ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF RESULTS OF OPERATIONS AND FINANCIAL CONDITION

RESULTS OF OPERATIONS

First Quarter Ended December 31, 2002 versus First Quarter Ended December 31, 2001

The company achieved record first quarter net sales of \$696.8 million in fiscal year 2003, up \$82.5 million or 13.4% over the comparable period of the prior year.

Net earnings were \$36.0 million for the three months ended December 31, 2002 or 22.9% higher than the prior year's first quarter net earnings of \$29.3 million. Basic earnings per share of 62 cents in the first quarter of fiscal year 2003 were 10 cents or 19.2% higher than the same period of fiscal year 2002. Diluted earnings per share for the current quarter increased 20.0% to 60 cents from 50 cents in the same period of the prior year.

Effective October 1, 2002, the company's consumer products business was reorganized into two divisions. A new division, Alberto-Culver Consumer Products Worldwide, is comprised of the former Alberto-Culver North America business segment and the former Alberto-Culver International business segment excluding the operations of Cederroth International. The second division is Cederroth International, which manufactures, markets and distributes beauty and health care products throughout Scandinavia and in Europe. Beginning in fiscal year 2003, the company has two segments for external financial reporting purposes: Global Consumer Products, which includes the two aforementioned consumer products divisions, and Specialty Distribution - Sally, which is the same segment as previously reported. Prior year information has been reclassified to conform to the new segment presentation.

Compared to the same period of the prior year, sales of Global Consumer Products increased 7.9% in the first quarter of fiscal year 2003. The increase was primarily due to higher sales of St. Ives Swiss Formula skin care products and TRESemmé and Alberto VO5 hair care products. Had foreign exchange rates this year been the same as the first quarter of fiscal 2002, Global Consumer Products sales would have increased 7.7%.

The Specialty distribution - Sally business segment achieved a sales increase of 16.4% for the first quarter of fiscal year 2003. The increase was mainly attributable to the expansion of Sally's full-service operations, including the December, 2001 acquisition of Armstrong-McCall, higher sales for established Sally Beauty Company outlets and the addition of stores during the year. At December 31, 2002, Sally Beauty Company had 2,743 stores, including 139 franchise stores, offering a full range of professional beauty supplies.

Cost of products sold as a percentage of net sales remained unchanged at 50.6% for the first quarter of fiscal year 2003 compared to the first quarter of the prior year.

## Edgar Filing: ALBERTO CULVER CO - Form 10-Q

Compared to the prior year, advertising, marketing, selling and administrative expenses in fiscal year 2003 increased \$29.4 million or 11.6% for the first quarter. The increase primarily resulted from the higher selling and administrative costs associated with the growth of the Sally Beauty Company business and higher expenditures for advertising and marketing.

Advertising and marketing expenditures were \$49.4 million and \$46.1 million in fiscal years 2003 and 2002, respectively. The increase primarily resulted from higher domestic advertising expenditures for St. Ives Swiss Formula lotions.

Net interest expense in fiscal year 2003 increased \$253,000 for the first quarter compared to the same period of the prior year. The increase was primarily attributable to a decrease in interest income mainly due to lower interest rates on investments.

The provision for income taxes as a percentage of earnings before income taxes was 36.0% for the first quarter of fiscal year 2003 compared to 35.0% for the first quarter of the prior year. The higher 2003 tax rate is mainly due to the mix of taxable earnings.

ALBERTO-CULVER COMPANY AND SUBSIDIARIES

FINANCIAL CONDITION

December 31, 2002 versus September 30, 2002

Working capital at December 31, 2002 was \$569.3 million, an increase of \$45.5 million from \$523.8 million at September 30, 2002. The resulting ratio of current assets to current liabilities was 2.36 to 1.00 at December 31, 2002 compared to 2.14 to 1.00 at September 30, 2002. The increase in working capital and the ratio of current assets to current liabilities was primarily due to net working capital generated from the growth of the company, partially offset by cash outlays for capital expenditures, cash dividends and purchases of treasury shares.

Cash and cash equivalents decreased \$21.8 million during the first quarter of fiscal year 2003 primarily due to cash flow used by operating activities and cash paid for capital expenditures, stock purchased for treasury and cash dividends, partially offset by cash received from the exercise of stock options.

Inventories increased \$26.2 million to \$548.4 million during the first quarter of fiscal year 2003 primarily due to the growth of both the Sally Beauty and Global Consumer Products businesses.

Accounts payable decreased \$19.2 million to \$214.8 million during the first three months of fiscal year 2003 mainly due to the timing of inventory purchases and vendor payments.

Accrued expenses decreased \$32.3 million during the first quarter of fiscal year 2003 primarily due to payments under various incentive plans and semi-annual interest payments on the company's \$320 million of public debt securities.

Income taxes payable and deferred income taxes increased \$13.1 million or 24.8% during the first three months of fiscal year 2003 primarily due to the timing of tax payments.

Accumulated other comprehensive income - foreign currency translation decreased \$9.9 million during the first quarter of fiscal year 2003 mainly due to the weakening of the U.S. dollar versus certain foreign currencies, primarily the British pound and Swedish krona.

LIQUIDITY AND CAPITAL RESOURCES

## Edgar Filing: ALBERTO CULVER CO - Form 10-Q

During the first quarter of fiscal year 2003, the company's operating activities used \$8.9 million of cash primarily due to the increase in inventories and decreases in accounts payable and accrued expenses as discussed above in Financial Condition. The company expects that fiscal year 2003 operating activities will generate cash flows sufficient to support the business. For the three-year period ended September 30, 2002, the company's operating activities provided cash totaling \$516.0 million.
