PROXY STATEMENT
FOR ANNUAL MEETING OF SHAREHOLDERS
TO BE HELD MAY 6, 2014

HNI Corporation (the "Corporation," "we," "our" or "us") is mailing this Proxy Statement, with the accompanying proxy card, to you on or about March 21, 2014, in connection with the solicitation of proxies by and on behalf of the Corporation's Board of Directors (the "Board" or "Directors") for the 2014 annual meeting of shareholders and any adjournment or postponement of the meeting (the "Meeting"). The Meeting will be held on Tuesday, May 6, 2014, beginning at 10:30 a.m., Central Daylight Time, at Allsteel Corporate Headquarters, 2210 Second Avenue, Muscatine, Iowa.

INFORMATION ABOUT VOTING

Who can attend and vote at the Meeting?

Shareholders of record as of the close of business on March 7, 2014 (the "Record Date") are entitled to attend and vote at the Meeting. Each share of the Corporation's common stock, par value \$1.00 per share ("Common Stock"), is entitled to one vote on all matters to be voted on at the Meeting and can be voted only if the shareholder of record is present to vote or is represented by proxy. The proxy card provided with this Proxy Statement indicates the number of shares of Common Stock you own and are entitled to vote at the Meeting.

What constitutes a quorum at the Meeting?

The presence at the Meeting, in person or represented by proxy, of the holders of a majority of the outstanding shares of Common Stock ("Outstanding Shares") on the Record Date will constitute a quorum for purposes of the Meeting. On the Record Date, there were 45,136,989 Outstanding Shares. For purposes of determining whether a quorum exists, proxies received but marked "abstain" and so-called "broker non-votes" (described on the following page) will be counted as present.

What will I be voting on?

- Election of each of the four nominees for Director named on page 5 of this Proxy Statement under "Proposal No. 1 – Election of Directors."
- Ratification of the Audit Committee's selection of PricewaterhouseCoopers LLP as the Corporation's independent registered public accountant for the fiscal year ending January 3, 2015 ("Fiscal 2014"), as described on page 15 of this Proxy Statement under "Proposal No. 2 – Ratification of Audit Committee's Selection of PricewaterhouseCoopers LLP as the Corporation's Independent Registered Public Accountant for Fiscal 2014."
- Adoption of an advisory resolution approving the compensation of the Corporation's named executive officers as described on page 44 of this Proxy Statement under "Proposal No. 3 – Advisory Vote to Approve Named Executive Officer Compensation."

How do I vote?

Edgar Filing: HNI CORP - Form DEF 14A

We urge you to vote by "proxy" (one of the individuals named on your proxy card will vote your shares as you have directed) even if you plan to attend the Meeting so we will know as soon as possible that enough votes will be present for us to hold the Meeting. Follow the instructions on your enclosed proxy card. Telephone and internet voting is available to all registered and most beneficial holders.

Shareholders voting by proxy may use one of the following three options:

- Fill out the enclosed proxy card, sign it and mail it in the enclosed, postage-paid envelope;
- Vote by internet (if available, instructions are on the proxy card); or
- Vote by telephone (if available, instructions are on the proxy card).

Table of Contents

If your shares of Common Stock are held for you as the beneficial owner through a broker, trustee or other nominee (such as a bank) in "street name," rather than held directly in your name, please refer to the information provided by your bank, broker or other holder of record to see which options are available to you.

The telephone and internet voting facilities for shareholders will close at 11:59 p.m. Eastern Daylight Time on May 5, 2014. If you vote by mail, you should mail your signed proxy card sufficiently in advance for it to be received by May 5, 2014.

If you hold shares through the Corporation's retirement plan, your vote must be received by 11:59 p.m. Eastern Daylight Time on May 1, 2014, or the shares represented by the card will not be voted.

If you sign, date and return the proxy card but do not specify how your shares are to be voted, then your proxy will vote your shares "FOR" all proposals, including "FOR" the election of each nominee for Director, and in your proxy's discretion as to any other business which may properly come before the Meeting.

How do I vote if my shares of Common Stock are held in "street name"?

You will need to instruct your broker, trustee or other nominee how to vote your shares. Since a beneficial owner is not the shareholder of record, you may not vote these shares in person at the Meeting unless you obtain a "legal proxy" from the broker, trustee or other nominee holding your shares, giving you the right to vote the shares at the Meeting. Your broker, trustee or other nominee has enclosed with this Proxy Statement, or will provide upon request, voting instructions for you to use in directing the broker, trustee or other nominee how to vote your shares.

What discretion does my broker, trustee or other nominee have to vote my shares of Common Stock held in "street name"?

A broker, trustee or other nominee holding your shares of Common Stock in "street name" must vote those shares according to specific instructions it receives from you. New York Stock Exchange ("NYSE") rules determine the proposals ("Non-Routine Proposals") on which brokers may not vote without specific instructions from you. Your shares will not be voted on any Non-Routine Proposal if you do not provide voting instructions, giving rise to what is called a "broker non-vote." Shares represented by broker non-votes will be counted as present for purposes of determining the existence of a quorum.

It is important, if you hold shares in "street name," you provide specific voting instructions to your broker, trustee or other nominee or your shares will not be voted with respect to Proposals No. 1 and 3 because they are Non-Routine Proposals for which your broker, trustee or other nominee may not vote your shares in its discretion.

Can I change or revoke my vote or revoke my proxy?

Yes. You may change your vote at any time before the proxy is voted at the Meeting. For shareholders of record, if you voted your proxy card by mail, you may revoke your proxy at any time before it is voted by executing and delivering a timely and valid later-dated proxy, by voting by ballot at the Meeting or by giving written notice to the Secretary. If you voted via the internet or by telephone you may also change your vote with a timely and valid later-dated internet or telephone vote, as the case may be, or by voting by ballot at the Meeting. Attendance at the Meeting will not have the effect of revoking a proxy unless (a) you give proper written notice of revocation to the Secretary before the proxy is exercised or (b) you vote by ballot at the Meeting. Once voting is completed at the Meeting, you will not be able to revoke your proxy or change your vote. Unless your proxy is revoked or changed, the shares of Common Stock represented by your proxy received by Broadridge Financial Solutions, Inc. ("Broadridge") will be voted at the Meeting.

If your shares are held in "street name," you must follow the specific voting directions provided to you by your broker, trustee or other nominee to change or revoke any instructions you have already provided.

How do I vote my shares in the Corporation's retirement plan?

If you participate in the Corporation's retirement plan, the proxy card you receive will also include Common Stock allocated to your account. Properly completed and signed proxy cards, including telephone and internet voting, will serve to instruct the plan trustee on how to vote any shares allocated to your account and a portion of all shares as to which no instructions have been received (the "undirected shares") from plan participants. The proportion of the undirected shares to which your

Table of Contents

instructions will apply will be equal to the proportion of the shares to which the trustee receives instructions represented by your shares.

How is the Corporation soliciting proxies?

The Corporation bears the cost of preparing, assembling and mailing the proxy materials related to the solicitation of proxies by and on behalf of the Board for the Meeting. In addition to the use of the mail, certain of the Corporation's officers may, without additional compensation, solicit proxies in person, by telephone or through other means of communication. The Corporation will bear the cost of this solicitation.

How will my vote get counted?

Broadridge will use an automated system to tabulate the votes and will serve as the Inspector of Election.

Is my vote confidential?

Proxy instructions, ballots and voting tabulations identifying individual shareholders are handled in a manner to protect your voting privacy. Your vote will not be disclosed either within the Corporation or to third parties, except:

- as necessary to meet applicable legal requirements;
- to allow for the tabulation of votes and certification of the vote; and
- to facilitate a successful proxy solicitation.

Occasionally, shareholders provide written comments on their proxy cards, which are then forwarded to the Corporation's management.

How do I get to the Meeting location?

The Meeting will be held at Allsteel Corporate Headquarters, 2210 Second Avenue, Muscatine, Iowa. If driving to the Meeting from the Quad City International Airport, from the main exit traffic light go straight onto I-74 to I-280, turn right (cloverleaf) onto I-280 West, drive approximately 10-12 miles crossing the Mississippi River Bridge, take the second exit in Iowa (Exit 6 – Muscatine), at the traffic light turn left (west) onto Highway 61 South, continue approximately 22 miles to Muscatine, continue on Hwy 61 bypass, turn left (south) at traffic light on Second Avenue, Allsteel Corporate Headquarters is approximately two blocks on the right. If driving to the Meeting on I-80, take Exit 271 (Highway 38 South), drive approximately 12 miles to Highway 61, turn right (west) at the traffic light, turn left (south) at next traffic light on Second Avenue, Allsteel Corporate Headquarters is approximately two blocks on the right.

What should I do if I receive more than one set of voting materials?

You may receive more than one set of voting materials, including multiple copies of this Proxy Statement and multiple proxy cards or voting instruction cards. For example, if you hold your shares in more than one brokerage account, you may receive a separate voting instruction card for each brokerage account in which you hold shares in "street name." If you are a shareholder

Table of Contents

of record and your shares are registered in more than one name, you will receive more than one proxy card. Please complete, sign, date and return each proxy card and voting instruction card you receive.

The Securities and Exchange Commission (the "SEC") has adopted rules permitting delivery of a single annual report to security holders and/or proxy statement to any household at which two or more shareholders reside, whom the Corporation believes to be members of the same family. If you wish to participate in this program and receive only one copy of future annual reports and/or proxy statements, please write to Broadridge, Householding Department, 51 Mercedes Way, Edgewood, New York 11717. Your consent to receive only one copy of the annual report and/or proxy statement will remain in effect until Broadridge receives a written revocation notice from you, in which case the Corporation will begin sending individual copies within 30 days. The Corporation will continue to separately mail a proxy card for each registered shareholder account. The Corporation will promptly deliver separate copies of its annual report and/or proxy statement upon request. Shareholders may request copies by writing to the Corporate Secretary at HNI Corporation, 408 East Second Street, Muscatine, Iowa 52761, or calling the Corporation at 563-272-7590.

Did the Corporation utilize the SEC's notice and access proxy rules for delivery of the voting materials this year?

No. The Corporation delivered its voting materials in the same manner as it has in the past. However, many shareholders have previously consented to receive electronic delivery of the proxy statement and annual report to security holders and therefore did not receive hard copies of these materials.

Why is the Corporation asking shareholders to approve, on a non-binding and advisory basis, named executive officer compensation again this year?

The Corporation is asking shareholders to approve, on a nonbinding, advisory basis, the compensation of the Corporation's Chief Executive Officer (the "CEO"), Chief Financial Officer (the "CFO") and three other most highly compensated executives (collectively, the "Named Executive Officers"), as disclosed below under "Executive Compensation" beginning on page 16 of this Proxy Statement. The Corporation's shareholders expressed a preference for, and the Board recommended, holding an advisory vote to approve named executive officer compensation every year. The Board recommends shareholders vote "FOR" the resolution approving the compensation of the Named Executive Officers.

Where can I find the voting results of the Meeting?

The Corporation intends to announce preliminary voting results at the Meeting and will publish final results on a Current Report on Form 8-K, which will be filed with the SEC within four business days after the Meeting and available on the Corporation's website.

PROPOSAL NO. 1 – ELECTION OF DIRECTORS

The By-laws of HNI Corporation (the "By-laws") currently provide for ten Directors and the Board currently consists of ten Directors. Nine of the ten Directors are independent Directors as further discussed on page 8 of this Proxy Statement under "Information Regarding the Board – Director Independence." Stan A. Askren, Chairman, President and Chief Executive Officer of the Corporation, is the only Director currently employed by the Corporation and is not independent under the NYSE listing standards pertaining to director independence or the Corporation's categorical independence standards for Directors (the "Categorical Standards").

The Board is divided into three classes. Generally, one class is elected each year for a term of three years. The Board has nominated four Director candidates each to serve a three-year term expiring at the Corporation's 2017 annual meeting of shareholders.

Director Nominations

The Board has adopted guidelines for identifying and evaluating candidates for Director. Under those guidelines, the Corporation's Public Policy and Corporate Governance Committee (the "Governance Committee") takes into account a number of factors when identifying potential nominees, including: possession of the desired skills, experience and abilities identified by the Governance Committee; ability to communicate ideas and contribute to Board deliberations; independence from management; diversity; judgment, skill, integrity and reputation; existing commitments to other businesses; potential conflicts of interest with other pursuits; and legal restraints. Although the Corporation has no specific policy on diversity, the guidelines broadly define diversity to include factors such as age, race, gender, education, ethnicity, career experience and personality; understanding of and experiences in manufacturing, technology, finance and marketing; and international experience and culture. The Governance Committee reviews these factors and others considered useful by the Governance Committee in context of an assessment of the perceived needs of the Board from time to time. The Governance Committee may use a variety of means to identify potential nominees, including recommendations from the Chairman, Directors or others associated with the Corporation. The Governance Committee may also retain third-party search firms to identify potential nominees based on the Corporation's established criteria for director candidates discussed above. The Governance Committee screens the potential candidates and eventually recommends suitable candidates to the Board for nomination.

The Governance Committee will consider candidates for Director recommended by shareholders by applying the criteria for candidates described above and considering the following additional information. Shareholders wishing to recommend a candidate for nomination by the Corporation as Director for inclusion in the Corporation's proxy statement for the 2015 annual meeting of shareholders ("2015 Annual Meeting") should write to the Corporation's Corporate Secretary before October 1, 2014, and include the following information: a statement that the writer is a shareholder and is recommending a candidate for Director; the name of and contact information for the candidate; a statement of the candidate's business and educational experience; information about each of the factors listed above, sufficient to enable the Governance Committee to evaluate the candidate; a statement detailing any relationship between the candidate and any customer, supplier or competitor of the Corporation; detailed information about any relationship or understanding between the writer or any other shareholder and the candidate; a statement whether such person, if elected, intends to tender, promptly following such person's election or re-election, an irrevocable resignation effective 90 days after the date of certification of election results if the person fails to receive the required vote for re-election at the next meeting at which such person would face re-election; and a statement the candidate is willing to be considered and will serve as a Director if nominated and elected.

The Corporation does not have any minimum qualifications for Directors; however, Directors should possess the highest personal and professional integrity and ethics and be willing and able to devote the required time to the Corporation. The Board believes it should be comprised of Directors with varied and complimentary backgrounds,

which together build the overall strength of the Board.

INFORMATION REGARDING THE BOARD

Director Independence

In addition to complying with NYSE listing standards pertaining to director independence, the Corporation adopted the Categorical Standards, which are attached as Exhibit A to the Governance Guidelines and available on the Corporation's website at www.hnicorp.com, under "Corporate Governance – Governance Guidelines." Under the Categorical Standards, the following relationships will not, in and of themselves, be considered material relationships, unless otherwise expressly provided for, under the NYSE listing standards:

- contributions or payments (including the provision of goods and services) by the Corporation to a charitable organization (including a foundation), a university or other not-for-profit organization in which a Director or a Director's immediate family member is a director, trustee, officer or employee, unless the contribution or payment (excluding matching gifts) was:

Table of Contents

- o made to an entity for which the Director or the Director's spouse currently serves as a director, trustee or officer and he or she served in such position at the time of the contribution or payment;
- o made within the three fiscal years preceding the date of any determination; and
- o in an amount exceeding the greater of \$1,000,000 or two percent of the charitable organization's aggregate annual charitable receipts during the organization's last completed fiscal year prior to the date of the contribution or payment; and
- other business relationships between a Director or a Director's immediate family member and the Corporation, such as a purchase by the Corporation of products or services, including consulting, legal or financial advisory services, unless:
 - o the Director or the Director's spouse is a partner, officer or ten percent owner of a company or firm providing such products or services, and he or she held such position at any time within the 12 months preceding the date of any determination;
 - o the products or services were provided within the three fiscal years preceding the date of any determination; and
 - o the products or services provided during any 12-month period were in an aggregate amount exceeding the greater of \$1,000,000 or one percent of such company's or firm's consolidated gross revenues for its last completed fiscal year.

The Categorical Standards do not include business relationships with the Corporation's internal or external auditors, which are covered by the NYSE listing standards.

Under the Governance Guidelines, at least three-fourths of the Directors must meet the NYSE listing standards pertaining to director independence and the Categorical Standards. The Board has determined each Director, including each nominee for Director, other than Mr. Askren has no material relationship with the Corporation (either directly or as a partner, shareholder or officer of an organization having a relationship with the Corporation) and is independent under the NYSE listing standards and the Categorical Standards, including any heightened independence standards applicable to a Director's service on the Corporation's Audit Committee (the "Audit Committee"), Human Resources and Compensation Committee (the "Compensation Committee") or Governance Committee.

Mr. Askren, the Corporation's Chairman, President and Chief Executive Officer, does not meet such independence standards because he is a member (i.e., employee) of the Corporation.

Board Committees

The Board has three standing committees, the Audit Committee, the Compensation Committee and the Governance Committee. The Governance Committee fulfills the role of a nominating committee. Each committee operates under a written charter, which has been approved by the Board. The Board reviews each committee charter at least annually. Current copies of the committees' charters can be found on the Corporation's website at www.hnicorp.com, under "Corporate Governance – Committee Charters." Shareholders may request a copy of the Board's committees' charters by writing to the Corporate Secretary at HNI Corporation, 408 East Second Street, Muscatine, Iowa 52761. During the fiscal year ended December 28, 2013 ("Fiscal 2013"), each Director attended at least 75% of the total number of meetings of the committees on which the Director served and of the Board.

Audit Committee. The Audit Committee is comprised of Mary H. Bell, Chairperson, Cheryl A. Francis and Brian E. Stern. The Board has determined each Audit Committee member is "independent" as defined by the NYSE listing standards pertaining to director independence, in applicable SEC rules and under the Categorical Standards. The Board has determined all members of the Audit Committee are financially literate under NYSE listing standards. The Board has also determined Ms. Francis is an "audit committee financial expert," as defined by Item 407(d)(5) of Regulation S-K. In accordance with the Audit Committee Charter, none of the Audit Committee members serve simultaneously on audit committees of more than three public companies. The Audit Committee met eight times

during Fiscal 2013. The Audit Committee appoints the Corporation's independent registered public accountant and reviews the independent registered public accountant's performance, independence, fees and audit plans. The Audit Committee also reviews the annual and quarterly financial statements; internal audit staffing, plans and reports; nonaudit services provided by the independent registered public accountant; the Corporation's insurance coverage; and any other matters as directed by the Board, including key risk oversight.

Human Resources and Compensation Committee. The Compensation Committee is comprised of Dennis J. Martin, Chairperson, Miguel M. Calado and Ronald V. Waters, III. Each member of the Compensation Committee is an independent director as defined by the NYSE listing standards pertaining to director independence, including new standards pertaining to compensation committee members' independence, and under the Categorical Standards. In addition, each member qualifies as an "outside director" for purposes of Section 162(m) and a "non-employee director" for purposes of Rule 16b-3 under the

Table of Contents

Securities Exchange Act of 1934 (the "Exchange Act"). The Compensation Committee met four times during Fiscal 2013. The Compensation Committee reviews executive compensation, executive succession planning, benefit programs for all members; management's recommendations on election of officers and human resources development; and oversees evaluation of the Chairman and CEO by the Board.

Public Policy and Corporate Governance Committee. The Governance Committee is comprised of Larry B. Porcellato, Chairperson, James R. Jenkins and Abbie J. Smith. Each member of the Governance Committee is an independent director as defined by the NYSE listing standards pertaining to director independence and under the Categorical Standards. The Governance Committee met four times during Fiscal 2013. The Governance Committee serves as the nominating committee and identifies individuals qualified to serve as Directors of the Corporation consistent with criteria approved by the Board; recommends director nominees to the Board for the next annual meeting of shareholders; develops and recommends to the Board corporate governance principles applicable to the Corporation; and oversees the Corporation's finance policy, capital structure and evaluation of the Board and the Corporation by the Directors.

Processes and Procedures for the Consideration and Determination of Director Compensation by Governance Committee

The Governance Committee is responsible for annually reviewing the compensation paid to Directors for service on the Board and for recommending changes to such compensation to the Board, if appropriate. The Board is responsible for approving Director compensation based on recommendations of the Governance Committee. Neither the Governance Committee nor the Board delegates its authority with respect to setting Director compensation to any other person or group. However, the Corporation's management may, at the request of the Governance Committee, assist the Governance Committee in its review of Director compensation, which may include recommending changes to such compensation. Although it has not done so recently, the Governance Committee has authority to retain and terminate any consultant to assist in the evaluation of the compensation and benefits for Directors and to approve the consultant's fees and other retention terms.

Processes and Procedures for the Consideration and Determination of Executive Compensation by Compensation Committee

The Compensation Committee is responsible for developing and implementing the Corporation's compensation policies and programs for the Chairman and CEO and other senior executives as further discussed throughout the Compensation Discussion and Analysis (the "CD&A") which begins on page 16 of this Proxy Statement.

Board Leadership Structure

The Corporation's current board leadership structure consists of a combined chairman and chief executive officer position and nine independent Directors, one of whom has been designated Lead Director.

While certain of the conventional functions for the Chairman have been shared by all Directors, the Chairman position has traditionally been held by the Corporation's CEO. The Board believes the combined role of Chairman and CEO promotes unified leadership and direction for the Corporation, which allows for a single, clear focus for management to execute the Corporation's strategy and business plans. The Board believes this leadership structure has contributed to the long-term growth and financial success of the Corporation.

The Corporation has strong governance structures and processes in place to ensure the independence of the Board, eliminate conflicts of interest and prevent dominance of the Board by management. All Directors, with the exception of the Chairman, are independent as defined under NYSE listing standards pertaining to director independence and the

Categorical Standards, and all committees of the Board are made up entirely of independent Directors. In addition, the Board and the Governance Committee have assembled a Board comprised of strong and sophisticated Directors who are currently or have recently been leaders of major companies or institutions, are independent thinkers and have a wide range of expertise and skills.

In February 2005, the Board adopted Lead Director Guidelines. The Lead Director's duties and responsibilities include:

- presiding at all meetings of the independent Directors;
- communicating to the Chairman and CEO the substance of the discussions and consensus reached at the meetings of independent Directors;

Table of Contents

- encouraging the independent Directors and the Chairman and CEO to communicate with each other at any time and to act as principal liaison between the independent Directors and the Chairman and CEO on sensitive matters;
- providing input to the Chairman and CEO on preparation of agendas for Board and committee meetings;
- presiding at Board meetings when the Chairman and CEO is not in attendance;
- acting as spokesperson for the Corporation in the event the Chairman and CEO is unable to act due to conflict of interest or incapacity; and
- receiving and responding to communications from interested parties to the independent Directors.

Ronald V. Waters, III has been the Lead Director since May 2011.

The Board regularly meets in executive session without the presence of management. The Lead Director presides at these meetings and provides the Board's guidance and feedback to the Chairman and CEO and the Corporation's management team. Further, the Board has complete access to the Corporation's management team. At each Board and/or committee meeting, Directors receive valuable information and insight from management on matters impacting the Corporation as well as current and future issues.

Given the strong leadership of the Chairman and CEO, the counterbalancing role of the Lead Director and a Board comprised of strong and independent Directors, the Board believes it is in the best long-term interests of the Corporation and its shareholders to maintain a combined role of Chairman and CEO.

Board's Role in Risk Oversight

The Board administers its risk oversight role primarily through its committee structure and the committees' regular reports to the Board at each quarterly Board meeting. The Audit Committee meets frequently during the year (eight times in Fiscal 2013) and discusses with management, the Corporation's Vice President, Internal Audit, and the Corporation's independent registered public accountant:

- current business trends affecting the Corporation;
- major risks facing the Corporation;
- steps management has taken to monitor and control such risks; and
- adequacy of internal controls that could significantly affect the Corporation's financial statements.

At least annually, the Board discusses with management the appropriate level of risk relative to corporate strategy and business objectives and reviews with management the Corporation's existing risk management processes and their effectiveness. The Audit Committee also reviews the Corporation's enterprise risk management process for identification of, and response to, major risks. The Audit Committee Chairperson provides the Board with a report concerning its risk oversight activities at each quarterly Board meeting. Each key risk identified for the Corporation is then assigned a Committee of the Board for oversight. In addition, the Compensation Committee Chairperson provides the Board with a report on compensation, including risk, annually.

Compensation Risk Assessment

A senior management team, under the oversight of the Compensation Committee, annually conducts a risk assessment of the Corporation's compensation policies and practices to ensure they do not encourage excessive risk taking by members which could result in a material adverse effect on the Corporation. Members of the management team conducting the assessment include the Corporation's Vice President – Member and Community Relations, Treasurer, Vice President – Financial Reporting, Vice President – Internal Audit and Senior Counsel – Securities. As part of the assessment, management:

- inventories the known risks facing the Corporation that relate specifically to compensation policies and practices;
- identifies and evaluates the Corporation's compensation program features and other practices and controls used to monitor and mitigate the risks identified in the risk inventory; and
- determines whether risks relating to the Corporation's compensation policies and practices, as managed, are reasonably likely to have a material adverse effect on the Corporation as a whole.

In the latest compensation risk assessment completed in January 2014, management identified program features and other practices and controls which monitor and mitigate compensation-related risk, including:

Table of Contents

- overall compensation levels competitive with the market;
- stock ownership guidelines for senior executives and an insider trading policy for members;
- a compensation recovery policy in the event of a financial restatement due to fraud or intentional misconduct;
- a compensation mix balanced among:
 - o fixed components comprised primarily of salary and benefits;
 - o annual incentives rewarding Corporation or operating unit financial performance (60 percent) and individual performance (40 percent);
 - o long-term incentives rewarding Corporation financial performance over a three-year period; and
 - o equity awards in the form of stock options cliff-vesting four years and expiring ten years after the grant date and stock restricted from being sold by executives until they leave the Corporation;
- incentive programs using financial measures with sliding scales, with amounts interpolated for payouts between minimum, target and maximum (payout minimum of 50 percent of target with cap at 200 percent of target for the financial component of annual incentive compensation awards under the Annual Incentive Plan (the "Incentive Plan") and payout minimum of 25 percent of target with cap at 200 percent of target for the long-term incentive compensation awards under the Long-Term Performance Plan (the "Performance Plan"));
- individual strategic objective component of the annual incentive compensation award under the Incentive Plan capped at 125 percent of target;
- Board discretion to reduce both annual and long-term incentive compensation award payouts under the Incentive Plan and the Performance Plan, respectively, when reduction would be appropriate based on the recipient's performance or behavior immediately following the performance period or to account for an extraordinary or unanticipated event (e.g., one-time gain on sale of asset);
- effective management processes for developing strategic and annual operating plans and strong internal financial controls; and
- oversight of the Corporation's compensation programs by the Compensation Committee and the Board.

Based on this most recent compensation risk assessment, both management and the Compensation Committee believe the risks arising from the Corporation's compensation policies and practices, as managed, are not reasonably likely to have a material adverse effect on the Corporation.

Board Meetings

The Board held four regular meetings and no special meetings during Fiscal 2013. All Directors attended at least 75% of the meetings of the Board and of any committee on which he or she served.

In accordance with the NYSE listing standards regarding corporate governance, the Corporation's non-management Directors meet at regularly scheduled executive sessions without management present. Mr. Waters, Lead Director, presides at these executive sessions. The Corporation's non-management Directors met four times during Fiscal 2013.

Director Attendance at Annual Meetings of Shareholders

All Directors are encouraged to attend annual meetings of shareholders when possible. Last year all Directors, except Dennis Martin, attended the 2013 annual meeting of shareholders ("2013 Annual Meeting").

REVIEW, APPROVAL OR RATIFICATION OF TRANSACTIONS WITH RELATED PERSONS

The Corporation has adopted a written policy (the "Policy") for review of transactions involving the Corporation (including the Corporation's subsidiaries) and its Directors, executive officers and other related persons. The transactions subject to the Policy include any proposed, existing or completed transaction, arrangement or relationship (including charitable contributions and including any series of similar transactions, arrangements or relationships) in which the Corporation is a participant and in which any Director, executive officer or other related person has a direct or indirect material interest except:

- transactions available to all members generally;
- transactions involving less than \$100,000 when aggregated with all similar transactions;
- transactions involving compensation or indemnification of executive officers and Directors duly authorized by the appropriate Board committee;
- transactions involving reimbursement for routine expenses in accordance with Corporation policy;
- transactions in which a related person's interest arises (a) only from the person's position as a director of a corporation or organization, (b) only from the person's direct or indirect ownership (which will include the ownership of any immediate family members of the related person) of less than a 10% equity interest in another person (other than a partnership) or (c) from the position as a director and ownership of less than 10%;
- transactions in which a related person's interest arises only from the ownership of a class of equity securities of the Corporation and all holders of the class receive the same benefits on a pro rata basis;
- transactions in which the rate charged by a related person is determined by competitive bid; and
- purchases of any products on the same terms available to all members generally.

The Corporation's Office of the General Counsel (the "General Counsel") performs the initial review of all transactions subject to the Policy. Factors to be considered by the General Counsel in reviewing the transaction include:

- whether the transaction is in conformity with the Corporation's Member Code of Integrity (the code of business conduct and ethics) (the "Ethics Code"), the Governance Guidelines, the By-laws and other related policies, including Outside Business Activities of Officers and Managers, Outside Directorships of Officers and Conflicts of Interest, and is in the best interests of the Corporation;
- whether the transaction would be in the ordinary course of the Corporation's business;
- whether the transaction is on terms comparable to those that could be obtained in arm's length dealings with an unrelated third party;
- the disclosure standards set forth in Item 404 of Regulation S-K or any similar provision; and
- whether the transaction could call into question the status of any Director or Director nominee as an independent director under the NYSE listing standards pertaining to director independence and the Categorical Standards.

After reviewing the terms of the proposed transaction and taking into account the factors set forth above, the General Counsel will either:

- approve the transaction if entered into in the ordinary course of business, for an aggregate amount of \$120,000 or less and on terms comparable to those that could be obtained in arm's length dealings with an unrelated third party;
- disallow the transaction if not in the best interests of the Corporation;
- recommend the Audit Committee review the transaction in advance; or
- allow the transaction, subject to ratification by the Audit Committee, but only if the interests of the Corporation will be best served by allowing the transaction to proceed.

At each regularly scheduled Audit Committee meeting, the General Counsel reports each known transaction to be considered by the Audit Committee pursuant to the policy, including the proposed aggregate value of each transaction and any other relevant information. After review, the Audit Committee approves, ratifies or disallows each transaction in accordance with the guidelines set forth above.

If the General Counsel learns of an ongoing or completed transaction, arrangement or relationship not submitted for prior review and approval, the General Counsel will:

- in the case of an ongoing transaction, submit it to the Audit Committee for ratification, amendment or termination;
- and
- in the case of a completed transaction, submit it to the Audit Committee for ratification, amendment or rescission.

EXECUTIVE COMPENSATION

Compensation Discussion and Analysis

Executive Summary

The executive compensation program for Fiscal 2013 highlights the Corporation's pay for performance philosophy, with a substantial portion of each Named Executive Officer's compensation tied to the achievement of financial and strategic goals and the creation of long-term value for shareholders. A majority of each Named Executive Officer's compensation opportunity in Fiscal 2013 was awarded in the form of performance-based annual and long-term awards and stock options to incent long-term value creation for shareholders. Shareholders have continued to voice their support for the Corporation's pay for performance compensation program—approximately 98% of votes cast in last

year's Say on Pay vote approved the compensation of the Named Executive Officers.

For Fiscal 2013, the Corporation's Named Executive Officers were:

Table of Contents

Name	Title
Stan A. Askren	Chairman, President and Chief Executive Officer, HNI Corporation
Kurt A. Tjaden	Vice President and Chief Financial Officer, HNI Corporation
Bradley D. Determan	Executive Vice President, HNI Corporation President, Hearth & Home Technologies
Jerald K. Dittmer	Executive Vice President, HNI Corporation President, The HON Company
Jeffrey D. Lorenger	Executive Vice President, HNI Corporation President, HNI Contract Furniture Group

Compensation Program Changes in 2013. The Board, Compensation Committee and Corporation made few structural changes to the executive compensation program in 2013. The Board increased the threshold required to achieve the minimum payout under the financial component of the Incentive Plan, from 25% to 50%. This change requires a higher level of performance achievement to qualify for an award under the portion of the Incentive Plan tied to economic profit achievement. Additionally, the independent Directors increased Mr. Askren's target Incentive Plan award from 100% to 120% of his base salary based on competitive market data from Frederick W. Cook & Co., Inc. ("FW Cook"). The Compensation Committee also re-evaluated the Corporation's peer group used for CEO compensation benchmarking and replaced two companies in the peer group (Gardner Denver and Furniture Brands International) with Actuant Corporation and Knoll Inc.

Annual Compensation. Under the Incentive Plan for Fiscal 2013, 60% of each annual award opportunity was based on the economic profit of the Corporation or one or more of its operating units and 40% of each annual award opportunity was based on achievement of pre-determined individual goals. Under the Incentive Plan, the Corporation achieved economic profit of \$15.7 million in Fiscal 2013, which reflects a significant improvement over economic profit of \$1.7 million for Fiscal 2012. The Named Executive Officers also earned awards based on their individual goals ranging from 98% to 110% of target. Based on economic profit and achievement of individual goals, Mr. Askren received an annual cash incentive award equal to 115% of his target award; Mr. Tjaden received an annual cash incentive award equal to 110% of his target award; Mr. Determan received an annual cash incentive award equal to 159% of his target award; Mr. Dittmer received an annual cash incentive award equal to 116% of his target award; and Mr. Lorenger received an annual cash incentive award equal to 101% of his target award. Base salary comprised no more than 32% of any Named Executive Officer's target direct compensation.

Long-Term Compensation. In Fiscal 2013, 75% of each Named Executive Officer's long-term incentive compensation opportunity was granted in the form of stock options, which vest in February 2017, and 25% was granted in the form of performance-based cash awards earned over three annual performance periods. Actual performance is measured each year, with one-third of the cash-based award earned based on economic profit achievement in each of the three years covered by the plan. Achievement for each year in the performance period may range from 0% to 200% of one-third of the total cash-based award target. The Board established economic profit targets in 2013 for each year in the three-year performance period. No portion of the award will be paid out until the first quarter of fiscal year 2016, and a Named Executive Officer must remain continuously employed by the Corporation (other than leaving employment as a result of death, disability or retirement) through the last day of fiscal year 2015 to receive a payout.

The significant portion of each Named Executive Officer's Fiscal 2013 compensation opportunity tied to achievement of objective financial and personal strategic goals and creation of long-term value for shareholders demonstrates the commitment of the Corporation, the Board and the Compensation Committee to pay for performance. These

components of the executive compensation program demonstrate a commitment to good compensation program governance:

- No perquisites. The Corporation, consistent with its longstanding culture, does not offer any perquisites to Named Executive Officers, other than standard relocation assistance.
- Executive Stock Ownership Guideline. Each Named Executive Officer is expected to demonstrate a commitment to the Corporation's member-owner culture and alignment with shareholders by achieving a specified level of stock ownership (4x base salary for Mr. Askren and 2x base salary for each other Named Executive Officer) within a specified time. As of the Record Date, each Named Executive Officer met or exceeded the specified level of ownership.
- Compensation Risk Assessment. The Compensation Committee monitors the Corporation's compensation program for risk and annually oversees a multi-disciplinary process.

Table of Contents

- **Anti-Hedging.** The Corporation prohibits members (including the Named Executive Officers) or Directors from engaging in short-term or speculative transactions involving the Corporation's securities, including short sales, margin transactions and buying put or call options.
- **Clawbacks.** If financial results are significantly restated due to fraud or intentional misconduct, the Board will review any performance-based compensation paid to executive officers found to be personally responsible for the fraud or intentional misconduct leading to the restatement and may, to the extent permitted by law, seek recoupment of amounts paid in excess based on the restated financial results.

Philosophy and Objective of the Executive Compensation Program

The Corporation's Vision Statement contains its core beliefs and values, including creating long-term value for shareholders, being profitable and pursuing profitable growth. The Corporation's management and Board believe aligning the compensation of the Corporation's senior management, who are most equipped to drive corporate performance and define corporate strategy, with shareholders and the Corporation's financial performance is integral to maintaining profitability and creating long-term shareholder value. Governance of the executive compensation program, including hands-on involvement of the Compensation Committee, is guided by those principles.

Governance of the Executive Compensation Program

The Compensation Committee and Independent Directors. The Compensation Committee has primary responsibility for design and implementation of the executive compensation program. The Compensation Committee designs compensation strategy and structure to assure:

- alignment with the long-term interests of shareholders and members;
- members are fairly and reasonably compensated relative to peers; and
- consideration of both corporate and individual performance.

For Named Executive Officers other than the Chairman and CEO, the Compensation Committee reviews and approves base salary changes, Incentive Plan, Performance Plan and Supplemental Income Plan ("SIP") awards. The Compensation Committee considers recommendations from the Chairman and CEO with respect to base salary changes and setting and achieving individual goals under the Incentive Plan for other Named Executive Officers.

The Compensation Committee reviews and recommends to the Board for approval by the independent Directors base salary increases and Incentive Plan, Performance Plan and SIP awards for the Chairman and CEO.

All equity grants under the 2007 Stock-Based Compensation Plan (the "Stock Plan") require approval by the independent Directors (for grants to the Chairman and CEO) or the Board (for grants to other Named Executive Officers), upon recommendation by the Compensation Committee.

The Compensation Committee requests and considers the recommendations of the Chairman and CEO regarding base salary increases, and setting and reviewing achievement of individual goals under the Incentive Plan, for other Named Executive Officers.

The Corporation's Law, Finance and Member and Community Relations ("MCR") Departments support the Compensation Committee and the Board in a variety of ways related to executive compensation, including conducting executive compensation benchmark analysis, preparing compensation-related materials, providing recommendations on base salary increase percentages and annual and long-term incentive compensation award targets and providing updates on corporate governance laws and best practices.

The Compensation Committee occasionally retains an outside compensation consultant to provide data and recommendations for structuring and designing the Corporation's executive compensation program, selecting a peer group for benchmarking and establishing competitive incentive award targets. In Fiscal 2013, the Compensation Committee engaged FW Cook to:

- review the Corporation's peer group for evaluating the Chairman and CEO's compensation level; and

Table of Contents

- provide updated data and recommendations regarding the Chairman and CEO's compensation, including base salary and Incentive Plan award targets.

In Fiscal 2013, FW Cook did not provide any services to the Corporation other than this engagement by the Compensation Committee. The Compensation Committee determined, based on an analysis of relevant factors including those required by the SEC, FW Cook had no conflict of interest in providing services to the Compensation Committee.

The Role of Benchmarking and Market Data

Benchmarking is used by the Compensation Committee to:

- compare the Chairman and CEO's base salary, annual and long-term incentive award opportunities and overall compensation to a defined peer group of companies the Corporation competes with for business, talent or both; and
- survey data covering a wide range of companies to ensure the salaries, annual and long-term incentive award opportunities and overall compensation for the Named Executive Officers, other than the Chairman and CEO, are in line with similar roles at a broad base of other companies.

CEO and Chairman Benchmarking. The Compensation Committee, in forming its recommendations regarding the Chairman and CEO's compensation in Fiscal 2013, benchmarked his compensation against the below-listed peer companies. Later in the year, after setting the Chairman and CEO's compensation for Fiscal 2013 and based on supplemental work by FW Cook, the Compensation Committee made changes to the peer group for Fiscal 2014.

Generally, a common feature of peer group companies is the Corporation may compete for talent, whether because they are in similar industries or share a similar level of business complexity, manufacturing approach, go-to market structure or other similarity. The Compensation Committee also considered the relative size of the companies, including market capitalization and net sales, to determine which companies were comparable for inclusion in the peer group. More detailed explanations are provided in the table below.

*Effective January 1, 2014, these companies have been removed from the peer group. Knoll Inc. (annual revenues of \$888 million and in the Corporation's sector) and Actuant Corporation (annual revenues of \$1.3 billion and in the Corporation's industry) were added to the peer group. In Fiscal 2013, Furniture Brands International filed for bankruptcy and Gardner Denver was taken private through an acquisition.

In the past two years, the Compensation Committee retained FW Cook to collect and analyze market information on several elements of total compensation for chairmen and chief executive officers, including base salary, annual incentive compensation and long-term incentive compensation. To benchmark Mr. Askren's base salary in 2013, the Compensation Committee utilized comparative data provided by FW Cook in late 2012 and aged it by applying an assumption of a 3 percent annual increase to the base salary data. The Compensation Committee believes 3 percent represents a conservative benchmark for merit increases based on broad-based survey data.

The Compensation Committee targets the sum of the Chairman and CEO's base salary, target annual incentive and target long-term incentive at the median of the peer group.

With respect to incentive compensation, the Compensation Committee utilized the CEO Compensation Review and updated information to:

- derive the peer market median annual and long-term incentive compensation award targets;
- derive the peer market median for base salary and total cash compensation paid, generally composed of base salary and annual incentive compensation; and
- establish, together with the independent Directors, annual and long-term incentive compensation award targets for Fiscal 2013.

Market Data for Other Named Executive Officers. The Compensation Committee, with the assistance of corporate expertise, annually monitors market levels of base salary and short- and long-term incentive compensation using the following commercially available, broad-based, comparative market compensation survey reports developed by independent professional organizations and covering more than 3,000 companies over a broad range of industries (collectively, the "Survey Reports"):

- Towers Watson, U.S. Compensation Data Bank – General Industry Executive Database, Single Regression Report dated March 1, 2012;
- Mercer Human Resource Consulting ("Mercer") – US Mercer Benchmark Database, Executive Compensation Survey dated August 1, 2013; and
- Towers Watson Data Services – CompSource Online, Survey Report on Top Management Compensation dated March 1, 2013.

For purposes of the Compensation Committee's review, the Corporation provides information combining and averaging market data from the Survey Reports to balance data outliers and increase reliability. No industry peer group is selected from the data in the Survey Reports for competitive review because the Corporation competes for

executives across varied industries. The Compensation Committee focuses on the scope and scale of the executive officer's responsibility as the most important benchmarking factors for attracting and retaining executive officers.

The Compensation Committee utilizes the Survey Reports to:

- derive the approximate market median for base salary and total cash compensation paid at the time of appointment or change in responsibilities or when there has been a significant change in market compensation levels;
- derive the approximate market median for target awards at the time of appointment or change in responsibilities or when there has been a significant change in market compensation levels; and
- establish award targets.

Elements of Executive Compensation Program

The key elements of the Corporation's executive compensation program are:

Annual Compensation

Element	Description	Purpose
Base Salary	Fixed level of annual base compensation and the foundation for setting incentive compensation targets.	Compensate executive officers for performing their job duties, reward executive officers for continually improving their know-how and breadth of capabilities and maintain market competitive compensation.
Annual Incentive Award (Incentive Plan)	An award target equal to a percentage of base salary (120% for the Chairman and CEO, 75% for the other Named Executive Officers) and earned 60% on the achievement of an economic profit target for the Corporation or operating unit and 40% on achievement of individual strategic objectives.	Focus the Named Executive Officers on pre-determined corporate financial goals and individual strategic objectives by rewarding achievement through performance-based incentive pay.

Long-Term Compensation

Element	Description	Purpose
Stock Options (Stock Plan)	Options to purchase shares of the Corporation's Common Stock with an exercise price equal to the stock closing price on the date of the grant, vesting four years and expiring ten years after the date of the grant.	Align executive compensation with share price appreciation.
Performance-Based Cash Awards (Performance Plan)	A long-term, performance-based award incentive to earn cash compensation at the end of a three-year performance plan based on the achievement of pre-determined economic profit goals in each year covered by the plan.	Align executive compensation to the Corporation's long-term financial performance, a key driver in creating long-term shareholder value.

Other Benefit Plans

For a description of the other compensation and benefit plans available to Named Executive Officers, please see "Retirement and Other Compensation Plans" in this CD&A. With the exception of a Supplemental Income Plan and Deferred Plan, the other plans available to the Named Executive Officers are generally available to the Corporation's members.

2013 Compensation Mix

For Fiscal 2013, the target compensation mix and actual compensation mix for Named Executive Officers is shown below (base salary, annual incentive and long-term incentive). For the long-term portion, actual compensation mix was calculated based on actual 2013 performance under the Performance Plan for 2013-2015 (the "2013-2015 Plan") and assumed target achievement for 2014 and 2015 under the Plan.

Table of Contents

Analyzing the Difference: Target vs. Actual. Actual Fiscal 2013 compensation for the Named Executive Officers differed from the target primarily as a result of economic profit (for the Corporation or its operating units) under the Incentive Plan and economic profit for the Corporation under the 2013-2015 Plan exceeding the target levels. This resulted in each Named Executive Officer receiving an award above target under the Incentive Plan and the 2013-2015 Plan, which increased the percentage of each Named Executive Officer's total compensation awarded for performance.

This variance between target and actual highlights the Corporation's pay for performance culture. The Corporation's economic profit showed significant improvement over Fiscal 2012 and exceeded the aggressive targets established by the Board, resulting in Named Executive Officers receiving annual incentive compensation above target for strong performance.

Compensation Elements and Decisions in 2013

Base Salary. For Fiscal 2013, the base salary for each Named Executive Officer was at or below the market median for the relevant position. For the Chairman and CEO, the Compensation Committee derives the base salary market median from the CEO Compensation Review. For other Named Executive Officers, the Compensation Committee, with the assistance of the Corporation, derives the base salary market median from the Survey Reports.

Based on individual circumstances, actual base salaries may be higher or lower than the market median based on the following factors, which are also considered annually by the Compensation Committee (and independent Directors in the case of the Chairman and CEO's base salary) when determining whether to award an increase in base salary:

- potential for further growth, development and advancement;
- individual performance and competency; and
- nature of experience both in service to the Corporation and other experience.

The Compensation Committee normally approves base salary changes annually at the Board meeting prior to the anniversary date of each officer's appointment. The Compensation Committee conducts the Chairman and CEO's annual base salary review at the February Board meeting and all independent Directors participate with the Compensation Committee members in this review.

Analysis of Base Salary Changes in Fiscal 2013. Based primarily on performance, personal growth and market factors, the Compensation Committee (and with respect to the Chairman and CEO's base salary, the independent Directors) awarded the following base salaries.

Name	2012	2013	Increase	Increase	Approximate	2013 Base Salary as Percentage of Market Median

Table of Contents

The increases awarded were generally consistent with the Corporation's average increase reflecting individual performance and market competitiveness.

Annual Incentive Compensation. For Fiscal 2013, key features of the Incentive Plan were:

Award Target as a % of Base Salary	
Chairman and CEO	120%
Other Named Executive Officers	75%
Basis of Award Achievement	
Achievement of Financial Goals	60%
Attainment of Individual Strategic Objectives	40%

In Fiscal 2013, the independent Directors increased the Chairman and CEO's Incentive Plan target, as a percentage of his base salary, from 100% to 120%. The independent Directors increased Mr. Askren's target award on recommendation from the Compensation Committee, which recommended the increase to provide an award opportunity consistent with the Peer Group. The Chairman and CEO's annual incentive compensation award target is a greater percentage of annual base salary than the targets for the other Named Executive Officers because the Chairman and CEO has the greatest potential impact on the Corporation's annual performance.

For Fiscal 2013, economic profit achievement representing a 50 percent payout level reflects threshold performance required to receive a payout, while economic profit achievement representing a 200 percent payout level reflects the maximum incentive for exceptional performance. The Compensation Committee returned the threshold to 50% from 25% in Fiscal 2013 (the threshold was 25% from 2009-2012 as a result of economic uncertainty and challenges with establishing relevant financial goals during the recession). The Compensation Committee determined in Fiscal 2013 to reinstitute the higher threshold requirement given economic recovery and the stabilization of the office furniture and housing industries.

Analysis of 2013 Financial Performance Goals. The Board evaluated and approved economic profit goals under the Incentive Plan for the Corporation and each operating unit for Fiscal 2013 at the February 2013 Board meeting.

HNI – 2013 Annual Incentive Plan Matrix.

The Named Executive Officers eligible for awards based on the financial performance of the Corporation are Messrs. Askren and Tjaden. For Fiscal 2013, the economic profit goal for the Corporation as a whole was \$13,764,000, and actual economic profit achievement was \$15,729,000, resulting in a 118% percent payout as reflected in the table below. Economic profit achievement was above the target primarily due to strong commercial sales of office furniture products and strong sales of hearth products. The delivery of economic profit above target level resulted in payouts above target under the financial portion of the Incentive Plan for Messrs. Askren and Tjaden.

Economic Profit Achievement (\$)	Financial Component of Annual Incentive Compensation Award – Payout (%)

\$24,568,000	200%

Messrs. Askren and Tjaden earned payouts of \$747,910 and \$207,936, respectively, under the financial component of the Incentive Plan. These amounts were calculated as follows:

- For Mr. Askren: $(\$1,056,370 * 60%) * 118\%$.
- For Mr. Tjaden: $(\$293,696 * 60%) * 118\%$.

Messrs. Determan, Dittmer and Lorenger are eligible for awards based on the financial performance of each executive's individual area of responsibility (one or more operating units). This structure aligns executives' interests with the financial performance of their relevant areas of responsibility.

The financial component of Mr. Determan's annual incentive compensation award is based on achievement of the economic profit goal of Hearth & Home Technologies ("HHT") (HHT is the only operating unit included in the Corporation's hearth products operating segment). For Fiscal 2013, the economic profit goal for HHT was \$1,457,000, and economic profit achievement was \$10,747,000, resulting in a 200% payout.

HHT – 2013 Annual Incentive Plan Matrix.

Economic Profit Achievement (\$)	Financial Component of Annual Incentive Compensation Award – Payout (%)
Less than \$3,325,000	0%

\$3,396,000	150%
\$4,366,000	175%
\$5,336,000	200%

Mr. Determan earned a payout of \$357,738 under the financial component of the Incentive Plan. This amount was calculated as follows: $(\$298,115 * 60%) * 200%$.

The financial component of Mr. Dittmer's annual incentive compensation award is based on the achievement of the economic profit goal of The HON Company and Artcobell, the Corporation's operating units for which he is responsible. The financial component of Mr. Lorenger's annual incentive compensation award is based on achievement of the economic profit goals of Allsteel, the Corporation's operating unit for which he is responsible. The Corporation considers the economic profit goals and achievements of HON, Artcobell and Allsteel to be confidential and does not disclose them, or individual operating company results, publicly.

As for all Named Executive Officers, the economic profit performance goals for Messrs. Dittmer and Lorenger are set aggressively and require superior performance by the officers and their corresponding operating units and areas of responsibility. Nonetheless, because the Corporation and Board expect superior performance on a consistent basis, Messrs. Dittmer and Lorenger are expected to achieve 100 percent of target over time on the financial component of their respective annual incentive compensation awards under the Incentive Plan.

Long-Term Incentive Compensation. In Fiscal 2013, the Compensation Committee (and in the case of the Chairman and CEO, the independent Directors) awarded long-term incentive compensation in the form of Performance Plan awards (25 percent) and stock options (75 percent). The mix of stock options and a Performance Plan award appropriately achieved the goal of focusing executives on the creation of long-term value by rewarding long-term financial performance and stock price appreciation.

The table below shows the long-term incentive compensation award targets for each Named Executive Officer under the 2013-2015 Plan.

Notes

- (1) The Black-Scholes option value for award purposes was \$11.92 and differs from the Black-Scholes option value calculated in accordance with Financial Accounting Standards Board Accounting Standards Codification Topic 718, Compensation – Stock Compensation ("FASB ASC Topic 718"), for financial statement reporting purposes (\$10.85). The difference between the Black-Scholes option value for award purposes and the Black-Scholes option value for financial statement reporting purposes results from utilizing a ten-year option life when calculating the value of an award and a six-year expected option life when reporting the value of the award under FASB ASC Topic 718. Utilization of the ten-year option life when calculating the value of an award results in fewer options granted to executives due to the higher option value produced.

In Fiscal 2013, the Compensation Committee also awarded stock option grants to Mr. Lorenger in addition to those reflected above. This additional award, granted in February 2013, had an aggregate grant date fair value of \$300,003, cliff vests four years from the date of the grant and expires ten years from the date of the grant. The Compensation Committee recommended, and the Board provided, this award to encourage retention and reward Mr. Lorenger for leadership on key strategic initiatives. This award is reflected in the Summary Compensation Table under the "Option Awards" Column.

Analysis of 2013-2015 Plan and Awards Earned. The 2013-2015 Plan award covers a three-year performance period (2013, 2014 and 2015). Under the 2013-2015 Plan, each year of the performance period is viewed separately, with one-third of the award eligible to be earned (ranging from 25 percent of the target if the threshold level of economic

profit is achieved to 200 percent of the target if the breakthrough level of economic profit is achieved). The Compensation Committee recommended, and the Board approved, the economic profit goals for each year in the performance period in February 2013, with a base level of economic profit achievement equal to a 100 percent payout and breakthrough level of economic profit achievement equal to a 200 percent payout.

Economic profit achieved by the Corporation in Fiscal 2013 represented (i) the performance goal for the first year of the 2013-2015 Plan, (ii) the performance goal for the second year of the Performance Plan for 2012-2014 (the "2012-2014 Plan") and (iii) the final year of the Performance Plan for 2011-2013 (the "2011-2013 Plan"). For Fiscal 2013, the Corporation's economic profit was:

- \$16.1 million under the 2011-2013 Plan, resulting in an earned award of 54% for Fiscal 2013;
- \$18.7 million under the 2012-2014 Plan, resulting in an earned award of 78% for Fiscal 2013; and
- \$17.2 million, under the 2013-2015 Plan, resulting in an earned award of 134% for Fiscal 2013.

The difference between the economic profit for Fiscal 2013 under the three plans is attributable to the use of a different weighted average cost of capital assumption (as one target was set in 2011, one was set in 2012 and the other in 2013) and the

phase-in of goodwill related to companies acquired after the target was established. A discussion of the 2011-2013 and 2012-2014 Plans was contained in the Proxy Statement for the 2012 Annual Meeting and the 2013 Annual Meeting, respectively.

The economic profit target and payouts for Fiscal 2013 differ between the 2013-2015 Plan, the 2012-2014 Plan and the 2011-2013 Plan as a result of the Compensation Committee recommending, and the Board approving, an economic profit target for each year in a Performance Plan at the beginning of the Performance Plan (e.g., the Fiscal 2013 economic profit target under the 2011-2013 Plan was set in February 2011). The differences in target value result primarily from changing assumptions on national and global economic performance as well as an additional year of actual performance information for the Corporation.

The Named Executive Officers earned the following amounts under the Performance Plan based on Fiscal 2013 performance:

Name	Performance Plan	Target Award for	Actual 2013	Award Earned for 2013

While the amounts under the 2013-2015 Plan and the 2012-2014 Plan have been earned by the Named Executive Officers, no portion of the Performance Plan award is payable unless the Named Executive Officer is continuously employed by the Corporation through the end of the performance period (the last day of the last fiscal year covered by the Performance Plan). Any early termination of employment other than due to death, disability, retirement or a change in control of the Corporation prior to the end of the three-year period results in forfeiture of any outstanding awards. Payout of amounts earned under the Performance Plan is scheduled to occur in the first quarter of the year following the last year in the Performance Plan (e.g., first quarter 2016 for the 2013-2015 Plan). Payout of the amounts earned under the 2011-2013 Plan was made in February 2014.

Incentive Compensation Philosophy and Plans

Incentive compensation during Fiscal 2013 was awarded under the Corporation's Stock Plan (stock options), the Performance Plan (long-term cash-based performance awards) and the Incentive Plan (annual cash-based performance awards). These plans

Table of Contents

and the incentive compensation philosophy of the Corporation are described below to supplement the analysis of Fiscal 2013 awards above.

Incentive Compensation Philosophy. The Compensation Committee typically approves (or recommends to all independent Directors for approval in the case of the Chairman and CEO) overall incentive compensation award targets, consisting of annual and long-term incentive compensation award targets, for each Named Executive Officer slightly above the market median to:

- emphasize pay for performance;
- align executive and shareholder interests; and
- encourage the achievement of established financial performance goals and individual strategic objectives.

The incentive compensation award, at the target level, is set to provide Named Executive Officers with market-competitive compensation. The Compensation Committee does not target actual payouts of annual or long-term incentive compensation at the market median. To achieve a payout at 100 percent of target for either annual or long-term incentive compensation awards, executives must achieve superior results relative to economic and competitive conditions.

Incentive Plan. The Named Executive Officers are eligible for annual incentive compensation under the Incentive Plan. The Incentive Plan motivates executives annually to achieve specific financial performance goals and individual strategic objectives. The weighting between corporate financial goals (60%) and individual objectives (40%) encourages the proper focus by the Named Executive Officers on both annual financial returns and individual contributions to the Corporation's strategic objectives.

The awards are paid in February following the fiscal year for which they are earned, subject to a participant's employment with the Corporation on the last day of the fiscal year for which an award is earned. Any early termination of employment other than due to death, disability, retirement or a change in control of the Corporation prior to the end of the performance period results in forfeiture of any outstanding awards. The awards are paid in cash unless the executive requests and the Compensation Committee approves taking the payment or part of the payment in the form of Common Stock or the Compensation Committee determines, in its sole discretion, the executive's respective stock ownership level under the Executive Stock Ownership Guideline does not reflect appropriate progress toward the executive's five-year goal.

Financial Performance Goals. Economic profit is the measurement for financial performance goal achievement because it promotes the simultaneous optimization of growth, earnings and capital efficiency. Economic profit is defined as after-tax operating profit less a charge for invested capital. The Corporation views economic profit as the best indicator of long-term shareholder value creation.

Each year, management prepares an annual financial plan the Board approves and the Compensation Committee utilizes to establish economic profit goals, which the Board also approves. The economic profit goals are based on current strategic market conditions (e.g., strength of the housing market, global economy or corporate earnings) and business opportunities (e.g., launch of new product line or integration of recently acquired business). The Board evaluates and approves separate economic profit goals for the Corporation and each operating unit.

Economic profit goals are tied to a predetermined payout percentage shown in an award matrix. Payout achievement percentages range between 0 and 200 percent of target based on economic profit achievement. Payout levels are expected to be between 80 and 120 percent of target in most years and average approximately 100 percent of target over time. The Compensation Committee establishes the target level of economic profit as an aggressive but achievable goal for the Corporation as a whole or any operating unit based on economic and competitive conditions at

the time goals are established. Economic profit achievement representing a 50 percent payout level reflects threshold performance required to receive a minimum payout, while economic profit achievement representing a 200 percent payout level reflects the maximum incentive for exceptional performance. Achievement at or below the 50 percent payout threshold or achievement of a 200 percent payout level is expected to occur infrequently.

Individual Strategic Objectives. Each Named Executive Officer's individual strategic objectives are based on broad strategic objectives of the Corporation or a particular operating unit and are defined and measured within the Corporation's fiscal year. The independent Directors annually review and approve the Chairman and CEO's individual strategic objectives. The Chairman and CEO annually reviews and approves the individual strategic objectives of each other Named Executive Officer. Individual strategic objectives are designed to focus each Named Executive Officer on those matters having a significant impact on their individual area of responsibility.

At year-end, each Named Executive Officer evaluates their performance against their individual strategic objectives. The Chairman and CEO, after reviewing these self-evaluations, recommends the achievement percentage for each other Named Executive Officer's individual strategic objectives for Compensation Committee approval. The independent Directors, after reviewing the Chairman and CEO's self-evaluation, determine the achievement percentage of the Chairman and CEO's individual strategic objectives. Achievement percentages for each objective range from 0 to 125 percent. There is no threshold performance level for the individual strategic objective component of the annual incentive compensation award.

Table of Contents

While the financial economic profit goal and the individual strategic goals are evaluated and achieved separately, the individual goals of a Named Executive Officer are broadly tied to financial performance for the Corporation or an operating unit and may impact the portion of the officer's annual incentive compensation award based on the Corporation's or operating unit's financial performance.

Long-Term Incentive Compensation. Long-term incentive compensation is designed to focus executives on long-term value creation measured by objective financial performance metrics and long-term stock price appreciation and incent executives to remain with the Corporation. Long-term incentive compensation is provided through annual:

- Performance-based awards with rolling three-year performance periods under the Performance Plan; and
- Equity grants to select executives, including all Named Executive Officers, under the Stock Plan.

In most years, the two types of long-term incentive compensation provide an appropriate balance between emphasizing financial performance (Performance Plan awards) and stock price performance (stock options). The Compensation Committee and the Board annually evaluate and approve the award targets to strike the appropriate balance between Performance Plan awards and stock options for each Named Executive Officer.

Performance Plan. Economic profit is used as the performance measure for the Performance Plan for the reasons described under "Incentive Compensation Philosophy and Plans – Incentive Plan – Financial Performance Goals" on page 28 of this Proxy Statement. Under the Performance Plan, economic profit is defined as after-tax operating profit less a charge for invested capital, with cash normalized to a fixed amount for purposes of the calculation. The amount of economic profit calculated under the Performance Plan differs from economic profit under the Incentive Plan because the Performance Plan's definition of economic profit assumes cash to be a fixed amount for purposes of the calculation. A fixed level of cash is assumed under the Performance Plan to eliminate the effect on long-term compensation of a change in corporate cash management strategy during the period.

Each year of a performance period is viewed separately, with one-third of the award eligible to be earned (ranging from 25 percent of the target if the threshold level of economic profit is achieved to 200 percent of the target if the breakthrough level of economic profit is achieved). The Performance Plan award has a 25 percent annual threshold level of economic profit achievement required to earn an award for the year. Economic profit achievement representing a 100 percent payout level is established as an aggressive but achievable goal for the Corporation based on economic and competitive conditions at the time goals are established. Payout levels are expected to average approximately 100 percent across multiple performance periods and failure to achieve a 25 percent payout level or achievement of a 200 percent payout level will occur infrequently. For information on how the Compensation Committee and/or independent Directors determine the long-term incentive compensation award targets and corresponding market medians for each Named Executive Officer, see "The Role of Benchmarking and Market Data" above on page 19 of this Proxy Statement.

Stock Option Awards. Under the Stock Plan, the Board grants stock options with an exercise price equal to the closing price of a share of Common Stock on the date of grant. Annual grants typically occur at the February Board meeting. The Board may grant stock options, Performance Plan awards or RSUs throughout the year for a new hire, a significant promotion or other special circumstances. The amount of income realized by an executive from an option is equal to the stock appreciation between the grant and the exercise dates, which aligns the interests of the Named Executive Officers with the long-term value creation for shareholders. Stock option grants are limited to a group of executives (73 in Fiscal 2013, including all Named Executive Officers) who have the ability through their leadership and strategic actions to significantly impact the Corporation's long-term performance and, consequently, its stock price. In its history, the Corporation has never re-priced stock options.

The exercise price may be paid:

- in cash;
- in shares of Common Stock at fair market value on the date of delivery;

Table of Contents

- by authorizing the Corporation to withhold shares of Common Stock, which would otherwise be delivered upon exercise of the option, having a fair market value equal to the exercise price;
- in cash by a broker-dealer to whom the executive has submitted an irrevocable notice of exercise; or
- by any combination of the above.

The Corporation uses the Black-Scholes option valuation method to calculate the number of options granted, which is based on the targeted dollar value of the award. All stock options cliff-vest four years and expire ten years after the date of grant. Early termination of employment other than due to death, disability, retirement or a change in control of the Corporation results in forfeiture of unvested option awards and a reduction in the exercise period of vested option awards. This policy is designed to motivate executives to focus on long-term value creation and support retention.

Retirement and Other Compensation Plans

The descriptions below summarize other compensation and retirement plans in which Named Executive Officers are eligible to participate. These plans do not change significantly from year to year, and other than participation in the SIP, do not involve annual compensation decisions by the Compensation Committee or the Board.

Supplemental Income Plan. The SIP is available to select key executives who consistently earn income above compensation caps on the qualified plan (i.e., 401(k) plan) and cash profit-sharing benefits. The 2013 statutory compensation limit for qualified plan and cash profit-sharing benefits was \$255,000. Any compensation in excess is excluded from the eligible earnings used to calculate the benefits.

Each year, the Compensation Committee approves and the Board ratifies participation in the SIP. The SIP provides a benefit to the plan's participants, including the Named Executive Officers, equal to the additional amounts the participants would have earned had the Corporation's qualified plan and cash profit-sharing benefits not been subject to compensation caps, except no income attributable to the Performance Plan is considered. The benefit is paid on an after-tax basis in the form of shares of Common Stock issued under the Stock Plan or cash at the discretion of the Compensation Committee.

In Fiscal 2013, the Compensation Committee determined all SIP benefits would be in the form of shares of Common Stock. The SIP shares bear a restrictive legend prohibiting the transfer by sale, pledge, gift or otherwise while the participant is employed by the Corporation. The number of shares of Common Stock is calculated by dividing the amount of the benefit by the closing price of a share of Common Stock on the date the benefit is paid, with cash payable in lieu of any fractional share. The Corporation pays all SIP benefits on the first day of its March fiscal month (or the next closest business day if the day is a weekend or holiday) of each year. Participation in the SIP is provided to assure the overall competitiveness of the executive compensation program. The transfer restriction on SIP shares is intended to facilitate long-term stock ownership by executives, thereby further aligning the interests of executives with the interests of shareholders.

Deferred Compensation Plan. Executives eligible for compensation under the Incentive Plan, which include all Named Executive Officers, are eligible to participate in the HNI Corporation Executive Deferred Compensation Plan (the "Deferred Plan"). The Deferred Plan allows executives to voluntarily defer base salary, Incentive Plan awards, Performance Plan awards, SIP benefits and other amounts. The Deferred Plan allows eligible executives to voluntarily defer the receipt of compensation to supplement retirement and achieve personal financial planning goals. Amounts can be deferred to a cash account earning interest at a rate set each year at one percent above the prime interest rate or to a notional stock account in the form of nonvoting share units fluctuating in value based on the price increase or decrease of Common Stock and earn dividends distributed to all shareholders. The dividends are automatically reinvested for each participant to acquire additional nonvoting shares units. For any cash compensation deferred to the notional stock account, the number of nonvoting share units is determined by dividing the amount of

the compensation by the fair market value of a share of Common Stock on the date the compensation would have otherwise been paid. Each participant elects, on an annual basis, the date or dates of distribution (i.e., a participant can elect a lump-sum distribution or distribution via annual installments not to exceed 15) of any deferred amounts. During Fiscal 2013, Messrs. Askren and Determan were the only Named Executive Officers who participated in the Deferred Plan.

Profit-Sharing Retirement Plan. Each Named Executive Officer participates in the HNI Corporation Profit-Sharing Retirement Plan (the "Retirement Plan"). The Retirement Plan is a defined contribution plan including both pre- and after-tax member contributions as well as various employer contributions and is generally available to all members. Members are eligible to make voluntary (pre- and/or after-tax) contributions immediately upon hire. One year of service is typically required to be eligible for employer contributions. Each Named Executive Officer is eligible for employer contributions. These contributions are reflected in the "All Other Compensation" Column of the Summary Compensation Table.

Table of Contents

Cash Profit-Sharing Plan. Each Named Executive Officer participates in and is eligible for distributions under the HNI Corporation Cash Profit-Sharing Plan (the "Cash Profit-Sharing Plan"). The Cash Profit-Sharing Plan consists of cash profit-sharing calculated and generally paid twice per year. The actual amount of the profit-sharing benefit paid is based upon the profitability (net profit) of each respective operating unit for those members employed by an operating unit or consolidated adjusted net profit of the Corporation for those members employed directly by the Corporation. Members (who are not members of a bargaining unit) are generally eligible to participate after completion of one year of continuous service. To be eligible for distribution, a member must be:

- employed at the date of distribution (including on leave of absence or receiving disability pay);
- retired in accordance with the retirement policy during the most recent profit-sharing period; or
- terminated due to disability.

Amounts paid to the Named Executive Officers under the Cash Profit-Sharing Plan are reflected in the "Bonus" Column of the Summary Compensation Table.

Change in Control, Post-Employment and Other Events

No Named Executive Officer has an employment contract with the Corporation, consistent with the Corporation's general practice. Certain executives, including the Named Executive Officers, have entered into a Change In Control Employment Agreement ("CIC Agreement") with the Corporation. The CIC Agreement is designed to assure continuity of executive management during a threatened takeover and ensure executive management is able to objectively evaluate any CIC proposal and act in the best interests of shareholders during a possible acquisition, merger or combination. Benefits payable under the CIC Agreements have a "double trigger," which means payments under the CIC Agreements are triggered only by termination of the executive by the Corporation other than for cause or disability or by the executive terminating employment for good reason. Please see "Potential Payments Upon Termination or Change in Control" for a discussion of the terms of the CIC Agreements.

Upon a change in control or upon retirement eligibility, certain awards granted under the Incentive Plan, the Performance Plan and the Stock Plan become immediately vested or payable and are not conditioned on a termination of employment. Please see "Potential Payments Upon Termination or Change in Control" for a discussion of the effect of a change in control and retirement eligibility on awards granted under benefit plans.

Other Features of the Executive Compensation Program

Perquisites. Consistent with its longstanding culture, the Corporation does not provide executives with any special or unique perquisites, for example company cars or club memberships. Relocation assistance is provided to executives under a relocation program broadly available for employees transferred within the Corporation and newly-hired professional employees. Executives participate in the same health, retirement, profit sharing, disability and life insurance programs and member stock purchase plan as other members. The dollar value of Corporation-paid life insurance premiums under the HNI Corporation Group Term Life Insurance Plan ("Life Insurance Plan") for each Named Executive Officer is reflected in the "All Other Compensation" Column of the Summary Compensation Table.

Anti-Hedging Policy. The Corporation's Insider Trading Policy, revised in Fiscal 2012, includes an enhanced policy prohibiting officers (including the Named Executive Officers) or Directors from hedging their ownership of the Corporation's Common Stock (including prepaid variable forwards, equity swaps, collars and exchange funds), engaging in short sales or purchasing put or call options, pledging their shares of the Corporation's Common Stock, holding them in a margin account or engaging in short-term transactions with shares of the Corporation Common Stock. This policy is designed to ensure alignment of officers and Directors with shareholders and requires them to bear the full economic risk of share ownership. Each Named Executive Officer is in compliance with the

Corporation's anti-hedging policy.

Executive Stock Ownership Guideline. The Board has adopted an Executive Stock Ownership Guideline based on the belief key executives should have a significant ownership interest in the Corporation's stock. Under the guideline, ownership levels are provided for executives to acquire and hold a recommended ownership interest in the Corporation's stock based on their position and compensation level. The guideline is intended to align the interests of key executives with shareholder interests. The guideline ownership levels are shown below:

31

Table of Contents

Position	\$ Value of Shares
Chairman of the Board, President and CEO	4.0 x Base Salary
Operating Company (Unit) Presidents, Chief Financial Officer and Executive Vice Presidents	2.0 x Base Salary
Other Officers	1.5 x Base Salary

Executives are encouraged to reach their respective stock ownership level within five years of the date the individual assumes an executive position covered by the guideline. The Compensation Committee annually reviews each executive's progress toward the goal. The Compensation Committee can specify a percentage of the executive's annual incentive compensation be paid in shares of Common Stock if it determines an executive is not achieving appropriate progress toward the goal.

In addition, the guideline credits the executive with vested shares allocated to the executive under the qualified and non-qualified retirement plans and with the number of shares (net of the exercise price) issuable to the executive if he exercised vested, in-the-money stock options. Each Named Executive Officer has achieved the specified level of ownership.

Executive Compensation Clawback. If financial results are significantly restated due to fraud or intentional misconduct, the Board will review any performance-based compensation paid to executive officers who are found to be personally responsible for the fraud or intentional misconduct leading to the restatement and may, to the extent permitted by law, seek recoupment of amounts paid in excess of the amounts based on the restated financial results.

Tax Deductibility of Executive Compensation. The Corporation typically seeks to maximize the tax deductibility of components of executive compensation where appropriate. Section 162(m) of the Code ("Section 162(m)") limits the ability of public companies to deduct compensation in excess of \$1,000,000 paid annually to the chief executive officer and the three other most highly compensated executive officers, not including the chief financial officer. There are exceptions to this limit, including compensation qualified as "performance-based." The portion of the Incentive Plan award linked to financial performance and any Performance Plan and stock option awards complied with the exception to Section 162(m) and are not considered in determining the \$1,000,000 limit. In Fiscal 2013, RSUs which were not considered "performance-based" under Section 162(m) vested for each Named Executive Officer. As a result, certain compensation for Mr. Askren was not deductible by the Corporation.

Impact of Prior Compensation in Setting Elements of Compensation

Prior compensation of the Named Executive Officers does not generally impact how elements of current compensation are set. The independent Directors and the Compensation Committee believe the competitive environment mandates current total compensation be sufficient to attract, motivate and retain top management. The Compensation Committee analyzes outstanding equity grants, outstanding Incentive Plan and Performance Plan awards and ownership of Common Stock for each Named Executive Officer to ensure future stock equity grants, Incentive Plan and Performance Plan awards, CIC Agreements and other benefits provide appropriate and relevant incentives to the executives. Based on the current analysis, the Compensation Committee believes prior compensation will not impact the ongoing effectiveness of the compensation objectives.

Say on Pay Vote Results

The Corporation held its annual advisory vote to approve Named Executive Officer compensation at the 2013 Annual Meeting. Approximately 98% of the votes cast by shareholders were in favor of the compensation program for Named Executive Officers described in the Corporation's proxy statement for the 2013 Annual Meeting. The Compensation Committee reviewed its Named Executive Officer compensation decisions with respect to Fiscal 2013 in light of this substantial shareholder support and further considered the results of the advisory vote when making Named Executive Officer compensation decisions in early Fiscal 2013. Given the significant shareholder support voiced through the advisory vote to approve Named Executive Officer compensation, the Compensation Committee continued to apply substantially the same principles in determining the amounts and structure of executive compensation and renewed its commitment to paying for performance.

- (4) The amounts in this column include annual incentive compensation awards earned in Fiscal 2013, Fiscal 2012 and Fiscal 2011 under the Incentive Plan. The awards earned in Fiscal 2013 were paid in February 2014. For Fiscal 2013, in addition to awards earned under the Incentive Plan, this column also includes the cash portion of Performance Plan awards earned for the 2013 portion of the 2011-2013 Plan, the 2012-2014 Plan and the 2013-2015 Plan. The 2011-2013 Plan award was paid in February 2014 and was subject to continuous employment through the last day of Fiscal 2013. (1) There is no threshold performance level for the individual strategic objective component of the annual incentive compensation award under the Incentive Plan. However, with respect to the financial component of the annual incentive compensation award under the Incentive Plan, a 50 percent payout level is the minimum performance threshold required to receive a payout. That is the amount reflected above as the threshold for the Incentive Plan.

- (1) All stock options cliff-vest four years after the grant date. Vesting dates for each unexercisable stock option award, in descending order, for each Named Executive Officer are as follows: February 17, 2014, February 16, 2015, February 15, 2016 and February 13, 2017.
- (2) For fiscal years prior to Fiscal 2008, the exercise price was the average of the high and low transaction prices of a share of Common Stock on the grant date. Stock options granted in Fiscal 2008 and after under the Stock Plan have an exercise price equal to the closing price of a share of Common Stock on the grant date.

Nonqualified Deferred Compensation

The Deferred Plan allows executives to defer certain compensation to a cash account earning interest at a rate set annually at one percent above the prime interest rate or to the Corporation's notional stock account in the form of nonvoting share units earning dividends distributed to shareholders which are then automatically reinvested in additional nonvoting share units. The only Named Executive Officers currently participating in the Deferred Plan are Messrs. Askren and Determan. Mr. Askren deferred into the Corporation's notional stock account the after-tax value of his 2012 SIP award, which was granted in February 2013, totaling \$83,236 and is reflected in the table below. The value of Mr. Askren's 2012 SIP award, before taxes, was \$86,994. Mr. Askren's balance in the Deferred Plan as of the end of Fiscal 2013 was 42,885 nonvoting share units. Unless distributed earlier due to the occurrence of certain triggering events as described in the Deferred Plan (including death, disability or change in control), this balance will not be distributed until the earlier of January 31, 2016 for a portion of the balance, January 31, 2017 for another portion of the balance, January 31, 2018 for another portion of the balance and the date Mr. Askren is no longer employed by the Corporation with respect to the entire remaining balance.

Mr. Determan deferred into the Corporation's cash account the after-tax value of his 2013 Incentive Plan award, which was paid in February 2014, totaling \$474,599 and is reflected in the table below. Unless distributed earlier due to the occurrence of certain triggering events as described in the Deferred Plan (including death, disability or change in control), this balance will be distributed beginning in January 31, 2017 in five annual installments.

Notes

- (1) The amount of Mr. Askren's contribution before taxes, \$86,994, is reflected in the "All Other Compensation" Column of the Summary Compensation Table for Mr. Askren's Fiscal 2012 compensation. The amount of Mr. Determan's contribution before taxes, \$474,599, is reflected in the "Non-Equity Incentive Plan Compensation" Column of the Summary Compensation Table for Mr. Determan's Fiscal 2013 compensation.
- (2) The reported dollar value is the sum of (i) share price appreciation (or depreciation) in the account balance during Fiscal 2013 not attributable to contributions, withdrawals or distributions during Fiscal 2013 and (ii) dividends earned on the account balance during Fiscal 2013. The share price appreciation (or depreciation) is calculated by first multiplying 39,018, the number of nonvoting share units in Mr. Askren's account at the end of Fiscal 2012, by \$39.38, the closing price of a share of Common Stock on December 27, 2013, the last trading day of Fiscal 2013; and then subtracting from such amount Mr. Askren's aggregate account balance at the end of Fiscal 2012 – \$1,131,970. The dividends earned on the account balance during Fiscal 2013 were \$40,493.
- (3) The reported dollar value is calculated by multiplying 42,885, the number of nonvoting share units in Mr. Askren's account at the end of Fiscal 2013, by \$39.38, the closing price of a share of Common Stock on December 27, 2013, the last trading day of Fiscal 2013. For Mr. Determan, this balance reflects his contribution in February 2014 as his balance at the end of Fiscal 2013 was \$0.

Potential Payments Upon Termination or Change in Control

Retirement, death, disability and change in control ("CIC") events trigger the payment of compensation to the Named Executive Officers not available to all salaried members.

Change in Control Employment Agreements. A limited number of executives, including the Named Executive Officers, have entered into a CIC Agreement with the Corporation. The CIC Agreement is designed to assure the continuity of executive management during a threatened takeover and ensure executive management is able to objectively evaluate any CIC proposal and act in the best interests of shareholders during a possible acquisition, merger or combination. The agreement is designed as part of a competitive compensation package, thereby aiding in attracting and retaining top-quality executives. The description of the amended form of agreement below is qualified in its entirety by the actual form of CIC Agreement, attached as Exhibit 10.1 to the Corporation's Current Report on Form 8-K filed November 16, 2006, as amended by Amendment No. 1, attached as Exhibit 10.1 to the Corporation's Current Report on Form 8-K filed August 10, 2007.

The CIC Agreement defines a CIC as having occurred:

- when a third person or entity becomes the beneficial owner of 20 percent or more of the outstanding Common Stock, subject to certain exceptions;
- when more than one-third of the Board is composed of persons not recommended by at least three-fourths of the incumbent Board;
- upon the occurrence of certain business combinations involving the Corporation; or
- upon approval by shareholders of a complete liquidation or dissolution.

Upon a CIC, a two-year employment contract between the Corporation and the executive becomes effective. The executive is entitled to certain benefits if, at any time within two years of the CIC, the executive's employment is terminated by the Corporation for any reason other than cause or disability of the executive or by the executive for good reason.

Cause is defined as an act or acts of dishonesty on the executive's part resulting in substantial personal enrichment at the Corporation's expense or repeated violations by the executive of obligations under the agreement, which are demonstrably willful and deliberate on the executive's part and resulted in material injury to the Corporation. Good reason is defined as:

- assignment to the executive of any duties substantially inconsistent with the executive's position, authority or responsibilities or any other substantial adverse changes in the executive's position (including title), authority or responsibilities;
- failure to comply with any of the provisions of the agreement;
- a required change of more than 50 miles in the executive's principal place of work, except for travel reasonably required in performing the executive's responsibilities;
- a purported termination of the executive's employment by the Corporation not permitted by the agreement;
- failure to require a successor company to assume the agreement; or

Table of Contents

- the executive's good faith determination the CIC resulted in the executive being substantially unable to carry out authorities or responsibilities attached to the position held prior to the CIC.

When a triggering event occurs following a CIC, the executive is entitled to a severance payment equal to two times (three times for the Chairman and CEO) the sum of the executive's annual base salary and the average of the executive's annual incentive compensation awards for the prior two years. The executive is also entitled to receive annual salary through the date of termination and a bonus equal to the average of the executive's annual incentive compensation awards for the prior two years (prorated based on the length of employment during the year in which termination occurs) minus any incentive compensation amount already paid to the executive with respect to the fiscal year in which the CIC occurs.

If a triggering event occurs, the executive is also entitled to a continuation of certain employee benefits for up to 18 months and group life insurance benefits for up to two years if comparable benefits are not otherwise available to the executive. In addition, the executive is entitled to receive a lump-sum payment in an amount equal to the present value of the cost of health and dental coverage for an additional six months (including an additional amount to "gross up" this payment for tax liability) and an additional lump-sum payment equal to the value, reasonably determined, of two years of continued participation in disability benefit plans.

The Corporation must fulfill certain obligations to the executive, or pay certain amounts to the executive, through the date of the executive's termination if, at any time within two years of the CIC, the executive is terminated by reason of death, disability or cause, or if the executive terminates employment other than for good reason. Disability and certain other benefits must be provided to the executive after the date of termination if the executive is terminated by reason of disability.

The Corporation must pay the full amount due under the agreement and "gross-up" the executive's compensation for any excise tax, for any federal, state and local income taxes applicable to the excise tax "gross-up" and for tax penalties and interest imposed on "excess parachute payments" (i.e., excess severance or CIC payments), as defined in Section 280G of the Internal Revenue Code of 1986, as amended (the "Code"). A gross-up payment is payable only to the extent the aggregate present value of the severance or CIC payments payable to the executive exceeds 110 percent of three times the executive's annualized includible compensation for the most recent five taxable years ending before the date on which the CIC occurred. If the 110 percent hurdle is not exceeded, the severance or CIC payments to the executive are reduced (or repaid) to the minimum extent necessary so no portion of the executive's benefit constitutes an excess parachute payment subject to the excise tax.

In exchange for receipt of the severance payment, salary, bonus and benefits under the agreement as described above, the executive is prohibited, for a period of one year from the date of termination, from entering into any relationship with any enterprise, business or division thereof (other than the Corporation), engaged in the same business in those states within the United States in which the Corporation, at the time of termination of employment, conducts business and which has annual sales of at least \$10,000,000. In addition, the executive shall not, without the Corporation's prior written consent, communicate or divulge any confidential information, knowledge or data relating to the Corporation or any of its affiliated companies to anyone other than the Corporation or its designees.

The executive is entitled to receive reimbursement for any legal fees and expenses, plus interest thereon, which may be incurred in enforcing or defending the agreement. The CIC Agreement is automatically renewed, on an annual basis, for a period of two years. The Board may terminate the agreement if it determines the executive is no longer a key executive; provided, however, a determination shall not be made, and if made shall have no effect, within two years after the occurrence of a CIC.

The Compensation Committee uses the CIC Agreement to strike an appropriate balance between executive and shareholder interests, preserve productivity, avoid disruption and limit distraction during a period when the Corporation is, or is rumored to be, involved in a CIC transaction. The Compensation Committee wants executives to be able to objectively evaluate any CIC proposal without being influenced by the potential CIC to overstate the value of the potential transaction. Likewise, the Compensation Committee intends to ease the consequences of an unexpected termination of employment so offers in the Corporation and its shareholders' best interests are given careful and thoughtful review.

The Compensation Committee does not view the CIC Agreements as an element of current compensation, and the agreements do not necessarily affect the Compensation Committee's annual decisions with respect to the compensation elements of the executive compensation program. The Compensation Committee receives and reviews information pertaining to compensation payable to the Named Executive Officers upon a CIC, including information contained on page 38 of this Proxy Statement under the heading "Potential Payments Upon Termination or Change in Control."

Table of Contents

Other Compensation Triggered by Change in Control Event. Under the Stock Plan, upon a CIC, each outstanding RSU award is immediately vested and stock option is immediately exercisable in full and remains exercisable for the remaining term of the option. Under both the Incentive Plan and the Performance Plan, the Board values each outstanding Incentive Plan and Performance Plan award prior to the effective date of a CIC and the values are payable without proration within 30 days of the date of a CIC. The foregoing payments occurring on or after a CIC are not conditioned on termination of employment.

Compensation Triggered By Retirement, Death or Disability. Upon retirement at age 65, or after age 55 with ten years of service, all outstanding Incentive Plan, Performance Plan and stock option awards immediately vest. Upon disability or death, all outstanding Incentive Plan, Performance Plan, stock option and RSU awards immediately vest. Option holders who terminate employment due to disability may exercise stock options, which fully vest as of the date of disability, until the earlier of the expiration date of the stock option or the second anniversary of the date of disability. The representatives of option holders whose employment is terminated due to death may exercise stock options, which shall fully vest as of the date of death, until the earlier of the expiration date of the stock option or the second anniversary of the date of death. Option holders who terminate employment due to retirement may exercise stock options, which shall fully vest as of the date of retirement, until the earlier of the expiration of the stock option, or the third anniversary of the date of retirement.

In the event of a termination of employment not due to a CIC event, retirement, death or disability, the Named Executive Officers receive only those benefits available to all members. However, the Named Executive Officers may exercise stock options which are vested as of the date of termination until the earlier of the expiration of the stock option or 180 days following the date of termination.

The following tables quantify compensation payable to the Named Executive Officers upon a CIC or the death or disability of the executive. The tables include only compensation items not available to all salaried members and assume the event occurred on the last business day of Fiscal 2013. Only Mr. Dittmer was retirement eligible as of the last business day of Fiscal 2013, so retirement information is provided only for him. The "Total" Column in each of the following tables does not include deferred compensation, which may be payable sooner than the original election date. For a discussion of the Corporation's obligations to the Named Executive Officers under the Deferred Plan, see the Nonqualified Deferred Compensation for Fiscal 2013 Table above.

PROPOSAL NO. 3 – ADVISORY VOTE TO APPROVE
NAMED EXECUTIVE OFFICER COMPENSATION

Section 14A of the Exchange Act requires the Corporation to provide shareholders with the opportunity to vote to approve, on a non-binding, advisory basis, a resolution approving the compensation of the Named Executive Officers disclosed in this Proxy Statement in accordance with the compensation disclosure rules of the SEC. The Corporation conducts an annual shareholder advisory vote to approve named executive officer compensation as recommended by the Board and approved by shareholders.

In deciding how to vote on this proposal, please consider the following factors as well as the detailed discussion of the executive compensation program contained in the CD&A:

- the independent Directors and the Compensation Committee believe the executive compensation program has been effective at incenting achievement of financial performance goals, individual strategic objectives and creation of shareholder value as illustrated by the Corporation's improved financial performance in Fiscal 2013;
- a majority of each Named Executive Officer's annual compensation opportunity is comprised of incentive-based, at-risk compensation;
- a meaningful portion of the Named Executive Officers' long-term incentive compensation in Fiscal 2013 was performance-based;
- equity is a significant component of total compensation;
- overall compensation levels for the Named Executive Officers are competitive with the market; and
- the Corporation maintains the following governance practices with respect to the executive compensation program:
 - o significant stock ownership guidelines;
 - o no perquisites except standard relocation assistance;
 - o anti-hedging policy for the Named Executive Officers; and
 - o a compensation recovery policy for repayment of performance-based compensation in certain circumstances.

Accordingly, we ask shareholders to vote FOR the following resolution at the Meeting:

"RESOLVED, the shareholders approve, on an advisory basis, the compensation of the Named Executive Officers as disclosed in this Proxy Statement for the Meeting pursuant to the compensation disclosure rules of the SEC, including the CD&A, compensation tables and narrative discussion."

The vote on this proposal is advisory and non-binding and will not be construed as overruling any decision by the Corporation, the Compensation Committee or the Board. However, the Compensation Committee and the Board will review and consider the outcome of this vote when making future compensation decisions for the Named Executive Officers.

Required Vote

The affirmative vote of the holders of a majority of the Outstanding Shares voted at the Meeting is required to adopt the resolution. Abstentions and broker non-votes will not be counted for purposes of determining whether this Proposal has received sufficient votes for approval.

Recommendation of the Board

THE BOARD RECOMMENDS A VOTE "FOR" ADOPTION OF THE RESOLUTION APPROVING
THE
COMPENSATION OF THE NAMED EXECUTIVE OFFICERS AS DISCLOSED IN THIS PROXY
STATEMENT.

DIRECTOR COMPENSATION

Each independent Director receives an annual retainer of \$150,000, of which \$60,000 is paid in cash in equal installments of \$15,000 at each quarterly Board meeting and \$90,000 is paid in the form of a Common Stock grant issued under the 2007 Equity Plan for Non-Employee Directors of HNI Corporation (the "2007 Equity Plan") at the May Board meeting. In Fiscal 2013, each independent Director received:

- a cash installment payment of \$15,000 at each of the February, May, August and November Board meetings; and
- a \$90,000 Common Stock grant at the May Board meeting.

The Lead Director receives an additional annual retainer of \$15,000 (prior to the May 7, 2013 Board meeting, the additional annual retainer was \$12,000). Each Audit Committee member receives an additional annual retainer of \$4,000. The Chairperson of the Audit Committee receives an additional annual retainer of \$10,000 (prior to the May 7, 2013 Board meeting, the additional annual retainer was \$7,500). The Chairpersons of the Compensation Committee and Governance Committee each receive an additional annual retainer of \$7,500. As with the cash portion of the annual retainer for Board service, retainers for committee Chairpersons, Lead Director or Audit Committee service are paid in equal installments at each quarterly Board meeting.

Independent Directors may receive an additional \$1,000 for each meeting attended if they are required to travel six hours or more on a round-trip basis. Directors are also reimbursed for travel and related expenses incurred to attend meetings. For purposes of determining Director compensation, an independent Director is anyone who is not a member of the Corporation. Directors who are members of the Corporation do not receive additional compensation for service on the Board.

The Corporation's policy with regard to Common Stock ownership by independent Directors is for each Director to own Common Stock with a market value of five times or more the cash portion of the annual retainer. To promote Common Stock ownership, Directors are required to receive one-half of the cash portion of their annual retainer in the form of shares of Common Stock to be issued under the 2007 Equity Plan or, to the extent the Director participates in the HNI Corporation Directors Deferred Compensation Plan (the "Directors Deferred Plan"), in the form of nonvoting share units to be credited to the Director's account under the Directors Deferred Plan. This requirement does not, however, apply to any Director owning Common Stock with a market value of five times or more the cash portion of the annual retainer. As of the end of Fiscal 2013, all of the Corporation's independent Directors were in compliance with the Corporation's policy with regard to stock ownership.

In addition to acquiring Common Stock as partial payment of their annual retainer, independent Directors can also acquire Common Stock in several other ways. Under the 2007 Equity Plan, Directors may elect to receive up to 100 percent of their cash retainers in the form of shares of Common Stock. Under the Directors Deferred Plan, each Director has the opportunity to defer up to 100 percent of his or her retainers earned as a Director. Amounts can be

deferred to a cash account earning interest at a rate set each year at one percent above the prime interest rate or to the Corporation's notional stock account in the form of nonvoting share units that fluctuate in value based on the price increase or decrease of Common Stock and earn dividends distributed to all shareholders. The dividends are automatically reinvested for each participant to acquire additional nonvoting shares units. For any cash compensation deferred to the Corporation's notional stock account, the number of nonvoting share units is determined by dividing the amount of the compensation by the fair market value of a share of Common Stock on the date such compensation would have otherwise been paid. Each Director participating in the Directors Deferred Plan elects, on an annual basis, the date or dates of distribution (i.e., a Director can elect a lump-sum distribution or distribution via annual installments not to exceed 15) of any amounts he or she has deferred. In addition, each independent Director is eligible to receive awards of stock options to purchase Common Stock, restricted stock or Common Stock grants, or any combination thereof, under the 2007 Equity Plan in such amounts as the Board may authorize.

Table of Contents

In May 2013, each independent Director serving on the Board was granted 2,560 shares of Common Stock under the 2007 Equity Plan. The Corporation does not have a non-equity incentive plan for independent Directors. As of the Record Date, the Corporation has never issued stock options to purchase Common Stock or shares of restricted stock to the independent Directors and all shares of Common Stock issued to Directors in lieu of cash retainer amounts were fully vested upon issuance.

The difference between the

\$90,000 Common Stock grant authorized by the Board and the actual value of Common Stock issued (\$89,984) was approximately \$16. As the Corporation only issues fractional shares under the Directors Deferred Plan, and not under the 2007 Equity Plan, the Corporation paid each independent Director serving on the Board as of May 7, 2013, \$16, either in the form of cash in lieu of a fractional share for those Directors that did not elect to defer their Common Stock grant under the Directors Deferred Plan or in the form of a fractional share for those Directors that did elect to defer their Common Stock grant under the Directors Deferred Plan. Mses. Bell and Smith and Mr. Jenkins each deferred 100 percent of their Common Stock grants under the Directors Deferred Plan. There are no unexercised option awards or unvested stock awards outstanding as of the end of Fiscal 2013 for any of the Directors.

(3) Includes above-market interest earned on cash compensation deferred under the Directors Deferred Plan. Interest on deferred cash compensation is earned at one percent over the prime rate. Mr. Jenkins deferred 50 percent of his cash compensation. Above-market interest earned by Mr. Porcellato is for cash compensation deferred prior to January 1, 2007, and interest earned by Mr. Waters is for cash compensation deferred prior to January 1, 2010.

(4) Includes dividends earned on Common Stock grants during Fiscal 2013.
