

Item 1.01 Conflict Minerals Disclosure and Report

After performing the steps required by Rule 13p-1, BorgWarner Inc. ("BorgWarner" or the "Company") has no reason to believe that tin, tantalum, tungsten and/or gold ("3TG") necessary to the functionality or production of its products financed or benefited armed groups in the Democratic Republic of the Congo ("DRC") or an adjoining country that shares an internationally recognized border with the DRC (the "Conflict Region").

On November 10, 2015, BorgWarner completed the acquisition of Remy International Inc. ("Remy"), a Delaware corporation and formerly publicly traded company listed on NASDAQ. Remy was previously obligated to file a Form SD and report concerning its use of 3TG. The Company has incorporated a discussion of Remy's 2015 processes in the attached Conflict Minerals Report. Those processes covered the products of (i) Remy USA Industries, L.L.C., which acquired substantially all of the assets of United Starters and Alternators Industries, Inc. on January 13, 2014; and (ii) Maval Industries, L.L.C. ("Maval"), which acquired substantially all of the assets of Maval Manufacturing, Inc. on March 1, 2015. The initial reporting period on products manufactured by Maval will be 2016.
