SHAREHOLDER LETTER

FIRST TRUST SPECIALTY FINANCE AND FINANCIAL OPPORTUNITIES FUND (FGB)
ANNUAL REPORT
NOVEMBER 30, 2009

Dear Shareholders:

2009 was more positive for the U.S. and global markets, which eased the minds of economists and investors alike. Many economists believe that the recession that began in December 2007 ended in March 2009. In fact, the Dow Jones Industrial Average's total return from March 9, 2009, (the statistical end of the bear market) to November 30, 2009, was 61.59%. Of course, no one can guarantee that this trend will continue, but the economy has continued to rise and most investors have found it easier to open their financial statements since March.

First Trust Advisors L.P. ("First Trust") has always believed that in order to be successful in reaching your financial goals, you should be invested for the long term. A long-term investor understands that the market, from a historical perspective, has always experienced ups and downs. But history has shown that the patient investor is typically rewarded over the long term. We have always

Edgar Filing: FIRST TRUST SPECIALTY FINANCE & FINANCIAL OPPORTUNITIES FUND - Form N-CSR

believed that staying invested in quality products and having a long-term perspective can help investors reach their financial goals.

The report you hold contains detailed information about your investment in First Trust Specialty Finance and Financial Opportunities Fund (the "Fund"). It contains a portfolio commentary from the Fund's portfolio management team that provides a market recap for the period, a performance analysis and a market and Fund outlook. Additionally, the report provides the Fund's financial statements for the period covered by the report. I encourage you to read this document and discuss it with your financial advisor.

Since its inception, First Trust has been through many types of markets. We remain committed to bringing you quality investment solutions regardless of the inevitable volatility the market experiences. We offer a variety of products that can fit many financial plans to help those investors seeking long-term investment success. As well, we are committed to making available up-to-date information about your investments so you and your financial advisor have current information on your portfolio.

We continue to value our relationship with you, and we thank you for the opportunity to assist you in achieving your financial goals.

Sincerely,

/s/ James A. Bowen

COMMENTARY

FIRST TRUST SPECIALTY FINANCE AND FINANCIAL OPPORTUNITIES FUND (FGB)

The primary investment objective of the First Trust Specialty Finance and Financial Opportunities Fund ("FGB" or the "Fund") is to seek a high level of current income. As a secondary objective, the Fund seeks an attractive total return. The Fund pursues its investment objectives by investing at least 80% of its managed assets in a portfolio of securities of specialty finance and other financial companies that the Fund's Sub-Advisor believes offer attractive opportunities for income and capital appreciation. There can be no assurance that the Fund's investment objectives will be achieved. The Fund may not be appropriate for all investors.

MARKET RECAP

FGB is a financial sector fund with a particular focus on business development companies ("BDCs"). BDCs lend to and invest in private companies, often working with those not large enough to efficiently access the public markets. Each BDC has a unique profile, determined by its respective management team. Some specialize in particular industries, while others apply a more generalized approach and maintain a diversified portfolio. Both approaches can work effectively and deliver to shareholders a unique and differentiated return opportunity derived from the private markets. As of November 30, 2009, the Fund had almost three quarters of its assets invested in 19 different BDCs.

The six months ended November 30, 2009 were a follow-through to the dramatic recovery that began in March 2009 in the equity markets. The liquidity crisis in 2008 was so acute, many investments declined in value regardless of individual business outlooks. Then, as the crisis passed, many of these same investments spiraled upward, again with little regard for their business outlook. Looking back, we can see equity investments generally became highly correlated with one another, not just during the crisis, but also during the recovery.

The path of the BDCs went right alongside that of the broader financial sector...that is to say, a sharp decline, followed by a rapid recovery. Yet if we peel back the business models of the BDCs, we find profiles that were actually much different. Problems among many financials stemmed from an excess of bad loans, too much leverage and an overall lack of transparency...characteristics generally not shared with the BDCs. Granted, there were many problem loans on the books of the BDCs, and several were hurt by a widespread lack of credit. But we believe investment portfolios for many BDCs held up reasonably well and these companies turned out to be among the most durable in the financials sector. None of the BDCs received governmental assistance, and none went into bankruptcy. Many were able to keep sizable portions of their dividends intact, and some were able to maintain and even grow their dividends.

Because of their resilience, we believe the BDCs may be a leading group among the financials sector to recover. Some BDCs have already raised new equity capital. And though it has often been dilutive to existing shareholders, the capital is allowing the BDCs to heal their wounds, strengthen balance sheets and position themselves to resume growth. We have also witnessed some BDC consolidation, a healthy evolution that allows the strong to carry the industry forward by absorbing weaker, damaged competitors. If the trends continue, we believe the industry can resume the attractive growth profile it commanded prior to the liquidity crisis.

PORTFOLIO COMMENTARY (CONTINUED)

The Fund's total return (+94.18%) was greater than the Fund's NAV total return (+56.00%) as the discount to NAV narrowed substantially during the 12-month period covered by this report. The strong performance was derived from improving valuations and stabilizing fundamentals within the Fund's portfolio. The Fund also outperformed its blended benchmark (+41.38%).

The Fund entered this period more heavily weighted in stocks where fundamentals appeared stronger or valuations were unusually low. This strategy proved to be constructive as many of the Fund's larger positions, including Ares Capital, Prospect Capital and Apollo Investment, performed particularly well. Each of these companies maintained substantial dividends throughout the crisis, and their ability to raise equity capital has restored investor confidence in these companies, demonstrated by investor interest in them.

The Fund also benefitted from its investments in residential Mortgage-Backed Securities ("MBS") Real Estate Investment Trusts ("REITs"), which comprised approximately 16% of the Fund's total assets. Annaly Capital, Hatteras Financial and MFA Financial were able to take advantage of attractive yields and low funding costs in the mortgage markets. This positive environment also enabled one of the Fund's private MBS REITs, Cypress Sharpridge, to successfully launch its initial public offering.

MARKET & FUND OUTLOOK

The financials sector still has many issues to face in the aftermath of the liquidity crisis, ranging from new regulations, ongoing writedowns, limitations on leverage, demands for transparency and widespread investor skepticism. Still, we believe the worst of the storm is likely behind us. In our opinion, companies can begin to turn their priorities from mere survival and capital hoarding to growth and the creation of shareholder value.

As we look forward, we expect an environment where specific company performance is more likely to be recognized. For many BDCs, we believe this trend should be positive, particularly for those with strong balance sheets and access to new capital. Loans and investments made today have attractive return/risk characteristics, and management teams active in this environment should be able to deliver positive results to their shareholders. Over time, BDCs can deliver differentiated private market returns and we believe FGB is well positioned to

participate.

In recent quarters, the Fund's dividend has stabilized. It is an investment priority to maintain this dividend and position the Fund's portfolio in a manner that can open the door to future growth. At the same time, we balance this income objective with efforts to grow the Fund's NAV as well. To that end, we have added some newer positions in companies that can compound earnings and grow book value. Consistent with the Fund's stated objectives, we believe this strategy positions the Fund to pursue a substantial and growing dividend, alongside NAV growth.

NOTES TO FINANCIAL STATEMENTS

FIRST TRUST SPECIALTY FINANCE AND FINANCIAL OPPORTUNITIES FUND NOVEMBER 30, 2009

1. FUND DESCRIPTION

First Trust Specialty Finance and Financial Opportunities Fund (the "Fund") is a non-diversified, closed-end management investment company organized as a Massachusetts business trust on March 20, 2007, and is registered with the Securities and Exchange Commission ("SEC") under the Investment Company Act of 1940, as amended (the "1940 Act"). The Fund trades under the ticker symbol FGB on the New York Stock Exchange ("NYSE").

The Fund's primary investment objective is to seek a high level of current income. The Fund seeks attractive total return as a secondary objective. Under normal market conditions, the Fund invests at least 80% of its Managed Assets in a portfolio of securities of specialty finance and other financial companies that Confluence Investment Management LLC ("Confluence" or the "Sub-Advisor") believes offer attractive opportunities for income and capital appreciation. Under normal market conditions, the Fund concentrates its investments in securities of companies within industries in the financial sector. "Managed Assets" means the average daily gross asset value of the Fund (including assets attributable to the principal amount of borrowings) minus the sum of the Fund's accrued and unpaid dividends and accrued liabilities (other than the principal amount of any borrowings incurred by the Fund). There can be no assurance that the Fund will achieve its investment objectives. The Fund may not be appropriate for all investors.

2. SIGNIFICANT ACCOUNTING POLICIES

The following is a summary of significant accounting policies consistently

followed by the Fund in the preparation of its financial statements. The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts and disclosures in the financial statements. Actual results could differ from those estimates.

A. PORTFOLIO VALUATION:

The net asset value ("NAV") of the Common Shares of the Fund is determined daily as of the close of regular trading on the NYSE, normally 4:00 p.m. Eastern time, on each day the NYSE is open for trading. Domestic debt securities and foreign securities are priced using data reflecting the earlier closing of the principal markets for those securities. The NAV per Common Share is calculated by dividing the value of all assets of the Fund (including accrued interest and dividends), less all liabilities (including accrued expenses, dividends declared but unpaid and any borrowings of the Fund), by the total number of Common Shares outstanding.

The Fund's investments are valued daily at market value or, in the absence of market value with respect to any portfolio securities, at fair value according to procedures adopted by the Fund's Board of Trustees. A majority of the Fund's assets are valued using market information supplied by third parties. In the event that market quotations are not readily available, the pricing service does not provide a valuation for a particular asset, or the valuations are deemed unreliable, the Fund's Board of Trustees has designated First Trust Advisors L.P. ("First Trust") to use a fair value method to value the Fund's securities and investments. Additionally, if events occur after the close of the principal markets for particular securities (e.g., domestic debt and foreign securities), but before the Fund values its assets, that could materially affect NAV, First Trust may use a fair value method to value the Fund's securities and investments. The use of fair value pricing by the Fund is governed by valuation procedures adopted by the Fund's Board of Trustees and in accordance with the provisions of the 1940 Act.

Portfolio securities listed on any exchange other than the NASDAQ National Market ("NASDAQ") are valued at the last sale price on the business day as of which such value is being determined. If there has been no sale on such day, the securities are valued at the mean of the most recent bid and asked prices on such day. Securities traded on the NASDAQ are valued at the NASDAQ Official Closing Price as determined by NASDAQ. Portfolio securities traded on more than one securities exchange are valued at the last sale price on the business day as of which such value is being determined at the close of the exchange representing the principal market for such securities. Portfolio securities traded in the over-the-counter market, but excluding securities traded on the NASDAQ, are valued at the closing bid prices. Short-term investments that mature in less than 60 days when purchased are valued at amortized cost.

NOTES TO FINANCIAL STATEMENTS - (CONTINUED)

FIRST TRUST SPECIALTY FINANCE AND FINANCIAL OPPORTUNITIES FUND
NOVEMBER 30, 2009

The Fund is subject to fair value accounting standards that define fair value, establish the framework for measuring fair value and provide a three-level hierarchy for fair valuation based upon the inputs to the valuation as of the measurement date. The three levels of the fair value hierarchy are as follows:

- Level 1 - Level 1 inputs are quoted prices in active markets for identical securities. An active market is a market in which transactions for the security occur with sufficient frequency and volume to provide pricing information on an ongoing basis.
- Level 2 - Level 2 inputs are observable inputs, either directly or indirectly, and include the following:
 - Quoted prices for similar securities in active markets.
 - Quoted prices for identical or similar securities in markets that are non-active. A non-active market is a market where there are few transactions for the security, the prices are not current, or price quotations vary substantially either over time or among market makers, or in which little information is released publicly.
 - Inputs other than quoted prices that are observable for the security (for example, interest rates and yield curves observable at commonly quoted intervals, volatilities, prepayment speeds, loss severities, credit risks, and default rates).
 - Inputs that are derived principally from or corroborated by observable market data by correlation or other means.
- Level 3 - Level 3 inputs are unobservable inputs. Unobservable inputs reflect the reporting entity's own assumptions about the assumptions that market participants would use in pricing the security.

The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities. A summary of the inputs used to value the Fund's investments as of November 30, 2009, is included with the Fund's Portfolio of Investments.

B. SECURITIES TRANSACTIONS AND INVESTMENT INCOME:

Securities transactions are recorded as of the trade date. Realized gains and losses from securities transactions are recorded on the identified cost basis. Dividend income is recorded on the ex-dividend date. Interest income is recorded on the accrual basis.

The Fund may hold real estate investment trusts ("REITS"). Distributions from such investments may include a return of capital component from the REIT to the extent of the cost basis of such REIT investments. The actual character of amounts received during the year is not known until after the fiscal year end. The Fund records the character of distributions received from the REITs during the year based on estimates available. The Fund's characterization may be subsequently revised based on information received from the REITs after their tax reporting periods conclude.

The Fund may also hold business development companies ("BDCs"), exchange-traded funds ("ETFs") and Canadian income trusts ("CITs"). The tax character of distributions received from these securities may vary when reported by the issuer after their tax reporting periods conclude.

C. RESTRICTED SECURITIES:

The Fund invests in restricted securities, which are securities that cannot be offered for public sale without first being registered under the Securities Act of 1933, as amended (the "1933 Act"). Prior to registration, restricted securities may only be resold in transactions exempt from registration under Rule 144A of the 1933 Act. As of November 30, 2009, the Fund held restricted securities as shown in the following table. The Fund does not have the right to demand that such securities be registered. These securities are valued according to the valuation procedures as stated in the Portfolio Valuation footnote (Note 2A) and are not expressed as a discount to the carrying value of comparable unrestricted securities.

D. DIVIDENDS AND DISTRIBUTIONS TO SHAREHOLDERS:

Dividends from net investment income, if any, of the Fund are declared and paid quarterly or as the Board of Trustees may determine from time to time. Distributions of any net capital gains earned by the Fund are distributed at least annually. Distributions will automatically be reinvested into additional Common Shares pursuant to the Fund's Dividend Reinvestment Plan unless cash distributions are elected by the shareholder.

Distributions from income and capital gains are determined in accordance with income tax regulations, which may differ from accounting principles generally accepted in the United States of America. These differences are primarily due to differing treatments of income and gains on various investment securities held by the Fund, timing differences and differing characterization of distributions made by the Fund. Permanent differences incurred during the fiscal year ended November 30, 2009 resulting in book and tax accounting differences have been reclassified at year end to reflect an increase in accumulated net investment income of \$212,102, and a decrease to paid-in capital of \$212,102. Net assets were not affected by this reclassification.

The tax character of distributions paid during the fiscal years ended November 30, 2009 and November 30, 2008 was as follows:

Edgar Filing: FIRST TRUST SPECIALTY FINANCE & FINANCIAL OPPORTUNITIES FUND - Form N-CSR

Distributions paid from:

	2009 -----	2008 -----
Ordinary Income	\$7,773,176	\$17,995,120
Return of Capital ..	836,780	1,293,149

As of November 30, 2009, the components of distributable earnings on a tax basis were as follows:

Undistributed Ordinary Income	\$	--
Net Unrealized Appreciation (Depreciation) ..		(56,641,671)
Accumulated Capital and Other Losses		(124,020,614)

E. INCOME TAXES:

The Fund intends to continue to qualify as a regulated investment company by complying with the requirements under Subchapter M of the Internal Revenue Code of 1986, as amended, which includes distributing substantially all of its net investment income and net realized gains to shareholders. Accordingly, no provision has been made for federal or state income taxes.

The Fund intends to utilize provisions of the federal income tax laws, which allow it to carry a realized capital loss forward for eight years following the year of loss and offset such loss against any future realized capital gains. The Fund is subject to certain limitations under U.S. tax rules on the use of capital loss carryforwards and net unrealized built-in losses. These limitations apply when there has been a 50% change in ownership. At November 30, 2009, the Fund had a capital loss carryforward for federal income tax purposes of \$123,554,849 with \$5,166,354, \$62,747,095 and \$55,641,400 expiring on November 30, 2015, 2016 and 2017, respectively.

Certain capital losses realized after October 31 may be deferred and treated as occurring on the first day of the following fiscal year. For the fiscal year ended November 30, 2009, the Fund intends to elect to defer net realized capital losses of \$465,765 incurred between November 1, 2009 through November 30, 2009.

The Fund is subject to accounting standards that establish a minimum threshold for recognizing, and a system for measuring, the benefits of a tax position taken or expected to be taken in a tax return. Taxable years ending 2009, 2008 and 2007 remain open to federal and state audit. As of November 30, 2009, management has evaluated the application of these standards to the Fund, and has determined that no provision for income tax is required in the Fund's financial statements for uncertain tax provisions.

F. EXPENSES:

The Fund pays all expenses directly related to its operations.

G. ORGANIZATION AND OFFERING COSTS:

Organization costs consisted of costs incurred to establish the Fund and enable it to legally do business. These costs included filing fees, listing fees, legal services pertaining to the organization of the business and audit fees relating to the initial registration and auditing the initial statement of assets and

liabilities, among other fees. Offering costs consisted of legal fees pertaining to the Fund's Common Shares offered for sale, registration fees, underwriting fees, and printing of the initial prospectus, among other fees. First Trust and Gallatin Asset Management, Inc., the Fund's prior sub-advisor, paid all organization costs and all offering costs of the Fund (other than sales load) that exceeded \$0.04 per Common Share. The Fund's share of Common Share offering costs, \$561,210, was recorded as a reduction of the

proceeds from the sale of Common Shares during the fiscal period ended November 30, 2007. During the fiscal year ended November 30, 2008, it was determined that actual offering costs were less than the estimated offering costs by \$85,301. Therefore, paid-in-capital was increased by that amount for the fiscal year ended November 30, 2008, as reflected in the Statements of Changes in Net Assets.

3. INVESTMENT ADVISORY FEE, AFFILIATED TRANSACTIONS AND OTHER FEE ARRANGEMENTS

First Trust is a limited partnership with one limited partner, Grace Partners of DuPage L.P., and one general partner, The Charger Corporation. First Trust serves as investment advisor to the Fund pursuant to an Investment Management Agreement. First Trust is responsible for the ongoing monitoring of the Fund's investment portfolio, managing the Fund's business affairs and providing certain administrative services necessary for the management of the Fund. For these investment management services, First Trust is entitled to a monthly fee calculated at an annual rate of 1.00% of the Fund's Managed Assets.

Confluence serves as the Fund's sub-advisor and manages the Fund's portfolio subject to First Trust's supervision. The Sub-Advisor receives a monthly portfolio management fee calculated at an annual rate of 0.50% of Managed Assets that is paid by First Trust from its investment advisory fee.

PNC Global Investment Servicing (U.S.) Inc., an indirect majority-owned subsidiary of The PNC Financial Services Group, Inc., serves as the Fund's Administrator, Fund Accountant and Transfer Agent in accordance with certain fee arrangements. PFPC Trust Company, also an indirect, majority-owned subsidiary of The PNC Financial Services Group, Inc., serves as the Fund's Custodian in accordance with certain fee arrangements.

Each Trustee who is not an officer or employee of First Trust, any sub-advisor or any of their affiliates ("Independent Trustees") is paid an annual retainer of \$10,000 per trust for the first 14 trusts of the First Trust Fund Complex and an annual retainer of \$7,500 per trust for each additional trust in the First Trust Fund Complex. The annual retainer is allocated equally among each of the trusts. No additional meeting fees are paid in connection with board or committee meetings.

Additionally, the Lead Independent Trustee is paid \$10,000 annually, the Chairman of the Audit Committee is paid \$5,000 annually, and each of the Chairmen of the Nominating and Governance Committee and the Valuation Committee are paid \$2,500 annually to serve in such capacities, with such compensation paid by the trusts in the First Trust Fund Complex and divided among those trusts. Trustees are also reimbursed by the trusts in the First Trust Fund

Complex for travel and out-of-pocket expenses in connection with all meetings. The Lead Independent Trustee and each Committee chairman served two-year terms which ended on December 31, 2009, before rotating to serve as a chairman of another committee or as Lead Independent Trustee. The officers and "Interested" Trustee receive no compensation from the Fund for serving in such capacities.

4. PURCHASES AND SALES OF SECURITIES

Cost of purchases and proceeds from sales of investment securities, excluding U.S. government and short-term investments, for the year ended November 30, 2009, were \$22,204,608 and \$15,858,878, respectively.

5. LEVERAGE

On September 12, 2008, the Fund entered into a Credit Agreement and a Credit Annex thereto with Credit Suisse Securities (USA) LLC, which currently provides for an uncommitted credit facility to be used as leverage for the Fund (the "Credit Suisse Facility"). The Credit Suisse Facility provides for a secured, uncommitted line of credit for the Fund, where Fund assets are pledged against advances made to the Fund. Under the requirements of the 1940 Act, the Fund, immediately after any such borrowings, must have an "asset coverage " of at least 300% (33 1/3% of the Fund's total assets after borrowings). The total amount of loans that may be outstanding at any one time under the Credit Suisse Facility is \$70,000,000. For the year ended November 30, 2009, the daily average amount outstanding under the Credit Suisse Facility was \$12,237,123. The high and low annual interest rates during the year ended November 30, 2009 were 3.41% and 1.73%, respectively, and the weighted-average interest rate was 1.89%. The interest rate at November 30, 2009 was 1.74%.

6. INDEMNIFICATION

The Fund has a variety of indemnification obligations under contracts with its service providers. The Fund's maximum exposure under these arrangements is unknown. However, the Fund has not had prior claims or losses pursuant to these contracts and expects the risk of loss to be remote.

7. RISK CONSIDERATIONS

Risks are inherent in all investing. The following summarizes some of the risks that should be considered for the Fund. For additional information about the risks associated with investing in the Fund, please see the Fund's prospectus and statement of additional information, as well as other Fund regulatory filings.

INVESTMENT AND MARKET RISK: An investment in the Fund's Common Shares is subject to investment risk, including the possible loss of the entire principal invested. An investment in Common Shares represents an indirect investment in the securities owned by the Fund. The value of these securities, like other market investments, may move up or down, sometimes rapidly and unpredictably. Common Shares at any point in time may be worth less than the original investment, even after taking into account the reinvestment of Fund dividends and distributions. Security prices can fluctuate for several reasons including

the general condition of the equity market, or when political or economic events affecting the issuers occur. When the Advisor or Sub-Advisor determines that it is temporarily unable to follow the Fund's investment strategy or that it is impractical to do so (such as when a market disruption event has occurred and trading in the securities is extremely limited or absent), the Fund may take temporary defensive positions.

FINANCIAL SECTOR CONCENTRATION RISK: Under normal market conditions, the Fund will invest at least 25% of its total assets in securities of companies within industries in the financial sector. A fund concentrated in a single industry or sector is likely to present more risks than a fund that is broadly diversified over several industries or groups of industries. Compared to the broad market, an individual sector may be more strongly affected by changes in the economic climate, broad market shifts, moves in a particular dominant stock, or regulatory changes. Specialty finance and other financial companies in general are subject to extensive government regulation, which may change frequently. The profitability of specialty finance and other financial companies is largely dependent upon the availability and cost of capital funds, and may fluctuate significantly in response to changes in interest rates, as well as changes in general economic conditions. From time to time, severe competition may also affect the profitability of specialty finance and other financial companies. Financial companies can be highly dependent upon access to capital markets and any impediments to such access, such as general economic conditions or a negative perception in the capital markets of a company's financial condition or prospects, could adversely affect its business. Leasing companies can be negatively impacted by changes in tax laws which affect the types of transactions in which such companies engage.

BUSINESS DEVELOPMENT COMPANY ("BDC") RISK: Investments in closed-end funds that elect to be treated as BDCs may be subject to a high degree of risk. BDCs typically invest in small and medium-sized private and certain public companies that may not have access to public equity markets or capital raising. As a result, a BDC's portfolio typically will include a substantial amount of securities purchased in private placements, and its portfolio may carry risks similar to those of a private equity or venture capital fund. Securities that are not publicly registered may be difficult to value and may be difficult to sell at a price representative of their intrinsic value. Investments in BDCs are subject to various risks, including management's ability to meet the BDC's investment objective, and to manage the BDC's portfolio when the underlying securities are redeemed or sold, during periods of market turmoil and as investors' perceptions regarding a BDC or its underlying investments change. BDC shares are not redeemable at the option of the BDC shareholder and, as with shares of other closed-end funds, they may trade in the secondary market at a discount to their NAV.

REIT, MORTGAGE-RELATED AND ASSET-BACKED SECURITIES RISKS: Investing in REITs involves certain unique risks in addition to investing in the real estate industry in general. REITs are subject to interest rate risk (especially mortgage REITs) and the risk of default by lessees or borrowers. An equity REIT may be affected by changes in the value of the underlying properties owned by the REIT. A mortgage REIT may be affected by the ability of the issuers of its portfolio of mortgages to repay their obligations. REITs whose underlying assets are concentrated in properties used by a particular industry are also subject to risks associated with such industry. REITs may have limited financial resources, their securities may trade less frequently and in a limited volume, and their securities may be subject to more abrupt or erratic price movements than larger company securities.

In addition to REITs, the Fund may invest in a variety of other mortgage-related securities, including commercial mortgage securities and other mortgage-backed instruments. Rising interest rates tend to extend the duration of mortgage-related securities, making them more sensitive to changes in interest

rates, and may reduce the market value of the securities. In addition, mortgage-related securities are subject to prepayment risk, the risk that borrowers may pay off their mortgages sooner than expected, particularly when interest rates decline. This can reduce the Fund's returns because the Fund may have to reinvest that money at lower prevailing interest rates.

The Fund's investments in other asset-backed securities are subject to risks similar to those associated with mortgage-backed securities, as well as additional risks associated with the nature of the assets and the servicing of those assets.

Page 18

NOTES TO FINANCIAL STATEMENTS - (CONTINUED)

FIRST TRUST SPECIALTY FINANCE AND FINANCIAL OPPORTUNITIES FUND
NOVEMBER 30, 2009

LEVERAGE RISK: The use of leverage results in additional risks and can magnify the effect of any losses. The funds borrowed pursuant to a leverage borrowing program constitute a substantial lien and burden by reason of their prior claim against the income of the Fund and against the net assets of the Fund in liquidation. The rights of lenders to receive payments of interest on and repayments of principal on any borrowings made by the Fund under a leverage borrowing program are senior to the rights of holders of Common Shares with respect to the payment of dividends or upon liquidation. If the Fund is not in compliance with certain credit facility provisions, the Fund may not be permitted to declare dividends or other distributions or purchase Common Shares.

NON-DIVERSIFICATION RISK: Because the Fund is non-diversified, it is only limited as to the percentage of its assets which may be invested in the securities of any one issuer by the diversification requirements imposed by the Internal Revenue Code of 1986, as amended. Because the Fund may invest a relatively high percentage of its assets in a limited number of issuers, the Fund may be more susceptible to any single economic, political or regulatory occurrence and to the financial conditions of the issuers in which it invests.

8. SUBSEQUENT EVENTS

Management has evaluated the impact of all subsequent events on the Fund through January 26, 2010, the date the financial statements were issued, and has determined that there were no subsequent events requiring recognition or disclosure in the financial statements.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

TO THE BOARD OF TRUSTEES AND SHAREHOLDERS OF FIRST TRUST SPECIALTY FINANCE AND FINANCIAL OPPORTUNITIES FUND:

We have audited the accompanying statement of assets and liabilities of First Trust Specialty Finance and Financial Opportunities Fund (the "Fund"), including the portfolio of investments, as of November 30, 2009, and the related statement of operations and cash flows for the year then ended, the statements of changes in net assets for each of the two years in the period then ended, and the

financial highlights for the periods presented. These financial statements and financial highlights are the responsibility of the Fund's management. Our responsibility is to express an opinion on these financial statements and financial highlights based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements and financial highlights are free of material misstatement. The Fund is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. Our procedures included confirmation of securities owned as of November 30, 2009 by correspondence with the Fund's custodian. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements and financial highlights referred to above present fairly, in all material respects, the financial position of First Trust Specialty Finance and Financial Opportunities Fund as of November 30, 2009, the results of its operations and its cash flows for the year then ended, the changes in its net assets for each of the two years in the period then ended, and the financial highlights for the periods presented, in conformity with accounting principles generally accepted in the United States of America.

ADDITIONAL INFORMATION

FIRST TRUST SPECIALTY FINANCE AND FINANCIAL OPPORTUNITIES FUND
NOVEMBER 30, 2009 (UNAUDITED)

DIVIDEND REINVESTMENT PLAN

If your Common Shares are registered directly with the Fund or if you hold your Common Shares with a brokerage firm that participates in the Fund's Dividend Reinvestment Plan (the "Plan"), unless you elect, by written notice to the Fund, to receive cash distributions, all dividends, including any capital gain distributions, on your Common Shares will be automatically reinvested by PNC Global Investment Servicing (U.S.) Inc. (the "Plan Agent"), in additional Common Shares under the Plan. If you elect to receive cash distributions, you will receive all distributions in cash paid by check mailed directly to you by the Plan Agent, as dividend paying agent.

If you decide to participate in the Plan, the number of Common Shares you will receive will be determined as follows:

- (1) If Common Shares are trading at or above NAV at the time of valuation,

the Fund will issue new shares at a price equal to the greater of (i) NAV per Common Share on that date or (ii) 95% of the market price on that date.

- (2) If Common Shares are trading below NAV at the time of valuation, the Plan Agent will receive the dividend or distribution in cash and will purchase Common Shares in the open market, on the NYSE or elsewhere, for the participants' accounts. It is possible that the market price for the Common Shares may increase before the Plan Agent has completed its purchases. Therefore, the average purchase price per share paid by the Plan Agent may exceed the market price at the time of valuation, resulting in the purchase of fewer shares than if the dividend or distribution had been paid in Common Shares issued by the Fund. The Plan Agent will use all dividends and distributions received in cash to purchase Common Shares in the open market within 30 days of the valuation date except where temporary curtailment or suspension of purchases is necessary to comply with federal securities laws. Interest will not be paid on any uninvested cash payments.

You may elect to opt-out of or withdraw from the Plan at any time by giving written notice to the Plan Agent, or by telephone at (800) 331-1710, in accordance with such reasonable requirements as the Plan Agent and the Fund may agree upon. If you withdraw or the Plan is terminated, you will receive a certificate for each whole share in your account under the Plan and you will receive a cash payment for any fraction of a share in your account. If you wish, the Plan Agent will sell your shares and send you the proceeds, minus brokerage commissions.

The Plan Agent maintains all Common Shareholders' accounts in the Plan and gives written confirmation of all transactions in the accounts, including information you may need for tax records. Common Shares in your account will be held by the Plan Agent in non-certificated form. The Plan Agent will forward to each participant any proxy solicitation material and will vote any shares so held only in accordance with proxies returned to the Fund. Any proxy you receive will include all Common Shares you have received under the Plan.

There is no brokerage charge for reinvestment of your dividends or distributions in Common Shares. However, all participants will pay a pro rata share of brokerage commissions incurred by the Plan Agent when it makes open market purchases.

Automatically reinvesting dividends and distributions does not mean that you do not have to pay income taxes due upon receiving dividends and distributions. Capital gains and income are realized, although cash is not received by you. Consult your financial advisor for more information.

If you hold your Common Shares with a brokerage firm that does not participate in the Plan, you will not be able to participate in the Plan and any dividend reinvestment may be effected on different terms than those described above.

The Fund reserves the right to amend or terminate the Plan if in the judgment of the Board of Trustees the change is warranted. There is no direct service charge to participants in the Plan; however, the Fund reserves the right to amend the Plan to include a service charge payable by the participants. Additional information about the Plan may be obtained by writing PNC Global Investment Servicing (U.S.) Inc., 301 Bellevue Parkway, Wilmington, Delaware 19809.

The Chairman of the Committee is authorized to give such pre-approvals on behalf of the Committee up to \$25,000 and report any such pre-approval to the full Committee.

The Committee is also responsible for the pre-approval of the independent auditor's engagements for non-audit services with the registrant's adviser (not including a sub-adviser whose role is primarily portfolio management and is sub-contracted or overseen by another investment adviser) and any entity controlling, controlled by or under common control with the investment adviser that provides ongoing services to the registrant, if the engagement relates directly to the operations and financial reporting of the registrant, subject to the DE MINIMIS exceptions for non-audit services described in Rule 2-01 of Regulation S-X. ITEM 7. DISCLOSURE OF PROXY VOTING POLICIES AND PROCEDURES FOR CLOSED-END MANAGEMENT INVESTMENT COMPANIES.

The Proxy Voting Policies are attached herewith.

CONFLUENCE INVESTMENT MANAGEMENT LLC
PROXY VOTING POLICIES AND PROCEDURES

1. INTRODUCTION

As a registered investment adviser, Confluence Investment Management LLC ("Confluence" or the "Adviser") has a fiduciary duty to act solely in the best interests of its clients. If the client is a registered investment company under the Investment Company Act of 1940 or the client requests Confluence to do so in writing, the Adviser will vote proxy materials for its clients.

In cases where the client has delegated proxy voting responsibility and authority to the Adviser, the Adviser has adopted and implemented the following policies and procedures, which it believes are reasonably designed to ensure that proxies are voted in the best interests of its clients. In pursuing this policy, proxies should be voted in a manner that is intended to maximize value to the client. In situations where Adviser accepts such delegation and agrees to vote proxies, Adviser will do so in accordance with these Policies and Procedures. The Adviser may delegate its responsibilities under these Policies and Procedures to a third party, provided that no such delegation shall relieve the Adviser of its responsibilities hereunder and the Adviser shall retain final authority and fiduciary responsibility for such proxy voting.

2. GENERAL

In the event requests for proxies are received with respect to the voting of equity securities on routine matters, such as election of directors or approval of auditors, the proxies usually will be voted with management unless the

Adviser determines it has a conflict or the Adviser determines there are other reasons not to vote with management. On non-routine matters, such as amendments to governing instruments, proposals relating to compensation and stock option and equity compensation plans, corporate governance proposals and shareholder proposals, the Adviser will vote, or abstain from voting if deemed appropriate, on a case by case basis in a manner it believes to be in the best interest of the Company's shareholders. In the event requests for proxies are received with respect to debt securities, the Adviser will vote on a case by case basis in a manner it believes to be in the best economic interest of the Company's shareholders.

The Chief Compliance Officer or his/her designate is responsible for monitoring Adviser's proxy voting actions and ensuring that (i) proxies are received and forwarded to the appropriate decision makers; and (ii) proxies are voted in a timely manner upon receipt of voting instructions. The Adviser is not responsible for voting proxies it does not receive, but will make reasonable efforts to obtain missing proxies.

The Chief Compliance Officer or his/her designate shall implement procedures to identify and monitor potential conflicts of interest that could affect the proxy voting process, including (i) significant client relationships; (ii) other potential material business relationships; and (iii) material personal and family relationships.

All decisions regarding proxy voting shall be determined by the Investment Committee of the Adviser and shall be executed by the Chief Compliance Officer or his/her designate. Every effort shall be made to consult with the portfolio manager and/or analyst covering the security.

The Adviser may determine not to vote a particular proxy, if the costs and burdens exceed the benefits of voting (e.g., when securities are subject to loan or to share blocking restrictions).

3. REGISTERED INVESTMENT COMPANIES

In cases in which the client is a registered investment company under the Investment Company Act of 1940, delegates proxy voting (E.G., where Confluence acts as a sub-adviser of a closed-end fund) and required by law, Confluence will vote such proxies in the same proportion as the vote of all other shareholders of the fund (I.E. "echo vote" or "mirror vote"), unless otherwise required by law. When required by law, Confluence will also echo vote proxies of securities in unaffiliated investment vehicles. For example, section 12(d)(1)(F) of the Investment Company Act of 1940 requires echo voting of registered investment companies that sub-advise or manage securities of other registered investment companies.

4. CONFLICTS OF INTEREST

In the event an employee determines that the Adviser has a conflict of interest due to, for example, a relationship with a company or an affiliate of a company, or for any other reason which could influence the advice given, the employee will advise the Chief Compliance Officer who will advise the Investment Committee, and the Investment Committee will decide whether the Adviser should either (1) disclose to the client the conflict to enable the client to evaluate the advice in light of the conflict or (2) disclose to the client the conflict and decline to provide the advice.

The Adviser shall use commercially reasonable efforts to determine whether a potential conflict may exist, and a potential conflict shall be deemed to exist only if one or more of the managers of the Adviser actually knew or should have

known of the conflict. The Adviser is sensitive to conflicts of interest that may arise in the proxy decision-making process and has identified the following potential conflicts of interest:

- A principal of the Adviser or any person involved in the proxy decision-making process currently serves on the Board of the portfolio company.
- An immediate family member of a principal of the Adviser or any person involved in the proxy decision-making process currently serves as a director or executive officer of the portfolio company.
- The Adviser, any fund managed by the Adviser, or any affiliate holds a significant ownership interest in the portfolio company.

This list is not intended to be exclusive. All employees are obligated to disclose any potential conflict to the Adviser's Chief Compliance Officer.

If a material conflict is identified, Adviser management may (i) disclose the potential conflict to the client and obtain consent; or (ii) establish an ethical wall or other informational barriers between the person(s) that are involved in the conflict and the persons making the voting decisions.

5. RECORDKEEPING The Chief Compliance Officer or his/her designate is responsible for maintaining the following records:

- proxy voting policies and procedures;
- proxy statements (provided, however, that the Adviser may rely on the Securities and Exchange Commission's EDGAR system if the issuer filed its proxy statements via EDGAR or may rely on a third party as long as the third party has provided the Adviser with a copy of the proxy statement promptly upon request);
- records of votes cast and abstentions; and
- any records prepared by the Adviser that were material to a proxy voting decision or that memorialized a decision.
