RUTH'S HOSPITALITY GROUP, INC. AND SUBSIDIARIES

Notes to Condensed Consolidated Financial Statements—Unaudited

(1) The Company and Basis of Presentation

The accompanying unaudited condensed consolidated financial statements of Ruth's Hospitality Group, Inc. and its subsidiaries (collectively, the Company) as of June 25, 2017 and December 25, 2016 and for the thirteen and twenty-six week periods ended June 25, 2017 and June 26, 2016 have been prepared by the Company pursuant to the rules and regulations of the Securities and Exchange Commission (the SEC). The condensed consolidated financial statements include the financial statements of Ruth's Hospitality Group, Inc. and its wholly owned subsidiaries. All inter-company balances and transactions have been eliminated in consolidation.

Ruth's Hospitality Group, Inc. is a restaurant company focused on the upscale dining segment. Ruth's Hospitality Group, Inc. operates Company-owned Ruth's Chris Steak House restaurants and sells franchise rights to Ruth's Chris Steak House franchisees giving the franchisees the exclusive right to operate similar restaurants in a particular area designated in the franchise agreement. As of June 25, 2017, there were 153 Ruth's Chris Steak House restaurants, including 70 Company-owned restaurants, two restaurants operating under contractual agreements and 81 franchisee-owned restaurants, including 20 international franchisee-owned restaurants in Aruba, Canada, China, Hong Kong, Indonesia, Japan, Mexico, Panama, Singapore, Taiwan and the United Arab Emirates. All Company-owned restaurants are located in the United States. New Company-owned Ruth's Chris Steak House restaurants opened in Waltham, MA in January 2017 and Cleveland, OH in March 2017. A new restaurant operated by the Company under a contractual agreement also opened in Tulsa, OK in January 2017.

The information furnished herein reflects all adjustments (consisting of normal recurring accruals and adjustments), which are, in the opinion of management, necessary to fairly present the operating results for the respective periods. The interim results of operations for the periods ended June 25, 2017 and June 26, 2016 are not necessarily indicative of the results that may be achieved for the full year. Certain information and footnote disclosures normally presented in annual financial statements prepared in accordance with U.S. generally accepted accounting principles have been condensed or omitted pursuant to the SEC's rules and regulations. These financial statements should be read in conjunction with the consolidated financial statements and notes thereto included in the Company's Annual Report on Form 10-K for the fiscal year ended December 25, 2016.

The Company operates on a 52- or 53-week fiscal year ending on the last Sunday in December. The fiscal quarters ended June 25, 2017 and June 26, 2016 each contained thirteen weeks and are referred to herein as the second quarter of fiscal year 2017 and the second quarter of fiscal year 2016, respectively. Fiscal year 2017 is a 53-week year. Fiscal year 2016 is a 52-week year.

Estimates

Management of the Company has made a number of estimates and assumptions relating to the reporting of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the condensed consolidated financial statements and the reporting of revenue and expenses during the periods to prepare these condensed consolidated financial statements in conformity with U.S. generally accepted accounting principles. Significant items subject to such estimates and assumptions include the carrying amounts of property and equipment, goodwill, franchise rights, and obligations related to gift cards, incentive compensation, workers' compensation and medical insurance. Actual results could differ from those estimates.

Recent Accounting Pronouncements for Future Application

In May 2014, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2014-09, Revenue from Contracts with Customers, (ASU 2014-09), which requires an entity to recognize the amount of revenue to which it expects to be entitled for the transfer of promised goods or services to customers, and will replace most existing revenue recognition guidance in U.S. generally accepted accounting principles (GAAP) when it becomes effective. The new standard is effective for interim and annual periods in fiscal years beginning after December 15, 2017, which will require the Company to adopt these provisions in the first quarter of fiscal 2018. The standard permits the use of either the retrospective or cumulative effect transition method and is expected to impact the Company's recognition of revenue related to franchise development and site specific fees. The Company currently recognizes franchise development and site specific fees when new franchisee-owned restaurants open. Under ASU 2014-09, development and site specific fees will be recognized over the life of the applicable franchise agreements. The Company expects that the new standard will have a material effect on the consolidated financial statements. The Company expects that the most significant change relates to an increase of approximately \$3 million to \$5 million to the deferred revenue liability on the consolidated balance sheet for previously recognized franchise development and site specific fees that will be recognized over the life of the applicable franchise agreements under the new standard. In addition, ASU 2014-09 is expected to impact the classification of advertising contributions from franchisees. The Company currently records advertising contributions from franchisees as a liability against which specified advertising and marketing costs are charged. Under the new standard, advertising contributions from franchisees will be classified as franchise income on the consolidated statements of income. The Company recognized advertising contributions from

franchisees totaling \$1.3 million and \$1.4 million during fiscal years 2016 and 2015, respectively, as a reduction to marketing and advertising expense on the consolidated statements of income. The Company is evaluating other potential effects that ASU 2014-09 will have on its consolidated financial statements and related disclosures. The Company has not yet selected a transition method.

In February 2016, the FASB issued ASU 2016-02, Leases (Topic 842). This update requires a lessee to recognize on the balance sheet a liability to make lease payments and a corresponding right-of-use asset. The guidance also requires certain qualitative and quantitative disclosures about the amount, timing and uncertainty of cash flows arising from leases. This update is effective for annual and interim periods beginning after December 15, 2018, which will require the Company to adopt these provisions in the first quarter of fiscal 2019 using a modified retrospective approach. The Company's restaurants operate under facility lease agreements that provide for material future lease payments. The restaurant facility leases comprise the majority of the Company's material lease agreements. The Company is currently evaluating the effect of the standard on its ongoing financial reporting, but expects that the adoption of ASU 2016-02 will have a material effect on its consolidated financial statements. The Company expects that the most significant changes relate to 1) the recognition of new right-of-use assets and lease liabilities on the consolidated balance sheet for restaurant facility operating leases; and 2) the derecognition of existing lease liabilities on the consolidated balance sheet related to scheduled rent increases.

In August 2016 the FASB issued ASU 2016-15, Statement of Cash Flows: Classification of Certain Cash Receipts and Cash Payments (Topic 230). This update was issued to standardize how certain transactions are classified on the statement of cash flows. This update is effective for fiscal years beginning after December 15, 2017. Early adoption is permitted. The adoption of ASU 2016-15 is not expected to have a significant impact of the Company's ongoing financial reporting.

In October 2016, the FASB issued ASU 2016-16, Income Taxes (Topic 740). This update addresses the income tax consequences of intra-entity transfers of assets other than inventory. Current GAAP prohibits the recognition of current and deferred income taxes for an intra-entity asset transfer until the asset has been sold to an outside party. In addition, interpretations of this guidance have developed in practice over the years for transfers of certain intangible and tangible assets. The amendments in the update will require recognition of current and deferred income taxes resulting from an intra-entity transfer of an asset other than inventory when the transfer occurs. This update is effective for annual and interim periods beginning after December 15, 2017, which will require us to adopt these provisions in the first quarter of fiscal 2018 using a modified retrospective approach. Early adoption is permitted. We do not expect the adoption of this guidance to have a material impact on our consolidated financial statements.

In January 2017, the FASB issued ASU 2017-04, Simplifying the Test for Goodwill Impairment (Topic 350). This update eliminates the current two-step approach used to test goodwill for impairment and requires an entity to apply a one-step quantitative test and record the amount of goodwill impairment as the excess of a reporting unit's carrying amount over its fair value, not to exceed the total amount of goodwill allocated to the reporting unit. ASU 2017-04 is effective for fiscal years beginning after December 15, 2019 (upon the first goodwill impairment test performed during that fiscal year). Early adoption is permitted for interim or annual goodwill impairment tests after January 1, 2017. The Company does not expect the adoption of ASU 2017-04 to have a material impact on our consolidated financial statements.

(2) Mitchell's Restaurants

As of December 28, 2014, the Company operated eighteen Mitchell's Fish Markets and three Mitchell's/Cameron's Steakhouse restaurants (collectively, the Mitchell's Restaurants).

In November 2014, the Company and Landry's, Inc. and Mitchell's Entertainment, Inc., an affiliate of Landry's Inc. (together with Landry's Inc., Landry's), entered into an asset purchase agreement (the Agreement). Pursuant to the Agreement, the Company agreed to sell the Mitchell's Restaurants and related assets to Landry's for \$10 million. The

sale of the Mitchell's Restaurants closed on January 21, 2015. The assets sold consisted primarily of leasehold interests, leasehold improvements, restaurant equipment and furnishings, inventory, and related intangible assets, including brand names and trademarks associated with the 21 Mitchell's Restaurants. The results of operations have been classified as discontinued operations in the consolidated statements of income for all periods presented. No amounts for shared general and administrative costs or interest expense were allocated to discontinued operations. Substantially all direct cash flows related to operating these restaurants were eliminated at the closing date of the sale. The Company's continuing involvement was limited to transition services up to four months with minimal impact on cash flows.

Under the terms of the Agreement, Landry's assumed the Mitchell's Restaurants' facility lease obligations and the Company reimbursed Landry's for gift cards that were sold prior to the closing date and used at the Mitchell's Restaurants during the eighteen months following the closing date. In the Agreement, the Company and Landry's made customary representations and warranties and agreed to customary covenants relating to the sale of the Mitchell's Restaurants. The Company and Landry's have agreed to indemnify each other for losses arising from certain breaches of the Agreement and for certain other liabilities.

The Company guaranteed Landry's lease obligations aggregating \$34.1 million under nine of the Mitchell's Restaurants' leases. The Company did not record a financial accounting liability for the lease guarantees, because the likelihood of Landry's defaulting on the lease agreements was deemed to be remote. Landry's also indemnified the Company in the event of a default under any of the leases.

(3) Discontinued Operations

The Company accounts for its closed restaurants in accordance with the provisions of FASB ASC Topic 360-10, "Property, Plant and Equipment." As of December 29, 2014, the Company adopted ASU 2014-08, "Reporting Discontinued Operations and Disclosures of Disposals of Components of an Entity," which changed the criteria for reporting discontinued operations and requires additional disclosures about discontinued operations. ASU 2014-08 requires that an entity report as a discontinued operation only a disposal that represents a strategic shift in operations that has a major effect on its operations and financial results. Therefore, individual restaurants which are closed after December 28, 2014 will not be classified as discontinued operations. Prior to the Company's adoption of ASU 2014-08, when a restaurant was closed or the restaurant was either held for sale or abandoned, the restaurant's operations were eliminated from the ongoing operations. Accordingly, the operations of such restaurants, net of applicable income taxes, are presented as discontinued operations and prior period operations of such restaurants, net of applicable income taxes, were reclassified. For the thirteen and twenty-six week periods ended June 25, 2017 and June 26, 2016, all restaurant sales, direct costs and expenses and income taxes attributable to restaurants classified as discontinued operations have been aggregated to a single caption entitled results from discontinued operations, net of income taxes in the condensed consolidated statements of income for all periods presented. Results from discontinued operations, net of income taxes is comprised of the following (in thousands):

	13 Weeks Ended		26 Weeks Ended

Cash flows from discontinued operations are combined with the cash flows from continuing operations within each of the categories on our condensed consolidated statements of cash flows. We do not anticipate that the sale of the Mitchell's Restaurants or any of our closed restaurants reported as discontinued operations will have a material impact

on the Company's cash flow during fiscal year 2017.

Less current maturities	—	—
	\$21,000	\$ 25,000

As of June 25, 2017, the Company had \$21.0 million of outstanding indebtedness under its senior credit facility with approximately \$64.4 million of borrowings available, net of outstanding letters of credit of approximately \$4.6 million. As of June 25, 2017, the weighted average interest rate on the Company's outstanding debt was 2.6% and the weighted average interest rate on our outstanding letters of credit was 1.6%. In addition, the fee on the Company's senior credit facility was 0.2%. As of June 25, 2017, the Company was in compliance with all the covenants under its senior credit facility.

On February 2, 2017, the Company entered into a credit agreement with Wells Fargo Bank, National Association as administrative agent, and certain other lenders (the Credit Agreement). The Credit Agreement provides for a revolving credit facility of \$90.0 million with a \$5.0 million subfacility for letters of credit and a \$5.0 million subfacility for swingline loans. Subject to the satisfaction of certain conditions and lender consent, the revolving credit facility may be increased up to a maximum of \$150.0 million. The Credit Agreement has a maturity date of February 2, 2022. At the Company's option, revolving loans may bear interest at (i) LIBOR, plus an applicable margin or (ii) the highest of (a) the rate publicly announced by Wells Fargo as its prime rate, (b) the average published federal funds rate in effect on such day plus 0.50% and (c) one month LIBOR plus 1.00%, plus an applicable margin. The applicable margin is based on the Company's actual leverage ratio, ranging (a) from 1.50% to 2.25% above the applicable LIBOR rate or (b) at the Company's option, from 0.50% to 1.25% above the applicable base rate.

The Credit Agreement contains customary representations and affirmative and negative covenants (including limitations on indebtedness and liens) as well as financial covenants requiring a minimum fixed coverage charge ratio and limiting the Company's consolidated leverage ratio. The Credit Agreement also contains events of default customary for credit facilities of this type (with customary grace periods, as applicable), including nonpayment of principal or interest when due; material incorrectness of representations and warranties when made; breach of covenants; bankruptcy and insolvency; unsatisfied ERISA obligations; unstayed material judgment beyond specified periods; default under other material indebtedness; and certain changes of control of the Company. If any event of default occurs and is not cured within the applicable grace period, or waived, the outstanding loans may be accelerated by lenders holding a majority of the commitments under the Credit Agreement and the lenders' commitments may be terminated. The obligations under the Credit Agreement are guaranteed by certain of the Company's subsidiaries (the Guarantors), and are secured by a lien on substantially all of the Company's personal property assets other than any equity interest in current and future subsidiaries of the Company.

(5) Shareholders' Equity

In April 2016, we announced that our Board of Directors approved a new share repurchase program under which the Company is authorized to repurchase up to \$60 million of outstanding common stock from time to time. The new share repurchase program replaces the previous share repurchase program announced in November 2014, which has been terminated. As of June 25, 2017, \$18.2 million remained available for further purchases under the program. During the first twenty-six weeks of fiscal year 2017 400,000 shares were repurchased at an aggregate cost of \$8.4 million, or an average cost of \$21.08 per share. Share repurchases were accounted for under the cost method and all repurchased shares were retired and cancelled. The excess of the purchase price over the par value of the shares was recorded as a reduction in additional paid-in-capital.

The Company's Board of Directors declared the following dividends during the periods presented (amounts in thousands, except per share amounts):

Declaration Date	Dividend		Total Amount	Payment Date
	per Share	Record Date		
Fiscal Year 2017				

Edgar Filing: Ruths Hospitality Group, Inc. - Form 10-Q

April 28, 2016	\$ 0.07	May 12, 2016	\$ 2,338	May 26, 2016

Subsequent to the end of the second quarter of fiscal year 2017, the Company's Board of Directors declared a regular quarterly cash dividend of \$0.09 per common and restricted share, or approximately \$2.8 million in the aggregate based on the number of shares currently outstanding, payable on August 24, 2017 to stockholders of record as of the close of business on August 10, 2017.

Outstanding unvested restricted stock is not included in common stock outstanding amounts. Restricted stock outstanding as of June 25, 2017 aggregated 1,274,961 shares.

(6) Fair Value Measurements

The carrying amounts of cash and cash equivalents, receivables, prepaid expenses, accounts payable and accrued expenses and other current liabilities are reasonable estimates of their fair values due to their short duration. Borrowings classified as long-term debt as of June 25, 2017 and December 25, 2016 have variable interest rates that reflect currently available terms and conditions for similar debt. The carrying amount of this debt is a reasonable estimate of its fair value (Level 2).

As of June 25, 2017 and December 25, 2016, the Company had no assets or liabilities measured on a recurring or nonrecurring basis subject to the disclosure requirements of "Fair Value Measurements and Disclosures," FASB ASC Topic 820.

(7) Segment Information

The Company has two reportable segments – the Company-owned steakhouse segment and the franchise operations segment. The Company does not rely on any major customers as a source of revenue. The Company-owned Ruth's Chris Steak House restaurants, all of which are located in North America, operate within the full-service dining industry, providing similar products to similar customers. Revenues are derived principally from food and beverage sales. As of June 25, 2017, (i) the Company-owned steakhouse restaurant segment included 70 Ruth's Chris Steak House restaurants and two Ruth's Chris Steak House restaurant operating under contractual agreements and (ii) the franchise operations segment included 81 franchisee-owned Ruth's Chris Steak House restaurants. Segment profits for the Company-owned steakhouse restaurant segments equal segment revenues less segment expenses. Segment revenues for the Company-owned steakhouse restaurants include restaurant sales, management agreement income and other restaurant income. Gift card breakage revenue is not allocated to operating segments. Not all operating expenses are allocated to operating segments. Segment expenses for the Company-owned steakhouse segment include food and beverage costs and restaurant operating expenses. No other operating costs are allocated to the Company-owned steakhouse segment for the purpose of determining segment profits because such costs are not directly related to the operation of individual restaurants. The accounting policies applicable to each segment are consistent with the policies used to prepare the consolidated financial statements. The profit of the franchise operations segment equals franchise income, which consists of franchise royalty fees and franchise opening fees. No costs are allocated to the franchise operations segment.

Segment information related to the Company's two reportable business segments follows (in thousands):

(8) Stock-Based Employee Compensation

As of December 26, 2016 (the first day of fiscal year 2017), the Company adopted ASU 2016-09, Compensation – Stock Compensation (Topic 718), which affects all entities that issue share-based compensation to their employees. The amendments in this ASU cover such areas as the recognition of excess tax benefits and deficiencies, the classification of those excess tax benefits on the statement of cash flows, an accounting policy election for forfeitures, the amount an employer can withhold to cover income taxes and still qualify for equity classification and the classification of those taxes paid on the statement of cash flows. Therefore, for the twenty-six weeks of fiscal year 2017, the recognition of excess tax benefits and deficiencies were recognized as income tax benefits or expense on the consolidated statement of income and as an operating activity on the statement of cash flows. Prior to the Company's adoption of ASU 2016-09, these tax benefits and deficiencies were recognized as additional paid-in capital on the balance sheet and as a financing activity on the statement of cash flows.

Under the Amended and Restated 2005 Equity Incentive Plan, at June 25, 2017, there were 26,225 shares of common stock issuable upon exercise of currently outstanding options, 1,274,961 currently outstanding unvested restricted stock awards and 1,762,214 shares available for future grants. During the first twenty-six weeks of fiscal year 2017, the Company issued 251,512 restricted stock awards to directors, officers and other employees of the Company. Of the 251,512 restricted stock awards issued during the first twenty-six weeks of fiscal year 2017, 38,220 shares will vest in fiscal year 2018, 135,073 shares will vest in fiscal year 2019, 48,219 shares will vest in fiscal year 2020, 10,000 will vest in 2021, 10,000 will vest in 2022 and 10,000 will vest in 2023. Total stock compensation expense recognized during the first twenty-six weeks of fiscal years 2017 and 2016 was \$3.4 million and \$2.7 million, respectively.

(9) Income Taxes

Income tax expense differs from amounts computed by applying the federal statutory income tax rate to income from continuing operations before income taxes as follows:

	26 Weeks Ended	
	June 25, 2017	June 26, 2016
Income tax expense at statutory rates	35.0%	35.0%
Increase (decrease) in income taxes resulting from:		
State income taxes, net of federal benefit	3.0 %	4.2 %
Federal employment tax credits	(6.8 %)	(7.0 %)

Edgar Filing: Ruths Hospitality Group, Inc. - Form 10-Q

Other	0.1 %	0.7 %
Effective tax rate	31.3%	32.9%

The Company utilizes the federal FICA tip credit to reduce its periodic federal income tax expense. A restaurant company employer may claim a credit against the company's federal income taxes for FICA taxes paid on certain tip wages (the FICA tip credit). The credit against income tax liability is for the full amount of eligible FICA taxes. Employers cannot deduct from taxable income the amount of FICA taxes taken into account in determining the credit.

The Company files consolidated and separate income tax returns in the United States federal jurisdiction and many state jurisdictions, respectively. With few exceptions, the Company is no longer subject to U.S. federal or state income tax examinations for years before 2012.

(10) Earnings Per Share

The following table sets forth the computation of earnings per share (amounts in thousands, except share and per share amounts):

	13 Weeks Ended		26 Weeks Ended	
	June 25, 2017	June 26, 2016	June 25, 2017	June 26, 2016

Discontinued operations	—	—	—	—
Diluted earnings per common share	\$0.25	\$0.21	\$0.60	\$0.54

Diluted earnings per share for the second quarters of fiscal year 2017 and 2016 excludes stock options and restricted shares of 17 and 17,137, respectively, which were outstanding during the period but were anti-dilutive. The weighted average exercise prices of the anti-dilutive stock options for the first quarters of fiscal years 2017 and 2016 were \$0 per share and \$18.96 per share, respectively. Dilutive earnings per share for the first twenty-six weeks of fiscal years 2017 and 2016 excludes stock options and restricted shares of 1,295 and 92,386, respectively, which were outstanding during the period but were anti-dilutive. The weighted average exercise prices of the anti-dilutive stock options for the first twenty-six weeks of fiscal years 2017 and 2016 were \$21.60 per share and \$19.01 per share, respectively.

(11) Commitments and Contingencies

The Company is subject to various claims, possible legal actions and other matters arising in the normal course of business. Management does not expect disposition of these other matters to have a material adverse effect on the financial position, results of operations or liquidity of the Company. The Company expenses legal fees as incurred.

The legislation and regulations related to tax and unclaimed property matters are complex and subject to varying interpretations by both government authorities and taxpayers. The Company remits a variety of taxes and fees to various governmental authorities, including excise taxes, property taxes, sales and use taxes, and payroll taxes. The taxes and fees remitted by the Company are subject to review and audit by the applicable governmental authorities

which could assert claims for additional assessments. Although management believes that the tax positions are reasonable and consequently there are no accrued liabilities for claims which may be asserted, various taxing authorities may challenge certain of the positions taken by the Company which may result in additional liability for taxes and interest. These tax positions are reviewed periodically based on the availability of new information, the lapsing of applicable statutes of limitations, the conclusion of tax audits, the identification of new tax contingencies, or the rendering of relevant court decisions. An unfavorable resolution of assessments by a governmental authority could negatively impact the Company's results of operations and cash flows in future periods.

The Company is subject to unclaimed or abandoned property (escheat) laws which require the Company to turn over to certain state governmental authorities the property of others held by the Company that has been unclaimed for specified periods of time. The Company is subject to audit by individual U.S. states with regard to its escheatment practices.

The Company sells a considerable number of gift cards, which are issued and administered by a third party gift card issuer and service provider, consistent with common retail industry practice. The third party gift card issuer is paid a net fee for its services by the Company. The third party gift card issuer and service provider, as well as a number of other restaurant companies, retailers and gift

card issuers, were named as defendants in a qui tam action filed under seal in June 2013 by William French on behalf of the State of Delaware in the Superior Court of Delaware in and for New Castle County. The complaint alleges that the Company and the other defendants intentionally failed to report and remit money with respect to unused gift cards to the State of Delaware under the Delaware Escheats Law, and knowingly made, used or caused to be made or used, false statements and records to conceal, avoid or decrease an obligation to pay or transmit such money to Delaware in violation of the Delaware False Claims and Reporting Act (DFCRA). The complaint further alleges that the amount of money that the Company should have escheated to Delaware is approximately \$30 million. The complaint seeks monetary damages (including treble damages under the DFCRA), penalties, and attorneys' fees and costs. The case was unsealed in March 2014, at which time the court also granted the State of Delaware's motion to intervene. In August 2016, the Company filed a motion to dismiss the case, and a hearing on that motion was held in October 2016. In April 2017, the Company's motion was granted and the case was dismissed. On May 1, 2017, the Plaintiff-Relator in this matter filed an interlocutory appeal. On May 18, 2017 the Superior Court declined to certify the appeal and on May 23, 2017 the Delaware Supreme Court denied the appeal.

The Company currently buys a majority of its beef from two suppliers. Although there are a limited number of beef suppliers, management believes that other suppliers could provide similar product on comparable terms. A change in suppliers, however, could cause supply shortages and a possible loss of sales, which would affect operating results adversely.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Forward-Looking Statements

This Quarterly Report on Form 10-Q contains "forward-looking statements" that reflect, when made, the Company's expectations or beliefs concerning future events that involve risks and uncertainties. Forward-looking statements frequently are identified by the words "believe," "anticipate," "expect," "estimate," "intend," "project," "targeting," "will be," "continue," "will likely result," or other similar words and phrases. Similarly, statements herein that describe the Company's objectives, plans or goals, including with respect to new restaurant openings, liquidity and capital resources and the impact of healthcare inflation and minimum wage legislation, also are forward-looking statements. Actual results could differ materially from those projected, implied or anticipated by the Company's forward-looking statements. Some of the factors that could cause actual results to differ include: reductions in the availability of, or increases in the cost of, USDA Prime grade beef, fish and other food items; changes in economic conditions and general trends; the loss of key management personnel; the effect of market volatility on the Company's stock price; health concerns about beef or other food products; the effect of competition in the restaurant industry; changes in consumer preferences or discretionary spending; labor shortages or increases in labor costs; the impact of federal, state or local government regulations relating to income taxes, unclaimed property, Company employees, the sale or preparation of food, the sale of alcoholic beverages and the opening of new restaurants; harmful actions taken by the Company's franchisees; a material failure, interruption or security breach of the Company's information technology network; repeal or reduction of the federal FICA tip credit; the Company's indemnification obligations in connection with its sale of the Mitchell's Restaurants; the Company's ability to protect its name and logo and other proprietary information; an impairment in the financial statement carrying value of our goodwill, other intangible assets or property; the impact of litigation; the restrictions imposed by the Company's credit agreement; and changes in, or the discontinuation of, the Company's quarterly cash dividend payments or share repurchase program. For a discussion of these and other risks and uncertainties that could cause actual results to differ from those contained in the forward-looking statements, see "Risk Factors" in the Company's Annual Report on Form 10-K for the fiscal year ended December 25, 2016, which is available on the SEC's website at www.sec.gov. All forward-looking statements are qualified in their entirety by this cautionary statement, and the Company undertakes no obligation to revise or update this Quarterly Report on Form 10-Q to reflect events or circumstances after the date hereof. You should not assume that material events subsequent to the date of this Quarterly Report on Form 10-Q have not occurred.

Unless the context otherwise indicates, all references in this report to the “Company,” “Ruth’s,” “we,” “us,” “our” or similar words are to Ruth’s Hospitality Group, Inc. and its subsidiaries. Ruth’s Hospitality Group, Inc. is a Delaware corporation formerly known as Ruth’s Chris Steak House, Inc., and was founded in 1965.

Overview

Ruth’s Hospitality Group, Inc. is a restaurant company focused on the upscale dining segment. Ruth’s Hospitality Group, Inc. operates Company-owned Ruth’s Chris Steak House restaurants and sells franchise rights to Ruth’s Chris Steak House franchisees giving the franchisees the exclusive right to operate similar restaurants in a particular area designated in the franchise agreement. As of June 25, 2017, there were 153 Ruth’s Chris Steak House restaurants, including 70 Company-owned restaurants, two restaurants operating under contractual agreements and 81 franchisee-owned restaurants.

The Ruth’s Chris menu features a broad selection of USDA Prime- and high quality steaks and other premium offerings served in Ruth’s Chris’ signature fashion—“sizzling” and topped with butter—complemented by other traditional menu items inspired by our

New Orleans heritage. The Ruth's Chris restaurants reflect over 50 years committed to the core values instilled by our founder, Ruth Fertel, of caring for our guests by delivering the highest quality food, beverages and service in a warm and inviting atmosphere.

All Company-owned Ruth's Chris Steak House restaurants are located in the United States. The franchisee-owned Ruth's Chris Steak House restaurants include 20 international franchisee-owned restaurants in Aruba, Canada, China, Hong Kong, Indonesia, Japan, Mexico, Panama, Singapore, Taiwan and the United Arab Emirates. New Company-owned Ruth's Chris Steak House restaurants opened in Waltham, MA in January 2017 and Cleveland, OH in March 2017. A new Ruth's Chris Steak House restaurant operating under a contractual agreement opened in Tulsa, OK in January 2017.

Our business is subject to seasonal fluctuations. Historically, our first and fourth quarters have tended to be the strongest revenue quarters due largely to the year-end holiday season and the popularity of dining out during the fall and winter months. Consequently, results for any one quarter are not necessarily indicative of results to be expected for any other quarter or for any year and comparable restaurant sales for any particular period may decrease.

Our Annual Report on Form 10-K for the fiscal year ended December 25, 2016 provides additional information about our business, operations and financial condition.

Second Quarter Ended June 25, 2017 (13 Weeks) Compared to Second Quarter Ended June 26, 2016 (13 Weeks)

Overview. Operating income increased by \$1.1 million, or 10.3%, to \$11.5 million for the second quarter of fiscal year 2017 from the second quarter of fiscal year 2016. Operating income for the second quarter of fiscal year 2017 was favorably impacted by a \$6.9 million increase in restaurant sales and a \$564 thousand decrease in pre-opening costs offset partially by a \$2.4 million increase in

restaurant operating expenses, a \$2.3 million increase in food and beverage costs, a \$977 thousand increase in general and administrative costs and a \$794 thousand increase in marketing and advertising. Income from continuing operations increased from the second quarter of fiscal year 2016 by \$848 thousand to \$7.8 million. Net income for the second quarter of fiscal year 2017 increased from the second quarter of fiscal year 2016 by \$903 thousand to \$7.8 million.

Segment Profits. Segment profitability information is presented in Note 7 to the condensed consolidated financial statements. Not all operating expenses are allocated to operating segments. The Ruth's Chris Steak House Company-owned restaurants, which are all located in the United States, are managed as an operating segment. The Ruth's Chris concept operates within the full-service dining industry, providing similar products to similar customers. The franchise operations are reported as a separate operating segment. Segment profits for the second quarter of fiscal year 2017 for the Company-owned steakhouse restaurant segment increased by \$2.4 million to \$22.0 million from the second quarter of fiscal year 2016. The increase was driven primarily by a \$6.9 million increase in restaurant sales partially offset by a \$2.4 million increase in restaurant operating expenses and a \$2.3 million increase in food and beverage costs. Franchise income increased \$223 thousand in the second quarter of fiscal year 2017 compared to the second quarter of fiscal year 2016 primarily due to higher royalties from increased restaurant sales.

Restaurant Sales. Restaurant sales increased by \$6.9 million, or 7.9%, to \$94.1 million in the second quarter of fiscal year 2017 from the second quarter of fiscal year 2016. The increase was attributable to a \$2.6 million increase in Company-owned comparable restaurant sales and a \$4.4 million increase in restaurant sales at new restaurants. Excluding discontinued operations, total operating weeks during the second quarter of fiscal year 2017 increased to 910 from 863 in the second quarter of fiscal year 2016. Company-owned comparable restaurant sales increased 2.9%, driven by an average check increase of 0.8% and a traffic increase of 2.1%. Company-owned comparable sales increased by approximately 70 basis points due to the calendar shift of Easter from the first quarter of fiscal year 2016 into the second quarter of fiscal year 2017.

Franchise Income. Franchise income increased \$223 thousand in the second quarter of fiscal year 2017 compared to the second quarter of fiscal year 2016. The increase was primarily due to an increase in franchisee-owned restaurant count and higher royalties from a 3.0% increase in comparable franchise restaurant sales.

Other Operating Income. Other operating income increased \$237 thousand in the second quarter of fiscal year 2017 compared to the second quarter of fiscal year 2016. The increase in other operating income was primarily due to an increase of \$143 thousand in income from restaurants operated under contractual agreements, including the new location in Tulsa, OK. The remaining increase was primarily related to miscellaneous revenue at the restaurants.

Food and Beverage Costs. Food and beverage costs increased \$2.3 million in the second quarter of fiscal year 2017 compared to the second quarter of fiscal year 2016. As a percentage of restaurant sales, food and beverage costs increased to 29.9% in the second quarter of fiscal year 2017 from 29.6% in the second quarter of fiscal year 2016. The increase in food and beverage costs as a percentage of restaurant sales was primarily due to a 3.8% increase in beef costs.

Restaurant Operating Expenses. Restaurant operating expenses increased \$2.4 million, or 5.8%, to \$45.0 million in the second quarter of fiscal year 2017 from the second quarter of fiscal year 2016. Restaurant operating expenses, as a percentage of restaurant sales, decreased to 47.8% in the second quarter of fiscal year 2017 from 48.8% in the second quarter of fiscal year 2016. The decrease in restaurant operating expenses as a percentage of restaurant sales was primarily due to a \$465 thousand expense in the second quarter of 2016 related to disputed rent charges.

Marketing and Advertising. Marketing and advertising expenses increased \$794 thousand to \$3.4 million in the second quarter of fiscal year 2017 from the second quarter of fiscal year 2016. The increase in marketing and advertising expenses in the second quarter of fiscal year 2017 was primarily attributable to a planned increase in advertising spending.

General and Administrative Costs. General and administrative costs increased \$977 thousand to \$8.0 million in the second quarter of fiscal year 2017 from the second quarter of fiscal year 2016. The increase in general and administrative costs was primarily attributable to an increase in performance-based compensation.

Depreciation and Amortization Expenses. Depreciation and amortization expense increased \$360 thousand to \$3.7 million in the second quarter of fiscal year 2017 from the second quarter of fiscal year 2016 primarily due to depreciation on new restaurant and remodel assets placed in service within the last twelve months.

Pre-opening Costs. Pre-opening costs were \$173 thousand in the second quarter of fiscal year 2017 primarily due to the planned opening of a Ruth's Chris Steak House Restaurant in Denver, CO. Pre-opening costs were \$737 thousand in the second quarter of fiscal year 2016 primarily due to the planned openings of four Ruth's Chris Steak House Restaurants, including Albuquerque, NM, which opened in the second quarter of 2016.

Edgar Filing: Ruths Hospitality Group, Inc. - Form 10-Q

Interest Expense. Interest expense decreased \$109 thousand to \$144 thousand in the second quarter of fiscal year 2017 from the second quarter of fiscal year 2016 primarily due to lower amortization of capitalized debt costs during the second quarter of fiscal year 2017 compared to the second quarter of 2016.

Other Income and Expense. During the second quarter of fiscal year 2017, we recognized other income of \$14 thousand. During the second quarter of fiscal year 2016 we recognized other income of \$144 thousand primarily due to a gain on the sale of a closed restaurant facility.

Income Tax Expense. During the second quarter of fiscal year 2017, we recognized income tax expense of \$3.6 million. During the second quarter of fiscal year 2016, we recognized income tax expense of \$3.4 million. The effective tax rate, including the impact of discrete items, decreased to 31.6% for the second quarter of fiscal year 2017 compared to 32.8% for the second quarter of fiscal year 2016. The effective tax rate decreased in the first quarter of fiscal year 2017 primarily due to lower state income taxes recognized in the quarter. Fiscal year 2017 discrete items and other unexpected changes impacting the annual tax expense may cause the effective tax rate for fiscal year 2017 to differ from the effective tax rate for the second quarter 2017.

Income from Continuing Operations. Income from continuing operations of \$7.8 million in the second quarter of fiscal year 2017 increased by \$848 thousand compared to the second quarter of fiscal year 2016 due to the factors noted above.

Income or Loss from Discontinued Operations, net of income taxes. Income from discontinued operations, net of income taxes, for the second quarter of fiscal year 2017 was \$7 thousand compared to a loss of \$48 thousand during the second quarter of fiscal year 2016. The gain in the second quarter of fiscal year 2017 was primarily due to the collection of an occupancy related receivable at a closed Ruth's Chris Steak House restaurant. The loss in the second quarter of 2016 was primarily attributable to occupancy costs from a closed Ruth's Chris Steak House restaurant.

Net Income. Net income was \$7.8 million in the second quarter of fiscal year 2017 and increased by \$903 thousand compared to \$6.9 million in the second quarter of fiscal year 2016. The increase was largely attributable to the factors noted above.

Twenty-six Weeks Ended June 25, 2017 Compared to Twenty-six Weeks Ended June 26, 2016

Overview. Operating income increased by \$894 thousand, or 3.3%, to \$27.8 million for the first twenty-six weeks of fiscal year 2017 from the first twenty-six weeks of fiscal year 2016. Operating income for the first twenty-six weeks of fiscal year 2017 was favorably impacted by a \$10.4 million increase in restaurant sales partially offset by a \$4.0 million increase in restaurant operating expenses, a \$2.4 million increase in food and beverage costs, a \$1.5 million increase in general and administrative costs and a \$1.3 million increase in marketing and advertising. Income from continuing operations increased from the first twenty-six weeks of fiscal year 2016 by \$1.1 million to \$18.9 million. Net income for the first twenty-six weeks of fiscal year 2017 increased from the first twenty-six weeks of fiscal year 2016 by \$1.2 million to \$18.9 million.

Segment Profits. Segment profitability information is presented in Note 7 to the condensed consolidated financial statements. Not all operating expenses are allocated to operating segments. The Ruth's Chris Steak House Company-owned restaurants, which are all located in the United States, are managed as an operating segment. The Ruth's Chris concept operates within the full-service dining industry, providing similar products to similar customers. The franchise operations are reported as a separate operating segment. Segment profits for the first twenty-six weeks of fiscal year 2017 for the Company-owned steakhouse restaurant segment increased by \$4.4 million to \$48.2 million from the first twenty-six weeks of fiscal year 2016. The increase was driven primarily by a \$10.4 million increase in restaurant sales partially offset by a \$4.0 million increase in restaurant operating expenses and a \$2.4 million increase in food and beverage costs. Franchise income increased \$112 thousand in the first twenty-six weeks of fiscal year 2017 compared to the first twenty-six weeks of fiscal year 2016 primarily due to increased franchise restaurant sales,

partially offset by a decrease in franchise opening fees of \$135 thousand.

Restaurant Sales. Restaurant sales increased by \$10.4 million, or 5.7%, to \$193.6 million in the first twenty-six weeks of fiscal year 2017 from the first twenty-six weeks of fiscal year 2016. The increase was attributable to a \$3.0 million increase in Company-owned comparable restaurant sales and a \$7.4 million increase in restaurant sales at new restaurants. Excluding discontinued operations, total operating weeks during the first twenty-six weeks of fiscal year 2017 increased to 1,805 from 1,728 in the first twenty-six weeks of fiscal year 2016. Company-owned comparable restaurant sales increased 1.6%, driven by an average check increase of 0.1% and a traffic increase of 1.5%.

Franchise Income. Franchise income increased \$112 thousand in the first twenty-six weeks of fiscal year 2017 compared to the first twenty-six weeks of fiscal year 2016. The increase was primarily due to an increase in royalties from a 3.3% increase in comparable franchise restaurant sales, partially offset by a decrease in franchise opening fees of \$135 thousand.

Other Operating Income. Other operating income increased \$478 thousand in the first twenty-six weeks of fiscal year 2017 compared to the first twenty-six weeks of fiscal year 2016. The increase in other operating income was primarily due to an increase of \$315 thousand in income from restaurants operated under contractual agreements, including the new location in Tulsa, OK. The remaining increase was primarily related to a \$102 thousand increase in gift card breakage revenue.

Food and Beverage Costs. Food and beverage costs increased \$2.4 million in the first twenty-six weeks of fiscal year 2017 compared to the first twenty-six weeks of fiscal year 2016. As a percentage of restaurant sales, food and beverage costs decreased to 29.3% in the first twenty-six weeks of fiscal year 2017 from 29.6% in the first twenty-six weeks of fiscal year 2016. The decrease in food and beverage costs as a percentage of restaurant sales was primarily due to an increase in average check.

Restaurant Operating Expenses. Restaurant operating expenses increased \$4.0 million, or 4.6%, to \$90.5 million in the first twenty-six weeks of fiscal year 2017 from the first twenty-six weeks of fiscal year 2016. Restaurant operating expenses, as a percentage of restaurant sales, decreased to 46.7% in the first twenty-six weeks of fiscal year 2017 from 47.2% in the first twenty-six weeks of fiscal year 2016. The decrease in restaurant operating expenses as a percentage of restaurant sales was primarily attributable to a \$465 thousand expense in the first twenty-six weeks of 2016 related to disputed rent charges.

Marketing and Advertising. Marketing and advertising expenses increased \$1.3 million to \$5.9 million in the first twenty-six weeks of fiscal year 2017 from the first twenty-six weeks of fiscal year 2016. The increase in marketing and advertising expenses in the first twenty-six weeks of fiscal year 2017 was primarily attributable to a planned increase in advertising spending.

General and Administrative Costs. General and administrative costs increased \$1.5 million to \$16.2 million in the first twenty-six weeks of fiscal year 2017 from the first twenty-six weeks of fiscal year 2016. The increase in general and administrative costs was primarily attributable to an increase in performance-based compensation.

Depreciation and Amortization Expenses. Depreciation and amortization expense increased \$764 thousand to \$7.2 million in the first twenty-six weeks of fiscal year 2017 from the first twenty-six weeks of fiscal year 2016 primarily due to depreciation on new restaurant and remodel assets placed in service within the last twelve months.

Pre-opening Costs. Pre-opening costs were \$1.4 million in the first twenty-six weeks of fiscal year 2017 primarily due to the openings of two Ruth's Chris Steak House Restaurants in Waltham, MA and Cleveland, OH which opened in the first twenty-six weeks of fiscal year 2017. Pre-opening costs were \$1.1 million in the first twenty-six weeks of fiscal year 2016 primarily due to the anticipated openings of four new Company-owned restaurants, including Albuquerque, NM, which opened in May 2016.

Interest Expense. Interest expense decreased \$142 thousand to \$324 thousand in the first twenty-six weeks of fiscal year 2017 from the first twenty-six weeks of fiscal year 2016 primarily due to lower amortization of capitalized debt costs during the first twenty-six weeks of fiscal year 2017.

Other Income and Expense. During the first twenty-six weeks of fiscal year 2017, we recognized other income of \$39 thousand. During the first twenty-six weeks of fiscal year 2016 we recognized other income of \$151 thousand primarily due to a gain on the sale of a closed restaurant facility.

Income Tax Expense. During the first twenty-six weeks of fiscal year 2017, we recognized income tax expense of \$8.6 million. During the first twenty-six weeks of fiscal year 2016, we recognized income tax expense of \$8.7 million. The effective tax rate, including the impact of discrete items, decreased to 31.3% for the first twenty-six weeks of fiscal year 2017 compared to 32.9% for the first twenty-six weeks of fiscal year 2016. The effective tax rate decreased in the first twenty-six weeks of fiscal year 2017 primarily due to lower state income taxes recognized in the

first twenty-six weeks. Fiscal year 2017 discrete items and other unexpected changes impacting the annual tax expense may cause the effective tax rate for fiscal year 2017 to differ from the effective tax rate for the first twenty-six weeks of 2017.

Income from Continuing Operations. Income from continuing operations of \$18.9 million in the first twenty-six weeks of fiscal year 2017 increased by \$1.1 million compared to the first twenty-six weeks of fiscal year 2016 due to the factors noted above.

Loss from Discontinued Operations, net of income taxes. Loss from discontinued operations, net of income taxes, for the first twenty-six weeks of fiscal year 2017 was \$30 thousand compared to a loss of \$169 thousand during the first twenty-six weeks of fiscal year 2016. The loss in the first twenty-six weeks of fiscal year 2017 was primarily due to occupancy costs attributable to a closed Ruth's Chris Steak House restaurant offset by the collection of an occupancy related receivable at a closed Ruth's Chris Steak House restaurant. The loss in the first twenty-six weeks of 2016 was primarily attributable to occupancy costs from a closed Ruth's Chris Steak House restaurant.

Net Income. Net income was \$18.9 million in the first twenty-six weeks of fiscal year 2017 and increased by \$1.2 million compared to \$17.7 million in the first twenty-six weeks of fiscal year 2016. The increase was largely attributable to the factors noted above.

Liquidity and Capital Resources

Overview

Our principal sources of cash during the first twenty-six weeks of 2017 were net cash provided by operating activities and borrowings under our prior and current senior credit facilities. Our principal uses of cash during the first twenty-six weeks of 2017 were for capital expenditures, principal repayments under our senior credit facility, stock repurchases and dividend payments. Cash flows from discontinued operations are combined with the cash flows from continuing operations within each of the categories on our statement of cash flows.

In April 2016, our Board of Directors approved a share repurchase program authorizing us to repurchase up to \$60 million of outstanding common stock from time to time. During the first twenty-six weeks of fiscal year 2017, we repurchased 400,000 shares at an aggregate cost of \$8.4 million or an average cost of \$21.08 per share. All repurchased shares were retired and cancelled. As of June 25, 2017, \$18.2 million remained available for future purchases under the share repurchase program.

During the second quarter of fiscal year 2013, we commenced paying quarterly cash dividends to holders of common and restricted stock. We paid a quarterly cash dividend of \$0.09 per share, or \$2.9 million in the aggregate during the first and second quarter of fiscal year 2017. On July 28, 2017, we announced that our Board of Directors declared a quarterly cash dividend of \$0.09 per share, or \$2.8 million in the aggregate, to be paid on August 24, 2017 to common and restricted stockholders of record as of the close of business on August 10, 2017. Future dividends will be subject to the approval of our Board of Directors.

We believe that our borrowing ability under our new senior credit facility coupled with our anticipated cash flow from operations should provide us with adequate liquidity for the next 12 months.

Senior Credit Facility

As of June 25, 2017, we had \$21.0 million of outstanding indebtedness under our senior credit facility with approximately \$64.4 million of borrowings available, net of outstanding letters of credit of approximately \$4.6 million. As of June 25, 2017, the weighted average interest rate on our outstanding debt was 2.6% and the weighted average interest rate on our outstanding letters of credit was 1.6%. In addition, the fee on the unused portion of our senior credit facility was 0.2%.

On February 2, 2017, we entered into a credit agreement with Wells Fargo Bank, National Association as administrative agent, and certain other lenders (the Credit Agreement) governing a new senior credit facility that replaced the prior credit facility. The Credit Agreement provides for a revolving credit facility of \$90.0 million with a \$5.0 million subfacility for letters of credit and a \$5.0 million subfacility for swingline loans. Subject to the satisfaction of certain conditions and lender consent, the revolving credit facility may be increased up to a maximum of \$150.0 million. The Credit Agreement has a maturity date of February 2, 2022. At our option, revolving loans may bear interest at (i) LIBOR, plus an applicable margin or (ii) the highest of (a) the rate publicly announced by Wells Fargo as its prime rate, (b) the average published federal funds rate in effect on such day plus 0.50% and (c) one month LIBOR plus 1.00%, plus an applicable margin. The applicable margin is based on our actual leverage ratio, ranging (a) from 1.50% to 2.25% above the applicable LIBOR rate or (b) at our option, from 0.50% to 1.25% above the applicable base rate.

The Credit Agreement contains customary representations and affirmative and negative covenants (including limitations on indebtedness and liens) as well as financial covenants requiring a minimum fixed coverage charge ratio and limiting our consolidated leverage ratio. As of June 25, 2017, we were in compliance with all of the covenants in the Credit Agreement. The Credit Agreement also contains events of default customary for credit facilities of this type (with customary grace periods, as applicable), including nonpayment of principal or interest when due; material incorrectness of representations and warranties when made; breach of covenants; bankruptcy and insolvency; unsatisfied ERISA obligations; unstayed material judgment beyond specified periods; default under other material indebtedness; and certain changes of control of the Company. If any event of default occurs and is not cured within the applicable grace period, or waived, the outstanding loans may be accelerated by lenders holding a majority of the commitments under the Credit Agreement and the lenders' commitments may be terminated. The obligations under the Credit Agreement are guaranteed by certain of our subsidiaries (the Guarantors), and are secured by a lien on substantially all of our personal property assets other than any equity interest in current and future subsidiaries of the Company.

Under the Credit Agreement, restricted junior payments, which include cash dividend payments, repurchases of our equity securities and payments and prepayments of subordinated indebtedness, made subsequent to February 2, 2017 are limited to \$100.0 million if our consolidated leverage ratio is greater than or equal to 2.00:1.00, and are not limited in amount if our consolidated leverage ratio is

Edgar Filing: Ruths Hospitality Group, Inc. - Form 10-Q

less than 2.00:1.00. As of the date of this Quarterly Report on Form 10-Q, \$14.2 million in junior restricted payments have been made since February 2, 2017.

Sources and Uses of Cash

The following table presents a summary of our net cash provided by (used in) operating, investing and financing activities (in thousands):

	26 Weeks Ended	
	June 25, 2017	June 26, 2016
Net cash provided by (used in):		
Operating activities	\$31,184	\$20,499
Investing activities	(10,649)	(12,667)
Financing activities	(19,095)	(7,374)
Net decrease in cash and cash equivalents	\$1,440	\$458

Operating Activities. Operating cash inflows pertain primarily to restaurant sales and franchise income. Operating cash outflows pertain primarily to expenditures for food and beverages, restaurant operating expenses, marketing and advertising, general and administrative costs and income taxes. Operating activities provided cash flow during the first twenty-six weeks of both fiscal years 2017 and 2016 primarily because operating revenues exceeded cash-based expenses.

Investing Activities. Cash used in investing activities aggregated \$10.6 million in the first twenty-six weeks of fiscal year 2017 compared with \$12.7 million cash used in the first twenty-six weeks of fiscal year 2016. Investing cash outflows during the first twenty-six weeks of both fiscal years 2017 and 2016 pertained primarily to capital expenditure projects. Cash used in investing projects during the first twenty-six weeks of fiscal year 2017 primarily pertained to \$2.9 million for restaurant remodel and capital replacement projects and \$5.7 million for new restaurants. Cash used in investing activities during the first twenty-six weeks of fiscal year 2016 primarily pertained to \$4.9 million for restaurant remodel projects and \$6.6 million for new restaurants.

Financing Activities. Financing activities used cash during the first twenty-six weeks of both fiscal years 2017 and 2016. During the first twenty-six weeks of fiscal year 2017, we: decreased the debt outstanding under our senior credit facility by \$4.0 million; used \$8.4 million to repurchase common stock; paid dividends of \$5.7 million; and paid \$1.4 million in employee taxes in connection with the vesting of restricted stock and the exercise of stock options. We paid the \$1.4 million in taxes in connection with the vesting of restricted stock and the exercise of stock options because some recipients elected to satisfy their individual tax withholding obligations by having us withhold a number of vested shares of restricted stock and/or a number of shares otherwise issuable pursuant to stock options. During the first twenty-six weeks of fiscal year 2016, we: increased the debt outstanding under our senior credit facility by \$30.0 million; used \$31.7 million to repurchase common stock; paid dividends of \$4.7 million; and paid \$1.5 million in employee taxes related to stock based compensation.

Off-Balance Sheet Arrangements

As of June 25, 2017, we did not have any off-balance sheet arrangements.

Critical Accounting Policies and Estimates

The preparation of our financial statements requires management to make estimates, judgments and assumptions that affect the reported amounts of assets, liabilities, revenues and expenses during the periods presented. Our Annual Report on Form 10-K for the fiscal year ended December 25, 2016 includes a summary of the critical accounting policies and estimates that we believe are the most important to aid in the understanding our financial results. There have been no material changes to these critical accounting policies and estimates that impacted our reported amounts of assets, liabilities, revenues or expenses during the first twenty-six weeks of fiscal year 2017.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Interest Rate Risk

The Company is exposed to market risk from fluctuations in interest rates. For fixed rate debt, interest rate changes affect the fair market value of such debt but do not impact earnings or cash flows. Conversely, for variable rate debt, including borrowings under the Company's senior credit facility, interest rate changes generally do not affect the fair market value of such debt, but do impact future earnings and cash flows, assuming other factors are held constant. At June 25, 2017, the Company had \$21.0 million in variable rate

debt outstanding. The Company currently does not use financial instruments to hedge its risk to market fluctuations in interest rates. Holding other variables constant (such as debt levels), a hypothetical immediate one percentage point change in interest rates would be expected to have an impact on pre-tax earnings and cash flows for fiscal year 2017 of approximately \$210 thousand.

Foreign Currency Risk

The Company believes that fluctuations in foreign exchange rates do not present a material risk to its operations due to the relatively small amount of franchise income it receives from outside the U.S. During the first twenty-six weeks of fiscal years 2017 and 2016, franchise income attributable to international locations was approximately \$1.4 million in each year.

Commodity Price Risk

The Company is exposed to market price fluctuations in beef and other food product prices, which in the past have been volatile and have impacted the Company's food and beverage costs. As the Company typically sets its menu prices in advance of its beef and other food product purchases, the Company cannot quickly react to changing costs of beef and other food items. To the extent that the Company is unable to pass the increased costs on to its guests through price increases, the Company's results of operations would be adversely affected. As of June 25, 2017, the Company has entered into negotiated set pricing for approximately 25% of its beef requirements for the remainder of fiscal year 2017. The market for USDA Prime grade beef is particularly volatile. If prices increase, or the supply of beef is reduced, operating margin could be materially adversely affected. Holding other variables constant, a hypothetical 10% fluctuation in beef prices would have an approximate impact on pre-tax earnings ranging from \$1.5 million to \$2.0 million for the remainder of fiscal year 2017.

From time to time, the Company enters into purchase price agreements for other lower-volume food products, including seafood. In the past, certain types of seafood have experienced fluctuations in availability. Seafood is also subject to fluctuations in price based on availability, which is often seasonal. If certain types of seafood are unavailable, or if the Company's costs increase, the Company's results of operations could be adversely affected.

Effects of Healthcare Inflation

The Company is exposed to market price fluctuations related to the cost of providing healthcare to its employees. Claim trends are predicted to outpace inflation throughout the upcoming year. Pharmacy costs are also rising in excess of general and medical cost inflation. If prices increase, or the Company experiences significantly more claims, operating margin could be materially adversely affected. Holding other variables constant, a hypothetical 10% fluctuation in healthcare costs would have an approximate impact on pre-tax earnings of approximately \$500 thousand for the remainder of 2017.

Effects of Inflation

The Company believes that general inflation, excluding increases in food, employee wages and employee health plan costs, has not had a material impact on its results of operations in recent years. Additionally, increases in statutory minimum wage rates may increase our operating costs. Recently, governmental entities acted to increase minimum wage rates in states where Company-owned restaurants are located. The increased minimum wage rates are expected to increase employee compensation and related taxes by approximately \$1.2 million in fiscal year 2017 compared to fiscal year 2016. Also, the U.S. government may consider legislation to increase the federal minimum wage rate, which, if enacted, would further increase employee compensation and related taxes.

ITEM 4. CONTROLS AND PROCEDURES

Evaluation of disclosure controls and procedures

Under the supervision and with the participation of the Company's management, including the Chief Executive Officer and the Chief Financial Officer, the Company conducted an evaluation of the effectiveness of the design and operation of its disclosure controls and procedures (as defined in Rule 13a-15(e) under the Securities Exchange Act of 1934, as amended (the "Exchange Act")), as of June 25, 2017. Based on that evaluation, the Chief Executive Officer and the Chief Financial Officer concluded that the Company's disclosure controls and procedures were effective as of June 25, 2017 to ensure that information required to be disclosed in reports filed or submitted by the Company under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms and that information required to be disclosed by the Company is accumulated and communicated to the Company's management to allow timely decisions regarding the required disclosure.

Changes in internal control over financial reporting

During the fiscal quarter ended June 25, 2017, there was no change in the Company’s internal control over financial reporting (as defined in Rule 13a-15(f) under the Exchange Act) that in the Company’s judgment has materially affected, or is reasonably likely to materially affect, the Company’s internal control over financial reporting.

PART II—OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

From time to time, the Company is involved in various disputes and litigation matters that arise in the ordinary course of business. While litigation is subject to uncertainties and the outcome of litigated matters is not predictable with assurance, the Company is not aware of any legal proceedings pending or threatened against it that it expects to have a material adverse effect on its financial condition or results of operations.

The Company sells a considerable number of gift cards, which are issued and administered by a third party gift card issuer and service provider, consistent with common retail industry practice. The third party gift card issuer is paid a net fee for its services by the Company. The third party gift card issuer and service provider, as well as a number of other restaurant companies, retailers and gift card issuers, were named as defendants in a qui tam action filed under seal in June 2013 by William French on behalf of the State of Delaware in the Superior Court of Delaware in and for New Castle County. The complaint alleges that the Company and the other defendants intentionally failed to report and remit money with respect to unused gift cards to the State of Delaware under the Delaware Escheats Law, and knowingly made, used or caused to be made or used, false statements and records to conceal, avoid or decrease an obligation to pay or transmit such money to Delaware in violation of the Delaware False Claims and Reporting Act (DFCRA). The complaint further alleges that the amount of money that the Company should have escheated to Delaware is approximately \$30 million. The complaint seeks monetary damages (including treble damages under the DFCRA), penalties, and attorneys’ fees and costs. The case was unsealed in March 2014, at which time the court also granted the State of Delaware’s motion to intervene. In August 2016, the Company filed a motion to dismiss the case, and a hearing on that motion was held in October 2016. In April 2017, the Company’s motion was granted and the case was dismissed. On May 1, 2017, the Plaintiff-Relator in this matter filed an interlocutory appeal. On May 18, 2017 the Superior Court declined to certify the appeal and on May 23, 2017 the Delaware Supreme Court denied the appeal.

ITEM 1A. RISK FACTORS

There have been no material changes in the risk factors included in the Company’s Annual Report on Form 10-K for the fiscal year ended December 25, 2016. The impact of circumstances and events described in such risk factors could result in significant adverse effects on our financial position, results of operations and cash flows.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

Stock repurchase activity during the fiscal quarter ended June 25, 2017 was as follows:

Period	Total Number of Shares Purchased	Average Price Paid per Share	Total Number of Shares Purchased as Part of a Publicly	Maximum Dollar Value that May Yet be Purchased
--------	---	---------------------------------------	---	---

			Announced Program	under the Program – Amounts in thousands
March 27, 2017 to April 30, 2017	—	—	—	\$ 26,590
May 1, 2017 to May 28, 2017	400,000	\$ 21.08	400,000	\$ 18,158
May 29, 2017 to June 25, 2017	—	—	—	\$ 18,158
Totals for the fiscal quarter	400,000	\$ 21.08	400,000	\$ 18,158

On April 28, 2016, the Company announced that its Board of Directors approved a share repurchase program under which the Company is authorized to repurchase up to \$60 million of outstanding common stock from time to time in the open market, through negotiated transactions or otherwise (including, without limitation, the use of Rule 10b5-1 plans), depending on share price, market conditions and other factors. The share repurchase program replaced the Company's previous share repurchase program announced in November 2014, which was terminated. The share repurchase program does not obligate the Company to repurchase any dollar amount or number of shares, and has no termination date. The Company intends to conduct any open market share repurchase activities in compliance with the safe harbor provisions of Rule 10b-18 of the Exchange Act. During the fiscal quarter ended June 25, 2017, 400,000 shares were repurchased via open market transactions at an aggregate cash cost of \$8.4 million. During the fiscal quarter ended June 26, 2016, 1,191,881 shares were repurchased via open market transactions at an aggregate cash cost of \$20.0 million. As of June 25, 2017, \$18.2 million remained available for further purchases under the program. The Company's ability to

make future stock purchases under the program is currently limited by our Credit Agreement. Under our Credit Agreement, we are limited to \$100.0 million of junior stock payments, which include cash dividends, repurchases of common stock and prepayments of subordinated indebtedness, if our consolidated leverage ratio is greater than or equal to 2.00:1.00. As of June 25, 2017, \$14.2 million of such payments had been made.
