The Cato Corporation
Notes to Consolidated Financial Statements

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

Principles of Consolidation: The consolidated financial statements include the accounts of The Cato Corporation and its wholly-owned subsidiaries (the Company). All significant intercompany accounts and transactions have been eliminated.

Description of Business and Fiscal Year: The Company has two business segments - the operation of women s fashion specialty stores and a credit card division. The apparel specialty stores operate under the names Cato , Cato Fashions , Cato Plus and It s Fashion! and are located primarily in strip shopping centers in the Southeast.

The Company s fiscal year ends on the Saturday nearest January 31. Fiscal years 2002 and 2001 each included 52 weeks. Fiscal year 2000 included 53 weeks.

Use of Estimates: The preparation of the Company s financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates. Significant accounting estimates reflected in the Company s financial statements include the allowance for doubtful accounts receivable, reserves relating to workers compensation, general and auto insurance liabilities and reserves for inventory markdowns.

Cash and Cash Equivalents and Short-Term Investments: Cash equivalents consist of highly liquid investments with original maturities of three months or less. Investments with original maturities beyond three months are classified as short-term investments. The fair values of short-term investments are based on quoted market prices.

The Company s short-term investments are classified as available-for-sale. As they are available for current operations, they are classified in consolidated balance sheets as current assets. Available-for-sale securities are carried at fair value, with unrealized gains and temporary losses, net of income taxes, reported as a component of accumulated other comprehensive income. Other than temporary declines in fair value of investments are recorded as a reduction in the cost of the investments in the accompanying Consolidated Balance Sheets and a reduction of interest and other income, net in the accompanying Statements of Consolidated Income. The cost of debt securities is adjusted for amortization of premiums and accretion of discounts to maturity. The amortization of premiums, accretion of discounts and realized gains and losses are included in other income.

Concentration of Credit Risk: Financial instruments that potentially subject the Company to a concentration of credit risk principally consist of cash equivalents and accounts receivable. The Company places its cash equivalents with high credit qualified institutions and, by practice, limits the amount of credit exposure to any one institution. Concentrations of credit risks with respect to accounts receivable are limited due to the dispersion across different geographies of the Company s customer base.

Supplemental Cash Flow Information: Income tax payments, net of refunds received, for the fiscal years ended February 1, 2003, February 2, 2002 and February 3, 2001 were $21,982,000, $24,841,000 and $17,435,000, respectively. Additionally, for the fiscal years ended February 1, 2003 and February 2, 2002, the Company accepted in an option transaction from an officer for payment of an option exercise,48,681 mature shares of Class A Common

Stock for $1,144,500 or $23.51 per share, the average fair market value on the date of exchange and 92,600 mature shares of Class A Common Stock for $1,825,000 or $19.71 per share, the average fair market value on the date of exchange, respectively.

Inventories: Merchandise inventories are stated at the lower of cost (first-in, first-out method) or market as determined by the retail method.

Property and Equipment: Property and equipment are recorded at cost. Maintenance and repairs are charged to operations as incurred; renewals and betterments are capitalized. The Company accounts for its software development costs in accordance with the American Institute of Certified Public Accountants Statement of Position (SOP) 98-1, Accounting for the Costs of Computer Software Developed or Obtained for Internal Use . Depreciation is provided on the straight-line method over the estimated useful lives of the related assets, as follows:

Classification	Estimated Useful Lives
Land improvements	10 years
Buildings	30-40 years
Leasehold improvements	5-10 years
Fixtures, equipment and software	3-10 years

Retail Sales: Revenues from retail sales, net of returns, are recognized upon delivery of the merchandise to the customer and exclude sales taxes.

Advertising: Advertising costs are expensed in the period in which they are incurred. Advertising expense was $5,299,000, $4,563,000 and $5,812,000 for the fiscal years ended February 1, 2003, February 2, 2002 and February 3, 2001, respectively.

Earnings Per Share: Basic earnings per share excludes dilution of stock options and is computed by dividing net earnings by the weighted-average number of Class A and Class B common shares outstanding for the respective periods. The weighted-average number of shares used in the basic earnings per share computations was 25,465,543, 25,193,610 and 24,988,844 for the fiscal years ended February 1, 2003, February 2, 2002 and February 3, 2001, respectively. The weighted-average number of shares representing the dilutive effect of stock options was 481,914, 695,026 and 476,388 for the fiscal years ended February 1, 2003, February 2, 2002 and February 3, 2001, respectively. The weighted-average number of shares used in the diluted earnings per share computations was 25,947,457, 25,888,636 and 25,465,232 for the fiscal years ended February 1, 2003, February 2, 2002 and February 3, 2001, respectively.

Vendor Allowances: The Company receives certain allowances from vendors primarily related to purchase discounts and markdown allowances. These allowances are reflected in gross margin at the time they are earned.

Income Taxes: The Company files a consolidated federal income tax return. Income taxes are provided based on the asset and liability method of accounting, whereby deferred income taxes are provided for temporary differences between the financial reporting basis and the tax basis of the Company s assets and liabilities.

Store Opening and Closing Costs: Costs relating to the opening of new stores or the relocating or expanding of existing stores are expensed as incurred. The Company evaluates all long-lived assets for impairment. Impairment losses are recognized when expected future cash flows from the use of the asset groups are less than the asset groups carrying values.

Closed Store Lease Obligations: At the time stores are closed, provisions are made for the rentals required to be paid over the remaining lease terms. Rentals due the Company under non-cancelable subleases are offset against the related obligations in the year the sublease is signed. There is no offset for assumed sublease revenues.

Insurance: The Company is self-insured with respect to employee health, workers compensation and general liability claims. Employee health claims are funded through a VEBA trust to which the Company makes periodic contributions. The Company has stop-loss insurance coverage for individual claims in excess of $250,000.

Fair Value of Financial Instruments: The Company s carrying values of financial instruments, such as cash and cash equivalents, approximate their fair values due to their short terms to maturity and/or their variable interest rates.

Stock-based Compensation: The Company applies APB Opinion No. 25, Accounting for Stock Issued to Employees , and related interpretations in accounting for its stock option plans. Accordingly, no compensation expense has been recognized for stock-based compensation where the option price of the stock approximated the fair market value of the stock on the date of grant. Had compensation expense for fiscal 2002, 2001 and 2000 stock options granted been determined consistent with SFAS No. 123, Accounting for Stock-Based Compensation , the Company s net income and basic and diluted earnings per share amounts for fiscal 2002, 2001 and 2000 would approximate the following proforma amounts (dollars in thousands, except per share data):

	As Reported	Stock-Based Employee Compensation Cost*	Proforma

Recent Accounting Pronouncements: In June 1998, the Financial Accounting Standards Board (FASB) issued Statement of Financial Accounting Standards (SFAS) No. 133, Accounting for Derivative Instruments and Hedging Activities . In June 2000, the FASB issued SFAS No. 138, which amended certain provisions of SFAS 133. The Company adopted SFAS 133 and the corresponding amendments under SFAS 138 on February 4, 2001, and the adoption of this statement had no impact on the Company s consolidated results of operations and financial position.

In July 2001, the FASB issued Statement of Financial Standards (SFAS) No. 142, Goodwill and Other Intangible Assets . SFAS 142 includes requirements to test goodwill and indefinite lived intangible assets for impairment rather than amortize them. The Company adopted SFAS No. 142 on February 3, 2002, and the adoption of this statement had no impact on the Company s consolidated results of operations and financial position, as the Company had no goodwill or other indefinite lived intangible assets.

In August 2001, the FASB issued Statement of Financial Standards (SFAS) No. 144, Accounting for the Impairment or Disposal of Long-Lived Assets . SFAS No. 144 supercedes SFAS No. 121, Accounting for Impairment of Long-Lived Assets to be Disposed Of and Accounting Principles Bulletin (APB) No. 30, Reporting the Results of Operations Reporting the Effects of Disposal of a Segment of Business, and Extraordinary, Unusual and Infrequently Occurring Events and Transactions . Along with establishing a single accounting model, based on the framework established in SFAS No. 121 for impairment of long-lived assets, this standard retains the basic provisions of APB No. 30 for the presentation of discontinued operations in the income statement, but broadens that presentation to include a component of the entity. The Company adopted SFAS No. 144 on February 3, 2002, and the adoption of this statement had no impact on the Company s consolidated results of operations and financial position.

In April 2002, the FASB issued SFAS No. 145, Rescission of FASB Statements No. 4, 44 and 64, Amendment of FASB Statement No. 13, and Technical Correction . SFAS No. 145 rescinds SFAS No. 4, Reporting Gains and Losses from Extinguishment of Debt , and an amendment of that statement, SFAS No. 64, Extinguishment of Debt Made to Satisfy Sinking-Fund Requirements . Because of the rescission of SFAS No. 4, the gains and losses from the extinguishments of debt are no longer required to be classified as extraordinary items. SFAS No. 145 amends SFAS No. 13, Accounting for Leases , to require sale-leaseback accounting for certain lease modifications that have economic effects that are similar to sale-leaseback transactions. The amendment of SFAS No. 13 is effective for transactions occurring after May 15, 2002. There has been no impact to the Company due to the Amendment of SFAS No. 13. Lastly, SFAS No. 145 makes various technical corrections to existing pronouncements that are not substantive in nature. The Company adopted SFAS No. 145 in fiscal 2002 and the impact on its financial position and results of operations of the adoption was not material.

In July 2002, the FASB issued SFAS no. 146, Accounting for Costs Associated with Exit or Disposal Activities . This statement is effective for exit or disposal activities initiated after December 31, 2002. Liabilities for costs associated with an exit activity should be initially measured at fair value, when incurred. This statement applies to costs associated with an exit activity that does not involve the entity newly acquired in a business combination or a disposal activity covered by SFAS No. 144. The Company adopted SFAS No. 146 on December 31, 2002, and the adoption of this statement had no impact on the Company s consolidated results of operations and financial position.

On November 25, 2002 the FASB issued Interpretation No. 45, Guarantor s Accounting and Disclosure Requirements for Guarantees, Including Indirect Guarantees of Indebtedness of Others , which elaborates on the disclosures to be made by a guarantor about its obligations under certain guarantees issued. It also clarifies that a guarantor is required to recognize, at the inception of a guarantee, a liability for the fair value of the obligation undertaken in issuing the guarantee. The interpretation expands on the accounting guidance of SFAS No. 5, Accounting for Contingencies , SFAS No. 57, Related Party Disclosures , and SFAS No. 107, Disclosures about Fair Value of Financial Instruments . The interpretation also incorporates, without change, the provisions of FASB Interpretation No. 34, Disclosure of Indirect Guarantees of Indebtedness of Others , which it supersedes. The initial recognition and measurement provisions of Interpretation No. 45 apply on a prospective basis to guarantees issued or modified after December 31, 2002, regardless of the guarantor s fiscal year-end. The disclosures are effective for financial statements of interim or annual periods ending after December 31, 2002. Although the Company has some guarantees with its subsidiaries, the Company does not believe the impact of this Interpretation on its financial position or result of operations will be material or that additional disclosure is required.

On December 31, 2002, the FASB issued SFAS No. 148, Accounting for Stock-Based Compensation Transition and Disclosure . SFAS No. 148 amends SFAS No. 123, Accounting for Stock-Based Compensation , to provide for alternative methods of transition to SFAS No. 123 s fair value method of accounting for stock-based employee compensation. SFAS No. 148 also amends the disclosure provisions of SFAS No. 123 and APB Opinion No. 28, Interim Financial Reporting , to require disclosure in the summary of significant policies of the effects of an entity s accounting policy with respect to stock-based employee compensation on reported net income and earnings per-share in annual and interim financial statements. While SFAS No. 148 does not amend SFAS No. 123 to require companies to account for employee stock options using the fair value method, the disclosure provisions of SFAS No. 148 are applicable to all companies with stock-based compensation, regardless of whether they account for that compensation using the fair value method of SFAS No. 123 or the intrinsic value method of APB Opinion No. 25, Accounting for Stock Issued to Employees . SFAS No. 148 s amendment of the transition and annual disclosure requirements of SFAS No. 123 are effective for fiscal years ending after December 15, 2002. The implementation of this Statement did not materially affect the Company s financial position or results of operations.

In 2002, the Emerging Issues Task Force (EITF) reached a consensus on Issue No. 02-16, Accounting by a Customer (Including a Reseller) for Cash Considerations Received from a Vendor . EITF Issue No. 02-16 provides guidance on how cash considerations received by a customer or reseller should be classified in the customer s statement of earnings. EITF Issue No. 02-16 is effective for all transactions with vendors after December 31, 2002. The adoption of EITF Issue No. 02-16 did not have a material impact on our consolidated financial position or results of operations.

In January 2003, the FASB issued Interpretation No. 46 Consolidation of Variable Interest Entities, an Interpretation of Accounting Research Bulletin No. 51, Consolidated Financial Statements . This interpretation applies immediately to variable interest entities created after January 31, 2003 and to variable interest entities in which an enterprise obtains an interest after that date. It applies in the first fiscal year or interim period beginning after June 15, 2003, to variable interest entities in which an enterprise holds a variable interest it acquired before February 1, 2003. This interpretation may be applied prospectively with a cumulative-effect adjustment as of the date on which it is first applied or by restating previously issued financial statements for one or more years with a cumulative-effect adjustment as of the beginning of the first year restated. The implementation of this interpretation will not materially affect the Company s financial position or results of operations.
