Report on review of quarterly information

To the Board of Directors and Stockholders

Telefônica Brasil S.A.

Introduction

We have reviewed the accompanying parent company and consolidated interim accounting information of Telefônica Brasil S.A. ("Company"), included in the Quarterly Information Form (ITR) for the quarter ended June 30, 2017, comprising the balance sheet at that date and the statements of income and comprehensive income for the quarter and six-month periods then ended, and changes in equity and cash flows for the six-month period then ended, and a summary of significant accounting policies and other explanatory information.

Management is responsible for the preparation of the parent company interim accounting information in accordance with the accounting standard CPC 21 - "Interim Financial Reporting", of the Brazilian Accounting Pronouncements Committee (CPC), and of the consolidated interim accounting information in accordance with CPC 21 and International Accounting Standard (IAS) 34 - "Interim Financial Reporting" issued by the International Accounting Standards Board (IASB), as well as the presentation of this information in accordance with the standards issued by the Brazilian Securities Commission (CVM), applicable to the preparation of the Quarterly Information (ITR). Our responsibility is to express a conclusion on this interim financial information based on our review.

Scope of review

We conducted our review in accordance with Brazilian and International Standards on Reviews of Interim Financial Information (NBC TR 2410 - "Review of Interim Financial Information Performed by the

Independent Auditor of the Entity" and ISRE 2410 - "Review of Interim Financial Information Performed by the Independent Auditor of the Entity", respectively). A review of interim information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Brazilian and International Standards on Auditing and consequently did not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion on the parent company interim information

Based on our review, nothing has come to our attention that causes us to believe that the accompanying parent company interim accounting information included in the Quarterly Information referred to above has not been prepared, in all material respects, in accordance with CPC 21 applicable to the preparation of the Quarterly Information, and presented in accordance with the standards issued by the CVM.

Conclusion on the consolidated interim information

Based on our review, nothing has come to our attention that causes us to believe that the accompanying consolidated interim accounting information included in the Quarterly Information referred to above has not been prepared, in all material respects, in accordance with CPC 21 and IAS 34 applicable to the preparation of the Quarterly Information, and presented in accordance with the standards issued by the CVM.

Other matters

Statement of value added

We have also reviewed the parent company and consolidated statements of value added for the six-month period ended June 30, 2017. These statements are the responsibility of the Company's management and are required to be presented in accordance with standards issued by the CVM applicable to the preparation of Quarterly Information (ITR) and are considered supplementary information under IFRS, which do not require the presentation of the statement of value added. These statements have been submitted to the same review procedures described above and, based on our review, nothing has come to our attention that causes us to believe that they have not been prepared, in all material respects, in a manner consistent with the parent company and consolidated interim accounting information taken as a whole.

Audit and review of prior-year information

The Quarterly Information Form (ITR) mentioned in the first paragraph includes accounting information, presented for comparison purposes, related to the statements of income and comprehensive income for the quarter and six-month periods ended June 30, 2016, and the statements of changes in equity, cash flows and value added for the six-month period then ended, obtained from the Quarterly Information Form (ITR) for that quarter, and also to the balance sheet as at December 31, 2016, obtained from the financial statements at December 31, 2016. The review of the Quarterly Information (ITR) for the quarter ended June 30, 2016 and the audit of the financial statements for the year ended December 31, 2016 were conducted by other independent auditors, whose unqualified review and audit reports were dated July 25, 2016 and February 17, 2017, respectively.

1) THE COMPANY AND ITS OPERATIONS

a) Background information

Telefônica Brasil S.A. ("Company" or "Telefônica Brasil") is a publicly-traded corporation operating in telecommunication services and in the performance of activities that are necessary or useful in the rendering of such services, in conformity with the concessions, authorizations and permissions it has been granted. The Company, headquartered at Avenida Engenheiro Luiz Carlos Berrini, No. 1376, in the city and State of São Paulo, Brazil, is a member of Telefónica Group ("Group"), the telecommunications industry leader in Spain, also present in various European and Latin American countries.

At June 30, 2017 and December 31, 2016, Telefónica S.A. ("Telefónica"), the Group holding company based in Spain, held total direct and indirect interest in the Company of 73.58%, including treasury shares (Note 21).

The Company is registered in the Brazilian Securities Commission ("CVM") as a publicly-held company under Category A (issuers authorized to trade any marketable securities) and has shares traded on the B3 (company resulting from the combination of activities between BM&FBovespa and CETIP). The Company is also listed in the Securities and Exchange Commission ("SEC"), of the United States of America, and its American Depositary Shares ("ADSs") are classified under level II, backed only by preferred shares and traded on the New York Stock Exchange ("NYSE").

b) Operations

The Company operates in the rendering of: (i) Fixed Switched Telephone Service Concession Arrangement ("STFC"); (ii) Multimedia Communication Service ("SCM", data communication, including broadband

internet); (iii) Personal Mobile Service ("SMP"); and (iv) Conditioned Access Service ("SEAC" - Pay TV), throughout Brazil, through concessions and authorizations, as established in the General Plan of Concessions ("PGO").

In accordance with the STFC service concession agreement, in every two years, during the agreement's 20-year term, the Company shall pay a fee equivalent to 2% of its prior-year STFC revenue, net of applicable taxes and social contribution taxes (Note 20). The Company's current STFC concession agreement is valid until December 31, 2025.

In accordance with the authorization terms for the usage of frequencies associated with SMP, in every two years after the first renewal of these agreements, the Company shall pay a fee equivalent to 2% of its prior-year SMP revenue, net of applicable taxes and social contribution taxes (Note 20), and in the 15th year the Company will pay 1% of its prior-year revenue. The calculation will consider the net revenue from the application of Basic and Alternative Services Plans. These agreements can be extended only once for a term of 15 years.

Service concessions and authorizations are granted by the Brazil's Telecommunications Regulatory Agency ("ANATEL"), the agency responsible for the regulation of the Brazilian telecommunications sector under the terms of Law No. 9472 of July 16, 1997 - General Telecommunications Law ("Lei Geral das Telecomunicações" - LGT), amended by Laws No. 9986, of July 18, 2000, and No. 12485, of September 12, 2011. The operation of such concessions is subject to supplementary regulations and plans.

The information on the operation areas (regions) and due dates of the radiofrequency authorizations for SMP services is the same of Note 1b) Operations as disclosed in the financial statements for the year ended December 31, 2016.

c) Acquisition of GVT Participações S.A. ("GVTPart")

The information on the acquisition process of GVTPart, which occurred in May 2015, is the same of Note 4) Acquisition of GVT Participações S.A. ("GVTPart"), as disclosed in the financial statements for the year ended December 31, 2016.

d) Corporate restructuring

The Shareholders' Meeting held on April 1, 2016, approved corporate restructuring in accordance with the terms and conditions proposed on March 14, 2016. The information on the Corporate Restructuring is the same as in Note 1c) Corporate Restructuring, as disclosed in the financial statements for the year ended December 31, 2016.

2) BASIS OF PREPARATION AND PRESENTATION OF THE QUARTERLY FINANCIAL STATEMENTS

a) Statement of compliance

The individual (Company) and consolidated quarterly financial Statements were prepared and are presented in accordance with the accounting practices adopted in Brazil, which comprise CVM standards and CPC (Accounting Pronouncements Committee) pronouncements, and in compliance with the International Financial Reporting Standards (IFRS), issued by the International Accounting Standards Board (IASB).

All significant information in the financial statements - and solely such information - is disclosed and corresponds to that used by Company management for administration purposes.

The consolidated statements (Consolidated) have been prepared and are presented in accordance with CPC 21 (R1) Interim Statements and IAS 34 - Interim Financial Reporting issued by the IASB and standards established as Resolution no. 739/15 of the CVM.

b) Basis of preparation and presentation

The Company's quarterly financial statements for the three and six-month periods ended June 30, 2017 are presented in thousands of *Reais* (unless otherwise stated), which is the functional currency of the Company.

Management has assessed the Company's ability to continue operating normally and is convinced that it has the resources to continue its business in the future. In addition, Management is not aware of any material uncertainties that could generate significant doubts about its ability to continue operating. Therefore, these quarterly financial statements were prepared based on the assumption of continuity.

These quarterly financial statements compare the quarters ended June 30, 2017 and 2016, except for the balance sheets, that compare the positions as of June 30, 2017 and December 31, 2016.

The Board of Directors authorized the issue of these individual and consolidated financial statements at the meeting held on July 24, 2017.

Business segments are defined as components of a company for which separate financial information is available and regularly assessed by the operational decision makers in decisions on how to allocate funds to an individual segment and in the assessment of segment performance. Considering that: (i) all officers and managers' decisions are based on consolidated reports; (ii) the Company and subsidiaries' mission is to provide their customers with quality telecommunications services; and (iii) all decisions related to strategic planning, finance, purchases, short- and long-term investments are made on a consolidated basis, the Company and subsidiaries operate in a single operating segment, namely the provision of telecommunications services.

The accounting standards adopted in Brazil require the presentation of the Statement of Value Added ("SVA"), individual and consolidated, while IFRS does not require such presentation. As a result, under IFRS standards, the SVA is being presented as supplementary information, without prejudice to the overall quarterly financial statements.

As a result of the Corporate Restructuring process (Note 1d), which occurred on April 1, 2016, the individual quarterly financial statements for the six-month period ended June 30, 2017 and 2016 are not comparable.

NOTES TO THE QUARTERLY FINANCIAL STATEMENTS

Three and six-month period ended June 30, 2017

(In thousands of *Reais*, unless otherwise stated)

The quarterly financial statements were prepared in accordance with the principles, practices and accounting criteria consistent with those adopted in the preparation of the financial statements for the year ended December 31, 2016 (Note 3) Summary of Significant Accounting Practices) and should be analyzed in conjunction with these financial statements, in addition to the new pronouncements, interpretations and amendments, which came into effect as of January 1, 2017, as described below:

IAS 7 - Cash Flow. amendments: The changes are part of the IASB disclosure initiative and require an entity to provide disclosures that enable users of financial statements to assess changes in liabilities arising from financing activities, including both the changes affecting cash flows, and changes that do not affect cash. At the initial adoption of the amendment, entities are not required to provide comparative information for prior periods. The application of the changes in this standard did not cause any material impact on the Company's cash flow disclosures.

IAS 12 - Income Taxes. amendments: The amendments clarify that an entity should consider whether tax legislation restricts sources of taxable income against which it may make deductions on the reversal of that deductible temporary difference. In addition, the amendments provide guidance on how an entity should determine future taxable income and explain the circumstances under which taxable income may include the recovery of some assets for amounts greater than their carrying amount. If an entity adopts the changes for an earlier period, it should disclose that fact. The application of the changes in this standard did not have a material impact on the Company's financial position.

On the date of preparation of these quarterly financial statements, the following IFRS amendments had been published; however, their application was not mandatory. The Company does not adopt early any pronouncement, interpretation or amendment that has been issued, before application is mandatory.

Standards and Amendments to the Standards	Effective as of:
IFRS 9 Financial Instruments, issued	January 1, 2018
IFRS 15 Revenue from Contracts with Customers, as issued	January 1, 2018
IFRS 2 Classification and Valuation of Share Based Transactions, as amended	January 1, 2018
IFRS 4 Insurance Contracts, as amended	January 1, 2018
IAS 40 Investment Property Transfers, as amended	January 1, 2018
IFRIC 22 Transactions in Foreign Currency and Advance Payments, as issued	January 1, 2018
Annual Improvements to IFRS, 2014-2016 Cycle, as issued	January 1, 2017 / 2018
IFRS 16 Leases, as issued	January 1, 2019
IFRIC 23 Uncertainties over Income Tax Treatments	January 1, 2019
'IFRS 17 Insurance Contracts	January 1, 2021
IFRS 10, 12 and IAS 28 Investment Entities: Applying the Consolidation Exception, as amended	TBD

Based on preliminary studies, the Company expects the implementation of many of these standards, changes and interpretations will not have a significant impact on the financial statements in the initial period of application. However, the Company expects the following standards issued, but not yet mandatory, may have a significant impact on the Company's consolidated financial statements at the time of application and prospectively.

IFRS 9 - Financial Instruments. Issue: In July 2014, the IASB issued the final version of IFRS 9, which replaces IAS 39 and all previous versions of IFRS 9.

NOTES TO THE QUARTERLY FINANCIAL STATEMENTS

Three and six-month period ended June 30, 2017

(In thousands of *Reais*, unless otherwise stated)

IFRS 9 applies to financial assets and liabilities and establishes the classification, valuation, losses and write-off criteria for recognition of such items, as well as a new hedge accounting model. The Company estimates that major changes will occur in the documentation of hedge policies and strategies, as well as in the estimation of expected losses on financial assets. The changes introduced by IFRS 9 will affect the recognition of financial assets and derivative financial instruments as of January 1, 2018. The Company is carrying out the process of implementing the new criteria, but due to the relevance of the potentially affected items and the complexity of the estimates, understands that it is not reasonably possible to quantify the impacts of the application of this standard on the date of these quarterly financial statements.

IFRS 15 - Revenue from Contracts with Customers. Issuance: IFRS 15 establishes criteria for the accounting of revenues from customer contracts. The Company is currently in the process of estimating the impacts of this new standard on its contracts. This analysis identified a number of expected impacts related to the following aspects, among others:

- Under the current accounting policy, the Company offers commercial packages that combine equipment and services of telephony, fixed and mobile, data, internet and television, total revenue of services is distributed among its elements identified based on their respective fair values.

Under IFRS 15, amounts will be allocated to each element based on the independent selling prices of each individual component in relation to the total price of the package and will be recognized (and measured) when the obligation is satisfied. Consequently, the application of the new criteria will mean an acceleration in the recognition of equipment sales revenues, which are generally recognized at the time of delivery to the final consumer. To the extent that the packages are marketed at a discount, the difference between the profit on sales of equipment and the amount received from the customer at the inception of the contract will be recognized as a contractual asset.

- According to the criteria currently in force, all costs directly related to obtaining commercial contracts (sales commissions and other expenses with third parties) are accounted as expenses when incurred. On the other hand, IFRS 15 requires the recognition of an asset for the amounts incurred under these contracts and its subsequent accounting in the income statement according to the period of the respective agreement. Likewise, certain costs related to the performance of the contract, currently recognized as expenses, when incurred, will be deferred when associated with compliance obligations over the period of contract.

- Compared to the current standard, IFRS 15 establishes more detailed requirements on the accounting treatment of contract changes. Thus, certain changes will be recorded retrospectively and others prospectively resulting in the redistribution of revenues among the various performance obligations identified.

The Company is advancing in the process of implementing the new criteria, but due to the high number of transactions affected, the high volume and dispersion of the necessary information and the complexity of the estimates, the Company understands that at the closing date of the quarterly financial statements cannot reliably measure the impact of the application of this standard.

However, considering the current commercial offers as well as the volume of affected contracts, the Company estimates that the changes introduced by IFRS 15 will have a significant impact on its financial statements at the date of its initial application. In addition, the Company's financial statements will include more quantitative disclosures of revenue-related accounts.

IFRS 16 - Leasing. Issuance: IFRS 16 establishes that companies acting as lessees must recognize in the balance sheet the assets and liabilities arising from all lease agreements (except for short-term lease agreements and those for low value assets).

The Company has a very large number of leases as a lessee of various assets, such as third-party towers, circuits, real estate and land (where the towers are primarily located). Under the current standard, significant portions of such contracts are classified as operating leases, where payments are generally recorded on a straight-line basis over the contract term.

Telefônica Brasil S. A.

NOTES TO THE QUARTERLY FINANCIAL STATEMENTS

Three and six-month period ended June 30, 2017

(In thousands of *Reais*, unless otherwise stated)

The Company is currently in the process of estimating the impact of this new standard on such contracts. In this analysis, the estimate of the term of the lease is included, considering the non-cancellable period and the periods covered if exercised the option to extend the lease for those cases there exists reasonable certainty, which will depend, of the expected use of the Company's assets installed in the leased assets.

In addition to the term of the lease, assumptions will be used to calculate the discount rate, which will depend mainly on the incremental financing rate for the estimated periods. In addition to the previous estimates, the standard allows two transition methods, being: (i) full retrospective for each comparative period presented; and (ii) modified retrospective with the cumulative effect of the initial application of the standard recognized at the date of initial application. In addition, it is possible to choose specific practical relieves at the time of applying the standard on measurement of liability, discount rate, losses, leases ending within twelve months after the first application, initial direct costs, and lease duration. Thus, depending on the transition method to be chosen, the impacts will be different.

Due to the different alternatives, as well as the complexity of the estimates and the high number of contracts, the Company has not yet completed the implementation process, so that at the date of the quarterly financial statements it is not possible to estimate the impact of the application of this standard.

However, considering the volume of contracts affected, the Company estimates that the changes introduced by IFRS 16 will have a significant impact on its financial statements from the date of adoption, including the recognition of the right to use and the corresponding obligations in respect to the contracts which, under the current standard, are classified as operating leases. In addition, depreciation of the right to use the assets and recognition of interest on the lease obligation will replace a significant portion of the amount recognized as expenses in the income statement for the operating lease. The classification of payments in the statement of cash flows will also be affected by the adoption of IFRS 16.

c) Basis of consolidation

At June 30, 2017 and 2016 and December 31, 2016, the Company held the following direct equity interests:

Investees	Type of investment	Equity interests	Country (Headquarters)
Telefônica Data S.A. ("TData")	Wholly-owned subsidiary	100.00%	Brazil
POP Internet Ltda ("POP") (note 1c)	Wholly-owned subsidiary	100.00%	Brazil
Aliança Atlântica Holging B.V. ("Aliança")	Jointly-controlled subsidiary	50.00%	Holland
Companhia AIX de Participações ("AIX")	Jointly-controlled subsidiary	50.00%	Brazil
Companhia ACT de Participações ("ACT")	Jointly-controlled subsidiary	50.00%	Brazil

In the parent company financial statements interests held in subsidiaries or jointly-controlled entities are measured under the equity method. In the consolidated investments and all asset and liability balances, revenues and expenses arising from transactions and interest held in subsidiaries are fully eliminated. Investments in jointly-controlled entities are measured under the equity method.

Deferred tax liabilities	-	-	-

(1) This refers to the amounts recorded which, in accordance with Brazilian tax legislation, may be offset to the limit of 30% of the tax bases computed for the following years, with no expiry date.

(2) This refers to amounts that will be realized upon payment of provisions, effective impairment losses for trade accounts receivable, or realization of inventories, as well as upon reversal of other provisions.

(3) These refer to deferred taxes arising from other temporary differences, such as deferred income, renewal of licenses, subsidy on the sale of mobile phones, among others.

At June 30, 2017, deferred tax credits (income tax and social contribution losses) were not recognized in indirect subsidiary (Innoweb) accounting records, in the amount of R\$5,286 (R\$2,993 at December 31, 2016), as it is not probable that future taxable profits will be available to use them.

(1) The Company and its subsidiaries recognized estimated losses for potential obsolescence of materials used in property and equipment maintenance, based on levels of historical use and expected future use.

(2) Net write-offs regarding "Infrastructure and Assets and Facilities under Construction" for the period ended June 30, 2017, include the amount of R\$99,210 regarding the disposal of 1,655 towers owned by the Company to Telxius Torres Brasil Ltda., a Telefónica subsidiary.

b) Depreciation rates

In the last quarter of 2016, in accordance with IAS 16 / CPC 27, the Company performed, in conjunction with a specialized company, valuations of useful lives applied to its property, plant and equipment using the direct comparative method of market data. The studies indicated the need for changes in useful life and annual depreciation rates for some items of asset classes.

The following table sets forth the depreciation rates of property, plant and equipment of the Company and its subsidiaries, which are depreciated on a straight-line basis at the annual rate, as follows:

Description	Annual depreciation rate (%)			
	Company	Revised / Current	Consolidated	Revised / Current

NOTES TO THE QUARTERLY FINANCIAL STATEMENTS

Three and six-month period ended June 30, 2017

(In thousands of *Reais*, unless otherwise stated)

c) Property and equipment items pledged in guarantee

At June 30, 2017, the Company had consolidated amounts of property and equipment items pledged in guarantee for lawsuits, amounting to R\$172,658 (R\$203,600 at December 31, 2016).

d) Capitalization of borrowing costs

At June 30, 2017 and December 31, 2016, the Company and its subsidiaries did not capitalize borrowing costs, as there were no qualifying assets.

e) Reversible assets

The STFC service concession arrangement establishes that all assets owned by the Company and that are indispensable to the provision of the services described in the referred to arrangement are considered “reversible” (returnable to the concession authority). At June 30, 2017, estimated residual value of reversible assets was R\$8,868,251 (R\$8,813,916 at December 31, 2016), which comprised switching and transmission equipment and public use terminals, external network equipment, energy, system and operational support equipment.

f) Finance leases

(1) The amounts of IOE are calculated and stated net of Withholding Income Tax (IRRF). The immune shareholders received the full IOE amount, without withholding income tax at source.

(2) The gross and net values for the preferred shares are 10% higher than those attributed to each common share, as per article 7 of the Company's Articles of Incorporation.

For the cash flow statement, interest on equity and dividends paid to shareholders are recognized in "Financing Activities".

Interest on equity and dividends not claimed by shareholders expire within three years from the initial payment date. Should dividends and interest on equity expire, these amounts are recorded in retained earnings for later distribution.

Possible losses	253,861	275,483	265,190	293,146

Labor provisions and contingencies involve labor claims filed by former employees and outsourced employees (the latter alleging subsidiary or joint liability) claiming for, among other issues, overtime, salary equalization, post-retirement benefits, allowance for health hazard and risk premium, and matters relating to outsourcing.

The Company is also a defendant in labor claims filed by retired former employees who are covered by the Retired Employees Medical Assistance Plan ("PAMA"), who, among other issues, are demanding the cancellation of amendments to this plan. Most of these claims await a decision by the Regional Labor Court of São Paulo and the Superior Labor Court. Based on the opinion of its legal counsel and recent decisions of the courts, management considers the risk of loss in these cases as possible. No amount has been specified for these claims, since is not possible to estimate the cost to the Company in the event of loss.

In addition, the Company is party to Public Civil Actions filed by the Labor Public Prosecutor's Office, mainly in relation to the determination that the Company must cease the engagement of intermediaries to carry out its core activities. No amounts were allocated to the possible degree of risk in these Public Civil Actions in the above table, since at this stage of the proceedings it is not possible to estimate the cost to the Company in the event of loss.

Possible losses	2,764,577	2,573,459	2,765,234	2,574,836

Provisions for probable civil losses

- The Company and/or its subsidiaries are parties to proceedings involving rights to the supplementary amounts from shares calculated on network expansion plans since 1996 (supplement of share proceedings). These proceedings are at different stages: lower courts, court of justice and high court of justice. At June 30, 2017, consolidated provisions totaled R\$302,382 (R\$256,276 at December 31, 2016).

- The Company and/or its subsidiaries are parties to various civil proceedings related to consumers at the administrative and judicial level, relating to the non-provision of services and/or products sold. At June 30, 2017, consolidated provisions totaled R\$367,174 (R\$386,699 at December 31, 2016).

- The Company and/or its subsidiaries are parties to various civil proceedings of a non-consumer nature at administrative and judicial levels, all arising in the ordinary course of business. At June 30, 2017,

consolidated provisions totaled R\$396,311 (R\$396,382 at December 31, 2016).

Civil contingencies assessed as possible losses

Management and its legal counsel understand that losses are possible in the following civil proceedings:

- Collective Action filed by SISTEL Participants' Association (ASTEL) in the state of São Paulo, in which SISTEL associates in the state of São Paulo challenge the changes made in the health insurance plan for retired employees ("PAMA") and claim for the reestablishment of the prior "status quo". This proceeding is still in the appeal phase, and awaits a decision on the Interlocutory Appeal filed by the Company against the decision on possible admission of the appeal to higher and supreme courts filed in connection with the Court of Appeals' decision, which changed the decision rendering the matter groundless. The amount cannot be estimated, and the claims cannot be settled due to their unenforceability because it entails the return to the prior plan conditions.
 - Civil Class Actions filed by ASTEL, in the state of São Paulo, and by the Brazilian National Federation of Associations of Retirees, Pensioners and Pension Fund Members of the Telecommunications Industry (FENAPAS), both against SISTEL, the Company and other carriers, in order to annul the spin-off of the PBS private pension plan, alleging, in short, the "windup of the supplementary private pension plan of the SISTEL Foundation", which led to various specific mirror PBS plans, and corresponding allocation of funds from technical surplus and tax contingencies existing at the time of the spin-off. The amount cannot be estimated, and the claims cannot be settled due to their unenforceability because this involves the return of the spun-off assets of SISTEL relating to telecommunication carriers of the former Telebrás System.
 - The Company is party to other civil claims, at several levels, related to service rendering rights. Such claims have been filed by individual consumers, civil associations representing consumer rights or by the Bureau of Consumer Protection (PROCON), as well as by the Federal and State Public Prosecutor's Office. The Company is also party to other claims of several types related to the ordinary course of business. At June 30, 2017, the consolidated amount totaled R\$2,750,859 (R\$2,559,252 at December 31, 2016).

- TGLog (company controlled by TData) is a party to the civil enforcement action process in the 3rd Civil Court of Barueri - SP for the allegation of contractual noncompliance with the transportation of goods. At June 30, 2017, the amount was R\$168 (R\$1,377 at December 31, 2016).
- The Company has received notices regarding noncompliance with the Customer Service (SAC) Decree. The Company is currently party to various lawsuits (administrative and legal proceedings). At June 30, 2017 and at December 31, 2016, the amount was R\$14,207.
- Intellectual Property: Lune Projetos Especiais Telecomunicação Comércio e Ind. Ltda. (Lune), a Brazilian company, filed an action on November 20, 2001 against 23 wireless carriers claiming to own the patent for caller ID and the trademark "Bina". The purpose of that lawsuit was to interrupt provision of such service by carriers and to seek indemnification equivalent to the amount paid by consumers for using the service. An unfavorable decision was handed down determining that the Company should refrain from selling mobile phones with Caller ID service ("Bina"), subject to a daily fine of R\$10,000 (Ten thousand reais) in case of noncompliance. Furthermore, according to that decision, the Company must pay indemnification for royalties, to be calculated in settlement. Motions for Clarification were proposed by all parties and Lune's motions for clarification were accepted since an injunctive relief in this stage of the proceedings was deemed applicable. A bill of review appeal was filed in view of the current decision which granted a stay of execution suspending that unfavorable decision until final judgment of the review. A bill of review was filed in view of the sentence handed down on June 30, 2016, by the 4th Chamber of the Court of Justice of the Federal District, in order to annul the lower court sentence and remit the proceedings back to the lower court for a new examination. At the present time, we await the judgment of the regimetal grievance filed against a decision prior to the judgment, which rejected the application of the former lawyers of Lune as assistants of the author. There is no way to determine the extent of potential liabilities with respect to this claim.

- The Company and other wireless carriers figure as defendants in several lawsuits filed by the Public Prosecutor's Office and consumer associations to challenge imposition of a period to use prepaid minutes. The plaintiffs allege that the prepaid minutes should not expire after a specific period. Conflicting decisions were handed down by courts on the matter, even though the Company understands that its criteria for the period determination comply with ANATEL standards.

d) Provisions and regulatory contingencies

Possible losses	5,035,111	5,018,205	5,035,111	5,018,205

Provisions for regulatory contingencies assessed as probable losses

The Company is party to administrative proceedings against ANATEL, filed based on an alleged failure to meet sector regulations, and to judicial proceedings to contest sanctions applied by ANATEL at the administrative level. At June 30, 2017, consolidated provisions totaled R\$899,284 (R\$828,934 at December 31, 2016).

Regulatory contingencies assessed as possible losses

According to the Company's management and legal counsel, the likelihood of loss of the following regulatory civil proceedings is possible:

- The Company is party to administrative proceedings filed by ANATEL alleging noncompliance with the obligations set forth in industry regulations, as well as legal claims which discuss the sanctions applied by ANATEL at the administrative level. At June 30, 2017, the consolidated amount was R\$5,035,111 (R\$5,018,205 at December 31, 2016).

- Administrative and judicial proceedings discussing payment of a 2% charge on interconnection services revenue arising from the extension of right of use of SMP related radio frequencies. Under clause 1.7 of the authorization term that grants right of use of SMP related radio frequencies, the extension of right of use of such frequencies entails payment every two years, during the extension period (15 years) of a 2% charge calculated on net revenues from the service provider's Basic and Alternative Plans of the service company, determined in the year before that of payment.

However, ANATEL determined that in addition to revenues from Service Plans, the charge corresponding to 2% should also be levied on interconnection revenues and other operating revenues, which is not stipulated in clause 1.7 of referred Authorization Term.

Considering, based on the provisions of the Authorization Terms, that revenue from interconnection services should not be included in the calculation of the 2% charge for radiofrequency use right extension, the Company filed administrative and legal proceedings challenging these charges, based on ANATEL's position.

Term of Conduct Adjustment ("TAC")

The Board of Directors of ANATEL approved, on October 27, 2016, the Company's TAC. On June 30, 2017, this instrument is still being analyzed by the Brazilian Court of Audit ("TCU"), which will review the bases for ANATEL's decision.

e) Guarantees

The Company and its subsidiaries granted guarantees for tax, civil and labor proceedings, as follows:

	Consolidated					
		06/30/17			12/31/16	
	Property and equipment	Judicial deposits and garnishments	Letters of guarantee	Property and equipment	Judicial deposits and garnishments	Letters of guarantee

Under bilateral agreements with suppliers, the Company obtained extension of the terms for payment of trade accounts payable at a cost based on fixed CDI rate for the corresponding periods, with the net cost equivalent to between 105.7% and 113.7% of CDI (108.4% of CDI as of December 31, 2016).

a.3) Finance leasing

The Company is lessee in contracts classified as financial leasing, related to: (i) lease of towers and rooftops arising from sale and finance leaseback transactions; (ii) lease of Built to Suit ("BTS") sites to install antennas and other equipment and transmission facilities; (iii) lease of information technology equipment and; (iv) lease of infrastructure and transmission facilities. The net carrying amount of the assets has remained unchanged until sale thereof, and a liability is recognized corresponding to the present value

of mandatory minimum installments of the agreement.

Total	803,587	372,563

There are no unsecured residual values resulting in benefits to the lessor nor in contingent payments recognized as revenue at June 30, 2017 and December 31, 2016.

a.4) Contingent Consideration

As part of the Purchase and Sale Agreement and Other Covenants executed by and between the Company and Vivendi to acquire all shares in GVTPart (Note 1c), a contingent consideration relating to the judicial deposit made by GVT for the monthly installments of deferred income tax and social contribution on goodwill amortization was agreed, arising from the corporate restructuring process completed by GVT in 2013. If these funds are realized (being reimbursed, refunded, or via netting), they will be returned to Vivendi, as long as they are obtained in a final unappeasable decision. Reimbursement will be made within 15 years and this amount is subject to monthly restatement at the SELIC rate.

b) Debentures

On June 30, 2017, the contractual terms of the debentures are the same as in Note 21) Loans, Financing and Debentures, as disclosed in the financial statements for the year ended December 31, 2016, except for the new issue described below.

5th Issue

At a meeting held on January 26, 2017, the Company's Board of Directors approved the 5th issue of simple debentures, non-convertible into shares of the Company, in a single series, unsecured, in the total amount of R\$2,000,000, which were subject to public placement with restricted efforts, under a firm guarantee regime, in the terms of ICVM 476/09.

On February 8, 2017, the Company issued 200,000 debentures, with a par value equivalent to R\$10,000 (Ten thousand reais). The debentures have a maturity of five years and the nominal unit value of each of the debentures will not be monetarily restated.

Remuneration interest corresponds to 108.25% of the accumulated variation of the average daily rates of one-day Interbank Deposits ("DI").

Transaction costs in connection with the 3rd, 4th and 5th issues, totaling R\$5,320 at June 30, 2017 (R\$495 at December 31, 2016), were allocated as a reduction of liabilities as costs to be incurred and are

recognized as financial expenses, according to the contractual terms of each issue.

c) Repayment schedule

At June 30, 2017, breakdown of non-current loans, financing, finance leasing, debentures and contingent consideration by year of maturity is as follows:

<u>Year</u>	Company / Consolidated				Total
	Loans and financing	Debentures	Finance lease	Contingent consideration	
2018	471,005	57,514	42,327	-	570,846

Total	1,983,499	2,133,423	332,012	432,908	4,881,842

d) Covenants

There are loans and financing with BNDES (Note 19.a) and debentures (Note 19.b) with specific covenants involving a penalty in the event of breach of contract. A breach of contract provided for in the agreements with the institutions listed above is characterized as noncompliance with covenants (analyzed on a quarterly, half-yearly or yearly basis), being a breach of a contractual clause, resulting in the early maturity of the contract.

At June 30, 2017 and December 31, 2016 all economic and financial ratios established in existing contracts have been achieved.

e) Changes

Changes in loans and financing, debentures, finance lease agreements and contingent consideration are as follows:

(1) Includes a portion of the Company's liability arising from an agreement entered into with ANATEL, whereby the operators that won the auction of the 4G licences organized Entidade Administradora do Processo de Redistribuição e Digitalização de Canais de TV e RTV ("EAD"), which will be responsible for equally performing all TV and RTV channel redistribution procedures and solutions to harmful interference in radio communication systems, in addition to other operations in which the winning operators have obligations, as defined in the agreement. On January 31, 2017, the Company paid R\$858,991 to EAD, referring to the 2nd and 3rd installments of the auction of 700 MHz national frequency bands for the provision of SMP, performed by ANATEL on September 30, 2014.

(2) This refers to the cost of renewing STFC and SMP licenses. See Note 1.b).

(3) This refers to payroll withholdings and taxes withheld from pay-outs of interest on equity and on provision of services.

21) EQUITY

a) Capital

According to its Articles of Incorporation, the Company is authorized to increase its share capital up to 1,850,000,000 shares. The Board of Directors is the competent body to decide on any increase and consequent issue of new shares within the authorized capital limit.

Nevertheless, Brazil's Corporation Law (Law no. 6,404/76, Article 166, item IV) establishes that capital may be increased by means of a Special Shareholders' Meeting resolution to decide about amendments to the Articles of Incorporation, if the authorized capital limit has been reached.

Capital increases do not necessarily require the proportion between the number of shares of each class to be maintained, however the number of non-voting or restricted-voting preferred shares must not exceed 2/3 of total shares issued.

Preferred shares are non-voting, except for cases set forth in Articles 9 and 10 of the Articles of Incorporation, but have priority in the event of reimbursement of capital, without premium, and are entitled to dividends 10% higher than those paid on common shares, as per article 7 of the Company's Articles of Incorporation and item II, paragraph 1, article 17 of Law No. 6,404/76.

Preferred shares also acquire full voting rights if the Company fails to pay the minimum dividend to which they are entitled for three consecutive financial years and this right will continue until payment of said dividend.

Paid-in capital at June 30, 2017 and December 31, 2016 amounted to R\$63,571,416. After all the events described above, subscribed and paid-in capital is divided into shares without par value, held as follows:

(1) The amounts of IOE are calculated and stated net of Withholding Income Tax (IRRF). The immune shareholders received the full IOE amount, without withholding income tax at source.

(2) The gross and net values for the preferred shares are 10% higher than those attributed to each common share, as per article 7 of the Company's Articles of Incorporation.

d.3) Unclaimed dividends and interest on equity

Pursuant to article 287, paragraph II, item "a" of Law No. 6,404, of December 15, 1976, the dividends and interest on equity unclaimed by shareholders expire in 3 (three) years, as from the initial payment date. The Company reverses the amount of unclaimed dividends and IOE to equity upon expiry.

In the six-month period ended June 30, 2017, the Company reversed expired dividends in the amount of R\$72,840.

e) Other comprehensive income

Financial instruments available for sale: These refer to changes in fair value of financial assets available for sale.

Derivative financial instruments: These refer to the effective part of cash flow hedges up to the balance sheet date.

Currency translation effects for foreign investments: This refers to currency translation differences arising from the translation of financial statements of Aliança (jointly-controlled entity).

f) Company Share Repurchase Program

In a meeting held on June 9, 2017, the Company's Board of Directors, in accordance with article 17, item XV, of the Articles of Incorporation, approved the repurchase of common and preferred shares issued by the Company, under CVM Ruling No. 567, of September 17, 2015, for acquisition of common and preferred shares issued by the Company for subsequent cancellation, disposal or to be held in treasury, without decreasing capital, to increase shareholder value through the efficient application of available cash resources and optimize the Company's capital allocation.

The repurchase shall be made through the use of the capital reserve balance included in the balance sheet as of March 31, 2017, excluding the reserves referred to in article 7, paragraph 1, of CVM Instruction 567, of September 17, 2015.

This program is effective until December 8, 2018, with the acquisitions made at B3, at market prices, observing the legal and regulatory limits, being the maximum amounts to be acquired of 870,781 common shares and 41,510,761 preferred shares.

g) Earnings per share

Basic and diluted earnings per share were calculated by dividing profit attributed to the Company's shareholders by the weighted average number of outstanding common and preferred shares for the period.

(1) The amount shown for 2016 includes R\$476,371 (net of residual values) from the Company's sale of 1,655 transmission towers to Telxius Torres Brasil (company of the Telefónica Group, Note 27). After the sale of these assets, a lease agreement for part of the towers sold was entered into, thus ensuring continued transmission of data for mobile services.

The transaction was recognized as sale and leaseback as provided under IAS 17. Management analyzed each asset leased back and classified them as operating or finance leases in accordance with IAS 17 qualitative and quantitative criteria.

Risks and benefits relating to these towers have been transferred to their purchasers, with the exception of several towers for which transfer of risks and benefits was not possible. For these items, the amount was recognized as deferred revenue (Note 18).

(2) In the same transaction described in item (1), the Company transferred assignment of current lease agreements for sites and sold sharing agreements (customer portfolio) for R\$40,899.

Management compensation

Consolidated key management personnel compensation paid by the Company to its Board of Directors and Statutory Officers were R\$10,617 and R\$32,826 for the quarters ended June 30, 2017 and 2016 respectively. Of this amount, R\$6,774 (R\$13,978 on June 30, 2016) corresponds to salaries, benefits and social charges and R\$3,843 (R\$18,848 on June 30, 2016) to variable compensation.

These amounts were recorded as expenses with personnel under the General and administrative expenses group of accounts (Note 23).

For the quarters ended June 30, 2017 and 2016, our Directors and Officers did not receive any pension, retirement or similar benefits.

28) SHARE-BASED PAYMENT PLANS

Telefónica, as the Company's parent company, has different share-based payment plans based on the share quotes, which were also offered to management and employees of its subsidiaries, including Telefônica Brasil and the latter's subsidiaries.

The fair value of these options is estimated on the grant date, based on a binomial pricing model reflecting terms and conditions of instruments granted.

Telefônica Brasil S. A.

NOTES TO THE QUARTERLY FINANCIAL STATEMENTS

Three and six-month period ended June 30, 2017

(In thousands of *Reais*, unless otherwise stated)

The Company and its subsidiaries reimburse Telefônica for the amount of the fair value of the benefits granted to management and employees on the grant date.

The main plans in force on June 30, 2017 and December 31, 2016 were: (i) Performance & Investment Plan ("PIP") to reward senior management's global commitment; (ii) Talent for the Future Share Plan ("TFSP") to reward the global commitment,; and (iii) Global Employee Share Plan ("GESP") for employees.

The details of these plans are the same as in Note 31) Share-Based Payment Plans, as disclosed in the financial statements for the year ended December 31, 2016.

At June 30, 2017, the share price of Telefônica shares was 9.0380 euros and the plans were positioned as follows:

Plans	Cycles	Number of shares (1)	Final Date
PIP	4th cycle - October 1, 2014	337,479	September 30, 2017
PIP	5th cycle - October 1, 2015	497,528	September 30, 2018
TFSP	1st cycle - October 1, 2014	55,500	September 30, 2017
TFSP	2nd cycle - October 1, 2015	86,000	September 30, 2018

(1) For the PIP, it includes the initial quantities and co-investment and for the TFSP only the initial quantities.

The expenses of the Company and its subsidiaries with the compensation plans based on actions described above, where applicable, are recorded as personnel expenses, divided between Cost of Services, Selling and General and Administrative Expenses (Note 23), corresponding to R\$8,057 and R\$7,639 for the quarters ended June 30, 2017 and 2016 respectively.

29) PENSION PLANS AND OTHER POST-EMPLOYMENT BENEFITS

The plans sponsored by the Company and related benefit types are as follows:

Plan	Type	Entity	Sponsor
PBS-A	Defined benefit (DB)	Sistel	Telefônica Brasil, jointly with other telecoms resulting from privatization of the Sistema Telebrás
PAMA / PCE	Defined benefit (DB)	Sistel	Telefônica Brasil, jointly with other telecoms resulting from privatization of the Sistema Telebrás
Healthcare - Law No. 9656/98	Defined benefit (DB)	Telefônica Brasil	Telefônica Brasil
CTB	Defined benefit (DB)	Telefônica Brasil	Telefônica Brasil
Telefônica BD	Defined benefit (DB)	VisãoPrev	Telefônica Brasil
PREV	Hybrid	VisãoPrev	Telefônica Brasil
VISÃO	Defined contribution (DC) / Hybrid	VisãoPrev	Telefônica Brasil, TData and TGLog

The details of these plans are the same as in Note 32) Pension Plans and Other Post-Employment Benefits, as disclosed in the financial statements for the year ended December 31, 2016, except for the plans Vivo Prev, Visão TGestiona and Visão Telefônica, as described below.

On December 9, 2016, Visão Prev obtained approvals from the National Supplementary Pension Authority ("PREVIC") for the incorporation of Vivo Prev and Visão TGestiona plans to the Visão Telefônica plan. In this way, as of January 1, 2017, all participants in Vivo Prev and Visão TGestiona plans became participants in the Visão Telefônica plan. This unification preserves all vested rights, and gives participants of the incorporated plans access to the benefits of the Visão Telefônica plan.

The main purpose of the mergers is to create greater synergy of the benefits offered to the participants, as well as to reduce administrative and operational costs of the plans, as well as to improve administrative efficiency.

Consolidated balances of both underfunded and surplus plans are shown below:

Of the surplus amounts shown in the table above, the Company recognized consolidated amounts of R\$9,240 and R\$8,838 at June 30, 2017 and December 31, 2016, respectively (Note 9).

30) FINANCIAL INSTRUMENTS AND RISK AND CAPITAL MANAGEMENT

a) Derivative transactions

The derivative financial instruments contracted by the Company are mainly intended to hedge against foreign exchange risk arising from assets and liabilities in foreign currency, risk of inflation on its debentures and leases indexed to the IPCA and against the risk of changes in TJLP of a portion of debt with BNDES. There are no derivative financial instruments for speculative purposes and possible currency risks are hedged.

Management understands that the Company's internal controls for its derivatives are adequate to control risks associated with each strategy for the market. Gains/losses obtained or sustained by the Company in relation to its derivatives show that its risk management has been appropriate.

The Company calculates the effectiveness of the derivative contracts to hedge its financial liabilities and cash flows in foreign currency at the beginning of the operation and on an ongoing basis. At June 30, 2017 and December 31, 2016, the derivative instruments were effective for the hedged items.

As long as these derivatives contracts qualify for hedge accounting, the hedged item may also be adjusted to fair value, offsetting the result of the derivatives, according to the rules of hedge accounting. This hedge accounting applies both to financial liabilities and probable cash flows in foreign currency.

At June 30, 2017 and December 31, 2016, the Company held no embedded derivatives contracts.

Derivatives contracts include specific penalties for breach of contract. Breach of contract provided for in agreements made with financial institutions leads to the early maturity thereof.

a.1) Fair value of derivative financial instruments

The valuation method used to calculate the fair value of financial liabilities (if applicable) and derivative financial instruments was the discounted cash flow method, based on expected settlements or realization of liabilities and assets at market rates prevailing at the balance sheet date.

The fair values of positions in Reais are calculated by projecting future inflows from transactions using B3 yield curves discounting these flows to present value using market DI rates for swaps announced by B3.

The market values of foreign-exchange derivatives were obtained using the market exchange rates in effect at the balance sheet date and projected market rates obtained from the currency's coupon-rate yield curves. The linear convention of 360 calendar days was used to determine coupon rates of positions indexed in foreign currencies, while the exponential convention of 252 business days was used to determine coupon rates for positions indexed to CDI rates.

Consolidated derivatives financial instruments shown below are registered with B3 and classified as swaps, usually, that do not require margin deposits.

(3) IPCA x CDI rate swaps (R\$39,461) - maturing through 2019 to hedge the same flow as the debentures (4th issue - 3rd series) indexed to the IPCA (carrying amount R\$39,548).

(4) TJLP x CDI swaps (R\$518,895) - maturing through 2019 to hedge the risk of TJLP variation on loan with BNDES (carrying amount R\$574,922).

(5) IPCA x CDI swaps (R\$231,431) - maturing in 2033 to hedge risk of change in finance lease rate pegged to IPCA (carrying amount R\$233,676).

(6) IGPM x CDI swaps (R\$40,547) - maturing 2016 through 2018 to hedge IGP-DI variation risk affecting regulatory commitments related to 4G license.

(7) Options US\$ - term transactions and options contracted with the purpose of protecting the US\$ exposure of service contracts.

The table below shows the breakdown of swaps maturing after June 30, 2017:

Swap contract	2018	Company/Consolidated	
		2019	2020
		Maturing in	

				2021 onwards	Amount receivable (payable) at 06/30/17

Total	(61,073)	79,324	54,103	4,844	77,198

For the purposes of preparing its financial statements, the Company adopted the fair value hedge accounting methodology for its foreign currency swaps x CDI, IPCA x CDI, IGPM x CDI and TJLP x CDI for hedging or financial debt. Under this arrangement, both derivatives and hedged risk are recognized at fair value.

The ineffective portion at June 30, 2017 was R\$317 (R\$2,091 at December 31, 2016).

At June 30, 2017 and 2016, the transactions with derivatives generated consolidated negative (net) result of R\$37,232 and R\$302,745, respectively (Note 25).

a.2) Sensitivity analysis to the Company's risk variables

CVM Resolution 604/09 requires listed companies to comply with CPC 40 Financial Instruments: Disclosures (IFRS 7) by disclosing sensitivity analyses for each type of market risk that management understands to be significant when originated by financial instruments to which the entity is exposed at the end of each period, including all derivatives financial instrument transactions.

In making the above analysis, each of the transactions with derivative financial instruments was assessed and assumptions included a probable scenario and two others that could adversely impact the Company.

In the probable scenario the assumption is to use, on the maturity dates of each of the transactions, what the market had been showing through B3 yield curves (currencies and interest rates), as well as data available at IBGE, Central Bank, FGV, among others. In the probable scenario, there is no impact on the fair value of the above-mentioned derivatives. However, for scenarios II and III, as per CVM ruling, risk variables were considered to deteriorate by 25% and 50% respectively.

Since the Company only holds derivatives to hedge its foreign-currency assets and liabilities, changing scenarios are tracked by the corresponding hedged items, thus showing that effects are almost non-existent. For these transactions, the Company reported the consolidated net exposure in each of the above-mentioned three scenarios at June 30, 2017.

NOTES TO THE QUARTERLY FINANCIAL STATEMENTS

Three and six-month period ended June 30, 2017

(In thousands of *Reais*, unless otherwise stated)

The assumptions used by the Company for the sensitivity analysis at June 30, 2017 were as follows:

Sensitivity analysis assumptions

<u>Risk Variable</u>	Probable	25% depreciation	50% depreciation
US\$	3.3082	4.1353	4.9623
EUR	3.7728	4.7160	5.6593
JPY	0.0294	0.0368	0.0442
IPCA	2.96%	3.70%	4.44%
IGPM	-0.78%	-0.97%	-1.17%
IGP-DI	-1.22%	-1.53%	-1.83%
UMBND	0.0643	0.0804	0.0965
URTJLP	2.0216	2.5270	3.0324
CDI	10.14%	12.68%	15.21%

For calculation of the net exposure for the sensitivity analysis, all derivatives were considered at market value and hedged items designated for hedge accounting purposes were also considered at fair value.

The fair values shown in the table above are based on the portfolio position at June 30, 2017, but do not reflect an estimate for realization due to the dynamism of the market, which is constantly monitored by the Company. The use of different assumptions could significantly affect the estimates.

b) Fair value

The Company and its subsidiaries assessed their financial assets and liabilities in relation to market values using available information and appropriate valuation methodologies. However, both the interpretation of market data and the selection of valuation methods require considerable judgment and reasonable estimates to produce the most adequate realization value. As a result, the estimates shown do not necessarily indicate amounts that could be realized in the current market. The use of different assumptions for the market and/or methodologies may have a material effect on estimated realization values. At June 30, 2017 and December 31, 2016, neither the Company nor its subsidiaries detected any significant and enduring impairment of their financial instruments.

The fair value of all assets and liabilities are classified within the fair value hierarchy described below, based on the level of information that is significant to the fair value measurement as a whole:

Level 1: quoted market prices (unadjusted) in active markets for identical assets or liabilities;

Level 2: valuation techniques where the significant lowest level of information available to measure the fair value is directly or indirectly observable; and

Level 3: valuation techniques where the lowest and significant level of information to measure the fair value is not available.

The following tables show the composition of financial assets and liabilities at June 30, 2017 and December 31, 2016. During the periods shown in the tables below, there were no transfers between fair value measurements of level 3 and level 1 and 2.

c) Capital management

The purpose of the Company's capital management is to ensure maintenance of a high credit rating with institutions and an optimal capital ratio in order to support the Company's business and maximize shareholder value.

The Company manages its capital structure by making adjustments and adapting to current economic conditions. For this purpose, the Company may pay dividends, raise new loans, issue debentures and contract derivatives. For the quarter ended June 30, 2017, there were no changes in capital structure objectives, policies or processes.

In its net debt structure, the Company includes balances referring to loans, financing, debentures, finance leasing, contingent consideration and transactions with derivatives, less cash and cash equivalents and short-term investments to secure BNB financing.

(In thousands of *Reais*, unless otherwise stated)

The Company's ratio of consolidated debt to shareholders' equity consists of the following:

	Consolidated	
	06.30.17	12.31.16
Cash and cash equivalents	7,447,061	5,105,110
Loans, financing, debentures, financial lease and contingent consideration	(10,422,016)	(9,224,074)
Derivative transactions, net	77,198	28,377
Short-term investment pledged as collateral	11,376	10,773
Net debt	2,886,381	4,079,814
Net equity	68,657,360	69,244,419
Net debt-to-equity ratio	4.20%	5.89%

d) Risk management policy

The Company and its subsidiaries are exposed to several market risks as a result of its commercial operations, debts contracted to finance its activities and debt-related financial instruments.

d.1) Currency Risk

This is risk arising from the possibility that the Company may incur losses due to fluctuating exchange rates, which increase the costs arising from loans denominated in foreign currencies.

At June 30, 2017, 8.7% of financial debt was foreign-currency denominated (14.0% at December 31, 2016). The Company enters into derivative transactions (currency hedge) with financial institutions to hedge against exchange rate variation affecting its total indebtedness in foreign currency (R\$909,729 and R\$1,287,864 at June 30, 2017 and December 31, 2016, respectively). Its total debt on these dates was covered by asset positions in currency-exchange hedge transactions with CDI-rate swaps.

There is also foreign exchange risk for non-financial assets and liabilities denominated in foreign currencies, which may generate a smaller amount receivable or larger amount payable depending on the exchange rate in the period.

Hedging transactions were contracted to minimize the risks associated with exchange-rate variation of non-financial assets and liabilities in foreign currencies. This balance is subject to daily changes due to the dynamics of the business. However, the Company intends to cover the net balance of these rights and obligations (US\$16,955 thousand receivable and €18,882 thousand payable at June 30, 2017 and US\$17,293 thousand and €5,695 thousand payable at December 31, 2016) to mitigate its foreign exchange risks.

d.2) Interest and Inflation Risk

This risk arises because the Company may incur losses in the event of an unfavorable change in the domestic interest rate, which may adversely affect financial expenses resulting from the portion of debentures referenced to the CDI and liability positions in derivatives (currency hedge, IPCA and TJLP) pegged to floating interest rates (CDI).

The debt with BNDES is indexed to the Long-Term Interest Rate (TJLP) which is set on a quarterly basis by the National Monetary Council. During the year 2016 and for the quarter ended March 30, 2017, the TJLP was 7.5%. In the second quarter of 2017, the TJLP was 7.0%.

Inflation risk arises from the Minas Comunica debentures of the 1st issue, which are tied to the IPCA and thus may adversely affect financial expenses in the event of an unfavorable change in this index.

To reduce exposure to the variable interest rate (CDI), the Company and its subsidiaries invested their cash equivalents of R\$7,375,219 at June 30, 2017 (R\$4,906,741 at December 31, 2016), mostly in short-term CDI-based financial investments (Bank Deposit Certificates). The carrying amounts of these instruments approximate their fair values, since they may be redeemed in the short term.

d.3) Liquidity Risk

Liquidity risk is the possibility of the Company or its subsidiaries not holding sufficient funds to meet their commitments due to different currencies and dates of realization of rights and settlement of obligations.

The Company and its subsidiaries structure the maturity dates of non-derivative financial contracts, as shown in Note 19, and their respective derivatives, as shown in the schedule of payments disclosed in this note, to avoid affecting their liquidity.

The Company's cash flow and liquidity and those of its subsidiaries are managed on a daily basis by the departments in charge of ensuring that operating cash flows and prior funding, when necessary, will be sufficient to meet their schedule of commitments in order to avoid liquidity risk.

Below, we summarize the maturity profile of our consolidated financial liabilities as set forth in the related agreements:

	Less than one year	From 1 to 2 years	From 2 to 5 years	Over 5 years	Total
At 06.30.17					
Trade accounts payable (Note 14)	7,107,223	-	-	-	7,107,223
	2,053,066	1,024,355	989,782	301,374	4,368,577

Loans, financing and finance lease (Note 19)					
Contingent consideration (Note 19)	-	-	-	432,908	432,908
Debentures (Note 19)	3,487,108	57,514	2,075,909	-	5,620,531
Derivative transactions (Note 30)	107,026	694	2	1,456	109,178
Total	12,754,423	1,082,563	3,065,693	735,738	17,638,417

	Less than one year	From 1 to 2 years	From 2 to 5 years	Over 5 years	Total
At 12.31.16					
Trade accounts payable (Note 14)	7,611,246	-	-	71,907	7,683,153
Loans, financing and finance lease (Note 19)	2,542,975	1,129,939	1,326,269	255,851	5,255,034
Contingent consideration (Note 19)	-	-	-	414,733	414,733
Debentures (Note 19)	2,120,504	1,355,683	78,120	-	3,554,307
Derivative transactions (Note 30)	183,212	1,185	97	122	184,616
Total	12,457,937	2,486,807	1,404,486	742,613	17,091,843

d.4) Credit Risk

The risk arises from the possibility of the Company and its subsidiaries incurring losses due to difficulty in receiving amounts billed to their customers and sales of prepaid handsets and cards that have been pre-activated for the distribution network.

The credit risk on accounts receivable is diversified and mitigated by strict control of the customer base. The Company constantly monitors the level of accounts receivable from postpaid services, and limits bad-debt risk by cutting off access to telephone lines if bills are past due. The mobile customer base predominantly uses the prepaid system, which requires purchase of credits beforehand and therefore does not pose credit risk. Exceptions are made for telecommunications services that must be maintained for security or national defense reasons.

Credit risk on sales of pre-activated prepaid handsets and cards is managed by a conservative policy for granting credit, using modern credit scoring methods, analyzing financial statements and consultations to commercial databases, in addition to requesting guarantees.

The Company and its subsidiaries are also subject to credit risk arising from their investments, letters of guarantee received as collateral for certain transactions and receivables from derivative transactions. The Company and its subsidiaries control the credit limits granted to each counterparty and diversify this exposure across first tier financial institutions in accordance with the current credit policies of financial counterparties.

d.5) Social and Environmental Risks

Our operations and properties are subject to various environmental laws and regulations that, among others, govern environmental licenses and records, protection of fauna and flora, air emissions, waste management and remediation of contaminated sites. If we fail to meet present and future requirements, or to identify and manage new or existing contamination, we will incur significant costs, which include clean-up costs, damages, compensation, fines, activities suspension and other penalties, investments to improve our facilities or change our processes, or interruption of operations. The identification of environmental conditions not currently known, more stringent inspections by regulatory agencies, the entry into force of more stringent laws and regulations or other unanticipated events may occur and, ultimately, result in significant environmental liabilities and their costs. The occurrence of any of the above factors could have a material adverse effect on our business, results of operations and financial position. According to Article 75 of Law No. 9,605 of 1998, the maximum fine per breach of environmental law is R\$50,000,000 (fifty million reais).

From the social point of view, we are exposed to contingent liabilities due to the fact that our structure provides for the hiring of outsourced service providers. These potential liabilities may involve labor claims by service providers which are treated as direct employees and claim joint liability resulting from overtime and occupational accidents. If we obtain unfavorable decisions with respect to a significant portion of these contingencies and if we have not recognized a provision for these risks, our financial position and results of operations may be adversely affected. In addition, if the labor authorities consider that outsourcing services involves core activities of the Company, this may be considered an employment relationship, which would significantly increase our costs and therefore subject the Company administrative and judicial proceedings and payment of fines to third parties.

d.6) Insurance Coverage

The policy of the Company and its subsidiaries, as well as the Telefónica Group, includes contracting insurance coverage for all assets and liabilities involving significant and high-risk amounts, based on management's judgment and following Telefónica corporate program guidelines.

At June 30, 2017, maximum limits of claims (established pursuant to the agreements of each entity consolidated by the Company) for significant assets, liabilities or interests covered by insurance and their respective amounts were R\$1,033,944 for operational risks (with loss of profit) and R\$75,000 for general civil liability.

d.7) Other Risks

The Company is required to comply with Brazilian anti-corruption laws and regulations, as well as laws and regulations on the same subject in jurisdictions where it has its securities traded. In particular, the Company is subject, in Brazil, to the Law no. 12846 and, in the United States, to the U.S. Foreign Corrupt Practices Act of 1977.

Although the Company has internal policies and procedures designed to ensure compliance with the aforementioned anti-corruption laws and regulations, there can be no assurance that such policies and procedures will be sufficient or that the Company's employees, directors, officers, partners, agents and service providers will not take actions in violation of the Company's policies and procedures (or otherwise in violation of the relevant anti-corruption laws and regulations) for which the Company or they may be ultimately held responsible. Violations of anti-corruption laws and regulations could lead to financial penalties, damage to the Company's reputation or other legal consequences that could have a material adverse effect on the Company's business, results of operations and financial condition.

In connection with the above-mentioned policies, the Company is currently conducting an internal investigation - which is part of a broader investigation being conducted by the controlling shareholder of the Company (Telefónica, S.A.) - regarding possible violations of the abovementioned laws and regulations. The Company is in contact with governmental authorities about this matter and intends to cooperate with those authorities as the investigation continues. It is not possible at this time to predict the scope or duration of this matter or its likely outcome.

31) COMMITMENTS AND GUARANTEES (RENTALS)

The Company and its subsidiaries lease equipment, facilities, and several stores, administrative buildings, and sites (containing radio-base stations and towers), through various non-cancellable operating agreements maturing on different dates, with monthly payments.

At June 30, 2017, the total amounts corresponding to the full period of the contracts were as follows:

	Company	Consolidated
Up to 1 year	2,172,009	2,172,583
From 1 to 5 years	7,457,224	7,459,936
Over five years	5,882,429	5,882,816
Total	15,511,662	15,515,335

32) ADDITIONAL INFORMATION ON CASH FLOWS

The main financing transactions that do not involve cash of the Company refer to the acquisition of assets through finance leases. At June 30, 2017 and 2016, these transactions totaled R\$5,190 and R\$2,675, respectively.

33) SUBSEQUENT EVENTS

Acquisition of Terra Networks by Wholly-Owned Subsidiary

On July 3, 2017, the Company informed that its wholly-owned subsidiary Telefônica Data S.A. ("TData") has acquired all the shares representing the capital stock of Terra Networks Brasil S.A. ("Terra Networks"), owned by SP Telecomunicações Participações S.A. ("SPTE"), one of the controlling shareholders of the Company ("Transaction").

Terra Networks is a provider of digital services (own and third-party value-added services ("VAS") and carrier billing, as well as mobile channels for sales and relationships) and advertising.

TData is a company dedicated to the exploration of VAS, as well as integrated business solutions in telecommunications, technical assistance of telecommunications equipment and networks, maintenance of equipment and networks and development of projects.

The purpose of the Transaction is to expand and integrate the commercial offer of digital services that can add immediate value to the customer base of TData and of the Company; as well as generating TData service offers to Terra Networks' customer base and subscribers and, thanks to the national presence of Terra Networks' operation and expertise, generate leverage for TData advertising business. In addition, since the Company has the skills to create new digital media products for mobile and advertising and Terra Networks has know-how in selling, attending and operating digital services for specific customers, the acquisition by TData will also facilitate the exchange of know-how between the companies involved, in addition to maximize the unification of the commercial conditions maintained with suppliers of both TData and Terra Networks, as well as with common suppliers.

The total price paid by TData as consideration for the acquisition of shares issued by Terra Networks was R\$ 250,000, in a single installment, with no need for any financing, using only the cash available of TData. Such value was calculated based on the economic value of the company, according to the discounted cash flow criterion, based on an appraisal report contracted by TData Board of Directors.

The Transaction is subject to conditions usually applicable to this type of deal, and was preceded by a legal and financial audit in relation to Terra Networks and valuation by an independent company. In addition, the respective sale and purchase agreement contains terms and provisions common to this type of transaction.

The Transaction is not subject to obtaining any regulatory authorizations or approvals by the Company's regulators and the way it was structured does not change the Company's shareholding structure or cause

any dilution to its shareholders, generating value to them through accelerated growth of digital services and increased operational efficiency. There are no significant costs related to the Transaction.
