NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
MAY 31, 2017
(unaudited)

1. BASIS OF PRESENTATION:

Unless the context otherwise requires, the terms “Company,” “CBI,” “we,” “our,” or “us” refer to Constellation Brands, Inc. and its subsidiaries. We have prepared the consolidated financial statements included herein, without audit, pursuant to the rules and regulations of the Securities and Exchange Commission applicable to quarterly reporting on Form 10-Q and reflect, in our opinion, all adjustments necessary to present fairly our financial information. All such adjustments are of a normal recurring nature. Certain information and footnote disclosures normally included in financial statements, prepared in accordance with generally accepted accounting principles, have been condensed or omitted as permitted by such rules and regulations. These consolidated financial statements and related notes should be read in conjunction with the consolidated financial statements and related notes included in our Annual Report on Form 10-K for the fiscal year ended February 28, 2017 (the “2017 Annual Report”). Results of operations for interim periods are not necessarily indicative of annual results. For the three months ended May 31, 2016, we reclassified \$9.5 million on the Consolidated Statements of Cash Flows from proceeds from noncontrolling interests to proceeds from issuance of long-term debt in connection with an immaterial adjustment recorded during the three months ended August 31, 2016, for the conversion of noncontrolling equity interest to long-term debt related to a prior period.

2. RECENTLY ADOPTED ACCOUNTING GUIDANCE:

Stock-based employee compensation –

Effective March 1, 2017, we adopted the FASB amended guidance for, among other items, the accounting for income taxes related to share-based compensation and the related classification in the statement of cash flows. This guidance requires the recognition of excess tax benefits and deficiencies (resulting from an increase or decrease in the fair value of an award from grant date to the vesting or settlement date) in the provision for income taxes as a discrete item in the quarterly period in which they occur. Through February 28, 2017, these amounts were recognized in additional paid-in capital at the time of vesting or settlement. In addition, these amounts are classified as an operating activity in the statement of cash flows instead of as a financing activity where they were previously presented. We adopted this guidance on a prospective basis and, accordingly, prior periods have not been adjusted. Adoption of this guidance resulted in the recognition of excess tax benefits in our provision for income taxes rather than additional paid-in capital of \$32.5 million for the three months ended May 31, 2017.

The adoption of this amended guidance also impacted our calculation of diluted earnings per share under the treasury stock method, as excess tax benefits and deficiencies resulting from share-based compensation are no longer included in the assumed proceeds calculation. This change resulted in a decrease in diluted earnings per share of \$0.02 for the three months ended May 31, 2017.

We have elected to continue to estimate forfeitures expected to occur to determine the amount of compensation cost to be recognized in each period. The remaining provisions of this amended guidance did not have a material impact on our consolidated financial statements.

3. INVENTORIES:

Inventories are stated at the lower of cost (primarily computed in accordance with the first-in, first-out method) or net realizable value. Elements of cost include materials, labor and overhead and consist of the following:

	May 31, 2017	February 28, 2017
(in millions)		
Raw materials and supplies	\$ 169.5	\$ 149.7
In-process inventories	1,189.8	1,260.1
Finished case goods	577.6	545.3
	\$1,936.9	\$ 1,955.1

4. DERIVATIVE INSTRUMENTS:

Overview –

Our risk management and derivative accounting policies are presented in Notes 1 and 6 of our consolidated financial statements included in our 2017 Annual Report and have not changed significantly for the three months ended May 31, 2017.

The aggregate notional value of outstanding derivative instruments is as follows:

	May 31, 2017	February 28, 2017
(in millions)		
Derivative instruments designated as hedging instruments		
Foreign currency contracts	\$ 998.7	\$ 981.7
Interest rate swap contracts	\$ 250.0	\$ 250.0
Derivative instruments not designated as hedging instruments		
Foreign currency contracts	\$ 288.5	\$ 389.9
Commodity derivative contracts	\$ 165.8	\$ 153.2

Credit risk –

We are exposed to credit-related losses if the counterparties to our derivative contracts default. This credit risk is limited to the fair value of the derivative contracts. To manage this risk, we contract only with major financial institutions that have earned investment-grade credit ratings and with whom we have standard International Swaps and Derivatives Association agreements which allow for net settlement of the derivative contracts. We have also established counterparty credit guidelines that are regularly monitored. Because of these safeguards, we believe the risk of loss from counterparty default to be immaterial.

In addition, our derivative instruments are not subject to credit rating contingencies or collateral requirements. As of May 31, 2017, the estimated fair value of derivative instruments in a net liability position due to counterparties was \$16.2 million. If we were required to settle the net liability position under these derivative instruments on May 31, 2017, we would have had sufficient available liquidity on hand to satisfy this obligation.

Table of Contents

Results of period derivative activity –

The estimated fair value and location of our derivative instruments on our balance sheets are as follows (see Note 5):

Assets	Liabilities	
	May 31, 2017	February 28, 2017

Other assets	\$ 1.2	\$ 1.5	Other liabilities	\$ 5.3	\$ 4.7

The principal effect of our derivative instruments designated in cash flow hedging relationships on our results of operations, as well as Other Comprehensive Income (“OCI”), net of income tax effect, is as follows:

Derivative Instruments in Designated Cash Flow Hedging Relationships	Net Gain (Loss) Recognized in OCI (Effective portion)	Location of Net Gain (Loss) Reclassified from AOCI to Income (Effective portion)	Net Gain (Loss) Reclassified from AOCI to Income (Effective portion)
--	---	--	--

(in millions)

For the Three Months Ended May 31, 2017

Foreign currency contracts	\$ 38.6	Sales	\$ 0.3
		Cost of product sold	(2.7)
Interest rate swap contracts	(2.0)	Interest expense	(0.1)
	\$ 36.6		\$ (2.5)

For the Three Months Ended May 31, 2016

Foreign currency contracts	\$ (2.3)	Sales	\$ 0.1
		Cost of product sold	(5.0)
Interest rate swap contracts	0.9	Interest expense	(1.9)
	\$ (1.4)		\$ (6.8)

We expect \$3.2 million of net gains, net of income tax effect, to be reclassified from accumulated other comprehensive income (loss) (“AOCI”) to our results of operations within the next 12 months.

5. FAIR VALUE OF FINANCIAL INSTRUMENTS:

Authoritative guidance establishes a framework for measuring fair value and requires disclosures about fair value measurements for financial instruments. This guidance emphasizes that fair value is a market-based measurement, not an entity-specific measurement, and states that a fair value measurement should be determined based on assumptions that market participants would use in pricing an asset or liability. It establishes a hierarchy for inputs used in measuring fair value that maximizes the use of observable inputs and minimizes the use of unobservable inputs by requiring that the most observable inputs be used when available. The hierarchy includes three levels:

Level 1 inputs are quoted prices in active markets for identical assets or liabilities;

Level 2 inputs include data points that are observable such as quoted prices for similar assets or liabilities in active markets, quoted prices for identical assets or similar assets or liabilities in markets that are not active, and inputs (other than quoted prices) such as interest rates and yield curves that are observable for the asset and liability, either directly or indirectly; and

Level 3 inputs are unobservable data points for the asset or liability, and include situations where there is little, if any, market activity for the asset or liability.

Fair value methodology and assumptions –

The methods and assumptions we use to estimate the fair value for each class of our financial instruments are presented in Notes 1 and 7 of our consolidated financial statements included in our 2017 Annual Report and have not changed significantly for the three months ended May 31, 2017. The carrying amounts of certain of our financial instruments, including cash and cash equivalents, accounts receivable, accounts payable and notes payable to banks, approximate fair value as of May 31, 2017, and February 28, 2017, due to the relatively short maturity of these instruments. As of May 31, 2017, the carrying amount of long-term debt, including the current portion, was \$8,223.4 million, compared with an estimated fair value of \$8,534.5 million. As of February 28, 2017, the carrying amount of long-term debt, including the current portion, was \$8,631.6 million, compared with an estimated fair value of \$8,845.5 million.

Nonrecurring basis measurements –

The following table presents our assets and liabilities measured at estimated fair value on a nonrecurring basis for which an impairment assessment was performed for the period presented:

For the Three Months Ended May 31, 2017				
Trademarks	\$—	\$ —	\$ 136.0	\$ 86.8

Trademarks:

For the first quarter of fiscal 2018, we identified certain negative trends within our Beer segment's Ballast Point craft beer portfolio which, when combined with the recent negative craft beer industry trends, including slower growth rates and increased competition, indicated that it was more likely than not that the fair value of our indefinite lived intangible asset associated with the craft beer trademarks might be below its carrying value. These negative trends were the result of (i) a disruption in our distribution network transition plan, (ii) an unexpected decrease in sales from product innovations and (iii) a significant shift in market conditions for our craft beer

Table of Contents

portfolio, all of which resulted in a decline in net sales and depletion trends, which represent distributor shipments of our branded products to retail customers, for the first quarter of fiscal 2018 as compared to the first quarter of fiscal 2017, following consecutive quarters of significant net sales and depletion volume growth for our craft beer portfolio. Additionally, net sales for the first quarter of fiscal 2018 were below our forecasted net sales for the first quarter of fiscal 2018. Accordingly, we performed a quantitative assessment for impairment of the craft beer trademark asset. As a result of this assessment, the craft beer trademark asset with a carrying value of \$222.8 million was written down to its estimated fair value of \$136.0 million, resulting in an impairment of \$86.8 million. This impairment is included in selling, general and administrative expenses.

We measured the amount of impairment by calculating the amount by which the carrying value of the trademark asset exceeded its estimated fair value. The estimated fair value was determined based on an income approach using the relief from royalty method, which assumes that, in lieu of ownership, a third party would be willing to pay a royalty in order to exploit the related benefits of the trademark asset. The cash flow projections we use to estimate the fair values of our trademarks involve several assumptions, including (i) projected revenue growth rates, (ii) estimated royalty rates, (iii) after-tax royalty savings expected from ownership of the trademarks and (iv) discount rates used to derive the estimated fair value of the trademarks.

6. GOODWILL:

The changes in the carrying amount of goodwill are as follows:

Acquisitions –

Obregon Brewery:

In December 2016, we acquired a brewery operation business in Obregon, Sonora, Mexico from Grupo Modelo, S. de R.L. de C.V., formerly known as Grupo Modelo, S.A.B. de C.V., (“Modelo”), a subsidiary of Anheuser-Busch InBev SA/NV for cash paid of \$568.7 million, net of cash acquired, subject to estimated working capital adjustments due to seller of \$1.0 million (the “Obregon Brewery”). The transaction primarily included the acquisition of operations; goodwill; property, plant and equipment; and inventories. The purchase accounting has not yet been finalized due primarily to an incomplete valuation of property, plant and equipment. Further changes to the preliminary purchase price allocation will be recognized as valuations are finalized. This acquisition provided us with immediate functioning brewery capacity to support our fast-growing, high-end Mexican beer portfolio and flexibility for future innovation initiatives. It also enabled us to become fully independent from an interim supply agreement with Modelo, which was terminated at the time of this acquisition. The results of operations of the Obregon Brewery are reported in

the Beer segment and have been included in our consolidated results of operations from the date of acquisition.

Table of Contents**High West:**

In October 2016, we acquired all of the issued and outstanding common and preferred membership interests of High West Holdings, LLC for \$136.6 million, net of cash acquired (“High West”). This transaction primarily included the acquisition of operations, goodwill, trademarks, inventories and property, plant and equipment. This acquisition included a portfolio of craft whiskeys and other select spirits. The results of operations of High West are reported in the Wine and Spirits segment and have been included in our consolidated results of operations from the date of acquisition.

Charles Smith:

In October 2016, we acquired the Charles Smith Wines, LLC business, a collection of five super and ultra-premium wine brands, for \$120.8 million (“Charles Smith”). This transaction primarily included the acquisition of goodwill, trademarks, inventories and certain grape supply contracts, plus an earn-out over three years based on the performance of the brands. The results of operations of Charles Smith are reported in the Wine and Spirits segment and have been included in our consolidated results of operations from the date of acquisition.

Prisoner:

In April 2016, we acquired The Prisoner Wine Company business, including a portfolio of five super-luxury wine brands, for \$284.9 million (“Prisoner”). This transaction primarily included the acquisition of goodwill, inventories, trademarks and certain grape supply contracts. The results of operations of Prisoner are reported in the Wine and Spirits segment and have been included in our results of operations from the date of acquisition.

Divestiture –**Canadian Divestiture:**

In December 2016, we sold the Wine and Spirits’ Canadian wine business, which included Canadian wine brands such as Jackson-Triggs and Inniskillin, wineries, vineyards, offices, facilities and Wine Rack retail stores, at a transaction value of C\$1.03 billion, or \$775.1 million, (the “Canadian Divestiture”). We received cash proceeds of \$570.3 million, net of outstanding debt and direct costs to sell of \$194.9 million and \$9.9 million, respectively. The following table summarizes the net gain recognized in connection with this divestiture:

(in millions)

Cash received from buyer	\$	580.2	
Net assets sold	(175.3)	
AOCI reclassification			
adjustments, primarily foreign	(122.5)	
currency translation			
Direct costs to sell	(9.9)	
Other	(10.1)	
Gain on sale of business	\$	262.4	

Additionally, our Wine and Spirits’ U.S. business recognized an impairment of \$8.4 million in the fourth quarter of fiscal 2017 for trademarks associated with certain U.S. brands sold exclusively through the Canadian wine business for which we expect future sales of these brands to be minimal subsequent to the Canadian Divestiture. We have also recognized \$15.2 million of other costs associated with the Canadian Divestiture, with \$12.0 million recognized for the year ended February 28, 2017, primarily in connection with the evaluation of the merits of executing an initial public offering for a portion of our then-owned Canadian wine business, and \$3.2 million recognized for the three months ended May 31, 2017, in connection with the sale of the Canadian wine business. These amounts are included in selling, general and administrative expenses. In total, we have recognized \$238.8 million of net gains associated with the Canadian Divestiture, with \$242.0 million of net gains recognized for the year ended February 28, 2017, and \$3.2 million of net losses recognized for the three months ended May 31, 2017, as follows:

(in millions)

Gain on sale of business	\$262.4
Impairment of trademarks	(8.4)
Other net costs	(15.2)
Net gain associated with the Canadian Divestiture and related activities	\$238.8

(4) on the present value of the future payments at the adjusted Treasury Rate plus 25 basis points. On or after November 9, 2046, redeemable, in whole or in part, at our option at any time at a redemption price equal to 100% of the outstanding principal amount, plus accrued and unpaid interest.

In January 2008, we issued \$700.0 million aggregate principal amount of 7.25% Senior Notes due May 2017 (the “January 2008 Senior Notes”) in exchange for notes originally issued in May 2007. In May 2017, we repaid the January 2008 Senior Notes with a portion of the proceeds from the May 2017 Senior Notes.

Accounts receivable securitization facilities:

On September 27, 2016, we amended our prior trade accounts receivable securitization facility (as amended, the “CBI Facility”) for an additional 364-day term. Under the CBI Facility, trade accounts receivable generated by us and certain of our subsidiaries are sold by us to a wholly-owned bankruptcy remote single purpose subsidiary, the CBI SPV, which is consolidated by us for financial reporting purposes. The CBI Facility provides borrowing capacity of \$235.0 million up to \$340.0 million structured to account for the seasonality of our business, subject to further limitations based upon various pre-agreed formulas.

Also, on September 27, 2016, Crown Imports amended its prior trade accounts receivable securitization facility (as amended, the “Crown Facility”) for an additional 364-day term. Under the Crown Facility, trade accounts receivable generated by Crown Imports are sold by Crown Imports to its wholly-owned bankruptcy remote single purpose subsidiary, the Crown SPV, which is consolidated by us for financial reporting purposes. The Crown Facility provides borrowing capacity of \$120.0 million up to \$210.0 million structured to account for the seasonality of Crown Imports’ business.

9. INCOME TAXES:

Our effective tax rate for the three months ended May 31, 2017, and May 31, 2016, was 15.5% and 31.9%, respectively. For the three months ended May 31, 2017, our effective tax rate was lower than the federal statutory rate of 35% primarily due to (i) lower effective tax rates applicable to our foreign businesses, including our assertion regarding indefinitely reinvesting earnings of certain foreign subsidiaries, which was asserted in the third quarter of fiscal 2017, and (ii) the recognition of the income tax effect of stock-based compensation awards in the income statement when the awards vest or are settled in connection with our March 1, 2017, adoption of the FASB's amended share-based compensation guidance. For the three months ended May 31, 2016, our effective tax rate was lower than the federal statutory rate primarily due to lower effective tax rates applicable to our foreign businesses.

10. NET INCOME PER COMMON SHARE ATTRIBUTABLE TO CBI:

For the three months ended May 31, 2017, and May 31, 2016, net income per common share – diluted for Class A Common Stock has been computed using the if-converted method and assumes the exercise of stock options using the treasury stock method and the conversion of Class B Convertible Common Stock as this method is more dilutive than the two-class method. For the three months ended May 31, 2017, and May 31, 2016, net income per common share – diluted for Class B Convertible Common Stock has been computed using the two-class method and does not assume conversion of Class B Convertible Common Stock into shares of Class A Common Stock.

The computation of basic and diluted net income per common share is as follows:

Guarantors. The guarantees are full and unconditional, as those terms are used in Rule 3-10 of Regulation S-X, except that a Subsidiary Guarantor can be automatically released and relieved of its obligations under certain customary circumstances contained in the indentures governing our senior notes. These customary circumstances include, so long as other applicable provisions of the indentures are adhered to, the termination or release of a Subsidiary Guarantor's guarantee of other indebtedness or upon the legal defeasance or covenant defeasance or satisfaction and discharge of our senior notes. Separate financial information for our Subsidiary Guarantors is not presented because we have determined that such financial information would not be material to investors. The accounting policies of the parent company, the Subsidiary Guarantors and the Subsidiary Nonguarantors are the same as those described for the Company in Note 1 of our consolidated financial statements included in our 2017 Annual Report. There are no restrictions on the ability of the Subsidiary Guarantors to transfer funds to us in the form of cash dividends, loans or advances.

13. BUSINESS SEGMENT INFORMATION:

Our internal management financial reporting consists of two business divisions: (i) Beer and (ii) Wine and Spirits, and we report our operating results in three segments: (i) Beer, (ii) Wine and Spirits, and (iii) Corporate Operations and Other. In the Beer segment, our portfolio consists of high-end imported and craft beer brands. We have an exclusive perpetual brand license to import, market and sell in the U.S. our Mexican beer portfolio. In the Wine and Spirits segment, we sell a large number of wine brands across all categories – table wine, sparkling wine and dessert wine – and across all price points – popular, premium and luxury categories, primarily within the \$5 to \$25 price range at U.S. retail – complemented by certain premium spirits brands. Amounts included in the Corporate Operations and Other segment consist of costs of executive management, corporate development, corporate finance, human resources, internal audit, investor relations, legal, public relations and information technology. The amounts included in the

Corporate Operations and Other segment are general costs that are

applicable to the consolidated group and are therefore not allocated to the other reportable segments. All costs reported within the Corporate Operations and Other segment are not included in our chief operating decision maker's evaluation of the operating income performance of the other reportable segments. The business segments reflect how our operations are managed, how resources are allocated, how operating performance is evaluated by senior management and the structure of our internal financial reporting.

In addition, management excludes items that affect comparability ("Comparable Adjustments") from its evaluation of the results of each operating segment as these Comparable Adjustments are not reflective of core operations of the segments. Segment operating performance and segment management compensation are evaluated based upon core segment operating income (loss). As such, the performance measures for incentive compensation purposes for segment management do not include the impact of these Comparable Adjustments.

We evaluate segment operating performance based on operating income (loss) of the respective business units. Comparable Adjustments that impacted comparability in our segment operating income (loss) for each period are as follows:

14. ACCOUNTING GUIDANCE NOT YET ADOPTED:

Revenue recognition –

In May 2014, the FASB issued guidance regarding the recognition of revenue from contracts with customers. Under this guidance, an entity will recognize revenue to depict the transfer of goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. A five step process will be utilized to recognize revenue, as follows: (i) identify the contract with a customer, (ii) identify the performance obligations in the contract, (iii) determine the transaction price, (iv) allocate the transaction price to the performance obligations in the contract and (v) recognize revenue when (or as) the entity satisfies a performance

obligation. Additionally, this guidance requires improved disclosures regarding the nature, amount, timing and uncertainty of revenue and cash flows arising from contracts with customers. We are required to adopt this guidance for our annual and interim periods beginning March 1, 2018,

Table of Contents

utilizing one of two methods: retrospective restatement for each reporting period presented at time of adoption, or a modified retrospective approach with the cumulative effect of initially applying this guidance recognized at the date of initial application.

We intend to implement this guidance under the retrospective approach. Based on our preliminary review, we expect that the broad definition of variable consideration under this guidance will require us to estimate and record certain variable payments resulting from various sales incentives earlier than we currently record them. We do not expect this change to have a material impact on our consolidated financial statements. We are currently preparing to implement changes to our accounting policies, systems and controls to support the new revenue recognition and disclosure requirements.

Leases –

In February 2016, the FASB issued guidance for the accounting for leases. Under this guidance, a lessee will recognize assets and liabilities for most leases, but will recognize expense similar to current lease accounting guidance. For leases with a term of 12 months or less, a lessee is permitted to make an accounting policy election not to recognize lease assets and lease liabilities. We are required to adopt this guidance for our annual and interim periods beginning March 1, 2019, using a modified retrospective approach. We are currently assessing the financial impact of this guidance on our consolidated financial statements.

Item 2. Management’s Discussion and Analysis of Financial Condition and Results of Operations.

Introduction

This MD&A provides additional information on our businesses, current developments, financial condition, cash flows and results of operations. It should be read in conjunction with our consolidated financial statements and notes thereto included herein (the “Financial Statements”) and with our consolidated financial statements and notes included in our 2017 Annual Report. This MD&A is organized as follows:

- **Overview.** This section provides a general description of our business, which we believe is important in understanding the results of our operations, financial condition and potential future trends.

Strategy. This section provides a description of our strategy and a discussion of acquisitions and divestitures.

Results of operations. This section provides an analysis of our results of operations presented on a business segment basis. In addition, a brief description of transactions and other items that affect the comparability of the results is provided.

Financial liquidity and capital resources. This section provides an analysis of our cash flows and a discussion of the amount of financial capacity available to fund our ongoing operations and future commitments, as well as a discussion of other financing arrangements.

Overview

We are an international beverage alcohol company with a broad portfolio of consumer-preferred high-end imported and craft beer brands, and premium wine and spirits brands. We are the third-largest producer and marketer of beer for the U.S. market and the world’s leading premium wine company. We are the largest multi-category supplier (beer, wine and spirits) of beverage alcohol in the U.S., and a leading supplier of wine from New Zealand and Italy to North

America.

Our internal management financial reporting consists of two business divisions: (i) Beer and (ii) Wine and Spirits, and we report our operating results in three segments: (i) Beer, (ii) Wine and Spirits, and (iii) Corporate Operations and Other. In the Beer segment, our portfolio consists of high-end imported and craft beer brands. We have an exclusive perpetual brand license to import, market and sell in the U.S. our Mexican beer portfolio. In the

Wine and Spirits segment, we sell a large number of wine brands across all categories – table wine, sparkling wine and dessert wine – and across all price points – popular, premium and luxury categories, primarily within the \$5 to \$25 price range at U.S. retail – complemented by certain premium spirits brands. Amounts included in the Corporate Operations and Other segment consist of costs of executive management, corporate development, corporate finance, human resources, internal audit, investor relations, legal, public relations and information technology. The amounts included in the Corporate Operations and Other segment are general costs that are applicable to the consolidated group and are therefore not allocated to the other reportable segments. All costs reported within the Corporate Operations and Other segment are not included in our chief operating decision maker’s evaluation of the operating income performance of the other reportable segments. The business segments reflect how our operations are managed, how resources are allocated, how operating performance is evaluated by senior management and the structure of our internal financial reporting.

Strategy

Our overall strategy is to sustain profitable growth and build shareholder value. We position our portfolio to benefit from industry premiumization trends, which we believe will continue to result in faster growth rates in the high-end of the beer, wine and spirits categories. We focus on developing our expertise in consumer insights and category management as well as our strong distributor network, which provides an effective route-to-market. Additionally, we leverage our scale across the total beverage alcohol market and our level of diversification hedges our portfolio risk. In addition to growing our existing business, we seek targeted acquisitions of businesses that are premium, growing, high-margin, consumer-led, have a low integration risk and/or fill a gap in our portfolio.

We strive to strengthen our portfolio of premium beer, wine and spirits brands and differentiate ourselves through:

- leveraging our leading position in total beverage alcohol and our scale with wholesalers and retailers to expand distribution of our product portfolio and cross promotional opportunities;
- strengthening relationships with wholesalers and retailers by providing consumer and beverage alcohol insights;
- investing in brand building activities;
- positioning ourselves for success with consumer-led innovation capabilities;
- realizing operating efficiencies through expanding and enhancing production capabilities and maximizing asset utilization; and
- developing employees to enhance performance in the marketplace.

Our business strategy in the Beer segment focuses on leading the high-end of the U.S. beer market and includes continued focus on growing our beer portfolio in the U.S. through expanding distribution for key brands, as well as new product development and innovation within the existing portfolio of brands, and continued construction, expansion and optimization activities for our Mexico beer operations.

In connection with this strategy, we have more than doubled the production capacity of our brewery located in Nava, Coahuila, Mexico (the “Nava Brewery”) since its June 2013 acquisition and we acquired our Obregon Brewery in Obregon, Sonora, Mexico. Expansion, construction and optimization efforts continue under our previously-announced Mexico beer expansion projects to align with our anticipated future growth expectations.

Our business strategy in the Wine and Spirits segment is to be the leader in the premium wine category and build a portfolio of premium spirits brands. We are investing to meet the evolving needs of consumers and building brands through consumer insights, sensory expertise, innovation and refreshing existing brands. In this segment, we continue to focus on the premiumization of our branded wine and spirits portfolio. We dedicate a large share of our sales and marketing resources to some of our well-known wine and spirits brands sold in the U.S., which comprise our U.S.

Focus Brands (“Focus Brands”), as they represent a majority of our U.S. wine and spirits revenue and profitability, and generally have strong positions in their respective price categories. These brands include: 7

25

Table of Contents

Moons, Black Box, Casa Noble, Clos du Bois, Estancia, Franciscan, High West, Kim Crawford, Kung Fu Girl, Mark West, Meiomi, Mount Veeder, Nobilo, Ravage, Robert Mondavi, Ruffino, Simi, SVEDKA Vodka, The Dreaming Tree, The Prisoner and The Velvet Devil. In markets where it is feasible, we have a consolidated U.S. distribution network in order to obtain dedicated distributor selling resources which focus on our U.S. wine and spirits portfolio to drive organic growth. This consolidated U.S. distribution network currently represents about 70% of our branded wine and spirits volume in the U.S. Throughout the terms of these contracts, we generally expect shipments on an annual basis to these distributors to essentially equal the distributors' shipments to retailers.

Marketing, sales and distribution of our products are managed on a geographic basis in order to fully leverage leading market positions. In addition, market dynamics and consumer trends vary across each of our markets. Within our primary market in the U.S., we offer a range of beverage alcohol products across the imported beer, craft beer, branded wine and spirits categories, with separate distribution networks utilized for (i) our beer portfolio and (ii) our wine and spirits portfolio. The environment for our products is competitive in each of our markets.

We remain committed to our long-term financial model of growing sales, expanding margins and increasing cash flow in order to achieve earnings per share growth, reduce borrowings and pay quarterly cash dividends.

Acquisitions and Divestitures

Beer Segment

Obregon Brewery Acquisition

In December 2016, we acquired the Obregon Brewery, which primarily included the acquisition of operations; goodwill; property, plant and equipment; and inventories. This acquisition provided us with immediate functioning brewery capacity to support our fast-growing, high-end Mexican beer portfolio and flexibility for future innovation initiatives. It also enabled us to become fully independent from an interim supply agreement with Modelo, which was terminated at the time of this acquisition. The results of operations of the Obregon Brewery are reported in the Beer segment and have been included in our consolidated results of operations from the date of acquisition.

Wine and Spirits Segment

Canadian Divestiture

In December 2016, we sold our Canadian wine business, which included Canadian wine brands such as Jackson-Triggs and Inniskillin, wineries, vineyards, offices, facilities and Wine Rack retail stores, at a transaction value of C\$1.03 billion, or \$775.1 million. Accordingly, our consolidated results of operations include the results of operations of our Canadian wine business through the date of divestiture. We received cash proceeds of \$570.3 million, net of outstanding debt and direct costs to sell. We will continue to export certain of our brands into the Canadian market, which remains our largest export market. This transaction is consistent with our strategic focus on premium, high-margin and high-growth brands. We recognized a net gain on the sale of the business in the fourth quarter of fiscal 2017 of \$262.4 million.

Table of Contents

The following table presents selected financial information included in our historical consolidated financial statements for the prior year comparable period that are no longer part of our consolidated results after the Canadian Divestiture.

	First Quarter 2017
(in millions)	
Net sales	\$ 89.6
Gross profit	\$ 35.5
Depreciation and amortization	\$ 2.8
Operating income	\$ 9.5
Income before income taxes	\$ 9.3

Cash flow from operating activities \$ 12.3

Additionally, the impact on our historical wine and spirits segment results is the same as the impact on the historical consolidated results for the prior year comparable period for net sales, gross profit, depreciation and amortization, and operating income.

High West Acquisition

In October 2016, we acquired High West, which primarily included the acquisition of operations, goodwill, trademarks, inventories and property, plant and equipment. This acquisition included a portfolio of distinctive, award-winning, fast-growing and high-end craft whiskeys and other select spirits. The results of operations of High West are reported in the Wine and Spirits segment and have been included in our consolidated results of operations from the date of acquisition.

Charles Smith Acquisition

In October 2016, we acquired Charles Smith, which primarily included the acquisition of goodwill, trademarks, inventories and certain grape supply contracts. This acquisition included a collection of five super and ultra-premium wine brands and solidified our position as the second leading supplier of Washington State wines with this collection of fast-growing, high quality wines that have strong consumer affinity and demand. The results of operations of Charles Smith are reported in the Wine and Spirits segment and have been included in our consolidated results of operations from the date of acquisition.

Prisoner Acquisition

In April 2016, we acquired Prisoner, which primarily included the acquisition of goodwill, inventories, trademarks and certain grape supply contracts. This acquisition, which included a portfolio of five fast-growing, higher-margin, super-luxury wine brands, aligned with our portfolio premiumization strategy and strengthened our position in the super-luxury wine category. The results of operations of Prisoner are reported in the Wine and Spirits segment and have been included in our consolidated results of operations from the date of acquisition.

For additional information on these acquisitions and divestitures, refer to Note 6 of the Financial Statements.

Results of Operations

Financial Highlights

References to organic throughout the following discussion exclude the impact of acquired brand activity in connection with the acquisitions of Prisoner, High West and Charles Smith (wine and spirits), and divested brand activity in connection with the Canadian Divestiture, as appropriate.

For the three months ended May 31, 2017 (“First Quarter 2018”), and May 31, 2016 (“First Quarter 2017”):

Our results of operations benefited from improvements in both the Beer and Wine and Spirits segments.

Net sales increased 3% primarily due to an increase in Beer’s net sales driven predominantly by volume growth within our Mexican beer portfolio, partially offset by a decrease in Wine and Spirits’ net sales due largely to the Canadian Divestiture.

Operating income increased 3% largely due to benefits from lower cost of product sold and the net sales volume growth for the Mexican beer portfolio, and benefits from the acquired brands and a favorable product mix shift within the Wine and Spirits segment, partially offset by an unfavorable change in Comparable Adjustments.

Net income attributable to CBI and diluted net income per common share attributable to CBI increased 27% and 29%, respectively, primarily due to the items discussed above and an income tax benefit driven largely by a change in our assertion regarding the indefinite reinvestment of certain foreign earnings in the third quarter of fiscal 2017 and our March 1, 2017 adoption of the FASB’s amended share-based compensation guidance.

Comparable Adjustments

Management excludes items that affect comparability from its evaluation of the results of each operating segment as these Comparable Adjustments are not reflective of core operations of the segments. Segment operating performance and segment management compensation are evaluated based on core segment operating income (loss). As such, the performance measures for incentive compensation purposes for segment management do not include the impact of these Comparable Adjustments.

As more fully described herein and in the related Notes to the Financial Statements, the Comparable Adjustments that impacted comparability in our results for each period are as follows:

	First Quarter 2018	First Quarter 2017

Inventory Step-Up

In connection with acquisitions, the allocation of purchase price in excess of book value for certain inventories on hand at the date of acquisition is referred to as inventory step-up. Inventory step-up represents an assumed manufacturing profit attributable to the acquired business prior to acquisition. Flow through of inventory step-up was associated primarily with the acquisitions of Prisoner (First Quarter 2018) and Meiom (First Quarter 2017).

Undesignated Commodity Derivative Contracts

Net gain (loss) on undesignated commodity derivative contracts represents a net gain (loss) from the changes in fair value of undesignated commodity derivative contracts. The net gain (loss) is reported outside of segment operating results until such time that the underlying exposure is recognized in the segment operating results. At settlement, the net gain (loss) from the changes in fair value of the undesignated commodity derivative contracts is reported in the appropriate operating segment, allowing the results of our operating segments to reflect the economic effects of the commodity derivative contracts without the resulting unrealized mark to fair value volatility.

Selling, General and Administrative Expenses

Impairment of Intangible Assets

For First Quarter 2018, we identified certain negative trends within our Beer segment's Ballast Point craft beer portfolio which, when combined with the recent negative craft beer industry trends, including slower growth rates and increased competition, indicated that it was more likely than not that the fair value of our indefinite lived intangible asset associated with the craft beer trademarks might be below its carrying value. These negative trends were the result of (i) a disruption in our distribution network transition plan, (ii) an unexpected decrease in sales from product innovations and (iii) a significant shift in market conditions for our craft beer portfolio, all of which resulted in a decline in net sales and depletion trends, which represent distributor shipments of our branded products to retail customers, for the first quarter of fiscal 2018 as compared to the first quarter of fiscal 2017, following consecutive quarters of significant net sales and depletion volume growth for our craft beer portfolio. Additionally, First Quarter 2018 net sales were below our Fiscal 2018 forecasted net sales for the quarter. In the fourth quarter of fiscal 2017, pursuant to our accounting policy, we had performed our annual impairment analysis for intangible assets with indefinite lives. No indication of impairment was noted for any of our indefinite lived intangible assets for the fourth quarter of fiscal 2017 as the estimated fair value of each of our indefinite lived intangible assets exceeded their

carrying value.

29

Table of Contents

In connection with the First Quarter 2018 change in trends for our craft beer portfolio, we performed a quantitative assessment for impairment of the craft beer trademark asset by comparing the carrying value of the trademark asset to its estimated fair value. The estimated fair value of the trademark asset was calculated based on an income approach using the relief from royalty method. In estimating the fair value of the trademark asset, management made assumptions and projections regarding future cash flows based upon future revenues and other factors. The assumptions used in the estimate of fair value are consistent with the projections and assumptions used in our recently revised strategic operating plans for our craft beer portfolio. As a result of this assessment, the craft beer trademark asset with a carrying value of \$222.8 million was written down to its estimated fair value of \$136.0 million, resulting in an impairment of \$86.8 million. This impairment is included in selling, general and administrative expenses.

The most significant assumptions used in the relief from royalty method to determine the estimated fair value of trademark intangible assets with indefinite lives in connection with impairment testing are: (i) the discount rate, (ii) the estimated royalty rate, (iii) the expected long-term growth rate and (iv) the annual revenue projections. As the discount rate is based upon market rates of return, which are generally subject to more volatility, if we used a discount rate that was 50 basis points higher in our impairment testing of the craft beer trademark asset as of May 31, 2017, this change would have resulted in an additional impairment charge of \$10.0 million. For all other assumptions, if we used a royalty rate that was 50 basis points lower or used an expected long-term growth rate that was 50 basis points lower or used annual revenue projections that were 100 basis points lower in our impairment testing of the craft beer trademark asset as of May 31, 2017, these changes would have resulted in an additional impairment charge of \$1.0 million to \$12.0 million.

Costs Associated With The Canadian Divestiture And Related Activities

Costs associated with the Canadian Divestiture and related activities represent costs incurred in connection with the evaluation of the merits of executing an initial public offering for a portion of our Canadian wine business and net other costs incurred in connection with the sale of the Canadian wine business.

Loss On Write-Off Of Debt Issuance Costs

Represents a write-off of debt issuance costs in connection with the May 2017 repayment of the outstanding obligations under the U.S. Term A loan facility under our 2016 Credit Agreement. See “Debt – Senior Notes” below for additional discussion.

Depletion volume ⁽¹⁾⁽²⁾ 11.6 %

(1) Previously reported Beer shipment and depletion volumes were restated in the fourth quarter of fiscal 2017 for an immaterial error associated with the conversion of 7-ounce Coronita case equivalents to 12-ounce case equivalents.

(2) Depletions represent distributor shipments of our respective branded products to retail customers, based on third-party data, including acquired brands from the date of acquisition and for the comparable prior year period.

The increase in Beer's net sales is primarily due to (i) volume growth within our Mexican beer portfolio of \$79.5 million, which benefited from continued consumer demand and increased marketing spend, and (ii) a favorable impact from pricing in select markets within our Mexican beer portfolio of \$21.8 million. For First Quarter 2018, the shipment volume growth trend lagged the depletion volume growth trend due primarily to strong depletion volume toward the end of the quarter. For Fiscal 2018, we expect shipment volume growth to be more generally aligned with depletion volume growth.

	First Quarter 2018	First Quarter 2017	Dollar Change	Percent Change

Organic U.S. Domestic Focus Brands	7.7	7.1		8.5 %
Depletion volume ⁽²⁾				
U.S. Domestic				(1.1 %)
U.S. Domestic Focus Brands				3.6 %

The decrease in Wine and Spirits' net sales is primarily due to the Canadian Divestiture of \$89.6 million, partially offset by organic wine and spirits net sales growth of \$35.3 million and net sales from acquired brands of \$26.9 million. The organic growth is due largely to favorable product mix shift of \$15.1 million and branded wine and spirits volume growth of \$12.5 million. In addition, First Quarter 2018 net sales growth benefited from pricing due largely to lower promotional spend. These pricing benefits are expected to moderate for the remainder of fiscal 2018 as promotional spend is expected to increase for the branded wine and spirits portfolio for the remainder of fiscal 2018. For First Quarter 2018, the U.S. shipment volume growth trend exceeded the U.S. depletion volume growth trend due largely to timing of shipments in First Quarter 2018. Accordingly, shipment volume growth is expected to

lag depletion volume growth during the remainder of fiscal 2018 as we expect U.S. shipment volume growth to be generally aligned with depletion volume growth for Fiscal 2018.

(in millions)					
Beer	\$683.6	\$572.2	\$111.4	19	%
Wine and Spirits	319.4	298.0	21.4	7	%
Comparable Adjustments (7.7)	11.1	(18.8)	NM		
Consolidated gross profit	\$995.3	\$881.3	\$114.0	13	%

NM = Not meaningful

The increase in Beer's gross profit is primarily due to (i) lower cost of product sold for our Mexican beer business of \$58.8 million and (ii) the volume growth and the favorable impact from pricing in select markets within our Mexican beer portfolio of \$38.1 million and \$20.4 million, respectively. The lower cost of product sold is primarily due to operational and foreign currency transactional benefits within our Mexican beer portfolio of \$35.5 million and \$14.2 million, respectively. These benefits from lower cost of product sold for our Mexican beer business are expected to lessen for the remainder of fiscal 2018 due primarily to increasing depreciation and brewery compensation and benefits, both supporting the continued growth of the Mexican beer portfolio.

The increase in Wine and Spirits' gross profit is primarily due to organic wine and spirits growth of \$42.1 million and gross profit from the acquired brands of \$14.6 million, partially offset by a decrease due to the Canadian Divestiture of \$35.5 million. The organic growth is due largely to favorable product mix shift of \$13.6 million, favorable impact from U.S. branded wine and spirits pricing of \$11.0 million and volume growth of \$8.5 million.

Gross profit as a percent of net sales increased to 51.4% for First Quarter 2018 compared with 47.1% for First Quarter 2017 primarily due to (i) lower cost of product sold for the Beer segment which contributed approximately 330 basis points, (ii) the favorable impact from Beer pricing in select markets which contributed approximately 60 basis points, (iii) the favorable impact from the acquired higher-margin wine and spirits brands and divestiture of the lower-margin Canadian wine business which contributed approximately 50 basis points, and (iv) the favorable product mix shift for the Wine and Spirits segment which contributed approximately 40 basis points; partially offset by a negative impact from the change in Comparable Adjustments of approximately 100 basis points.

Selling, General and Administrative Expenses

	First Quarter 2018	First Quarter 2017	Dollar Change	Percent Change	
(in millions)					
Beer	\$183.0	\$162.9	\$20.1	12	%
Wine and Spirits	113.8	130.0	(16.2)	(12	%)

Comparable Adjustments	93.0	7.1	85.9	NM	
Consolidated selling, general and administrative expenses	\$427.2	\$328.6	\$98.6	30	%

The increase in Beer is primarily due to increases in marketing spend of \$14.2 million and general and administrative expenses of \$5.9 million. The increase in marketing spend is due largely to planned investment to support the growth of our Mexican beer portfolio. The increase in general and administrative expenses is predominantly driven by higher expenses supporting the growth of the business.

Table of Contents

The decrease in Wine and Spirits is primarily due to a decrease in general and administrative expenses of \$18.9 million, partially offset by an increase in marketing spend of \$1.3 million. The decrease in general and administrative expenses is predominantly driven by the Canadian Divestiture of \$21.5 million, partially offset by higher compensation and benefits supporting our organic growth and acquired businesses. The increase in marketing spend is primarily due to planned investment to support the organic growth of our branded wine and spirits portfolio of \$5.8 million, partially offset by a decrease due to the Canadian Divestiture.

The increase in Corporate Operations and Other is due to higher general and administrative expenses primarily attributable to increases in compensation and benefits and consulting, both largely attributable to supporting the growth of the business.

Selling, general and administrative expenses as a percent of net sales increased to 22.1% for First Quarter 2018 as compared with 17.6% for First Quarter 2017. The increase is primarily attributable to the growth in Comparable Adjustments and Corporate Operations and Other selling, general and administrative expenses, which resulted in approximately 480 basis points of rate growth, partially offset by a benefit of approximately 50 basis points from the divestiture of the Canadian wine business, which had a higher rate of selling, general and administrative expenses as a percent of net sales as compared with the rest of the Wine and Spirits' business.

Operating Income

	First Quarter 2018	First Quarter 2017	Dollar Change	Percent Change
(in millions)				
Beer	\$500.6	\$409.3	\$ 91.3	22 %
Wine and Spirits	205.6	168.0	37.6	22 %
Corporate Operations and Other	(37.4)	(28.6)	(8.8)	(31 %)
Comparable Adjustments	(100.7)	4.0	(104.7)	NM
Consolidated operating income	\$568.1	\$552.7	\$ 15.4	3 %

Operating income increased primarily due to the growth in our Beer and Wine and Spirits segments driven predominantly by the factors discussed above, partially offset by the negative impact from the change in Comparable Adjustments.

Interest Expense

Interest expense decreased slightly to \$82.4 million for First Quarter 2018 from \$84.6 million for First Quarter 2017, a decrease of \$2.2 million, or (3%). This decrease is primarily due to a lower average interest rate of approximately 35 basis points and higher average borrowings of approximately \$700 million. The lower average interest rate is predominantly due to the issuance of the lower rate December 2016 senior notes and May 2017 Senior Notes and the repayment of the higher rate August 2006 senior notes and January 2008 Senior Notes. The higher average borrowings are primarily attributable to the purchases of businesses and treasury stock during Fiscal 2017.

Provision for Income Taxes

Our effective tax rate for First Quarter 2018 and First Quarter 2017 was 15.5% and 31.9%, respectively. For First Quarter 2018, our effective tax rate benefited primarily from (i) lower effective tax rates applicable to our foreign businesses, including our assertion regarding indefinitely reinvesting earnings of certain foreign subsidiaries, which was asserted in the third quarter of fiscal 2017, and (ii) the recognition of the income tax effect of stock-based compensation awards in the income statement when the awards vest or are settled in connection with our March 1,

2017, adoption of the FASB's amended share-based compensation guidance.

Table of Contents

Net Income Attributable to CBI

Net income attributable to CBI increased to \$402.8 million for First Quarter 2018 from \$318.3 million for First Quarter 2017, an increase of \$84.5 million, or 27%, driven largely by the factors discussed above, including (i) the growth in operating income for our Beer segment of \$91.3 million and organic operating income growth for our Wine and Spirit segment of \$32.5 million, and (ii) the benefit from the lower effective tax rate of approximately \$80 million, partially offset by the unfavorable change in Comparable Adjustments of \$111.4 million.

Financial Liquidity and Capital Resources

General

Our ability to consistently generate cash flow from operating activities is one of our most significant financial strengths. Our strong cash flows enable us to invest in our people and our brands, make appropriate capital investments, provide a quarterly cash dividend program, and from time-to-time, repurchase shares of our common stock and make strategic acquisitions that we believe will enhance stockholder value. Our primary source of liquidity has been cash flow from operating activities. Our principal use of cash in our operating activities is for purchasing and carrying inventories and carrying seasonal accounts receivable. Historically, we have used cash flow from operating activities to repay our short-term borrowings and fund capital expenditures. We will continue to use our short-term borrowings, including our accounts receivable securitization facilities, to support our working capital requirements and capital expenditures.

We have maintained adequate liquidity to meet working capital requirements, fund capital expenditures and repay scheduled principal and interest payments on debt. Absent deterioration of market conditions, we believe that cash flows from operating activities and financing activities, primarily short-term borrowings, will provide adequate resources to satisfy our working capital, scheduled principal and interest payments on debt, anticipated dividend payments and anticipated capital expenditure requirements for both our short-term and long-term capital needs.

Cash Flows

	First Quarter 2018	First Quarter 2017
(in millions)		
Net cash provided by operating activities	\$381.6	\$345.9
Net cash used in investing activities	(221.3)	(453.9)
Net cash provided by (used in) financing activities	(141.6)	191.9
Effect of exchange rate changes on cash and cash equivalents	3.0	0.3
Net increase in cash and cash equivalents	\$21.7	\$84.2

Operating Activities

Net cash provided by operating activities increased \$35.7 million for First Quarter 2018 driven largely by strong cash flow from the Beer segment. The increase in Beer was primarily due to (i) the net sales volume growth and favorable pricing in the Mexican beer portfolio and (ii) favorable cash inflows associated with an earlier build of inventory in late Fiscal 2017 to support the Fiscal 2018 summer selling season.

Investing Activities

Net cash used in investing activities decreased \$232.6 million for First Quarter 2018 primarily due to the April 2016 acquisition of Prisoner of \$284.9 million, partially offset by higher capital expenditures of \$47.7 million for First Quarter 2018.

Table of Contents

Financing Activities

Net cash used in financing activities increased \$333.5 million for First Quarter 2018 primarily from the following:

First Quarter 2018 principal payments of long-term debt driven largely by the repayment of term loan borrowings under our senior credit facility of \$1,176.2 million and the January 2008 Senior Notes of \$700.0 million; and First Quarter 2018 decrease in excess tax benefits from stock-based payment awards of \$68.8 million in connection with our March 1, 2017, adoption of the FASB's amended guidance for, among other items, the accounting for income taxes related to share-based compensation and the related classification in the statement of cash flows. Refer to Note 2 of the Financial Statements for additional information;

partially offset by:

First Quarter 2018 proceeds from issuance of long-term debt of \$1,500.0 million (used to repay the January 2008 Senior Notes, and a portion of our outstanding term loan borrowings under our senior credit facility; compared with First Quarter 2017 proceeds from issuance of long-term debt of \$700.0 million from term loan borrowings under our senior credit facility (used to refinance borrowings under our prior senior credit facility and accounts receivable securitization facilities, and for other general corporate purposes); and First Quarter 2018 net proceeds from notes payable of \$381.3 million compared with First Quarter 2017 net repayments of notes payable of \$379.1 million.

Debt

Total debt outstanding as of May 31, 2017, amounted to \$9,211.5 million, a decrease of \$26.6 million from February 28, 2017.

Senior Notes

In May 2017, we issued the May 2017 Senior Notes. Proceeds from this offering, net of discount and debt issuance costs, of \$1,483.8 million were used for the repayment of our January 2008 Senior Notes and a portion of the outstanding obligations under the U.S. Term A loan facility under our 2016 Credit Agreement. The remaining outstanding obligations under the U.S. Term A loan facility were repaid in May 2017 primarily with revolver borrowings under our 2016 Credit Agreement.

General

The majority of our outstanding borrowings as of May 31, 2017, consisted of fixed-rate senior unsecured notes, with maturities ranging from calendar 2019 to calendar 2047, and variable-rate senior unsecured term loan facilities under our 2016 Credit Agreement, with maturities ranging from calendar 2020 to calendar 2021.

We had the following borrowing capacity available under our 2016 Credit Agreement and our accounts receivable securitization facilities:

Remaining Borrowing Capacity May 31, 2017	June 23, 2017
---	------------------

(in millions)

Revolving Credit Facility \$627.5 \$ 607.5

CBI Facility	\$101.8	\$39.0
Crown Facility	\$4.0	\$54.0

Table of Contents

The financial institutions participating in our 2016 Credit Agreement and our accounts receivable securitization facilities have complied with prior funding requests and we believe such financial institutions will comply with any future funding requests. However, there can be no assurances that any particular financial institution will continue to do so.

As of May 31, 2017, we also have additional credit arrangements totaling \$459.6 million, with \$314.0 million outstanding under these arrangements. These arrangements primarily support the financing needs of our domestic and foreign subsidiary operations, as well as our glass production plant joint venture.

We have entered into various interest rate swap agreements to manage our exposure to the volatility of the interest rates associated with our variable-rate senior unsecured term loan facilities. As a result of these hedges, we have fixed our interest rates on \$250.0 million of our floating LIBOR rate debt at an average rate of 1.1% (exclusive of borrowing margins) through July 1, 2020.

We and our subsidiaries are subject to covenants that are contained in the 2016 Credit Agreement, including those restricting the incurrence of additional indebtedness (including guarantees of indebtedness), additional liens, mergers and consolidations, the payment of dividends, the making of certain investments, prepayments of certain debt, transactions with affiliates, agreements that restrict our non-guarantor subsidiaries from paying dividends, and dispositions of property, in each case subject to numerous conditions, exceptions and thresholds. The financial covenants are limited to a minimum interest coverage ratio and a maximum net debt coverage ratio, both as defined in the 2016 Credit Agreement. As of May 31, 2017, the minimum interest coverage ratio was 2.5x and the maximum net debt coverage ratio was 4.0x.

Our indentures relating to our outstanding senior notes contain certain covenants, including, but not limited to: (i) a limitation on liens on certain assets, (ii) a limitation on certain sale and leaseback transactions and (iii) restrictions on mergers, consolidations and the transfer of all or substantially all of our assets to another person.

As of May 31, 2017, we were in compliance with all of our covenants under both our 2016 Credit Agreement and our indentures, and have met all debt payment obligations.

For a complete discussion and presentation of all borrowings and available sources of borrowing, refer to Note 11 of our consolidated financial statements included in our 2017 Annual Report and Note 8 of the Financial Statements included herein.

Common Stock Dividends

On June 28, 2017, our Board of Directors declared a quarterly cash dividend of \$0.52 per share of Class A Common Stock, \$0.47 per share of Class B Convertible Common Stock and \$0.47 per share of Class 1 Common Stock payable on August 23, 2017, to stockholders of record of each class on August 9, 2017.

We currently expect to continue to pay a regular quarterly cash dividend to stockholders of our common stock in the future, but such payments are subject to approval of our Board of Directors and are dependent upon our financial condition, results of operations, capital requirements and other factors, including those set forth under Item 1A “Risk Factors” of our 2017 Annual Report.

Share Repurchase Program

Our Board of Directors authorized the repurchase of up to \$1.0 billion of our Class A Common Stock and Class B Convertible Common Stock under the 2017 Authorization. Shares repurchased under this authorization have become

treasury shares.

36

Table of Contents

As of May 31, 2017, total shares repurchased under this authorization are as follows:

	Repurchase Authorization	Class A Common Shares Dollar Value of Shares Repurchased	Number of Shares Repurchased
(in millions, except share data)			
2017 Authorization	\$ 1,000.0	\$453.1	3,006,547

Share repurchases under the 2017 Authorization may be accomplished at management's discretion from time to time based on market conditions, our cash and debt position, and other factors as determined by management. Shares may be repurchased through open market or privately negotiated transactions. We may fund future share repurchases with cash generated from operations and/or proceeds from borrowings. Any repurchased shares will become treasury shares.

Information Regarding Forward-Looking Statements

This Quarterly Report on Form 10-Q contains "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934. These forward-looking statements are subject to a number of risks and uncertainties, many of which are beyond our control, which could cause actual results to differ materially from those set forth in, or implied by, such forward-looking statements. All statements other than statements of historical fact included in this Quarterly Report on Form 10-Q, including without limitation (I) the statements under Part I – Item 2 "Management's Discussion and Analysis of Financial Condition and Results of Operations" regarding (i) our business strategy, future operations, future financial position, expected effective tax rates and anticipated tax liabilities, prospects, plans and objectives of management, including the duration of reinvestment of earnings of certain foreign subsidiaries, (ii) information concerning expected or potential actions of third parties, including potential changes to international trade agreements, tariffs, taxes and other governmental rules and regulations, (iii) information concerning the future expected demand for our products, (iv) timing and source of funds for operating activities, (v) the manner, timing and duration of the share repurchase program and source of funds for share repurchases, and (vi) the amount and timing of future dividends and (II) the statements regarding our beer operations expansion activities, including Mexicali Brewery construction, Obregon Brewery optimization, and the expansions of our Nava Brewery and glass plant, including anticipated costs and timeframes for completion are forward-looking statements. When used in this Quarterly Report on Form 10-Q, the words "anticipate," "intend," "expect," and similar expressions are intended to identify forward-looking statements, although not all forward-looking statements contain such identifying words. All forward-looking statements speak only as of the date of this Quarterly Report on Form 10-Q. We undertake no obligation to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise. Although we believe that the expectations reflected in the forward-looking statements are reasonable, we can give no assurance that such expectations will prove to be correct.

In addition to the risks and uncertainties of ordinary business operations and conditions in the general economy and markets in which we compete, our forward-looking statements contained in this Quarterly Report on Form 10-Q are also subject to the risk and uncertainty that (i) the actual demand for our products will vary from current expectations due to, among other reasons, actual shipments to distributors and actual consumer demand, (ii) the amount, manner and timing of and source of funds for any share repurchases may vary due to market conditions, our cash and debt position, the impact of the beer operations expansion activities, and other factors as determined by management from time to time,

Table of Contents

(iii) the amount and timing of future dividends may differ from our current expectations if our ability to use cash flow to fund dividends is affected by unanticipated increases in total net debt, we are unable to generate cash flow at anticipated levels, or we fail to generate expected earnings, and (iv) the timeframe and actual costs associated with the beer operations expansion activities may vary from management's current expectations due to market conditions, our cash and debt position, receipt of all required permits and regulatory approvals by the expected dates and on the expected terms, and other factors as determined by management. For additional information about risks and uncertainties that could adversely affect our forward-looking statements, please refer to Item 1A "Risk Factors" of our 2017 Annual Report.

Item 3. Quantitative and Qualitative Disclosures About Market Risk.

As a result of our global operating, acquisition and financing activities, we are exposed to market risk associated with changes in foreign currency exchange rates, commodity prices and interest rates. To manage the volatility relating to these risks, we periodically purchase and/or sell derivative instruments including foreign currency forward and option contracts, commodity swap agreements and interest rate swap agreements. We use derivative instruments to reduce earnings and cash flow volatility resulting from shifts in market rates, as well as to hedge economic exposures. We do not enter into derivative instruments for trading or speculative purposes.

Foreign Currency and Commodity Price Risk

Foreign currency derivative instruments are or may be used to hedge existing foreign currency denominated assets and liabilities, forecasted foreign currency denominated sales/purchases to/from third parties as well as intercompany sales/purchases, intercompany principal and interest payments, and in connection with acquisitions, divestitures or joint venture investments outside the U.S. As of May 31, 2017, we had exposures to foreign currency risk primarily related to the Mexican peso, Canadian dollar, euro and New Zealand dollar. Approximately 71% of our balance sheet exposures and forecasted transactional exposures for the remaining nine months of fiscal 2018 were hedged as of May 31, 2017.

Commodity derivative instruments are or may be used to hedge forecasted commodity purchases from third parties as either economic hedges or accounting hedges. As of May 31, 2017, exposures to commodity price risk which we are currently hedging primarily include heating oil, aluminum, diesel fuel, corn and wheat prices. Approximately 64% of our forecasted transactional exposures for the remaining nine months of fiscal 2018 were hedged as of May 31, 2017.

We have performed a sensitivity analysis to estimate our exposure to market risk of foreign exchange rates and commodity prices reflecting the impact of a hypothetical 10% adverse change in the applicable market. The volatility of the applicable rates and prices is dependent on many factors which cannot be forecasted with reliable accuracy. Losses or gains from the revaluation or settlement of the related underlying positions would substantially offset such gains or losses on the derivative instruments. The aggregate notional value, estimated fair value and sensitivity analysis for our open foreign currency and commodity derivative instruments are summarized as follows:

Aggregate Notional Value		Fair Value, Net Asset (Liability)		Increase (Decrease) in Fair Value – Hypothetical 10% Adverse Change	
May 31, 2017	May 31, 2016	May 31, 2017	May 31, 2016	May 31, 2017	May 31, 2016

(in millions)

Foreign currency contracts	\$1,287.2	\$3,193.5	\$2.9	\$(54.8)	\$(72.4)	\$ 19.5
Commodity derivative contracts	\$165.8	\$186.9	\$(6.8)	\$(23.7)	\$14.0	\$ 14.5

Interest Rate Risk

The estimated fair value of our fixed interest rate debt is subject to interest rate risk, credit risk and foreign currency risk. In addition, we also have variable interest rate debt outstanding (primarily LIBOR-based), certain of which includes a fixed margin subject to the same risks identified for our fixed interest rate debt.

As of May 31, 2017, and May 31, 2016, we had outstanding cash flow designated interest rate swap agreements which fixed LIBOR interest rates (to minimize interest rate volatility) on \$250.0 million and \$700.0 million, respectively, of our floating LIBOR rate debt. In addition, as of May 31, 2016, we had outstanding offsetting undesignated interest rate swap agreements. We had no offsetting undesignated interest rate swap agreements outstanding as of May 31, 2017.

We have performed a sensitivity analysis to estimate our exposure to market risk of interest rates reflecting the impact of a hypothetical 1% increase in the prevailing interest rates. The volatility of the applicable rates is dependent on many factors which cannot be forecasted with reliable accuracy. The aggregate notional value, estimated fair value and sensitivity analysis for our outstanding fixed and variable interest rate debt, including current maturities, and open interest rate derivative instruments are summarized as follows:

	Aggregate Notional Value		Fair Value, Net Asset (Liability)		Increase (Decrease) in Fair Value – Hypothetical 1% Rate Increase	
	May 31, 2017	May 31, 2016	May 31, 2017	May 31, 2016	May 31, 2017	May 31, 2016
(in millions)						
Fixed interest rate debt	\$5,488.6	\$4,790.0	\$(5,760.4)	\$(5,001.2)	\$(360.9)	\$(203.7)
Variable interest rate debt	\$3,782.3	\$3,570.3	\$(3,764.4)	\$(3,183.4)	\$(93.4)	\$(114.4)
Interest rate swap contracts	\$250.0	\$1,700.0	\$3.7	\$(5.5)	\$6.9	\$(7.6)

Item 4. Controls and Procedures.

Disclosure Controls and Procedures

Our Chief Executive Officer and our Chief Financial Officer have concluded, based on their evaluation as of the end of the period covered by this report, that the Company's "disclosure controls and procedures" (as defined in the Securities Exchange Act of 1934 Rules 13a-15(e) and 15d-15(e)) are effective to ensure that information required to be disclosed in the reports that we file or submit under the Securities Exchange Act of 1934 (i) is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms, and (ii) is accumulated and communicated to our management, including our Chief Executive Officer and our Chief Financial Officer, as appropriate to allow timely decisions regarding required disclosure.

Internal Control Over Financial Reporting

In connection with the foregoing evaluation by our Chief Executive Officer and our Chief Financial Officer, no changes were identified in the Company's "internal control over financial reporting" (as defined in the Securities Exchange Act of 1934 Rules 13a-15(f) and 15d-15(f)) that occurred during our fiscal quarter ended May 31, 2017, that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.
