ITEM 7. EXHIBITS

EXHIBIT 99.1 CONTRACT STATUS SUMMARY AT APRIL 9, 2002

ITEM 9. REGULATION FD DISCLOSURE

The RICHMOND (a submersible drilling unit located in the United States Gulf of Mexico) has been awarded a contract by El Paso Production Oil & Gas Company to drill one well, plus an option for one additional well. The operating dayrate for the firm well is \$18,000, with the well estimated to take 70 to 90 days to complete. This drilling program will commence upon completing (estimated by the end of April 2002) the current dockside maintenance, inspections and painting being performed on the rig.

The ATWOOD EAGLE continues to work under its one-well program in Sicily

Edgar Filing: ATWOOD OCEANICS INC - Form 8-K

which is currently expected to be completed toward the end of April 2002. Upon completion of this commitment, the rig will be immediately moved to a shipyard in Greece to commence its \$90 million upgrade.

The ATWOOD FALCON continues its work in the Philippines, which is now expected to be completed in late April to early May 2002. Upon completion of this commitment, the rig will be moved to Malaysia to commence its firm five-well plus option contract.

The ATWOOD SOUTHERN CROSS is scheduled to complete its current drilling program in Egypt by the middle of April 2002 and then has a four to five month drilling program in Israel. The Company continues to monitor the ongoing situation in Israel, in particular, and the Middle East, in general for any future developments, which could negatively affect future operations.

Additional information with respect to the Company's contract status summary at April 9, 2002 is attached hereto as EXHIBIT 99.1, which is being furnished in accordance with Rule 101 (e)(1) under Regulation FD and should not be deemed to be filed.

Statements contained in this report with respect to the future are forward-looking statements. These statements reflect management's reasonable judgment with respect to future events. Forward-looking statements involve risks and uncertainties. Actual results could differ materially from those anticipated as a result of various factors; the Company's dependence on the oil and gas industry; the risks involved in upgrade to the Company's rigs; competition; operating risks; risks involved in foreign operations; risks associated with possible disruptions in operations due to terrorism; and governmental regulations and environmental matters. A list of additional risk factors can be found in the Company's Annual Report on Form 10-K for the year ended September 30, 2001, filed with the Securities and Exchange Commission.

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned hereunto duly authorized.
