PRINCIPAL PROTECTED ABSOLUTE RETURN BARRIER NOTES LINKED TO THE S&P 500 INDEX(R)
DUE JULY 9, 2012

The payout on the Securities is based on the performance of the S&P 500 Index, which we refer to as the Underlying Index, over the term of the Securities. As described below, if the level of the Underlying Index remains at or within the specified barriers at all times during the regular business hours of the New York Stock Exchange on each trading day during the period from but excluding the pricing date to and including the determination date, then at maturity you will receive the principal amount of \$1,000 per Security plus an amount, which we refer to as the Supplemental Redemption Amount, equal to the absolute percentage return (if any) on the value of the Underlying Index. Otherwise, at maturity you will only receive the principal amount of \$1,000. THE SECURITIES DO NOT PAY INTEREST.

SECURITIES	Principal Protected Absolute Return Barrier Notes linked to the S&P 500 INDEX(R) due July 9, 2012.
PRINCIPAL AMOUNT	\$
UNDERLYING INDEX	The S&P 500 Index(R), which we refer to as the Underlying Index.
ISSUE PRICE	100%
PARTICIPATION RATE	100%
PROPOSED PRICING DATE	July 6, 2009
PROPOSED SETTLEMENT DATE	July 9, 2009
MATURITY DATE	July 9, 2012
PAYMENT AT MATURITY	The payment at maturity for each \$1,000 principal amount of the Securities is based on the performance of the Underlying Index as follows:

- o If the level of the Underlying Index has not risen above the Upper Barrier and has not fallen below the Lower Barrier at any time during the regular business hours of the

Edgar Filing: ABN AMRO HOLDING N V - Form 424B2

Relevant Exchange on any trading day during the Relevant Period, at maturity you will receive \$1,000 plus the Supplemental Redemption Amount (if any); or

- o If the level of the Underlying Index either rises above the Upper Barrier or falls below the Lower Barrier at any time during the regular business hours of the Relevant Exchange on any trading day during the Relevant Period, at maturity you will receive \$1,000 only.

RELEVANT PERIOD The period starting on but excluding the Pricing Date and ending on and including the Determination Date.

RELEVANT EXCHANGE The New York Stock Exchange

INITIAL INDEX VALUE _____, 100% of the closing level of the Underlying Index on the pricing date. The Initial Index Value is subject to adjustment for certain events affecting the Underlying Index, which we describe in "Description of Securities--Discontinuance of the Underlying Index; Alteration of Method of Calculation").

FINAL INDEX VALUE 100% of the closing level of the Underlying Index on the Determination Date.

SUPPLEMENTAL REDEMPTION AMOUNT For each \$1,000 principal amount of Securities, an amount in cash equal to the product of the (i) Absolute Return TIMES (ii) Participation Rate TIMES (iii) \$1,000.

ABSOLUTE RETURN: Absolute Value* of:
$$\frac{\text{Final Index Value} - \text{Initial Index Value}}{\text{Initial Index Value}}$$

*Absolute Value is always expressed as a positive number.

CONTINGENT PAYMENT TBD on the Pricing Date.
DEBT INSTRUMENT
COMPARABLE YIELD

PARTICIPATION RATE: 1.00 (or 100%)

UPPER BARRIER: Initial Index Value TIMES 134%

LOWER BARRIER: Initial Index Value TIMES 66%

DETERMINATION DATE July 3, 2012, subject to adjustment in certain circumstances which we describe in "Description of the Securities--Determination Date".

GUARANTEE The Securities will be fully and unconditionally guaranteed by ABN AMRO Holding N.V.

DENOMINATIONS The Securities may be purchased in denominations

Edgar Filing: ABN AMRO HOLDING N V - Form 424B2

of \$1,000 and integral multiples thereof.

NO AFFILIATION WITH THE UNDERLYING INDEX

The S&P 500 Index(R) was developed and is calculated and maintained by Standard & Poor's, a division of The McGraw-Hill Companies, Inc. ("S&P"). We refer to S&P as the "Index Sponsor". The Index Sponsor is not an affiliate of ours and is not involved with this offering in any way. The obligations represented by the Securities are our obligations, not those of the Index Sponsor. Investing in the Securities is not equivalent to investing directly in the stocks which comprise the S&P 500 Index or a product that tracks the return of the S&P 500 Index.

LISTING

We do not intend to list the Securities on any securities exchange.

THE SECURITIES ARE NOT INSURED OR GUARANTEED BY THE FEDERAL DEPOSIT INSURANCE CORPORATION OR ANY OTHER FEDERAL AGENCY.

THE SECURITIES INVOLVE RISKS NOT ASSOCIATED WITH AN INVESTMENT IN CONVENTIONAL DEBT SECURITIES. SEE "RISK FACTORS" BEGINNING ON PS-11.

The Securities and Exchange Commission and state securities regulators have not approved or disapproved these Securities, or determined if this Pricing Supplement or the accompanying Prospectus Supplement or Prospectus is truthful or complete. Any representation to the contrary is a criminal offense.

The agents are not obligated to purchase the Securities but have agreed to use reasonable efforts to solicit offers to purchase the Securities. TO THE EXTENT THE FULL AGGREGATE PRINCIPAL AMOUNT OF THE SECURITIES BEING OFFERED BY THIS PRICING SUPPLEMENT IS NOT PURCHASED BY INVESTORS IN THE OFFERING, ONE OR MORE OF OUR AFFILIATES HAS AGREED TO PURCHASE THE UNSOLD PORTION, WHICH MAY CONSTITUTE A SUBSTANTIAL PORTION OF THE TOTAL AGGREGATE PRINCIPAL AMOUNT OF THE SECURITIES, AND TO HOLD SUCH SECURITIES FOR INVESTMENT PURPOSES. SEE "HOLDING OF THE SECURITIES BY OUR AFFILIATES AND FUTURE SALES" UNDER THE HEADING "RISK FACTORS" AND "PLAN OF DISTRIBUTION". This Pricing Supplement and the accompanying Prospectus Supplement and Prospectus may be used by our affiliates in connection with offers and sales of the Securities in market-making transactions.

ABN AMRO INCORPORATED

PS-2

In this Pricing Supplement, the "Bank," "we," "us" and "our" refer to ABN

Edgar Filing: ABN AMRO HOLDING N V - Form 424B2

AMRO Bank N.V. and "Holding" refers to ABN AMRO Holding N.V., our parent company. We refer to the Securities offered hereby and the related guarantees as the "Securities" and to each individual security offered hereby as a "Security".

ABN Notes(SM) is a service mark of ABN AMRO Bank N.V.

ANY SECURITIES ISSUED, SOLD OR DISTRIBUTED PURSUANT TO THIS PRICING SUPPLEMENT MAY NOT BE OFFERED OR SOLD (I) TO ANY PERSON/ENTITY LISTED ON SANCTIONS LISTS OF THE EUROPEAN UNION, UNITED STATES OR ANY OTHER APPLICABLE LOCAL COMPETENT AUTHORITY; (II) WITHIN THE TERRITORY OF CUBA, SUDAN, IRAN AND MYANMAR; (III) TO RESIDENTS IN CUBA, SUDAN, IRAN OR MYANMAR; OR (IV) TO CUBAN NATIONALS, WHEREVER LOCATED.

*A CREDIT RATING (1) IS SUBJECT TO REVISION, SUSPENSION OR WITHDRAWAL AT ANY TIME BY THE ASSIGNING RATING ORGANIZATION, (2) DOES NOT TAKE INTO ACCOUNT MARKET RISK OR THE PERFORMANCE-RELATED RISKS OF INVESTING IN THE SECURITIES, AND (3) IS NOT A RECOMMENDATION TO BUY, SELL OR HOLD THE SECURITIES.

PS-3

SUMMARY

THE FOLLOWING SUMMARY ANSWERS SOME QUESTIONS THAT YOU MIGHT HAVE REGARDING THE SECURITIES IN GENERAL TERMS ONLY. IT DOES NOT CONTAIN ALL THE INFORMATION THAT MAY BE IMPORTANT TO YOU. YOU SHOULD READ THE SUMMARY TOGETHER WITH THE MORE DETAILED INFORMATION THAT IS CONTAINED IN THE REST OF THIS PRICING SUPPLEMENT AND IN THE ACCOMPANYING PROSPECTUS AND PROSPECTUS SUPPLEMENT. YOU SHOULD CAREFULLY CONSIDER, AMONG OTHER THINGS, THE MATTERS SET FORTH IN "RISK FACTORS". IN ADDITION, WE URGE YOU TO CONSULT WITH YOUR INVESTMENT, LEGAL, ACCOUNTING, TAX AND OTHER ADVISORS WITH RESPECT TO ANY INVESTMENT IN THE SECURITIES.

WHAT ARE THE SECURITIES?

The Securities are senior notes issued by us, ABN AMRO Bank N.V., and are fully and unconditionally guaranteed by our parent company, ABN AMRO Holding N.V. The Securities are linked to the performance of the S&P 500 Index, which we refer to as the Underlying Index. The Securities have a maturity of three years. The payment at maturity of the Securities is determined based on the performance of the Underlying Index, as described below. UNLIKE ORDINARY DEBT SECURITIES, THE SECURITIES DO NOT PAY INTEREST. IF THE LEVEL OF THE UNDERLYING INDEX EITHER RISES ABOVE THE UPPER BARRIER OR FALLS BELOW THE LOWER BARRIER AT ANY TIME DURING THE REGULAR BUSINESS HOURS OF THE NEW YORK STOCK EXCHANGE, WHICH WE REFER TO AS THE RELEVANT EXCHANGE, ON ANY TRADING DAY DURING THE PERIOD COMMENCING ON BUT EXCLUDING THE PRICING DATE AND ENDING ON AND INCLUDING THE DETERMINATION DATE, WHICH PERIOD WE REFER TO AS THE RELEVANT PERIOD, YOU WILL BE ENTITLED TO RECEIVE ONLY THE PRINCIPAL AMOUNT OF \$1,000 PER SECURITY AT MATURITY. IN SUCH A CASE, YOU WILL RECEIVE NO RETURN ON YOUR INVESTMENT AND YOU WILL NOT BE COMPENSATED FOR ANY LOSS IN VALUE DUE TO INFLATION AND OTHER FACTORS RELATING TO THE VALUE OF MONEY OVER TIME.

We call the Securities 'barrier notes' because the return on the Securities depends on whether or not the level of the Underlying Index falls outside the specified barrier levels at any time on any trading day during the relevant period, as described below.

If the level of the Underlying Index remains at or below the Upper Barrier and at or above the Lower Barrier at all times during the regular business hours of the relevant exchange on each trading day during the relevant period, you will be entitled to receive the Supplemental Redemption Amount, if any, at maturity. The Supplemental Redemption Amount is an amount in cash for each

Edgar Filing: ABN AMRO HOLDING N V - Form 424B2

\$1,000 principal amount of the Securities equal to the Absolute Return TIMES the Participation Rate TIMES \$1,000. MOREOVER, IF THE ABSOLUTE RETURN (CALCULATED AS DESCRIBED BELOW) EQUALS ZERO, THE SUPPLEMENTAL REDEMPTION AMOUNT WILL BE ZERO AND YOU WILL NOT RECEIVE ANY RETURN ON YOUR INITIAL PRINCIPAL INVESTMENT EVEN THOUGH THE LEVEL OF THE UNDERLYING INDEX TRADED WITHIN THE SPECIFIED BARRIERS ON EACH TRADING DAY DURING THE RELEVANT PERIOD. THE ABSOLUTE RETURN IS THE PERCENTAGE CHANGE IN THE VALUE OF THE UNDERLYING INDEX OVER THE LIFE OF THE SECURITIES.

WHAT WILL I RECEIVE AT MATURITY OF THE SECURITIES AND HOW IS THIS AMOUNT CALCULATED?

The payment at maturity for each \$1,000 principal amount of the Securities is based on the performance of the Underlying Index as follows:

- o If the level of the Underlying Index never rises above the Upper Barrier or falls below the Lower Barrier at any time during the regular business hours of the relevant exchange on any trading day during the relevant period, at maturity you will receive \$1,000 plus the Supplemental Redemption Amount (if any); or
- o If the level of the Underlying Index either rises above the Upper Barrier or falls below the Lower Barrier at any time during the regular business hours of the relevant exchange on any trading day during the relevant period, at maturity you will receive \$1,000 only.

The relevant period is the period starting on but excluding the pricing date and ending on and including the determination date for the Securities.

"Level" as used in this pricing supplement includes intra-day levels of the Underlying Index.

WHAT IS THE SUPPLEMENTAL REDEMPTION AMOUNT AND HOW IS IT CALCULATED?

The Supplemental Redemption Amount is a cash amount that will be calculated only if the level of the Underlying Index remains at or below the Upper Barrier and at or above the Lower Barrier at all times during the regular business hours of the relevant exchange on each trading day during the relevant period. If the level of the Underlying Index is either

PS-4

above the Upper Barrier or below the Lower Barrier at any time during the regular business hours of the relevant exchange on any trading day during the relevant period, no Supplemental Redemption Amount will be paid at maturity.

The Supplemental Redemption Amount is equal to the product of the (i) Absolute Return TIMES (ii) the Participation Rate TIMES (iii) \$1,000. If the closing level of the Underlying Index on the determination date is equal to the Initial Index Value then the Absolute Return will be zero and the Supplemental Redemption Amount will be zero even though the level of the Underlying Index never rose above the Upper Barrier or fell below the Lower Barrier at any time during the regular business hours of the relevant exchange on any trading day during the relevant period. In such a case, you will receive no return on your initial investment in the Securities even though the level of the Underlying Index remained within the specified barriers during the life of the Securities.

HOW IS THE ABSOLUTE RETURN CALCULATED?

The Absolute Return is the Absolute Value* of:

Edgar Filing: ABN AMRO HOLDING N V - Form 424B2

Final Index Value - Initial Index Value

Initial Index Value

*The Absolute Value is always expressed as a positive number, even if it is negative.

The Initial Index Value is 100% of the closing level of the Underlying Index on the pricing date. The Initial Index Value is subject to adjustment for certain events affecting the Underlying Index, which we describe in "Description of Securities--Discontinuance of the Underlying Index; Alteration of Method of Calculation".

The Final Index Value is 100% of the closing level of the Underlying Index on the determination date. The determination date is subject to adjustment in certain circumstances which we describe in "Description of Securities--Determination Date".

Because the return on the Securities is based on the Absolute Value of the percentage change in the level of the Underlying Index, you may receive a return on the Securities even if the level of the Underlying Index depreciated over the term of the Securities, as calculated in accordance with the formula above. However, if the Final Index Value is equal to the Initial Index Value, then the Absolute Return on the Underlying Index, and thus the Supplemental Redemption Amount payable on the Securities, will be zero. In such event, you will receive no return on the Securities and you will not be compensated for any loss in value due to inflation and other factors relating to the value of money over time.

WILL I GET MY PRINCIPAL BACK AT MATURITY?

Subject to the credit of ABN AMRO Bank, N.V. as the issuer of the Securities and ABN AMRO Holding N.V. as the guarantor of the Bank's obligations under the Securities, you will receive your principal back at maturity of the Securities. However, if you sell the Securities prior to maturity, you will receive the market price for the Securities, which may or may not include the return of your full principal amount. There may be little or no secondary market for the Securities. Accordingly, you should be willing to hold your Securities until maturity.

CAN YOU GIVE ME EXAMPLES OF THE PAYMENT I WILL RECEIVE AT MATURITY DEPENDING ON THE PERFORMANCE OF THE UNDERLYING INDEX?

EXAMPLE 1: If, for example, in a hypothetical offering, the Initial Index Value is 900, the Participation Rate is 1.00 (or 100%), the Upper Barrier is equal to the Initial Index Value x 134% and the Lower Barrier is equal to the Initial Index Value x 66%, then the Upper Barrier is 1206 (900 x 134%) and the Lower Barrier is 594 (900 x 66%). If the Final Index Value is 800 and the level of the Underlying Index never rose above the Upper Barrier or fell below the Lower Barrier at any time during the regular business hours of the relevant exchange on any trading day during the relevant period, at maturity you will receive back your principal amount of \$1,000 plus the Supplemental Redemption Amount, which is based on the Absolute Return (if any) of the Underlying Index. In such a hypothetical case, the Supplemental Redemption Amount would be calculated as follows:

Participation Rate x Absolute Return x \$1,000,

Where,

The Absolute Return is the Absolute Value of:

Edgar Filing: ABN AMRO HOLDING N V - Form 424B2

$$\begin{array}{r} \text{Final Index Value} - \text{Initial Index Value} \\ \hline \text{Initial Index Value} \end{array}$$

or, in this hypothetical example,

$$\begin{array}{r} 800 - 900 = -.1111 \\ \hline 900 \end{array}$$

PS-5

Since the Absolute Value is always expressed as a positive number, even if it is negative, $-.1111$ becomes $.1111$ and the Absolute Return equals $.1111$ (or 11.11%).

The Supplemental Redemption Amount is calculated as:

$$\text{Participation Rate} \times \text{Absolute Return} \times \$1,000,$$

or, in this hypothetical example,

$$1 \times 0.1111 \times \$1,000 = \$111.10$$

Accordingly, at maturity you would receive the sum of \$1,000 plus \$111.10 for a total payment of \$1,111.10 per Security. In this hypothetical example, you would have received an 11.11% return on your Securities even though the Underlying Index declined by 11.11% over the life of the Securities.

EXAMPLE 2: If, for example, in a hypothetical offering, the Initial Index Value is 900, the Participation Rate is 1.00 (or 100%), the Upper Barrier is equal to the Initial Index Value $\times 134\%$ and the Lower Barrier is equal to the Initial Index Value $\times 64\%$ then the Upper Barrier is 1206 ($900 \times 134\%$) and the Lower Barrier is 594 ($900 \times 66\%$). If the Final Index Value is 1100 and the level of the Underlying Index was 1206.10, which is just above the Upper Barrier, at some point in time during the regular business hours of the relevant exchange on any trading day during the relevant period, then at maturity you will be entitled to receive only the principal amount of \$1,000 for each \$1,000 principal amount of your Securities.

Accordingly, at maturity you would receive the sum of \$1,000 per Security and you would not be compensated for any loss in value due to inflation and other factors relating to the value of money over time. In this hypothetical example, you would not have received any return on your Securities even though the Underlying Index appreciated by 22.22% over the life of the Securities.

This example illustrates that a holder of the Securities may receive no return on the Securities even if the Underlying Index experiences significant appreciation (or depreciation) in its value over the life of the Securities. This is true even if there is only one instance where the level of the Underlying Index was outside (above or below) the upper or Lower Barrier during the relevant period.

EXAMPLE 3: If, for example, in a hypothetical offering, the Initial Index Value is 900, the Participation Rate is 1.00 (or 100%), the Upper Barrier is equal to the Initial Index Value $\times 134\%$ and the Lower Barrier is equal to the Initial Index Value $\times 66\%$ then the Upper Barrier is 1206 ($900 \times 134\%$) and the Lower Barrier is 594 ($900 \times 66\%$). If the Final Index Value is 900 and the level of the Underlying Index never rose above the Upper Barrier or fell below the Lower Barrier at any time during the regular business hours of the relevant exchange on any trading day during the relevant period, at maturity you will

Edgar Filing: ABN AMRO HOLDING N V - Form 424B2

receive back your principal amount of \$1,000 plus the Supplemental Redemption Amount, which is based on the Absolute Return (if any) on the Underlying Index. In such a hypothetical case, the Supplemental Redemption Amount would be calculated as follows:

$$\text{Participation Rate} \times \text{Absolute Return} \times \$1,000,$$

Where,

The Absolute Return is the Absolute Value of:

$$\frac{\text{Final Index Value} - \text{Initial Index Value}}{\text{Initial Index Value}}$$

or, in this hypothetical example,

$$\frac{900 - 900}{900} = 0$$

Because the Absolute Return equals zero in this hypothetical example, the Supplemental Redemption Amount will be zero and at maturity you would receive only your principal amount of \$1,000 for each Security and you would not be compensated for any loss in value due to inflation and other factors relating to the value of money over time. In this hypothetical example, you would receive no return on your initial principal investment in the Securities even though the level of the Underlying Index never rose above the Upper Barrier or fell below the Lower Barrier at any time during the regular business hours of the relevant exchange on any trading day during the relevant period.

THESE EXAMPLES ARE FOR ILLUSTRATIVE PURPOSES ONLY AND ARE BASED ON A HYPOTHETICAL OFFERING. IT IS NOT POSSIBLE TO PREDICT THE LEVEL OF THE UNDERLYING INDEX AT ANY TIME DURING THE LIFE OF THE SECURITIES OR THE CLOSING LEVEL OF THE UNDERLYING INDEX ON THE DETERMINATION DATE. FOR EACH OFFERING WE WILL SET THE INITIAL INDEX VALUE AND THE UPPER AND LOWER BARRIERS (EACH SUBJECT TO

PS-6

ADJUSTMENT FOR CERTAIN EVENTS AFFECTING THE UNDERLYING INDEX) ON THE DATE WE PRICE THE SECURITIES, WHICH WE REFER TO AS THE PRICING DATE.

In this Pricing Supplement, we have provided under the heading "Hypothetical Sensitivity Analysis of Total Return of the Securities at Maturity" the total return of owning the Securities through maturity for various hypothetical closing prices of the Underlying Index on the determination date in the case where the specified Upper and Lower Barriers have been breached and in the case where the Upper and Lower Barriers have not been breached.

WILL I RECEIVE INTEREST PAYMENTS ON THE SECURITIES?

No. You will not receive any interest payments on the Securities.

DO I BENEFIT FROM ANY APPRECIATION OR DEPRECIATION IN THE UNDERLYING INDEX OVER THE LIFE OF THE SECURITIES?

Yes, but only in the event that (1) the level of the Underlying Index remains at or below the Upper Barrier and at or above the Lower Barrier at all times during the regular business hours of the relevant exchange on each trading day during the relevant period, and (2) the Final Index Value is different from the Initial Index Value, resulting in a positive Absolute Return. If both of

Edgar Filing: ABN AMRO HOLDING N V - Form 424B2

these conditions are met, you will receive in cash the Supplemental Redemption Amount in addition to the principal amount of the Securities payable at maturity. The Supplemental Redemption Amount will represent a return on the Securities based on the percentage change in the value of the Underlying Index, or the Absolute Return, and the applicable Participation Rate. That is, your return on the Securities will be equal to the Absolute Return times a percentage equal to the Participation Rate.

IS THERE A LIMIT ON HOW MUCH I CAN EARN ON THE SECURITIES?

Yes, since the Final Index Value cannot be greater than the Upper Barrier or less than the Lower Barrier if a Supplemental Redemption Amount is to be paid at maturity, the Absolute Return is capped at the percentage by which the Upper Barrier and the Lower Barrier are each either above or below the Initial Index Value.

For example, if in a hypothetical offering, the Upper Barrier were 134% above the Initial Index Value and the Lower Barrier were 66% below the Initial Index Value, then your return on the Securities in that hypothetical offering could never exceed 34%. This is because the difference between the Final Index Value and the Initial Index Value in this hypothetical example can never be greater than 34%. If the difference between the Final Index Value and the Initial Index value were greater than 34% then the Underlying Index would have breached the barrier and no Supplemental Redemption Amount would be paid at maturity. Therefore, for each \$1,000 principal amount of Securities, the maximum amount payable at maturity would be \$1,340, which consists of the principal amount of \$1,000 plus the maximum Supplemental Redemption Amount of \$340 (or, \$1,000 x 100% x 34%). We will set the Upper and Lower Barriers on the pricing date. You will not receive a return on your Securities, if any, until maturity.

WHAT IS THE MINIMUM REQUIRED PURCHASE?

You can purchase Securities in \$1,000 denominations or in integral multiples thereof.

IS THERE A SECONDARY MARKET FOR THE SECURITIES?

The Securities will not be listed on any securities exchange. Accordingly, there may be little or no secondary market for the Securities and, as such, information regarding independent market pricing for the Securities may be extremely limited. You should be willing to hold your Securities until the maturity date.

Although it is not required to do so, we have been informed by our affiliate that when this offering is complete, it intends to make purchases and sales of the Securities from time to time in off-exchange transactions. If our affiliate does make such a market in the Securities, it may stop doing so at any time.

In connection with any secondary market activity in the Securities, our affiliate may post indicative prices for the Securities on a designated website or via Bloomberg. However, our affiliate is not required to post such indicative prices and may stop doing so at any time. INVESTORS ARE ADVISED THAT ANY PRICES SHOWN ON ANY WEBSITE OR BLOOMBERG PAGE ARE INDICATIVE PRICES ONLY AND, AS SUCH, THERE CAN BE NO ASSURANCE THAT ANY TRADE COULD BE EXECUTED AT SUCH PRICES. Investors should contact their brokerage firm for further information.

In addition, the issue price of the Securities includes the selling agents' commissions paid with respect to the Securities and the cost of hedging our

Edgar Filing: ABN AMRO HOLDING N V - Form 424B2

obligations under the Securities. The cost of hedging includes the profit component that our affiliate has charged in consideration for assuming the risks inherent in managing the hedging the transactions. The fact that the issue price of the Securities includes these commissions and hedging costs is expected to adversely affect the secondary market prices of the Securities. See "Risk Factors--The Inclusion of Commissions and Cost of Hedging in the Issue Price is Likely to Adversely Affect Secondary Market Prices" and "Use of Proceeds".

TELL ME MORE ABOUT ABN AMRO BANK N.V. AND ABN AMRO HOLDING N.V.

ABN AMRO Bank N.V. is an international banking group offering a wide range of banking products and financial services worldwide through our network of offices and branches. ABN AMRO Holding N.V. is the parent company of ABN AMRO Bank N.V. Holding's main purpose is to own the Bank and its subsidiaries. All of the Securities issued by the Bank hereunder are fully and unconditionally guaranteed by Holding.

On November 2, 2007 a consortium (the "Consortium") of the Royal Bank of Scotland Group plc ("RBS"), Fortis SA/NV and Fortis N.V. (collectively, "Fortis"), and Banco Santander Central Hispano SA, which had made a tender offer for the shares of Holding, announced that approximately 98.8% of the shares of Holding had been tendered to the Consortium as of October 31, 2007. On September 22, 2008 the Consortium acquired the remaining shares of Holding. On October 3, 2008 Holding jointly announced with the Dutch Minister of Finance (the "Minister") that on that date the Minister acquired all shares of Fortis Bank Nederland (Holding) NV from Fortis, which effectively transferred Fortis' share in Holding to the State of the Netherlands.

On November 28, 2008 UK Financial Investments Limited ("UKFI"), which is wholly owned by the UK government, acquired approximately 57.9% of the enlarged issued ordinary share capital of RBS and (pound)5 billion of RBS preference shares. On January 19, 2009, RBS announced that it had reached agreement with the UK Treasury and UKFI to replace the (pound)5 billion of RBS preference SHARES with new RBS ordinary shares. Effective April 14, 2009 the (pound)5 billion of RBS preference shares were replaced with new RBS ordinary shares resulting in UKFI holding approximately 70.3% of the enlarged issued ordinary share capital of RBS.

Holding is no longer listed on Euronext or the New York Stock Exchange but files periodic reports with the SEC. ABN AMRO Bank N.V. is rated A+ by Standard & Poor's and Aa2 by Moody's. "See "Risk Factors--Changes in Our Credit Ratings May Affect the Market Value of Your Securities".

WHERE CAN I FIND OUT MORE ABOUT THE UNDERLYING INDEX?

The S&P 500 Index, which we refer to as the Underlying Index is a 500-stock benchmark that includes a representative sample of leading U.S. companies across broad industry groupings. It is a market-value weighted index (stock price times number of shares outstanding), with each stock's weight in the index proportionate to its market value. The calculation of the value of the S&P 500 Index is based on the relative value of the aggregate market value of the common stocks of 500 companies as of a particular time compared to the aggregate average market value of the common stocks of 500 similar companies during the base period of the years 1941 through 1943.

You should read "Description of the Underlying Index" and "Public Information Regarding the Underlying Index" in this Pricing Supplement for additional information regarding the Underlying Index and to learn how to obtain public information regarding the Underlying Index and other important information.

Edgar Filing: ABN AMRO HOLDING N V - Form 424B2

Information concerning certain historical values of the Underlying Index is set forth under the heading "Public Information Regarding the Underlying Index" in this Pricing Supplement. Past performance of the Underlying Index, however, is not necessarily indicative of how the Underlying Index will perform in the future.

WHO WILL DETERMINE THE FINAL VALUE OF THE UNDERLYING INDEX ON THE DETERMINATION DATE, THE SUPPLEMENTAL REDEMPTION AMOUNT, IF ANY, AND THE INITIAL INDEX VALUE?

We have appointed ABN AMRO Incorporated, which we refer to as AAI, to act as calculation agent for Wilmington Trust Company, the trustee for the Securities and Citibank, N.A., the securities administrator. As calculation agent, AAI will determine the closing level of the Underlying Index on the determination date, the index return and the Supplemental Redemption Amount, if any. The calculation agent may be required, due to events beyond our control, to adjust any of these

PS-8

calculations, which we describe in "Discontinuance of the Underlying Index; Alteration of Method of Calculation" in this Pricing Supplement.

WHAT ARE THE TAX CONSEQUENCES OF OWNING THE SECURITIES?

The Securities will be treated as "contingent payment debt instruments" for U.S. federal income tax purposes. Please read carefully the section entitled "Taxation" below and in particular the sub-section entitled "United States Federal Taxation--Contingent Payment Debt Instruments" in the accompanying Prospectus Supplement.

WHO INVESTS IN THE SECURITIES?

The Securities are not suitable for all investors. The Securities might be considered by investors who:

- o are willing to risk receiving no return on their initial principal investment in return for the opportunity to participate in the percentage change (subject to a cap), if any, in the level of Underlying Index over the term of the Securities;
- o do not require an interest income stream;
- o prefer an investment that is principal protected notwithstanding the actual appreciation or depreciation of the Underlying Index; and
- o are willing to hold the Securities until maturity.

You should carefully consider whether the Securities are suited to your particular circumstances before you decide to purchase them. In addition, we urge you to consult with your investment, legal, accounting, tax and other advisors with respect to any investment in the Securities.

WHAT ARE SOME OF THE RISKS IN OWNING THE SECURITIES?

Investing in the Securities involves a number of risks. We have described the most significant risks relating to the Securities under the heading "Risk Factors" in this Pricing Supplement which you should read before making an investment in the Securities.

Some selected risk considerations include:

Edgar Filing: ABN AMRO HOLDING N V - Form 424B2

- o CREDIT RISK. Because you are purchasing a security from us, you are assuming our credit risk. In addition, because the Securities are fully and unconditionally guaranteed by Holding, you are assuming the credit risk of Holding in the event that we fail to make any payment required by the terms of the Securities.
- o LIQUIDITY RISK. The Securities will not be listed on any securities exchange. Accordingly, there may be little or no secondary market for the Securities and information regarding independent market pricing for the Securities may be very limited or non-existent. The value of the Securities in the secondary market, if any, will be subject to many unpredictable factors, including then prevailing market conditions.
- o MARKET RISK. The Securities do not pay any interest. The rate of return, if any, will depend on the performance of the Underlying Index. If the level of the Underlying Index either falls below the Lower Barrier or rises above the Upper Barrier at any time during the regular business hours of the relevant exchange on any trading day during the relevant period, you will be entitled to receive only the principal amount of \$1,000 per Security at maturity. In addition, even if the level of the Underlying Index remains at or above the Lower Barrier and at or below the Upper Barrier at all times during the regular business hours of the relevant exchange on each trading day during the relevant period, the Supplemental Redemption Amount payable at maturity will be zero if the Final Index Value is equal to the Initial Index Value. In each such case, you will receive no return on your investment and you will not be compensated for any loss in value due to inflation and other factors relating to the value of money over time.

WHAT IF I HAVE MORE QUESTIONS?

You should read "Description of Securities" in this Pricing Supplement for a detailed description of the terms of the Securities. The Securities are senior notes issued as part of our ABN Notes(SM) program and guaranteed by Holding. The Securities offered by the Bank will constitute the Bank's unsecured and unsubordinated obligations and rank pari passu without any preference among them and with all our other present and future unsecured and unsubordinated obligations. The guarantee of Holding will constitute Holding's unsecured and unsubordinated obligations and rank pari passu without any preference among them and with all Holding's other present and future unsecured and unsubordinated obligations. You can find a general description of our ABN Notes(SM) program in the accompanying Prospectus Supplement. We also

PS-9

describe the basic features of this type of note in the sections called "Description of Notes" and "Notes Linked to Commodity Prices, Single Securities, Baskets of Securities or Indices".

You may contact our principal executive offices at Gustav Mahleraan 10, 1082 PP Amsterdam, The Netherlands. Our telephone number is (31-20) 628-9393.

PS-10

RISK FACTORS

This section describes the most significant risks relating to the Securities. For a discussion of certain general risks associated with your investment in the Securities, please refer to the section entitled "Risk Factors" beginning on page S-3 of the accompanying prospectus supplement. YOU

Edgar Filing: ABN AMRO HOLDING N V - Form 424B2

SHOULD CAREFULLY CONSIDER WHETHER THE SECURITIES ARE SUITED TO YOUR PARTICULAR CIRCUMSTANCES BEFORE YOU DECIDE TO PURCHASE THEM. IN ADDITION, WE URGE YOU TO CONSULT WITH YOUR INVESTMENT, LEGAL, ACCOUNTING, TAX AND OTHER ADVISORS WITH RESPECT TO ANY INVESTMENT IN THE SECURITIES.

THE SECURITIES ARE NOT ORDINARY SENIOR NOTES; THE SECURITIES MAY NOT RETURN MORE THAN YOUR INITIAL INVESTMENT

The Securities combine certain features of debt and equity. The terms of the Securities differ from those of ordinary equity securities in that if the level of the Underlying Index rises above the Upper Barrier or falls below the Lower Barrier at any time during the regular business hours of the New York Stock Exchange on any trading day during the Relevant Period, you will be entitled to receive only the principal amount of \$1,000 per Security at Maturity. The terms of the Securities differ from those of ordinary debt securities in that we will not pay interest on the Securities. Instead, the rate of return on the Securities, if any, will depend on the performance of the Underlying Index. If the level of the Underlying Index rises above the Upper Barrier or falls below the Lower Barrier at any time during the regular business hours of the relevant exchange on any trading day during the relevant period, you will be entitled to receive only the principal amount of \$1,000 per Security at maturity. In addition, even if the level of the Underlying Index remains within the specified barriers at all times during the relevant period, the Supplemental Redemption Amount payable at maturity will be zero if there was no percentage change in the value of the Underlying Index over the life of the Securities, i.e., the Final Index Value is equal to the Initial Index Value. IN EACH SUCH A CASE, YOU WILL RECEIVE NO RETURN ON YOUR INITIAL INVESTMENT IN THE SECURITIES AND YOU WILL NOT BE COMPENSATED FOR ANY LOSS IN VALUE DUE TO INFLATION AND OTHER FACTORS RELATING TO THE VALUE OF MONEY OVER TIME. We cannot predict the future performance of the Underlying Index based on the historical performance of the Underlying Index or any other factors.

FURTHERMORE, EVEN IF THE UNDERLYING INDEX REMAINS WITHIN THE SPECIFIED BARRIERS AND YIELDS AN ABSOLUTE RETURN, THE RETURN YOU RECEIVE ON THE SECURITIES MAY BE LESS THAN THE RETURN YOU WOULD HAVE RECEIVED HAD YOU INVESTED YOUR ENTIRE PRINCIPAL AMOUNT IN A CONVENTIONAL DEBT SECURITY WITH THE SAME MATURITY ISSUED BY US OR A COMPARABLE ISSUER OR IN A PRODUCT THAT TRACKS THE PERFORMANCE OF THE UNDERLYING INDEX. THE RETURN YOU RECEIVE ON THE SECURITIES, IF ANY, MAY BE MINIMAL AND MAY NOT COMPENSATE YOU FOR ANY LOSSES INCURRED DUE TO INFLATION OR THE VALUE OF MONEY OVER TIME.

YOUR RETURN ON THE SECURITIES WILL NEVER EXCEED THE GREATER OF THE PERCENTAGE BY WHICH THE UPPER BARRIER IS ABOVE OR THE LOWER BARRIER IS BELOW THE INITIAL INDEX VALUE

Your return on the Securities will never exceed the greater of the percentage by which the Upper Barrier is above or the Lower Barrier is below the Initial Index Value. This is because the Final Index Value cannot be greater than the Upper Barrier or less than the Lower Barrier if a Supplemental Redemption Amount is to be paid at maturity. Therefore, the maximum Absolute Return would be produced where the Final Value is equal to the greater of the Upper Barrier or the Lower Barrier. Because the return on the Securities is limited, the return on the Securities, if any, may be less than the return you would have earned if you had invested directly in a product which tracks the performance of the Underlying Index.

PAYMENT OF THE SUPPLEMENTAL REDEMPTION AMOUNT AT MATURITY IS BASED ON THE CLOSING LEVEL OF THE UNDERLYING INDEX ON THE DETERMINATION DATE

Changes in the Underlying Index during the term of the Securities before the determination date will not be reflected in the calculation of the Supplemental Redemption Amount, if any, payable at maturity. The Supplemental

Edgar Filing: ABN AMRO HOLDING N V - Form 424B2

Redemption Amount will be calculated only if the level of the Underlying Index never rose above the Upper Barrier or fell below the Lower Barrier at any time during the regular business hours of the relevant exchange on any trading day during the relevant period. In such event, the calculation agent will calculate the Supplemental Redemption Amount payable at maturity using the Final Index Value, as determined on the determination date, and

PS-11

the Initial Index Value. No other Underlying Index values will be taken into account in calculating the Supplemental Redemption Amount, if any, payable at maturity. Consequently, even if the level of the Underlying Index was equal to the Upper or Lower Barriers on one or more trading days over the life of the Securities, only the closing level of the Underlying Index on the determination date will be used to calculate the Supplemental Redemption Amount. This method of calculating the Supplemental Redemption Amount could limit your return on the Securities.

THE SECURITIES WILL NOT BE LISTED ON ANY SECURITIES EXCHANGE; SECONDARY TRADING MAY BE LIMITED

You should be willing to hold your Securities until the maturity date. The Securities will not be listed on any securities exchange; accordingly, there may be little or no secondary market for the Securities and information regarding independent market pricing for the Securities may be very limited or non-existent. Even if there is a secondary market, it may not provide enough liquidity to allow you to trade or sell the Securities easily. Upon completion of the offering, our affiliate has informed us that it intends to purchase and sell the Securities from time to time in off-exchange transactions, but it is not required to do so. If our affiliate does make such a market in the Securities, it may stop doing so at any time. In addition, the total principal amount of the Securities being offered is not being purchased by investors in the offering, and one or more of our affiliates has agreed to purchase the unsold portion. Such affiliate or affiliates intend to hold the Securities for investment purposes, which may affect the supply of Securities available for secondary trading and therefore adversely affect the price of the Securities in any secondary trading. If a substantial portion of any Securities held by our affiliates were to be offered for sale following this offering, the market price of such Securities could fall, especially if secondary trading in such Securities is limited or illiquid.

THE INCLUSION OF COMMISSIONS AND COST OF HEDGING IN THE ISSUE PRICE IS LIKELY TO ADVERSELY AFFECT SECONDARY MARKET PRICES

Assuming no change in market conditions or any other relevant factors, the price, if any, at which the selling agents are willing to purchase Securities in secondary market transactions will likely be lower than the issue price, since the issue price included, and secondary market prices are likely to exclude, commissions paid with respect to the Securities, as well as the profit component included in the cost of hedging our obligations under the Securities. In addition, any such prices may differ from values determined by pricing models used by the selling agents, as a result of dealer discounts, mark-ups or other transaction costs.

AN INVESTMENT IN THE SECURITIES IS NOT THE SAME AS A DIRECT INVESTMENT IN THE STOCKS THAT COMPRISE THE S&P 500 INDEX(R), IN A PRODUCT THAT TRACKS THE PERFORMANCE OF THE S&P 500 INDEX(R), OR INVESTING DIRECTLY IN THE S&P 500 INDEX(R)

An investment in the Securities is not the same as a direct investment in

Edgar Filing: ABN AMRO HOLDING N V - Form 424B2

the stocks (or any other securities) that comprise the S&P 500 Index(R), a product that tracks the performance of the S&P 500 Index(R), or investing directly in the Underlying Index. Because the Underlying Index is a theoretical calculation, not an actual portfolio, it is not possible to make a direct investment in the Underlying Index.

The return on your Securities could be less than if you had invested directly in the stocks (or any other securities) that comprise the S&P 500 Index(R) or a product that tracks the performance of the S&P 500 Index(R) because of the barrier feature and the method by which the Supplemental Redemption Amount, if any, is calculated. In addition, your return may be limited because the calculation of the Supplemental Redemption Amount and the return on the Securities does not account for the return associated with the reinvestment of dividends that you would have received if you had invested directly in the stocks (or any other securities) comprising the Underlying Index or in a product that tracks the performance of the Underlying Index. You will not receive any payment of dividends on any of the stocks (or any other securities) comprising the Underlying Index.

A CHANGE IN THE LEVEL OF THE UNDERLYING INDEX MAY NOT INCREASE THE RETURN ON YOUR INVESTMENT

Owning the Securities is not the same as owning a product that tracks the performance of the Underlying Index. Accordingly, the market price, if any, of your Securities may not have a direct relationship with the level of the Underlying Index, and changes in the level of the Underlying Index may not result in a comparable change in the

PS-12

market price of your Securities. If the level of the Underlying Index remains within the Upper and Lower Barriers, the market price of the Securities may not increase. It is also possible for the level of the Underlying Index to remain within the Upper and Lower Barriers while the market price of the Securities declines.

MARKET PRICE OF THE SECURITIES MAY BE INFLUENCED BY MANY UNPREDICTABLE FACTORS

The value of the Securities may move up and down between the date you purchase them and the determination date. Several factors, most of which are beyond our control, will influence the value of the Securities, including:

- o the level of the Underlying Index, in particular, whether the level of the Underlying Index has fallen below the Lower Barrier or risen above the Upper Barrier at any time during the regular hours of the relevant exchange on any trading day during the relevant period;
- o the volatility (frequency and magnitude of changes) in the level of the Underlying Index;
- o the dividend rate on the equity securities which comprise the Underlying Index. While dividend payments, if any, on the equity securities which comprise the Underlying Index are not paid to holders of the Securities, such payments may have an influence on the level of the Underlying Index and therefore on the market price of the Securities;
- o interest and yield rates in the market;
- o the time remaining until the maturity of the Securities;
- o economic, financial, political, regulatory, geographical, or judicial

Edgar Filing: ABN AMRO HOLDING N V - Form 424B2

events that affect stock markets generally and which may affect the level of the Underlying Index and/or the market price of the Securities;

- o the occurrence of certain events affecting the Underlying Index which may require an adjustment to the Initial Index Value; and
- o the creditworthiness of the Bank as issuer of the Securities and Holding as the guarantor of the Bank's obligations under the Securities. Any person who purchases the Securities is relying upon the creditworthiness of the Bank and Holding and has no rights against any other person, including the sponsor of the Underlying Index. The Securities constitute the general, unsecured and unsubordinated contractual obligations of the Bank and Holding.

These factors interrelate in complex ways, and the effect of one factor on the value of your Securities may offset or enhance the effect of another factor.

Some or all of these factors will influence the price that you will receive if you sell your Securities prior to maturity in the secondary market, if any such market exists. If you sell your Securities prior to maturity, the price at which you are able to sell your Securities may be at a discount, which could be substantial, from the principal amount. For example, there may be a discount on the Securities if prior to the sale of the Securities, the level of the Underlying Index rose above the Upper Barrier or fell below the Lower Barrier at any time, or if market interest rates rise. Even if the Underlying Index traded within the specified barriers, there may be a discount on the Securities based on the time remaining to the maturity of the Securities. **THUS, IF YOU SELL YOUR SECURITIES BEFORE MATURITY, YOU MAY RECEIVE LESS THAN THE PRINCIPAL AMOUNT PER SECURITY.**

In addition, some or all of these factors will influence the return, if any, that you receive upon maturity of the Securities. You cannot predict the future performance of the Securities or of the Underlying Index based on the historical performance of the Underlying Index. **NEITHER WE NOR HOLDING NOR ANY OF OUR AFFILIATES CAN GUARANTEE THAT THE LEVEL OF THE UNDERLYING INDEX WILL BE WITHIN THE UPPER AND LOWER BARRIERS AT ALL TIMES OVER THE LIFE OF THE SECURITIES OR THAT THE FINAL INDEX VALUE OF THE UNDERLYING INDEX ON THE DETERMINATION DATE WILL BE DIFFERENT FROM THE INITIAL INDEX VALUE SO THAT YOU WILL RECEIVE AT MATURITY AN AMOUNT IN EXCESS OF THE PRINCIPAL AMOUNT OF THE SECURITIES.**

PS-13

CHANGES IN OUR CREDIT RATINGS MAY AFFECT THE MARKET VALUE OF YOUR SECURITIES

Our credit ratings are an assessment, by each rating agency, of our ability to pay our obligations, including those under the Securities. Credit ratings are subject to revision, suspension or withdrawal at any time by the assigning rating organizations, in their sole discretion. Consequently, actual or anticipated changes in our credit ratings may affect the market value of the Securities. However, because the return on the Securities is dependent upon factors in addition to our ability to pay our obligations under the Securities, an improvement in our credit ratings will not necessarily increase the market value of the Securities and will not reduce market risk and other investment risks related to the Securities. Credit ratings do not address the price, if any, at which the Securities may be resold prior to maturity (which may be substantially less than the issue price of the Securities) and are not recommendations to buy, sell or hold the Securities. See "Risk Factors--Market Price of the Securities Influenced by Many Unpredictable Factors".

NO SHAREHOLDER RIGHTS IN THE SECURITIES THAT COMPRISE THE UNDERLYING INDEX

Edgar Filing: ABN AMRO HOLDING N V - Form 424B2

As a holder of the Securities, you will not have voting rights, rights to receive dividends or other distributions or other rights that holders of shares that comprise the Underlying Index would have.

Because neither we nor Holding nor any of our affiliates are affiliated with the sponsor or trustee of the Underlying Index, we have no ability to control or predict the actions of such entities, including any actions of the type that would require the calculation agent to adjust the Initial Index Value and consequently the Upper and Lower Barriers and payment at maturity, and have no ability to control the public disclosure of these actions or any other events or circumstances affecting such entities. THE SPONSOR OF THE UNDERLYING INDEX IS NOT INVOLVED IN THE OFFER OF THE SECURITIES IN ANY WAY AND HAS NO OBLIGATION TO CONSIDER YOUR INTEREST AS A HOLDER OF THE SECURITIES IN TAKING ANY CORPORATE ACTIONS THAT MIGHT AFFECT THE VALUE OF YOUR SECURITIES. NONE OF THE MONEY YOU PAY FOR THE SECURITIES WILL GO TO THE SPONSOR OF THE UNDERLYING INDEX.

ADJUSTMENTS TO THE UNDERLYING INDEX COULD ADVERSELY AFFECT THE VALUE OF THE SECURITIES

S&P, as the Index Sponsor, is responsible for calculating and maintaining the Underlying Index. The Index Sponsor is not an affiliate of ours and is not involved with this offering in any way. None of the money you pay for the Securities will go to the Index Sponsor. The Index Sponsor can add, delete or substitute the stocks that comprise the Underlying Index or make other methodological changes that could change the value of the Underlying Index. The Index Sponsor may also discontinue or suspend calculation or dissemination of the Underlying Index at any time. The Index Sponsor does not have any obligation to take the needs of any parties to transactions involving or linked to the Underlying Index, including the holders of the Securities, into consideration when making any changes to the Underlying Index. Any of these actions could adversely affect the value of the Securities in unpredictable ways.

If the Index Sponsor discontinues publication of the Underlying Index or materially modifies its methods of calculation of the Underlying Index, AAI, which is our affiliate, as calculation agent, will have to determine one or more index closing levels itself, or make such adjustments or calculations to the modified Underlying Index so as to arrive at one or more index closing levels comparable to the Underlying Index as originally calculated. In either of these circumstances, the calculation agent may be required to make good faith estimates of closing prices of underlying stocks, calculation methodologies or index levels. While the calculation agent will endeavor to make such determinations accurately and in good faith, there can be no assurance that the calculation agent will be able to do so. Therefore, a discontinuance or material modification of the Underlying Index may adversely affect the value of the Securities. See "Description of Securities--Discontinuance of the Underlying Index; Alteration of Method of Calculation".

S&P DISCLAIMER

"Standard & Poor's(R)", "S&P(R)", "Standard & Poor's 500 Composite Stock Price Index(R)", "S&P 500 Index(R)", and "StaNdARD & Poor's 500(R)", are trademarks of The McGraw-Hill Companies, Inc. THESE TRADEMARKS AND SERVICE MARKS HAVE BEEN LICENSED FOR USE FOR CERTAIN PURPOSES BY ABN AMRO BANK N.V. THE SECURITIES HAVE

PS-14

NOT BEEN PASSED ON BY S&P OR THE MCGRAW-HILL COMPANIES, INC. THE SECURITIES ARE NOT SPONSORED, ENDORSED, SOLD OR PROMOTED BY EITHER S&P OR THE MCGRAW-HILL COMPANIES, INC. AND NEITHER S&P OR THE MCGRAW-HILL COMPANIES, INC. MAKES ANY

Edgar Filing: ABN AMRO HOLDING N V - Form 424B2

WARRANTIES, OR BEARS ANY LIABILITY WITH RESPECT TO THE SECURITIES.

THE INDEX SPONSOR MAKES NO WARRANTY, EXPRESS OR IMPLIED, AS TO RESULTS TO BE OBTAINED BY HOLDERS OF THE SECURITIES OR ANY OTHER PERSON OR ENTITY FROM THE USE OF THE LEVEL OF THE UNDERLYING INDEX.

THE UNDERLYING INDEX IS NOT ACTIVELY MANAGED

The Underlying Index is not actively managed by traditional methods, and therefore the adverse financial condition of one or more issuers of stocks which comprise the S&P 500 Index(R) will not result in the elimination of such stock or stocks from the Underlying Index. Because payment at maturity of the Securities is linked to the performance of the Underlying Index, this may adversely affect the value of the Securities and the return, if any, on the Securities.

DISCONTINUANCE OF THE UNDERLYING INDEX

The Index Sponsor is not under any obligation to continue to compile and maintain the Underlying Index. If the Index Sponsor discontinues compilation or publication of the Underlying Index, it may become difficult to determine the market value of the Securities or the amount payable at maturity. The calculation agent, which is our affiliate, may designate a successor index selected in its sole discretion. If the calculation agent determines in its sole discretion that no successor index comparable to the Underlying Index exists, the amount you receive at maturity will be determined by the calculation agent in its sole discretion. See "Description of Securities--Market Disruption Event" and "Description of Securities-Discontinuance of the Underlying Index; Alteration of Method of Calculation".

WE MAY ENGAGE IN BUSINESS WITH OR INVOLVING ONE OR MORE OF THE ISSUERS OF THE STOCKS THAT COMPRISE THE UNDERLYING INDEX WITHOUT REGARD TO YOUR INTERESTS

We or our affiliates may presently or from time to time engage in business with one or more of the issuers of the stocks comprising the Underlying Index without regard to your interests, including extending loans to, making equity investments in, or providing investment advisory services to, one or more of such issuers or their affiliates or subsidiaries. In the course of our business, we or our affiliates may acquire non-public information about one or more of the issuers of the stocks comprising the Underlying Index. None of us, Holding or any of our affiliates undertakes to disclose any such information to you. In addition, we or our affiliates, from time to time, have published, and in the future may publish, research reports with respect to the stocks. These research reports may or may not recommend that investors buy or hold the stocks comprising the Underlying Index.

POTENTIAL CONFLICTS OF INTEREST; NO SECURITY INTEREST IN SHARES OF THE UNDERLYING INDEX HELD BY US

We and our affiliates may carry out hedging activities that minimize our risks related to the Securities, including trading in shares of the stocks that comprise the S&P 500 Index(R), options on the S&P 500 Index(R) and products that track the performance of the S&P 500 Index(R), such as exchange traded funds. In particular, on or prior to the date of this Pricing Supplement, we, through our affiliates, hedged our anticipated exposure in connection with the Securities by taking positions in shares of stock that comprise the S&P 500 Index(R), futures or options contracts on the S&P 500 Index(R) listed on major securities markets, and/or other instruments that we deemed appropriate in connection with such hedging. Our purchase activity, however, could potentially have increased the Initial Index Value of the Underlying Index, and therefore increased the Upper and Lower Barriers.

Edgar Filing: ABN AMRO HOLDING N V - Form 424B2

Through our affiliates, we are likely to modify our hedge position throughout the life of the Securities by purchasing and selling shares of the stocks that comprise the S&P 500 Index(R), futures or options contracts on the S&P 500 Index(R) listed on major securities markets or positions in other securities or instruments that we may wish to use in connection with such hedging. We cannot give you any assurance that we have not or will not affect such level as a result of our hedging or trading activities. Such trading or hedging activities during the term of the Securities could adversely affect whether the level of the Underlying Index decreases below the Lower Barrier or

PS-15

increases above the Upper Barrier and therefore, whether or not you will receive the Supplemental Redemption Amount on the Securities at maturity. It is possible that we or one of more of our affiliates could receive substantial returns from these hedging activities while the value of the Securities may decline. We or one or more of our affiliates may also engage in trading shares of the stocks that comprise the Underlying Index and other investments relating to the Underlying Index on a regular basis as part of our or its general broker-dealer and other businesses, for proprietary accounts, for other accounts under management or to facilitate transactions for customers, including block transactions. Any of these activities could adversely affect the level of the Underlying Index and, therefore, the value of the Securities. We or one or more of our affiliates may also issue or underwrite other securities or financial or derivative instruments with returns linked or related to changes in the level of the Underlying Index. By introducing competing products into the marketplace in this manner, we or one or more of our affiliates could adversely affect the value of the Securities. It is also possible that any advisory services that we or our affiliates provide in the course of any business with the issuers of any of the stocks which comprise the Underlying Index or their affiliates could lead to actions on the part of an issuer of any of the stocks that comprise the Underlying Index which might adversely affect the level of the Underlying Index.

The indenture governing the Securities does not contain any restrictions on our ability or the ability of any of our affiliates to sell, pledge or otherwise convey all or any portion of the shares of the stocks which comprise the Underlying Index, any exchange-traded funds that track the Underlying Index, any option or futures contract on the Underlying Index or any other asset we may hold. Neither we nor Holding nor any of our affiliates will pledge or otherwise hold the stocks that comprise the Underlying Index, any exchange-traded funds that track the Underlying Index, any option or futures contract or any other asset we may hold, for the benefit of holders of the Securities under any circumstances. Consequently, in the event of a bankruptcy, insolvency or liquidation involving us or Holding, as the case may be, any of such assets will be subject to the claims of our creditors or Holding's creditors generally and will not be available specifically for the benefit of the holders of the Securities. In addition, as an investor in the Securities, you will not have voting rights or rights to receive dividends or other distributions or any other rights with respect to the stocks that comprise the Underlying Index.

HOLDINGS OF THE SECURITIES BY OUR AFFILIATES AND FUTURE SALES

Certain of our affiliates have agreed to purchase for investment any portion of the Securities that has not been purchased by investors in this offering, which they intend to hold for a period of at least 30 days. As a result, upon completion of this offering, our affiliates may own a substantial portion of the total aggregate principal amount of the Securities. Circumstances may occur in which our interests or those of our affiliates could be in conflict with your interests. For example, our affiliates may attempt to sell the Securities that they had been holding for investment purposes at the same time that you attempt to sell your Securities, which could depress the price, if any,

Edgar Filing: ABN AMRO HOLDING N V - Form 424B2

at which you can sell your Securities. Moreover, the liquidity of the market for the Securities, if any, could be substantially reduced as a result of our affiliates holding the Securities. See "Risk Factors--The Securities Will Not be Listed on any Securities Exchange; Secondary Trading May Be Limited". In addition, our affiliates could have substantial influence over any matter subject to consent of the security holders.

In addition, if a substantial portion of the Securities held by our affiliates were to be offered for sale in the secondary market, if any, following this offering, the market price of the Securities may fall. The negative effect of such sales on the price of the Securities could be more pronounced if secondary trading in the Securities is limited or illiquid.

INFORMATION REGARDING THE UNDERLYING INDEX

Neither we nor Holding nor any of our affiliates assume any responsibility for the accuracy or adequacy of the information about the Underlying Index contained in this Pricing Supplement or in any of its publicly available filings. AS AN INVESTOR IN THE SECURITIES, YOU SHOULD MAKE YOUR OWN INVESTIGATION INTO THE UNDERLYING INDEX. NEITHER WE NOR HOLDING NOR ANY OF OUR AFFILIATES HAVE ANY AFFILIATION WITH THE INDEX SPONSOR, AND ARE NOT RESPONSIBLE FOR ITS PUBLIC DISCLOSURE OF INFORMATION, WHETHER CONTAINED IN SEC FILINGS OR OTHERWISE.

PS-16

LIMITED ANTIDILUTION PROTECTION

As calculation agent, AAI, which is our affiliate, will adjust the Initial Index Value and the Upper and Lower Barriers and consequently the payment at maturity for certain events affecting the Underlying Index. The calculation agent is not required to make an adjustment for every action which affects the Underlying Index. IF AN EVENT OCCURS THAT DOES NOT REQUIRE THE CALCULATION AGENT TO ADJUST THE AMOUNT PAYABLE AT MATURITY, THE MARKET PRICE OF THE SECURITIES MAY BE MATERIALLY AND ADVERSELY AFFECTED.

POTENTIAL CONFLICTS OF INTEREST BETWEEN HOLDERS OF THE SECURITIES AND THE CALCULATION AGENT

As calculation agent, AAI, which is our affiliate, will calculate the payout to you at maturity of the Securities. AAI and other affiliates may carry out hedging activities related to the Securities, including trading in shares of the stocks which comprise the Underlying Index, as well as in other instruments related to the Underlying Index. AAI and some of our other affiliates also trade shares of the stocks which comprise the Underlying Index and other instruments related to the Underlying Index on a regular basis as part of their general broker dealer businesses. Any of these activities could influence AAI's determinations as calculation agent and any such trading activity could potentially affect the level of the Underlying Index and, accordingly could affect the payout on the Securities. AAI IS AN AFFILIATE OF ABN AMRO BANK N.V.

In addition, if certain events occur as defined under "Description of Securities--Discontinuance of the Underlying Index; Alteration of Method of Calculation" the calculation agent may adjust the Initial Index Value, the Upper and Lower Barriers and consequently the amounts payable at maturity to reflect such event. The calculation agent's adjustment to the Securities may be influenced by, among other things, our or our affiliates' hedging transactions with respect to the Securities and our or their ability to hedge our obligations under the Securities following such events. There can be no assurance that such an event will not occur or that the calculation agent's adjustments upon such an

Edgar Filing: ABN AMRO HOLDING N V - Form 424B2

event will not adversely affect the value of the Securities.

Moreover, the issue price of the Securities includes the agents' commissions and certain costs of hedging our obligations under the Securities. Our affiliates through which we hedge our obligations under the Securities expect to make a profit. Since hedging our obligations entails risk and may be influenced by market forces beyond our affiliates' control, such hedging may result in a profit that is more or less than initially projected.

PS-17

HYPOTHETICAL SENSITIVITY ANALYSIS OF TOTAL RETURN OF THE SECURITIES AT MATURITY

The following tables set out the total return at maturity of a Security, based on the assumptions outlined below and several variables, which include (a) whether the level of the Underlying Index has risen above the Upper Barrier or fallen below the Lower Barrier at any time during the regular business hours of the relevant exchange on any trading day during the relevant period and (b) several hypothetical closing prices for the Underlying Index on the determination date. The information in the tables is based on hypothetical levels for the Underlying Index. We cannot predict the closing level of the Underlying Index on the determination date or at any time during the life of the Securities. THE ASSUMPTIONS EXPRESSED BELOW ARE FOR ILLUSTRATIVE PURPOSES ONLY AND THE RETURNS SET FORTH IN THE TABLE MAY OR MAY NOT BE THE ACTUAL RATES APPLICABLE TO A PURCHASER OF THE SECURITIES.

ASSUMPTIONS

Hypothetical Initial

Index Value: 918.37 (indicative value only; the Initial Index Value will be set on the date we price the Securities; the level of the Underlying Index on June 18, 2009 was 918.37.

Hypothetical Participation

Rate: 1.00 (or 100%)

Hypothetical Upper Barrier: 1,230.62 (Hypothetical Initial Index Value x 134%)

Hypothetical Lower Barrier: 606.12 (Hypothetical Initial Index Value x 66%)

Term of the Securities: 3 Years

PAYMENT AT MATURITY IF THE LEVEL OF THE UNDERLYING INDEX EITHER RISES ABOVE THE UPPER BARRIER OR FALLS BELOW THE LOWER BARRIER AT ANY TIME DURING THE REGULAR BUSINESS HOURS OF THE RELEVANT EXCHANGE ON ANY TRADING DAY DURING THE RELEVANT PERIOD:

Hypothetical Final Index Value	Hypothetical Absolute Return (a)	Hypothetical Actual Return (b)	Hypothetical Supplemental Redemption Amount (c)	Hypothetical Total Return (d)	
				----- \$	----- %
1450	57.89%	57.89%	\$0	\$1,000.00	0%
1400	52.44%	52.44%	\$0	\$1,000.00	0%
1348	46.78%	46.78%	\$0	\$1,000.00	0%
1325	44.28%	44.28%	\$0	\$1,000.00	0%
1298	41.34%	41.34%	\$0	\$1,000.00	0%
1270	38.29%	38.29%	\$0	\$1,000.00	0%
1250	36.11%	36.11%	\$0	\$1,000.00	0%

(a) The Absolute Return is calculated as:

Absolute Value* of:

Final Index Value - Initial Index Value

Edgar Filing: ABN AMRO HOLDING N V - Form 424B2

Initial Index Value

* Absolute Value is always expressed as a positive number, even if it is negative.

- (b) Represents the percentage return of the Underlying Index (without accounting for any return associated with the reinvestment of dividends on the stocks which comprise the Underlying Index). This column is provided to illustrate that an investment in the Securities is not the same as a comparable direct investment in a product that tracks the performance of the Underlying Index.
- (c) The Supplemental Redemption Amount for each \$1,000 principal amount of the Securities is equal to:

Absolute Return x Participation Rate x \$1,000

The Supplemental Redemption Amount payable at maturity, if any, will be calculated only if the level of the Underlying Index remains at or below the Upper Barrier and at or above the Lower Barrier at all times during the regular business hours of the relevant exchange on each trading day during period from but excluding the

PS-19

pricing date to and including the determination date, which period we refer to as the relevant period. If the level of the Underlying Index either rises above the Upper Barrier or falls below the Lower Barrier at any time during the regular business hours of the relevant exchange on any trading day during the relevant period, no Supplemental Redemption Amount will be paid at maturity regardless of the closing level of the Underlying Index on the determination date.

- (d) The total return presented is exclusive of any tax consequences of owning the Securities. You should consult your tax advisor regarding whether owning the Securities is appropriate for your tax situation. See the sections titled "Risk Factors" in this Pricing Supplement and "United States Federal Taxation" and "Taxation in the Netherlands" in the accompanying Prospectus Supplement.

PS-20

INCORPORATION OF DOCUMENTS BY REFERENCE

Holding is subject to the informational requirements of the Securities Exchange Act of 1934, as amended (the "Exchange Act"), and in accordance therewith, Holding files reports and other information with the Securities and Exchange Commission (the "Commission"). You may read and copy these documents at the SEC Headquarters Public Reference Room at 100 F Street, N.E., Washington, D.C. 20549 (tel: 202-551-8090), and at the SEC's regional offices at Northeast Regional Office, 3 World Financial Center, Suite 400, New York, NY 10281 (tel: 212-336-1100) and Midwest Regional Office, 175 W. Jackson Boulevard, Suite 900, Chicago, Illinois 60604. Copies of this material can also be obtained from the Public Reference Room of the Commission at 100 F Street, N.E., Washington, D.C. 20549 at prescribed rates. Please call the Commission at 1-800-SEC-0330 for further information about the Public Reference Room. The Commission also maintains an Internet website that contains reports and other information regarding Holding that are filed through the Commission's Electronic Data Gathering, Analysis and Retrieval (EDGAR) System. This website can be accessed at www.sec.gov. You can find information Holding has filed with the Commission

Edgar Filing: ABN AMRO HOLDING N V - Form 424B2

by reference to file number 1-14624.

This Pricing Supplement is part of a registration statement that we and Holding filed with the Commission. This Pricing Supplement omits some information contained in the registration statement in accordance with Commission rules and regulations. You should review the information and exhibits in the registration statement for further information on us and Holding and the securities we and Holding are offering. Statements in this prospectus concerning any document we and Holding filed as an exhibit to the registration statement or that Holding otherwise filed with the Commission are not intended to be comprehensive and are qualified by reference to these filings. You should review the complete document to evaluate these statements.

The Commission allows us to incorporate by reference much of the information that we and Holding file with them, which means that we can disclose important information to you by referring you to those publicly available documents. The information that we and Holding incorporate by reference in this Pricing Supplement is considered to be part of this Pricing Supplement. Because we and Holding are incorporating by reference future filings with the Commission, this Pricing Supplement is continually updated and those future filings may modify or supersede some of the information included or incorporated in this Pricing Supplement. This means that you must look at all of the Commission filings that we and Holding incorporate by reference to determine if any of the statements in this Pricing Supplement or in any document previously incorporated by reference have been modified or superseded. This Pricing Supplement incorporates by reference all Annual Reports on Form 20-F filed by Holding since September 29, 2006, and any future filings that we or Holding make with the Commission (including any Form 6-K's that we or Holding subsequently file with the Commission) under Section 13(a), 13(c), 14 or 15(d) of the Exchange Act, that are identified in such filing as being specifically incorporated by reference into Registration Statement Nos. 333-137691 or 333-137691-02, of which this Pricing Supplement is a part, until we and Holding complete our offering of the Securities to be issued hereunder or, if later, the date on which any of our affiliates cease offering and selling these Securities.

You may request, at no cost to you, a copy of these documents (other than exhibits not specifically incorporated by reference) by writing or telephoning us at: ABN AMRO Bank N.V., ABN AMRO Investor Relations Department, Hoogoorddreef 66-68, P.O. Box 283, 1101 BE Amsterdam, The Netherlands (Telephone: (31-20) 628 3842).

PS-21

PUBLIC INFORMATION REGARDING THE UNDERLYING INDEX

THE S&P 500 INDEX(R)

We have derived all information contained in this Pricing Supplement regarding the S&P 500 Index(R), including, without limitation, its make-up, method of calculation and changes in its components, from publicly available information. Neither we nor Holding nor any of our affiliates are responsible for, or assume any responsibility for, the accuracy or completeness of such information. That information reflects the policies of, and is subject to change by, Standard & Poor's, division of The McGraw-Hill Companies ("S&P"), the Index Sponsor. The S&P 500 Index(R) was developed, and is calculated and maintained, by S&P. S&P has no obligation to continue to calculate and publish, and may alter or discontinue calculation and publication of the S&P 500 Index(R) at any time. The consequences of discontinuing the S&P 500 Index(R) are described in "Description of Securities - Discontinuance of the Underlying Index; Alteration of Method of Calculation".

Edgar Filing: ABN AMRO HOLDING N V - Form 424B2

GENERAL

The S&P 500 Index(R) is published by S&P and is intended to provide an indication of the pattern of common stock price movement. It is a market-value weighted index (stock price times number of shares outstanding), with each stock's weight in the index proportionate to its market value. The calculation of the value of the S&P 500 Index(R), discussed below in further detail, is based on the relative value of the aggregate market value of the common stocks of 500 companies (the "S&P 500 Component Stocks") as of a particular time compared to the aggregate average market value of the common stocks of 500 similar companies during the base period of the years 1941 through 1943.

S&P chooses companies for inclusion in the S&P 500 Index(R) with the aim of achieving a distribution across broad industry groupings that approximates the actual distribution of these groupings in the common stock population of the Standard & Poor's Stock Guide Database of over 10,000 companies, which S&P uses as an assumed model for the composition of the total market. Relevant criteria employed by S&P include the viability of the particular company, the extent to which that company represents the industry group to which it is assigned, the extent to which the market price of the company's common stock is generally responsive to changes in the affairs of the respective industry and the market value and trading activity of the common stock of that company. S&P may from time to time, in its sole discretion, add companies to, or delete companies from, the S&P 500 Index(R) to achieve the objectives stated above.

As of May 29, 2009, the 500 companies included in the S&P 500 Index(R) were divided into 10 Global Industry Classification Sectors. The Global Industry Classification Sectors included (with the percentage of the aggregate market value of the companies currently included in such sectors indicated in parentheses): Consumer Discretionary (8.90%), Consumer Staples (12.0%), Energy (13.00%), Financials (13.50%), Health Care (13.90%), Industrials (10.10%), Information Technology (17.80%), Materials (3.40%), Telecommunication Services (3.50%) and Utilities (3.9%). S&P may from time to time, in its sole discretion, add companies to, or delete companies from, the S&P 500 Index(R) to achieve the objectives stated above.

COMPUTATION OF THE S&P 500 INDEX(R)

On March 21, 2005, S&P began to calculate the S&P 500 Index(R) based on a half float-adjusted formula, and on September 16, 2005, S&P completed the full float adjustment of the S&P 500 Index(R). S&P's criteria for selecting stocks for the S&P 500 Index(R) were not changed by the shift to float adjustment. However, the adjustment affects each company's weight in the S&P 500 Index(R) (i.e., its "Market Value").

Under float adjustment, the share counts used in calculating the S&P 500 Index(R) reflect only those shares that are available to investors and not all of a company's outstanding shares. S&P defines three groups of shareholders whose holdings are subject to float adjustment:

- o holdings by other publicly traded corporations, venture capital firms, private equity firms, strategic partners or leveraged buyout groups;

PS-22

- o holdings by governmental entities, including all levels of government in the United States or foreign countries; and
- o holdings by current or former officers and directors of the company, founders of the company or family trusts of officers, directors or

Edgar Filing: ABN AMRO HOLDING N V - Form 424B2

founders, as well as holdings of trusts, foundations, pension funds, employee stock ownership plans or other investment vehicles associated with and controlled by the company

However, treasury stock, stock options, restricted shares, equity participation units, warrants, preferred stock, convertible stock and rights are not part of the float. In cases where holdings in a group exceed 10% of the outstanding shares of a company, the holdings of that group will be excluded from the float-adjusted count of shares to be used in the S&P 500 Index(R) calculation. Mutual funds, investment advisory firms, pension funds or foundations not associated with the company and investment funds in insurance companies, shares of a U.S. company traded in Canada as "exchangeable shares," shares that trust beneficiaries may buy or sell without difficulty or significant additional expense beyond typical brokerage fees, and, if a company has multiple classes of stock outstanding, shares in an unlisted or non-traded class if such shares are convertible by shareholders without undue delay and cost, are also part of the float.

For each stock, an investable weight factor ("IWF") is calculated by dividing the available float shares, defined as the total shares outstanding less shares held in one or more of the three groups listed above where the group holdings exceed 10% of the outstanding shares, by the total shares outstanding. The float-adjusted index will then be calculated by dividing the sum of the IWF multiplied by both the price and the total shares outstanding for each stock by the index divisor. For companies with multiple classes of stock, S&P will calculate the weighted average IWF for each stock using the proportion of the total company market capitalization of each share class as weights.

The S&P 500 Index(R) is calculated using a base-weighted aggregate methodology: the level of the S&P 500 Index(R) reflects the total Market Value of all S&P 500 Index component stocks relative to the S&P 500 Index(R)'s base period of 1941-43 (the "base period").

An indexed number is used to represent the results of this calculation in order to make the value easier to work with and track over time.

The actual total market value of the S&P 500 Component Stocks during the base period has been set equal to an indexed value of 10. This is often indicated by the notation 1941-43=10. In practice, the daily calculation of the S&P 500 Index(R) is computed by dividing the total Market Value of the S&P 500 Component Stocks by a number called the "S&P 500 Index Divisor". By itself, the S&P 500 Index Divisor is an arbitrary number. However, in the context of the calculation of the S&P 500 Index(R), it is the only link to the original base period level of the S&P 500 Index(R). The S&P 500 Index Divisor keeps the S&P 500 Index(R) comparable over time and is the manipulation point for all adjustments to the S&P 500 Index(R) ("S&P 500 Index Maintenance").

MAINTENANCE OF THE S&P 500 INDEX(R)

S&P 500 Index Maintenance includes monitoring and completing the adjustments for company additions and deletions, share changes, stock splits, stock dividends, and stock price adjustments due to company restructurings or spin-offs.

To prevent the level of the S&P 500 Index(R) from changing due to corporate actions, all corporate actions that affect the total Market Value of the S&P 500 Index(R) require an S&P 500 Index Divisor adjustment. By adjusting the S&P 500 Index Divisor for the change in total Market Value, the level of the S&P 500 Index(R) remains constant. This helps maintain the level of the S&P 500 Index(R) as an accurate barometer of stock market performance and ensures that the movement of the S&P 500 Index(R) does not reflect the corporate actions of individual companies in the S&P 500 Index(R). All S&P 500 Index Divisor

Edgar Filing: ABN AMRO HOLDING N V - Form 424B2

adjustments are made after the close of trading. Some corporate actions, such as stock splits and stock dividends, require simple changes in the common shares outstanding and the stock prices of the companies in the S&P 500 Index(R) and do not require S&P 500 Index Divisor adjustments.

The table below summarizes the types of S&P 500 Index Maintenance adjustments and indicates whether or not an S&P 500 Index Divisor adjustment is required:

PS-23

Type of Corporate Action	Adjustment Factor	Divisor Adjustment Required
Stock split (E.G. , 2-for-1)	Shares Outstanding multiplied by 2; Stock Price divided by 2	No
Share issuance (I.E. , change equal to or greater than 5%)	Shares Outstanding plus newly issued Shares	Yes
Share repurchase (I.E. , change equal to or greater than 5%)	Shares Outstanding minus Repurchased Shares	Yes
Special cash dividends	Share Price minus Special Dividend	Yes
Company Change	Add new company Market Value minus old company Market Value	Yes
Rights Offering	Price of parent company minus Price of Rights ----- Right Ratio	Yes
Spin-Off	Price of parent company minus Price of Spinoff Co. ----- Share Exchange Ratio	Yes

Stock splits and stock dividends do not affect the S&P 500 Index Divisor of the S&P 500 Index(R), because following a split or dividend both the stock price and number of shares outstanding are adjusted by S&P so that there is no change in the Market Value of the S&P 500 Component Stock. All stock split and dividend adjustments are made after the close of trading on the day before the ex-date.

Each of the corporate events exemplified in the table requiring an adjustment to the S&P 500 Index Divisor has the effect of altering the Market Value of the S&P 500 Component Stock and consequently of altering the aggregate Market Value of the S&P 500 Component Stocks (the "Post-Event Aggregate Market Value"). In order that the level of the S&P 500 Index(R) (the "Pre-Event Index Value") not be affected by the altered Market Value (whether increase or decrease) of the affected S&P 500 Component Stock, a new S&P 500 Index Divisor ("New S&P 500 Divisor") is derived as follows:

$$\frac{\text{Post-Event Aggregate Market Value}}{\text{-----}} = \text{Pre-Event Index Value}$$

Edgar Filing: ABN AMRO HOLDING N V - Form 424B2

New S&P 500 Divisor

$$\text{New S\&P 500 Divisor} = \frac{\text{Post-Event Aggregate Market Value}}{\text{Pre-Event Index Value}}$$

A large part of the S&P 500 Index Maintenance process involves tracking the changes in the number of shares outstanding of each of the S&P 500 Index(R) companies. Four times a year, on a Friday close to the end of each calendar quarter, the share totals of companies in the S&P 500 Index(R) are updated as required by any changes in the number of shares outstanding. After the totals are updated, the S&P 500 Index Divisor is adjusted to compensate for the net change in the total Market Value of the S&P 500 Index(R). IN addition, any changes over 5% in the current common shares outstanding for the S&P 500 Index(R) companies are carefully reviewed on A weekly basis, and when appropriate, an immediate adjustment is made to the S&P 500 Index Divisor.

LICENSE AGREEMENT

S&P has entered into a non-transferable, non-exclusive license agreement granting us and certain of our affiliated or subsidiary companies, in exchange for a fee, the right to use the S&P 500 Index(R), which is owned and published by S&P, in connection with certain securities, including the Securities.

The license agreement between S&P and us provides that the following language must be set forth in this Pricing Supplement:

PS-24

The Securities are not sponsored, endorsed, sold or promoted by Standard & Poor's, a division of The McGraw-Hill Companies, Inc. ("S&P"). S&P makes no representation or warranty, express or implied, to the owners of the Securities or any member of the public regarding the advisability of investing in securities generally or in the Securities particularly or the ability of the S&P 500 Index to track general stock market performance. S&P's only relationship to us is the licensing of certain trademarks and trade names of S&P and of the S&P 500 Index(R) which is determined, composed and calculated by S&P without regard to us or the Securities. S&P has no obligation to take our needs or the needs of the owners of the Securities into consideration in determining, composing or calculating the S&P 500 Index(R). S&P is not responsible for and has not participated in the determination of the timing of, prices at, or quantities of the Securities to be issued or in the determination or calculation of the equation by the Securities are to be converted into cash. S&P has no obligation or liability in connection with the administration, marketing or trading of the Securities.

& Poor's and Standard & Poor's makes no representation regarding the advisability of investing in the Securities.

DISCLAIMER BY US, HOLDING AND THE CALCULATION AGENT

All information in this Pricing Statement relating to the S&P 500 Index(R), including, without limitation, its composition, method of calculation and changes in its components, is derived from publicly available information released by S&P and other public sources. Neither we nor Holding nor the Calculation Agent has independently verified any such information. Neither we nor Holding nor the Calculation Agent shall have any responsibility for any error or omissions in the calculation and publication of the S&P 500 Index(R) by S&P.

PS-25

HISTORICAL DATA ON THE S&P 500 INDEX(R)

The following table sets forth the value of the S&P 500 Index(R) at the end of each month in the period from January 2004 through June 18, 2009. These historical data on the S&P 500 Index(R) are not indicative of the future performance of the S&P 500 Index(R) or what the value of the Securities will be. Any historical upward or downward trend in the value of the S&P 500 Index(R) during any period set forth below is not an indication that the S&P 500 Index(R) is more or less likely to increase or decrease at any time during the term of the Securities.

YOU CANNOT PREDICT THE FUTURE PERFORMANCE OF THE SECURITIES OR THE S&P 500 INDEX(R) BASED ON THE HISTORICAL PERFORMANCE OF THE S&P 500 INDEX(R). Neither we nor Holding can guarantee that the value of the S&P 500 Index(R) will increase.

	2004	2005	2006	2007	2008	2009
January	1131.13	1181.27	1280.08	1438.24	1378.55	825.88
February	1144.94	1203.60	1280.66	1406.82	1330.63	735.09
March	1126.21	1180.59	1294.83	1420.86	1322.70	797.87

* Through June 18, 2009

Neither we nor Holding make any representation as to the amount of dividends, if any, that the stocks comprising the Underlying Index will pay in the future. In any event, as a holder of a Security, you will not be entitled to receive dividends, if any, that may be payable on the stocks comprising the Underlying Index.

PS-26

DESCRIPTION OF SECURITIES

Edgar Filing: ABN AMRO HOLDING N V - Form 424B2

Capitalized terms not defined herein have the meanings given to such terms in the accompanying Prospectus Supplement. The term "Security" refers to each \$1,000 principal amount of our Principal Protected Absolute Return Barrier Notes linked to the S&P 500 Index(R) due July 9, 2012 and fully and unconditionally guaranteed by Holding.

The Offering..... Principal Protected Absolute Return Barrier Notes linked to the S&P 500 Index(R) due July 9, 2012

Principal Amount:..... \$

Underlying Index..... The Securities are linked to the S&P 500 Index(R). We refer to the S&P 500 Index(R) as the Underlying Index.

Proposed Settlement Date... July 9, 2009

Proposed Pricing Date..... July 6, 2009

Maturity Date..... July 9, 2012

Specified Currency..... U.S. Dollars

CUSIP..... 00083JCN6

Denominations..... The Securities may be purchased in denominations of \$1,000 and integral multiples thereof.

Form of Securities..... The Securities will be represented by a single registered global security, deposited with the Depository Trust Company.

Guarantee..... The payment and delivery obligations of ABN AMRO Bank N.V. under the Securities, when and as they shall become due and payable, whether at maturity or upon acceleration, are fully and unconditionally guaranteed by ABN AMRO Holding N.V.

Issue Price..... 100%

Interest Rate..... None. The Securities do not pay interest.

Payment at Maturity..... The payment at maturity for each \$1,000 principal amount of the Securities is based on the performance of the Underlying Index as follows:

- o If the level of the Underlying Index never rises above the Upper Barrier or falls below the Lower Barrier at any time during the regular business hours of the Relevant Exchange on any Trading Day during the Relevant Period, at maturity you will receive \$1,000 plus the Supplemental Redemption Amount (if any); or
- o If the Level of the Underlying Index either rises above the Upper Barrier or falls below the Lower Barrier at any time during the regular business hours of the Relevant Exchange on any Trading Day during the Relevant Period, at maturity you will receive

Edgar Filing: ABN AMRO HOLDING N V - Form 424B2

\$1,000 only.

IF THE FINAL INDEX VALUE IS EQUAL TO THE INITIAL INDEX VALUE, THE SUPPLEMENTAL REDEMPTION AMOUNT WILL BE ZERO AND YOU WILL NOT

PS-27

RECEIVE ANY RETURN ON YOUR INITIAL PRINCIPAL INVESTMENT EVEN THOUGH THE LEVEL OF THE UNDERLYING INDEX TRADED WITHIN THE SPECIFIED BARRIERS AT ALL TIMES DURING THE TERM OF THE SECURITIES

The Calculation Agent will calculate the Supplemental Redemption Amount due at maturity, if any, on the Determination Date. The Calculation Agent will provide written notice to the Securities Administrator at its New York Office, on which notice the Securities Administrator may conclusively rely, of such payment amount, on or prior to 11:00 a.m. on the Business Day preceding the Maturity Date.

The Calculation Agent will round all percentages resulting from any calculation with respect to the Securities to the nearest one hundred-thousandth of a percentage point, with five one-millionths of a percentage point rounded upwards (e.g., 9.876545% (or .09876545) would be rounded to 9.87655% (or .0987655)). All dollar amounts resulting from such calculation will be rounded to the nearest cent with one-half cent being rounded upwards.

Relevant Period..... The period starting on but excluding the Pricing Date and ending on and including the Determination Date.

Supplemental Redemption Amount..... For each \$1,000 principal amount of Securities, the Supplemental Redemption Amount is an amount in cash, calculated by the Calculation Agent on the Determination Date, equal to the product of:

Absolute Return TIMES (ii) Participation Rate
TIMES (iii) \$1,000.

The Supplemental Redemption Amount will only be calculated if the level of the Underlying Index remains at or below the Upper Barrier and at or above the Lower Barrier at all times during the regular business hours of the Relevant Exchange on each Trading Day during the Relevant Period.

If the Absolute Return is equal to zero, which will be the case if the Final Index Value is equal to the Initial Index Value, the Supplemental Redemption Amount will be zero, even if the level of the Underlying Index has never risen above the Upper Barrier or fallen below the Lower Barrier at

Edgar Filing: ABN AMRO HOLDING N V - Form 424B2

any time during the regular business hours of the Relevant Exchange on each Trading Day during the Relevant Period.

Absolute Return..... On the Determination Date, the Calculation Agent will calculate the Absolute Return, which will be an amount equal to the Absolute Value* of:

$$\frac{\text{Final Index Value} - \text{Initial Index Value}}{\text{Initial Index Value}}$$

*Absolute Value is always expressed as a positive number, even if it is negative.

Participation Rate..... 1.00 (or 100%)

Upper Barrier..... Initial Index Value x 134%

Lower Barrier..... Initial Index Value x 66%

PS-28

Initial Index Value..... ----- The Initial Index Value is the closing level of the Underlying Index on the Pricing Date. The Initial Index Value may be adjusted for certain events affecting the Underlying Index. The Initial Index Value and consequently the Upper Barrier and Lower Barrier may be adjusted for certain events affecting the Underlying Index. See "--Discontinuance of the Underlying Index; Alteration of Method of Calculation" below.

Final Index Value..... 100% of the closing level of the Underlying Index on the Determination Date, which will be determined by the Calculation Agent.

Level..... As of any relevant date, the level of the Underlying Index or any Successor Index during the regular official weekday trading hours of the Relevant Exchange, subject to the terms of the provision below entitled "--Discontinuance of the Underlying Index; Alteration of Method of Calculation".

Closing Level..... As of any relevant date, the closing level of the Underlying Index or any Successor Index at the regular official weekday close of trading, subject to the terms of the provision below entitled "--Discontinuance of the Underlying Index; Alteration of Method of Calculation".

Determination Date..... July 3, 2012; provided that if such day is not a Trading Day, or if a Market Disruption Event has occurred on such a Trading Day, the Determination Date shall be the immediately succeeding Trading Day on which there is no Market Disruption Event; provided, further, that the Determination Date shall be no later than the second scheduled Trading Day preceding the Maturity Date, notwithstanding the occurrence of a Market

Edgar Filing: ABN AMRO HOLDING N V - Form 424B2

Disruption Event on such second scheduled Trading Day.

If a Market Disruption Event occurs on such second scheduled Trading Day prior to the Maturity Date, the Calculation Agent will determine the closing level of the Underlying Index on such Trading Day in accordance with the formula for calculating the value of the Underlying Index last in effect prior to the commencement of the Market Disruption Event, using the closing price (or, if trading in the relevant securities has been materially suspended or materially limited, its good faith estimate of the closing price that would have prevailed but for such suspension or limitation) on such Trading Day of each security most recently comprising the Underlying Index.

- Trading Day..... A day, as determined by the Calculation Agent, on which trading is generally conducted on the Relevant Exchange.
- Relevant Exchange..... The New York Stock Exchange.
- Market Disruption Event..... Means, with respect to the Underlying Index
- (i) either: (x) any suspension or absence or limitation imposed on trading in stocks then constituting 20% or more of the level of such Underlying Index by the primary exchange therefor or otherwise and whether by reason of movements in price exceeding limits permitted by such exchange or otherwise or by any exchange or quotation system on which trading in futures or options contracts relating to stocks then constituting 20% or more of the level of such Underlying Index is executed, or

PS-29
 - (y) any event (other than an event described in clause (z) below) that disrupts or impairs (as determined by the Calculation Agent) the ability of market participants in general (1) to effect transactions in or obtain market values for stocks then constituting 20% or more of the level of such Underlying Index on the primary exchange therefor or (2) to effect transactions in or obtain market values for futures or options contracts relating to stocks then constituting 20% or more of the level of such Underlying Index on any other exchange, or
 - (z) the closure on any Trading Day of the primary exchange(s) for stocks then constituting 20% or more of the level of such Underlying Index, or any exchange or quotation system on which trading in future or options relating the such stocks is executed, prior to its

scheduled closing time unless such earlier closing time is announced by such exchange at least one hour prior to the earlier of (1) the actual closing time for the regular trading session on such exchange on such Trading Day and (2) the submission deadline for orders to be entered into such exchange for execution on such Trading Day; and

- (ii) a determination by the Calculation Agent in its sole discretion that the event described in clause (i) above materially interfered with our ability or the ability of any of our affiliates to unwind or adjust all or a material portion of the hedge with respect to the Securities.

For the purpose of determining whether a Market Disruption Event exists with respect to the Underlying Index at any time, if trading in a security included in such Underlying Index is materially suspended or materially limited at that time, or there occurs an event that disrupts or impairs the ability of market participants in general to effect transactions in or obtain market values for such security, then the relevant percentage contribution of that security to the level of the such Underlying Index shall be based on a comparison of (i) the portion of the level of such Underlying Index attributable to that security relative to (ii) the overall level of such Underlying Index, in each case immediately before the occurrence of that suspension, limitation or other market disruption, as the case may be.

For purposes of determining whether a Market Disruption Event has occurred: (1) a limitation on the hours or number of days of trading will not constitute a Market Disruption Event if it results from an announced change in the regular business hours of the relevant exchange or market, (2) a decision permanently to discontinue trading in the relevant futures or options contract will not constitute a Market Disruption Event, (3) limitations pursuant to the rules of any relevant exchange (or any applicable rule or regulation enacted or promulgated by any other self-regulatory organization or any government agency of similar scope as determined by the Calculation Agent) on trading during significant market fluctuations will constitute a suspension, absence or material limitation of trading, (4) a suspension of trading in a futures or options contract on the Underlying Index by the primary securities market related to such contract by reason of (x) a price change exceeding limits set by such exchange or market, (y) an imbalance of orders relating

to such contracts or (z) a disparity in bid and ask quotes relating to such contracts will constitute a suspension, absence or material limitation of trading in futures or options contracts related to such Underlying Index and (5) a suspension, absence or material limitation of trading on any relevant exchange or on the primary market on which futures

PS-30

or options contracts related to such Underlying Index are traded will not include any time when such market is itself closed for trading under ordinary circumstances.

The Calculation Agent shall as soon as reasonably practicable under the circumstances notify the Issuer, the Trustee, the Securities Administrator, the Depository Trust Company and the Agents of the existence or occurrence of a Market Disruption Event with respect to the Underlying Index on any day that but for the occurrence or existence of a Market Disruption Event would have been the Determination Date for such Underlying Index.

Discontinuance of the
Underlying Index;
Alteration of Method of
Calculation.....

If the Index Sponsor discontinues publication of the Underlying Index and the Index Sponsor or another entity publishes a successor or substitute index that AAI as the Calculation Agent determines, in its sole discretion, to be comparable to the discontinued Underlying Index (such index being referred to herein as a "Successor Index"), then the Closing Level of the Underlying Index on any Trading Day during the Relevant Period and the Final Index Value will be determined by reference to the value of such Successor Index at the close of trading on the Relevant Exchange or market for the Successor Index on the relevant date.

Upon any selection by the Calculation Agent of a Successor Index, the Calculation Agent will cause written notice thereof to be furnished to us, the Trustee, the Securities Administrator and the Depository Trust Company as the holder of the Securities within three Trading Days of such selection.

If the Index Sponsor discontinues publication of the Underlying Index prior to, and such discontinuance is continuing on, the Determination Date, and AAI as the Calculation Agent determines that no Successor Index is available at such time, then the Calculation Agent will determine the Closing Level of the Underlying Index on each Trading Day during the Relevant Period following

such discontinuance and will also determine the Final Index Value that would be used in computing the Supplemental Redemption Amount, if any, payable at maturity. The Closing Level of the Underlying Index will be computed by the Calculation Agent in accordance with the formula for and method of calculating the Underlying Index last in effect prior to such discontinuance, using the closing price (or, if trading in the relevant securities has been materially suspended or materially limited, its good faith estimate of the closing price that would have prevailed but for such suspension or limitation) on of each security most recently comprising the Underlying Index. Notwithstanding these alternative arrangements, discontinuance of the publication of the Underlying Index may adversely affect the value of the Securities.

If at any time the method of calculating the Underlying Index or a Successor Index, or the value thereof, is changed in a material respect, or if the Underlying Index or a Successor Index is in any other way modified so that such index does not, in the opinion of AAI, as the Calculation Agent, fairly represent the value of the Underlying Index or such Successor Index had such changes or modifications not been made, then the Calculation Agent will, at the close of business in New York City on the relevant date make such calculations and adjustments to the terms of the Securities as, in the good faith judgment of the Calculation Agent, may be necessary in order to arrive at a value of a stock index comparable to the Underlying

PS-31

Index or such Successor Index, as the case may be, as if such changes or modifications had not been made, and make each relevant calculation with reference to the Underlying Index or such Successor Index, as adjusted. Accordingly, if the method of calculating the Underlying Index or a Successor Index is modified so that the value of such index is a fraction of what it would have been if it had not been modified (e.g., due to a split in the index), then the Calculation Agent will adjust such index in order to arrive at a value of the Underlying Index or such Successor Index as if it had not been modified (e.g., as if such split had not occurred).

All determinations and adjustments to be made by the Calculation Agent with respect to the value of the Underlying Index and the amount payable at maturity or otherwise relating to the value of the Underlying Index may be made by the Calculation Agent in its sole discretion. See "Risk Factors" for a discussion of certain conflicts of interest which may arise with respect to the Calculation

Edgar Filing: ABN AMRO HOLDING N V - Form 424B2

Agent.

Alternate Exchange

Calculation in case
of an Event of Default...

In case an Event of Default with respect to the Securities shall have occurred and be continuing, the amount declared due and payable upon any acceleration of any Security shall be determined by AAI, as Calculation Agent, and shall be equal to the principal amount of the Security plus the Supplemental Redemption Amount, if any, determined as though the date of acceleration was the Determination Date for the Securities. See "Description of Debt Securities--Events of Default" in the Prospectus.

If the maturity of the Securities is accelerated because of an Event of Default as described above, we shall, or shall cause the Calculation Agent to, provide written notice to the Trustee at its Delaware office and to the Securities Administrator at its New York office, on which notice the Trustee and Securities Administrator may conclusively rely, and to the Depository Trust Company of the aggregate cash amount due with respect to the Securities as promptly as possible and in no event later than two Business Days after the date of acceleration.

Calculation Agent.....

AAI, which is our affiliate. All determinations made by the Calculation Agent will be at the sole discretion of the Calculation Agent and will, in the absence of manifest error, be conclusive for all purposes and binding on you and on us.

Additional Amounts.....

Subject to certain exceptions and limitations described in "Description of Debt Securities -- Payment of Additional Amounts" in the accompanying Prospectus, we will pay such additional amounts to holders of the Securities as may be necessary in order that the net payment of the principal of the Securities and any other amounts payable on the Securities, after withholding for or on account of any present or future tax, assessment or governmental charge imposed upon or as a result of such payment by The Netherlands (or any political subdivision or taxing authority thereof or therein) or the jurisdiction of residence or incorporation of any successor corporation (other than the United States), will not be less than the amount provided for in the Securities to be then due and payable.

PS-33

USE OF PROCEEDS

The net proceeds we receive from the sale of the Securities will be used for general corporate purposes and, in part, by us or one or more of our affiliates in connection with hedging our obligations under the Securities. The issue price of the Securities includes the selling agents' commissions (as shown on the cover page of the accompanying Prospectus Supplement) paid with respect to the Securities and the cost of hedging our obligations under the Securities. The cost of hedging includes the projected profit that our affiliates expect to realize in consideration for assuming the risks inherent in managing the hedging transactions. Since hedging our obligations entails risk and may be influenced by market forces beyond our or our affiliates' control, such hedging may result in a profit that is more or less than initially projected, or could result in a loss. See also "Risk Factors--The Inclusion of Commissions and Cost of Hedging in the Issue Price is Likely to Adversely Affect Secondary Market Prices" and "Potential Conflicts of Interest; No Security Interest in the Shares of the Underlying Index Held by Us" and "Plan of Distribution" in this Pricing Supplement and "Use of Proceeds" in the accompanying Prospectus.

TAXATION

The securities will be treated as "contingent payment debt instruments" for U.S. federal income tax purposes. Please read carefully the section entitled "United States Federal Income Taxation" and in particular the sub-section entitled "United States Federal Income Taxation - Contingent Payment Debt Instruments" in the accompanying Prospectus Supplement.

Solely for purposes of determining the amount of interest income that you will be required to accrue on the Securities, we have determined that the comparable yield on the Securities is []% compounded semi-annually and that the "projected payment schedule" for each Security consists of a projected amount due at maturity equal to \$[]. NEITHER THE COMPARABLE YIELD NOT THE PROJECTED PAYMENT SCHEDULE CONSTITUTES A REPRESENTATION BY US REGARDING THE ACTUAL AMOUNT, IF ANY, THAT THE SECURITIES WILL PAY.

PS-34

PLAN OF DISTRIBUTION

We have appointed ABN AMRO Incorporated ("AAI") as agent for this offering. AAI has agreed to use reasonable efforts to solicit offers to purchase the Securities. We will pay AAI, in connection with sales of the Securities resulting from a solicitation such agent made or an offer to purchase such agent received, a commission of 3.25% of the initial offering price of the Securities. AAI has informed us that, as part of its distribution of the Securities, it intends to reoffer the Securities to other dealers who will sell the Securities. Each such dealer engaged by AAI, or further engaged by a dealer to whom AAI reoffers the Securities, will purchase the Securities at an agreed discount to the initial offering price of the Securities. AAI has informed us that such discounts may vary from dealer to dealer and that not all dealers will purchase or repurchase the Securities at the same discount. You can find a general description of the commission rates payable to the agents under "Plan of Distribution" in the accompanying Prospectus Supplement.

AAI is a wholly owned subsidiary of the Bank. AAI will conduct this

Edgar Filing: ABN AMRO HOLDING N V - Form 424B2

offering in compliance with the requirements of NASD Rule 2720, regarding a Financial Industry Regulatory Authority, Inc. member firm's distributing the securities of an affiliate. The Financial Industry Regulatory Authority, Inc. (commonly referred to as FINRA) is the successor to the National Association of Securities Dealers, Inc. When the distribution of the Securities is complete, AAI may offer and sell those Securities in the course of its business as a broker-dealer. AAI may act as principal or agent in those transactions and will make any sales at prevailing secondary market prices at the time of sale. AAI may use this Pricing Supplement and the accompanying Prospectus and Prospectus Supplement in connection with any of those transactions. AAI is not obligated to make a market in the Securities and may discontinue any purchase and sale activities with respect to the Securities at any time without notice.

AAI or an affiliate of AAI will enter into one or more hedging transactions with us in connection with this offering of Securities. See "Use of Proceeds" above.

To the extent that the total aggregate principal amount of the Securities being offered by this Pricing Supplement is not purchased by investors in the offering, one or more of our affiliates has agreed to purchase the unsold portion, and to hold such Securities for investment purposes. See "Holding of the Securities by our Affiliates and Future Sales" under the heading "Risk Factors".

PROSPECTUS SUPPLEMENT
(TO PROSPECTUS DATED SEPTEMBER 29, 2006)

[ABN AMRO BANK N.V. GRAPHIC OMITTED]

US\$ 7,500,000,000 ABN NOTES (SM)

fully and unconditionally guaranteed by ABN AMRO Holding N.V.

We, ABN AMRO Bank N.V., may offer from time to time senior notes. The specific terms of any notes that we offer will be included in a pricing supplement. The notes will have the following general terms:

- o The notes will bear interest at either a fixed rate or a floating rate that varies during the lifetime of the relevant notes, which, in either case, may be zero. Floating rates will be based on rates or indices specified in the applicable pricing supplement.
- o The notes will pay interest, if any, on the dates stated in the applicable pricing supplement.
- o The notes will be fully and unconditionally guaranteed by ABN AMRO Holding N.V.
- o The notes will be held in global form by The Depository Trust Company, unless the pricing supplement provides otherwise.

The pricing supplement may also specify that the notes will have additional terms, including the following:

Edgar Filing: ABN AMRO HOLDING N V - Form 424B2

- o The notes may be optionally or mandatorily exchangeable for securities of an entity that is not affiliated with us, for a basket or index of those securities, or for the cash value of those securities.
- o Payments on the notes may be linked to currency prices, commodity prices, securities of entities not affiliated with us, baskets of those securities or indices, or any combination of the above.
- o The notes may be either callable by us or puttable by you.

INVESTING IN THE NOTES INVOLVES RISKS. SEE "RISK FACTORS" BEGINNING ON PAGE S-2.

THESE SECURITIES ARE NOT INSURED BY THE FEDERAL DEPOSIT INSURANCE CORPORATION OR ANY OTHER FEDERAL AGENCY. THE SECURITIES AND EXCHANGE COMMISSION AND STATE SECURITIES REGULATORS HAVE NOT APPROVED OR DISAPPROVED THESE SECURITIES, OR DETERMINED IF THIS PROSPECTUS SUPPLEMENT OR THE ACCOMPANYING PROSPECTUS IS TRUTHFUL OR COMPLETE. ANY REPRESENTATION TO THE CONTRARY IS A CRIMINAL OFFENSE.

ABN AMRO Incorporated and LaSalle Financial Services, Inc. have agreed to use reasonable efforts to solicit offers to purchase these securities as our selling agents to the extent either or both are named in the applicable pricing supplement. Certain other selling agents to be named in the applicable pricing supplement may also be used to solicit such offers on a reasonable efforts basis. We refer to each selling agent individually as the "agent" and together as the "agents". The agents may also purchase these securities as principal at prices to be agreed upon at the time of sale. The agents may resell any securities they purchase as principal at prevailing market prices, or at other prices, as they determine.

ABN AMRO Incorporated and LaSalle Financial Services, Inc. may use this prospectus supplement and the accompanying prospectus in connection with offers and sales of the securities and related guarantees in market-making transactions.

ABOUT THIS PROSPECTUS SUPPLEMENT

We may offer from time to time the notes described in this prospectus supplement. We refer to the notes and related guarantees offered under this prospectus supplement as our ABN Notes(SM). We refer to the offering of the ABN Notes(SM) as our "ABN Notes(SM) program".

As used in this prospectus supplement, the "Bank", "we," "us" and "our" refer to ABN AMRO Bank N.V., "Holding" refers to ABN AMRO Holding N.V, "AAI" refers to ABN AMRO Incorporated, an affiliate of the Bank and "LFS" refers to LaSalle Financial Services, Inc., an affiliate of the Bank.

This prospectus supplement sets forth certain terms of the notes that the Bank may offer and supplements the prospectus that is attached to the back of this prospectus supplement. Each time the Bank offers notes, it will attach a pricing supplement to this prospectus supplement. THE PRICING SUPPLEMENT WILL CONTAIN THE SPECIFIC DESCRIPTION OF THE NOTES THE BANK IS OFFERING AND THE TERMS OF THE OFFERING AND IT MAY MODIFY OR REPLACE INFORMATION CONTAINED IN THIS PROSPECTUS SUPPLEMENT OR THE ACCOMPANYING PROSPECTUS.

It is important for you to read and consider all information contained in this prospectus supplement and the accompanying prospectus and pricing supplement in making your investment decision. You should also read and consider the information contained in the documents identified in "Where You Can Find Additional Information" in the accompanying prospectus.

YOU SHOULD RELY ONLY ON THE INFORMATION CONTAINED OR INCORPORATED BY REFERENCE IN THIS PROSPECTUS SUPPLEMENT, THE PROSPECTUS AND ANY PRICING SUPPLEMENT. WE HAVE NOT AUTHORIZED ANYONE ELSE TO PROVIDE YOU WITH DIFFERENT OR ADDITIONAL INFORMATION. WE ARE OFFERING TO SELL THESE SECURITIES AND SEEKING OFFERS TO BUY THESE SECURITIES ONLY IN JURISDICTIONS WHERE OFFERS AND SALES ARE PERMITTED.

THE NOTES MAY NOT BE OFFERED OR SOLD IN ANY JURISDICTION IN WHICH SUCH OFFER OR SALE WOULD BE UNLAWFUL. THE NOTES MAY ONLY BE OFFERED WITHIN THE EUROPEAN ECONOMIC AREA IN COMPLIANCE WITH THE EUROPEAN PROSPECTUS DIRECTIVE 2003/71/EC AND THE IMPLEMENTING MEASURES IN ANY MEMBER STATE. SEE "PLAN OF DISTRIBUTION - SELLING RESTRICTIONS" IN THE ACCOMPANYING PROSPECTUS.

The information set forth in this prospectus supplement is directed to prospective purchasers who are United States residents. We disclaim any responsibility to advise prospective purchasers who are residents of countries

Edgar Filing: ABN AMRO HOLDING N V - Form 424B2

other than the United States of any matters arising under foreign law that may affect the purchase of or holding of, or receipt of payments on, the notes. These persons should consult their own legal and financial advisors concerning these matters.

S-1

RISK FACTORS

YOUR INVESTMENT IN THE NOTES WILL INVOLVE A NUMBER OF RISKS. ADDITIONAL RISKS, INCLUDING SPECIFIC TAX RISKS, RELATING TO SPECIFIC TYPES OF NOTES WILL BE DESCRIBED IN THE APPLICABLE PRICING SUPPLEMENT. YOU SHOULD CONSIDER CAREFULLY THE FOLLOWING RISKS AND THE RISKS, IF ANY, SET FORTH IN THE APPLICABLE PRICING SUPPLEMENT, BEFORE YOU DECIDE THAT AN INVESTMENT IN THE NOTES IS SUITABLE FOR YOU. YOU SHOULD CONSULT YOUR OWN FINANCIAL AND LEGAL ADVISORS REGARDING THE RISKS AND SUITABILITY OF AN INVESTMENT IN THE NOTES.

IF YOUR NOTES ARE REDEEMABLE, THE BANK MAY CHOOSE TO REDEEM THEM WHEN PREVAILING INTEREST RATES ARE RELATIVELY LOW.

If your notes are redeemable, the Bank may choose to redeem your notes when prevailing interest rates are low and you may not be able to reinvest the redemption proceeds in a comparable security at an effective interest rate as high as the interest rate on the notes being redeemed.

WE CANNOT ASSURE YOU THAT A TRADING MARKET FOR YOUR NOTES WILL EVER DEVELOP OR BE MAINTAINED OR THAT A TRADE CAN BE EXECUTED AT ANY INDICATIVE PRICE SHOWN ON ANY WEBSITE OR BLOOMBERG.

We cannot assure you that a trading market for your notes will ever develop or be maintained. Many factors independent of our creditworthiness affect the trading market and market value of your notes. These factors include, among others:

- o whether we list the notes on a securities exchange;
- o whether we or any other dealer makes a market in the notes;
- o the method of calculating the principal and interest for the notes;
- o the time remaining to the maturity of the notes; o the outstanding amount of the notes;
- o the redemption features of the notes; and
- o the level, direction and volatility of interest rates, generally.

There may be a limited number of buyers when you decide to sell your notes, which may affect the price you receive for your notes or your ability to sell your notes at all.

In connection with any secondary market activity in our notes, our affiliates may post indicative prices for the notes on a designated website or via Bloomberg. However, our affiliates are not required to post such indicative prices and may stop doing so at any time. Investors are advised that any prices shown on any website or Bloomberg page are indicative prices only and, as such, there can be no assurance that any trade could be executed at such prices. Investors should contact their brokerage firm for further information.

Edgar Filing: ABN AMRO HOLDING N V - Form 424B2

IF THE NOTES YOU PURCHASE ARE FLOATING RATE NOTES, YOU MAY RECEIVE A LESSER AMOUNT OF INTEREST IN THE FUTURE.

Because the interest rate on floating rate notes will be indexed to an external interest rate or index that may vary from time to time, there will be significant risks not associated with a conventional fixed rate debt security. These risks include fluctuation of the applicable interest rate and the possibility that, in the future, the interest rate on your note will decrease and may be zero, subject to any minimum interest rate specified in the applicable pricing supplement. We have no control over a number of matters that may affect interest rates, including economic, financial and political events that are important in determining the existence, magnitude and longevity of these risks and their results.

IF THE FLOATING RATE NOTES YOU PURCHASE ARE SUBJECT TO A MAXIMUM INTEREST RATE, YOUR RETURN WILL BE LIMITED.

If the applicable pricing supplement specifies that your floating rate notes are subject to a maximum interest rate, the rate of interest that will accrue on the floating rate notes during any interest reset period will never exceed the specified maximum interest rate.

S-2

THE INCLUSION OF COMMISSIONS AND COST OF HEDGING IN THE ISSUE PRICE IS LIKELY TO ADVERSELY AFFECT SECONDARY MARKET PRICES.

Assuming no change in market conditions or any other relevant factors, the price, if any, at which the agents are willing to purchase notes in secondary market transactions will likely be lower than the issue price, since the issue price included, and secondary market prices are likely to exclude, commissions paid with respect to the notes, as well as the profit component included in the cost of hedging our obligations under the notes. In addition, any such prices may differ from values determined by pricing models used by the agents, as a result of dealer discounts, mark-ups or other transaction costs.

THERE ARE POTENTIAL CONFLICTS OF INTEREST BETWEEN YOU AND THE CALCULATION AGENT.

AAI, an affiliate of ours, will serve as the calculation agent with respect to the notes. In its role as calculation agent, AAI will exercise its judgment when performing its functions. Absent manifest error, all of its determinations in its role as calculation agent will be final and binding on you and us, without any liability on its or our part. You will not be entitled to any compensation from us or AAI for any loss suffered as a result of any of its determinations in its role as calculation agent. Since these determinations by AAI as calculation agent may affect the return on and/or market value of your notes, we and AAI may have a conflict of interest.

THE U.S. FEDERAL INCOME TAX TREATMENT OF CERTAIN INSTRUMENTS IS UNCERTAIN.

The U.S. federal income tax treatment of certain instruments we may issue is uncertain. Please read carefully the section entitled "United States Federal Taxation" in this Prospectus Supplement and any discussion regarding U.S. federal income taxation contained in the applicable pricing supplement. You should consult your own tax adviser about an investment in any of our notes in light of your particular tax situation.

DESCRIPTION OF NOTES

Investors should carefully read the general terms and provisions of our debt securities in "Description of Debt Securities" in the accompanying prospectus. This section supplements that description. THE PRICING SUPPLEMENT WILL ADD SPECIFIC TERMS FOR EACH ISSUANCE OF NOTES AND MAY MODIFY OR REPLACE ANY OF THE INFORMATION IN THIS SECTION AND IN "DESCRIPTION OF DEBT SECURITIES" IN THE ACCOMPANYING PROSPECTUS.

GENERAL TERMS OF NOTES

We may issue notes under an indenture dated September 15, 2006, among us, Wilmington Trust Company, as trustee, Citibank, N.A., as securities administrator and Holding, as guarantor, which we refer to as the "Indenture." The notes issued under the Indenture will constitute a single series under the Indenture, together with any notes that we issue in the future under the Indenture that we designate as being part of that series.

OUTSTANDING INDEBTEDNESS OF THE BANK. The Indenture does not limit the amount of additional indebtedness that we may incur.

RANKING. Notes issued under the Indenture will constitute unsecured and unsubordinated obligations of the Bank and rank pari passu without any preference among them and with all other present and future unsecured and unsubordinated obligations of the Bank save for those preferred by mandatory provision of law.

TERMS SPECIFIED IN PRICING SUPPLEMENTS. A pricing supplement will specify the following terms of any issuance of our notes to the extent applicable:

- o the specific designation of the notes;
- o the issue price (price to public);
- o the aggregate principal amount;
- o the denominations or minimum denominations;
- o the original issue date;
- o the stated maturity date and any terms related to any extension of the maturity date;
- o whether the notes are fixed rate notes, floating rate notes or notes with original issue discount;
- o for fixed rate notes, the rate per year at which the notes will bear interest, if any, or the method of calculating that rate and the dates on which interest will be payable;
- o for floating rate notes, the base rate, the index maturity, the spread, the spread multiplier, the initial interest rate, the interest reset periods, the interest payment dates, the maximum interest rate, the minimum interest rate and any other terms relating to the particular method of calculating the interest rate for the note;
- o whether interest, if any, will be payable in cash or payable in kind;

Edgar Filing: ABN AMRO HOLDING N V - Form 424B2

- o whether the notes may be redeemed, in whole or in part, at our option or repaid at your option, prior to the stated maturity date, and the terms of any redemption or repayment;
- o whether the notes are currency-linked notes and/or notes linked to commodity prices, securities of entities not affiliated with us, any other financial, economic or other measures or instruments, including the occurrence or non-occurrence of any event or circumstance, and/or baskets or indices of any of these items, or any combination of the above;

S-4

- o the terms on which holders of the notes may convert or exchange them into or for stock or other securities of entities not affiliated with us, or for the cash value of any of these securities or for any other property, any specific terms relating to the adjustment of the conversion or exchange feature and the period during which the holders may effect the conversion or exchange;
- o whether the notes are renewable notes;
- o if any note is not denominated and payable in U.S. dollars, the currency or currencies in which the principal, premium, if any, and interest, if any, will be paid, which we refer to as the "specified currency," along with any other terms relating to the non-U.S. dollar denomination, including exchange rates as against the U.S. dollar at selected times during the last five years and any exchange controls affecting that specified currency;
- o whether and under what circumstances we will pay additional amounts on the notes for any tax, assessment or governmental charge withheld or deducted and, if so, whether we will have the option to redeem those debt securities rather than pay the additional amounts;
- o whether the notes will be listed on any stock exchange;
- o whether the notes will be issued in book-entry or certificated form;
- o if the notes are in book-entry form, whether the notes will be offered on a global basis to investors through Euroclear and Clearstream Banking, SOCIETE ANONYME as well as through the Depository (each as defined below); and
- o any other terms on which we will issue the notes.

SOME DEFINITIONS. We have defined some of the terms that we use frequently in this prospectus supplement below:

A "business day" means any day, other than a Saturday or Sunday, (a) that is neither a legal holiday nor a day on which banking institutions are authorized or required by law or regulation to close (x) for all notes, in The City of New York, (y) for notes denominated in a specified currency other than U.S. dollars, euro or Australian dollars, in the principal financial center of the country of the specified currency or (z) for notes denominated in Australian dollars, in Sydney; and (b) for notes denominated in euro, that is also a TARGET Settlement Day.

"Depository" means The Depository Trust Company, New York, New York.

Edgar Filing: ABN AMRO HOLDING N V - Form 424B2

"Euro LIBOR notes" means LIBOR notes for which the index currency is euros.

An "interest payment date" for any note means a date on which, under the terms of that note, regularly scheduled interest is payable.

"London banking day" means any day on which dealings in deposits in the relevant index currency are transacted in the London interbank market.

The "record date" for any interest payment date is the date 15 calendar days prior to that interest payment date, whether or not that date is a business day, unless another date is specified in the applicable pricing supplement.

"TARGET Settlement Day" means any day on which the Trans-European Automated Real-time Gross Settlement Express Transfer System ("TARGET") is open.

References in this prospectus supplement to "U.S. dollar," or "U.S.\$" or "\$" are to the currency of the United States of America.

S-5

GUARANTEE

Holding will fully and unconditionally guarantee payment in full to the holders of the notes issued by the Bank under the Indenture after the date hereof. The guarantee is set forth in, and forms a part of, the Indenture under which the notes will be issued. If, for any reason, the Bank does not make any required payment in respect of the notes when due, Holding as the guarantor thereof will cause the payment to be made to or to the order of the trustee. The holder of the guaranteed note may sue the guarantor to enforce its rights under the guarantee without first suing the Bank or any other person or entity. The guarantees will constitute Holding's unsecured and unsubordinated obligations and rank pari passu without any preference among them and with all Holding's other present and future unsecured and unsubordinated obligations.

FORMS OF NOTES

We will offer the notes on a continuing basis and will issue notes only in fully registered form either as registered global notes or as certificated notes. References to "holders" mean those who own notes registered in their own names, on the books that we or the trustee maintain for this purpose, and not those who own beneficial interests in notes registered in street name or in notes issued in book-entry form through one or more depositaries.

REGISTERED GLOBAL NOTES. For registered global notes, we will issue one or more global certificates representing the entire issue of notes. Except as set forth in the accompanying prospectus under "Forms of Securities -- Global Securities," you may not exchange registered global notes or interests in registered global notes for certificated notes.

Each global note certificate representing registered global notes will be deposited with, or on behalf of, the Depositary and registered in the name of a nominee of the Depositary. These certificates name the Depositary or its nominee as the owner of the notes. The Depositary maintains a computerized system that will reflect the interests held by its participants in the global notes. An investor's beneficial interest will be reflected in the records of the Depositary's direct or indirect participants through an account maintained by the investor with its broker/dealer, bank, trust company or other representative. A further description of the Depositary's procedures for global

Edgar Filing: ABN AMRO HOLDING N V - Form 424B2

notes representing book-entry notes is set forth under "Forms of Securities -- The Depositary" in the accompanying prospectus. The Depositary has confirmed to us, AAI, LFS and the trustee that it intends to follow these procedures.

CERTIFICATED NOTES. If we issue notes in certificated form, the certificate will name the investor or the investor's nominee as the owner of the note. The person named in the note register will be considered the owner of the note for all purposes under the Indenture. For example, if we need to ask the holders of the notes to vote on a proposed amendment to the notes, the person named in the note register will be asked to cast any vote regarding that note. If you have chosen to have some other entity hold the certificates for you, that entity will be considered the owner of your note in our records and will be entitled to cast the vote regarding your note. You may not exchange certificated notes for registered global notes or interests in registered global notes.

DENOMINATIONS. Unless otherwise specified in the pricing supplement, we will issue the notes:

- o for U.S. dollar-denominated notes, in denominations of \$100 or any amount greater than \$100 that is an integral multiple of \$100; or
- o for notes denominated in a specified currency other than U.S. dollars, in denominations of the equivalent of \$100, rounded to an integral multiple of 100 units of the specified currency, or any larger integral multiple of 100 units of the specified currency, as determined by reference to the market exchange rate, as defined under "-- Interest and Principal Payments -- Unavailability of Foreign Currency" below, on the business day immediately preceding the date of issuance.

INTEREST AND PRINCIPAL PAYMENTS

PAYMENTS, EXCHANGES AND TRANSFERS. Holders may present notes for payment of principal, premium, if any, and interest, if any, register the transfer of the notes, and exchange the notes at Citibank, N.A, the securities administrator under the Indenture, at 111 Wall Street, 15th Floor, New York, New York 10043, Attention: Agency

S-6

and Trust Group, as our current agent for the payment, transfer and exchange of the notes. We refer to Citibank, acting in this capacity, as the paying agent. However, holders of global notes may transfer and exchange global notes only in the manner and to the extent set forth under "Forms of Securities -- Global Securities" in the accompanying prospectus.

We will not be required to:

- o register the transfer or exchange of any note if the holder has exercised the holder's right, if any, to require us to repurchase the note, in whole or in part, except the portion of the note not required to be repurchased;
- o register the transfer or exchange of notes to be redeemed for a period of fifteen calendar days preceding the mailing of the relevant notice of redemption; or
- o register the transfer or exchange of any note selected for redemption in whole or in part, except the unredeemed or unpaid portion of that note being redeemed in part.

Edgar Filing: ABN AMRO HOLDING N V - Form 424B2

No service charge will be made for any registration or transfer or exchange of notes, but we may require payment of a sum sufficient to cover any tax or other governmental charge payable in connection with the registration of transfer or exchange of notes.

Although we anticipate making payments of principal, premium, if any, and interest, if any, on most notes in U.S. dollars, some notes may be payable in foreign currencies as specified in the applicable pricing supplement. Currently, few facilities exist in the United States to convert U.S. dollars into foreign currencies and vice versa. In addition, most U.S. banks do not offer non-U.S. dollar denominated checking or savings account facilities. Accordingly, unless alternative arrangements are made, we will pay principal, premium, if any, and interest, if any, on notes that are payable in a foreign currency to an account at a bank outside the United States, which, in the case of a note payable in euro, will be made by credit or transfer to a euro account specified by the payee in a country for which the euro is the lawful currency.

RECIPIENTS OF PAYMENTS. The paying agent will pay interest to the person in whose name the note is registered at the close of business on the applicable record date. However, upon maturity, redemption or repayment, the paying agent will pay any interest due to the person to whom it pays the principal of the note. The paying agent will make the payment of interest on the date of maturity, redemption or repayment, whether or not that date is an interest payment date. The paying agent will make the initial interest payment on a note on the first interest payment date falling after the date of issuance, unless the date of issuance is less than 15 calendar days before an interest payment date. In that case, the paying agent will pay interest on the next succeeding interest payment date to the holder of record on the record date corresponding to the succeeding interest payment date.

BOOK-ENTRY NOTES. The paying agent will make payments of principal, premium, if any, and interest, if any, to the account of the Depository, as holder of book-entry notes, by wire transfer of immediately available funds. We expect that the Depository, upon receipt of any payment, will immediately credit its participants' accounts in amounts proportionate to their respective beneficial interests in the book-entry notes as shown on the records of the Depository. We also expect that payments by the Depository's participants to owners of beneficial interests in the book-entry notes will be governed by standing customer instructions and customary practices and will be the responsibility of those participants.

CERTIFICATED NOTES. Except as indicated below, for payments of interest at maturity, redemption or repayment, the paying agent will make U.S. dollar payments of interest either:

- o by check mailed to the address of the person entitled to payment as shown on the note register; or
- o by wire transfer of immediately available funds, if the holder has provided wire transfer instructions to the paying agent not later than 15 calendar days prior to the applicable interest payment date.

U.S. dollar payments of principal, premium, if any, and interest, if any, upon maturity, redemption or repayment on a note will be made in immediately available funds against presentation and surrender of the note.

Edgar Filing: ABN AMRO HOLDING N V - Form 424B2

PAYMENT PROCEDURES FOR BOOK-ENTRY NOTES DENOMINATED IN A FOREIGN CURRENCY. Book-entry notes payable in a specified currency other than U.S. dollars will provide that a beneficial owner of interests in those notes may elect to receive all or a portion of the payments of principal, premium, if any, or interest, if any, in U.S. dollars. In those cases, the Depository will elect to receive all payments with respect to the beneficial owner's interest in the notes in U.S. Dollars, unless the beneficial owner takes the following steps:

- o The beneficial owner must give complete instructions to the direct or indirect participant through which it holds the book-entry notes of its election to receive those payments in the specified currency other than U.S. dollars by wire transfer to an account specified by the beneficial owner with a bank located outside the United States. In the case of a note payable in euro, the account must be a euro account in a country for which the euro is the lawful currency.
- o The participant must notify the Depository of the beneficial owner's election on or prior to the third business day after the applicable record date, for payments of interest, and on or prior to the twelfth business day prior to the maturity date or any redemption or repayment date, for payment of principal or premium.
- o The Depository must have notified the paying agent of the beneficial owner's election on or prior to the fifth business day after the applicable record date, for payments of interest, and on or prior to the tenth business day prior to the maturity date or any redemption or repayment date, for payment of principal or premium.

Beneficial owners should consult their participants in order to ascertain the deadline for giving instructions to participants in order to ensure that timely notice will be delivered to the Depository.

PAYMENT PROCEDURES FOR CERTIFICATED NOTES DENOMINATED IN A FOREIGN CURRENCY. For certificated notes payable in a specified currency other than U.S. dollars, the notes may provide that the holder may elect to receive all or a portion of the payments on those notes in U.S. dollars. To do so, the holder must send a written request to the paying agent:

- o for payments of interest, on or prior to the fifth business day after the applicable record date; or
- o for payments of principal, at least ten business days prior to the maturity date or any redemption or repayment date.

To revoke this election for all or a portion of the payments on the certificated notes, the holder must send written notice to the paying agent:

- o at least five business days prior to the applicable record date, for payment of interest; or
- o at least ten business days prior to the maturity date or any redemption or repayment date, for payments of principal.

If the holder elects to be paid in a currency other than U.S. dollars, the paying agent will pay the principal, premium, if any, or interest, if any, on the certificated notes:

- o by wire transfer of immediately available funds in the specified currency to the holder's account at a bank located outside the United States, and in the case of a note payable in euro, in a country for which the euro is the lawful currency, if the paying agent has received the holder's written wire transfer instructions not less than 15

Edgar Filing: ABN AMRO HOLDING N V - Form 424B2

calendar days prior to the applicable payment date; or

- o by check payable in the specified currency mailed to the address of the person entitled to payment that is specified in the note register, if the holder has not provided wire instructions.

However, the paying agent will pay only the principal of the certificated notes, any premium and interest, if any, due at maturity, or on any redemption or repayment date, upon surrender of the certificated notes at the office or agency of the paying agent.

S-8

DETERMINATION OF EXCHANGE RATE FOR PAYMENTS IN U.S. DOLLARS FOR NOTES DENOMINATED IN A FOREIGN CURRENCY. The exchange rate agent identified in the relevant pricing supplement will convert the specified currency into U.S. dollars for holders who elect to receive payments in U.S. dollars and for beneficial owners of book-entry notes that do not follow the procedures we have described immediately above. The conversion will be based on the highest bid quotation in The City of New York received by the exchange rate agent at approximately 11:00 a.m., New York City time, on the second business day preceding the applicable payment date from three recognized foreign exchange dealers for the purchase by the quoting dealer:

- o of the specified currency for U.S. dollars for settlement on the payment date;
- o in the aggregate amount of the specified currency payable to those holders or beneficial owners of notes; and
- o at which the applicable dealer commits to execute a contract.

One of the dealers providing quotations may be the exchange rate agent unless the exchange rate agent is an affiliate of the Bank. If those bid quotations are not available, payments will be made in the specified currency. The holders or beneficial owners of notes will pay all currency exchange costs by deductions from the amounts payable on the notes.

UNAVAILABILITY OF FOREIGN CURRENCY. The relevant specified currency may not be available to us or Holding, as the case may be, for making payments of principal of, premium on, if any, or interest, if any, on any note. This could occur due to the imposition of exchange controls or other circumstances beyond our control or if the specified currency is no longer used by the government of the country issuing that currency or by public institutions within the international banking community for the settlement of transactions. If the specified currency is unavailable, we may satisfy our obligations to holders of the notes by making those payments on the date of payment in U.S. dollars on the basis of the noon dollar buying rate in The City of New York for cable transfers of the currency or currencies in which a payment on any note was to be made, published by the Federal Reserve Bank of New York, which we refer to as the "market exchange rate." If that rate of exchange is not then available or is not published for a particular payment currency, the market exchange rate will be based on the highest bid quotation in The City of New York received by the exchange rate agent at approximately 11:00 a.m., New York City time, on the second business day preceding the applicable payment date from three recognized foreign exchange dealers for the purchase by the quoting dealer:

- o of the specified currency for U.S. dollars for settlement on the payment date;

Edgar Filing: ABN AMRO HOLDING N V - Form 424B2

- o in the aggregate amount of the specified currency payable to those holders or beneficial owners of notes; and
- o at which the applicable dealer commits to execute a contract.

One of the dealers providing quotations may be the exchange rate agent unless the exchange rate agent is our affiliate. If those bid quotations are not available, the exchange rate agent will determine the market exchange rate at its sole discretion.

These provisions do not apply if a specified currency is unavailable because it has been replaced by the euro. If the euro has been substituted for a specified currency, we may at our option, or will, if required by applicable law, without the consent of the holders of the affected notes, pay the principal of, premium on, if any, or interest, if any, on any note denominated in the specified currency in euro instead of the specified currency, in conformity with legally applicable measures taken pursuant to, or by virtue of, the treaty establishing the European Community, as amended by the treaty on European Union. Any payment made in U.S. dollars or in euro as described above where the required payment is in an unavailable specified currency will not constitute an event of default.

DISCOUNT NOTES. Some notes may be issued at a price which represents a discount to their principal amount. We refer to these notes as "discount notes." Such discount may be required to be included in income for U.S. federal income tax purposes, as described under "United States Federal Taxation -- Original Issue Discount." In the event of a redemption or repayment of any discount note or if any discount note is declared to be due and payable

S-9

immediately as described under "Description of Debt Securities -- Events of Default" in the accompanying prospectus, the amount of principal due and payable on that note will be limited to:

- o the aggregate principal amount of the note MULTIPLIED BY the sum of
- o its issue price, expressed as a percentage of the aggregate principal amount, PLUS
- o the original issue discount accrued from the date of issue to the date of redemption, repayment or declaration, expressed as a percentage of the aggregate principal amount.

Solely for purposes of determining the amount of original issue discount that has accrued under the above formula as of any date on which a redemption, repayment or acceleration of maturity occurs for a discount note, original issue discount will be accrued using a constant yield method. The constant yield will be calculated using a 30-day month, 360-day year convention, a compounding period that, except for the initial period (as defined below), corresponds to the shortest period between interest payment dates for the applicable discount note (with ratable accruals within a compounding period), and an assumption that the maturity of a discount note will not be accelerated. If the period from the date of issue to the first interest payment date for a discount note, which we refer to as the "initial period", is shorter than the compounding period for the discount note, a proportionate amount of the yield for an entire compounding period will be accrued. If the initial period is longer than the compounding period, then the period will be divided into a regular compounding period and a

Edgar Filing: ABN AMRO HOLDING N V - Form 424B2

short period with the short period being treated as provided in the preceding sentence.

The accrual of the applicable original issue discount described above is solely for purposes of determining the amounts payable upon redemption, repayment or acceleration of maturity. That amount of accrued original issue discount may differ from the accrual of original issue discount for purposes of the Internal Revenue Code of 1986, as amended (the "Code"). Certain discount notes may not be treated as having original issue discount within the meaning of the Code, and notes other than discount notes may be treated as issued with original issue discount for federal income tax purposes. See "United States Federal Taxation--Original Issue Discount" below. See also the applicable pricing supplement for any special considerations applicable to these notes.

FIXED RATE NOTES

Each fixed rate note will bear interest from the date of issuance at the annual rate stated on its face until the principal is paid or made available for payment.

HOW INTEREST IS CALCULATED. Interest on fixed rate notes will be computed on the basis of a 360-day year of twelve 30-day months.

HOW INTEREST ACCRUES. Interest on fixed rate notes will accrue from and including the most recent interest payment date to which interest has been paid or duly provided for, or, if no interest has been paid or duly provided for, from and including the issue date or any other date specified in a pricing supplement on which interest begins to accrue. Interest will accrue to but excluding the next interest payment date, or, if earlier, the date on which the principal has been paid or duly made available for payment, except as described below under "If a Payment Date Is not a Business Day."

WHEN INTEREST IS PAID. Payments of interest on fixed rate notes will be made on the interest payment dates specified in the applicable pricing supplement. However, if the first interest payment date is less than 15 days after the date of issuance, interest will not be paid on the first interest payment date, but will be paid on the second interest payment date.

AMOUNT OF INTEREST PAYABLE. Interest payments for fixed rate notes will include accrued interest from and including the date of issue or from and including the last date in respect of which interest has been paid, as the case may be, to but excluding the relevant interest payment date or date of maturity or earlier redemption or repayment, as the case may be.

S-10

IF A PAYMENT DATE IS NOT A BUSINESS DAY. If any scheduled interest payment date is not a business day, we will pay interest on the next business day, but interest on that payment will not accrue during the period from and after the scheduled interest payment date. If the scheduled maturity date or date of redemption or repayment is not a business day, we may pay interest and principal and premium, if any, on the next succeeding business day, but interest on that payment will not accrue during the period from and after the scheduled maturity date or date of redemption or repayment.

FLOATING RATE NOTES

Unless otherwise specified in the applicable pricing supplement, each floating rate note will bear interest at a floating rate determined by reference

Edgar Filing: ABN AMRO HOLDING N V - Form 424B2

to an interest rate or interest rate formula, which we refer to as the "base rate." The base rate may be one or more of the following:

- o the CD rate,
- o the commercial paper rate,
- o EURIBOR,
- o the federal funds rate,
- o LIBOR,
- o the prime rate,
- o the Treasury rate,
- o the CPI, or
- o any other rate or interest rate formula specified in the applicable pricing supplement.

FORMULA FOR INTEREST RATES. The interest rate on each floating rate note will be calculated by reference to:

- o the specified base rate based on the index maturity,
- o plus or minus the spread, if any, and/or
- o multiplied by the spread multiplier, if any.

For any floating rate note, "index maturity" means the period of maturity of the instrument or obligation from which the base rate is calculated and will be specified in the applicable pricing supplement. The "spread" is the number of basis points (one one-hundredth of a percentage point) specified in the applicable pricing supplement to be added to or subtracted from the base rate for a floating rate note. The "spread multiplier" is the percentage specified in the applicable pricing supplement to be applied to the base rate for a floating rate note.

LIMITATIONS ON INTEREST RATE. A floating rate note may also have either or both of the following limitations on the interest rate:

- o a maximum limitation, or ceiling, on the rate of interest which may accrue during any interest period, which we refer to as the "maximum interest rate";
- o a minimum limitation, or floor, on the rate of interest that may accrue during any interest period, which we refer to as the "minimum interest rate."

Any applicable maximum interest rate or minimum interest rate will be set forth in the applicable pricing supplement.

S-11

In addition, the interest rate on a floating rate note may not be higher than the maximum rate permitted by New York law, as that rate may be modified by United States law of general application. Under current New York law, the

Edgar Filing: ABN AMRO HOLDING N V - Form 424B2

maximum rate of interest, subject to some exceptions, for any loan in an amount less than \$250,000 is 16% and for any loan in the amount of \$250,000 or more but less than \$2,500,000 is 25% per annum on a simple interest basis. These limits do not apply to loans of \$2,500,000 or more.

HOW FLOATING INTEREST RATES ARE RESET. The interest rate in effect from the date of issue to the first interest reset date for a floating rate note will be the initial interest rate specified in the applicable pricing supplement. We refer to this rate as the "initial interest rate." The interest rate on each floating rate note may be reset daily, weekly, monthly, quarterly, semiannually or annually. This period is the "interest reset period" and the first day of each interest reset period is the "interest reset date." The "interest determination date" for any interest reset date is the day the calculation agent identified in the applicable pricing supplement will refer to when determining the new interest rate at which a floating rate will reset, and is applicable as follows (unless otherwise specified in the applicable pricing supplement):

- o for CD rate notes, commercial paper rate notes, federal funds rate notes, prime rate notes and CMT rate notes, the interest determination date will be the second business day prior to the interest reset date;
- o for EURIBOR notes or Euro LIBOR notes, the interest determination date will be the second TARGET Settlement Day, as defined above under "-- General Terms of Notes -- Some Definitions," prior to the interest reset date;
- o for LIBOR notes (other than Euro LIBOR notes), the interest determination date will be the second London banking day prior to the interest reset date, except that the interest determination date pertaining to an interest reset date for a LIBOR note for which the index currency is pounds sterling will be the interest reset date; and
- o for Treasury rate notes, the interest determination date will be the day of the week in which the interest reset date falls on which Treasury bills would normally be auctioned.

Treasury bills are normally sold at auction on Monday of each week, unless that day is a legal holiday, in which case the auction is normally held on the following Tuesday, but the auction may be held on the preceding Friday. If, as the result of a legal holiday, the auction is held on the preceding Friday, that Friday will be the interest determination date pertaining to the interest reset date occurring in the next succeeding week. If an auction falls on a day that is an interest reset date, that interest reset date will be the next following business day.

The interest reset dates will be specified in the applicable pricing supplement. If an interest reset date for any floating rate note falls on a day that is not a business day, it will be postponed to the following business day, except that, in the case of a EURIBOR note or a LIBOR note, if that business day is in the next calendar month, the interest reset date will be the immediately preceding business day.

The interest rate in effect for the ten calendar days immediately prior to maturity, redemption or repayment will be the one in effect on the tenth calendar day preceding the maturity, redemption or repayment date.

In the detailed descriptions of the various base rates which follow, the "calculation date" pertaining to an interest determination date means the earlier of (1) the tenth calendar day after that interest determination date, or, if that day is not a business day, the next succeeding business day, and (2) the business day preceding the applicable interest payment date or maturity date or, for any principal amount to be redeemed or repaid, any redemption or

Edgar Filing: ABN AMRO HOLDING N V - Form 424B2

repayment date.

HOW INTEREST IS CALCULATED. Interest on floating rate notes will accrue from and including the most recent interest payment date to which interest has been paid or duly provided for, or, if no interest has been paid or duly provided for, from and including the issue date or any other date specified in a pricing supplement on which interest begins to accrue. Interest will accrue to but excluding the next interest payment date or, if earlier, the date on which the

S-12

principal has been paid or duly made available for payment, except as described below under "If a Payment Date is Not a Business Day."

The applicable pricing supplement will specify a calculation agent for any issue of floating rate notes. Upon the request of the holder of any floating rate note, the calculation agent will provide the interest rate then in effect and, if determined, the interest rate that will become effective on the next interest reset date for that floating rate note.

Unless otherwise specified in the applicable pricing supplement, for a floating rate note, accrued interest will be calculated by multiplying the principal amount of the floating rate note by an accrued interest factor. This accrued interest factor will be computed by adding the interest factors calculated for each day in the period for which interest is being paid. The interest factor for each day is computed by DIVIDING the interest rate applicable to that day:

- o by 360, in the case of CD rate notes, commercial paper rate notes, EURIBOR notes, federal funds rate notes, LIBOR notes (except for LIBOR notes denominated in pounds sterling) and prime rate notes;
- o by 365, in the case of LIBOR notes denominated in pounds sterling; or
- o by the actual number of days in the year, in the case of Treasury rate notes and CMT rate notes.

For these calculations, the interest rate in effect on any interest reset date will be the applicable rate as reset on that date. The interest rate applicable to any other day is the interest rate from the immediately preceding interest reset date or, if none, the initial interest rate.

All percentages used in or resulting from any calculation of the rate of interest on a floating rate note will be rounded, if necessary, to the nearest one hundred-thousandth of a percentage point (with 0.000005% rounded up to 0.00001%), and all U.S. dollar amounts used in or resulting from these calculations on floating rate notes will be rounded to the nearest cent (with one-half cent rounded upward). All Japanese Yen amounts used in or resulting from these calculations will be rounded downwards to the next lower whole Japanese Yen amount. All amounts denominated in any other currency used in or resulting from these calculations will be rounded to the nearest two decimal places in that currency with 0.005 being rounded upward.

WHEN INTEREST IS PAID. We will pay interest on floating rate notes on the interest payment dates specified in the applicable pricing supplement. However, if the first interest payment date is less than 15 days after the date of issuance, interest will not be paid on the first interest payment date, but will be paid on the second interest payment date.

Edgar Filing: ABN AMRO HOLDING N V - Form 424B2

IF A PAYMENT DATE IS NOT A BUSINESS DAY. If any scheduled interest payment date, other than the maturity date or any earlier redemption or repayment date, for any floating rate note falls on a day that is not a business day, it will be postponed to the following business day, except that, in the case of a EURIBOR note or a LIBOR note, if that business day would fall in the next calendar month, the interest payment date will be the immediately preceding business day. If the scheduled maturity date or any earlier redemption or repayment date of a floating rate note falls on a day that is not a business day, the payment of principal, premium, if any, and interest, if any, will be made on the next succeeding business day, but interest on that payment will not accrue during the period from and after the maturity, redemption or repayment date.

BASE RATE NOTES

CD RATE NOTES

CD rate notes will bear interest at the interest rates specified in the applicable pricing supplement. Those interest rates will be based on the CD rate and any spread and/or spread multiplier and will be subject to the minimum interest rate and the maximum interest rate, if any.

Unless otherwise specified in the applicable pricing supplement, the "CD rate" means, for any interest determination date, the rate on that date for negotiable certificates of deposit having the index maturity specified in the applicable pricing supplement as published by the Board of Governors of the Federal Reserve System in

S-13

"Statistical Release H.15(519), Selected Interest Rates," or any successor publication of the Board of Governors of the Federal Reserve System ("H.15(519)") under the heading "CDs (Secondary Market)."

The following procedures will be followed if the CD rate cannot be determined as described above:

- o If the above rate is not published in H.15(519) by 9:00 a.m., New York City time, on the calculation date, the CD rate will be the rate on that interest determination date set forth in the daily update of H.15(519), available through the world wide website of the Board of Governors of the Federal Reserve System at <http://www.federalreserve.gov/releases/h15/update>, or any successor site or publication, which is commonly referred to as the "H.15 Daily Update," for the interest determination date for certificates of deposit having the index maturity specified in the applicable pricing supplement, under the caption "CDs (Secondary Market)."
- o If the above rate is not yet published in either H.15(519) or the H.15 Daily Update by 3:00 p.m., New York City time, on the calculation date, the calculation agent will determine the CD rate to be the arithmetic mean of the secondary market offered rates as of 10:00 a.m., New York City time, on that interest determination date of three leading nonbank dealers in negotiable U.S. dollar certificates of deposit in The City of New York selected by the calculation agent, after consultation with us, for negotiable certificates of deposit of major United States money center banks of the highest credit standing in the market for negotiable certificates of deposit with a remaining maturity closest to the index maturity specified in the applicable pricing supplement in an amount that is representative for a single transaction in that market at that

Edgar Filing: ABN AMRO HOLDING N V - Form 424B2

time.

- o If the dealers selected by the calculation agent are not quoting as set forth above, the CD rate for that interest determination date will remain the CD rate for the immediately preceding interest reset period, or, if there was no interest reset period, the rate of interest payable will be the initial interest rate.

COMMERCIAL PAPER RATE NOTES

Commercial paper rate notes will bear interest at the interest rates specified in the applicable pricing supplement. Those interest rates will be based on the commercial paper rate and any spread and/or spread multiplier and will be subject to the minimum interest rate and the maximum interest rate, if any.

Unless otherwise specified in the applicable pricing supplement, the "commercial paper rate" means, for any interest determination date, the money market yield, calculated as described below, of the rate on that date for commercial paper having the index maturity specified in the applicable pricing supplement, as that rate is published in H.15(519), under the heading "Commercial Paper -- Nonfinancial."

The following procedures will be followed if the commercial paper rate cannot be determined as described above:

- o If the above rate is not published by 9:00 a.m., New York City time, on the calculation date, then the commercial paper rate will be the money market yield of the rate on that interest determination date for commercial paper of the index maturity specified in the applicable pricing supplement as published in the H.15 Daily Update under the heading "Commercial Paper -- Nonfinancial."
- o If by 3:00 p.m., New York City time, on that calculation date the rate is not yet published in either H.15(519) or the H.15 Daily Update, then the calculation agent will determine the commercial paper rate to be the money market yield of the arithmetic mean of the offered rates as of 11:00 a.m., New York City time, on that interest determination date of three leading dealers of commercial paper in The City of New York selected by the calculation agent, after consultation with us, for commercial paper of the index maturity specified in the applicable pricing supplement, placed for an industrial issuer whose bond rating is "AA," or the equivalent, from a nationally recognized statistical rating agency.
- o If the dealers selected by the calculation agent are not quoting as set forth above, the commercial paper rate for that interest determination date will remain the commercial paper rate for the immediately preceding

S-14

interest reset period, or, if there was no interest reset period, the rate of interest payable will be the initial interest rate.

The "money market yield" will be a yield calculated in accordance with the following formula:

$$\text{money market yield} = \frac{D \times 360}{\text{-----}} \times 100$$

where "D" refers to the applicable per year rate for commercial paper quoted on a bank discount basis and expressed as a decimal and "M" refers to the actual number of days in the interest period for which interest is being calculated.

EURIBOR NOTES

EURIBOR notes will bear interest at the interest rates specified in the applicable pricing supplement. That interest rate will be based on EURIBOR and any spread and/or spread multiplier and will be subject to the minimum interest rate and the maximum interest rate, if any.

Unless otherwise specified in the applicable pricing supplement, "EURIBOR" means, for any interest determination date, the rate for deposits in euros as sponsored, calculated and published jointly by the European Banking Federation and ACI -- The Financial Market Association, or any company established by the joint sponsors for purposes of compiling and publishing those rates, for the index maturity specified in the applicable pricing supplement as that rate appears on the display on Reuters, or any successor service, on page EURIBOR01 or any other page as may replace page EURIBOR01 on that service, which is commonly referred to as "Reuters Page EURIBOR01," as of 11:00 a.m. (Brussels time).

The following procedures will be followed if the rate cannot be determined as described above:

- o If the above rate does not appear, the calculation agent will request the principal Euro-zone office of each of four major banks in the Euro-zone interbank market, as selected by the calculation agent, after consultation with us, to provide the calculation agent with its offered rate for deposits in euros, at approximately 11:00 a.m. (Brussels time) on the interest determination date, to prime banks in the Euro-zone interbank market for the index maturity specified in the applicable pricing supplement commencing on the applicable interest reset date, and in a principal amount not less than the equivalent of U.S.\$1 million in euro that is representative of a single transaction in euro, in that market at that time. If at least two quotations are provided, EURIBOR will be the arithmetic mean of those quotations.
- o If fewer than two quotations are provided, EURIBOR will be the arithmetic mean of the rates quoted by four major banks in the Euro-zone, as selected by the calculation agent, after consultation with us, at approximately 11:00 a.m. (Brussels time), on the applicable interest reset date for loans in euro to leading European banks for a period of time equivalent to the index maturity specified in the applicable pricing supplement commencing on that interest reset date in a principal amount not less than the equivalent of U.S.\$1 million in euro.
- o If the banks so selected by the calculation agent are not quoting as set forth above, EURIBOR for that interest determination date will remain EURIBOR for the immediately preceding interest reset period, or, if there was no interest reset period, the rate of interest will be the initial interest rate.

"Euro-zone" means the region comprised of member states of the European Union that adopt the single currency in accordance with the treaty establishing the European Community, as amended by the treaty on European Union.

FEDERAL FUNDS RATE NOTES

Edgar Filing: ABN AMRO HOLDING N V - Form 424B2

Federal funds rate notes will bear interest at the interest rates specified in the applicable pricing supplement. Those interest rates will be based on the federal funds rate and any spread and/or spread multiplier and will be subject to the minimum interest rate and the maximum interest rate, if any.

S-15

Unless otherwise specified in the applicable pricing supplement, "federal funds rate" means, for any interest determination date, the rate on that date for federal funds as published in the Federal Reserve Statistical Release H.15(519) under the heading "Federal Funds (Effective)" as displayed on Reuters or any successor service, on page FEDFUNDS1 or any other page as may replace the applicable page on that service, which is commonly referred to as "Reuters Page FEDFUNDS1." For the avoidance of doubt, the federal funds rate for any interest determination date is the rate published for the immediately preceding business day.

The following procedures will be followed if the federal funds rate cannot be determined as described above:

- o If the above rate is not published by 9:00 a.m., New York City time, on the calculation date, the federal funds rate will be the rate on that interest determination date as published in the H.15 Daily Update under the heading "Federal Funds/Effective Rate."
- o If the above rate is not yet published in either H.15(519) or the H.15 Daily Update by 3:00 p.m., New York City time, on the calculation date, the calculation agent will determine the federal funds rate to be the arithmetic mean of the rates for the last transaction in overnight federal funds by each of three leading brokers of federal funds transactions in The City of New York selected by the calculation agent, after consultation with us, prior to 9:00 a.m., New York City time, on that interest determination date.
- o If the brokers selected by the calculation agent are not quoting as set forth above, the federal funds rate for that interest determination date will be the federal funds rate last in effect on the interest determination date.

LIBOR NOTES

LIBOR notes will bear interest at the interest rates specified in the applicable pricing supplement. That interest rate will be based on London interbank offered rate, which is commonly referred to as "LIBOR," and any spread and/or spread multiplier and will be subject to the minimum interest rate and the maximum interest rate, if any.

Unless otherwise specified in the applicable pricing supplement, the calculation agent will determine "LIBOR" for each interest determination date as follows:

- o As of the interest determination date, LIBOR will be either:
 - o if "LIBOR Reuters" is specified in the applicable pricing supplement, the arithmetic mean of the offered rates for deposits in the index currency having the index maturity designated in the applicable pricing supplement, as of that interest determination date, that appear on the Designated LIBOR Page, as defined below, as of 11:00

Edgar Filing: ABN AMRO HOLDING N V - Form 424B2

a.m., London time, on that interest determination date, if at least two offered rates appear on the Designated LIBOR Page; except that if the specified Designated LIBOR Page, by its terms provides only for a single rate, that single rate will be used; or

- o if "LIBOR Bloomberg" is specified in the applicable pricing supplement, the rate for deposits in the index currency having the index maturity designated in the applicable pricing supplement, as of that interest determination date or, if pounds sterling is the index currency, commencing on that interest determination date, that appears on the Designated LIBOR Page at approximately 11:00 a.m., London time, on that interest determination date.
- o If (1) fewer than two offered rates appear and "LIBOR Reuters" is specified in the applicable pricing supplement, or (2) no rate appears and the applicable pricing supplement specifies either (x) "LIBOR Bloomberg" or (y) "LIBOR Reuters" and the Designated LIBOR Page by its terms provides only for a single rate, then the calculation agent will request the principal London offices of each of four major reference banks in the London interbank market, as selected by the calculation agent after consultation with us, to provide the calculation agent with its offered quotation for deposits in the index currency for the period of the index maturity specified in the applicable pricing supplement as of that interest determination date or, if pounds sterling is the index currency, commencing on that interest determination date, to prime banks in the London interbank market at approximately 11:00 a.m., London time, on that interest determination date and

S-16

in a principal amount that is representative of a single transaction in that index currency in that market at that time.

- o If at least two quotations are provided, LIBOR determined on that interest determination date will be the arithmetic mean of those quotations. If fewer than two quotations are provided, LIBOR will be determined for the applicable interest reset date as the arithmetic mean of the rates quoted at approximately 11:00 a.m., London time, or some other time specified in the applicable pricing supplement, in the applicable principal financial center for the country of the index currency on that interest reset date, by three major banks in that principal financial center selected by the calculation agent, after consultation with us, for loans in the index currency to leading European banks, having the index maturity specified in the applicable pricing supplement and in a principal amount that is representative of a single transaction in that index currency in that market at that time.
- o If the banks so selected by the calculation agent are not quoting as set forth above, LIBOR for that interest determination date will remain LIBOR for the immediately preceding interest reset period, or, if there was no interest reset period, the rate of interest payable will be the initial interest rate.

The "index currency" means the currency specified in the applicable pricing supplement as the currency for which LIBOR will be calculated, or, if the euro is substituted for that currency, the index currency will be the euro. If that currency is not specified in the applicable pricing supplement, the index currency will be U.S. dollars.

Edgar Filing: ABN AMRO HOLDING N V - Form 424B2

"Designated LIBOR Page" means either (a) if "LIBOR Reuters" is designated in the applicable pricing supplement, the display on Reuters for the purpose of displaying the London interbank rates of major banks for the applicable index currency or its designated successor, or (b) if "LIBOR Bloomberg" is designated in the applicable pricing supplement, the display on Bloomberg or any successor service, page BBAM1
