These persons are required by regulation to furnish us with copies of all Section 16(a) reports that they file. Narrative Disclosure To Summary Compensation Table and Grants of Plan-Based Awards Table

On May 14, 2007, the Compensation Committee of our Board of Directors approved the terms of an incentive bonus plan for our 2007 fiscal year. Pursuant to the plan, each of our executive officers was eligible to receive an incentive bonus based upon a targeted percentage of his base salary. The percentage of base salary that each executive officer would receive if the Company achieved all of the objectives included in the plan was 100% for the chief executive officer and 50% for each other executive officer.

The plan established the following financial and operational objectives for fiscal year 2007:

The two financial goals each accounted for 25% of the bonus target and were as follows (the "Financial Goals"):

- A measure of net income less certain deductions (the "Income Goal"); and
- A certain gross margin percentage on sales of the Company's products (the "Margin Goal").

The four operational goals each accounted for 12.5% of the bonus target and were as follows (the "Operational Goals"):

- Completion of certain key video game titles;
- Publishing of a certain number of new titles in fiscal 2007;
- Successful execution of a distribution agreement covering the European territory, including conversion of operational and administrative procedures; and
- Successful

execution of the Company's "value" program at certain retail accounts.

In February 2008, our Compensation Committee awarded bonuses of 25% of their targeted bonus amounts to each of our executive officers based upon the achievement of two of the operational goals, which were: (i) the successful execution of a distribution agreement for the European territory, and (ii) the successful execution of the Company's "value" program at certain retail accounts.

On August 3, 2007, our Compensation Committee made restricted stock grants under our 2004 Amended and Restated Employee, Director and Consultant Incentive Plan (the "Incentive Plan") to our executive officers.

The shares of restricted stock vest in equal installments over a three-year period beginning on the first anniversary of the grant date.

We currently have employment agreements with two of our named executive officers, John Gross, our Executive Vice President and Chief Financial Officer, and Gui Karyo, our Executive Vice President, Operations.

Mr. Gross' employment agreement entered into in 2005 provided for an annual base salary of \$250,000 and a discretionary bonus of up to 50% of his base salary. Under the agreement, Mr. Gross also receives an automobile allowance of \$1,495 per month and reimbursement of certain travel related expenses. For fiscal 2007, the amount of the automobile allowance was made part of Mr. Gross' salary, thereby increasing his salary to \$267,462. The agreement also provides that if the Company implements a long term incentive compensation program, he shall be entitled to receive equity awards under such plan in an amount worth approximately 80% of his base salary.

Mr. Karyo's employment agreement entered into this past fiscal year provides for an annual base salary of \$250,000 and a discretionary bonus of up to 50% of his base salary. Under the agreement, Mr. Karyo was awarded 300,000 shares of restricted stock that vest as to 100,000 share increments on each of January 31, 2008, January 31, 2009 and January 31, 2010. The agreement also provides that if the Company implements a long term incentive compensation program, he shall be entitled to receive equity awards under such plan in an amount worth approximately 65% of his base salary.

Nonqualified Deferred Compensation

We did not have any contributions, earnings, withdrawals and balances under any deferred compensation plan for any of the executive officers identified in the Summary Compensation Table during the fiscal year ended October 31, 2007.

Potential Payments Upon Termination or Change-In-Control

We have entered into agreements that require us to make payments and/or provide benefits to certain of our executive officers in the event of a termination of employment or a change of control. The following summarizes the potential payments to each named executive officer for which we have entered into such an agreement assuming that one of the events identified below occurs. The discussion assumes that the event occurred on October 31, 2007, the last business day of our fiscal year, at which time the closing price of our common stock as listed on the Nasdaq Capital Market was \$1.56 per share.

Mr. John Gross, Executive Vice President and Chief Financial Officer

Pursuant to his employment agreement, if the Company terminates Mr. Gross' employment without cause or the agreement is terminated by Mr. Gross for good reason, he will receive severance benefits from the Company, including:

- (i)
- continued payment of his base salary for a period of 12 months, or \$267,462;
- (ii) a cash lump sum

payment, paid at the time the Company's annual bonus is generally paid, equal to his target bonus (50% of his base salary), or \$133,731;

(iii) for any such termination occurring within 90 days after the end of the Company's fiscal year, but prior to the payment of any annual bonus for such period, an annual bonus with respect to such period, provided that he would have otherwise received an annual bonus if he had remained employed as of the date of the payment of such bonus, which for fiscal 2007 would have been \$33,500;

(iv) reimbursement for any applicable premiums he would pay to continue coverage for himself and his eligible dependents under the Company's group health benefit plans under COBRA for a period of eighteen months, or, if earlier, until he is eligible for similar benefits from another employer, which for 18 months would be \$19,180.80; and

6

(v) if such termination of employment occurs within 12 months after a change in control of the Company, then in addition to the payments above: (a) any unvested stock options and restricted stock held by Mr. Gross shall all be immediately and fully vested and exercisable, which as of October 31, 2007 was: 16,900 stock options with an exercise price of \$7.23; 7,000 stock options with an exercise price of \$3.20; 33,333 stock options with an exercise price of \$1.43; and 148,501 shares of restricted stock; (b) the payment of his base salary of \$267,462 would be paid in a single cash lump sum payment instead of over a 12 month period; and (c) a 280G “Gross-Up” payment to the extent any payment to him is characterized as a “parachute payment” within the meaning of the Internal Revenue Code of 1986, which as of October 31, 2007 would have been \$0.00.

The agreement contains customary confidentiality, non-competition, non-solicitation, and indemnification terms and is terminable at-will by either party, subject to the conditions set forth above.

Mr. Gross’ employment agreement defines “Cause” as follows:

• an act of dishonesty or fraud in connection with his responsibilities with the intent that such action would result in his substantial personal enrichment;

• a conviction or entry of nolo contendere for a felony;

• his willful failure to follow lawful, reasonable instructions of the chief executive officer or president of the Company;

• his willful misconduct, provided such conduct is injurious to the Company; or

• his violation or breach of any fiduciary or contractual duty to the Company that results in material damage to the Company; provided that if any of the reasons for cause are curable, then they may be cured within 20 days of receipt of notice from the Company.

Mr. Gross’ employment agreement defines “Good Reason” as follows:

• reassignment or reduction of his duties resulting in material change with respect to his position, authority or responsibilities;

• reduction in base salary or annual incentive opportunity except for a reduction that is applied to substantially all of the other senior executives;

• reduction of benefits except for a reduction that is applied to substantially all of the other senior executives;

• change of his office location by more than 30 miles from his residence; or

• a material breach of a material provision of his employment agreement by the Company, which, if curable, has not been cured within 20 days of notice to the Company.

Mr. Gui Karyo, Executive Vice President, Operations

Pursuant to his employment agreement, if the Company terminates Mr. Karyo’s employment without cause or due to disability, or the agreement is terminated by Mr. Karyo for good reason, he would receive severance benefits from the Company, including:

(i)

continued payment of his base salary for a period of 12 months, or \$250,016;

(ii) continued contributions towards his health care and dental benefits on the same basis as immediately prior to the date of termination for 12 months or, if earlier, until he is eligible for similar benefits from another employer; which for 12 months would equal \$3,271.00;

(iii) if such event occurs within 12 months after a change in control of the Company, then the payment of his base salary of \$250,016 would be paid in a single cash lump sum payment instead of over a 12 month period; and

(iv) any unvested portion of the restricted stock grant of 300,000 shares made to him upon his appointment to the Company would fully vest.

7

The agreement contains customary confidentiality, non-competition, non-solicitation, and indemnification terms and is terminable at-will by either party, subject to the conditions set forth above.

Mr. Karyo's employment agreement defines "Cause" as follows:

• a good faith finding of dishonesty, misconduct or negligence that is materially injurious to the Company, which, if curable, has not been cured within 10 days of notice;

• a conviction or entry of nolo contendere to any crime involving fraud, embezzlement, or moral turpitude;

• a material breach of the terms of his employment agreement or employee non-disclosure agreement, which, if curable, has not been cured within 10 days of notice from the Company.

Mr. Karyo's employment agreement defines "Good Reason" as follows:

• assignment to him of duties inconsistent in any material aspect with his position, authority or responsibilities as outlined in his employment agreement;

• reassignment or reduction of his duties resulting in a material change with respect to his position, authority or responsibilities;

• change of his office location by more than 65 miles from his residence;

• reduction in base salary or annual incentive opportunity;

• an organizational or procedural change that would result in him not substantively reporting to the chief executive officer or regularly presenting operational reports to the Board; or

• any act that interferes with his ability to evaluate, discipline or terminate any individual directly reporting to him (except those employment actions advised by Company counsel); provided that if any event constituting Good Reason is curable then the Company shall have 30 days from receipt of notice to correct such event.

Director Compensation Program

Each non-employee director receives an annual cash retainer of \$40,000, other than the Chair of the Company's Audit Committee who receives \$50,000. In addition, effective December 4, 2007, the non-executive Chairman of the Board receives an additional annual cash retainer of \$20,000.

Each non-employee director also receives annual equity grants valued at \$40,000, other than the Chair of the Nominating and Governance Committee who receives grants valued at \$50,000, and the Chairs of the Compensation and Audit Committees who receive grants valued at \$60,000. In addition, effective December 4, 2007, the non-executive Chairman of the Board receives additional equity grants valued at \$36,000. On the date of appointment, the non-executive Chairman of the Board also received a one-time grant of 25,000 options to purchase common stock at an exercise price equal to fair market value as determined under our Incentive Plan. These options vest and become exercisable on the first anniversary of the date of grant.

The equity portion of the compensation is a mix of 2/3 restricted stock and 1/3 stock options and is granted under the Incentive Plan. The restricted stock is awarded quarterly with the number of shares determined by dividing the applicable dollar amount by the fair market value of the Company's common stock on the day prior to the grant date. The stock options are awarded annually with the number of shares determined using a Black Scholes formula. The options vest over two years, with half vesting on each of the first and second anniversaries of the grant date.

Compensation Discussion and Analysis

Objectives and Philosophy of Executive Compensation

Our executive compensation programs have three objectives:

• attract, motivate and retain highly qualified executive officers;

• increase the likelihood of achieving key strategic, operational and financial performance measures by linking incentive award opportunities to the achievement of performance objectives in these areas; and

• use long-term incentives to maximize stockholder value, as well as promote retention of key individuals, by providing a portion of total compensation in the form of equity.

Our compensation program for executive officers consists of cash compensation and long-term incentive compensation. Cash compensation is paid in the form of a base salary and a performance incentive bonus. Long-term incentive compensation is paid in the form of restricted stock or stock options.

Compensation Decisions

Decisions relating to the compensation of our executive officers are made by the Compensation Committee of our Board of Directors, which is composed of all five independent Board members.

Compensation decisions are made with a view to reaching an overall result that, in the Compensation Committee's judgment, is appropriate and fair to the particular executive officer, both in terms of his own compensation and relative to that of the other executive officers, and fair as well to us and to our stockholders. The Compensation Committee does not reach this result in a mechanical fashion but, rather, considers each executive officer's role and contribution to our performance, his compensation history and the compensation practices at other companies with which members of the Compensation Committee are familiar.

We do not have a fixed allocation among the three components of our executive officers' compensation. We have employment agreements with our Executive Vice President and Chief Financial Officer and our Executive Vice President, Operations, which set certain parameters for the compensation levels of these executives in the areas of minimum base salary, bonus and long term incentive compensation.

Performance Evaluations

After the completion of the fiscal year, each executive undergoes an annual performance evaluation that includes input from each of them as to his or her own performance. The performance of our Chief Executive Officer is evaluated by our Compensation Committee. The performance of our other executive officers is evaluated by the Chief Executive Officer and then reviewed by the Compensation Committee. This process leads to a recommendation for any changes in salary, bonus terms and equity awards, if any, which are then reviewed and approved by our Compensation Committee.

Base Salaries

The Compensation Committee reviews officers' base salaries each year. Except for the movement of certain executives' automobile and transportation allowances to be included as part of salary, the salaries of our executive officers were not adjusted during fiscal 2007. The salaries of Messrs. Gross and Karyo were set by their employment agreements and as of October 31, 2007 had not changed since their appointments in 2005 and 2007, respectively. Joseph Sutton's salary has remained unchanged since his appointment in 2003. As of October 31, 2007, Jesse Sutton's salary had remained unchanged since his appointment as President of the Company in 2005.

Base salaries are intended to provide a regular source of income to our executive officers. For 2007, the Compensation Committee reviewed base salaries and determined that such salaries were

10

adequate to provide a regular source of income to our executive officers and that any additional compensation would be incentive based.

Incentive Bonus

For 2007, the Compensation Committee implemented a performance incentive bonus program for our executive officers intended to provide them with a short term cash incentive and reward for the achievement by the Company of certain financial and operational goals. The terms of the plan are set forth above under the section entitled "Narrative Disclosure to Summary Compensation Table and Grants of Plan-Based Awards Table". The Compensation Committee chose those certain financial goals because it felt that improved financial performance, particularly with regard to net income and gross margin, would increase the value of the Company to shareholders. With regard to the operational goals, the Compensation Committee felt that the achievement of these goals would positively impact the overall performance of the Company's business, thereby creating shareholder value. The Compensation Committee received recommendations and input from management as to the goals to be included in the plan.

Each of our executive officers was eligible to receive the incentive bonus based upon a targeted percentage of his base salary. John Gross and Gui Karyo's percentages were set by the terms of their employment agreements, entered into in 2005 and 2007, respectively. Joseph Sutton's percentage was set to match other executive officers with similar levels of responsibility. The bonus percentage for the Chief Executive Officer was set higher than for other executive officers reflecting the heightened level of responsibility and accountability associated with such position. The targeted bonus level as a percentage of base salary is 100% for the Chief Executive Officer and 50% for each other executive officer.

Under the plan, if the Company's performance did not completely meet each of the objectives established for the year, then the bonus payable to each executive officer would be less than his targeted percentage. As only two of the operational objectives were achieved, bonuses were awarded to the executive officers in amounts equal to 25% of each executive officer's targeted bonus.

Long Term Incentive Compensation

We believe that the Company's long-term performance will be enhanced through equity awards that reward our executives and other employees for maximizing stockholder value. The Compensation Committee believes that the use of equity awards offers the best approach to achieving our compensation goals because equity ownership ties a significant portion of an individual's compensation to the performance of our stock.

Our Incentive Plan authorizes us to grant various forms of equity incentives to our employees, directors and consultants. Our Compensation Committee oversees the administration of the Incentive Plan. We currently make initial equity awards to new executive and certain non-executive employees in connection with their employment with the Company.

During the Company's fiscal year 2005, the Compensation Committee considered implementing a long-term incentive program incorporating (i) awards of restricted stock and/or stock options vesting over a period of time, (ii) award amounts based on targeted percentages of executives' salaries, and (iii) some performance criteria for earning of awards. To assist in the process, the Compensation Committee engaged the services of a compensation consultant, James F. Reda & Associates, LLC, to advise the Compensation Committee in structuring this program. However, during 2005, the Company suffered significant losses thereby removing the need for such a program at that time.

In fiscal 2006, the Company began stabilizing its operations and revising its business model. Recognizing the Company's need for stability, the Compensation Committee sought to make equity awards designed to retain key executives to execute the Company's new strategy. To accomplish this, on August 3, 2006, the Compensation Committee awarded the executive officers restricted stock vesting in equal annual installments over a three year period. The target salary percentages used to determine the number of shares of restricted stock to be granted to each executive officer were equal

11

to 80% of the levels recommended by the compensation consultant in fiscal 2005 as well as 80% of that set by any executive officer's employment agreement.

The Compensation Committee determined that restricted stock was the appropriate form of long term compensation at least until the Company's business becomes more stable and predictable, because:

- the Company had not paid bonuses to its executive officers for fiscal 2005 and 2006;
- the exercise prices of most stock options previously awarded to the executive officers were well below the current market value of the Company's stock;
- as the Company was in the process of stabilizing its operations after significant losses in 2005, the Company needed to take steps to retain key executives to execute its new strategy; and
- the 3-year annual vesting provision of the restricted stock insures that there is strong incentive for the executive officers to remain with the Company.

In addition, because the shares of restricted stock would have a defined value at the time the grants were made, restricted stock is often perceived as having more immediate value than stock options, which have a less calculable value when granted. The Company expects that it will generally grant fewer shares of restricted stock than the number of stock options the Company would grant for a similar purpose.

For fiscal 2007, the Compensation Committee remained focused on retention, as the Company continued to refine and fully implement its revised strategy. On August 3, 2007, the Compensation Committee again made grants of restricted stock to our executive officers based on a percentage of each executive officer's salary using the same rationale as for fiscal 2006.

The salary percentages used were as follows:

	Jesse Sutton, Chief Executive Officer	80% of salary
	John Gross, EVP, Chief Financial Officer	64% of salary
	Gui Karyo, EVP, Operations	56% of salary
	Joseph Sutton, EVP, Research & Development	56% of salary

The shares of restricted stock vest in equal annual installments over a three-year period beginning on the first anniversary of the grant date. The number of shares of restricted stock issued was valued based on the closing price of our common stock on the day prior to grant and the executive officer is awarded that number of restricted shares obtained by dividing the amount represented by his salary percentage by such closing price.

Termination and Change-in-Control Arrangements

Pursuant to the terms of their employment agreements, John Gross and Gui Karyo are entitled to payments and benefits upon the occurrence of specified termination and change-in-control events. The specific terms of these arrangements, as well as an estimate of the compensation that would have been payable had an event been triggered as of fiscal year-end, are described in detail above in the section entitled "Potential Payments Upon Termination or Change-In-Control". The terms of these arrangements were set through course of arms-length negotiations in connection with their hiring. Historically, the Company has not provided these payments and benefits to our other

named executive officers because they accumulated a significant amount of equity in the Company by way of their ownership of Majesco Sales Inc., which we merged with in December 2003, however, the Company may in the future consider providing these payments and benefits as the need arises.

Item 13. Certain Relationships and Related Transactions, and Director Independence.

The Company receives printing and packaging services from a company of which the uncle of Jesse Sutton, our Chief Executive Officer, is an officer and co-owner. During the year ended October 31, 2007, the Company was charged \$1.2 million for services by this company.

During 2007, the Company sold approximately \$152,000 of inventory, and purchased \$47,000 of inventory, from Sutton Sales Inc., a company owned by Morris Sutton, the father of Jesse and Joseph Sutton. Morris Sutton is the former chief executive officer and chairman emeritus of the Company, who resigned effective January 1, 2007 and became a consultant to the Company.

The Company believes that the amounts charged in the transactions described above are equivalent to those that would be incurred in an arm's length transaction.

Morris Sutton resigned from the Company effective January 1, 2007, and became a consultant. The Company paid approximately \$300,000 to Mr. Sutton under a consulting agreement during the year ended October 31, 2007.

Item 14. Principal Accounting Fees and Services.

McGladrey & Pullen, LLP ("M&P") have billed and anticipate billing the Company as follows for the year ended October 31, 2007. As we have previously disclosed, a majority of the partners of Goldstein Golub Kessler LLP ("GGK") became partners of M&P. As a result, GGK resigned as auditors of the Company effective October 26, 2007 and M&P were appointed as auditors for the Company's annual financial statements for the year ended October 31, 2007.

Through September 30, 2005, GGK had a continuing relationship with American Express Tax and Business Services ("TBS"), from which it leased auditing staff who were full time, permanent employees of TBS and through which its partners provided non-audit services. Subsequent to September 30, 2005, this relationship ceased and GGK established a similar relationship with RSM McGladrey, Inc. GGK has no full time employees and, therefore, none of the audit services performed were provided by permanent full-time employees of GGK. GGK manages and supervises the audit and audit staff, and is exclusively responsible for the opinion rendered in connection with its examination.

The following table sets forth the fees billed by our independent accountants for each of our last two fiscal years for the categories of services indicated.

					Year Ended October			
31, Category	2007	2006	Audit Fees – GGK(1)	\$ 86,737	\$ 231,554	Audit Fees – M&P(1)	\$ 146,719	—

Audit-Related Fees(2) — — Tax Fees(3) \$ 60,644 \$ 54,065 All Other Fees — —

(1)

Consists of fees billed for the audit of our annual financial statements, review of financial statements included in our Quarterly Reports on Form 10-Q and services that are normally provided by the accountant in connection with statutory and regulatory filings or engagements.

16

(2) Consists of assurance and related services that are reasonably related to the performance of the audit and reviews of our financial statements and are not included in “audit fees” in this table. (3) Consists of professional services rendered by a company aligned with our principal accountant for tax compliance and tax advice.

Audit Committee Pre-Approval Policy

We understand the need for M&P to maintain objectivity and independence in its audit of our financial statements. To minimize relationships that could appear to impair the objectivity of M&P, our Audit Committee has restricted the non-audit services that M&P may provide to us primarily to tax services.

The Audit Committee also has adopted policies and procedures for pre-approving all non-audit work performed by M&P.
