- ☐ Pre-commencement communications pursuant to Rule 13e-4(c) under the  
Exchange Act (17 CFR 240.13e-4(c))

Item 2.05 Costs Associated with Exit or Disposal Activities.

On June 2, 2005, Engelhard Corporation committed to a plan to discontinue  
manufacturing operations at its Carteret, New Jersey facility, which

## Edgar Filing: ENGELHARD CORP - Form 8-K

manufactures specialty precious metal products. The decision comes after long evaluation of the plant's economic performance and unsuccessful attempts to find a suitable buyer for the operation. The Company expects to record pretax severance expense of approximately \$5 million. While the timing of severance actions is not certain, the bulk of the severance expense is expected to be recorded in the second quarter of 2005. All manufacturing and employee separation activity is expected to be substantially complete by the end of the third quarter of 2005. In addition to the severance charge, the Company will incur other pretax expenses associated with this action of approximately \$3 million. These other expenses primarily include the write-off of raw materials

and work-in-process inventories, and other site exit costs. Tax benefits associated with the above charges are expected to be approximately \$3 million. Of the \$8 million of pretax expenses discussed above, total future cash expenditures associated with this action are expected to be approximately \$6 million.

### Item 2.06 Material Impairments.

As a result of the decision described under Item 2.05 above, which is incorporated herein by reference, the Company will incur an impairment charge in the second quarter of 2005 for idled equipment. This charge is estimated to be approximately \$6 million, with associated tax benefits of approximately \$2 million. The Company will classify this manufacturing operation as a discontinued operation in accordance with SFAS 144, "Accounting for the Impairment or Disposal of Long-Lived Assets."
