NARRATIVE

State below in reasonable detail why Forms 10-K, 20-F, 11-K, 10-Q, 10-D, N-SAR, N-CSR, or the transition report or portion thereof, could not be filed within the prescribed time period.

Guaranty Financial Group Inc. (the "Company") is filing this Notification of Late Filing on Form 12b-25 with respect to the Company's Quarterly Report on Form 10-Q for the quarter ended March 31, 2009 (the "First Quarter 2009 Form 10-Q"). The Company is unable, without unreasonable effort and expense, to timely file the First Quarter 2009 Form 10-Q because the Company has not completed its financial statements for the fiscal year ended December 31, 2008 or the quarter ended March 31, 2009. The Company is continuing to analyze and to discuss with its independent registered public accountants the appropriate valuation for balance sheet purposes of its mortgage-backed securities portfolio, including the extent of other-than-temporary impairment of this portfolio. The outcome of this analysis could affect, among other things, the adequacy of the Company's capital and the extent to which additional capital will be appropriate. The Company is in discussions with its board of directors and principal stockholders, as well as with government authorities, concerning raising substantial additional equity capital which, if completed, would result in significant dilution for the current common stockholders. No agreements have been reached with respect to this capital infusion. As previously disclosed in the Current Report on Form 8-K filed by the Company on April 6, 2009 (the "Current Report"), the Company and its wholly-owned subsidiary, Guaranty Bank (the "Bank") each consented to the issuance of an Order to Cease and Desist (the "Company Order" and the "Bank Order," respectively, and together, the "Orders") by the Office of Thrift Supervision (the "OTS"), which Order places material restrictions on the operations of the Bank and the Company, including the requirement that the Bank meet and maintain both a core capital ratio equal to or greater than 8.0 percent and a total risk-based capital ratio equal to or greater than 11.0 percent by May 21, 2009. Please see the Current Report for a more detailed description of the terms of the Orders. If by May 21, 2009 the Bank does not meet the required capital ratios set forth in the Orders, either through a successful capital raise or otherwise, the Company and the Bank shall adopt plans detailing the actions to be taken to merge with or be acquired by another federally insured depository institution, or voluntarily liquidate by filing an appropriate application with the OTS.

The OTS may grant extensions to the timelines established by the Orders.

All customer deposits remain fully insured to the highest limits set by the FDIC.

(2) Have all other periodic reports required under Section 13 or 15(d) of the Securities Exchange Act of 1934 or Section 30 of the Investment Company Act of 1940 during the preceding 12 months or for such shorter period that the registrant was required to file such report(s) been filed? If the answer is no, identify report(s).

Yes No

We have not filed our 2008 Form 10-K.

(3) Is it anticipated that any significant change in results of operations from the corresponding period for the last fiscal year will be reflected by the earnings statements to be included in the subject report or portion thereof?

Yes No

The Company's preliminary financial statements reflect a loss of approximately \$256 million, or a loss of \$2.38 per diluted share, for the quarter ended March 31, 2009, compared to a loss of \$10 million, or \$0.28 per diluted share, for the quarter ended March 31, 2008. Depending on the outcome of the Company's continuing review of the appropriate valuation for balance sheet purposes of its mortgage-backed securities portfolio, including the extent of other-than-temporary impairment of this portfolio, the loss actually reported by the Company could be higher.

The financial data as of and for the period ended March 31, 2009 set forth above, including the valuation of our mortgage-backed securities portfolio and the evaluation of any other-than-temporary impairment of that value, is preliminary. In addition, the financial data has been prepared based on the assumption that the Company will continue as a going concern, about which there is substantial doubt because of, among other things, the Orders requiring us to increase our capital ratios by May 21, 2009. Efforts to raise capital are in progress. If we are not able to assert an intent and ability to hold our mortgage-backed securities portfolio until maturity, we would be required, at a minimum, to reduce the book value of those assets to their estimated fair value, which would result in a reduction of our capital ratios to levels where we would be considered critically under-capitalized. Even on a going concern basis, there is considerable uncertainty regarding the proper amount of other-than-temporary impairment for our mortgage-backed securities portfolio, and it is likely that the resolution of this uncertainty will result in a decrease in our capital ratios.

(formerly Forestar Real Estate Group Inc.); the ability to maintain capital ratios acceptable to the Office of Thrift Supervision; and changes in the value of real estate securing our loans.
