PROXY STATEMENT

2002 ANNUAL MEETING OF STOCKHOLDERS

September 27, 2002

INFORMATION ABOUT ATTENDING THE ANNUAL MEETING

Our Annual Meeting will be held on Friday, November 8, 2002, at 10:00 a.m. at The Omni Houston Hotel located at Four Riverway, Houston, Texas 77056.

INFORMATION ABOUT THIS PROXY STATEMENT

We sent you these proxy materials because our Board of Directors is soliciting your proxy to vote your shares at the Annual Meeting. We began mailing these proxy materials to stockholders on or about September 27, 2002.

WHO CAN VOTE

You can vote at the Annual Meeting if you owned shares at the close of business on September 10, 2002. You are entitled to one vote for each share you owned on that date on each matter presented at the Annual Meeting.

On September 10, 2002, there were 657,722,693 shares of common stock outstanding. We do not know of any person or group who owned more than 5% of our common stock as of this date. All of our directors, director nominees and executive officers (25 persons) owned an aggregate of 3,248,764 shares, which was less than 1% of our outstanding stock as of September 10, 2002. We expect that these individuals will vote their shares in favor of electing the four nominees named below, and against the shareholder proposals.

HOW TO VOTE

You may vote your shares as follows:

- in person at the Annual Meeting;
- by telephone (see the enclosed proxy card for instructions);
- by Internet (see the enclosed proxy card for instructions); or
- by mail by signing, dating and mailing the enclosed proxy card.

If you vote by proxy, the individuals named on the proxy card (your proxies) will vote your shares in the manner you indicate. You may specify whether your shares should be voted for all, some or none of the nominees for director, and whether your shares should be voted for or against the shareholder proposals.

If you sign and return your proxy card without indicating your instructions, your shares will be voted FOR the election of the four nominees for director, and AGAINST the shareholder proposals.

If your shares are not registered in your own name and you plan to attend the Annual Meeting and vote your shares in person, you should contact your broker or agent in whose name your shares are registered to obtain a proxy

Edgar Filing: SYSCO CORP - Form DEF 14A

executed in your favor and bring it to the Annual Meeting in order to vote.

HOW TO REVOKE OR CHANGE YOUR VOTE

You may revoke or change your proxy at any time before it is exercised by:

- delivering written notice of revocation to SYSCO's Corporate Secretary in time for him to receive it before the Annual Meeting;
- voting again by telephone, Internet or mail; or
- voting in person at the Annual Meeting.

The last vote that we receive from you will be the vote that is counted.

QUORUM REQUIREMENT

A quorum is necessary to hold a valid meeting. A quorum will exist if the holders of at least 35% of all the shares entitled to vote at the meeting are present in person or by proxy. Abstentions and broker non-votes are counted as present for establishing a quorum. A broker non-vote occurs when a broker votes on some matter on the proxy card but not on others because the broker does not have the authority to do so.

VOTES NECESSARY FOR ACTION TO BE TAKEN

Four directors will be elected at the meeting by a plurality of all the votes cast at the meeting, meaning that the four nominees for director with the most votes will be elected. The affirmative vote of a majority of all of the votes cast is required to approve the shareholder proposals. Abstentions will have no effect on the election of directors, but will be counted as votes "against" the other proposals. Broker non-votes will have no effect on the election of directors or on any other proposal.

WHO WILL COUNT VOTES

We will select one or more Inspectors of Election who will determine the number of shares of voting stock outstanding, the voting power of each, the number of shares represented at the Annual Meeting, the existence of a quorum and whether or not proxies are valid and effective.

The Inspectors of Election will determine any challenges and questions arising in connection with the right to vote and will count all votes cast for and against and any abstentions with respect to all proposals and will determine the results of each vote.

COST OF PROXY SOLICITATION

We will pay the cost of solicitation of proxies including preparing, printing and mailing this proxy statement. We will authorize banks, brokerage houses and other custodians, nominees and fiduciaries to forward copies of proxy materials and will reimburse them for their costs in sending the materials.

We have retained MacKenzie Partners, Inc. to help us solicit proxies from these entities and certain individual stockholders, in writing or by telephone, at an estimated fee of \$12,500 plus reimbursement for their expenses.

RECEIVING PROXY MATERIALS ON THE INTERNET

Registered stockholders may sign up on the Internet to receive future proxy materials and other stockholder communications on the Internet instead of by

Edgar Filing: SYSCO CORP - Form DEF 14A

mail. This will reduce our printing and postage costs. In order to receive the communications electronically, you must have an e-mail account, access to the Internet through an Internet service provider and a web browser that supports secure connections. You can access the Internet site at www.econsent.com/syy for additional information and to sign up. You will be asked to enter the number of your stock account with our transfer agent, EquiServe Trust Company, N.A. That number is shown on dividend checks, on stock certificates and on your proxy card. After you have provided identification and transmitted your e-mail address, the transfer agent will send you an e-mail message confirming your acceptance of electronic stockholder communications.

2

When proxy materials for next year's Annual Meeting are ready for distribution, those who have accepted electronic receipt will receive e-mail notice of their Control Numbers and the Internet site for viewing proxy materials and for voting. Acceptance of electronic receipt will remain in effect until it is withdrawn; it can be withdrawn at any time by contacting the transfer agent. If you change your e-mail address, please follow the procedures at the above-referenced Internet site to enter your new address.

Many brokerage firms and banks are also offering electronic proxy materials to their clients. If you are a beneficial owner of SYSCO stock that is held for you by a broker or bank, you should contact that broker or bank to find out whether this service is available to you.

OTHER MATTERS

We do not know of any other matter that will be presented at the Annual Meeting other than the election of directors and the proposals discussed in this proxy statement. However, if any other matter is properly presented at the Annual Meeting, your proxies will act on such matter in their best judgment.

ANNUAL REPORT

A copy of our 2002 Annual Report to Shareholders is being mailed with this proxy statement. We will furnish a copy of our Annual Report on Form 10-K for fiscal 2002, without exhibits and as filed with the SEC, without charge upon your written request if you are a record or beneficial owner of common stock whose proxy we are soliciting in connection with the Annual Meeting. Please address requests for a copy of the Annual Report on Form 10-K to the Investor Relations Department, SYSCO Corporation, 1390 Enclave Parkway, Houston, Texas 77077-2099. The Annual Report on Form 10-K is also available on our website at www.sysco.com.

DIRECTOR COMPENSATION

Fees

We pay non-employee directors \$60,000 per year plus reimbursement of expenses for all services as a director, including committee participation or special assignments. In addition to the annual retainer, non-employee directors receive the following fees for attendance at meetings:

- For committee meetings held in conjunction with regular board meetings, committee chairmen who attend in person will receive \$1,500 and committee members who attend in person will receive \$1,000;
- For special committee meetings (not held in conjunction with regular board meetings), committee chairmen who attend in person or who participate by telephone will receive \$1,500 and committee members who attend in person or who participate by telephone will receive \$1,000; and
- For special board meetings, all non-employee directors who attend in person or who participate by telephone will receive \$1,000.

Non-employee directors may defer all or a portion of their annual retainer and meeting attendance fees. Amounts deferred by a non-employee director are credited with investment gains or losses until his or her retirement from the Board or until the occurrence of certain other events. Dr. Craven, Mr. Golden, Mr. Merrill, Mrs. Sewell and Ms. Ward elected to defer some or all of their annual compensation for 2002.

Non-Employee Directors Stock Plan

In May 1998, the Board of Directors adopted, and our stockholders subsequently approved, the SYSCO Non-Employee Directors Stock Plan. Certain amendments to the plan were adopted by the Board in September 2001 and approved by our stockholders at the 2001 Annual Meeting. Under this plan, non-employee directors are eligible to receive stock options if, for the immediately preceding fiscal year, we have achieved after-tax basic earnings per share of 10% over the previous year. The size of individual grants and vesting terms will be set by the Board at the time of grant. In November 2001, we granted options to purchase an aggregate of 64,000 shares under this plan to eight non-employee directors. These options vest ratably over a five-year period and expire ten years after the date of grant. All historical data with respect to grants of stock options under our benefit plans contained in this Proxy Statement has been adjusted to reflect stock splits.

Additionally, this plan permits each non-employee director to elect to receive up to one-half of his or her annual retainer in common stock, in which case we will provide a matching grant of 50% of the number of

5

shares received as a portion of the retainer. Mr. Anderson, Mr. Campbell, Dr. Craven, Mr. Golden, Mr. Merrill, Mr. Richardson, Mrs. Sewell and Ms. Ward made this election during fiscal 2002.

No other compensation was paid for director services during the fiscal year ended June 29, 2002.

- (1) Each of the Named Executive Officers, other than Charles H. Cotros, received a grant of 15,000 options that vest 20% per year over a five-year period beginning July 2, 2005. Charles H. Cotros received a grant of 15,000 options that are fully vested. The remaining options granted to the Named Executive Officers during fiscal 2002 vest 20% per year over a five-year period beginning June 29, 2002.
- (2) We determined the hypothetical grant date present value for the options of \$8.81 per share using a modified Black-Scholes pricing model. In applying the model, we assumed a volatility of 22%, a 4.8% risk-free rate of return, a dividend yield at the date of grant of 1.26%, and an 8-year option term. We did not assume any option exercises or risk of forfeiture during the 8-year term. If used, such assumptions could have reduced the reported grant date value. The actual value, if any, an executive may realize upon exercise of options will depend on the excess of the stock price over the exercise price on the date the option is exercised. Consequently, there is no assurance that the value realized will be at or near the value estimated by the modified Black-Scholes model.

These options have a weighted average exercise price per share of \$10.82. RETIREMENT PLAN

We have a defined benefit retirement plan that was most recently amended and restated with an effective date of January 1, 1997 to comply with statutory changes required by various laws, collectively referred to as GUST. Also, the amended and restated plan incorporated certain discretionary changes in plan provisions effective May 15, 1998 and April 1, 2000. The Retirement Plan provides for an annual benefit payable monthly for five years certain and life thereafter, equal to:

- the normal retirement benefit which accrued under the prior plan as of July 2, 1989, plus
- an amount equal to 1 1/2% of the participant's aggregate career compensation earned on and after July 2, 1989.

In the event of a participant's death before his or her normal retirement

Edgar Filing: SYSCO CORP - Form DEF 14A

age (age 65) or the commencement of a benefit, if earlier, and if the participant has five or more years of credited service, a death benefit is payable in an amount equal to the value of the pension accrued by the deceased participant prior to his or her death or earlier termination of employment.

Under current law and regulations, the maximum annual retirement benefit that may be payable in calendar 2002 under the five years certain and life thereafter form of payment to an individual retiring at age 65 is \$158,016.

11

Without regard to this maximum limitation, the Named Executive Officers have accrued the following benefits and credited benefit service as of June 29, 2002:

- Mr. Cotros -- \$93,121 and 26 years;
- Mr. Schnieders -- \$43,201 and 20 years;
- Mr. Lankford -- \$45,789 and 21 years;
- Mr. Stubblefield -- \$31,447 and 13 years; and
- Mr. Accardi -- \$46,838 and 26 years.

The Named Executive Officers also have anticipated future service to age 65 as follows:

- Mr. Cotros -- 0 years;
- Mr. Schnieders -- 11 years;
- Mr. Lankford -- 10 years;
- Mr. Stubblefield -- 9 years; and
- Mr. Accardi -- 11 years.

In addition to benefits accrued to date, each Named Executive Officer will accrue benefits in the future in accordance with the table below:

PENSION PLAN TABLE(1) (2)

(1) Assumes the annual benefit is payable for five years certain and life thereafter and that retirement age is 65. Pension plan benefits are not subject to deduction by social security or any other offsets.

Edgar Filing: SYSCO CORP - Form DEF 14A

- (2) Current law and regulations limit retirement benefits to \$158,016 for calendar 2002 if they are payable for five years certain and life thereafter (assuming Retirement Plan and Social Security retirement age of 65). This limitation applies to total retirement benefits under the Retirement Plan as determined by adding benefits accrued with respect to periods of employment with SYSCO both before and after June 29, 2002. The Pension Plan Table does not reflect this limitation.
- (3) Compensation for benefit calculation purposes is limited by law to \$200,000 for calendar 2002 and later years subject to statutory increases and cost-of-living adjustments in future years. Pay limitations are not taken into account in the Pension Plan Table.

To the extent included in W-2 income, all amounts shown in the Summary Compensation Table, other than deferred bonus, term life insurance payments and the SYSCO match under the Executive Deferred Compensation Plan are utilized to compute career average compensation subject to the pay limitations noted in footnote (3).

REPORT OF THE COMPENSATION AND STOCK OPTION COMMITTEE

This report documents the components of SYSCO's compensation programs for its executive officers and describes the basis on which fiscal 2002 compensation determinations were made with respect to the executive officers of SYSCO, including Mr. Cotros, who served as the Chief Executive Officer during fiscal 2002. All fiscal 2002 compensation decisions with respect to base salaries, annual incentive compensation, option grants under stock option plans and split-dollar life insurance arrangements were made by the Compensation and Stock Option Committee.

12

Overall Executive Compensation Philosophy

Since SYSCO became a publicly held corporation in 1970, we have directly linked the compensation of executive officers to SYSCO's performance. Specifically, the Committee has tied the level of SYSCO's executive compensation to increases in SYSCO's earnings per share and return on shareholders' equity. We have accomplished this through the following means:

- A "pay-for-performance" orientation based upon SYSCO performance for corporate officers (other than senior vice presidents, foodservice operations) and a combination of operating company and SYSCO performance for corporate senior vice presidents, foodservice operations and operating company senior management;
- Competitive base salaries;
- Potentially significant annual incentive bonuses under SYSCO's management incentive plan;
- The issuance of stock options;
- Customary benefits, including a supplemental executive retirement plan; and
- Split dollar life insurance and term life insurance policies for certain executive officers.

The factors and criteria upon which the determination of the fiscal 2002 compensation of the Chief Executive Officer were based were the same as those

Edgar Filing: SYSCO CORP - Form DEF 14A

discussed below with respect to all executive officers, except as otherwise described below with respect to SYSCO's senior vice presidents, foodservice operations.

Base Salaries

We have established base salaries of our executive officers in the range of compensation payable to executive officers of U.S. industrial corporations without reference to specific SYSCO performance criteria. We reexamine this range of compensation from time to time through a survey of compensation practices by an independent compensation consultant across a broad cross-section of U.S. industrial corporations. The survey sample does not necessarily include those companies in the peer group included in the performance graph on page 16 due to the differing size, management responsibilities and organizational structures of those corporations relative to SYSCO. We last reviewed base salaries for all of the executive officers on November 9, 2001, and made adjustments in compensation effective January 1, 2002. At that time, Mr. Cotros' base salary was increased approximately 9%. It has been our consistent practice to maintain the Chief Executive Officer's base salary at or below the median of the range of base salaries payable to chief executive officers of the surveyed industrial corporations that have chief executive officers with job content and/or responsibilities comparable to those of SYSCO's Chief Executive Officer.

Annual Incentive Compensation

Management Incentive Bonus

SYSCO provides annual incentive compensation to all executive officers through the SYSCO Corporation Management Incentive Plan (the "MIP"). The MIP is designed to offer opportunities for compensation that is tied directly to our performance. In addition, the MIP is designed to foster significant equity ownership in SYSCO by the executive officers and all other participants in the MIP.

For executive officers, fiscal 2002 incentive bonuses were calculated under the MIP in two parts. The first part was based on the overall performance of SYSCO and was based upon the interplay between the percentage increase in earnings per share and the return on shareholders' equity. The MIP utilized a matrix based on these two factors to determine award levels, resulting in an award of 133% of base salary to each executive officer participating in this portion of the MIP, including Mr. Cotros, who was awarded \$1,330,000.

The second portion of the fiscal 2002 incentive bonus under the MIP for executive officers was based upon the number of SYSCO operating companies that achieved a target return on capital. This portion of the incentive bonus is paid only when the operating companies achieving the goals, in the aggregate, represent at

13

least 50% of the total capital of all of SYSCO's operating companies, which was the case during fiscal 2002, resulting in an award of 90% of base salary to each executive officer participating in this portion of the MIP, including Mr. Cotros, who was awarded \$900,000.

For senior vice presidents of foodservice operations, a portion of their bonus was based upon the two-part calculation set forth above and a portion was based upon the aggregate financial results of those operating subsidiaries or divisions for which they were responsible, considered as one company. This portion is based upon the interplay between the aggregate percentage increase in pretax earnings of their supervised operations and the aggregate return on

Edgar Filing: SYSCO CORP - Form DEF 14A

capital of their supervised operations, adjusted in certain instances for operating companies that are involved in SYSCO's facility expansion ("fold-out") program.

Stock Election and Matching Grant

In order to encourage significant equity ownership in SYSCO by its executive officers, the MIP provides that participants may elect to receive up to 40% of their annual incentive bonus in the form of SYSCO common stock, based on a per-share price equal to the closing price on the New York Stock Exchange of SYSCO common stock on the last trading day of the fiscal year for which the MIP bonus is calculated. If such election is made, the participant is awarded one additional share for each two shares received in accordance with the foregoing calculation.

In addition, participants who elect to receive common stock are also entitled to receive an additional cash bonus equal to the product of:

- the value of such matching shares received by the participant (based on the closing price of such shares on the last trading day of the fiscal year), and
- the effective tax rate applicable to SYSCO.

In fiscal 2002, Mr. Cotros elected to receive 40% of his bonus in SYSCO common stock. In connection with this election, Mr. Cotros received 49,155 shares valued at \$1,337,999 and cash in the amount of \$170,595.

Deferred Compensation Election

Finally, all MIP participants may defer up to 40% of their annual incentive bonus (without considering any election to receive a portion of the bonus in stock) under the Executive Deferred Compensation Plan. For deferrals of up to 20% of the annual incentive bonus, the Executive Deferred Compensation Plan provides for SYSCO to make a payment to the participant equal to 50% of the amount deferred. This matching payment vests upon the earliest to occur of:

- the tenth anniversary of the date the matching payment is made;
- the participant's reaching age sixty;
- the death or permanent disability of the participant; or
- a change in control of SYSCO.

In fiscal 2002, Mr. Cotros deferred 40% of his MIP bonus and received a matching payment equal to 50% of one-half of the amount deferred.

Stock Option Plan

During fiscal 2002, SYSCO granted options to purchase an aggregate of 30,514,910 shares of its common stock to approximately 11,000 employees, including executive officers, under the 2000 Stock Incentive Plan. Of the total options granted in fiscal 2002, an aggregate of 1,239,000 options were granted to executive officers at a weighted average exercise price of \$27.79 per share. Of the total options granted to executive officers in fiscal 2002, 859,000 options vest 20% per year over a five-year period beginning June 29, 2002, 125,000 options vest 20% per year over a five-year period beginning June 28, 2003, and 255,000 options vest 20% per year over a five-year period beginning July 2, 2005. During fiscal 2002, Mr. Cotros received option grants to purchase an aggregate of 115,000 shares at an exercise price of \$27.79 per share.

The Committee administers the stock option plan. In general, it is the practice of the Committee to consider issuing options under the plan only when participants in the MIP are entitled to receive an annual incentive bonus. In other words, option grants generally are considered only in years when SYSCO achieves certain earnings per share and return on shareholders' equity targets. It is the current intention of the Committee to continue this practice, although it is not required by the terms of the plan. The Committee has not historically considered the current number of outstanding options held by an officer when making its grant decisions.

Benefits

Executives also participate in SYSCO's regular employee benefit programs, which include a pension plan, a retirement savings plan, group medical and dental coverage, group life insurance and other group benefit plans. Further details with respect to SYSCO's qualified pension plan are provided on pages 11 and 12. In addition, executives are provided with a Supplemental Executive Retirement Plan (the "SERP") which is designed, generally, to provide annual payments equal to 50% of the participant's final average annual compensation, in combination with all SYSCO and other qualified retirement plan benefits and social security payments available to the participant upon retirement.

In February 1999, the Committee approved SYSCO's provision of split-dollar life insurance arrangements to certain key executive officers in lieu of all or part of their accrued and future benefits under the Executive Deferred Compensation Plan and the SERP. In September 1999, the Committee designated Mr. Cotros as a participant under these split-dollar life insurance arrangements. In approving this participation, the Committee considered that SYSCO would experience a positive impact on its earnings with these split-dollar life insurance arrangements in place, as compared to the earnings impact of Mr. Cotros' then current participation in the Executive Deferred Compensation Plan and SERP. SYSCO has paid premiums on the life insurance policies purchased for the benefit of the participants under the split-dollar life insurance arrangements and retains a collateral interest in those policies equal to the amount of premiums paid by SYSCO. The present value cost of the life insurance purchased under the split-dollar life insurance arrangements by SYSCO did not exceed the net present value of the projected after tax cost of the benefits waived under the Executive Deferred Compensation Plan and SERP.

Income Deduction Limitations

Section 162(m) of the Internal Revenue Code of 1986, as amended (the "Code"), generally sets a limit of \$1 million on the amount of compensation (other than certain "performance-based" compensation that complies with the requirements of Section 162(m)) that SYSCO can deduct for federal income tax purposes in any given year with respect to the compensation of each of the Named Executive Officers. The Board and the Committee have determined, after reviewing the effect of Section 162(m), that our policy will be to structure the performance-based compensation arrangements for such Named Executive Officers to satisfy Section 162(m)'s conditions for deductibility, to the extent feasible and taking into account all relevant considerations.

STOCK PERFORMANCE GRAPH

The following stock performance graph compares the performance of SYSCO's common stock to the S&P 500 Index and to a peer group for SYSCO's last five fiscal years. The members of the peer group are Fleming Companies, Inc., Nash Finch Company, Supervalu, Inc. and Performance Food Group Company.

The companies in the peer group were selected because they comprise a broad group of publicly held corporations with food distribution operations similar in some respects to our operations. Performance Food Group is a foodservice distributor and the other members of the peer group are in the business of distributing grocery products to retail supermarkets. We consider the peer group to be a more representative peer group than the "S&P Distributors (Food & Health)" index maintained by Standard & Poor's Corporation which consists of SYSCO, Supervalu, Inc., Cardinal Health, Inc. and McKesson HBOC, Inc., two of which are healthcare service distributors.

The returns of each member of the peer group are weighted according to each member's stock market capitalization as of the beginning of each period measured. The graph assumes that the value of the investment in our common stock, the S&P 500 Index, and the peer group was \$100 on the last trading day of June 1997, and that all dividends were reinvested. Performance data for SYSCO, the S&P 500 Index and for each member of the peer group is provided as of the last trading day of each of our last five fiscal years.

REPORT OF THE AUDIT COMMITTEE

The Audit Committee operates under a written charter adopted by the Board of Directors, a copy of which is attached hereto as Appendix A. The Audit Committee is composed of seven independent directors as defined in Sections 303.01(B) (2) (a) and (3) of the New York Stock Exchange's listing standards and Section 10A(m) (3) of the Securities Exchange Act of 1934. Each member of the Audit Committee is able to understand fundamental financial statements and it is the Audit Committee's policy that at least one member be a financial expert. The members of the Audit Committee are Mr. Anderson, Mr. Campbell (Chairman), Dr. Craven, Mr. Merrill, Mr. Richardson, Mrs. Sewell and Ms. Ward. The Audit Committee held six meetings during fiscal 2002.

The function of the Audit Committee is to review and report to the Board with respect to various auditing and accounting matters, including the selection

Edgar Filing: SYSCO CORP - Form DEF 14A

of the independent public accountants, the scope of audit procedures, the nature of all audit and nonaudit services to be performed, the fees to be paid to the independent public accountants, the performance of the independent public accountants and the Company's accounting practices and policies.

The Audit Committee has met and held discussions with management and the independent public accountants. Management represented to the Audit Committee that SYSCO's consolidated financial statements were prepared in accordance with generally accepted accounting principles, and the Audit Committee has reviewed and discussed the audited consolidated financial statements with management and the independent public accountants. The Audit Committee also discussed with the independent public accountants the matters required to be discussed by Statement on Auditing Standards No. 61. SYSCO's independent public accountants provided to the Audit Committee the written disclosures required by the Independence Standards Board's Standard No. 1, and the Audit Committee discussed with the independent public accountant that firm's independence.

Based on the Audit Committee's discussion with management and the independent public accountants and the Audit Committee's review of the representations of management and the report of the independent public accountants to the Audit Committee, the Audit Committee recommended that the Board of Directors include the audited consolidated financial statements in SYSCO's Annual Report on Form 10-K for the year ended June 29, 2002 filed with the Securities and Exchange Commission.

SHAREHOLDER PROPOSAL ITEM NO. 2 ON THE PROXY CARD

The International Brotherhood of Teamsters, 25 Louisiana Avenue, N.W., Washington, D.C. 20001, owning 280 shares of common stock of the Company, has given notice that it intends to present for action at the Annual Meeting the following resolution:

"RESOLVED: That the stockholders of Sysco ("the Company") urge the Board of Directors to take the necessary steps, in compliance with state law, to declassify the Board for the purpose of director elections. The Board's declassification shall be completed in a manner that does not affect the unexpired terms of directors previously elected."

The Teamsters submitted the following statement in favor of the resolution:

"The Company's Board is divided into three classes of directors serving staggered three-year terms. This means an individual director faces election only once every three years, and shareholders only vote on roughly a third of the Board each year.

"Companies often defend classified boards by suggesting that they preserve continuity. We think continuity is ensured through director re-elections. When directors are performing well they routinely are re-elected with majorities of shares voted.

"We believe that annual elections can pave the way for improved board sensitivity to important shareholder issues. In particular, it can help speed the diversification of the Company's Board and introduce new perspectives.

"In addition, a declassified board allows the company to respond quickly to changes (such as the recent corporate malfeasance scandals and developments in the economy) by giving the board the ability to nominate candidates that are more qualified each year. The Teamsters General Fund believes a declassified board can help give the Company the flexibility, as it moves into the future.

"The evidence shows that shareholders are dissatisfied with classified boards.(1) At the Company's annual meeting last year, 52.74% of shares cast voted FOR declassification of Sysco's Board of Directors.

"In May 2001, at the Alaska Air annual meeting, 70% of shares cast voted FOR declassification of its Board. In 2000, majorities of shares cast voted FOR declassification of boards at many companies, including:

- Baxter International (60.4%);
- Eastman Chemical (70%);
- Eastman Kodak (60.7%);
- Lonestar Steakhouse & Saloon, Inc. (79%);
- Silicon Graphics (81.1%);
- United Health Group (75.7%);

End of Teamsters' proposal.

SYSCO's Response:

THE BOARD OF DIRECTORS RECOMMENDS A VOTE AGAINST THIS PROPOSAL.

This proposal is sponsored by the International Brotherhood of Teamsters. Thirty-seven of SYSCO's operating companies have negotiated collective bargaining agreements with various Locals of the International Brotherhood of

Edgar Filing: SYSCO CORP - Form DEF 14A

Teamsters. This same proposal was presented by the Teamsters last year and only received the support of 35% of our outstanding shares. The Board of Directors recommends that you vote AGAINST the International Brotherhood of Teamsters' proposal to declassify the Board.

Since its inception in 1970, SYSCO's Board has been divided into three classes, with directors serving staggered three-year terms. During this period, SYSCO has grown from a company generating \$115 million in sales to one that generated over \$23 billion in sales in fiscal 2002. In addition, our stock price has increased 340% in value, or 16% on a compound annual basis, over the last 10 fiscal years. We are proud of SYSCO's 32-year history of solid growth and performance, and we are unclear as to why the International Brotherhood of Teamsters has raised this challenge.

A majority of the companies in the S&P 500 currently have classified boards. Board classification means that the majority of the Board at any given time will have experience in the Company's business and affairs, promoting continuity and stability of the Company's business strategies and policies. The Board believes that the continuity and quality of leadership that results from a classified Board creates long-term shareholder value and is in the best interests of the Company and its shareholders.

A classified Board also affords the Company and its shareholders a measure of protection against hostile and unsolicited takeover attempts that do not offer the greatest value to all shareholders. The existence of a classified Board encourages a potential acquirer to negotiate with the Board, giving the Board additional time

20

and bargaining power to negotiate a transaction that is in the best interests of the shareholders and other constituencies.

The proponent suggests that declassifying the Board would lead to fuller accountability to the shareholders. However, the Board notes that certain measures currently in place, such as granting options to directors only following years that the Company experiences increases in earnings per share, already align the interests of the Directors with those of the shareholders. Furthermore, the Board believes that directors who are elected for staggered terms are just as accountable to shareholders as directors who are elected annually since the same duties and standards of performance apply regardless of the length of the term.

We suggest that SYSCO's performance speaks for itself. We do not believe that the International Brotherhood of Teamsters' proposal is in your best interest, and we encourage you to vote AGAINST it.

Finally, shareholders should note that this proposal, if approved, is not binding and would not automatically result in a declassified Board. Under Delaware law and the Company's Bylaws, if the Board were to determine to undertake declassification, additional shareholder approval would be required.

East Siena Heights Drive, Adrian, Michigan 49221, owning 20,500 shares; Sisters of Mercy Regional Community of Detroit, 29000 Eleven Mile Road, Farmington Hills, Michigan 48336, owning 1,000 shares; and Walden Asset Management, 40 Court Street, Boston, Massachusetts 02108, owning 300,216 shares, have given notice that they intend to present for action at the Annual Meeting the following resolution:

"RESOLVED: Shareholders request that our Board review the Company's policies for food products containing genetically engineered (GE) ingredients and report to shareholders by March 2004. This report, developed at reasonable cost and omitting proprietary information, would identify the risks, financial costs (including opportunity costs) and benefits, and environmental impacts of the continued use of GE-ingredients in food products sold under the company's brand names or private labels."

The proponents submitted the following statement in favor of the resolution:

"There are indicators that genetically engineered agricultural products may be harmful to humans, animals, or the environment:

- For human health and environmental concerns, the European Union has proposed regulations to phase out by 2005 antibiotic-resistant marker genes, widely used to develop GE seeds;
- Research has shown that Bt crops are building up Bt toxins in the soil, with unknown long-term effects on soil ecology;
- The National Academy of Sciences (NAS) report, *Genetically Modified Pest-Protected Plants*, recommends improved methods for identifying potential allergens in genetically engineered pest-protected plants and found the potential for gaps in regulatory coverage (4/2000);
- The NAS report, *The Environmental Effects of Transgenic Plants*, called for "significantly more transparent and rigorous testing and assessment" of GE-plants (2/2002);
- Since fall 2000, hundreds of millions of dollars may have been spent by food companies in recalling food containing GE corn not approved for human consumption;

21

"Markets for GE-foods are threatened by extensive resistance:

- Europe's larger food retailers have committed to removing GE-foods from their store-brand products, as have some U.S. retailers;
- In the UK, McDonald's, Burger King, and KFC exclude GE soy and corn ingredients from their menus;
- McCain Foods of Canada announced it would no longer accept GE-BT potatoes for their brand-name products (11/99);
- Gerber Products does not allow GE corn or soybeans in their baby foods;
- PepsiCo's Frito Lay asked farmers for only non-GE corn for their corn chips;
- Upon ratification by 50 countries, the Biosafety Protocol, signed by over 100 countries, will require that genetically engineered organisms (GEOs)

Edgar Filing: SYSCO CORP - Form DEF 14A

intended for food, feed and processing must be labeled "may contain" GEOs. Countries can decide whether to import those commodities based on a scientific risk assessment;

- Countries around the world, including Brazil, Greece, and Thailand, have instituted moratoriums or banned importation of GE seeds and crops;
- Labeling of GE foods is required in the European Union, Japan, New Zealand, South Korea and Australia, and favored by 70-93% of people surveyed in approximately a dozen opinion polls in the U.S.

"We urge that this report:

1) Identify the scope of the Company's products that are derived from or contain GE ingredients;

2) Outline a contingency plan for sourcing non-GE ingredients should circumstances so require.

"We believe that in undertaking this review, SYSCO addresses issues of financial, legal and reputational risk, competitive advantage, and brand name loyalty in the marketplace."

End of GMO proposal.

SYSCO's response:

THE BOARD OF DIRECTORS RECOMMENDS A VOTE AGAINST THIS PROPOSAL.

As the leader in the foodservice distribution industry, we recognize the importance of food safety, not only with respect to the well being of consumers, but also as it relates to the success and reputation of our Company. The proponents request that we undertake to review and report on the Company's sales of genetically engineered food. However, based on the content of a previous proposal submitted by several of the proponents and on conversations with representatives of the proponents, we believe that the ultimate goal of proponents is the removal of all genetically engineered ingredients from the products we sell. Our management and the Board of Directors believe that the proposal set forth above should be rejected.

We take every step that is mandated, as well as many more that exceed government requirements, to verify that the foods we distribute are developed and processed in accordance with all government regulations. This also includes our SYSCO Brand products, which are developed and monitored by our staff of approximately 180 quality assurance professionals. These individuals are in the fields, on the production lines and in contact with our suppliers, and they represent a commitment to food safety that is unsurpassed in the foodservice industry. However, we believe that the Food and Drug Administration and other regulatory authorities who are charged with protecting the health and safety of the public and the environment are appropriately qualified to make judgments about the labeling and sale of all food products. We take our lead from national food-safety and regulatory authorities, and we support their efforts to take all steps necessary, based on sound scientific principles, to assure that any new food technology is safe for consumers and the environment. SYSCO complies, and will continue to comply, with all applicable government regulations.

22

Further, we understand that the use of genetic engineering with respect to certain raw materials such as corn and soybeans is widespread. We also understand that current agricultural storage and transportation methods make it extremely difficult to effectively segregate modified crops from unmodified

Edgar Filing: SYSCO CORP - Form DEF 14A

crops. As a result of the foregoing and the difficulty of differentiating genetically modified ingredients from their unmodified counterparts with current test techniques, we believe that the report requested by the proponents cannot be prepared at a reasonable cost or with any significant degree of accuracy.

Current federal regulations allow for the sale of products using approved genetically modified foods. We believe that the proponents of this resolution should address their demands to the governmental entities overseeing food safety rather than to a single distributor that does not have basic food manufacturing facilities.

The Board of Directors recommends that you vote AGAINST the proposal on genetically engineered food.

INDEPENDENT PUBLIC ACCOUNTANTS

On March 27, 2002, the company dismissed Arthur Andersen LLP as its principal accountant and engaged Ernst & Young LLP as its principal accountant. The decision to change principal accountants was recommended by the Audit Committee and was approved by the Board of Directors. The company had not consulted with E&Y on any matter during fiscal 2000 or 2001 or prior to their engagement in fiscal 2002.

Andersen's reports on the consolidated financial statements of the company for fiscal 2000 and 2001 did not contain an adverse opinion or a disclaimer of opinion, nor were such reports qualified or modified as to uncertainty, audit scope, or accounting principles. During fiscal 2000 and 2001, there have been no disagreements with Andersen on any matter of accounting principles or practices, financial statement disclosure, or auditing scope or procedure, which, if not resolved to the satisfaction of Andersen, would have caused it to make reference to the subject matter in connection with its reports on the company's consolidated financial statements for such years, nor have there been any reportable events as listed in Item 304(a)(1)(v) of Regulation S-K.

Ernst & Young LLP has served as the company's independent public accountants providing auditing, financial and tax services since their engagement in fiscal 2002, and will continue to provide such services during fiscal 2003. We expect that representatives of Ernst & Young LLP will be present at the Annual Meeting and will have the opportunity to make a statement if they desire to do so. They will also be available to respond to appropriate questions.
