BAY RESOURCES LTD. AND SUBSIDIARY
Notes to Consolidated Financial Statements
December 31, 2000, June 30, 2000 and
December 31, 1999

(1) ORGANISATION

Bay Resources Ltd. (Bay Resources) is incorporated in the State of Delaware. The principal shareholder of Bay Resources is Edensor Nominees Proprietary Limited (Edensor), an Australian corporation. Edensor owned 78.8% of Bay Resources as of December 31, 2000.

Bay Resources acquired a controlling interest on September 3, 1987 in former subsidiary, Solmecs Corporation N.V. ("Solmecs") and 100% ownership on January 2, 1992. Bay Resources sold its interest in Solmecs effective June 5, 1998.

During fiscal 1998, Bay Resources incorporated a further subsidiary, Baynex.com Pty Ltd (formerly Bayou Australia Pty Ltd), under the laws of Australia. Baynex.com Pty Ltd has not traded since incorporation.

On October 17, 2000 the Company changed its name to Bay Resources Ltd. The change in name is based on the direction the Company wishes to proceed in the future, being a business focused on opportunities in the mining and exploration area.

(2) INVESTMENT SECURITIES

The following is a summary of Investment Securities at December 31, 2000, June 30, 2000 and December 31, 1999:

("return of capital dividends") are applied as a reduction of the cost of the investment. No securities were sold during 2000 and 1999 and all securities were treated as available for sale for 2000 and 1999. The net unrealised loss of A\$612 and A\$5,855 shown in the statement of Stockholders Equity for 2000 and 1999 consist entirely of the change in holding loss for those periods.

(3) SHORT TERM AND LONG TERM DEBT

The following is a summary of Bay Resources' borrowing arrangements as of December 31, 2000, June 30, 2000 and December 31, 1999.

Total Long-Term	\$586 =====	\$214 =====	\$7 =====

- (1) Repaid on October 7, 1999 through the issuance of 4,000,000 post split shares. Balance at the date of the stock issuance was approximately \$4,076,000. An amount of \$7000 was repaid on January 20, 2000 partly through the issuance of 8,000,000 options to purchase shares of the Company. Both issuances were to a company affiliated with the President of Bay Resources.

(4) AFFILIATE TRANSACTIONS

Bay Resources advances to and receives advances from various affiliates. All advances between consolidated affiliates are eliminated on consolidation. At December 31, 2000, Bay Resources had no outstanding advances to or from unconsolidated affiliated companies. \$225,000, \$245,000 and \$344,000 of accounts payable for the years shown is due to an affiliated management company.

(5) GOING CONCERN

The accompanying consolidated financial statements have been prepared in conformity with generally accepted accounting principles, which contemplates continuation of Bay Resources and Solmecs as a going concern. However, Bay Resources has sustained recurring losses. In addition, Bay Resources has no net working capital, which raises substantial doubts as to its ability to continue as going concerns.

Edgar Filing: BAY RESOURCES LTD - Form 10-Q

Bay Resources anticipates that it will be able to defer repayment of certain of its short term loan commitments until it has sufficient liquidity to enable these loans to be repaid or other arrangements to be put in place.

In addition Bay Resources has historically relied on loans and advances from corporations affiliated with the President of Bay Resources. Based on discussions with these affiliate companies and the President. Bay Resources believes this source of funding will continue to be available.

Other than the arrangements noted above, Bay Resources has not confirmed any other arrangements for ongoing funding. As a result Bay Resources may be required to raise funds by additional debt or equity offerings in order to meet its cash flow requirements during the forthcoming year.

BAY RESOURCES LTD. AND SUBSIDIARY Notes to Consolidated Financial Statements December 31, 2000, June 30, 2000 and December 31, 1999

(6) SALE OF SOLMECS

Pursuant to a stock purchase agreement dated as of June 5, 1998, the Company acquired 499,701 shares in SCNV Acquisition Corp ("SCNV"), representing approximately 24% of the issued and outstanding share capital of SCNV, in return for the whole of the share capital of Solmecs Corporation N.V., a Netherlands Antilles company which prior to the exchange was formerly a wholly owned subsidiary of the Company. The 499,701 shares has been valued at US\$2,800,000 or A\$4,516,000 and will be accounted for using the cost method because the Company does not exercise significant influences over SCNV's operating and financial activities (see note 4). The sale resulted in a gain of \$5,899,000 which is included in other income.

SCNV is a Delaware corporation established May 1997 to select, develop and commercially exploit proprietary technologies, in various stages of development, invented primary by scientists who immigrated to Israel from and by scientists and institutions in Russia and other countries that formerly comprised the Soviet Union. Simultaneously with the SCNV stock acquisition by the Company, SCNV completed an initial public offering of common stock and warrants which resulted in gross proceeds of approximately US\$5,900,000.

The Company has been granted certain demand and "piggyback" registration rights with respect to the SCNV shares. Notwithstanding the foregoing, the Company has agreed not to sell, grant options for sale or assign or transfer any of the SCNV shares, for a period of 24 months from the closing of the ("Lock-up") agreement, which expired in June 2000. Bay Resources has requested SCNV to take the necessary steps to register Bay Resources shareholding in SCNV.

(7) INCOME TAXES

Bay Resources files its income tax returns on an accrual basis. Bay Resources has carry forward losses of approximately US\$14 million as of June 30, 1999 which expire in the years 1999 through 2012. Due to the uncertainty as to realisation of these losses, a valuation allowance of US\$4.7 million has been recorded to off set the tax benefit of the carry forward losses.

(8) NEW BUSINESS OPPORTUNITY

On May 23, 2000 the Company announced their intention to join with Primus

Edgar Filing: BAY RESOURCES LTD - Form 10-Q

Telecom, an International Data, Internet and Telecommunications company, to develop a global electronic trading community ("Portal") to date, no financial commitments have been agreed to.

On September 27, 2000 the Company announced their intention to acquire a strategic investment in St Andrew Goldfields Ltd, ("St Andrew") subject to the completion of due diligence. The Company will issue, if completed, 1 million shares to St Andrew who, in exchange, will issue 16 millions shares to the Company and 16 million common share purchase warrants with an exercise period of 36 months. The Company will hold an approximate 36% interest in St Andrew. The agreement also requires St Andrew to refinance existing debt and raise further working capital, on a best endeavours basis. On January 30, 2001 by mutual agreement, the parties terminated the agreement between the Company and St Andrew.

On January 30, 2001, the Company tendered its notice to withdraw from this transaction.

(9) CHANGES IN STOCKHOLDERS' EQUITY

During the year ended June 30, 2000 the Company completed the following transactions:

- (a) On June 29, 1999 the Company undertook a reverse stock split on a 1:20 basis and changed its par value from US\$0.15 to US\$0.0001 per share.
- (b) On October 7, 1999 the Company issued 4,000,000 post split shares, to a Company affiliated with the President of Bay Resources, in lieu of payment of \$4,076,000 in borrowings.
- (c) On January 20, 2000 the Company issued 8,000,000 options to purchase previously unissued stock to a company affiliated with the President of Bay Resources. Total consideration totalled \$120,000 and included both cash and partial debt repayment.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

NEW BUSINESS OPPORTUNITY

The Company is investigating internet opportunities in the area of medical research and mining and exploration.

FUND COSTS CONVERSION

The consolidated statements of income and other financial and operating data contained elsewhere here in and the consolidated balance sheets and financial results have been reflected in Australian dollars unless otherwise stated.

The following table shows the average rate of exchange of the Australian dollar as compared to the US dollar during the periods indicated:

6 months ended December 31, 1999	A\$1.00 = U.S. \$.6531
6 months ended December 31, 2000	A\$1.00 = U.S. \$.5548

RESULTS OF OPERATION

SIX MONTHS ENDED DECEMBER 31, 2000 VS. SIX MONTHS ENDED DECEMBER 31 1999.

Edgar Filing: BAY RESOURCES LTD - Form 10-Q

Costs and expenses increased from A\$166,000 in the six months ended December 31, 1999 to A\$320,000 in the six months ended December 31, 2000. The increase is a net result of:

- a) a decrease in interest expense from A\$65,000 for the six months ended December 31, 1999 to A\$29,000 for the six months ended December 31, 2000 as a result of the reduction in long term debt of the Company through the issuance of shares in lieu of payment.
- b) the increase in administrative costs including salaries from A\$90,000 in the six months ended December 31, 1999 to A\$280,000 in the six months ended December 31, 2000 due to the substantial amount of costs incurred in the due diligence on St Andrew which included consultants and travel & accommodation.

As a result of the foregoing, the loss from operations increased from A\$166,000 for the six months ended December 31, 1999 to A\$320,000 for the six months ended December 31, 2000.

The net loss was A\$320,000 for the six months ended December 31, 2000 compared to a net loss of A\$166,000 for the six months ended December 31, 1999.

LIQUIDITY AND CAPITAL RESOURCES

As of December 31, 2000 the Company had short-term obligations of A\$239,000 comprising accounts payable and accrued expenses.

The Company anticipates that it will be able to defer repayment of certain of its short term loan commitments until it has sufficient liquidity to enable these loans to be repaid which there can be no assurance. In addition the Company has historically relied upon loans and advances from affiliates to meet a significant portion of the Company's cash flow requirements which the Company believes based on discussions with such affiliates will continue to be available during fiscal 2000 and 2001.

On October 7, 1999 Bay Resources authorised the issuance effective December 31, 1999 of 4,000,000 shares of its previously unissued stock to a company of which the President of Bay Resources is a director and shareholder, in lieu of repayment of the debt described in note (3). Balance due at the stock issuance was approximately A\$4,076,000.

On January 20, 2000 the Board of Directors authorised the issuance of 8,000,000 options to purchase previously unissued shares, to a company of which the President of Bay Resources is a director and shareholder, partly in lieu of repayment of the debt in note (3). Balance at the date of issuance of options was approximately \$8000. Options are exercisable after two years for a period of three years at US\$1.00 per share.

Other than the arrangements above the Company has not confirmed any further arrangements for ongoing funding. As a result the Company may be required to raise funds from additional debt or equity offerings and/or increase the revenues from operations in order to meet its cash flow requirements during the forthcoming year.
