ROWAN COMPANIES PLC AND SUBSIDIARIES

NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

Note 1 – Nature of Operations and Basis of Presentation

On May 4, 2012, Rowan Companies plc, a public limited company incorporated under the laws of England and Wales (“Rowan UK”), became the successor issuer to Rowan Companies, Inc. (“Rowan Delaware”) pursuant to an agreement and plan of merger and reorganization (the “redomestication”) approved by the stockholders of Rowan Delaware on April 16, 2012. As a result of the redomestication, Rowan UK became the parent company of the Rowan group of companies and our place of incorporation was effectively changed from Delaware to the United Kingdom. We remain subject to the Securities and Exchange Commission reporting requirements, the mandates of the Sarbanes-Oxley Act and the applicable corporate governance rules of the NYSE, and we will continue to report our consolidated financial results in U.S. dollars and in accordance with accounting principles generally accepted in the United States of America (“US GAAP”). We also must comply with additional reporting requirements of English law. The redomestication was accounted for as an internal reorganization of entities under common control; therefore, for purposes of these consolidated financial statements, the carrying values of assets and liabilities of the merged entities were carried forward without adjustment. Unless the context otherwise requires, the terms “Company,” “we,” “us” and “our” are used to refer to Rowan UK (or Rowan Delaware for periods prior to the redomestication) and its consolidated subsidiaries.

The Company is a major provider of international and domestic offshore oil and gas contract drilling services and provides its services utilizing a fleet of 31 self-elevating mobile offshore “jack-up” drilling units. The Company’s primary focus is on high-specification and premium jack-up rigs, which its customers use for exploratory and development drilling and, in certain areas, well workover operations. Additionally, the Company has four ultra-deepwater drillships under construction, the first of which is scheduled for delivery in late 2013.

The Company conducts offshore drilling operations in various markets throughout the world including the North Sea, Middle East, Southeast Asia and U.S. Gulf of Mexico, among others.

The financial statements included in this Form 10-Q are presented in U.S. dollars and include the accounts of the Company and its subsidiaries, all of which are wholly owned. Intercompany balances and transactions are eliminated in consolidation.

The financial statements included in this Form 10-Q have been prepared without audit in accordance with US GAAP for interim financial information and the rules and regulations of the Securities and Exchange Commission. Certain information and notes have been condensed or omitted as permitted by those rules and regulations. Management believes the accompanying financial statements contain all adjustments, which are of a normal recurring nature unless otherwise noted, necessary for a fair statement of the results for the interim periods presented. The Company’s results of operations and cash flows for the interim periods are not necessarily indicative of results to be expected for the full year. The accompanying condensed consolidated financial statements should be read in conjunction with the audited consolidated financial statements and related notes included in the Company’s Annual Report on Form 10-K for the year ended December 31, 2011, as amended by Form 8-K filed with the Securities and Exchange Commission on May 16, 2012.

In June and September 2011, the Company completed the sales of its manufacturing subsidiary, LeTourneau Technologies, Inc (“LeTourneau”) and its land drilling operations, respectively. Manufacturing operations were previously reported as the “Drilling Products and Systems” and the “Mining, Forestry and Steel Products” segments, and land drilling operations were previously reported as a component of the “Drilling Services” segment. The Company

does not currently segment its continuing offshore drilling business for reporting purposes. Results of the former manufacturing and land drilling operations are classified as discontinued operations in the statement of income (see Note 2, "Discontinued Operations"). As permitted under US GAAP, the Company has chosen not to separately disclose cash flows pertaining to discontinued operations in the Condensed Consolidated Statement of Cash Flows.

The financial information as of December 31, 2011, presented in this report does not constitute the Company's statutory accounts for that year within the meaning of the U.K. Companies Act 2006. Statutory accounts as required by the Companies Act 2006 for the year ended December 31, 2011 have been delivered to the Registrar of Companies in the U.K. The auditors reported on those accounts: their report was unqualified, did not draw attention to any matters by way of emphasis and did not contain a statement under s498(2) or (3) Companies Act 2006.

Note 2 – Discontinued Operations

In June and September 2011, the Company completed the sales of its manufacturing and land drilling operations, respectively. Discontinued operations for the 2012 periods primarily consisted of write-offs of receivables assumed and a working capital adjustment to the sale price of the land drilling business, among other items. The following table sets forth the components of “Discontinued operations, net of tax” (in thousands):

	2012			2011

Deferred revenues	\$20,122	\$-	\$20,122	\$20,122	\$-	\$20,122
Other current liabilities	1,133	-	1,133	1,183	3,700	4,883
Liabilities of discontinued operations	\$21,255	\$-	\$21,255	\$21,305	\$3,700	\$25,005

Note 3 – Earnings Per Share

A reconciliation of basic and diluted shares follows (in thousands):

	Three months ended		Nine months ended	
	September 30, 2012	September 30, 2011	September 30, 2012	September 30, 2011
Average common shares outstanding - basic	123,132	125,237	122,947	125,546
Effect of dilutive securities - share-based compensation	905	1,207	850	1,410
Average common shares - diluted	124,037	126,444	123,797	126,956

There were no adjustments to net income required for purposes of computing diluted earnings per share.

Share options and appreciation rights granted under share-based compensation plans are antidilutive and excluded from diluted earnings per share when their exercise or strike price exceeds the average stock market price during the period. The following table sets forth antidilutive shares excluded from diluted earnings per share. Such securities could potentially dilute earnings per share in the future (in thousands):

	Three months ended		Nine months ended	
	September 30, 2012	September 30, 2011	September 30, 2012	September 30, 2011

Edgar Filing: ROWAN COMPANIES PLC - Form 10-Q

Employee and director share options	42	42	42	42
Share appreciation rights	566	314	616	257

Note 4 – Pension and Other Postretirement Benefits

The Company provides defined-benefit pension, health care and life insurance benefits upon retirement for certain full-time employees.

Recognized net periodic pension cost included the following components (in thousands):

	Three months ended September 30,		Nine months ended September 30,	
	2012	2011	2012	2011
Service cost	\$2,750	\$3,142	\$8,192	\$9,323
Interest cost	7,653	7,802	22,791	23,152
Expected return on plan assets	(9,469)	(8,445)	(28,203)	(25,058)
Recognized actuarial loss	4,887	(7,221)	18,691	4,294
Settlement loss	5,126	-	5,126	-
Amortization of prior service cost	(1,171)	(1,684)	(3,488)	(4,996)
Total net pension cost	\$9,776	\$(6,406)	\$23,109	\$6,715
Less: Discontinued operations	(1,370)	(11,450)	54	(6,855)
Continuing operations	\$11,146	\$5,044	\$23,055	\$13,570

Recognized other postretirement benefit cost included the following components (in thousands):

	Three months ended September 30,		Nine months ended September 30,	
	2012	2011	2012	2011
Service cost	\$463	\$547	\$1,378	\$1,623
Interest cost	952	1,064	2,836	3,158
Recognized actuarial loss	82	75	243	221
Amortization of transition obligation	120	167	357	495
Amortization of prior service cost	(37)	(52)	(110)	(153)
Total other postretirement benefit cost	\$1,580	\$1,801	\$4,704	\$5,344
Less: Discontinued operations	-	399	-	1,618
Continuing operations	\$1,580	\$1,402	\$4,704	\$3,726

During the nine months ended September 30, 2012, the Company contributed \$44.8 million to its pension and other postretirement benefit plans and expects to make additional contributions to such plans totaling approximately \$1.4 million during the remainder of 2012.

Under the terms of the sale agreements of the Company's manufacturing and land drilling operations, the Company retained pension assets and liabilities related to employees of the former operations. As a result, the Company may be

required to make additional contributions to the plan in excess of currently estimated amounts. Management does not believe that any such additional contributions will have a material effect on the Company's financial position, results of operations or cash flows.

Note 5 – Long-term Debt

Long-term debt consisted of the following (in thousands):

	September 30, 2012	December 31, 2011
3.158% Title XI note payable, due July 2012, secured by the Bob Palmer	\$-	\$ 104,047
5.88% Title XI note payable, due March 2012, secured by the Gorilla VI	-	7,109
2.80% Title XI note payable, due October 2013, secured by the Gorilla VII	-	30,898
5% Senior Notes, due September 2017, net of discount (5.1% effective rate)	398,606	398,394
4.33% Title XI note payable, due May 2019, secured by the Scooter Yeargain	-	45,598
7.875% Senior Notes, due August 2019, net of discount (8.0% effective rate)	497,759	497,511
3.525% Title XI note payable, due May 2020, secured by the Bob Keller	-	50,801
4.875% Senior Notes, due June 2022, net of discount (5.0% effective rate)	496,786	-
Total long-term debt	1,393,151	1,134,358
Less: Current maturities	-	(45,023)
Long-term debt, excluding current maturities	\$ 1,393,151	\$ 1,089,335

In April 2012, the U.S. Department of Transportation Maritime Administration (“MarAd”), which had previously guaranteed certain of the Company’s debt securities under the Title XI Federal Ship Financing Program (the “Title XI Notes”), denied the Company’s request for consent with respect to the redomestication. As a result, the Company redeemed \$127.3 million aggregate principal amount of the Title XI Notes in the second quarter of 2012 for \$141.1 million in cash, including principal, make-whole premiums and accrued interest, and recognized a pretax loss on debt extinguishment of \$11.8 million, including \$0.3 million of noncash deferred financing costs. In July 2012, the Company redeemed the remaining Title XI Note in the principal amount of \$98.8 million for \$110.4 million in cash, including principal, make-whole premium and accrued interest, and recognized a pretax loss on debt extinguishment of \$10.5 million, including \$0.4 million of noncash deferred financing costs, in the third quarter.

In connection with the redomestication, on May 4, 2012, Rowan UK became a party to and a borrower and guarantor under the credit facility, dated September 16, 2010, among Rowan Delaware, Wells Fargo Bank, National Association, as administrative agent and lender, and certain other lenders. Rowan UK entered into a guaranty in favor of the administrative agent for the benefit of the lenders whereby Rowan UK fully and unconditionally guarantees the obligations of Rowan Delaware under the credit facility.

Additionally, on May 4, 2012, Rowan UK and Rowan Delaware entered into a third supplemental indenture to the indenture dated as of July 21, 2009, between Rowan Delaware and U.S. Bank National Association, as indenture trustee, providing for an unconditional and irrevocable guarantee by Rowan UK of Rowan Delaware’s 5% Senior Notes due 2017 and 7.875% Senior Notes due 2019, which had an aggregate outstanding principal balance of \$900 million at September 30, 2012. The Rowan UK guarantee provides for the unconditional and irrevocable guarantee of the prompt payment, when due, of any amount owed to the holders of the notes.

On May 21, 2012, Rowan UK, as guarantor, and its 100% owned subsidiary, Rowan Delaware, as issuer, completed the issuance and sale in a public offering of \$500 million aggregate principal amount of 4.875% Senior Notes due

2022 (the “4.875% Notes”), at a price to the public of 99.333% of the principal amount. Net proceeds were approximately \$493 million, which were used, in part, to replenish cash used to redeem the Title XI Notes in the second and third quarters of 2012. The 4.875% Notes will mature on June 1, 2022. Interest on the 4.875% Notes is payable semi-annually on June 1 and December 1 of each year, commencing December 1, 2012.

The 4.875% Notes are Rowan Delaware’s senior unsecured obligations and rank senior in right of payment to all of its subordinated indebtedness and pari passu in right of payment with any of Rowan Delaware’s existing and future senior indebtedness, including its 5% Senior Notes due 2017, 7.875% Senior Notes due 2019, and any indebtedness under Rowan Delaware’s senior revolving credit facility. The 4.875% Notes rank effectively junior to Rowan Delaware’s future secured indebtedness, if any, to the extent of the value of its assets constituting collateral securing that indebtedness and to all existing and future indebtedness of its subsidiaries (other than indebtedness and liabilities owed to Rowan Delaware). The 4.875% Notes are fully and unconditionally guaranteed on a senior unsecured basis by Rowan UK.

Table of Contents

ROWAN COMPANIES PLC AND SUBSIDIARIES

NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (continued)

All or part of the 4.875% Notes may be redeemed at any time prior to March 1, 2022, for an amount equal to 100% of the principal amount plus a make-whole premium and accrued and unpaid interest to the redemption date, and, at any time after March 1, 2022, for an amount equal to 100% of the principal amount plus accrued and unpaid interest to the redemption date.

The indenture governing the 4.875% Notes contains covenants that, among other things, limit the ability of Rowan Delaware or its subsidiaries to create liens that secure debt or engage in sale and leaseback transactions.

As of September 30, 2012, no principal payments will be required with respect to our outstanding notes during the remainder of 2012 through 2016, and \$400 million becomes due in September 2017.

Note 6 – Commitments and Contingent Liabilities

In September 2012, the Company exercised its option with Hyundai Heavy Industries Co., Ltd (“Hyundai”) for the construction of a fourth ultra-deepwater drillship at its Ulsan, South Korea, shipyard scheduled for delivery in March 2015. The agreement with Hyundai also includes an option for a similar fifth drillship exercisable in the fourth quarter of 2012, for delivery in the third quarter of 2015.

The following table presents the status of the Company’s rig construction program as of September 30, 2012. Amounts include capitalized interest and an estimate for project contingencies (in millions):

	Expected delivery date	Total estimated project costs	Total costs incurred through September 30, 2012	Projected costs for the remainder of 2012	Projected costs in 2013	Projected costs in 2014	Projected costs in 2015	Total future costs
Rowan Renaissance	Dec-13	\$731	\$195	\$34	\$491	\$11	\$-	\$536
Rowan Resolute	Jun-14	739	184	9	159	387	-	555
Rowan Reliance	Oct-14	731	184	2	66	475	4	547
Drillship No. 4	Mar-15	757	167	4	50	49	487	590
		\$2,958	\$730	\$49	\$766	\$922	\$491	\$2,228

The Company periodically employs letters of credit or other bank-issued guarantees in the normal course of its businesses, and had outstanding letters of credit of approximately \$26.1 million at September 30, 2012.

As previously reported, on May 2, 2012, as the EXL I was being towed toward a shipyard in south Texas in preparation for its mobilization to Indonesia, a passing tanker lost power and collided with the rig. All personnel aboard the rig were evacuated safely, but the port side of the rig sustained substantial damage. The cost to repair the

rig is currently estimated to be approximately \$14.1 million, which is being recognized as the costs are incurred. As of September 30, 2012, we had incurred repair costs totaling \$8.9 million. The Company has filed suit against who it believes are the tanker's owners and operators and seeks damages primarily for repairs to and loss of use of the rig. The tanker owners have sought relief under the Limitation of a Shipowner's Liability Act, claiming that damages should be limited to the post-accident value of the tanker plus freight. At this time, both suits are in the preliminary stages of litigation. The Court has set a trial date of October 14, 2013. In the event the tanker owners are successful in their limitation, we believe our potential insurance claims for physical damage would be below our \$25 million deductible. Management believes the Company's claims are legally and factually strong; however, it cannot reasonably estimate the ultimate outcome of the litigation.

In 2009, the Company recognized a \$25.4 million tax benefit as a result of applying the facts of a third-party tax case to the Company's situation. That case provided a more favorable tax treatment for certain foreign contracts entered into in prior years. In

Table of Contents

ROWAN COMPANIES PLC AND SUBSIDIARIES

NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (continued)

2011, the IRS issued an assessment contesting our claim. We plan to vigorously defend our position and continue to believe that we will more likely than not prevail.

We are from time to time a party to various lawsuits filed by current or former employees that are incidental to our operations in which the claimants seek an unspecified amount of monetary damages for personal injury, including injuries purportedly resulting from exposure to asbestos on our drilling rigs. At September 30, 2012, there were approximately 21 asbestos related lawsuits in which we are one of many defendants. These lawsuits have been filed in the state courts of Louisiana, Mississippi and Texas. We intend to vigorously defend against the litigation. We are unable to predict the ultimate outcome of these lawsuits; however, we do not believe the ultimate resolution of these matters will have a material adverse effect on our financial position, results of operations or cash flows.

The Company is involved in various other legal proceedings incidental to its businesses and is vigorously defending its position in all such matters. Management believes that there are no known contingencies, claims or lawsuits that could have a material effect on its financial position, results of operations or cash flows.

Note 7 – Share-Based Compensation

On March 7, 2012, the Company granted restricted shares and share appreciation rights with a grant-date fair value aggregating \$26.4 million. The awards vest in one-third annual increments over a three-year service period. The aggregate fair value, net of estimated forfeitures, was \$24.9 million, which will be amortized on a straight-line basis over three years from the grant date. The Company uses the simplified method for determining the expected life of share appreciation rights because the Company does not have sufficient historical exercise data to provide a reasonable basis upon which to estimate expected term, as permitted under US GAAP.

Additionally, on March 7, 2012, the Company granted performance units with a grant-date fair value of \$3.2 million. The amount ultimately payable will depend on the Company's total shareholder return ranking compared to a group of peer companies over a maximum three-year performance period and could range from zero to \$7.7 million. The awards cliff vest at the end of three years. If the payout metrics are met, the Compensation Committee intends to settle the performance units in cash. The Company has accounted for the awards as a liability. Compensation is recognized on a straight-line basis over three years from the grant date and is remeasured to fair value at each quarterly report date.

In September 2012, the Company accelerated the vesting of share-based awards and extended the exercise period for vested options held by a retiring employee whose awards would otherwise have been forfeited upon termination. As a result of the modification, the Company recognized additional compensation expense in the third quarter of 2012 in the amount of \$2.3 million, which is classified within material charges in the statement of income. The Company valued the modified options assuming they are to be outstanding until or near such time as they expire.

At September 30, 2012, the Company had approximately \$34.5 million of estimated unrecognized future share-based compensation, which is expected to be recognized as compensation expense over a remaining weighted-average period of 2.0 years.

Note 8 – Other Financial Statement Disclosures

Fair Values of Financial Instruments – Fair value is defined as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. The fair value hierarchy prescribed by GAAP requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The three levels of inputs that may be used to measure fair value are:

- Level 1 – Quoted prices for identical instruments in active markets,
- Level 2 – Quoted market prices for similar instruments in active markets; quoted prices for identical instruments in markets that are not active, and model-derived valuations in which all significant inputs and significant value drivers are observable in active markets and
- Level 3 – Valuations derived from valuation techniques in which one or more significant inputs or significant value drivers are unobservable, such as those used in pricing models or discounted cash flow methodologies, for example.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

Table of Contents

ROWAN COMPANIES PLC AND SUBSIDIARIES

NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (continued)

Those financial instruments that are required to be measured at fair value include the Company's cash equivalents, trade receivables and trade payables, whose carrying value approximated their fair values due to their short maturities.

Those financial instruments not required to be measured at fair value consist of the Company's publicly traded debt securities. Fair values of the Company's debt securities were provided by one to two brokers who make a market in our debt securities and were measured using a market-approach valuation technique. Fair value was determined by adding a spread based on actual trades for that security (or a trader quote where actual trades were unavailable) to the applicable benchmark Treasury security with a comparable maturity in order to derive a current yield. The yield is then used to determine a price given the individual security's coupon rate and maturity. Such inputs are considered "significant other observable inputs," which are categorized as Level 2 inputs in the fair value hierarchy. Estimated fair values and related carrying values of our long-term debt securities are shown below (in thousands):

	September 30, 2012		December 31, 2011	
	Fair value	Carrying value	Fair value	Carrying value
5% Senior Notes, due 2017	\$440,678	\$398,606	\$420,019	\$398,394
7.875% Senior Notes, due 2019	618,846	497,759	588,495	497,511
4.875 Senior Notes, due 2022	535,451	496,786	-	-
Title XI Notes	-	-	257,185	238,453
	\$1,594,975	\$1,393,151	\$1,265,699	\$1,134,358

Supplemental Cash Flow Information – Accrued capital expenditures, which are excluded from capital expenditures in the Condensed Consolidated Statements of Cash Flows until settlement, totaled \$41.3 million and \$38.7 million at September 30, 2012 and 2011, respectively. Interest capitalized in connection with rig construction projects totaled \$8.3 million and \$22.4 million in three and nine months ended September 30, 2012, as compared to \$13.9 million and \$39.6 million, respectively, in the comparable periods of the prior year.

Income Taxes – Rowan Delaware, our predecessor company, was domiciled in the U.S. and subject to a statutory rate of 35% through May 4, 2012, the effective date of the redomestication. Effective May 4, 2012, the Company has been subject to the U.K. statutory rate of 24%.

Historically, Rowan Delaware has conducted its foreign operations through its U.S. subsidiaries, which resulted in income tax at or near the U.S. statutory rate of 35%. In late 2009, Rowan Delaware began operating many of its foreign-based rigs through its non-U.S. subsidiaries. We do not provide deferred taxes on the undistributed non-U.S. earnings of Rowan Delaware or its non-U.S. subsidiaries because our policy and intention is to reinvest such earnings outside the U.S. indefinitely or until such time that such undistributed earnings can be distributed in a tax-efficient manner. Furthermore, both our U.S. and non-U.S. subsidiaries have significant net assets, liquidity, contract backlog and/or other financial resources available to meet their operational and capital investment requirements and otherwise allow us to continue to maintain our policy of reinvesting such undistributed earnings outside the U.S. indefinitely.

In accordance with generally accepted accounting principles for interim reporting, the Company estimates its full-year effective tax rate and applies this rate to its year-to-date pretax income. In addition, the Company separately

calculates the tax impact of unusual items, if any. For the three and nine months ended September 30, 2012, we recognized income tax expense of \$8.5 million and \$2.9 million, respectively, on income from continuing operations as compared to benefits of \$3.9 million and \$1.0 million, respectively, for the comparable prior-year periods. The low effective income tax rates in 2012 (relative to the 35% U.S. and 24% U.K. statutory rates) and the recognition of income tax benefits in 2011 were primarily due to the amortization of benefits related to outbounding certain rigs to our non-U.S. subsidiaries in prior years. Also impacting taxes in each period were the removal of the Company's manufacturing and land drilling operations, whose earnings were subject to a 35% U.S. statutory rate, and a significant proportion of income earned in lower-tax jurisdictions.

Note 9 – Guarantees of Registered Securities

On May 4, 2012, the effective date of the Company’s redomestication (the “Redomestication Date”), Rowan UK and Rowan Delaware entered into the third supplemental indenture to the indenture dated as of July 21, 2009, as amended and supplemented, among Rowan UK, Rowan Delaware and U.S. Bank National Association, as trustee, providing for, among other things, the unconditional and irrevocable guarantee by Rowan UK of the prompt payment, when due, of any amount owed to the holders of Rowan Delaware's 5% Senior Notes due 2017 and 7.875% Senior Notes due 2019 (together with Rowan Delaware’s 4.875% Senior Notes due 2022, which were issued in May 2012 and guaranteed by Rowan UK, the “Senior Notes”).

The following condensed consolidating financial information is presented on the equity method of accounting in accordance with Rule 3-10 of Regulation S-X in connection with Rowan UK’s guarantee of the Senior Notes.

Prior to the Redomestication, Rowan Delaware was the parent of the Rowan group of companies, including Rowan UK, which was formed in November 2011. Effective on the Redomestication Date, Rowan UK became the parent and guarantor of Rowan Delaware’s Senior Notes. In accordance with the accounting guidance for a merger of entities under common control, the financial information which follows is presented as though Rowan UK were the parent of the Rowan group of companies for all periods presented.

ROWAN COMPANIES PLC AND SUBSIDIARIES

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

SUMMARY

Operating results from continuing operations for the three and nine months ended September 30, 2012, benefited from the addition of seven newly constructed high-specification jack-up rigs, including three EXL-class rigs and three N-class rigs in 2011, and the Joe Douglas 240-C class rig in 2012. We have continued to maintain a high level of utilization for our high-specification rigs, as oil and gas companies have increasingly sought more capable equipment to meet more demanding drilling requirements. The market for our less capable rigs, however, continues to be softer, and our conventional jack-up rigs have experienced extended periods of idle time. Utilization of our high-specification jack-ups for the quarter ended September 30, 2012, was 86%, compared to 65% and 33% for our premium and conventional jack-ups, respectively. We define high-specification jack-ups as those that have hook load capacity of at least two million pounds and premium jack-ups as those cantilevered rigs capable of operating in water depths of 300 feet or more.

Net income from continuing operations decreased to \$26.4 million in the third quarter of 2012 from \$31.4 million in the third quarter of 2011. For the nine months ended September 30, 2012, net income from continuing operations increased to \$132.8 million from \$102.6 million in the comparable prior-year period. Included in earnings for the three and nine months ended September 30, 2012, was a pretax loss on debt extinguishment of \$10.5 million (\$6.8 million after tax) and \$22.2 million (\$14.4 million after tax), respectively.

For the three and nine months ended September 30, 2012, we recognized income tax expense of \$8.5 million and \$2.9 million, respectively, on income from continuing operations as compared to benefits of \$3.9 million and \$1.0 million, respectively, for the comparable prior-year periods. The low effective income tax rates in 2012 (relative to the 35% U.S. and 24% U.K. statutory rates) and the recognition of income tax benefits in 2011 were primarily due to the amortization of benefits related to outbidding certain rigs to our non-U.S. subsidiaries in prior years. Also impacting taxes in each period were the removal of the Company's manufacturing and land drilling operations, whose earnings were subject to a 35% U.S. statutory rate, and a significant proportion of income earned in lower-tax jurisdictions.

In September 2012, the Company exercised its option with Hyundai for the construction of a fourth ultra-deepwater drillship at its Ulsan, South Korea, shipyard scheduled for delivery in March 2015. See "Liquidity and Capital Resources – Financing Activities."

As previously reported, on May 2, 2012, as the EXL I was being towed toward a shipyard in south Texas in preparation for its mobilization to Indonesia, a passing tanker lost power and collided with the rig. All personnel aboard the rig were evacuated safely, but the port side of the rig sustained substantial damage. The cost to repair the rig is currently estimated at approximately \$14.1 million, which is being recognized as the costs are incurred. As of September 30, 2012, we had incurred repair costs totaling \$8.9 million, which are classified within material charges on the statement of income. Repairs were completed in mid-October, and the EXL I is currently operating in Indonesia.

As of October 31, we had six jack-ups in the North Sea, eleven in the Middle East, seven in the U.S. Gulf of Mexico, two in each of Trinidad and Malaysia, and one each in Egypt and Indonesia. Additionally, another jack-up is mobilizing to Malaysia from Vietnam for potential work in Malaysia. As of October 31, three of our rigs had drilling contracts estimated to complete in 2012, nine had contracts estimated to complete in 2013, eleven had contracts estimated to complete in 2014, five had contracts estimated to complete in 2015 through 2017, and three were

available. Additionally, the Rowan Renaissance, our ultra-deepwater drillship which is under construction and scheduled for delivery in late 2013, has a three-year contract for initial work in West Africa expected to run through 2017.

Utilization (by classification):(4)				
High-specification jack-up(5)	86	% 78	% 91	% 81
Premium jack-up(6)	65	% 39	% 59	% 51
Conventional jack-up	33	% 33	% 33	% 28

- (1) Our rigs operating in the Middle East are located in Saudi Arabia and Qatar. We also have a rig operating in Egypt, which is included in "other international."
- (2) Other revenues, which are primarily revenues received for contract reimbursable costs, are excluded from the computation of average day rate.
- (3) Average day rate is computed by dividing revenues by the number of revenue-producing days.
- (4) Utilization is the number of revenue-producing days divided by the aggregate number of days rigs were available to work.
- (5) We define high-specification jack-ups as those that have hook load capacity of at least two million pounds.
- (6) We define premium jack-ups as those cantilevered rigs capable of operating in water depths of 300 feet or more.

--

Table of Contents

RESULTS OF OPERATIONS

Three months ended September 30, 2012, compared to three months ended September 30, 2011

Our operating results for the three months ended September 30, 2012 and 2011 are highlighted below (dollars in millions):

	Three months ended September 30, 2012			Three months ended September 30, 2011		
	Amount	% of Revenues		Amount	% of Revenues	
Revenues	\$353.9	100	%	\$234.7	100	%
Operating costs	(188.1)	-53	%	(129.8)	-55	%
Depreciation expense	(63.0)	-18	%	(50.3)	-21	%
Selling, general and administrative expenses	(25.8)	-7	%	(22.6)	-10	%
Net gain on property disposals	0.5	0	%	-	0	%
Material charges and other operating expenses	(18.2)	-5	%	-	0	%
Operating income	\$59.3	17	%	\$32.0	14	%

Revenues for the three months ended September 30, 2012, increased by \$119.2 million or 51% compared to the three months ended September 30, 2011, as a result of the following (in millions):

	Increase (Decrease)
Rig additions	\$51.9
Higher utilization of existing rigs	42.6
Higher average day rates for existing rigs	16.5
Revenues for reimbursable costs and other, net	8.2
Net increase	\$119.2

During the period from October 2011 through the first quarter of 2012, operations commenced for three newly constructed rigs, including two in 2011 and one in 2012. These three rigs contributed 274 incremental revenue-producing days in the third quarter of 2012 (13% of total revenue-producing days) compared to the third quarter of 2011.

Operating costs for the three months ended September 30, 2012, increased by \$58.3 million or 45% compared to the three months ended September 30, 2011, as a result of the following (in millions):

	Increase (Decrease)
Operating costs attributable to fleet additions	\$18.1
Higher operating costs of rigs previously in shipyard or in transit	20.2
Expansion of foreign shorebases	9.4
Reimbursable expenses	8.2
Other, net	2.4

Net increase \$58.3

Our operating margin (revenues in excess of operating costs, other than depreciation, selling, general and administrative expenses and material charges) was approximately 47% of revenues in the third quarter of 2012 compared to 45% in the third quarter of 2011. Depreciation increased by \$12.7 million or 25% compared to the third quarter of 2011 due to rig additions. Selling, general and administrative expenses increased by \$3.2 million or 14% due primarily to increases in personnel and related costs and professional fees.

Material charges in the third quarter of 2012 consisted of \$8.9 million of repair costs for the EXL I, \$5.1 million of pension settlement costs in connection with lump sum pension payments to employees of the Company's former manufacturing subsidiary, \$2.3 million of incremental share-based compensation cost in connection with the retirement of an employee and \$1.9 million of legal and consulting fees incurred in connection with the Company's redomestication.

--

Table of Contents

Nine months ended September 30, 2012, compared to nine months ended September 30, 2011

Our operating results for the nine months ended September 30, 2012 and 2011 are highlighted below (dollars in millions):

	Nine months ended September 30, 2012		Nine months ended September 30, 2011		
	Amount	% of Revenues	Amount	% of Revenues	
Revenues	\$1,038.4	100	% \$664.2	100	%
Operating costs	(558.4)	-54	% (345.6)	-52	%
Depreciation expense	(183.3)	-18	% (129.3)	-19	%
Selling, general and administrative expenses	(73.9)	-7	% (65.2)	-10	%
Net gain on property disposals	2.6	0	% 1.4	0	%
Material charges and other operating expenses	(30.9)	-3	% (6.1)	-1	%
Operating income	\$194.5	19	% \$119.4	18	%

Revenues for the nine months ended September 30, 2012, increased by \$374.2 million or 56% compared to the comparable prior-year period as a result of the following (in millions):

	Increase (Decrease)
Rig additions	\$238.7
Higher utilization of existing rigs	83.9
Higher average day rates for existing rigs	32.9
Revenues for reimbursable costs and other, net	18.7
Net increase	\$374.2

During the period from January 2011 through the first quarter of 2012, operations commenced for seven newly constructed rigs, including three EXL-class rigs and the Rowan Viking, Rowan Stavanger, and Rowan Norway in 2011, and the Joe Douglas in 2012. These seven rigs contributed 1,093 incremental revenue-producing days in the first nine months of 2012 (17% of total revenue-producing days) over the comparable prior-year period.

Operating costs for the nine months ended September 30, 2012, increased by \$212.8 million or 62% compared to the comparable prior-year period as a result of the following (in millions):

	Increase (Decrease)
Operating costs attributable to fleet additions	\$99.5
Higher operating costs of rigs previously in shipyard or in transit	58.6
Expansion of foreign shorebases	27.3
Reimbursable expenses	19.1
Other, net	8.3
Net increase	\$212.8

Our operating margin (revenues in excess of operating costs, other than depreciation, selling, general and administrative expenses and material charges) was approximately 46% of revenues in the first nine months of 2012 compared to 48% in the first nine months of 2011. Margins for the 2012 period were negatively impacted by higher rig personnel and maintenance costs, increased shorebase costs associated with expanded international operations and the impact of rigs in shipyards or in transit. Depreciation increased by \$54.0 million or 42% over the 2011 period due to the rig additions. Selling, general and administrative expenses increased by \$8.7 million or 13% due primarily to increases in personnel and related costs and professional fees.

Material charges for the first nine months of 2012 consisted of \$11.7 million of legal and consulting fees incurred in connection with the Company's redomestication, \$8.9 million of repair costs for the EXL I, \$5.1 million of pension settlement costs in connection with lump sum pension payments to employees of the Company's former manufacturing subsidiary, a \$2.9 million impairment charge for the carrying value of steel to reflect the price to be received by the Company under a sale contract and \$2.3 million of incremental share-based compensation cost in connection with the retirement of an employee.

--

Table of Contents

Material charges for the first nine months of 2011 consisted of a \$6.1 million charge for the settlement of litigation in connection with the 2005 loss of the Rowan Halifax.

Outlook

Our backlog by geographic area as of October 31, 2012, and February 27, 2012 (as presented in our 2011 Form 10-K), is set forth below (in millions):

	October 31, 2012	February 27, 2012
Northern Europe	\$1,693	\$1,646
Middle East	774	949
Southeast Asia	203	57
U.S. Gulf of Mexico	168	109
Other international	917	304
	\$3,755	\$3,065

We estimate our backlog will be realized as follows (in millions):

2012	\$249
2013	1,189
2014	1,029
2015	670
2016	500
2017	118
	\$3,755

About 79% and 59% of our remaining available rig days in 2012 and 2013, respectively, were under contract or commitment as of October 31, 2012.

Our collective shipyard, transit and inspection time rose to approximately 14% of our available rig days in the third quarter of 2012, as compared to 11% in the second quarter. We currently expect shipyard, transit and inspection time to approximate 8% in the fourth quarter of 2012, down from our previous estimate of 20%. Our previous fourth quarter estimate of shipyard time assumed our three Tarzan-class rigs working in Saudi Arabia would be in the shipyard for the entire quarter for customer-required well-control equipment upgrades; however, we are now projecting these upgrades will be deferred into 2013. We now expect shipyard, transit and inspection time to consume approximately 9% of our available rig days in 2013, compared to 11% projected for 2012.

LIQUIDITY AND CAPITAL RESOURCES

A comparison of key balance sheet amounts and ratios follows. Balances have been adjusted to exclude assets and liabilities of discontinued operations (dollars in millions):

	September 30, 2012	December 31, 2011
Cash and cash equivalents	\$328.3	\$438.9
Current assets (excluding assets of discontinued operations)	\$839.5	\$794.1
Current liabilities (excluding liabilities of discontinued operations)	\$228.4	\$323.4
Current ratio (excluding assets and liabilities of discontinued operations)	3.68	2.46
Current maturities of long-term debt	\$-	\$45.0
Long-term debt, less current maturities	\$1,393.2	\$1,089.3
Shareholders' equity	\$4,478.3	\$4,326.0
Long-term debt/total capitalization	0.24	0.20

Table of Contents

Sources and uses of cash and cash equivalents are set forth below and include sources and uses from continuing and discontinued operations (in millions):

	Nine months ended Sept. 30,	
	2012	2011
Net cash provided by operating activities	\$189.5	\$128.0
Proceeds from borrowings, net of issue costs	492.6	-
Proceeds from disposals of property and equipment	10.6	5.5
Proceeds from employee stock option exercises	0.2	15.1
Proceeds from sales of manufacturing and land drilling operations	-	1,560.5
Capital expenditures	(566.1)	(1,155.1)
Repayments of borrowings	(238.5)	(38.4)
Payments to acquire treasury shares	-	(80.9)
Decrease in restricted cash	-	15.3
Other	1.1	5.1
Total net source (use)	\$(110.6)	\$455.1

Operating Cash Flows

Cash flows from operations increased to approximately \$190 million in the first nine months of 2012 from \$128 million in the comparable period of 2011. Cash flows from operations for the 2011 period include those attributable to our former manufacturing and land drilling businesses, which we sold in June and September of 2011, respectively. As discussed in Note 1 of Notes to Condensed Consolidated Financial Statements, the Company has chosen not to separately disclose cash flows pertaining to discontinued operations in its statement of cash flows, as permitted under US GAAP. Operating cash flows for the 2012 period were positively impacted by the addition of seven newbuild rigs to the fleet in 2011 and 2012.

We do not provide deferred taxes on the undistributed non-U.S. earnings of Rowan Delaware or its non-U.S. subsidiaries because our policy and intention is to reinvest such earnings outside the U.S. indefinitely or until such time that such undistributed earnings can be distributed in a tax-efficient manner. Should Rowan Delaware make a distribution of such earnings in the form of a dividend or otherwise, we may be subject to additional income taxes. Both our U.S. and non-U.S. subsidiaries have significant net assets, liquidity, contract backlog and/or other financial resources available to meet their operational and capital investment requirements and otherwise allow us to continue to maintain our policy of reinvesting such undistributed earnings outside the U.S. indefinitely.

The Moving Ahead for Progress in the 21st Century Act, which became effective in July 2012, includes a provision that increases the interest rates used to determine plan sponsors' pension contributions for required funding purposes. Although the new rates will reduce our minimum pension contributions for the remainder of 2012 and for the years 2013 through 2016, the amount of the Company's actual contributions will be at the discretion of management.

Investing Activities

In September 2012, the Company exercised its option with Hyundai for the construction of a fourth ultra-deepwater drillship at its Ulsan, South Korea, shipyard scheduled for delivery in March 2015. The agreement with Hyundai also includes an option for a similar fifth drillship exercisable in the fourth quarter of 2012, for delivery in the third quarter

of 2015.

Reference should be made to Note 6 of Notes to Condensed Consolidated Financial Statements in this Form 10-Q for the status of our newbuild rig projects.

Capital expenditures totaled \$566.1 million for the first nine months of 2012 and included the following:

- \$105.1 million towards construction of the ultra-deepwater drillships Rowan Renaissance, Rowan Resolute and Rowan Reliance;
 - \$167.3 million towards construction of the fourth drillship;
 - \$16.5 million for completion of construction of the Joe Douglas;
- \$237.8 million for improvements to the existing fleet, including contractually required modifications; and
 - \$39.4 million for rig equipment inventory and other.

--

31

Table of Contents

For the remainder of 2012, we expect our capital expenditures to be approximately \$224 million, including \$50 million related to the construction of our four ultra-deepwater drillships, \$96 million related to upgrades to existing rigs, shorebase facilities and spare drilling equipment, \$75 million related to contractual requirements that will be partially reimbursed by customers, and \$3 million for other items.

We expect to fund our newbuild drillship program and other capital expenditures from available cash, cash flows from operations, amounts available under the Company's revolving credit facility and other potential financing transactions, if required. We will periodically review and adjust our capital budgets as appropriate based upon current and forecasted cash flows and liquidity, anticipated market conditions in our drilling business and alternative uses of capital to enhance shareholder value.

Financing Activities

In April 2012, MarAd, which had previously guaranteed the Company's Title XI Notes, denied the Company's request for consent with respect to the Company's redomestication. As a result, the Company redeemed \$127.3 million aggregate principal amount of the Title XI Notes in the second quarter of 2012 for \$141.1 million in cash, including principal, make-whole premiums and accrued interest. In July 2012, the Company redeemed the remaining Title XI Note in the principal amount of \$98.8 million for \$110.4 million in cash, including principal, make-whole premium and accrued interest, and recognized a pretax loss on debt extinguishment of \$10.5 million in the third quarter.

In connection with the redomestication, on May 4, 2012, Rowan UK became a party to and a borrower and guarantor under the credit facility, dated September 16, 2010, among Rowan Delaware, Wells Fargo Bank, National Association, as administrative agent and lender, and certain other lenders. Rowan UK entered into a guaranty in favor of the administrative agent for the benefit of the lenders whereby Rowan UK fully and unconditionally guarantees the obligations of Rowan Delaware under the credit facility.

Additionally, on May 4, 2012, Rowan UK and Rowan Delaware entered into a third supplemental indenture to the indenture dated as of July 21, 2009, between Rowan Delaware and U.S. Bank National Association, as indenture trustee, providing for an unconditional and irrevocable guarantee by Rowan UK of Rowan Delaware's 5% Senior Notes due 2017 and 7.875% Senior Notes due 2019, which had an aggregate outstanding principal balance as of September 30, 2012, of \$900 million. The Rowan UK guarantee provides for the unconditional and irrevocable guarantee of the prompt payment, when due, of any amount owed to the holders of the notes.

On May 21, 2012, Rowan UK, as guarantor, and its 100% owned subsidiary, Rowan Delaware, as issuer, completed the public offering of \$500 million aggregate principal amount of 4.875% Senior Notes due 2022 at a price to the public of 99.333% of the principal amount. Net proceeds were approximately \$493 million, which were used, in part, to replenish cash used to redeem the Title XI Notes in the second and third quarters of 2012. The 4.875% Notes will mature on June 1, 2022. Interest on the 4.875% Notes is payable semi-annually on June 1 and December 1 of each year, commencing December 1, 2012.

Management believes that cash flows from operating activities, together with existing cash balances, amounts available under the Company's \$500 million revolving credit facility and other potential financing transactions, if required, will be sufficient to satisfy the Company's cash requirements for the following 12 months.

We were in compliance with our debt covenants at September 30, 2012, and we do not expect to encounter difficulty complying in the following twelve-month period.

Critical Accounting Policies and Management Estimates

The Company's significant accounting policies are presented in Note 2 of "Notes to Consolidated Financial Statements" in Item 8 of our 2011 Form 10-K. These policies, and management judgments, assumptions and estimates made in their application underlie reported amounts of assets and liabilities at the date of the financial statements and reported amounts of revenues and expenses during the reporting period. We believe that our most critical accounting policies and management estimates involve carrying values of long-lived assets, pension and other postretirement benefit liabilities and costs (specifically, assumptions used in actuarial calculations), and income taxes (including our estimated reserves for uncertain tax positions), as changes in such policies and/or estimates would produce significantly different amounts from those reported herein.

During the quarter ended September 30, 2012, there have been no material changes to the judgments, assumptions or policies upon which our critical accounting estimates are based.

--

Table of Contents

Recent Accounting Standards

There have been no new accounting standards issued that are expected to have a material effect on the Company's financial statements upon adoption.

FORWARD-LOOKING STATEMENTS

Statements contained in this report that are not historical facts are forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934. Forward-looking statements include words or phrases such as “anticipate,” “believe,” “estimate,” “expect,” “intend,” “plan,” “project,” “could,” “might,” “should,” “will,” “forecast,” “potential,” “scheduled,” “predict,” “will be,” “will continue,” “will likely result,” and “may” and specifically include statements regarding expected financial performance; growth strategies; expected utilization, day rates, revenues, operating expenses, contract terms, contract backlog, capital expenditures, tax rates, insurance coverages, access to financing and funding sources; the availability, delivery, mobilization, contract commencement, relocation or other movement of rigs and the timing thereof; future rig construction (including construction in progress and completion thereof), enhancement, upgrade or repair and costs and timing thereof; the suitability of rigs for future contracts; general market, business and industry conditions, trends and outlook; future operations; the impact of increasing regulatory requirements and complexity; expected contributions from our new rigs and our entry into the ultra-deepwater market; expense management; the likely outcome of legal proceedings or insurance or other claims and the timing thereof; activity levels in the offshore drilling market; customer drilling programs; and commodity prices. Such statements are subject to numerous risks, uncertainties and assumptions that may cause actual results to vary materially from those indicated, including:

- drilling permit and operations delays, moratoria or suspensions, new and future regulatory, legislative or permitting requirements (including requirements related to certification and testing of blow-out preventers and other equipment or otherwise impacting operations), future lease sales, changes in laws, rules and regulations that have or may impose increased financial responsibility, additional oil spill contingency plan requirements and other governmental actions that may result in claims of force majeure or otherwise adversely affect our existing drilling contracts;
- governmental regulatory, legislative and permitting requirements affecting drilling operations in the areas in which our rigs operate;
- tax matters, including our effective tax rate, changes in tax laws, treaties and regulations, tax assessments and liabilities for tax issues;
- changes in worldwide rig supply and demand, competition or technology, including as a result of delivery of newbuild drilling rigs and reactivation of rigs;
- variable levels of drilling activity and expenditures, whether as a result of global capital markets and liquidity, prices of oil and natural gas or otherwise, which may cause us to idle or stack additional rigs;
- downtime, lost revenue and other risks associated with rig operations, operating hazards, or rig relocations and transportation, including rig or equipment failure, collisions, damage and other unplanned repairs, the limited availability of transport vessels, hazards, self-imposed drilling limitations and other delays due to weather conditions or otherwise, and the limited availability or high cost of insurance coverage for certain offshore perils or associated removal of wreckage or debris;

- access to spare parts, equipment and personnel to maintain, upgrade and service our fleet; possible cancellation or suspension of drilling contracts as a result of mechanical difficulties, delays, performance or other reasons;
- potential cost overruns and other risks inherent to shipyard rig construction, repair or enhancement, unexpected delays in rig and equipment delivery and engineering or design issues following shipyard delivery, or delays in the dates our rigs will enter a shipyard, be transported and delivered, enter service or return to service;
- actual contract commencement dates; contract terminations, contract extensions, contract option exercises, contract revenues, contract awards; the termination or renegotiation of contracts by customers or payment or operational delays by our customers;

--

Table of Contents

- operating hazards, including environmental or other liabilities, risks, expenses or losses, whether related to storm or hurricane damage, losses or liabilities (including wreckage or debris removal), collisions, or otherwise;
- our ability to attract and retain skilled personnel on commercially reasonable terms, whether due to competition from other contract drillers, labor regulations or otherwise;
- governmental action and political and economic uncertainties, including uncertainty or instability resulting from civil unrest, political demonstrations, mass strikes, or an escalation or additional outbreak of armed hostilities or other crises in oil or natural gas producing areas of the Middle East or other geographic areas, which may result in expropriation, nationalization, confiscation or deprivation of our assets or result in claims by our customers of a force majeure situation;
- terrorism, piracy, political instability, hostilities, nationalization, expropriation, or military action impacting our operations, assets or financial performance in our areas of operations, including the Middle East;
- the outcome of legal proceedings, or other claims or contract disputes, including any inability to collect receivables or resolve significant contractual or day rate disputes, any purported renegotiation, nullification, cancellation or breach of contracts with customers or other parties and any failure to negotiate or complete definitive contracts following announcements of receipt of letters of intent;
- potential long-lived asset impairments;
- costs and uncertainties associated with our redomestication, or changes in foreign or domestic laws that could reduce or eliminate the anticipated benefits of the transaction;
-

impacts of the financial and economic downturn;

- effects of accounting changes and adoption of accounting policies;
- potential unplanned expenditures and funding requirements, including investments in pension plans and other benefit plans; and
- other important factors described from time to time in the reports filed by us with the Securities and Exchange Commission, or the Commission, and the New York Stock Exchange, or NYSE.

In addition to the risks, uncertainties and assumptions described above, you should also carefully read and consider the risk factors and forward-looking statement disclosure contained in our Annual Report on Form 10-K for the year ended December 31, 2011, as amended by Form 10-K/A filed April 30, 2012, and our other Quarterly Reports on Forms 10-Q.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

Our outstanding debt at September 30, 2012, consisted of an aggregate principal amount of \$1.4 billion of fixed-rate notes bearing a weighted-average annual interest rate of 6.1%. Due to the fixed-rate nature of our debt, we believe that our exposure to risk of earnings loss due to changes in market interest rates is not material.

We have a \$500 million revolving credit facility that expires June 30, 2016. There were no borrowings outstanding under the facility at September 30, 2012.

The majority of our transactions are denominated in United States dollars. In order to reduce the impact of exchange rate fluctuations, we generally require customer payments to be in U.S. dollars and limit foreign currency holdings to the extent they are needed to pay liabilities of operations denominated in local currencies.

Fluctuating commodity prices affect our future earnings materially to the extent that they influence demand for our products and services. As a general practice, we do not hold or issue derivative financial instruments and had no derivatives outstanding during the periods covered by this report.

--

Table of Contents

Item 4. Controls and Procedures

Under the supervision and with the participation of our principal executive officer and principal financial officer, management has evaluated the effectiveness of the design and operation of our disclosure controls and procedures (as defined in Rule 13a-15(e) and 15d-15(e) of the Securities Exchange Act of 1934) as of the end of the period covered by this report. Based on that evaluation, our principal executive officer and our principal financial officer have concluded that our disclosure controls and procedures were effective as of September 30, 2012.

There has been no change to our internal control over financial reporting during the quarter ended September 30, 2012, that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

PART II. OTHER INFORMATION

Item 1. Legal Proceedings

On the morning of May 2, 2012, while attempting to enter the Port of Corpus Christi Ship Channel, the tanker M/V FR8 PRIDE lost engine power and propulsion and collided with the Company's EXL-1 rig, causing extensive damage to the rig. As a result of the collision, on May 18, 2012, the Company filed suit in federal court in the Southern District of Texas, Corpus Christi Division, against the M/V FR8 PRIDE, FR8 Pride Shipping Corp. PTE. Ltd. ("FR8 Pride Shipping"), Thome Ship Management PTE. Ltd. ("Thome Ship Management"), Scorpio USA LLC, and Scorpio Panamax Tanker Pool Ltd., believed to be the M/V FR8 PRIDE's owners and operators. The Company maintains that the M/V FR8 PRIDE failed to properly overtake the EXL-1, that the mechanical, electrical, and safety systems of M/V FR8 PRIDE were not properly maintained, and that navigational regulations were violated, and seeks damages primarily for repairs to and loss of use of the rig. The Company has estimated the costs to repair the rig at approximately \$14.1 million, which is being recognized as the costs are incurred. As of September 30, 2012, we had incurred repair costs totaling \$8.9 million. At this time, however, the Company's total damages cannot be calculated, as the loss of use of the rig is dependent on the duration of the ongoing repairs required to return the rig to service.

In response to the Company's suit, FR8 Pride Shipping and Thome Ship Management filed a complaint for exoneration from or limitation of liability pursuant to the Limitation of a Shipowner's Liability Act (the "Act") in federal court in the Southern District of Texas, Corpus Christi Division. Under the Act, a vessel owner is liable only to the extent of the post-accident value of the vessel plus freight pending as long as the incident's cause(s) were beyond the knowledge or privity of the vessel owner. Pursuant to the Act, litigation arising from the incident is stayed, and claimants are directed to file their claims in the limitation proceeding. Additionally, a limitation fund is established, from which legitimate claims are paid. Limitable claims include those for personal injury, wrongful death, and damage to property. Ultimately, the court determines whether the vessel and its owner are liable, whether liability should be limited, the amount of just claims, and how to distribute funds to claimants.

In their complaint, the tanker owners contend that the loss of main engine power and the resulting collision were unavoidable accidents. The Company has answered the complaint and filed a claim in the Limitation Action, which parallels its prior-filed suit. On June 18, 2012, the Court entered an order requiring the tanker owner to post a \$20 million bond, which was posted on November 2, 2012.

At this time, both suits are in the preliminary stages of litigation. The Court has set a trial date of October 14, 2013. In the event the tanker owners are successful in their limitation, we believe our potential insurance claims for physical damage would be below our \$25 million deductible. Although management believes the Company's claims

are legally and factually strong, it cannot reasonably estimate the ultimate outcome of this litigation.

We are from time to time a party to various lawsuits filed by current or former employees that are incidental to our operations in which the claimants seek an unspecified amount of monetary damages for personal injury, including injuries purportedly resulting from exposure to asbestos on our drilling rigs. At September 30, 2012, there were approximately 21 asbestos related lawsuits in which we are one of many defendants. These lawsuits have been filed in the state courts of Louisiana, Mississippi and Texas. We intend to vigorously defend against the litigation. We are unable to predict the ultimate outcome of these lawsuits; however, we do not believe the ultimate resolution of these matters will have a material adverse effect on our financial position, results of operations or cash flows.

--

Table of Contents

We are involved in various other legal proceedings incidental to our businesses and are vigorously defending our position in all such matters. We believe that there are no other known contingencies, claims or lawsuits that could have a material adverse effect on our financial position, results of operations or cash flows.

Item 1A. Risk Factors

Security holders and potential investors in our securities should carefully consider the risk factors set forth in our 2011 Annual Report on Form 10-K in addition to other information in such annual report and in our Quarterly Reports on Form 10-Q. These risk factors are important factors that could cause our actual results to differ materially from those contained in any written or oral forward-looking statements made by us or on our behalf.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

Issuer Purchases of Equity Securities

In connection with the redomestication, we established an employee benefit trust (“EBT”) for purposes of administering the Company’s share-based compensation arrangements. The EBT may be used to issue shares under such arrangements or to acquire shares from participants upon forfeiture of nonvested restricted shares or in satisfaction of tax withholding requirements. Shares held by the EBT are treated as treasury stock for accounting purposes, and are not eligible for voting or receipt of dividends.

The following table presents information with respect to purchases of our shares during the third quarter of 2012:

Month ended	Total number of shares purchased 1	Average price paid per share	Total number of shares purchased as part of publicly announced plans or programs 2	Approximate dollar value of shares that may yet be purchased under the plans or programs2
Balance forward				\$ 24,987,408
July 31, 2012	1,317	\$32.22	-	24,987,408
August 31, 2012	11,197	\$9.09	-	24,987,408
September 30, 2012	17,396	\$21.23	-	24,987,408
Total	29,910	\$17.17	-	

1 The total number of shares purchased includes (i) shares purchased, if any, pursuant to a publicly announced share repurchase program described in note 2 below and (ii) shares acquired from employees and non-employee directors by an affiliated Employee Benefit Trust upon forfeiture of nonvested awards or in satisfaction of tax withholding requirements. There were no shares repurchased under the Company's share repurchase program during the quarter.

2 On July 25, 2012, the Board of Directors of Rowan UK, as successor issuer to Rowan Delaware, approved the continuation of the previously announced \$150 million share repurchase program, of which approximately \$25 million remained available. Share repurchases may be commenced or suspended from time to time without prior notice. Any shares acquired under the share repurchase program will be canceled.

Restrictive provisions in the Company's debt agreements require the Company to maintain a minimum level of shareholders' equity equal to no less than the 100% of the book value of outstanding debt. The payment of future dividends, if any, would only be paid from distributable profits at the discretion of the Board of Directors.

Item 5. Other Information

The following condensed consolidating financial information is presented in accordance with Rule 3-10 of Regulation S-X in connection with Rowan UK's guarantee of Rowan Delaware's 4.875% Senior Notes due 2022, 5% Senior Notes due 2017 and 7.875% Senior Notes due 2019.

Prior to the Redomestication, Rowan Delaware was the parent of the Rowan group of companies, including Rowan UK, which was formed in November 2011. Effective on the Redomestication Date, Rowan UK became the parent and guarantor of Rowan Delaware's Senior Notes. The Rule 3-10 financial information for the three and nine months ended September 30, 2012 and 2011, and as of September 30, 2012 and December 31, 2011, is presented in Note 9 to the financial statements in Item 1 of this Form 10-Q. Such financial information, which is presented in accordance with the accounting guidance for a merger of entities under common control, is presented as though Rowan UK were the parent of the Rowan group of companies for all periods presented.

--

Table of Contents

The Rule 3-10 financial information presented below (i) as of March 31, 2012 and December 31, 2010, (ii) for the three months ended March 31, 2012 and 2011, (iii) for the three and six months ended June 30, 2011 and (iv) for the years ended December 31, 2011, 2010 and 2009, has been recast to reflect Rowan UK as the parent for all periods presented. Accordingly, Rowan UK's net income and comprehensive income for each period presented have been adjusted to include net income and changes in comprehensive income of its 100% owned subsidiary Rowan Delaware for each period presented. The previously reported consolidating statements of cash flows were not affected by the recast, except for the year ended December 31, 2011, which has been recast and included herein.
