Milan, February 16, 2007 At today's meeting chaired by Guido Rossi, the Telecom Italia Board of Directors approved and adopted the company's new organizational structure, drawn up on 22 January 2007, and based on four business divisions (Domestic Fixed Services, Domestic Mobile Services, Top Clients & ICT Services and Technology), as well as TIM Brasil and international and national wholesale activities, all of which report directly to Chief Executive Officer Riccardo Ruggiero. The new structure, which responds to a need for greater operational flexibility, in light of major technological changes and the current competitive environment in Italy and internationally, will facilitate implementation of the Group's strategic orientation toward the convergence of fixed-line communications, mobile communications, broadband internet and media content.

The new organizational structure was completed with the appointment of four Managing Directors: Massimo Castelli (Domestic Fixed Services), Luca Luciani (Domestic Mobile Services), Enrico Parazzini (Finance, Administration and Control), and Stefano Pileri (Technology).

The Board also approved the appointment of Damiano Toselli as Head of Security at the Group's Human Resources Unit, and Federico Maurizio d'Andrea as Head of the Audit Unit.

The Board of Directors went on to examine the Internal Control and Corporate Governance Committee's report on network security, traffic data and security issues, accepting its conclusions and welcoming the proposals put forward in the report. In pursuit of full disclosure to the Supervisory Authority and to the market, a copy of the report will be sent to market regulator Consob and published on the company web site www.telecomitalia.it.

The Board of Directors, having confirmed the strategic nature of subsidiary TIM Brasil, decided not to accept the offers for its acquisition which were received. The Board, in fact, was pleased to acknowledge TIM Brasil's great success, in a highly competitive market, and its technological excellence as well as the high quality of its services.

Cautionary Statement for Purposes of the "Safe Harbor" Provision of the United States Private Securities Litigation Reform Act of 1995.

The Private Securities Litigation Reform Act of 1995 provides a "safe harbor" for forward-looking statements. The Press Release included in this Form 6-K contains certain forward looking statements and forecasts reflecting management's current views with respect to certain future events. The ability of the Telecom Italia Group to achieve its projected results is dependent on many factors which are outside of management's control. Actual results may differ materially from those projected or implied in the forward-looking statements. Such forward-looking information involves risks and uncertainties that could significantly affect expected results and are based on certain key assumptions.

Edgar Filing: TELECOM ITALIA S P A - Form 6-K

The following important factors could cause the Telecom Italia Group's actual results to differ materially from those projected or implied in any forward-looking statements:

- the continuing impact of increased competition in a liberalized market, including competition from global and regional alliances formed by other telecommunications operators in the core domestic fixed-line and wireless markets of the Telecom Italia Group;

- the ability of the Telecom Italia Group to introduce new services to stimulate increased usage to its fixed and wireless networks to offset declines in its traditional fixed-line business due to the continuing impact of regulatory required price reductions, market share loss and pricing pressures generally and shifts in usage pattern;

- the level of demand for telecommunications services, particularly wireless telecommunication services in the maturing Italian market and for new higher value added products and services such as broadband;

- the ability of the Telecom Italia Group to successfully implement its reorganization;

- the success of Telecom Italia's customer loyalty and retention programs and the impact of such programs on revenues;

- the impact of regulatory decisions and changes in the regulatory environment, including implementation of recently adopted EU directives in Italy;

- the impact of economic development generally on the international business of the Telecom Italia Group and on its foreign investments and capital expenditures;

- the continuing impact of rapid or "disruptive" changes in technologies;

- the impact of political and economic developments in Italy and other countries in which the Telecom Italia Group operates;

- the impact of fluctuations in currency exchange and interest rates;

- Telecom Italia's ability to successfully implement its strategy over the 2006-2008 period;

- the ability of the Telecom Italia Group to successfully achieve its debt reduction targets;

- Telecom Italia's ability to successfully implement its internet and broadband strategy;

- the ability of the Telecom Italia Group to achieve the expected return on the significant investments and capital expenditures it has made and continues to make in Brazil and in Europe on broadband;

- the amount and timing of any future impairment charges for Telecom Italia's licences, goodwill or other assets; and

- the impact of litigation or decreased mobile communications usage arising from actual or perceived health risks or other problems relating to mobile handsets or transmission masts.

The foregoing factors should not be construed as exhaustive. Such factors

Edgar Filing: TELECOM ITALIA S P A - Form 6-K

should also be considered together with risk factors included in Telecom Italia Group's Annual Report on Form 20-F for 2005. Due to such uncertainties and risks, readers are cautioned not to place undue reliance on such forward-looking statements, which speak only as of the date hereof. Accordingly, there can be no assurance that the Group will achieve its projected results.
