ITEM 2.05 COSTS ASSOCIATED WITH EXIT OR DISPOSAL ACTIVITIES

Comerica Incorporated (“Comerica”) launched the Growth in Efficiency and Revenue (“GEAR Up”) initiative in 2016 to meaningfully enhance profitability. On July 19, 2016, Comerica announced initial actions related to the initiative, and Comerica has continued to update its estimated financial targets and restructuring charges in its filings with the Securities and Exchange Commission since that date.

On September 11, 2017, Comerica announced additional actions under GEAR Up that should result in expected revenue enhancements (through enhanced sales tools and training) and expense reductions (through continued modernization of technology system applications and other operating efficiencies). These actions are expected to be completed by year-end 2018. Comerica committed to these actions on September 11, 2017.

The full impact of these additional actions is anticipated to improve expected pre-tax income by an additional \$35 million in 2019. Actions identified under the GEAR Up initiative are expected in total to drive additional annual pre-tax income, before restructuring charges, of approximately \$180 million in full-year 2017, \$270 million in full-year 2018 and \$305 million in 2019, relative to expectations prior to when the initiative began in June 2016. In the normal course of business, management will continue to identify additional opportunities to further enhance profitability.

Based on these additional actions and refined calculations, Comerica is revising upward its estimated total restructuring charges through 2018 to \$185 - \$195 million (pre-tax), from the previously announced \$140 - \$160 million (pre-tax). \$118 million in restructuring charges related to the GEAR Up initiative had been incurred through June 30, 2017. Restructuring charges of \$25 million are expected to be incurred during the second half of 2017 and remaining restructuring charges of \$42 - \$52 million are expected to be incurred in 2018. The following table provides a summary of Comerica's total updated estimated restructuring charges (pre-tax) by major type of cost:

Type of Cost	Amount (in millions)
Employee-related expenses (primarily severance payments)	\$65-70
Facilities expenses (consolidating banking centers and other facilities, such as lease termination costs and decommissioning costs, accelerated depreciation and impairment of owned property to be sold)	\$30
Technology expenses (impairment and other costs associated with optimizing technology infrastructure and reducing the number of applications)	\$55-60
Other charges (primarily professional fees, as well as other contract termination fees and legal fees)	\$35

Substantially all of the remaining charges are expected to be cash charges.

Comerica will amend this Current Report on Form 8-K, or disclose in another periodic filing with the Securities and Exchange Commission, material changes to the scope or cost of the initiative within the timelines required by Securities and Exchange Commission rules and regulations.

The GEAR Up initiative is ongoing and the actual total costs and timing of the actions identified to-date may vary from those estimated due to changes in the scope or assumptions underlying the initiative.
