Securities Act.
