PROSPECTUS SUMMARY

This summary highlights certain information about us. This summary does not contain all of the information that you should consider before deciding to invest in our Class A common stock. You should read this entire prospectus carefully, including the Risk Factors and the consolidated financial statements and the notes to those statements as well as the other information about the Company, incorporated by reference in this prospectus.

Company Overview

We enable risk-bearing businesses to better understand and manage their risks. We provide value to our customers by supplying proprietary data that, combined with our analytic methods, creates embedded decision support solutions. We are the largest aggregator and provider of detailed actuarial and underwriting data pertaining to U.S. property and casualty, or P&C, insurance risks. We offer solutions for detecting fraud in the U.S. P&C insurance, healthcare and mortgage industries, and sophisticated methods to predict and quantify loss in diverse contexts ranging from natural catastrophes to health insurance.

Our customers use our solutions, in the form of our data, statistical models or tailored analytics, to make more logical decisions. We develop solutions which our customers use to analyze the four key processes in managing risk, in what we define as the Verisk Risk Analysis Framework: Prediction of Loss, Selection and Pricing of Risk, Detection and Prevention of Fraud, and Quantification of Loss.

We organize our business in two segments: Risk Assessment and Decision Analytics.

Risk Assessment: We are the leading provider of statistical, actuarial and underwriting data for the U.S. P&C insurance industry. Our proprietary and unique databases describe premiums and losses in insurance transactions, casualty and property risk attributes for commercial buildings and their occupants and fire suppression capabilities of municipalities in addition to other properties and attributes. Our largest P&C insurance database includes over 14.5 billion records and we updated the database with over 2 billion validated new records in each of the three years ended December 31, 2009. We use our data, for example, to create policy language and proprietary risk classifications that are industry standard and to generate prospective loss cost estimates used to price insurance policies.

Decision Analytics: We provide solutions in each of the four processes of the Verisk Risk Analysis Framework by combining algorithms and analytic methods, which incorporate our proprietary data. Our unique data sets include over 668 million P&C insurance claims, historic natural catastrophe data covering more than 50 countries, and data from more than 50 million applications, borrowers, and third parties for mortgage analytics. Customers integrate our solutions into their models, formulas or underwriting criteria to predict potential loss events, ranging from hurricanes and earthquakes to unanticipated healthcare claims. We are a leading developer of catastrophe and extreme event models and offer solutions covering natural and man-made risks, including acts of terrorism. We also develop solutions that allow customers to quantify costs after loss events occur. Our fraud solutions include data on claim histories, analysis of mortgage applications to identify misinformation, analysis of claims to find emerging patterns of fraud and identification of suspicious claims in the insurance, healthcare and mortgage sectors.

We believe our solutions for analyzing risk positively impact our customers' revenues and help them better manage their costs. The embedded nature of our solutions serves to strengthen and extend our relationships. In 2009, our U.S. customers included all of the top 100 P&C insurance providers, numerous health plans and third party administrators, five of the six leading mortgage insurers, 14 of the top 20 mortgage lenders, and the 10 largest global reinsurers. We believe that our commitment to our customers and embedded nature of our solutions serve to

strengthen and extend our relationships. For example, 99 of our top 100 customers in 2009, as ranked by revenue, have been our customers for each of the last five years. Further, from 2005 to 2009, revenues generated from these top 100 customers grew at a compound annual growth rate, or CAGR, of 12.3%.

We offer our solutions and services primarily through annual subscriptions or long-term agreements, which are typically pre-paid and represented approximately 69% of our revenues for the six months ended

Table of Contents

June 30, 2010. For the year ended December 31, 2009, and the six months ended June 30, 2010, we had revenues of \$1,027.1 million and \$557.8 million and net income of \$126.6 million and \$113.8 million, respectively. For the five year period ended December 31, 2009, our revenues grew at a CAGR of 12.3% and our net income grew at a CAGR of 10.3%, excluding the \$57.7 million non-recurring non-cash charge related to the accelerated ESOP allocation that occurred in the fourth quarter of 2009.

Our Competitive Strengths

We believe our competitive strengths include the following:

Our Solutions are Embedded In Our Customers' Critical Decision Processes. Our customers use our solutions to make better risk decisions and to price risk appropriately. In the U.S. P&C insurance industry, our solutions for prospective loss costs, policy language, rating/underwriting rules and regulatory filing services are the industry standard. In the U.S. healthcare and mortgage industries, our predictive models, loss estimation tools and fraud identification applications are the primary solutions that allow customers to understand their risk exposures and proactively manage them. Over each of the five years ended December 31, 2009, we have retained approximately 98% of our customers across all of our businesses, which we believe reflects our customers' recognition of the value they derive from our solutions.

Extensive and Differentiated Data Assets and Analytic Methods. We maintain what we believe are some of the largest, most accurate, and most complete databases in the markets we serve. Much of the information we provide is not available from any other source and would be difficult and costly for another party to replicate. As a result, our accumulated experience and years of significant investment have given us a competitive advantage in serving our customers.

Culture of Continuous Improvement. Our intellectual capital and focus on continuous improvement have allowed us to develop proprietary algorithms and solutions that assist our customers in making informed risk decisions. Our team includes approximately 800 individuals with advanced degrees, certifications and professional designations in such fields as actuarial science, data management, mathematics, statistics, economics, soil mechanics, meteorology and various engineering disciplines. Our compensation and benefit plans are pay-for-performance- oriented, including incentive compensation plans and substantial equity participation by employees. As of June 30, 2010, our employees owned approximately 20% of the company.

Attractive Operating Model. We believe we have an attractive operating model due to the recurring nature of our revenues, the scalability of our solutions and the low capital intensity of our business.

Our Growth Strategy

Over the past five years, we have grown our revenues at a CAGR of 12.3% through the successful execution of our business plan. These results reflect strong organic revenue growth, new product development and selected acquisitions. We have made, and continue to make, investments in people, data sets, analytic solutions, technology, and complementary businesses. The key components of our strategy include:

Increase Sales to Insurance Customers. We expect to expand the application of our solutions in insurance customers' internal risk and underwriting processes. Building on our deep knowledge of, and embedded position in, the insurance industry, we expect to sell more solutions to existing customers tailored to individual insurance segments. By increasing the breadth and relevance of our offerings, we

believe we can strengthen our relationships with customers and increase our value to their decision making in critical ways.

Develop New, Proprietary Data Sets and Predictive Analytics. We work with our customers to understand their evolving needs. We plan to create new solutions by enriching our mix of proprietary data sets, analytic solutions and effective decision support across the markets we

Table of Contents

serve. We constantly seek to add new data sets that can further leverage our analytic methods, technology platforms and intellectual capital.

Leverage Our Intellectual Capital to Expand into Adjacent Markets and New Customer

Sectors. Our organization is built on nearly four decades of intellectual property in risk management. We believe we can continue to profitably expand the use of our intellectual capital and apply our analytic methods in new markets, where significant opportunities for long-term growth exist. We also continue to pursue growth through targeted international expansion. We have already demonstrated the effectiveness of this strategy with our expansion into healthcare and non-insurance financial services.

Pursue Strategic Acquisitions that Complement Our Leadership Positions. We will continue to expand our data and analytics capabilities across industries. While we expect this will occur primarily through organic growth, we have and will continue to acquire assets and businesses that strengthen our value proposition to customers. We have developed an internal capability to source, evaluate and integrate acquisitions that have created value for shareholders. As of June 30, 2010, we have acquired 16 businesses in the past five and a half years. In the aggregate, revenue for acquisitions prior to December 31, 2009 has increased at a weighted average CAGR of 42.6% over the past 5 years.

Table of Contents

(2) In conjunction with our initial public offering, the stock of Insurance Services Office, Inc. converted to stock of Verisk Analytics, Inc., which then effected a stock split of its common stock. The numbers in the above table reflect this stock split.

(3) EBITDA is the financial measure which management uses to evaluate the performance of our segments.

EBITDA is defined as net income before loss from discontinued operations, investment income and realized (gains)/losses on securities, net, interest expense, provision for income taxes, and depreciation and amortization of fixed and intangible assets.

Although EBITDA is frequently used by securities analysts, lenders and others in their evaluation of companies, EBITDA has limitations as an analytical tool, and should not be considered in isolation, or as a substitute for an analysis of our results of operations or cash flow from operating activities reported under U.S. GAAP.

Management uses EBITDA in conjunction with traditional GAAP operating performance measures as part of its overall assessment of company performance. Some of these limitations are:

EBITDA does not reflect our cash expenditures, or future requirements for capital expenditures or contractual commitments;

EBITDA does not reflect changes in, or cash requirements for, our working capital needs.

(4) Includes capital lease obligations.

(5) Prior to our initial public offering, we were required to record our Class A common stock and vested options at redemption value at each balance sheet date as the redemption of these securities was not solely within our control, due to our contractual obligations to redeem these shares. We classify this redemption value as redeemable common stock. Subsequent to our initial public offering, we are no longer obligated to redeem these shares.

Table of Contents**PRINCIPAL AND SELLING STOCKHOLDERS**

The following table sets forth information regarding beneficial ownership of our Class A common stock and Class B common stock as of September 3, 2010 by:

each person whom we know to own beneficially more than 5% of our common stock;

Please refer to the more detailed provisions of the Amended and Restated Certificate of Incorporation and Amended and Restated Bylaws, copies of which are filed with the Securities and Exchange Commission as exhibits to our registration statement and applicable law.

Common Stock

Voting Rights

Holders of our common stock have the sole right and power to vote on all matters on which a vote of stockholders is to be taken, except as provided by statute or resolution of our board of directors in connection with the issuance of preferred stock in accordance with our Amended and Restated Certificate of Incorporation. The holders of Class A common stock and Class B common stock generally have identical rights, except that only holders of Class A common stock are entitled to vote on the election of Class A directors and only holders of Class B common stock are entitled to vote on the election of Class B directors.

Until the earlier of (a) October 6, 2011 or (b) the date on which there are no shares of Class B common stock issued and outstanding, the amendment of certain of the provisions in our amended and restated certificate of incorporation will require the affirmative vote of at least two-thirds of the votes cast thereon by the outstanding shares of each of the Class A common stock and the Class B common stock, voting separately as a class. These provisions include certain of the limitations described below under Dividend Rights , Liquidation Rights , Transfer Restrictions , Conversion Rights , Beneficial Ownership Limitations and Anti-Takeover Effects of Delaware Law Staggered Boards. From and after the earlier of the events described above, the amendment of the provisions described below under Beneficial Ownership Limitations in our amended and restated certificate of incorporation will require the affirmative vote of at least two-thirds of the voting power of the outstanding shares of common stock.

Dividend Rights

Our Class A common stock and Class B common stock will share equally (on a per share basis) in any dividend declared by our board of directors, subject to any preferential or other rights of any outstanding preferred stock and to the distinction that any stock dividends will be paid in shares of Class A common stock to the holders of our Class A common stock and in shares of Class B common stock to the holders of our Class B common stock.

Liquidation Rights

Upon liquidation, dissolution or winding up, our Class A common stock and Class B common stock will be entitled to receive ratably the assets available for distribution to the stockholders after payment of liabilities and payment of preferential and other amounts, if any, payable on any outstanding preferred stock.

Table of Contents

Transfer Restrictions

Shares of our Class B (Series 1) common stock are not transferable until April 6, 2011. Shares of our Class B (Series 2) common stock are not transferable until October 6, 2011. The above described limitations on transfer are, however, subject to the following exceptions:

any transfer to us by any person or entity;

any transfer of any shares of Class B common stock of either series to any other holder of Class B common stock or its affiliate;

any transfer of any shares of Class B common stock of any applicable series to an affiliate of such holder; and

any transfer by a holder of Class B common stock to any person that succeeds to all or substantially all of the assets of such holder, whether by merger, consolidation, amalgamation, sale of substantially all assets or other similar transactions.

Our board of directors may approve exceptions to the limitation on transfers of our Class B common stock in their sole discretion, in connection with the sale of such Class B common stock in a public offering registered with the Securities and Exchange Commission or in such other limited circumstances as our board of directors may determine. Any Class B common stock sold to the public will first be converted to Class A common stock.

Conversion

Our Class A common stock is not convertible into any other shares of our capital stock. On April 6, 2011, each share of Class B (Series 1) common stock shall convert automatically, without any action by the holder, into one share of Class A common stock. On October 6, 2011, each share of Class B (Series 2) common stock shall convert automatically, without any action by the holder, into one share of Class A common stock. The conversion rate applicable to any conversion of shares of our Class B common stock shall always be one-to-one (i.e., one share of Class B common stock will, upon transfer, be converted into one share of Class A common stock).

Once transferred and converted into Class A common stock, the Class B common stock shall not be reissued. No class of common stock may be subdivided or combined unless the other class of common stock concurrently is subdivided or combined in the same proportion and in the same manner.

No conversions of shares of Class B common stock will be effected prior to the expiration of the transfer restrictions described under *Transfer Restrictions*, although our board of directors may make exceptions to such transfer restrictions, including in connection with a registered public offering of our Class A common stock, such as the transaction described in this prospectus.

Beneficial Ownership Limitations

Our amended and restated certificate of incorporation prohibits any insurance company from beneficially owning more than ten percent of the aggregate outstanding shares of our common stock. If any transfer is purportedly effected which, if effected, would result in a violation of this limitation, the intended transferee will acquire no rights in respect of the shares in excess of this limitation, and the purported transfer of such number of excess shares will be null and void. In this context an insurance company means any insurance company whose primary activity is the writing of

insurance or the reinsuring of risks underwritten by insurance companies or any other entity controlling, controlled by or under common ownership, management or control with such insurer or reinsurer.

Preferred Stock

The board of directors has the authority to issue the preferred stock in one or more series and to fix the rights, preferences, privileges and restrictions thereof, including dividend rights, dividend rates, conversion

Table of Contents

rights, voting rights, terms of redemption, redemption prices, liquidation preferences and the number of shares constituting any series or the designation of such series, without further vote or action by the stockholders. The issuance of preferred stock may have the effect of delaying, deferring or preventing a change in control of the Company without further action by the stockholders and may adversely affect the voting and other rights of the holders of common stock. At present, we have no plans to issue any of the preferred stock.

Anti-Takeover Effects of Delaware Law

We are subject to the business combination provisions of Section 203 of the Delaware General Corporation Law. In general, such provisions prohibit a publicly held Delaware corporation from engaging in various business combination transactions with any interested stockholder for a period of three years after the date of the transaction in which the person became an interested stockholder, unless

the transaction is approved by the board of directors prior to the date the interested stockholder obtained such status;

upon consummation of the transaction which resulted in the stockholder becoming an interested stockholder, the stockholder owned at least 85% of the voting stock of the corporation outstanding at the time the transaction commenced; or

on or subsequent to such date the business combination is approved by the board of directors and authorized at an annual or special meeting of stockholders by the affirmative vote of at least 66 2/3% of the outstanding voting stock which is not owned by the interested stockholder.

A business combination is defined to include mergers, asset sales and other transactions resulting in financial benefit to a stockholder. In general, an interested stockholder is a person who, together with affiliates and associates, owns (or within three years, did own) 15% or more of a corporation's voting stock. The statute could prohibit or delay mergers or other takeover or change in control attempts with respect to the Company and, accordingly, may discourage attempts to acquire us even though such a transaction may offer our stockholders the opportunity to sell their stock at a price above the prevailing market price.

Advance Notice of Proposals and Nominations

Our bylaws establish advance notice procedures with regard to stockholders' proposals relating to the nomination of candidates for election as directors or other business to be brought before meetings of its stockholders. These procedures provide that notice of such stockholders' proposals must be timely given in writing to our secretary prior to the meeting at which the action is to be taken. Generally, to be timely, notice must be received at our principal executive offices not less than 60 days nor more than 90 days prior to the first anniversary date of the annual meeting for the preceding year. The notice must contain certain information specified in the bylaws.

Limits on Written Consents

Our amended and restated certificate of incorporation prohibits stockholder action by written consent.

Limits on Special Meetings

Our amended and restated certificate of incorporation and bylaws provide that special meetings of the stockholders may be called by our board of directors, the chairman of the board, the Chief Executive Officer, the President or our Secretary.

Staggered Boards

Our board of directors is divided into three classes serving staggered terms. The number of directors will be fixed by our board of directors, subject to the terms of our amended and restated certificate of incorporation. Until the earlier of (a) October 6, 2011, or (b) the date on which there are no shares of Class B

Table of Contents

common stock issued and outstanding, our board of directors will consist of between 11 and 13 directors, and will be comprised as follows:

between eight to ten Class A directors; and

three Class B directors.

Vacancies on our board of directors among the Class A directors will be filled by a majority of the remaining Class A directors and vacancies among the Class B directors will be filled by a majority of the remaining Class B directors.

From and after the earlier of the events described above, there will no longer be Class B directors, and each director will be elected for a three-year term by the holders of a plurality of the votes cast by the holders of shares of common stock present in person or represented by proxy at the meeting and entitled to vote on the election of the directors.

Listing

Our Class A common stock is listed on the NASDAQ Global Select Market under the symbol VRSK.

Listing on NASDAQ

Our Class A common stock is listed for trading on the NASDAQ Global Select Market under the symbol VRSK. On September 15, 2010, the last sale price of the shares as reported on the NASDAQ Global Select Market was \$28.42 per share.

Price Stabilization, Short Positions and Penalty Bids

Until the distribution of the shares is completed, Securities and Exchange Commission rules may limit the ability of the underwriters and selling group members from bidding for and purchasing our Class A common stock. However, the representatives may engage in transactions that stabilize the price of our Class A common stock, such as bids or purchases to peg, fix or maintain that price.

If the underwriters create a short position in the Class A common stock in connection with the offering, i.e., if they sell more shares than are listed on the cover of this prospectus, the representatives may elect to reduce any short position by purchasing shares in the open market. The representatives may also elect to reduce any short position by exercising all or part of the over-allotment option described above. The underwriters may sell more shares than could be covered by exercising all of the over-allotment option, in which case they would have to cover these sales through open market purchases. Purchases of the Class A common stock to stabilize its price or to reduce a short position may cause the price of the Class A common stock to be higher than it might be in the absence of such purchases.

The representatives may also impose a penalty bid on underwriters and selling group members. This means that if the representatives purchase our Class A common stock in the open market to reduce the

Table of Contents

underwriters' short position or to stabilize the price of such Class A common stock, they may reclaim the amount of the selling concession from the underwriters and selling group members who sold those shares. The imposition of a penalty bid may also affect the price of the shares in that it discourages resales of shares.

Neither we nor any of the underwriters makes any representation or prediction as to the direction or magnitude of any effect that the transactions described above may have on the price of our Class A common stock. In addition, neither we nor any of the underwriters makes any representation that the representatives will engage in these transactions or that these transactions, once commenced, will not be discontinued without notice.

Other than this prospectus in electronic format, the information concerning any underwriter's web site and any information contained in any other web site maintained by an underwriter is not intended to be part of this prospectus or the registration statement, has not been approved and/or endorsed by us or any underwriter in its capacity as underwriter. offer. Neither we nor the underwriters have authorized, nor do they authorize, the making of any offer of securities through any financial intermediary, other than offers made by the underwriters which constitute the final offering of securities contemplated in this prospectus.

For the purposes of this provision, the expression an offer to the public in relation to any shares in any Relevant Member State means the communication in any form and by any means of sufficient information on the terms of the offer and any shares to be offered so as to enable an investor to decide to purchase any shares, as the same may be varied in that Member State by any measure implementing the Prospectus Directive in that Member State and the expression Prospectus Directive means Directive 2003/71/EC and includes any relevant implementing measure in each Relevant Member State.

Each person in a Relevant Member State who receives any communication in respect of, or who acquires any securities under, the offer of securities contemplated by this prospectus will be deemed to have represented, warranted and agreed to and with us and each underwriter that:

(A) it is a qualified investor within the meaning of the law in that Relevant Member State implementing Article 2(1)(e) of the Prospectus Directive; and

(B) in the case of any securities acquired by it as a financial intermediary, as that term is used in Article 3(2) of the Prospectus Directive, (i) the securities acquired by it in the offering have not been acquired on behalf of, nor have they been acquired with a view to their offer or resale to, persons in any Relevant Member State other than qualified investors (as defined in the Prospectus Directive), or in circumstances in which the prior consent of the representatives has been given to the offer or resale; or (ii) where securities have been acquired by it on behalf of persons in any Relevant Member State other than qualified investors, the offer of those securities to it is not treated under the Prospectus Directive as having been made to such persons.

In addition, in the United Kingdom, this document is being distributed only to, and is directed only at, and any offer subsequently made may only be directed at persons who are qualified investors (as defined in the Prospectus Directive) (i) who have professional experience in matters relating to investments falling within Article 19 (5) of the Financial Services and Markets Act 2000 (Financial Promotion) Order 2005, as amended (the Order) and/or (ii) who are high net worth companies (or persons to whom it may otherwise be lawfully communicated) falling within Article 49(2)(a) to (d) of the Order (all such persons together being referred to as relevant persons). This document must not be acted on or relied on in the United Kingdom by persons who are not relevant persons. In the United Kingdom, any investment or investment activity to which this document relates is only available to, and will be engaged in with, relevant persons.

(a) Insofar as indemnification for liabilities arising under the Securities Act of 1933 may be permitted to directors, officers and controlling persons of the registrant pursuant to the provisions referenced in Item 14 of this Registration Statement, or otherwise, the registrant has been advised that in the opinion of the Securities and Exchange Commission such indemnification is against public policy as expressed in the Act and is, therefore, unenforceable. (b) The undersigned registrant hereby undertakes that:

(1) For purposes of determining any liability under the Securities Act of 1933, the information omitted from the form of prospectus filed as part of this Registration Statement in reliance upon Rule 430A and contained in a form of prospectus filed by the Registrant pursuant to Rule 424(b)(1) or (4) or 497(h) under the Securities Act shall be deemed to be part of this Registration Statement as of the time it was declared effective.

(2) For the purpose of determining any liability under the Securities Act of 1933, each post-effective amendment that contains a form of prospectus shall be deemed to be a new Registration Statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof.
