NOTES TO SCHEDULE OF INVESTMENTS

(+) Investments in securities by Neuberger Berman California Intermediate Municipal Fund Inc. ("California"), Neuberger Berman Intermediate Municipal Fund Inc. ("Intermediate"), and Neuberger Berman New York Intermediate Municipal Fund Inc. ("New York") (each a "Fund", and collectively, the "Funds") are valued daily by obtaining bid price quotations from independent pricing services on all securities available in each service's data base. For all other securities, bid prices are obtained from principal market makers in those securities or, if quotations are not readily available, by methods each Fund's Board of Directors has approved on the belief that they reflect fair value. Numerous factors may be considered when determining the fair value of a security, including available analyst, media or other reports, trading in

Edgar Filing: NEUBERGER BERMAN NEW YORK INTERMEDIATE MUNICIPAL FUND INC - Form N-Q

futures or ADRs and whether the issuer of the security being fair valued has other securities outstanding. Short-term debt securities with less than 60 days until maturity may be valued at cost which, when combined with interest earned, approximates market value.

(##) At July 31, 2006, selected Fund information on a U.S. federal income tax basis was as follows:

(000'S OMITTED)		GROSS UNREALIZED	GROSS UNREALIZE	NET UNREALIZED
NEUBERGER BERMAN	COST	APPRECIATION	DEPRECIATION	APPRECIATION
CALIFORNIA	\$153,847	\$3,144	\$159	\$2,985
INTERMEDIATE	467,960	9,646	862	8,784
NEW YORK	125,692	2,044	418	1,626

(@) At time of investment, municipal securities purchased by each Fund are within the four highest rating categories (with respect to at least 80% of total assets) assigned by a nationally recognized statistical rating organization ("NRSRO") such as Moody's Investors Service, Inc., Standard & Poor's, or Fitch Investors Services, Inc. or, where not rated, are determined by the Fund's investment manager to be of comparable quality. Approximately 80%, 68%, and 57% of the municipal securities held by California, Intermediate, and New York, respectively, have credit enhancement features backing them, which the Funds may rely on, such as letters of credit, insurance, or guarantees. Without these credit enhancement features the securities may or may not meet the quality standards of the Funds. Pre-refunded bonds are supported by securities in escrow issued or guaranteed by the U.S. Government, its agencies, or instrumentalities. The amount escrowed is sufficient to pay the periodic interest due and the principal of these bonds. Puttable bonds give the Funds the right to sell back the issue on the date specified.

(B) Security is guaranteed by the corporate or non-profit obligor.

(n) Restricted security subject to restrictions on resale under federal securities laws. These securities may be resold in transactions exempt from registration, normally to qualified institutional buyers under Rule 144A, and have been deemed by the investment manager to be liquid. At July 31, 2006, these securities amounted to \$4,474,000 or 1.5% of net assets applicable to common shareholders for Intermediate.

(^^) Not rated by a NRSRO.

(u) Floating rate securities are securities whose yields vary with a designated market index or market rate. These securities are shown at their current rates as of July 31, 2006.

For more information on the Funds' significant accounting policies, please refer to the Funds' most recent semi-annual financial statements.
