Management Performance and Financial Conditions**(1) Outline of Operations and Business Results**

Komatsu Ltd. (Company) and its consolidated subsidiaries (together Komatsu) launched the new three-year management plan, Global Teamwork for Tomorrow in April this year. Under this new mid-range management plan, Komatsu began concerting efforts on activities of importance, including 1) promotion of ICT applications to products and parts, 2) development of products for improved environmental friendliness and safety, 3) expansion of sales and service operations in Strategic Markets which include China, Asia and Latin America and 4) promotion of continuous Kaizen (improvement) by strengthening workplace capability.

During the first six-month period (April 1 – September 30, 2010) of the first fiscal year of the new three-year management plan, China and other emerging economies recovered soundly against the backdrop of positive effects from continuous economic stimulus packages of concerned governments. Demand for construction and mining equipment not only advanced in Strategic Markets but also turned for slow recovery in Traditional Markets of Japan, North America and Europe. Demand improved from the corresponding six-month period a year ago in all regions of the world. Demand for industrial machinery also headed for recovery in the first six-month period under review.

By capitalizing on these market growths, Komatsu increased consolidated net sales to JPY859.7 billion (USD10,235 million, at USD1=JPY84) for the first six-month period, up 33.1% over the corresponding period a year ago. While the Japanese currency appreciated sharply against the U.S. dollar and Euro and Renminbi, Komatsu worked to improve productivity in addition to expanding sales. As a result, operating income advanced by 425.2% to JPY103.9 billion (USD1,237 million) for the six-month period. Operating income ratio improved to 12.1%, up 9 percentage points from the corresponding period a year ago. Income before income taxes and equity in earnings of affiliated companies advanced to JPY100.1 billion (USD1,192 million), up 442.5%. Net income attributable to Komatsu Ltd. totaled JPY63.7 billion (USD759 million), an increase of 677.8% from the previous first six-month period.

	Millions of yen

Net income attributable to Komatsu Ltd.	63,764	8,198	677.8%

Business results by operation are described below.

Construction, Mining and Utility Equipment

Anticipating the mid- to long-range growth of Strategic Markets, Komatsu continued to expand production capacity and strengthen sales and product support capabilities during the six-month period under review. While demand remained at a high level, particularly in China, Asia and Latin America, demand made moderate recovery in Traditional Markets, namely, Japan, North America and Europe. By zooming in on demand recovery on a global scale, Komatsu expanded its first six-month sales by 34.1% over the previous first six-month period, to JPY763.6 billion (USD9,091 million).

Total	763,645	569,605	194,040	34.1%

* Excluding Japan and China

Japan

As public-sector investment was firm, resulting from the government's economic measures, and private-sector investment was steady, demand for construction equipment turned for recovery, although it was moderate. Demand increased, centering on the rental equipment industry, and first six-month sales in Japan improved from the corresponding period a year ago.

Operating rates of Komatsu plants improved in Japan, especially those for key components such as engines and hydraulic equipment, as demand remained strong, particularly in Strategic Markets. Anticipating further growth in demand, Komatsu Castex Ltd., headquartered in Himi City, Toyama Prefecture, expanded its production capacity by opening a new plant for iron castings for engine parts.

Americas

In North America, economies fell short of full-momentum recovery and demand in the housing sector was sluggish. However, demand increased from the corresponding period a year ago, mainly as the utilization rates of construction equipment improved slowly but steadily, and the rental industry was able to normalize the level of its machine assets. In Latin America, demand in the mining industry accelerated in Chile, and demand remained strong in mining, civil engineering and agricultural sectors in Brazil, the largest Latin American market. In addition to these market recoveries, Komatsu strengthened its sales and product support activities. As a result, first six-month sales in the Americas improved from the corresponding period a year ago.

Europe & CIS

Demand stopped declining in Europe in the current fiscal year, and demand in western Europe, centering on Germany and the U.K. made moderate recovery. In addition to this market recovery, Komatsu worked to strengthen its product support capability and expand sales of parts by teaming up with its distributors. First six-month sales in Europe increased from the corresponding period a year ago. In CIS, demand for mining equipment advanced particularly for use in the development of natural resources. First six-month sales in CIS also grew from the previous first six-month period.

Against this backdrop, Komatsu Manufacturing Rus, LLC, which opened in June this year, is going to produce HD785 large dump trucks in the second half period of the fiscal year ending March 31, 2012 in order to capitalize on mid- to long-range demand for mining equipment in this resource-rich country. By expanding the product range for Komatsu Manufacturing Rus production, Komatsu will be better positioned to reduce logistics costs and inventory and further strengthen its product support operation.

China

Demand continued to increase in China, where urbanization advanced and infrastructure development projects continued under the leadership of the Chinese government. First six-month sales in China increased from the previous first six-month sales. As the development of open-pit mines is in good progress, Komatsu has received steady orders for mining equipment, including recent orders for 44 units of the 930E super large dump truck produced by Komatsu America Corp.

By anticipating stable market expansion into the future, Komatsu worked to reinforce production, sales and service operations. Specific measures included the plant relocation of Komatsu (Changzhou) Construction Machinery Corp., start-up preparations of Komatsu (Shandong) Cast Steel Co., Ltd., the establishment of Komatsu China Mining Limited to engage in sales and product support exclusively for large-scale mining companies, and preparations for the opening of the KC Techno Center.

Asia & Oceania

In Indonesia, the largest market of Southeast Asia, demand for mining equipment continued to expand, while demand remained strong in the civil engineering, agriculture and forestry sectors. Demand was also good in India, Thailand and Malaysia. In Australia, demand for mining equipment continued to grow. Under such market conditions, sales accelerated in Asia, and therefore, the first six-month sales in Asia & Oceania increased from the corresponding period a year ago. In Asia, Komatsu concerted efforts to introduce KOMTRAX-installed equipment to more regions. In Australia, Komatsu continued to reinforce sales and product support operations, including the reorganization of Komatsu Australia Pty Ltd in August 2010 with an eye to further strengthening its capabilities as a distributor.

Middle East & Africa

In addition to economies beginning to recover in both regions, commodities prices increased, although they were moderate, and therefore, demand was strong especially in the mining sector. As a result, first six-month sales in the Middle East & Africa improved from the corresponding period a year ago. Komatsu is expecting market expansion into the future to be accompanied by the development of new mines and the recovery of infrastructure development. Komatsu worked to reinforce its product support capability. For example, Komatsu established a training center jointly with a distributor in Kenya in April this year, following the training center opened in Senegal in the previous fiscal year.

Industrial Machinery and Others

In the industrial machinery and others business, Komatsu expanded sales of wire saws for use in slicing silicon ingots, as capital investment remained brisk in Asia, centering on China, for the solar cell market. As a result, first six-month sales advanced by 25.9% from the corresponding period a year ago, to JPY96.1 billion (USD1,144 million). In Strategic Markets such as China, India and Brazil, capital investment by the automobile manufacturing industry upturned for recovery, and Komatsu received more orders for large presses and other machinery.

Under such market conditions, Komatsu concerted efforts to further enhance the competitive strength of its industrial machinery business. Komatsu NTC Ltd. decided to build a new plant designed to expand its production capacity of wire saws and other machinery. In the press business, Komatsu Industries Corporation was reorganized to engage in the development, sales and service of all presses ranging from large to small capacities.

(2) Financial Conditions

As of September 30, total assets had decreased by JPY36.5 billion from the previous fiscal year-end, to JPY1,922.5 billion (USD22,887 million), largely due to the Japanese yen's appreciation against other major currencies. Interest-bearing debt decreased by JPY60.4 billion from the previous fiscal year-end, to JPY525.9 billion (USD6,261 million). Komatsu Ltd. shareholders' equity increased by JPY9.0 billion from the previous fiscal year-end, to JPY842.9 billion (USD10,035 million). As a result, Komatsu Ltd. shareholders' equity ratio increased by 1.2 percentage points from the previous fiscal year-end, to 43.8%. Net debt-to-equity ratio* was 0.52 compared to 0.60 as of the previous fiscal year-end.

* *Net
debt-to-equity
ratio =
(Interest-bearing
debt Cash and
cash equivalents
Time deposits) /
Komatsu Ltd.
shareholders
equity*

For the first six-month period under review, net cash provided by operating activities increased by JPY15.3 billion from the corresponding period a year ago, to JPY102.8 billion (USD1,224 million), largely due to an increase in net income. Net cash used in investing activities decreased by JPY9.5 billion from the corresponding period a year ago, to JPY35.5 billion (USD423 million). Net cash used in financing activities increased by JPY16.0 billion from the corresponding period a year ago, to JPY54.2 billion (USD646 million), mainly due to repayments on short-term debt. As a result, cash and cash equivalents, as of September 30, 2010, totaled JPY90.6 billion (USD1,079 million), an increase of JPY8.2 billion from the previous fiscal year-end.

(3) Projections for the Fiscal Year Ending March 31, 2011

(From April 1, 2010 to March 31, 2011)

In the construction, mining and utility equipment business, Komatsu can look forward to further improving productivity against the backdrop of expanding sales volume as market demand remains strong in regions. In the industrial machinery and others business, sales of wire saws have been accelerating, particularly since the start of the current fiscal year. So, although we are anticipating the negative factor of the Japanese currency appreciating against the U.S. dollar and Renminbi, we are expecting that both sales and profits will surpass the respective figures we projected in July 2010.

As preconditions for our current projections, we are assuming the foreign exchange rates in the third and fourth quarters to be as follows: USD1 = JPY82, EUR1 = JPY114 and RMB1 = JPY12.3.

	Earlier projection [A]	Current projection [B]	Millions of yen Changes		Results for FY ended March 31, 2010
			[B-A]	[(B-A)/A]	
Net sales	1,715,000	1,760,000	45,000	2.6%	1,431,564
Operating income	179,000	200,000	21,000	11.7%	67,035
Income before income taxes and equity in earnings of affiliated companies	171,000	192,000	21,000	12.3%	64,979
Net income attributable to Komatsu Ltd.	105,000	120,000	15,000	14.3%	33,559

[Reference]**Projections of the Company for the Fiscal Year Ending March 31, 2011**

Similar to the revised projections for consolidated business results, the Company is projecting that net sales will outperform our projection of July 2010. With respect to profits, we are also estimating that they will surpass our projections. This estimate is supported by our improved productivity against the backdrop of expanding sales volume, which should cancel out the negative factor of the Japanese currency appreciation against the U.S. dollar.

	Earlier projection [A]	Current projection [B]	Millions of yen Changes		Results for FY ended March 31, 2010
			[B-A]	[(B-A)/A]

Cautionary Statement

The announcement set forth herein contains forward-looking statements which reflect management's current views with respect to certain future events, including expected financial position, operating results, and business strategies. These statements can be identified by the use of terms such as will, believes, should, projects and similar terms or expressions that identify future events or expectations. Actual results may differ materially from those projected, and the events and results of such forward-looking assumptions cannot be assured. Factors that may cause actual results to differ materially from those predicted by such forward-looking statements include, but are not limited to, unanticipated changes in demand for Komatsu's principal products, owing to changes in the economic conditions in Komatsu's principal markets; changes in exchange rates or the impact of increased competition; unanticipated cost or delays encountered in achieving Komatsu's objectives with respect to globalized product sourcing and new Information Technology tools; uncertainties as to the results of Komatsu's research and development efforts and its ability to access and protect certain intellectual property rights; and, the impact of regulatory changes and accounting principles and practices.

Corporate Communications Dept.

Tel: +81-(0)3-5561-2616

Date: October 28, 2010

URL: <http://www.komatsu.com/>**Announcement Concerning the Revision of Projected Business Results**

Komatsu Ltd. (hereinafter Company) (President and CEO: Kunio Noji) has revised the projections for consolidated and non-consolidated business results for the fiscal year ending March 31, 2011, which the Company announced on July 13, 2010.

1. Projections for Consolidated Business Results for the Fiscal Year Ending March 31, 2011 (U.S. GAAP)

	Earlier projection [A]	Current projection [B]	Millions of yen except		per share amounts Results for FY ended March 31, 2010
			Changes		
			[B-A]	[(B-A)/A]	
Net sales	1,715,000	1,760,000	45,000	2.6%	1,431,564
Operating income	179,000	200,000	21,000	11.7%	67,035
Income before income taxes and equity in earnings of affiliated companies	171,000	192,000	21,000	12.3%	64,979
Net income attributable to Komatsu Ltd.	105,000	120,000	15,000	14.3%	33,559
Net income attributable to Komatsu Ltd. per share (Yen)	108.47	124.00			34.67

2. Projections for Non-consolidated Business Results for the Fiscal Year Ending March 31, 2011

	Earlier projection [A]	Current projection [B]	Millions of yen except		per share amounts Results for FY ended March 31, 2010
			Changes		
			[B-A]	[(B-A)/A]	
Net sales	665,000	690,000	25,000	3.8%	457,676
Operating profit (loss)	65,000	67,000	2,000	3.1%	(26,829)
Ordinary profit (loss)	72,000	74,000	2,000	2.8%	(1,120)
Net income	40,000	42,000	2,000	5.0%	2,378
Net income per share (Yen)	41.30	43.37			2.46

3. Reasons for the Revision

[Projections for Consolidated Business Results]

In the construction, mining and utility equipment business, Komatsu can look forward to further improving productivity against the backdrop of expanding sales volume as market demand remains strong in regions. In the industrial machinery and others business, sales of wire saws have been accelerating, particularly since the start of the current fiscal year. So, although we are anticipating the negative factor of the Japanese currency appreciating against the U.S. dollar and Renminbi, we are expecting that both sales and profits will surpass the respective figures we projected in July 2010.

[Projections for Non-consolidated Business Results]

Similar to the revised projections for consolidated business results, The Company is projecting that net sales will outperform its projection of July 2010. With respect to profits, it is also estimating that they will surpass its projections. This estimate is supported by improved productivity against the backdrop of expanding sales volume, which should cancel out the negative factor of the Japanese currency's appreciation against the U.S. dollar.

As preconditions for our current projections, Komatsu is assuming the foreign exchange rates in the third and fourth quarters to be as follows: USD1 = JPY82, EUR1 = JPY114 and RMB1 = JPY12.3.

Cautionary Statement

The announcement set forth herein contains forward-looking statements which reflect management's current views with respect to certain future events, including expected financial position, operating results, and business strategies. These statements can be identified by the use of terms such as will, believes, should, projects and similar terms or expressions that identify future events or expectations. Actual results may differ materially from those projected, and the events and results of such forward-looking assumptions cannot be assured. Factors that may cause actual results to differ materially from those predicted by such forward-looking statements include, but are not limited to, unanticipated changes in demand for Komatsu principal products, owing to changes in the economic conditions in Komatsu principal markets; changes in exchange rates or the impact of increased competition; unanticipated cost or delays encountered in achieving Komatsu objectives with respect to globalized product sourcing and new Information Technology tools; uncertainties as to the results of Komatsu research and development efforts and its ability to access and protect certain intellectual property rights; and, the impact of regulatory changes and accounting principles and practices.

For Immediate Release**Komatsu Ltd.**

Corporate Communications Dept.

Tel: +81-(0)3-5561-2616

Date: October 28, 2010

URL: <http://www.komatsu.com/>**Payment of Cash Dividends and Revision of Year-End Cash Dividends**

In the Board meeting held on October 28, 2010, the Board of Directors of Komatsu Ltd. (hereinafter Company) (President and CEO: Kunio Noji) made a resolution concerning the following cash dividends as of September 30, 2010, the date of record. The Company also revised the projection of year-end dividends for fiscal year ending March 31, 2011.

1. Contents of the Interim Dividends

	Detailed dividends resolved to be distributed September 30, 2010	Latest projection (announced on April 27, 2010) Same as on left	Interim results for FY ended March 31, 2010 September 30, 2009
Record date

Effective date	November 26, 2010		November 27, 2009
Resource for dividend	Retained earnings		Retained earnings

2. Revision of Year-end Dividends

	Yen		
	Cash dividends per share		
	Interim	Year-end	Total
Record date			
Earlier projection	14	14	28
Current projection		18	36
Results for FY ending March 31, 2011	18		
Results for FY ended March 31, 2010	8	8	16

3. Reasons for the Revision

Komatsu is building a sound financial position and flexible and agile corporate strengths to increase its corporate value. Concerning cash dividends to shareholders, the Company maintains the policy of redistributing profits by considering consolidated business results and continuing stable dividends. Specifically, the Company has set the goal of a consolidated payout ratio of 20% or higher. Further, it maintains the policy of not decreasing dividends, as long as the consolidated payout ratio does not surpass 40%.

For the first six-month period (April 1 through September 30, 2010) of the current fiscal year ending March 31, 2011, Komatsu recorded good business results in both the construction, mining and utility equipment business and the industrial machinery and others business. Komatsu is expecting to enjoy continuing good business for the full year as well. Therefore, Komatsu has decided to revise upward its earlier projection of business results.

After considering the interim business results and the future business outlook of Komatsu, the Board of Directors set the interim dividends at JPY18 per share, an increase of JPY4 from the projected amount announced on April 27, 2010. The Company has also revised and set the year-end dividends at JPY18 per share, an increase of JPY4 yen from the earlier projection. As a result of these revisions, cash dividends for the year, ending March 31, 2010, will be

JPY36 per share, an increase of JPY20 from the previous fiscal year.
