### QUADRAMED CORPORATION NOTES TO INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS March 31, 2002

#### NOTE 1. QUADRAMED CORPORATION

QuadraMed Corporation ("QuadraMed") provides information technology and consulting services designed to assist healthcare professionals deliver patient care with optimum efficiency. QuadraMed has four main product lines: Affinity(R) Healthcare Information System, Quantim(R) Health Information Management Software and Services, Complysource(R) Compliance Solutions, and Chancellor(TM) Financial Products and Services. QuadraMed was reincorporated in Delaware in 1996, having been originally incorporated in 1993 in California. Since August 31, 2000, its stock has been publicly traded under the symbol "QMDC" on the Nasdaq SmallCap Market. From October 16, 1996 to August 30, 2000, QuadraMed's stock was traded under the same symbol on the Nasdaq National Market.

#### NOTE 2. BASIS OF PRESENTATION

##### (a) Principles of Consolidation

The accompanying interim condensed consolidated financial statements, include the accounts of QuadraMed and all significant business divisions and subsidiaries, have been prepared in conformity with (i) generally accepted accounting principles ("GAAP") in the United States of America; and (ii) the rules and regulations of the U.S. Securities and Exchange Commission ("SEC"). All significant intercompany accounts and transactions between QuadraMed and its subsidiaries are eliminated in consolidation.

##### (b) Unaudited Interim Results

The accompanying unaudited interim condensed consolidated financial statements of the Company, as of March 31, 2002 and for the three months ended March 31, 2002 and 2001 reflect all adjustments, consisting of normal recurring adjustments, which in the opinion of management, are necessary for a fair presentation of the results for the interim periods presented. These financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America for interim financial information and with the instructions to Form 10-Q and Rule 10-01 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by accounting principles generally accepted in the United States of America for complete financial statements.

These financial statements should be read in conjunction with our annual audited financial statements for the year ended December 31, 2001, which are included in our annual report on Form 10-K filed with the

## Edgar Filing: QUADRAMED CORP - Form 10-Q

Securities and Exchange Commission.

Operating results for the interim periods presented are not necessarily indicative of the results that may be expected for the full fiscal year ending December 31, 2002.

(c) Discontinued Operations

Results of QuadraMed's EZ-CAP software business ("EZ-CAP") are reported as discontinued operations because QuadraMed's control of this business was transferred in August 2001. Unless otherwise indicated, amounts in these statements exclude the effects of all discontinued operations.

(d) Reclassifications

Certain reclassifications have been made to the 2001 interim condensed consolidated financial statements to conform to the 2002 presentation. Specifically, the March 31, 2001, financial statements have been reclassified to comply with Financial Accounting Standards Board ("FASB") Emerging Issues Task Force ("EITF") No. 01-14, Income Statement Characterization of Reimbursements for 'Out-of-Pocket' Expenses Incurred. As such, QuadraMed has reclassified prior year balances to include billable out-of-pocket reimbursable expenses in both license and service revenues and cost of licenses and services, respectively. The adoption of EITF No. 01-14 does not impact either income (loss) from operations or net income (loss) but does reduce revenue and gross margins as shown in the following tables:

	For the Three Months Ended March 31, 2002			For the Three March 3	
	License	Service	Total	License	Ser
Reported revenue	\$ 22,109	\$ 11,050	\$ 33,159	\$ 19,785	\$
Less impact of EITF No. 01-14	272	686	958	219	
Pro-forma revenue	\$ 21,837	\$ 10,364	\$ 32,201	\$ 19,566	\$
	For the Three Months Ended March 31, 2002			For the Three March 3	
	License	Service	Total	License	Ser
Reported gross margin	70.3%	50.8%	63.8%	70.9%	
Impact of EITF No. 01-14	0.9%	3.4%	1.9%	0.8%	
Pro-forma gross margin	71.2%	54.2%	65.7%	71.7%	

NOTE 3. GOODWILL AND INTANGIBLES

As of January 1, 2002, QuadraMed has adopted Statement of Financial Accounting Standards ("SFAS") No. 142, Goodwill and Other Intangible Assets ("SFAS No. 142"). SFAS No. 142 requires goodwill to be

## Edgar Filing: QUADRAMED CORP - Form 10-Q

tested for impairment at least annually, and written off when impaired, rather than being amortized as previous standards required. With the adoption of SFAS No. 142, QuadraMed engaged a valuation firm to perform an impairment test on the carrying value of goodwill as of December 31, 2001. The valuation firm determined that there was no impairment as of that date. The table below presents comparable amounts for 2002 and 2001 on a pro forma basis as if goodwill was not amortized in 2001 (in thousands, except for per share data):

	Three Months Ended March 31,	
	2002	2001
Reported net income (loss)	\$ 291	\$ (2,932)
Add back: Goodwill amortization	-	1,404
Adjusted net income (loss)	\$ 291	\$ (1,528)
=====		
Basic earnings per share		
Reported net income (loss) per share	\$ 0.01	\$ (0.11)
Goodwill amortization	-	0.05
Adjusted net income (loss) per share	\$ 0.01	\$ (0.06)
=====		
Diluted earnings per share		
Reported net income (loss) per share	\$ 0.01	\$ (0.11)
Goodwill amortization	-	0.05
Adjusted net income (loss) per share	\$ 0.01	\$ (0.06)
=====		

Other intangibles are amortized on a straight-line basis over a period of five to ten years. These amounts are reviewed quarterly for impairment and written down to net realizable value, if necessary, in accordance with SFAS No. 144, Accounting for the Impairment or Disposal of Long Lived Assets. This statement addresses financial accounting for the impairment or disposal of long lived assets and supersedes SFAS No. 121, Impairment of Long-Lived Assets.

Amortization of intangibles for the three months ending March 31, 2002 and 2001 was \$0.1 and \$1.6 million, respectively. As noted above, 2001 results included goodwill amortization of \$1.4 million. No impairment charges were incurred during the three months ended March 31, 2002 and 2001.

#### NOTE 4. NET INCOME (LOSS) PER SHARE

Basic net income (loss) per share is computed by dividing net income (loss) by the weighted average number of common shares outstanding during the period. Diluted net income (loss) per share is computed by dividing net income (loss) by the sum of the weighted average number of common shares and common equivalent shares outstanding during the period. Common equivalent shares consist of shares issuable upon the exercise of stock options (using the treasury stock method) and convertible subordinated debentures (using the as-converted method). Common equivalent shares are excluded from the diluted computation only if their effect is

Edgar Filing: QUADRAMED CORP - Form 10-Q

anti-dilutive. As QuadraMed recorded a net loss from continuing operations for the three months ended March 31, 2001, 103,000 common equivalent shares were excluded from the net loss per share calculation because they were anti-dilutive.

	Three Months Ended March 31,	
	2002	2001
	-----	
	2002	2001
	-----	
	(in thousands, except per share amounts)	
Net Income (loss)	\$ 291	\$ (2,932)
	-----	
Shares used to compute basic net income (loss) per share (weighted average shares outstanding during the period)	26,809	25,755
Dilutive common equivalent shares: Stock options	1,784	-
	-----	
Shares used to compute diluted net income (loss) per share	28,593	25,755
	-----	
Basic net income (loss) per share	\$ 0.01	\$ (0.11)
	=====	
Diluted net income (loss) per share	\$ 0.01	\$ (0.11)
	=====	

NOTE 5. COMPREHENSIVE INCOME (LOSS)

The components of comprehensive income (loss) for the three months ended March 31, 2002 and 2001 are as follows (in thousands):

	Three Months Ended March 31,	
	2002	2001
	-----	
Net income (loss)	\$ 291	\$
Unrealized loss on available for sale securities, net of tax	(149)	
Amortization of unrecognized pension costs, net of tax	116	
	-----	
Comprehensive income (loss), net of income taxes	\$ 258	
	=====	

NOTE 6. DIVESTITURES

On August 16, 2001, QuadraMed and its wholly-owned subsidiary, QuadraMed Operating Corporation, entered into an asset purchase agreement for the sale of certain assets and related products used to conduct the

## Edgar Filing: QUADRAMED CORP - Form 10-Q

EZ-CAP managed care software business to OAO Transition, LLC, a Delaware limited liability company ("OAO Transition"), and OAO Technology Solutions, Inc., a Delaware corporation (individually and collectively "OAO"). The asset purchase transaction closed on August 31, 2001, for an aggregate purchase price of approximately \$9.0 million, and the opportunity for QuadraMed to receive up to \$5.0 million in additional payments based on EZ-CAP's revenue growth and customer retention as part of OAO over the 18 months following closing. QuadraMed received net proceeds from the sale of \$8.6 million, and recorded a gain after applicable taxes of \$6.9 million during 2001. Income, net of applicable taxes, associated with the EZ-CAP discontinued operations for the three months ended March 31, 2001 was \$1.0 million.

On March 31, 2001, QuadraMed sold its discontinued Electronic Remittance Advice product line. QuadraMed recorded proceeds from the sale of \$24,000, and a loss after applicable taxes of \$327,000 during the second quarter of 2001. There was no material income associated with the results of discontinued operations for this product line during the three months ended March 31, 2001.

### NOTE 7. CONTINGENCIES

From time to time in the normal course of its business, QuadraMed may be involved in litigation relating to its operations. As of March 31, 2002, QuadraMed was not a party to any legal proceedings that, if decided adversely, would, individually or in the aggregate, have a material adverse effect on QuadraMed's business, financial condition or results of operations.

### NOTE 8. SEGMENT REPORTING

QuadraMed aligns its operations into five segments for management reporting purposes. These segments are based on product functionality and shared target markets. This alignment allows management to more accurately measure financial performance by product/division and to establish greater management accountability. QuadraMed's five (5) business segments are (i) the Enterprise Division, (ii) the Health Information Management Software Division, (iii) the Health Information Management Services Division, (iv) the Financial Services Division and, (v) specialty product lines that have been discontinued or are not aligned with an operating division that are referenced as Other. The segment results reflected in the following tables have been reclassified to reflect this realignment for both current and prior year data. The accounting policies of the operating segments are the same as those described in the summary of significant accounting policies described in the Notes to the Financial Statements contained in QuadraMed's 2001 Annual Report on Form 10-K. QuadraMed evaluates financial performance by segment as summarized in the subsequent table. The financial results for these operating segments for prior years have been reclassified on an estimated basis to conform to the current presentation.

The Enterprise Division offers QuadraMed's Affinity enterprise-wide information system products. With its full suite of applications, Affinity is designed to address a wide range of financial, patient, and clinical management needs of single- or multi-facility hospitals. Principally targeting acute care hospitals across the United States, the Affinity solution incorporates a patient-centered database designed to enable users to track each patient throughout the continuum of care. The system integrates financial information such as patient accounting and DRG/case mix with clinical data such as medical charting and plan of care to automate federal and state reporting, scheduling, registration, and medical records information. The Electronic Document Management solution is designed to allow users to create secure electronic

## Edgar Filing: QUADRAMED CORP - Form 10-Q

patient folders that combine both computerized and scanned documents. The Master Population Index and Performance Measurement products are also reflected in this division.

The Health Information Management Software Division provides QuadraMed's Quantim health information management software products, encompassing a suite of compliance, encoding and grouping, medical record management, and patient database applications that are designed to enable a hospital to accurately track medical records for internal and external purposes. Additionally, the division offers Complysource Compliance Solutions that are designed to support hospitals in managing the complexities of evolving federal requirements and in submitting accurate billing and clinical data. The coding and grouping products aim to protect the integrity of a healthcare organization's clinical data and improve accuracy and coding compliance for ICD-9, CPT, and HCPCS codes. The medical record management product is designed to locate and reserve charts, and authenticate and distribute transcribed medical records.

The Health Information Management Services Division offers Quantim and Complysource Services, which are designed to provide healthcare information management departments with experienced, qualified, and if necessary, credentialed professionals to perform information technology, coding, auditing, accounting, compliance, and medical record services. The division also provides experienced executives for interim assignments in financial and management positions. These services are offered to acute care facilities, as well as, to large physician, clinic, and ambulatory practices.

The Financial Services Division provides QuadraMed's Chancellor Financial Products resources to healthcare providers to reduce accounts receivable backlogs and accelerate cash flow. The division conducts analyses of patient accounts to identify outstanding or underpaid third party payments, to re-bill, and to follow-up on third party claims.

Although not reported as a business segment, QuadraMed also derives approximately four percent of its revenue from Specialty Products that are included in Other. Patient Focused Solutions ("PFS") provides productivity and staffing information principally for hospital nursing staff. Electronic Data Interchange ("EDI") interfaces with the hospital information system to download claims data automatically on a daily basis. Claims are edited onsite and formatted to payer-specific requirements.

Summary financial data by business segment follows for the three months ended March 31, 2002 and 2001 (in thousands):

	For the Three Months Ended March 31,			
Description	Enterprise	HIM Software	HIM Services	Financial Services
Total revenues	\$16,465	\$ 7,328	\$ 4,099	\$ 4,007
Direct margin (loss) (2)	4,529	2,249	392	1,595

- (3) Total depreciation and amortization is comprised of equipment depreciation and capitalization reflected in direct margin; debt offering costs as reflected in interest expense; and goodwill amortization which is reflected separately in the above schedule.
- (4) March 31, 2001 results have been adjusted to be consistent with current period reclassification

### NOTE 9. RECENT ACCOUNTING PRONOUNCEMENTS

In April 2002, the FASB issued SFAS No. 145, Rescission of FASB Statements No. 4, 44, and 64, Amendment of FASB Statement No. 13, and Technical Corrections. This statement updates and clarifies existing pronouncements relating to the classification and reporting of gains and losses from the extinguishment of debt, the treatment of sale-leaseback transactions and also makes technical corrections to existing pronouncements. The provisions of SFAS No. 145 are required to be applied starting with fiscal years beginning after May 15, 2002. QuadraMed is currently evaluating the effect that implementation of this new standard will have on its financial condition, results of operations and cashflows.

In January 2002, the FASB issued EITF No. 01-14, Income Statement Characterization of Reimbursements for 'Out-of-Pocket' Expense Incurred. The statement requires the inclusion of reimbursed expenses in revenue. QuadraMed has adopted this pronouncement, effective January 1, 2002 and has reclassified prior year condensed consolidated financial statements to be consistent.

In July 2001, the FASB issued SFAS No. 142, Goodwill and Other Intangible Assets. The statement addresses financial accounting and reporting for acquired goodwill and other intangible assets and supercedes APB Opinion No. 17, Intangible Assets. SFAS No. 142 addresses how intangible assets that are acquired individually or with a group of other assets should be accounted for in financial statements upon acquisition. In addition, this statement addresses how goodwill and other intangible assets should be accounted for after they have been initially recognized in the financial statements. The provisions of SFAS No. 142 are required to be applied starting with fiscal years beginning after December 15, 2001. QuadraMed has adopted this pronouncement, effective January 1, 2002.

### Item 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

#### Cautionary Introduction and Incorporation of Risk Factors

In this Quarterly Report on Form 10-Q, QuadraMed Corporation ("QuadraMed") and its management discuss and make statements regarding their intentions, beliefs, and current expectations regarding QuadraMed's future operations and performance. Such statements are "forward-looking" statements within the meaning of the Private Securities Litigation Reform Act of 1995. These forward-looking statements are often identified by words such as "anticipates," "believes," "expects," "will," "should" and "intends" and their negatives. QuadraMed and its management caution prospective investors that such forward-looking statements are not

## Edgar Filing: QUADRAMED CORP - Form 10-Q

guarantees of future performance. Risks and uncertainties are inherent in QuadraMed's future performance. Factors that could cause actual results to differ materially from those indicated by such forward-looking statements include, but are not limited to, those discussed under "Business Risks" in "Item 7 -- Management's Discussion and Analysis of Financial Condition and Results of Operations" in QuadraMed's Annual Report on Form 10-K for 2001 ("Annual Report"). Those portions of the Annual Report are incorporated by reference into this report. QuadraMed and its management make forward-looking statements based on currently available information and assume no obligation to update these statements due to changes in underlying factors, new information, future developments, or otherwise.

### Results of Operations

#### Revenues

Total revenue for the first quarter 2002 of \$33.2 million was \$2.0 million, or 6.4% over the corresponding 2001 first quarter. QuadraMed adopted EITF No. 01-14, "Income Characterization of Reimbursements for Out-of-Pocket Expenses Incurred," as of January 1, 2002 with associated reclassification of prior periods. This accounting change requires billable reimbursed out-of-pocket expenses to be reported as both revenue and cost of goods sold. Prior to the adoption of EITF No. 01-14, these amounts were offset against one another within the respective expense accounts. While there is no net income (loss) impact, combined gross margins for the three-month ended March 31, 2002 and 2001 are reduced by 1.9 and 2.6 percentage points, respectively.

**Licenses.** License revenue includes license, installation, consulting and post-contract support fees, third-party hardware and software sales, and other revenues related to the licensing of software products. License revenues in the first quarter of fiscal 2002 were \$22.1 million, an increase of \$2.3 million or 11.7% over \$19.8 million in the first quarter of fiscal 2001. The increase principally represents growth for the Enterprise and Health Information Management Software segments of 7.0% and 36.0%, respectively. With the exception of modest, inflation-sensitive price increases for maintenance contracts, revenue growth was derived principally from increased software sales.

**Services.** Service revenues were \$11.1 million in the first quarter of fiscal 2002, a decrease of \$0.3 million or 2.9% from \$11.4 million in the first quarter of fiscal 2001. The cancellation of several hospital outsourcing contracts in the Health Information Management Services segment in late 2000 that still contributed revenue in the first quarter of 2001 was the primary reason for the comparative decline in service revenue. This decline was partially offset by an increase in the Financial Services segment, which achieved a 31% growth in revenue over the same period in 2001. Early in 2001, QuadraMed terminated the CPR services line within the Financial Services segment due to lack of profitability and concentrated on the accounts receivable and managed care payment review services.

#### Operating Expenses

**Cost of Licenses.** Cost of licenses consists primarily of salaries, benefits, and allocated costs related to software installations, hardware costs, and royalties to third parties. Cost of licenses in the first quarter of 2002 of \$6.6 million represented an increase of \$0.8 million, or 14%, over the 2001 level of \$5.8 million principally as a result of the increased revenue. The resultant gross margin on license revenue was 70.3%, a slight decrease of 0.6 percentage point below the 2001 level of 70.9%.

**Cost of Services.** Cost of services includes expenses associated

## Edgar Filing: QUADRAMED CORP - Form 10-Q

with services performed in connection with the health information management, business office outsourcing, compliance and consulting services, and accounts receivable management. Cost of services in the first quarter of fiscal 2002 of \$5.4 million were \$0.3 million or 4.9% below the 2001 level of \$5.7 million, reflecting a combination of lower revenue and expense reductions. The gross margin earned on services revenue in 2002 was 50.8%, 1.0 percentage point more than the 2001 level of 49.8%, reflecting a shift in mix to Financial Services revenue, which earns higher margins than HIM Services.

**General and Administration.** General and administration expenses were \$11.0 million in the three months ended March 31, 2002, a decrease of 12.5% compared to \$12.6 million in 2001. As a percentage of total revenues, general and administration expenses decreased 7.2 percentage points to 33.3% in 2002, compared to 40.5% in 2001. The decrease in expenses was principally the result of lower salary and related expenses resulting from a lower average staffing level and reduced professional and legal fees.

**Sales and Marketing.** Sales and marketing expenses increased in the first quarter of fiscal 2002 to \$4.9 million, compared to \$3.6 million in three-months ended March 31, 2001. As a percentage of revenue, these expenses increased 3.3 percentage points to 14.8% in 2002 from 11.5% in 2001. The increase in sales and marketing was due principally to the increase in the sales force in each segment and higher commissions on the increased revenue.

**Research and Development.** Research and development expenses in the three months ended March 31, 2002 were \$3.9 million, compared to \$4.0 million in the first quarter of fiscal 2001. As a percentage of revenue, the decrease was 0.9 percentage points to 11.9% in 2002 from 12.8% in 2001. While research and development expenses were essentially flat, the level of research and development investments increased with the funding of development for QuadraMed's Affinity Clinical and Quantim products. During the quarter, QuadraMed capitalized \$0.9 million in development costs compared to zero in the first quarter 2001.

**Amortization of Intangibles.** Amortization of Intangibles declined to \$0.1 million in 2002 from \$1.6 million in 2001 as QuadraMed adopted SFAS No. 142, Goodwill and Other Intangible Assets, and did not amortize goodwill during the three months ended March 31, 2002.

### Interest Expense

Interest expense, net of interest income, was \$0.9 million and \$1.1 million in the first quarter of fiscal 2002 and 2001, respectively. This decline in interest expense was principally due to the decrease in debentures outstanding resulting from repurchases/retirements made in 2001.

### Provision for Income Taxes

Provision for income taxes was zero and \$0.1 million in the three-months ended March 31, 2002 and 2001, respectively. The provision for income taxes was primarily due to state and alternative minimum tax liabilities on certain of QuadraMed's legal entities. For financial reporting purposes, a 100% valuation allowance has been recorded against QuadraMed's deferred tax assets under SFAS No. 109, Accounting for Income Taxes.

### Income from Discontinued Operations

QuadraMed recorded income from discontinued operations of \$1.0 million for the three months ended March 31, 2001, related to the first

## Edgar Filing: QUADRAMED CORP - Form 10-Q

quarter earnings of the EZ-CAP business that was divested on August 31, 2001.

### Liquidity And Capital Resources

At March 31, 2002, QuadraMed held \$30.6 million in cash and cash equivalents, \$2.4 million in short-term investments, \$4.4 million in restricted cash, and \$1.1 million in long-term investments, totaling \$38.5 million.

Net cash provided by operating activities was \$0.8 million in the first quarter of fiscal 2002 compared to \$5.5 million in first quarter of fiscal 2001. This decrease in cash provided by operations is driven principally by a significant increase in incentive bonus payments to all levels within QuadraMed and a smaller increase in deferred revenue during the quarter compared to 2001 because of improved billing practices adopted in 2001.

Net cash used in investing activities was \$1.8 million in 2002, a decrease of \$12.0 million compared to \$10.2 million provided for investing activities in 2001. Majority of the cash provided in 2001 was primarily related to the maturity of short-term investments, compared to zero in 2002. Additionally, \$0.9 million of software development costs was capitalized in 2002, while no capitalization costs occurred in the first quarter 2001.

Net cash provided by financing activities was \$1.8 million during the three months ended March 31, 2002, compared to \$0.2 million used in financing activities in 2001. The 2002 result principally reflected \$1.8 million in cash proceeds from the exercise of options to purchase common stock.

The following table summarizes financial data for contractual obligations and other commercial commitments as of March 31, 2002 (in thousands):

	Total	Payments Due by Period			A
		1 year or less	2-3 years	4-5 years	
Contractual Obligations					
Long-term debt	\$ 87,264	\$ 3,870	\$ 7,740	\$ 75,654	
Capital lease obligations	97	78	19	-	
Operating leases	30,110	4,792	8,066	5,861	
Other long-term obligations	7,775	-	-	-	
<b>Total contractual cash obligations</b>	<b>\$ 125,246</b>	<b>\$ 8,740</b>	<b>\$15,825</b>	<b>\$ 81,515</b>	<b>\$</b>
	Total Amounts Committed	Amount of Commitment Expiration Per Period			A
		1 year or less	2-3 years	4-5 years	
Other Commercial Commitments

Total commercial commitments	\$	4,356	\$ 1,136	\$	100	-	\$
=====							

QuadraMed believes that it will have sufficient liquidity and operating cash flows to fund its scheduled debt service and other obligations for the foreseeable future.

Inflation

The majority of QuadraMed's revenue is derived from perpetual and long-term customer contracts. The term of contracts range from one (1) to five (5) years and the contracts generally allow price increases annually based on external measures of inflation. QuadraMed has increased some of its prices under these contract provisions. QuadraMed's maintenance contract terms also allow annual price increases based on external measures of inflation. Accordingly, inflation has not had, and QuadraMed does not believe that it will have, a significant impact on its financial condition.

Item 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Interest Rate Risk

QuadraMed's exposure to market risk for changes in interest rates primarily relates to its investment portfolio. It is QuadraMed's intent to ensure the safety and preservation of its invested principal funds by limiting default risk, market risk, and reinvestment risk. QuadraMed invests in high-quality issuers, including money market funds, corporate debt securities, and debt securities issued by the United States government. QuadraMed has a policy of investing in securities with maturities of two years or less. QuadraMed does not invest in derivative financial or foreign investments. The table below presents fair values of principal amounts and weighted average interest rates for QuadraMed's investment portfolio as of March 31, 2002, (in thousands, except average interest rates):

	Aggregate Fair Value	Weighted A Interest R
Cash and cash equivalents:		
Cash.....	\$ 6,834	
Money Market funds.....	\$23,735	1.63 %
	-----	
Total cash and cash equivalents.....	\$30,569	
Short-term investments:		
Corporate debt securities.....	\$ 2,380	1.70 %
Debt issued by the U.S. government.....	\$ 33	6.44 %
	-----	
Total short-term investments.....	\$ 2,413	
Long-term investments:		
Corporate debt securities.....	\$ 59	6.18 %
Debt securities issued by the U.S. government.....	\$ 524	5.05 %
	-----	
Total long-term investments.....	\$ 1,120	
	=====	

## Edgar Filing: QUADRAMED CORP - Form 10-Q

### Outstanding Debt.

As of March 31, 2002, QuadraMed had outstanding long-term debt of \$73.7 million, consisting of its Debentures that mature as follows (in thousands, except average interest rates):

Maturity Date ----	Carrying Amount -----	Fair Value -----	Weight In ---
2005	\$73,719	\$59,712	

QuadraMed is not exposed to material changes in interest rate because the interest rate on its Debentures, the bulk of QuadraMed's debt, is fixed at 5.25%.

### Foreign Currency Risk

Although QuadraMed sells its products internationally from time to time, all such transactions are denominated in U.S. currency and there is no foreign currency fluctuation risk associated with such sales.

## PART II. OTHER INFORMATION

### Item 1. Legal Proceedings

In the normal course of business, QuadraMed is involved in litigation relating to claims arising out of its operations. QuadraMed does not believe that the ultimate resolution of any pending proceeding will have a material adverse effect on its business, financial condition, or results of operations.

### Item 6. Exhibits and Report on Form 8-K

(a) The following documents are filed as a part of this Quarterly Report on Form 10-Q.

1. Financial Statements.

The interim consolidated financial statements contained herein.

2. Financial Statement Schedule.

Exhibits. Reference is made to Item 14(c) of this Annual Report on Form 10-K.

(b) Reports on Form 8-K. QuadraMed filed the following reports on Form 8-K during the first quarter ending March 31, 2002:

- (i) Form 8-K dated April 5, 2002, reporting a change in independent public accountants.

Edgar Filing: QUADRAMED CORP - Form 10-Q

(c) Exhibits:

The exhibits listed on the accompanying Exhibits Index or incorporated by reference are filed as part of this Annual Report.

SIGNATURES

Pursuant to the requirements of Section 13 or 15(d) of the Securities Exchange Act of 1934, the registrant has duly caused this form to be signed on its behalf by the undersigned, thereunto duly authorized.
