ABOUT THIS PROSPECTUS SUPPLEMENT

This prospectus supplement describes the specific terms of the notes that we are offering and supplements the accompanying prospectus that is attached to the back of this prospectus supplement. This prospectus supplement modifies the accompanying prospectus to the extent it contains information that is different from or additional to the information in that prospectus.

Edgar Filing: GILLETTE CO - Form 424B2

This prospectus supplement contains forward-looking statements. For a description of these statements and a discussion of the factors that may cause our actual results to differ materially from these statements, see "Note Regarding Forward-Looking Statements" in the accompanying prospectus.

Unless otherwise indicated or unless the context requires otherwise, all references in this prospectus supplement to "Gillette," the "Company," "we," "us," "our" or similar references mean The Gillette Company.

USE OF PROCEEDS

We estimate that the net proceeds from this offering will be approximately \$499 million, after deducting offering expenses. We will use the net proceeds from the sale of the notes for the repayment of some of our outstanding short term commercial paper, which had a weighted average annual interest rate of 1.76% as of September 24, 2002.

DESCRIPTION OF THE NOTES

The following description of the particular terms of the notes supplements the description of the general terms of the debt securities under the caption "Description of Debt Securities" in the accompanying prospectus.

We will issue the notes under an indenture dated as of April 11, 2002, as supplemented by a supplemental indenture relating to the notes, between us and Bank One, N.A., as trustee. We filed a copy of the indenture with the SEC as an exhibit to the registration statement that contains the accompanying prospectus.

GENERAL

The notes offered by this prospectus supplement will be our direct, unsecured and unsubordinated obligations and will rank equally in right of payment with all of our other unsecured and unsubordinated indebtedness. The notes do not have a sinking fund and will not be subject to repurchase by us at the option of holders prior to maturity. The defeasance provisions described in the accompanying prospectus under "Description of Debt Securities -- Defeasance" will apply to the notes. We may, without the consent of the holders of the notes, issue additional debt securities having the same ranking and the same interest rate, maturity and other terms as the notes other than the date of original issuance and the interest commencement date. Any additional debt securities having such similar terms, together with the notes, will constitute a single series of debt securities under the indenture.

The notes will be issued in fully registered form, without coupons, in minimum denominations of \$1,000 or integral multiples of \$1,000 in excess thereof. The notes will be denominated and payable in U.S. dollars. The notes will be initially issued as global securities. See "-- Book-Entry, Delivery and Form" below for additional information concerning the notes and the book-entry system. The Depository Trust Company, or DTC, will be the depository with respect to the notes. Settlement of the sale of the notes to the underwriter will be in immediately available funds. The notes will trade in DTC's Same-Day Funds Settlement System until maturity, and secondary market trading activity in the notes will therefore settle in immediately available funds.

S-2

PRINCIPAL AND MATURITY

The aggregate principal amount of the notes offered under this prospectus supplement is \$500,000,000. The notes will mature on October 15, 2007.

Edgar Filing: GILLETTE CO - Form 424B2

REDEMPTION

We may elect to redeem the notes, in whole but not in part, prior to the maturity date on any interest payment date on or after October 15, 2004. Upon redemption, we will pay a redemption price equal to 100% of the unpaid principal amount thereof. In connection with our exercise of any redemption right, we must give written notice to registered holders of the notes to be redeemed not more than 60 nor less than 30 calendar days prior to the date of redemption.

INTEREST

The notes will bear interest at 3.50% per year (computed based on a 360-day year consisting of twelve 30-day months) from, and including, the date of issuance or from the most recent date to which interest has been paid or otherwise made available for payment by us. Interest on the notes will be payable semi-annually in arrears on April 15 and October 15 of each year, commencing April 15, 2003. Interest payments will be made to the persons in whose names the notes are registered at the close of business on the first day, whether or not a business day, of the calendar month in which the related interest payment date occurs.

PAYMENTS OF PRINCIPAL AND INTEREST

We will make all payments of principal and interest in immediately available funds to DTC in The City of New York. If any interest payment date, the maturity date or, if applicable, the date of redemption, of a note falls on a day that is not a business day, we will make the required payment of principal and/or interest on the next succeeding business day, and no additional interest will accrue for the period from such interest payment date, the maturity date or, if applicable, the date of redemption. Business day means any day, other than a Saturday or Sunday, that is neither a legal holiday nor a day on which commercial banks are authorized or required by law, regulation or executive order to close in The City of New York.

CONSOLIDATION, MERGER AND SALE OF ASSETS

The notes permit us to consolidate or merge with or into any other corporation or other organization, and convey, transfer or lease all or substantially all of our assets to any individual or organization, provided that:

- the successor or transferee, if other than us, is a corporation or other organization organized and existing under the laws of the United States of America, any U.S. state or the District of Columbia;
- the successor or transferee expressly assumes our obligations under the indenture; and
- neither we nor any successor corporation or other organization is, immediately after any consolidation or merger, in default under the indenture.

BOOK-ENTRY, DELIVERY AND FORM

We have established depository arrangements with DTC with respect to the notes, the terms of which are summarized in the accompanying prospectus under "Global Securities."

Edgar Filing: GILLETTE CO - Form 424B2

Subject to the terms and conditions set forth in the underwriting agreement, we have agreed to sell all of the notes to Lehman Brothers Inc. at a price equal to 99.829% of the principal amount thereof.

Lehman Brothers Inc. proposes to offer the notes from time to time for sale in negotiated transactions, or otherwise, at varying prices to be determined at the time of each sale. In connection with the sale of the notes, Lehman Brothers Inc. may be deemed to have received compensation from us in the form of underwriting discounts. Lehman Brothers Inc. may effect such transactions by selling the notes to or through dealers, and such dealers may receive compensation in the form of discounts, concessions or commissions from Lehman Brothers Inc. and/or purchasers of the notes for whom they may act as agents or to whom they may sell as principal.

We expect that delivery of the notes will be made against payment therefor on or about the closing date specified on the cover page of this prospectus supplement, which will be on the fifth business day following the date on which the notes are priced. Under Rule 15c6-1 of the Securities Exchange Act of 1934, as amended, trades in the secondary market generally are required to settle in three business days after the date the securities are priced, unless the parties to any such trade expressly agree otherwise. Accordingly, purchasers who wish to trade notes on the date of pricing or the next succeeding business day will be required, by virtue of the fact that the notes will settle in T+5, to specify an alternative settlement cycle at the time of any such trade to prevent a failed settlement; such purchasers should also consult their own advisors in this regard.

In the ordinary course of their businesses, Lehman Brothers Inc. and its affiliates have engaged and may in the future engage in commercial banking and/or investment banking transactions with us and/or with our affiliates.

We will pay transaction expenses, estimated to be approximately \$100,000, relating to the offering of the notes.

We have agreed to indemnify Lehman Brothers Inc. against certain liabilities, including liabilities under the Securities Act of 1933, as amended.

LEGAL MATTERS

The validity of the notes will be passed upon for us by Ropes & Gray, Boston, Massachusetts. Sidley Austin Brown & Wood LLP, New York, New York will act as counsel for the underwriter.

- (g) We adopted EITF Issue No. 00-25, "Vendor Income Statement Characterization of Consideration to a Purchaser of the Vendor's Products or Services," on January 1, 2002. This standard addresses the income statement classification of slotting fees, cooperative advertising arrangements and buydowns. Our financial data for the three months ended March 31, 2002 and

2001 presented above reflect the adoption of EITF 00-25. Our financial data for each of the years ended December 31, 1996 through 2001 presented above have not been adjusted to reflect the adoption of EITF 00-25. If this standard had been adopted for each of these years, net sales would have been

Edgar Filing: GILLETTE CO - Form 424B2

reduced by \$877 million in 2001, \$915 million in 2000, \$750 million in 1999, \$740 million in 1998, \$664 million in 1997 and \$619 million in 1996. Selling, general and administrative expenses would have been reduced by the same amounts in each year. The reclassifications would have no impact on profit from operations, net income or net income per common share.

As described in the "Accounting Pronouncements" section of the Notes to Consolidated Financial Statements of our Quarterly Report on Form 10-Q for the quarter ended March 31, 2002, incorporated by reference in this prospectus, we adopted SFAS 142, Goodwill and Other Intangible Assets, as of January 1, 2002. SFAS 142 requires that goodwill and other intangible assets with indefinite lives no longer be amortized, but instead be tested for impairment, at least annually, in accordance with the new impairment testing provisions of SFAS 142. Statement 142 also requires that intangible assets with estimable useful lives be amortized over their respective useful lives to their estimated residual values, and reviewed for impairment in accordance with SFAS 144, "Accounting for the Impairment or Disposal of Long-Lived Assets." The net impact of our adoption of SFAS 142 is a reduction of annual amortization expense of \$34 million. No impairment losses were recognized due to the change in accounting principle.

The following summarizes the estimated impact on our reported net income and net income per common share for the years ended December 31, 2001, 2000 and 1999 and the three months ended March 31, 2001 had SFAS 142 been adopted for those earlier periods.

For purposes of calculating these ratios, earnings consist of income from continuing operations before income taxes and fixed charges. Fixed charges consist of interest on indebtedness, amortization of debt premium, the interest component of rentals and preferred stock dividend requirements.

USE OF PROCEEDS

Unless the prospectus supplement indicates otherwise, we anticipate that the net proceeds to be received from the sale of the debt securities will be used to repay indebtedness and for other general corporate purposes, which may include repurchase of our shares, working capital, capital expenditures, acquisitions and other business opportunities.

DESCRIPTION OF DEBT SECURITIES

We will issue the debt securities under an indenture dated as of April 11, 2002, between us and Bank One, N.A., as trustee. We filed a copy of the indenture with the SEC as an exhibit to the registration statement that contains this prospectus.

The following summary describes the material terms of the indenture. The summary is subject to, and is qualified in its entirety by reference to, all of the provisions of the indenture. The following summary describes the general terms of the debt securities. The prospectus supplement will include the particular terms of debt securities being offered which differ from or add to these general terms.

The debt securities will be unsecured and will rank equally with all of our other unsecured and unsubordinated indebtedness.

In this section, the words "we," "us," "our" or "the Company" do not include any current or future subsidiary of The Gillette Company.

GENERAL

We may issue the debt securities from time to time in one or more series. The indenture does not limit the aggregate principal amount of debt securities or of any series of debt securities that we may issue under it. Neither the

Edgar Filing: GILLETTE CO - Form 424B2

indenture nor the debt securities will limit or otherwise restrict the amount of other indebtedness, including secured indebtedness, which we may incur or other securities which we may issue.

The applicable prospectus supplement will include the particular terms of an issue of debt securities, including:

- the title and series designation;
- the aggregate principal amount and the limit, if any, on the aggregate principal amount or initial public offering price of the debt securities of that series;
- any rate or rates (or method for establishing the rate or rates) at which the debt securities shall bear interest;
- the date from which any interest shall accrue;
- any interest payment dates;
- the stated maturity date or dates on which principal is payable;
- whether the debt securities are to be issued in global form;
- any sinking fund requirements;
- any provisions for redemption, and the redemption price or prices;
- the denominations in which the debt securities shall be issuable;
- whether the debt securities are denominated or payable in United States dollars or a foreign currency or units of two or more foreign currencies;
- the place or places where payments on the debt securities shall be made and the debt securities may be presented for registration of transfer or exchange;

5

- whether any of the debt securities will be subject to defeasance in advance of the date for redemption or the stated maturity date;
- if other than the full principal amount, the portion of the principal amount of the debt securities payable upon acceleration of the maturity of the debt securities;
- any index used to determine the amount of payment of principal of, and premium, if any, and interest on the debt securities;
- the person to whom any interest on the debt securities of the series shall be payable if other than the registered holder;
- if the principal amount payable at maturity of any debt securities is not determinable as of any one or more dates prior to such maturity, the manner in which that amount that shall be deemed to be the principal amount of the debt securities on or prior to the maturity date shall be determined;
- any additional or different defaults or events of default that apply to debt securities of the series and any change in the right of the trustee or the required holders of those debt securities to declare the principal

Edgar Filing: GILLETTE CO - Form 424B2

thereof due and payable;

- any additional or different covenants that apply to debt securities of the series; and
- any other terms of the debt securities.

Please see the accompanying prospectus supplement for the terms of the specific debt securities we are offering.

We will have the right to redeem the debt securities only upon written notice mailed between 30 and 60 days prior to the redemption date.

If we plan to redeem the debt securities, then before the redemption occurs we are not required to:

- issue, register the transfer of, or exchange any debt security of that series during the period beginning 15 days before we mail the notice of redemption and ending on the day we mail the notice; or
- after we mail the notice of redemption, register the transfer of or exchange any debt security selected for redemption, except, if we are only redeeming a part of a debt security, we are required to register the transfer of or exchange the unredeemed portion of the debt security if the holder so requests.

We may issue debt securities as "original issue discount securities," which bear either no interest or interest at a rate which at the time of issuance is below market rates. Such securities will be sold at a substantial discount below their principal amount. In the event that the maturity of an original issue discount security is accelerated, the amount payable to the holder upon acceleration will be determined in accordance with the terms of that security and the indenture, but will be an amount less than the amount payable at the stated maturity of the principal of the security. The prospectus supplement will describe special federal income tax and other considerations relating to original issue discount securities.

The indenture provides that, without the consent of any holders, we and the trustee may enter into one or more supplemental indentures for certain purposes, including:

- to add to our covenants for the benefit of the holders of all or any series of debt securities or to surrender any right or power conferred upon us in the indentures; and
- to add any additional defaults of events of defaults.

In the event any sinking fund is established for the retirement of debt securities of any series, we may satisfy all or any part of the sinking fund payments with debt securities of such series under some circumstances and to the extent provided for by the terms of such debt securities.

The covenants contained in the indenture and the debt securities will not protect holders in the event of a sudden decline in our creditworthiness that might result from a recapitalization, restructuring, or other highly leveraged transaction or otherwise.

REGISTRATION AND TRANSFER

Unless otherwise indicated in the prospectus supplement, we will issue each

Edgar Filing: GILLETTE CO - Form 424B2

series of debt securities in registered form only, without coupons and in denominations of \$1,000 or integral multiples thereof. Holders may present debt securities in registered form for registration of transfer or exchange for other debt securities of the same series at the corporate trust office of the trustee.

No service charge will be made for any registration of transfer or exchange of the debt securities except to cover any tax or other governmental charge payable in connection with the registration of transfer or exchange.

PAYMENT AND PLACE OF PAYMENT

We will pay principal of, and premium, if any, and interest on the debt securities at the corporate trust office of the trustee. However, at our option, we may pay any interest by check mailed to the holders of registered debt securities at their registered addresses or by wire transfer or other method acceptable to such holders.

EVENTS OF DEFAULT

The following are "events of default" under the indenture with respect to any series of debt securities:

- default in the payment of any principal or premium when due;
- default in the payment of any interest when due, which continues for 30 days;
- default in the deposit of any sinking fund payment when due, which continues for 30 days;
- default in the performance of any other obligation contained in the indenture for the benefit of debt securities of that series, which continues for 90 days after written notice by the trustee or by the holders of at least 25% in aggregate principal amount of the outstanding debt securities of that series;
- specified events of bankruptcy, insolvency or reorganization; and
- any other event of default provided with respect to debt securities of that series.

If an event of default under the indenture occurs and continues for any series of debt securities, the trustee or the holders of at least 25% in aggregate principal amount of the outstanding securities of that series may declare the principal amount, or any lesser amount provided for in the debt securities of that series, to be due and payable immediately. After the trustee or the holders have accelerated a series of debt securities, but before the trustee has obtained a judgment or decree for payment of money due, the holders of at least a majority in aggregate principal amount of outstanding debt securities of that series may, under specified circumstances, rescind and annul the acceleration.

The holders of at least a majority in principal amount of the outstanding debt securities of any series may waive an event of default with respect to that series, except a default:

- in the payment of the principal of, and premium, if any, and interest on any debt securities of that series; or
- in an obligation contained in, or a provision of, the indenture which cannot be modified under the terms of the indenture without the consent of each holder of outstanding debt securities of the affected series.

Edgar Filing: GILLETTE CO - Form 424B2

The holders of at least a majority in principal amount of the outstanding debt securities of a series may direct the time, method and place of conducting any proceeding for any remedy available to the trustee or exercising any trust or power conferred on the trustee with respect to debt securities of that series, provided that this direction is not in conflict with any rule of law or the indenture. Before proceeding to exercise any right or power under the indenture at the direction of the holders, the trustee is entitled to receive from those

7

holders reasonable security or indemnity against the costs, expenses and liabilities which might be incurred by it in complying with the direction.

A holder of any debt security of any series will have the right to institute a proceeding with respect to the indenture or for any remedy thereunder, if:

- that holder previously gave written notice to the trustee of a continuing event of default with respect to debt securities of that series;
- the holders of not less than 25% in aggregate principal amount of the outstanding debt securities of that series also shall have made written request to the trustee to institute the proceeding as trustee and offered the trustee indemnity satisfactory to the trustee;
- the trustee shall have failed to institute the proceeding within 60 days; and
- the trustee shall not have received from the holders of a majority in principal amount of the outstanding debt securities of that series a direction inconsistent with such request during that 60-day period.

However, any holder of a debt security has the absolute, unconditional right to institute suit for any defaulted payment after the due date for payment under that debt security.

We are required to furnish to the trustee annually a statement as to the performance of our obligations under the indenture and as to any default in such performance.

MODIFICATION AND WAIVER

The indenture may be modified and amended by us and the trustee through a supplemental indenture, with the consent of holders of at least a majority in principal amount of each series of debt securities affected. However, without the consent of each holder of any debt security affected, we may not amend or modify any indenture to:

- change the stated maturity date of the principal, or any installment of principal of or interest on, any debt security;
- reduce the principal amount of or the rate of interest on any debt security or any premium payable upon the redemption of any debt security;
- reduce the amount of principal of an original issue discount security payable upon acceleration of its maturity;
- change the place or currency of payment of principal of, or any premium or interest on, any debt security;

Edgar Filing: GILLETTE CO - Form 424B2

- impair the right to institute suit for the enforcement of any payment with respect to any debt security;
- reduce the percentage in principal amount of debt securities of any series, the consent of whose holders is required to modify or amend the indenture or to waive compliance with certain provisions of the indenture; or
- reduce the percentage in principal amount of debt securities of any series, the consent of whose holders is required to waive any past default.

Under limited circumstances and only upon the fulfillment of conditions, we and the trustee may make modifications and amendments to the indenture without the consent of any holders of the debt securities.

8

CONSOLIDATION, MERGER AND SALE OF ASSETS

We may consolidate or merge with or into any other corporation or other organization, and we may convey, transfer or lease all or substantially all of our assets to any individual or organization, provided that:

- the successor or transferee, if other than us, is a corporation or other organization organized and existing under the laws of the United States of America, any U.S. state or the District of Columbia or is a corporation or other organization organized under the laws of a foreign jurisdiction and the successor or transferee consents to the jurisdiction of the courts of the United States or any state thereof;
- the successor or transferee expressly assumes our obligations under the indenture; and
- neither we nor any successor corporation or other organization is, immediately after any consolidation or merger, in default under the indenture.

REGARDING THE TRUSTEE

Bank One, N.A. is the trustee under the indenture. We maintain banking relationships with the trustee and affiliates of the trustee in the ordinary course of business.

DEFEASANCE

Unless otherwise provided in the prospectus supplement for such series of debt securities, we may cause ourself (subject to the terms of the indenture) to be discharged from any and all obligations with respect to any debt securities or series of debt securities (except for certain obligations to register the transfer or exchange of such debt securities, to replace such debt securities if stolen, lost or mutilated, to maintain paying agencies and to hold money for payment in trust) on or after the date the conditions set forth in the indenture are satisfied. Such conditions include the deposit with the trustee, in trust for such purpose, of money and/or U.S. government obligations, which through the scheduled payment of principal and interest in respect thereof in accordance with their terms will provide money in an amount sufficient to pay the principal of, and premium, if any, and interest on such debt securities on the stated maturity date of such payments or upon redemption, as the case may be, in accordance with the terms of the indenture and such debt securities.

Edgar Filing: GILLETTE CO - Form 424B2

Under current U.S. Federal income tax law, the defeasance of the debt securities would be treated as a taxable exchange of the relevant debt securities in which holders of debt securities would recognize gain or loss. In addition, thereafter, the amount, timing and character of amounts that holders would be required to include in income might be different from that which would be includable in the absence of such defeasance. Prospective investors are urged to consult their own tax advisors as to the specific consequences of a defeasance, including the applicability and effect of tax laws other than the U.S. Federal income tax law.

GOVERNING LAW

The indenture and the debt securities will be governed by and construed in accordance with the laws of the State of New York.

GLOBAL SECURITIES

We may issue the debt securities in whole or in part in the form of one or more fully registered global securities, each a "global security" that will be deposited with, or on behalf of, a depository. Unless otherwise indicated in the prospectus supplement, the depository will be The Depository Trust Company, or "DTC," and the debt securities will be registered in the name of Cede & Co. or another nominee of DTC.

The specific terms of the depository arrangement with respect to any debt securities will be described in the prospectus supplement. We anticipate that the following provisions will apply to all depository arrangements.

9

So long as the depository or its nominee is the holder of a global security, the depository or the nominee will be considered the sole owner or holder of the debt securities represented by the global security for all purposes under the indenture. Except as set forth below, owners of beneficial interests in a global security representing debt securities:

- will not be entitled to have the debt securities registered in their names;
- will not receive or be entitled to receive physical delivery of the debt securities in certificated form; and
- will not be considered the owners or holders of the debt securities under the indenture.

Accordingly, each person owning a beneficial interest in a global security must rely on the procedures of the depository and, if that person is not a participant in the depository, on the procedures of the participant through which that person owns its interest, to exercise any rights of a holder under the indenture. We understand that, under existing industry practices, if we request any action of holders or if an owner of a beneficial interest in a global security desires to give or take any action which a holder is entitled to give or take under the indenture, the depository will authorize the participants holding the relevant beneficial interest to give or take that action, and the participants will authorize beneficial owners owning through them to give or take (or direct the participants to give or take) that action.

Payments of principal of, and premium, if any, and interest on debt securities represented by a global security will be made to the depository or its nominee as the registered holder of the global security representing the

Edgar Filing: GILLETTE CO - Form 424B2

debt securities. Neither we, the trustee for the debt securities, any paying agent for the debt securities nor the securities registrar will have any responsibility or liability for any aspect of the records relating to or payments made on account of beneficial ownership interests in a global security for the debt securities or for maintaining, supervising or reviewing any records relating to those beneficial ownership interests.

Global debt securities may be exchanged for certificated debt securities only if:

- the depository has notified us that it is unwilling or unable to continue as depository for the global debt security or has ceased to be a clearing agency registered under the Securities Exchange Act at a time when such depository is requested to be so registered in order to act as depository;
- there shall have occurred and be continuing an event of default with respect to the debt securities represented by the global debt security; or
- we decide, in our sole discretion, that the global debt security shall be exchangeable.

Unless and until it is exchanged in whole or in part for debt securities in certificated form for any of the reasons above, a global security may not be transferred except as a whole by the depository to a nominee of the depository, by a nominee of the depository to the depository or another nominee of the depository, or by the depository or any such nominee to a successor of the depository or a nominee of such successor.

BOOK-ENTRY ISSUANCE

DTC has advised us that:

- DTC is a limited purpose trust company organized under the New York Banking Law, a "banking organization" within the meaning of the New York Banking Law, a member of the Federal Reserve System, a "clearing corporation" within the meaning of the New York Uniform Commercial Code, and a "clearing agency" registered pursuant to the provisions of Section 17A of the Securities Exchange Act.
- DTC holds securities that its participants deposit with DTC. DTC also facilitates the settlement among participants of securities transactions, such as transfers and pledges, in deposited securities through electronic computerized book-entry changes in participants' accounts. This eliminates the need for physical movement of securities certificates. Participants include securities brokers and dealers, banks, trust companies, clearing corporations and other organizations. DTC is owned by a number of

10

its participants and by the New York Stock Exchange, Inc., the American Stock Exchange, Inc. and the National Association of Securities Dealers, Inc. Access to the DTC system is also available to others such as securities brokers and dealers, banks and trust companies that clear through or maintain custodial relationships with direct participants, either directly or indirectly ("indirect participants"). The rules applicable to DTC and its participants are on file with the SEC.

- Purchases of debt securities within the DTC system must be made by or

Edgar Filing: GILLETTE CO - Form 424B2

through direct participants, which will receive a credit for the debt securities on DTC's records. The ownership interest of each actual purchaser of each debt security (a "beneficial owner") is in turn recorded on the direct and indirect participants' records. DTC will maintain accounts showing the debt security holdings of its participants, and these participants will in turn maintain accounts showing the debt security holdings of their customers. Some of these customers may themselves be securities intermediaries holding debt securities for their customers. Thus, each beneficial owner of a book-entry debt security will hold that debt security indirectly through a hierarchy of intermediaries, with DTC at the "top" and the beneficial owner's own securities intermediary at the "bottom."

- Beneficial owners will not receive written confirmation from DTC of their purchases. Instead, beneficial owners are expected to receive written confirmations providing details of the transactions, as well as periodic statements of their holdings, from the direct or indirect participants through which the beneficial owners purchased the debt securities. Transfers of ownership interests in the debt securities are accomplished by entries made on the books of participants acting on behalf of beneficial owners. Beneficial owners will not receive certificates representing their ownership interests in the debt securities, except in limited cases such as if use of the book-entry system for the debt securities is discontinued.
- DTC has no knowledge of the actual beneficial owners of the debt securities. DTC's records reflect only the identity of the direct participants to whose accounts those debt securities are credited, which may or may not be the beneficial owners. The direct and indirect participants will remain responsible for keeping account of their holdings on behalf of their customers.
- Conveyance of notices and other communications by DTC to direct participants, by direct participants to indirect participants, and by direct participants and indirect participants to beneficial owners, and the voting rights of direct participants, indirect participants and beneficial owners, will be governed by arrangements among them, subject to any statutory or regulatory requirements as may be in effect from time to time.
- Redemption notices will be sent to Cede & Co. (or other DTC nominee) as the registered holder of the debt securities. If less than all of the debt securities are being redeemed, DTC's current practice is to determine by lot the amount of the interest of each direct participant to be redeemed.
- Although voting with respect to the debt securities is limited to the holders of record of the debt securities, in those instances in which a vote is required, neither DTC nor Cede & Co. (or other DTC nominee) will itself consent or vote with respect to the debt securities. Under its usual procedures, DTC will mail an omnibus proxy to the trustee as soon as possible after the record date. An omnibus proxy assigns Cede & Co.'s consenting or voting rights to those direct participants to whose accounts the debt securities are credited on the record date, who are identified in a listing attached to the omnibus proxy.
- Redemption proceeds and distribution payments on the debt securities will be made by us or the trustee to Cede & Co. (or other DTC nominee) as registered holder of the debt securities. DTC's practice is to credit direct participants' accounts on the relevant payment date in accordance with their respective holdings shown on DTC's records unless DTC has reason to believe that it will not receive payments on that payment date.

Edgar Filing: GILLETTE CO - Form 424B2

Payments by participants to beneficial owners will be governed by standing instructions and customary practices and will be the responsibility of participants and not of DTC, the trustee or us, subject to any applicable statutory or regulatory requirements. Payment of redemption proceeds and distributions to DTC is the responsibility of us or the trustee, and

11

disbursements of those payments to the beneficial owners is the responsibility of direct and indirect participants.

- DTC may discontinue providing its services as securities depository with respect to any of the debt securities at any time by giving reasonable notice to the trustee and us. Under these circumstances, in the event that a successor securities depository is not obtained, definitive certificates representing such debt securities are required to be printed and delivered. Additionally, we, at our option, may decide to discontinue use of the system of book-entry transfers through DTC (or a successor depository). In that event, definitive certificates for such debt securities will be printed and delivered.

Neither we nor the trustee has any responsibility for the performance by DTC or its participants of their respective obligations as described herein or under the rules and procedures governing their respective operations.

PLAN OF DISTRIBUTION

We may sell securities:

Edgar Filing: GILLETTE CO - Form 424B2

We may agree to enter into an agreement to indemnify the agents, dealers and underwriters against specified civil liabilities, including liabilities under the Securities Act, or to contribute to payments the agents, dealers or underwriters may be required to make.

Underwriters and their associates and affiliates may be customers of, have borrowing relationships with, engage in other transactions with, and/or perform services, including investment banking services, for us or one or more of our affiliates in the ordinary course of business.

The debt securities will be new issues of securities and will have no established trading market. Unless otherwise indicated in the prospectus supplement relating to a specific issuance of debt securities, the debt

12

securities will not be listed on a national securities exchange or the Nasdaq National Market. We can give no assurance as to the liquidity of or the existence of trading markets for the debt securities.

VALIDITY OF SECURITIES

The validity of the debt securities will be passed upon for us by Ropes & Gray, Boston, Massachusetts.
