NOTES TO CONSOLIDATED INTERIM FINANCIAL STATEMENTS

(UNAUDITED)

SEPTEMBER 30, 2014

Note 1 Interim Reporting

While the information presented in the accompanying interim nine months consolidated financial statements is unaudited, it includes all adjustments, which are, in the opinion of management, necessary to present fairly the financial position, results of operations and cash flows for the interim periods presented in accordance with accounting principles generally accepted in the United States of America. These interim financial statements follow the same accounting policies and methods of their application as the Company's December 31, 2013 annual consolidated financial statements. All adjustments are of a normal recurring nature. It is suggested that these interim financial statements be read in conjunction with the Company's December 31, 2013 annual financial statements. Operating results for the nine months ended September 30, 2014 are not necessarily indicative of the results that can be expected for the year ended December 31, 2014.

Note 2 Nature and Continuance of Operations

The Company was incorporated on June 15, 1998 in the State of Nevada, USA and the Company's common shares are publicly traded on the OTC Bulletin Board.

Up until fiscal 2014, the Company was in the business of mineral exploration. On May 28, 2014, the Company formalized an agreement whereby it purchased assets associated with a smokeless cannabis delivery system. The Company plans to develop this system for commercial purposes.

These consolidated interim financial statements have been prepared in accordance with generally accepted accounting principles applicable to a going concern, which assumes that the Company will be able to meet its obligations and continue its operations for its next twelve months. Realization values may be substantially different from carrying values as shown and these financial statements do not give effect to adjustments that would be necessary to the carrying values and classification of assets and liabilities should the Company be unable to continue as a going concern. At September 30, 2014, the Company had not yet achieved profitable operations, has accumulated losses of \$416,701 since its inception and expects to incur further losses in the development of its business, all of which casts

substantial doubt about the Company's ability to continue as a going concern. The Company's ability to continue as a going concern is dependent upon its ability to generate future profitable operations and/or to obtain the necessary financing to meet its obligations and repay its liabilities arising from normal business operations when they come due. Management has no formal plan in place to address this concern but considers that the Company will be able to obtain additional funds by equity financing and/or related party advances, however there is no assurance of additional funding being available.

Note 3 Summary of Significant Accounting Policies

a) Year end

The Company has elected a December 31 st fiscal year end.

b) Cash and cash equivalents

The Company considers all highly liquid instruments with a maturity of three months or less at the time of issuance to be cash equivalents. As at September 30, 2014, the Company did not have any cash equivalents (2013 – \$nil), and \$0 was deposited in accounts that were federally insured (2013 - \$0).

MADISON EXPLORATIONS, INC.

(An Exploration Stage Enterprise)

NOTES TO CONSOLIDATED INTERIM FINANCIAL STATEMENTS

(UNAUDITED)

SEPTEMBER 30, 2014

Note 3 Summary of Significant Accounting Policies - continued

c)Revenue Recognition

The Company recognizes revenue when a contract is in place, minerals are delivered to the purchaser and collectability is reasonably assured.

d)Stock-Based Compensation

The Company follows the guideline under FASB ASC Topic 718 "*Compensation-Stock Compensation*" for all stock based compensation plans, including employee stock options, restricted stock, employee stock purchase plans and stock appreciation rights. Stock compensation expenses are to be recorded using the fair value method.

e)Basic and Diluted Net Income (Loss) per Share

The Company reports basic loss per share in accordance FASB ASC Topic 260, "*Earnings per share*". Basic net income (loss) per share is computed by dividing net income (loss) available to common stockholders by the weighted average number of common shares outstanding during the period. Diluted net income (loss) per share on the potential exercise of the equity-based financial instruments is not presented where anti-dilutive.

f)Comprehensive Income

In accordance with FASB ASC Topic 220 "*Comprehensive Income*," comprehensive income consists of net income and other gains and losses affecting stockholder's equity that are excluded from net income, such as unrealized gains and losses on investments available for sale, foreign currency translation gains and losses and minimum pension liability.

g) Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying disclosures. Although these estimates are based on management's best knowledge of current events and actions the Company may undertake in the future, actual results may ultimately differ from the estimates. Management believes such estimates to be reasonable.

F-8

MADISON EXPLORATIONS, INC.

(An Exploration Stage Enterprise)

NOTES TO CONSOLIDATED INTERIM FINANCIAL STATEMENTS

(UNAUDITED)

SEPTEMBER 30, 2014

Note 3 Summary of Significant Accounting Policies - continued

h) Fair Value Measurements

The Company follows FASB ASC 820, “*Fair Value Measurements and Disclosures*”, for all financial instruments and non-financial instruments accounted for at fair value on a recurring basis. This new accounting standard establishes a single definition of fair value and a framework for measuring fair value, sets out a fair value hierarchy to be used to classify the source of information used in fair value measurement and expands disclosures about fair value measurements required under other accounting pronouncements. It does not change existing guidance as to whether or not an instrument is carried at fair value. The Company defines fair value as the price that would be received from selling an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. When determining the fair value measurements for assets and liabilities, which are required to be recorded at fair value, the Company considers the principal or most advantageous market in which the Company would transact and the market-based risk measurements or assumptions that market participants would use in pricing the asset or liability, such as inherent risk, transfer restrictions and credit risk. The Company has adopted FASB ASC 825, “*Financial Instruments*”, which allows companies to choose to measure eligible financial instruments and certain other items at fair value that are not required to be measured at fair value. The Company has not elected the fair value option for any eligible financial instruments.

i) Financial Instruments

Fair Value

The fair value of the convertible notes payable is based on their beneficial conversion feature at the time of commitment, which requires allocation of the instrument between the host debt and the embedded equity component. Based on the intrinsic value of the conversion feature, the total value of the instruments was allocated to the equity component and included in additional paid-in capital. The balance of nil was allocated to the host debt.

The resulting discounts are being amortized to income over 60 months.

The fair value of the technology received and the shares issued has been determined in accordance with FASB ASC Topic 845 "*Nonmonetary Transactions*". The basis for the value of the transaction is the determination of the value of shares issued as this is more clearly evident than the value of the technology. The share value of \$.01, \$.005, and \$.045 per share has been used for the last 6 years for the convertible debt issued.

Risks:

Financial instruments that potentially subject the Company to credit risk consist principally of cash. Management does not believe the Company is exposed to significant credit risk.

Management, as well, does not believe the Company is exposed to significant interest rate risks during the Period presented in these financial statements.

The accompanying financial statements do not include any adjustments that might result from the eventual outcome of the risks and uncertainties described above.

MADISON EXPLORATIONS, INC.

(An Exploration Stage Enterprise)

NOTES TO CONSOLIDATED INTERIM FINANCIAL STATEMENTS

(UNAUDITED)

SEPTEMBER 30, 2014

Note 3 Summary of Significant Accounting Policies - continued

j) Income Taxes

The Company accounts for income taxes under an asset and liability approach that requires the recognition of deferred tax assets and liabilities for the expected future tax consequences of events that have been recognized in the Company's financial statements or tax returns. In estimating future tax consequences, all expected future events other than enactment of changes in the tax laws or rates are considered.

Due to the uncertainty regarding the Company's future profitability, the future tax benefits of its losses have been fully reserved.

k) Impairment of Long-Lived Assets

Impairment losses on long-lived assets, such as technology assets, are recognized when events or changes in circumstances indicate that the undiscounted cash flows estimated to be generated by such assets are less than their carrying value and, accordingly, all or a portion of such carrying value may not be recoverable. Impairment losses are then measured by comparing the fair value of assets to their carrying amounts.

l) Foreign Currency Translation and Transactions

The Company's functional currency is US dollars. Foreign currency balances are translated into US dollars as follows:

Monetary assets and liabilities are translated at the period-end exchange rate. Non-monetary assets are translated at the rate of exchange in effect at their acquisition, unless such assets are carried at market or nominal value, in which case they are translated at the period-end exchange rate. Revenue and expense items are translated at the average exchange rate for the period. Foreign exchange gains and losses in the period are included in operations

The functional currency of the wholly owned subsidiary is Canadian dollars. The assets and liabilities arising from these operations are translated at current exchange rates and related revenues and expenses at the exchange rates in effect at the time the revenue or expense is incurred. Resulting translation adjustments, if material, are accumulated as a separate component of accumulated other comprehensive income in the statement of stockholders' deficiency while foreign currency transaction gains and losses are included in operations.

m)Technology assets

Technology assets are capitalized in accordance with ASC Topic 350-40 "Intangibles – Goodwill and Other." The assets will be amortized, based on their estimated useful life once the assets are put into use.

MADISON EXPLORATIONS, INC.

(An Exploration Stage Enterprise)

NOTES TO CONSOLIDATED INTERIM FINANCIAL STATEMENTS

(UNAUDITED)

SEPTEMBER 30, 2014

Note 3 Summary of Significant Accounting Policies - continued

n) Consolidation

The consolidated financial statements include the accounts of the Company and its subsidiary, Scout Resources Inc. All significant inter-company balances and transactions have been eliminated.

o) Derivative Instruments

The Financial Accounting Standards Board issued Statement of Financial Accounting Standards (“SFAS”) No. 133, “Accounting for Derivative Instruments and Hedging Activities,” as amended by SFAS No. 137, “Accounting for Derivative Instruments and Hedging Activities – Deferral of the Effective Date of FASB No. 133”, SFAS No. 138, “Accounting for Certain Derivative Instruments and Certain Hedging Activities”, and SFAS No. 149, “Amendment of Statement 133 on Derivative Instruments and Hedging Activities”, which is effective for the Company as of its inception. These statements establish accounting and reporting standards for derivative instruments, including certain derivative instruments embedded in other contracts, and for hedging activities. They require that an entity recognize all derivatives as either assets or liabilities in the balance sheet and measure those instruments at fair value.

If certain conditions are met, a derivative may be specifically designated as a hedge, the objective of which is to match the timing of gain or loss recognition on the hedging derivative with the recognition of (i) the changes in the fair value of the hedged asset or liability that are attributable to the hedged risk or (ii) the earnings effect of the hedged forecasted transaction. For a derivative not designated as a hedging instrument, the gain or loss is recognized in income in the period of change. The Company has not entered into derivative contracts to hedge existing risks or for speculative purposes.

p) Recent Accounting Pronouncements

In June 2014, the Financial Accounting Standards Board (“FASB”) issued Accounting Standards Update (“ASU”) No. 2014-10, “Development Stage Entities (Topic 915), Elimination of Certain Financial Reporting Requirements, Including an Amendment to Variable Interest Entities Guidance in Topic 810, “Consolidation” (“ASU 2014-10”). The amendments in ASU 2014-10 remove the definition of a development stage entity from the Master Glossary of the Accounting Standards Codification, thereby removing the financial reporting distinction between development stage entities and other reporting entities from accounting principles generally accepted in the United States of America (“U.S. GAAP”). In addition, the amendments eliminate the requirements for development stage entities to: (i) present inception-to-date information in the statements of income, cash flows, and shareholder equity; (ii) label the financial statements as those of a development stage entity; (iii) disclose a description of the development stage activities in which the entity is engaged; and (iv) disclose in the first year in which the entity is no longer a development stage entity that in prior years it had been in the development stage. The presentation and disclosure requirements in ASC Topic 915, “Development Stage Entities” are no longer required for interim and annual reporting periods beginning after December 15, 2014. The revised consolidation standards will take effect in annual periods beginning after December 15, 2015, however, early adoption is permitted. The Company has elected not to early adopt the provisions of ASU 2014-10 for these financial statements.

SEPTEMBER 30, 2014

Note 7 Common Stock

On June 15, 1998 the Company authorized and issued 53,750,000 shares of its common stock in consideration of \$430 in cash. (\$.000008 per share.)

On June 7, 2004 the Company issued 59,070,000 shares in consideration of \$472 in cash. (\$.000008 per share.)

On June 14, 2001 the Company approved a forward stock split of 5,000:1. These financial statements have been retroactively adjusted to effect this split.

On March 30, 2006 the Company entered into a private placement agreement whereby the Company issued 200,000 Regulation-S shares in exchange for \$50,000. (\$.25 per share)

On May 28, 2014 the Company authorized for issue 5,000,000 restricted shares for the technology assets known as “CannaStrips.” The shares have not yet been issued as the Company is awaiting regularly approval.

There are no shares subject to warrants, options or other agreements as September 30, 2014.

Note 8 Convertible Note Payable

There are four convertible notes payable which are non-interest bearing, unsecured and payable on demand. At any time prior to repayment any portion or the entire note may be converted into common stock at the discretion of the

holder on the basis of \$0.01 of debt to 1 share. The effect that conversion would have on earnings per share has not been disclosed due to the current anti-dilutive effect.

The balance of the first convertible note payable is as follows:

	Sept 30, 2014	Dec 31, 2013
Balance		
Proceeds from promissory note	\$40,000	\$40,000
Value allocated to additional paid-in capital	40,000	40,000
Balance allocated to convertible note payable	-	-
Amortized discount	40,000	40,000
Balance, convertible note payable	\$40,000	\$40,000

The total discount of \$40,000 was amortized over 5 years starting April, 2008.

F-17

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operation.

The following discussion of Madison's financial condition, changes in financial condition and results of operations for the three months ended September 30, 2014 should be read in conjunction with Madison's unaudited consolidated financial statements and related notes for the three months ended September 30, 2014.

Forward Looking Statements

This quarterly report on Form 10-Q contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. These forward-looking statements involve risks and uncertainties, including statements regarding Madison's capital needs, business plans and expectations. Such forward-looking statements involve risks and uncertainties regarding Madison's ability to carry out its planned exploration programs on its mineral properties. Forward-looking statements are made, without limitation, in relation to Madison's operating plans, Madison's liquidity and financial condition, availability of funds, operating and exploration costs and the market in which Madison competes. Any statements contained herein that are not statements of historical facts may be deemed to be forward-looking statements. In some cases, you can identify forward-looking statements by terminology such as "may", "will", "should", "expect", "plan", "intend", "anticipate", "estimate", "predict", "potential" or "continue", the negative of such terms or other comparable terminology. Actual events or results may differ materially. In evaluating these statements, you should consider various factors, including the risks outlined below, and, from time to time, in other reports Madison files with the SEC. These factors may cause Madison's actual results to differ materially from any forward-looking statement. Madison disclaims any obligation to publicly update these statements, or disclose any difference between its actual results and those reflected in these statements. The information constitutes forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. Given these uncertainties, readers are cautioned not to place undue reliance on such forward-looking statements.

Plan of Operation

Madison was engaged in the business of diamond exploration in the Southern area of the Province of Saskatchewan, Canada. During the 2008 financial year, with the exception of two, all Madison's mineral claims expired. The two remaining claims expired on March 12, 2009.

On April 17, 2014 Madison entered into a letter of intent for the acquisition of all of the rights, title and interest in a cannabis delivery technology known as 'CannaStrips' (the Technology), including all intellectual property, equipment, and technology used in and related to the Technology, and including any related technology or related applications to

be developed. Madison has 30 days to complete its due diligence on the Technology. During that time period, Madison will have the exclusive right to acquire the Technology on certain terms and conditions, including, among others, US\$50,000 payable in 5 million restricted common shares of Madison explorations inc. at a deemed price of \$0.01 per share.

On May 28, 2014 the Board of Directors of Madison approved the asset purchase of the CannaStrips technology and gave approval to formally authorize the Company to close the CannaStrips Asset Purchase and acquire the CannaStrips technology and related intellectual property. The transaction formally closed on May 28, 2014. At Closing the Board authorized the issuance of 5,000,000 shares of unregistered restricted Common Stock to Brent Inzer, but at the date of this filing those shares have not yet been issued.

Madison has minimal finances and accordingly there is no assurance that it will be able to acquire an interest in any new technologies. Management anticipates that Madison will have to complete additional financings in connection with the acquisition of any interest in a new technology. Currently, Madison has no arrangements for any financing required to fund its continued operations or the acquisition of any interest in a new cannabis based technology.

Further, even if Madison is able to acquire an interest in a cannabis based technology, there is no assurance that it will be able to raise the financing necessary to complete the development of any new cannabis based technologies to a commercially viable state. Based on Madison's financial position, there is no assurance that Madison will be able to continue its business operations.

Madison's viability and potential success lie in its ability to acquire, exploit, develop and generate revenue from future cannabis based technology acquisitions. There can be no assurance that such revenues will be obtained. The development of cannabis based technologies involves significant financial and regulatory risks over a long period of time, which, even with a combination of careful evaluations, experience and knowledge, may not be eliminated. It is impossible to ensure that proposed technology developments will be successful. The inability of Madison to locate acquire and develop any new cannabis based technology will have a material adverse effect on its operations and could result in a total loss of its business.

Management anticipates incurring the following expenses during the next 12 month period:

Management anticipates spending approximately \$2,500 in ongoing general and administrative expenses per month for the next 12 months, for a total anticipated expenditure of \$30,000 over the next 12 months. The general and administrative expenses for the year will consist primarily of professional fees for the audit and legal work relating to Madison's regulatory filings throughout the year, as well as transfer agent fees, annual mineral claim fees and general office expenses.

Management anticipates spending approximately \$15,000 in complying with Madison's obligations as a reporting company under the *Securities Exchange Act of 1934* and as a reporting issuer in Canada. These expenses will consist primarily of professional fees relating to the preparation of Madison's financial statements and completing and filing its annual report, quarterly report, and current report filings with the SEC and with SEDAR in Canada.

Management anticipates spending approximately \$100,000 to develop and market the Cannastrips technology the company acquired on May 28, 2014

As at September 30, 2014, Madison had cash of \$6,408 and a working capital deficit of \$210,042. Accordingly, Madison will require additional financing in the amount of \$298,634 in order to fund its obligations as a reporting company under the *Securities Act of 1934* and its general and administrative expenses for the next 12 months.

During the 12 month period following the date of this report, management anticipates that Madison will not generate any revenue. Accordingly, Madison will be required to obtain additional financing in order to continue its plan of operations. Management believes that debt financing will not be an alternative for funding Madison's plan of operations as it does not have tangible assets to secure any debt financing. Rather management anticipates that additional funding will be in the form of equity financing from the sale of Madison's common stock. However, Madison does not have any financing arranged and cannot provide investors with any assurance that it will be able to

raise sufficient funding from the sale of its common stock to fund its plan of operations. In the absence of such financing, Madison will not be able to acquire any interest in a new property and its business plan will fail. Even if Madison is successful in obtaining equity financing and acquire an interest in a new property, additional exploration on the mineral property will be required before a determination as to whether commercially exploitable mineralization is present. If Madison does not continue to obtain additional financing, it will be forced to abandon its business and plan of operations.

Risk Factors

An investment in Madison's common stock involves a number of very significant risks. Prospective investors should refer to all the risk factors disclosed in Madison's Form 10-K filed on April 15, 2009.

Liquidity and Capital Resources

Cash and Working Capital

As at September 30, 2014, Madison had cash of \$6,408 and a working capital deficit of \$210,042, compared to cash of \$9,941 and working capital deficit of \$178,472 as at December 31, 2013.

There are no assurances that Madison will be able to achieve further sales of its common stock or any other form of additional financing. If Madison is unable to achieve the financing necessary to continue its plan of operations, then Madison will not be able to continue its exploration programs and its business will fail.

The officers and directors have agreed to pay all costs and expenses of having Madison comply with the federal securities laws (and being a public company, should Madison be unable to do so). Madison's officers and directors have also agreed to pay the other expenses of Madison, excluding mineral property acquisition cost, those direct costs and expenses of data gathering and mineral exploration, should Madison be unable to do so. To implement its business plan, Madison will need to secure financing for its business development. Madison currently has no source for funding at this time.

If Madison is unable to raise additional funds to satisfy its reporting obligations, investors will no longer have access to current financial and other information about its business affairs.

Net Cash Used in Operating Activities

Madison used cash of \$53,533 in operating activities during the first nine months of fiscal 2014 compared to cash used of \$14,701 in operating activities during the same period in the previous fiscal year. The increase in the operating activities was principally a result of an increase in operating expenses and a reduction in accounts payable and accruals.

Net Cash Provided (Used in) Investing Activities

Net cash used in investing activities was \$nil for the first nine months of fiscal 2014 as compared with cash flow from investing activities of \$nil for the same period in the previous fiscal year.

Net Cash Provided by Financing Activities

Net cash flows provided by financing activities were \$50,000 for the first nine months of fiscal 2014, as a result of \$50,000 from proceeds of a note payable. Madison generated \$24,700 from financing activities during the first nine months of fiscal 2013 from the proceeds of a note payable.

Results of Operations – Three months ended September 30, 2014 and September 30, 2013

References to the discussion below to fiscal 2013 are to Madison's current fiscal year, which will end on December 31, 2013. References to fiscal 2012 are to Madison's fiscal year ended December 31, 2012.

	For the Three Months Ended September 30, 2014 \$	For the Three Months Ended September 30, 2013 \$	For the Nine Months Ended September 30, 2013 \$	For the Nine Months Ended September 30, 2012 \$	Accumulated from September 15, 1998 (Date of Inception) to September 30, 2014 \$

Total Expenses	(20,900)	(9,686)	(56,570)	(26,239)	(420,944)

Going Concern

Madison has not attained profitable operations and is dependent upon obtaining financing to pursue any extensive business activities. For these reasons Madison's auditors stated in their report that they have substantial doubt Madison will be able to continue as a going concern.

Future Financings

Management anticipates continuing to rely on equity sales of Madison's common stock in order to continue to fund its business operations. Issuances of additional common stock will result in dilution to Madison's existing stockholders. There is no assurance that Madison will achieve any additional sales of its common stock or arrange for debt or other financing to fund its planned activities.

Off-balance Sheet Arrangements

Madison has no significant off-balance sheet arrangements that have or are reasonably likely to have a current or future effect on its financial condition, changes in financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources that is material to stockholders.

Material Commitments for Capital Expenditures

Madison had no contingencies or long-term commitments at September 30, 2014.

Tabular Disclosure of Contractual Obligations

Madison is a smaller reporting company as defined by Rule 12b-2 of the Exchange Act and is not required to provide the information required under this item.

Critical Accounting Policies

Madison's financial statements and accompanying notes are prepared in accordance with generally accepted accounting principles in the United States. Preparing financial statements requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenue, and expenses. These estimates and assumptions are affected by management's application of accounting policies. Management believes that understanding the basis and nature of the estimates and assumptions involved with the following aspects of Madison's financial statements is critical to an understanding of Madison's financial statements.

Use of Estimates

The preparation of financial statements in accordance with United States generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses in the reporting period. Madison regularly evaluates estimates and assumptions related to the recovery of long-lived assets, donated expenses and deferred income tax asset valuation allowances. Madison bases its estimates and assumptions on current facts, historical experience and various other factors that management believes to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities and the accrual of costs and expenses that are not readily apparent from other sources. The actual results experienced by Madison may differ materially and adversely from Madison's estimates. To the extent there are material differences between the estimates and the actual results, future results of operations will be affected.

Item 3. Quantitative and Qualitative Disclosures About Market Risk.

Madison is a smaller reporting company as defined by Rule 12b-2 of the Exchange Act and is not required to provide the information required under this item.

Item 4. Controls and Procedures.

Evaluation of Disclosure Controls and Procedures

Management maintains “disclosure controls and procedures,” as such term is defined in Rule 13a-15(e) under the Securities Exchange Act of 1934 (the “**Exchange Act**”), that are designed to ensure that information required to be disclosed in Madison’s Exchange Act reports is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission’s rules and forms, and that such information is accumulated and communicated to management, including Madison’s President and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure.

In connection with the preparation of this quarterly report on Form 10-Q, an evaluation was carried out by management, with the participation of the President and the Chief Financial Officer, of the effectiveness of Madison’s disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act as of September 30, 2014).

Based on the evaluation and the identification of the material weaknesses in Madison’s internal control over financial reporting, as described in its Form 10-K for the year ended December 31, 2009, the President and the Chief Accounting Officer concluded that, as of September 30, 2014, Madison’s disclosure controls and procedures were effective.

Changes in Internal Controls over Financial Reporting

There were no changes in Madison’s internal controls over financial reporting (as defined in Rule 13a-15(f) of the Exchange Act) during the quarter ended September 30, 2014, that materially affected, or are reasonably likely to materially affect, Madison’s internal control over financial reporting.

Limitations on the Effectiveness of Controls and Procedures

Management, including our President and Chief Financial Officer, does not expect that Madison's controls and procedures will prevent all potential error and fraud. A control system, no matter how well conceived and operated, can provide only reasonable, not absolute, assurance that the objectives of the control system are met.

Part II – Other Information

Item 1. Legal Proceedings.

Madison is not a party to any pending legal proceedings and, to the best of Madison's knowledge, none of Madison's property or assets are the subject of any pending legal proceedings.

Item 1A. Risk Factors.

Madison is a smaller reporting company as defined by Rule 12b-2 of the Exchange Act and is not required to provide the information required under this item.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds.

During the quarter of the fiscal year covered by this report, (i) Madison did not modify the instruments defining the rights of its shareholders, (ii) no rights of any shareholders were limited or qualified by any other class of securities, and (iii) Madison did not sell any unregistered equity securities.

Item 3. Defaults Upon Senior Securities.

During the quarter of the fiscal year covered by this report, no material default has occurred with respect to any indebtedness of Madison. Also, during this quarter, no material arrearage in the payment of dividends has occurred.

Item 4. Mining Safety Disclosures.

There are no current mining activities at the date of this report.

Item 5. Other Information.

During the quarter of the fiscal year covered by this report, Madison reported all information that was required to be disclosed in a report on Form 8-K.

Madison has adopted a new code of ethics that applies to all its executive officers and employees, including its CEO and CFO. See Exhibit 14 – Code of Ethics for more information. Madison undertakes to provide any person with a copy of its financial code of ethics free of charge. Please contact Madison at [801-326-0110](tel:801-326-0110) to request a copy of Madison’s code of ethics. Management believes Madison’s code of ethics is reasonably designed to deter wrongdoing and promote honest and ethical conduct; provide full, fair, accurate, timely and understandable disclosure in public reports; comply with applicable laws; ensure prompt internal reporting of code violations; and provide accountability for adherence to the code.

On October 28, 2014 the British Columbia Securities Commission (the “**BCSC**”) revoked the cease trade order (the “**CTO**”) against Madison as a result of Madison filing all the required disclosure documents as required by applicable regulations of the BCSC and confirming its intention to meet continuous disclosure obligations. The BCSC invoked the CTO on January 20, 2009 as a result of Madison failing to file financial statements, among other continuous disclosure documents, with the BCSC. On May 21, 2014 Madison applied to the BCSC to have the CTO revoked and filed all past and current continuous disclosure documents with the BCSC. As of September 27, 2014, Madison has filed all continuous disclosure documents with the BCSC and has been in compliance with the applicable regulations of the BCSC.

Item 6. Exhibits**(a) Index to and Description of Exhibits**

All Exhibits required to be filed with the Form 10-Q are included in this quarterly report or incorporated by reference to Madison's previous filings with the SEC, which can be found in their entirety at the SEC website at www.sec.gov under SEC File Number 000-51302.
